A RUSSIAN SNUB TO GERMANY.

ST. PETERSBURG, June 10.—General Skobeleff has been appointed military governor of Wilna. The population of that district is mostly Germans, and the appointment is considered significant.

DRESS REFORM.

LONDON, June 10.—In addition to the drawing-room meetings, pamphlets, and other means whereby Lady Harberton's National Dress Society seeks to ventilate its objects, it now threatens irrational ladies with a monthly *Anti-Fashionable Journal.*

CRISIS IN SERVIA.

BELGRADE, June 10.—Much anxiety is caused by a decree ordering fresh elections for the Radicals' seats declared vacant by a party vote of Progressists, taken when no quorum was present in the Skuptschina. A Radical manifesto has been issued demanding the impeachment of the Ministers, and several disturbances are already reported.

BALLOON ASCENT.

LONDON, June 11.—A balloon which ascended from Maldon yesterday landed near Arras, France, having travelled 170 miles.

AN AWKWARD PREDICAMENT.

LONDON, June 11.—A curious parliamentary incident enlivened the usually dull and decorous proceedings in the House of Lords the other night. After the debate on the release of the suspects, the members of the Ministry left, forgetting the usual motion of adjournment of the House. A painful panic ensued; one of the clerks went out into the lobby and captured a noble lord and brought him back to move the adjournment, when the Lord Chancellor was released from his seat on the woolsack, which he could not leave until the motion had been made.

FREEING SLAVES.

MADRID, June 10.—Four Republican and five Cuban autonomist deputies have proposed in Congress a bill for the abolition of the present apprenticeship of negroes under the law of 1880, replacing it with three years' labour, with liberty of contract under government supervision, with civil rights of citizenship immediately, and with civil rights in five years for negroes, and wide tariff reforms. The Government in the present legislation will admit no modification in the colony beyond the bills presented by the Colonial Minister.

THE PYRENEAN RAILWAY.

MADRID, June 10.—Emilio Castelar in a letter to the French Premier, M. de Freycinet, highly praises the prudent policy of moderate Republicanism and its followers in France, and solicits his patronage to assist in the early realization of the Pyrenean railway. Lanfranc and Somfort, with Senor Castelar, as deputy for Aragon, patronizes.

DECEASED WIFE'S SISTER.

LONDON, June 10.—The Lords will divide on Monday on the Deceased Wife's Sister Bill. It is expected that the Prince of Wales will vote on the second reading, as he and the Duke of Edinburg did when the bill was before the House, and when it was rumoured that the influence of court was exercised in its favour owing to an eligible royal match with a deceased wife's sister being on the *tapis.*

MR. SURGEON'S DIGNITY.

LONDON, June 10.—Speaking of Mr. Haweis reminds me to mention another still more popular reverend gentleman, viz., Mr. Spurgeon, whose sermons are being translated into the dialect of North Russia and into Tamil, and who has now attained the additional dignity of having mantles and corsets named after him in shop windows in South London. *Truth* says that the Salvation Army bonnet does very well with the Spurgeon cloak.

GARIBALDI'S FUNERAL.

ROME, June 10.—The storm abating this morning the deputations left Caprera after great privations, disembarking at different points. Prince Thomas has reached Genoa safely; the Ministers, too, have just arrived from Civita Vecchia. Signor Zanardelli, the Minister of Justice, brings Garibaldi's political papers. There is great difference of opinion througout Italy as to the non-observance of Garibaldi's will respecting cremation. The Government will probably purchase Caprera if the corpse remains in the island. The demonstration to-morrow will be merely popular; the Government will maintain order strictly.

A NOVEL KIND OF FAIR.

LONDON, June 10.—Society has hit upon a new thing in fairs, namely, "a Lilliputian fair," to be held at the end of the month at the Duke of Wellington's riding school, under the patronage of several royal ladies. The stalles will be occupied by children in fancy costumes. Several actors have volunteered their services for the entertainments; the sons of Mr. Henry Irving will act in a scene from the "School of Scandal." The object of the fair is to raise funds for the Chelsea Hospital for Children.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

ARE you a martyr to headache Suffer no longer. A remedy is found in Burdock Blood Bitters. It regulates the Bowels, cleanses the system, allays nervous irritation and restores health and vigor. Sample bottles 10 cents.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE EGYPTIAN QUESTION.

BERLIN June 12.—It is proposed, seemingly at the suggestion of France, to hold the Conference on the Egyptian question at Paris and not at Constantinople.

A CABINET CRISIS.

LONDON, June 12.—Serious dissensions in the Cabinet is rumored, Sir W. Harcourt insists upon carrying the Crime Prevention Bill in the most stringent form. Chamberlain and Dilke take the opposite view. The relations of the member of the Cabinet are becoming daily more strained. A break up is regarded as among the immediate probabilities. It is said that Chamberlain and Dilke are contemplating their resignation. Neither Chamberlain nor Dilke have ever spoken in support of the Crime Prevention Bill. Their silence causes curious comment. It is also noticed that both in the house and in the lobbies they maintain a sympathetic and even friendly attitude towards Parnell.

AN UNFAVOURABLE VOTE.

PARIS, June 12.—The vote of the Chamber of Deputies in favour of abolishing the irremovability of the Judge and in favour of the principle that the Judges should be elected, has made a profound and far from favourable impression upon the public mind in France. The ministry are openly hostile to the elective principle, the Minister of Justice, basing his opinion upon a newspaper article, declared that the American system was detestable and had been known to result in the election of thieves by their accomplices.

THE KHEDIVE THREATENED.

CAIRO, June 12.—At a meeting of the military leaders it was decided to petition the Khedive to abdicate. It was declared that if he did not he would be massacred. It is rumoured that the cavalry and artilley will not join in any conspiracy against the Khedive.

TROUBLES IN EGYPT.

ALEXANDRIA, June 12.—The report of the murder of an engineer of the British man-of-war Superb, is not generally credited. The patrols on the streets have been doubled.

SPAIN AND FRANCE.

MADRID, June 12.—The refusal of the French Chamber of Deputies to settle the indemnity of two hundred thousand francs for the victims of Bon Amenas raid at Saida in 1881, has caused a general manifestation of distrust and anger against the French Parliament.

A FATAL FLOOD.

PESTH, June 12.—A flood has occurred at Versezees, owing to a sudden rising of the water in the river. A number of houses and two bridges were destroyed, Twelve children and several adults were drowned.

EUROPEANS MASSACRED.

ALEXANDRIA, June 12.—The disturbances here commenced simultaneously in three different points. The object of the rioters in a measure appears to have been pillage, in which Levantines as well as Arabs participated. Reinforcements have been ordered. The official report of the riot states that 67 Europeans were killed. Arabi Pasha and Mahomed Pasha had separate interviews with Dervish Pasha yesterday. It is generally believed that they refused to submit to Dervish's views. There is great excitement today. All the shops are closed.

AMERICAN.

A SERIOUS FIRE.

OSBORNE, Mo., June 12.—Seven business houses were burned yesterday. Loss, forty thousand dollars.

STEAMER GROUNDED.

SANDY HOOK, June 12.—The steamer Samaria from Liverpool grounded near here this morning. She will probably get off at high water.

A TERRIBLE STORM.

DENVER, June 12.—One of the heaviest rain storms ever known in this section, accompanied by water spouts, swept over Denver on Saturday night, doing thousands of dollars damage. The cellars and basements were filled with water and several houses near Platte River were swept away. Ludwig Muer and Fidele Drier, who were in one house, and three children were drowned. It is feared that other lives were lost. The storm reached over several miles of thickly settled country. At Golden several houses were washed away. The Cambrian fire brick works were struck by lightning and were destroyed.

VIOLENT STRIKERS.

COHOOES, June 12.—Five weavers went to work to-day at the ten per cent reduction. There is great excitement. Three hundred strikers gathered about the mill gates and threatened to kill them, The entire police force are on the ground.

A NEGRO LYNCHED.

ROCK HILL, S. C., June 12.—The negro John Johnson who outraged Miss McDonnell yesterday, was lynched this morning.

WORK RESUMED.

CINCINNATTI, June 12.—The iron mills here and at Covington and Newport are all at work to-day under an agreement made yesterday.

A SERIOUS RIOT.

NEW YORK, June 12.—A party of drunken excursionists from here engaged in a riot at Dobb's ferry yesterday, women as well as men taking part in it. Several were injured. John Francis an innocent resident standing at the door of his house was fatally shot by a rough. The latter was arrested by Constable Francis, ex-assemblyman Bradley and other citizens then arrested five more rioters. The rest left on the train.

A DEMONSTRATION.

MILWAUKEE, June 12.—There was a monster demonstration of workingmen here yesterday. A flag was carried in the procession, and incendiary speeches were made. The strikers at the Bay View rolling mills were not represented. This is regarded as evidence that the Bay View men anticipate an early settlement of troubles.

A BRAVE ATTEMPT.

BOYONNE, N. J., June 12.—William Beapler, aged twenty, the son of the Recorder of this city, was drowned yesterday, while bathing. George Bagert made a desperate effort to save Beapler, and was rescued unconscious.

In 1878 workingmen idle. In 1882 workingmen busy. Vote for HILLIARD and BURNHAM and the Government's policy, which brought such a state of things about.

GOLD—Is excellent for filling decayed teeth; but TRABERRY prevents the decay, makes them white, and makes people lovable. 3 cent samples.

Daily Evening Review

MONDAY, JUNE 12, 1882.

THE ISSUES.

It must be very clear to the electors of both ridings of Peterborough by this time what are the real issues of the present campaign. All who heard the speech in the Town Hall on Friday night of the gentleman who represented the cause of the Reform candidate for the West Riding, and of the Reform party in general, must have a very clear idea of what questions are at issue.

Mr. Bertram having only a limited time—one hour—at his disposal, naturally chose, in addressing such an important and intelligent body as the voters of the town of Peterborough, the matters which he thought to be of most importance and most desirable to be discussed. He stated at the commencement that he would not follow Mr. Hilliard in his remarks that he might be free to choose his own subjects. And what were the points on which he dwelt? They were our fiscal policy, our railway and land policy in the North-west, and the asserted extravagance of the Government.

The charge of extravagance may be dismissed with a few words. The official documents show that the expenditure, leaving out such abnormal items as the census, has not increased except in public works, Indian treaties and such other departments as must necessarily increase as the country grows and developes. In some items such as Legislation, Mounted Police, Weights and Measures, Management of Dominion Lands etc., the cost is actually actually reduced since the Reformers were in power.

Neither need we devote much space here to the C. P. Railway bargain. It is now well known that the work is being pushed forward instead of stagnating, that it is costing less than what the Reformers offered in vain, that the expenditure is being met by the landsales instead of being taken from our pockets, and that there is enough land open for free homesteads and cheap pre-emption, for more millions of settlers than we can hope to see for decades of years, even with the present extraordinary stimulus given to immigration and settlement.

But the remaining subject, that of our fiscal policy was the one to which the speaker for the Reform part devoted by far the greatest portion of his time, his eloquence and his ingenuity—in fact it almost monopolized his attention. It is important to remember that Mr. Bertram was not only chosen to uphold on this important occasion the views of the Reformers of West Peterborough, but that he was more especially the representative, the *alter ego* of Mr. Lundy, who in response to the invitation for him to attend, being prevented from doing so by an engagement for another meeting, sent Mr. Bertram as his personal substitute. It must be remembered that Mr. Lundy did this well knowing Mr. Bertram's views on the tariff question, and that they remain unmodified to the present day as shown by his previous speeches in this campaign. Mr. Lundy therefore cannot object if we assume that he is prepared to support the policy and adopt the views set forth by his advocate and represen ative.

And what had Mr. Bertram to say about our tariff. He condemned the National Policy, root and branch, in theory and in practice. He denounced it as prejudicial to the country in general, to the farmers, to the merchants, to the lumbermen, to the mechanics, to the workingmen and to such manufactures as consume largely the wares in which he himself deals, no other manufacturers apparently having the least sympathy from him. He compared it with the tariff in force under the Reform administration, which he argued to be far better than the National Policy. He remonstrated bitterly against the attempts to discourage the use of foreign goods in favour of home productions. In short, by every available argument and by many quibbles he endeavoured to show that the N. P. was a curse to the country.

It is satisfactory that the true issue before the electors is placed in such a clear light. In other places candidates, who were bitterly opposed a few weeks ago to the N. P., finding at the eleventh hour that the people are thoroughly satisfied with the fiscal policy, for which with all its benefits they are indebted to Sir John Macdonald and his colleagues, and that to oppose it would be suicidal, are posing as half-hearted protectionists, or are discreetly silent on the subject, endeavouring to cloud it by the introduction of side issues. But here in Peterborough the chosen spokesman of the Reform candidate and of the Reform party, places the issue squarely before us, and in common with the great majority of the late Reform Cabinet, in accord, too, with their chief organs, denounces in no measured terms the National Policy, its framers, and its supporters.

Electors, the choice is placed before you. You may vote for a Reform candidate and a Reform tariff, with its accompaniments of deficits, undeveloped resources, hard times, low wages, scanty employment and profits given to foreign manufacturers, foreign mechanics and their providers. Or you may vote for the Conservative candidates and the tariff policy of the Conservative party, with its accompaniments of an overflowing treasury, money for the development of the country, good times, higher wages, constant employment, cheapened necessaries, and profits for our own manufacturers, mechanics and producers.

Think well before you cast your votes, and remember that capitalists, before they invest their money in Canadian industries, are waiting for your decision, to know whether your verdict in 1878 was only a catch one, as they are told, or whether after trying the experiment you still endorse and support the National Policy.

As you regard the prosperity of the country and of yourselves let yours be no doubtful answer.

Workingman, vote for employers of labor, and for the party that supports our home industries.

CAMPAIGN NOTES.

We read in *La Moniteur du Commerce*:—"During the month of May, there were forwarded from Hamilton for Manitoba, goods of iron, steel &c. to the value of $88,342, and similar goods for British Columbia, to the value of $850."

We found no such paragraphs in the commercial journals, while Sir R. Cartwright and Messrs. Blake and Mackenzie were in power. Those provinces then drew their supplies from the other side of the line. We did not even hear of Mr. Tobias Fitzgerald making waggons for Manitoba then.

* * *

Owing to the better management, and to the beneficial effects of the National Policy, the receipts of the Intercolonial railway have largely increased, and as they appear in the accounts of our revenue, and in the surplus, they come in for their share of the blame which the opposition lavish upon the government for increasing taxation. With the enlarged business the expenses of course are necessarily increased, though not in proportion, and as these also appear in the public account, they go to make up the slightly increased expenditure for which the government is unreasonably blamed.

* * *

We find that the Brighton *Ensign's* N. P. is its new paper, its enlarged and improved issue. Our *confrere* could not have better evidence of the good effect of the National Policy than this sign of improvement in his business. We wish success to him and the N. P., that the National Policy may be maintained to insure the prosperity of the country and the success of his new paper.

Vote for BURNHAM and HILLIARD, and stand by the Government that has stood by the country.

CAMPAIGN CLAP-TRAP.

The thoroughly independent Montreal *Star* administers the following well-deserved rebuke to the reformers for their blasphemous doggerel, which they are using for want of argument:—

"The present election contest bids fair to be distinguised by an unusual amount of the most senseless party rant. As for as we can judge, the Liberals seem to be pre-eminent in this bad business; but their opponents are far from guiltless. Both parties are making a dead set against the intelligence of the country, placing all their trust apparently in the strength of the prejudices and passions it is their aim to excite. The Liberals would have the country take "vengeance" on the Government for the National Policy; through, if there is a fact more certain than any other, it is that the National Policy was introduced at the pressing demand of the country. Is a Government to be punished for doing that which the people in the most unmistakable manner required? Let the country change its mind if it will; but there can be no hollower or more malicious pretence than that the Government deserves to be overthrown for having done three years ago just what the country wanted. At a great Reform meeting in Toronto, last week, certain "campign songs" were sung, containing such sentiments as the fallowing:—

"Shall Tory Cabinets, mischief breeding
With glutted greed—monopoly—
Despoil the birthright of the free,
While burden poverty lies bleeding?"

A thousand times—bosh! "The free," whose birthright, according to this precious doggerel, is being "despoiled," are just the same free who called out for the National Policy in 1878, and who sent Mr. Mackenzie very far to the rare, precisely because he would not pay any heed to the popular demand. And yet "the free," forsooth, are to consider themselves very much injured because they were allowed to have their own way. Listen to the call to arms after the manner of *La Marseillaise*:—

"To arms! swift vengeance take,
Your votes, can power unmake
March on! march on! all hearts resolved
For Canada and Blake!"

It is really a wonder that sensible people do not turn absolutely sick at such rubbish. But this is not the worst. Another "campaign song" contain lines like these:—

"God bless our glorious land,
Palsy the traitor's hand,
Her rights maintain!"

Wouldn't it be just as well to keep the name of God out of such malignant drivel as this. To use that name for "campaign" purposes, is not a happy thought, to say the least of it; and to couple it distinctly with a curse is going very far indeed—further, one would have thought that respectable Ontario Liberals would approve. However, the campainers will take their own way; and, if they think a little cursing will help them, they will not be deterred by small scruples. It is for the people to express their opinion of these and other methods of party warfare.

YOUNG'S POINT.

From Our Own Correspondent.

A meeting on behalf of Mr. Lundy the Reform candidate in opposition to Mr. Hilliard, was held here at the school house on Friday evening. Mr. Lundy was escorted from Peterborough by Messrs. R. E. Wood and Dr. R.W. Bell. The chair was taken at 8 o'clock p.m. by Mr. P. A. Kearings who called upon M. Lundy to address the electors, and that gentleman began his discourse by saying he was no hand at public speaking, but he had if elected to be their member this time, instead of Mr. Hilliard, he would give Mr. Blake his out and out support through thick and thin, as he had been a Reformer from his boyhood. He was very sorry to have to run against such an able man as Mr. Hilliard, but had to throw all those feelings aside to please his party, who put him in the position of candidate much against his own will, and if he had known in time that Mr. Hilliard was to be for the second time the candidate for the Liberal Conservatives he would not be asking their suffrages. Mr. G.M. Roger who happened to be in this section with a picnic party, remained as he was anxious to address the meeting, and was called upon by the chairman. He in a very felicitious speech (being his first political one) told the audience we were on the verge of a great crisis, tried to show up the National Policy etc., but without effect as the farmers around this this section know the great benefit the National Policy has been to them. He also complimented Sir John Macdonald for being a far-seeing statesman who could play his cards with any other man in Canada. Mr. Poussette was the next speaker, and addressed the electors on behalf of Mr. Hilliard. He showed up the fallacies of the previous speaker in regard to both facts and figures. He concluded his speech, which was limited to an hour, by asking the electors to vote for Mr. Hilliard on the 20th of June, and uphold a good Government, one that has saved the country from ruin. Mr. Wood also addressed the meeting on behalf of Mr. Lundy, which just amounted to the same old song, to be sure and vote for the man who would, if elected, support Blake and his no policy platform. The meeting was very well attended. The audience was nearly all supporters of Mr. Hilliard, with the exception of about 4 or 5 Grits from the neighborhood. Three cheers was given for the Queen and the meeting broke up at a late hour.

Vote for HILLIARD and BURNHAM, and encourage manufacturers to locate here.

REMEMBER THE

Ennismore Pic-Nic

WHICH TAKES PLACE ON

WEDNESDAY, 14th INST.,

In Hennessey's Grove.

In addition to the usual attractions on such occasions there will be a POLITICAL CONVERSAZIONE, at which the distinguished orator, **Mr. John Gray**, of Ottawa, will be present and deliver an address. Dinner at Noon. Speaking to commence at 1 p.m.

Ennismore, June 12, 1882. 24137

To the Free and Independent Electors of the

WEST RIDING OF PETERBOROUGH.

GENTLEMEN,—

At the urgent solicitation of my political friends I have consented to be again a candidate for your suffrages at the approaching election.

While I would have preferred not to have been a candidate on the present occasion, yet now that I have placed my services again at your disposal, you may rest assured that no private duty or engagement will be allowed to interfere with the proper discharge of my duties as your representative, should I be honoured with your confidence for the second time.

Although I failed to be present at every division during the recent session, I would venture to challenge my political opponents to specify a single instance in which I have neglected the interests of my constituents or failed to discharge the duties devolving upon me as your representative to the best of my ability and judgment.

During the past four years I have rendered a cheerful support to the government of Sir John A. Macdonald, believing that it has not only redeemed the pledges given previous to the last general election, but that its policy has been and is one eminently calculated to promote the prosperity of the country, and should you again honor me with your confidence I shall continue to give the present government the same cordial support, so long as their policy commends itself to my judgment.

In conjunction with the other representatives from this section of Ontario, I have done all in my power to secure the early construction of the Trent Valley Canal, and the large measure of success which has attended our past efforts should assure the electorate of this district that if their present representatives are re-elected and the present government sustained, this great and long-looked-for work will be brought to an early completion.

As it will be impossible for me to undertake anything like a personal canvas between this and polling day, I trust those favorable to the cause of good government will render me their hearty support without waiting to be asked, and that all the electors will make it a point to attend the meetings which I propose holding in different parts of the constituency for the purpose of public explanation and discussion of the several questions involved in the present campaign.

Again thanking you for the confidence reposed in me in 1878, and soliciting a renewal of the same,

I am, gentlemen,
Your ob't. serv't.,
CEO. HILLIARD.

LINDSAY.

SAD ACCIDENT.—The *Warder* says that a sad accident occured at the junction at Whitby, on Saturday, to Mr. Timothy Heenan, an old and well known resident of Lindsay. On the night in question it appears he was coupling cars at the yard there, and in arranging the bolt of one car it had missed coupling, so he signaled the engine driver to try it again. It appears, however, either from the grade or some other cause that the car which he intended to couple when the other car was being drawn away backed down again to the one Mr. Heenan was at fixing the bolt, and before he was aware struck him in the back and crushed him against the bumper of the other car. He was removed and cared for and on Monday morning felt much better for a time, but soon got worse and died about seven o'clock. His body was brought to Lindsay and the funeral took place on Tuesday, attended by a large number of friends and acquaintances. Mr. Heenan leaves a wife and five children to mourn his untimely death, and who have the sympathy of the town in their bereavement. Mr. Heenan was for some years in our town council as a representative of the east ward, and was widely known in this district, where, we believe, he was born and raised.

IMPROVING.—Mr. Henry Dean, son of Mr. James Dean, engineer on the Midland express train on the Whitby division, and who was all but fatally injured by falling from a train on which he was breaking in Arkansas some time ago, is slowly improving. He was brought home to Whitby soon after the accident by his father, and the best medical aid obtained; but it is scarcely probable the young man will wholly recover, his back being broken and his lower limbs paralyzed. So severe are his injuries that on the long journey home he had to be encased in plaster of Paris to be moved and was insensible during the greater part of the time since he has been home. However, he has been doing well and though his situation is as yet precarious there are hopes of his recovery. Mr. Harry Dean is well known in this town, having many friends and relations here.

THE PAPER MILL.—The repairing of the Lindsay paper mill is going on steadily. Stone foundations, new drains, large additions, etc., are being built, and when everything is completed, the building will be unsurpassed for manufacturing purposes. It is expected the mill will be in operation about the 1st of September.

EXTENDING.—The excavations for the foundation of the new building to be built by Mr. James Hamilton as an addition to his already large workshops have been made, and work on the building will be begun at once. A twelve horse power engine and boiler have also been purchased by Mr. Hamilton to run his machinery.

HANDY.—The difference of the river above and below the locks is between 18 and 20 feet. It has always been a bother to any canoeist or boating party who wished to reach one water from the other, having to drag their outfits around the lock. This trouble is obviated by a convenience just built. A long sloping platform, with a stout railing, runs down from one level to the other, and a voyager can now make the portage with very little exertion. To whom are we indebted for this work? His name should be handed down to posterity canned up in the hearts of a grateful people.

GASEOUS.—The lighting of our churches with gas instead of coal oil lamp as at present will be a relief. As it now stands perhaps thirty lamps are lighted half an hour before services commence—sometimes they are turned down low—and before the congregation disperses those who are seated in the gallaries are suffering from something like a mild form of suffocation from the vile smell from the lamps.

KILLLED.—On Wednesday forenoon a steer belonging to Mr. E. Veitch was struck by an engine on the Victoria division of the Midland railway and hurt so badly that it had to be killed. One of its legs was broken and the other badly crushed, also a horn loosened and the body shaken up generally.

FENELON FALLS.

SMITH'S MILL.—The *Gazette* says that Mr. R. C. Smith's mill on the south side of the river, known as the new mill, resumed work on Thursday. Extensive additions to it have recently been made, the immense kiln for consuming refuse has been connected by an archway with a "tall chimney" about thirty feet distant, and on Tuesday the bell, which has just been placed on the top of the mill, was rung for the first time. The bell, which was cast by Rumney & Co., of Seneca Falls, does not look very large viewed from the ground, but it weighs 230 pounds and can be heard a long way off. By an arrangement made with the man in charge of it, it is to be rung every evening at 8 o'clock during the remainder of the summer as a signal to the merchants to close their stores.

FIRE AT HALIBURTON.—Last Monday night, about 12 o'clock, Mr. George S. Thompson's two story frame house in the village of Haliburton was destroyed by fire, which is supposed to have originated in some way from a stove-pipe. The only particulars we have heard are that a considerable portion of the contents was saved, and that the property was insured, but to what amount our informant did not know. The house was one of the best and most conveniently arranged in the village, and was worth a good deal of money.

COLLAPSE.—The brick arch recently built over the kiln at Smith's new mill collapsed last Thursday morning, about three hours after the fire was started. The arch was formed on a wooden foundation, which was left to be burned out, and as soon as it was consumed the brick work caved in. The next cover for the kiln will probably be of iron.

MILLBROOK.

PRESENTATIONS AND ADDRESS.—The *Messenger* says that the Church people in the Parish of Cavan, on hearing of their esteemed Rector's purpose to visit the Old Land, could not let the opportunity pass, without showing their appreciation of the zeal and earnestness, with which he had labored amongst them. Accordingly a deputation from St. John's Church, waited on him, on Saturday evening, when an address was read by Mr. Robert Vance. On Monday evening, June the fifth, a large number of the Congregation of St. Thomas' Church, Millbrook, visited the Rectory, where an address was read by Dr. Turner. To both addresses Mr. Allen made suitable replies, thanking the people for the kind feelings which prompted them, not only to refer with approval to his past labours amongst them, but also for the generous gifts with which they presented him. The purse, from St. John's Church amounted to one hundred dollars, that of Millbrook, one hundred and fifty, and from Trinity Church and members from outside portions of the Parish, enough to make it up to nearly three hundred dollars. The Rev. gentleman left, on the early train, on Tuesday for New York, where he will spend a couple of days with his son, Dr. Thomas H. Allen, previous to sailing from that City, on Saturday next.

FAIRWEATHER & CO.

FROM ALL OVER.

JOHN DAVIS, who died in England in 1788, considerately bequeathed $1.25 to his widow, to enable her to get drunk once more at his expense.

F. C. MATIESON of Bartholomew house, London, has issued a complete list of the electric light companies that have been floated in England to date. They number just thirty-three, and have an issued capital of about £6,600,000.

A COMMON, and often fatal, disease is Jaundice. Regulate the action of the Liver, and cleanse the blood with Burdock Blood bitters, and the worst case may be speedily cured.

ON May 13 the Forty-second Highlanders escorted the heralds and pursuivants of Scotland to the Cross of Edinburgh, where royal proclamation was made authorizing the circulation of British coins as current money in Cyprus. The connection seems samewhat remote to outsiders.

WHY suffer from Indigestion and Dyspepsia when Burdock Blood Bitters will positively cure these ailments? A trial bottle only costs 10 cents.

THE contributions for the sufferers by last year's fires in Michigan amounted in value to $1,500,000, of which two-thirds was cash. The work of distribution was so well done that the opening summer finds the burnt district in a more favorable condition than there was reason to expect.

R. H. CAMERON, 23 Park Row, New York City, Publisher of Business Directory, of Merchants in Mexico, Cuba, Porto Rico, W. I., says:—"I, myself, have suffered a great deal from rheumatic gout, and about six months ago was induced by a friend to try St. Jacobs Oil. I used two bottles and haven't had a twinge since; previous to that I have generally had an attack about once a month.

CARD playing is practised in no country to so great an extent as in Russia. All ages and both sexes are passionately fond of it. The manufacture of playing cards is a government monopoly, and there is only one factory, from which 24,000 packs are turned out daily, or over 7,000,000 a year.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

THE Paris correspondent of the *Lancet* writes: There is no doubt that a great number of dyspeptic cases that are met with in civilzed countries owe their origin to the abuse of mineral waters; the result being undue dilation of the stomach, and the production of a tonic dyspepsia, one of the most harrassing forms of the malady for both patient and physician."

CASES of alleviation of heat troubles are freely reported in the medical journals as due to the use of nitro-glycerine in drop doses. The effects of the drug are described as sedative, gently narcotic, and, in larger doses, not unlike alcohol. It would be interesting to know how soon a "nitro-glycerine habit" will be added to the increasing varities of drug enslavement.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents of J. McKee Peterborough.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

WILL CURE OR RELIEVE

BILIOUSNESS, DYSPEPSIA, INDIGESTION, JAUNDICE, ERYSIPELAS, SALT RHEUM, HEARTBURN, HEADACHE, DIZZINESS, DROPSY, FLUTTERING OF THE HEART, ACIDITY OF THE STOMACH, DRYNESS OF THE SKIN,

And every species of disease arising from disordered LIVER, KIDNEYS, STOMACH, BOWELS OR BLOOD.

T. MILBURN & CO., Proprietors, TORONTO.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laborstory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort witnin 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laborstory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

MUNRO & ALEXANDER

Daily Evening Review

MONDAY, JUNE 12, 1882.

New Hose.

The new hose ordered by the town some time since have arrived here, and will be tested as soon as the engine is put in thorough repair.

Lacrosse.

Arrangements have been made by which a match will take place here on Dominion Day, for the Gildersleeve cup. Further particular will be given later.

Who is He?

We wonder who is the correspondent of the *Globe* who writes it such transparent absurdities as to the progress of the campaign in these Ridings.

Cricket.

The Peterborough Cricket Club have just received a complete outfit of cricket material and it is hoped that all those interested in the game will make use of it. Tuesday and Thursday will be the regular practice evenings, at 6.15 sharp, commencing to-morrow.

The Weather.

At length it seems that we are likely to have summer, for to-day has been warm and bright. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes Light, to moderate, variable wind. Fine warm weather.

Jersey Bull.

Our neighbor Mr. John Ludgate, has procured a splendid young Jersey Bull, thorough-bred, from the herd of Mr. Carroll, who recently sold one of his cows for $1,000. We are glad that this famous breed of heifer making animals is represented in our neighborhood, as for town cows, where richness of milk is the great consideration, no finer breed can be found. Mr. Ludgate's enterprize deserves recognition.

Pedestrianism.

A pedestrian tournament under the management of Mr. Thos. McNaughton, of this town is billed to take place in the rink on the evening of June 22nd. The tournmament held by him in September 1881, proved a grand success and was pronounced by the judges to be one of the best ever held in Canada, and it is also to his enterprise that our townspeople are indebted for the carnival held last February. Mr. McNaughton promises to produce some of the best men in Canada at this tournament. He should be well patronized.

WHISTLING UP THEIR COURAGE.

To the Editor of the Review.

DEAR SIR,—I see little use in the Conservatives holding a contest and going to the polls at the coming election, for according to the *Globe*, which has gone over nearly every constituency in the Dominion, the Reform candidate will redeem the country, meeting with every certainty of success, or will be elected by an overwhelming majority, etc., etc. If that is the case, why hold an election? However, on the 20th we will see what we will see.

Yours, &c.,
ELECTOR.

PORT HOPE.

OBIT.—The *Times* says that our readers learned with profound regret of the death in Toronto last week of Mr. Duncan D. Riordan, son of John Riordan, Esq., of this town. The deceased was well-known throughout the country, and was held in the highest esteem by all. Had he lived, beyond question, he would have proved himself one of the leading lawyers of the Dominion. The family have the heartfelt sympathy of all our people in their great bereavment.

ACCIDENT.—Mr. James Stone, of Protestant Hill, who some time ago, while working at his trade, as a sailmaker in Toronto, pricked his finger with a needle he was using, resulting in a very sore hand, and finally necessitating the removal of the finger, had the operation skilfully performed by Dr. Clemesha a few days ago. Under Dr. Clemesha's care Mr. Stone is now doing well.

A COW YARN.—We are informed that a cow standing on the M. R. track near Beamish's mill was struck by a passing train, and carried to Robinson's crossing, a distance of about half a mile. She was not killed, however, and walked to her home in Englishtown, after her involuntary ride on the cars.

Electors of East Peterborough, vote for JOHN BURNHAM, who has served you to your satisfaction as Reeve, Warden, and Member of Parliament.

ENNISMORE.

From Our Own Correspondent.

WEATHER NOTES.—The month of May on the whole has been a wet, cold, backward month, rain falling on 13 days and according to Hick's measurement to the depth of 3 50-100 inches. Snow fell on the evening of the 1st and morning of the 2nd. There was frost on 7 mornings with the thermometer at freezing point or below it. The lowest temperature was on the morning of the 3rd, namely 27°, and the highest on the evening of the 20th, namely 64°. The hottest day was on the 21st, the mercury standing 88° at 1 o'clock, the average at sun rise and sun set giving 44.3, degrees above zero.

THE CROPS.—The crops have made little progress owing to the continued cold weather. Fall wheat is doing pretty well, but hay will be a short crop. Fruit of all kinds has a fine promising appearance, the trees being covered with blossoms; we might have a short crop although plenty of blossoms, but one thing is certain, we cannot have a heavy crop with light blossoms. During the last thirty years I have remarked as a general rule, which seldom fails, that with a late cold spring and our natural forest trees not being in full leaf till between the 24th of May and 1st of June, we will have a good crop of fruit. The reason I believe is the cold keeping the blossoms back till the frost is gone, which would be otherwise in an early spring.

BOBCAYGEON.

FIRE.—The *Independent* says that all the buildings in connection with the Lime Kiln, down the river, were burnt, last week. This is the second time they have been destroyed.

KILLED.—Robt. Kelly, who was working for Messrs. Elliot and Robinson, in Harvey, met an untimely death this week. He was engaged on a sawing machine, when a hand spike got caught in the machinery and way shot out with tremendous force, striking the unfortunate man in she stomach. He died shortly after.

FAREWELL.—A parting supper was held, on Saturday last, at the Forest House, for the purpose of bidding a safe journey to Mr. Andrew Arnber, who left on Monday morning for Oregan. A large number were present, Mr. Howson was in the chair, and Mr. J. H. Thompson occupied the Vice-chair. It is to be deeply regretted that so clever a workman could not be retained in our own country.

OMEMEE.

THE NORTH WEST.—The *Herald* says that on Tuesday morning last Mr. N. P. Clark, accompanied by Mr. W. V. Hémingway, left this village for the North West, where they intend taking up land. Mr. Clark is a surveyor and has a thorough knowledge of the lands in that far away country, and will no doubt secure a good home. He carries with him the good wishes of a large number of friends.

A BAD CUT.—On Wednesday last a boy named Alfred Blackwell, aged 13, met with a severe accident at the school grounds in this village. He was getting a drink at the pump, when he by some means fell, his left leg going down a spout, was caught on a nail, receiving a bad gash just below the cap of the knee. The boy was taken to the office of Dr. Norris, who dressed the wound, putting in one stich to draw the cut together.

NORTH MONAGHAN.

HONOR ROLL.—The following is the honor roll of School Section No. 1, North Monaghan, J.R. Stevenson, Teacher.

FOURTH CLASS—1st Lizzie Huston; 2nd Edie Huston; 3rd Archie Lillico.

THIRD CLASS—1st George Payne; 2nd Richard Payne, 3rd Lizzie Young; 4th Albert Barnard.

SECOND CLASS—1st Pricella Payne; 2nd Kate Fowler; 3rd Mary Huston; 4th Carrie Barnard.

FIRST BOOK PART II—1st Christena Douglass; 2nd Belle Young.

FIRST CLASS SENIOR—1st Bruce Fowler; 2nd Ellie Patten; 3rd Minnie Lillico; 4th Albert Walton.

FIRST CLASS JUNIOR—1st Sophie Barnard; 2nd Maggie Young; 3rd Louis Fry; 4th John Dundas.

WOOD PULP.

The mills of the Canada Paper Company at Windsor add to the old process of producing paper from rags and ropes the extensive production of paper pulp from wood by a chemical process. The wood is cut by a powerful rotary machine into chips, which are shovelled into immense revolving boilers, where they are boiled with a mixture of soda ash and water, previously prepared. The boiled mass comes out thoroughly reduced to soft pulp, the rosins and other ingredients of the wood, except the fibre, having passed into the liquor. This black liquor is then passed into an oven of enormous size, where it passes down, as it were, from story to story, and finally over a long bed of coals. Here it is dried away and burned; every thing that is not soda ash is turned into vapor and the vapor is consumed by flames passing over the surface of the mass. The soda ash then becomes again fit for use. The pulp is secondly washed with water, and the product is used for the first washing of the next lot, and finally with water again, the product of which is drained away. The pulp then goes through a complicated process of straining, and bleaching with chlorine, when it is ready to mix, in proper proportion, with other stock. The pulp made from wood by this chemical process is much better than what is merely ground. Mr. Angus of the Canada Paper Company, is erecting pulp mills at Angus on the Quebec Central, where he expects to prepare that article for the paper mills of the Dominion. It seems strange that Canada should not long ago have become an exporting country for what now is a large article of commerce and one she is so peculiarly well circumstanced to produce.—*Montreal Witness.*

$300.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

THOUSANDS suffer untold miseries from Nervous Weakness, Pain in the back, and other distressing symptoms arising from disordered Kidneys. Burdock Blood Bitters is the Sovereign remedy. Trial bottles 10 cents.

THE DOCTOR'S SECRET.—Probably no new development will more surprise the public, than to learn the secret of success of certain leading physicians. When they have a difficult case of throat or lung disease that baffles their scientific skill, they prescribe Dr. King's New Discovery for consumption, Coughs and Colds, having it disguised in a prescription bottle, with their own directions and name attached. The patient is cured and they get the credit.—*Tribune.* Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.—2

CAR WORKS.

A *Sun* reporter who casually called at Messrs. Jas. Harris & Co's car works lately was allowed an opportunity of inspecting some of the new machinery and appliances recently added to that extensive establishment, and the introduction of which has enabled the firm so to increase their facilities that they are now able to turn out two first-class passenger cars a month and four freight cars a day. The machinery which has been lately introduced consists of a new band saw (made by the firm), a nest of six emery wheels, a saw gummer, an automotic planer knife grinder, and a new planer and matcher. In another part of the works was seen a shaving machine, which is commonly known as an irregular moulder; a planer, (that will plane a stick 16 in. square by 40 ft. long,) the only one of like capabilities in this city, a morticer and double borer, and a gaining machine, a most ingenious contrivance, of the invention and manufacture of Messrs. Harris & Co. The machinery above enumerated has been mostly made by the firm on their own premises, and has been recently put in position to meet the requirements of their largely increasing business. To meet the consequent extra demand for power the proprietors have built a 40 horse power engine (which was constructed and in full operation within four weeks from its commencement), and have been supplied by Messrs. McLaughlin with a new boiler. This driving power is used exclusively for the car works.

To turn out such a large number of cars as the capacity of the works will allow, Messrs. Harris & Co. give employment to fifty hands. The cars at present in hand consist of two first class passenger cars for the Grand Suthern Railway, one passenger and one mail car for the Quebec and Sorel Railway, and two hundred flat cars for the Canadian Pacific.—*St. John Sun.*

Arabi Bey.

Arabi Bey, the Egyptian war minister, was just before his ascession to power a petty employee in the Cattani firm, where his duties consisted in superintending the fodder supplies with which that firm was intrusted. This is by no means the first time since the days of Joseph the Hebrew when a mean man has sprung to power in the valley of the Nile. The founder of the present Khedive's family was himself but an Albanian peasant, so Arabi Bey's rise is not a thing to be laughed over by quidnuncs, but very much the reverse.

NEVER despair of becoming a good writer when Esterbrook's steel pens are within the easy reach of all, both in the ease with which they can everywhere be procured from the stationers, and the low price at which they are sold.

ERYSIPELAS, Scrofula, Salt Rheum, Eruptions, and all diseases of the skin and blood are promptly cured by Burdock Blood Bitters. It purges all foul humors from the system, imparting strength and vigor at the same time.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

West Peterborough wants no non-resident member. She has plenty of able men within her borders. Vote for Hilliard, your townsman.

POLITICAL POINTS!

GENTLEMEN,

Recurring again to the subject of politics—these politics that we are trying to talk about, but not a word of this to the ladies. Neither politics nor spring poetry are playthings for women. So by special request, not a word of this to the women.

All of us have made up our minds to give these party claims our most careful consideration. But we go to the jovial ward meeting—and that is, the last of our firm resolve to give an upright, honourable, square-toed, astraddle-the-fence vote.

For whom *will* you vote?

In answering this, remember that you are not obliged to criminate yourself—the law protects you to that extent. Bless the law!

Do you not notice that there is a more exuberant warmth about the greetings of candidates, and an increase of dignity about the man in overalls not apparent a few weeks ago? If you have not, then you have no vote.

Be jubilant while the present opportunities are on deck. After the campaign they will be laid away and stand up behind the door like an old umbrella.

Also remember that just now we are giving away FINE and MEDIUM TWEED SUITS! Giving them away, gentlemen! Of course we accept a trifling compensation for our cloth, trimmings and make—always did. These concessions to the electorate will last for the next three weeks. Make a note of it.

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1wly

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Almost a Free Breakfast Table.

THE NOMINATIONS.

They Pass off very Quietly—Those who Signed the Nomination Papers.

At 12 o'clock noon to-day Sheriff Hall, Returning Officer for the West Riding of Peterborough, announced that he was ready to receive nominations for the position of a Member of the House of Commons. About half a dozen electors, including Mr. George Hilliard were present, and there was no speaking whatever. The law requires the names of 25 voters to be on the nomination paper of each candidate, and the following singed them:—

Mr. Hilliard's paper was signed by:—

R. P. Boucher,	Jas. English,
H. Collins,	Geo. Burnham,
W. Cluxton,	H. Phelan,
T. Bradburn,	C. W. Sawers,
T. Dolan,	E. Green,
R. W. Errett,	C. McGrath,
G. W. Hall,	E. J. Toker,
R. Rowe,	Jas. Kennedy,
Dr. Hourigan,	R. A. Morrow,
T. Kelly,	John Corkery,
H. LeBrun,	W. H. Moore,
Jno. McClelland,	G. W. Rubidge,
Fred. E. Bell,	A. P. Poussette,
Jas. Stevenson,	C. Stapleton,
H. Rush,	Jno. Hackett,

Mr. Lundy's paper was signed by:—

Charles Taylor,	P. B. Sullivan,
Wm. Graham,	Geo. Young,
Jno. Black,	W. Robson,
R. Waram,	R. Kingan,
J. W. Watson,	Dr. Taylor,
T. Young,	T. W. Robinson,

W. Paul,	J. J. Hartley,
Jos. Byers,	W. Bellingham,

Lamson's Insanity.

Sixteen affidavits respecting Dr. Lamson's alleged insanity have been sent to England by the Attorney-General of the United States. It is a little strange that Dr. Lamson's mental condition, which is alleged to have been unsound since 1871, should have escaped the notice of the various medical men he worked with during the Turco-Russian war, and that its discovery should have been reserved for non-professionals. It is also a little strange that his alleged insanity should have made no impression upon those who claim to have proof of it until such time as such proof was wanted. And then the impression was rather sudden.

Cones Always Closed.

A remarkable statement was made recently before a scientific body in London—the statement given as on the authority of Mr. Veitch, the well-known author on "Coniferæ"—that the cones of many of the species on the Pacific Coast never open and permit the seed to escape unless opened by a forest fire, when they fall out and replenish the burned waste. "They hang on the trees for many generations, even for thirty years." The cedar of Lebanon is known to be of this character, but it is news as to any of the American forms of this order.

Mothers! Mothers!!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

MIDNIGHT TELEGRAMS

CABLE.

THE MURDERED ENGINEER.

LONDON, June 12.—There have arrived despatches confirming the report of the murder of the engineer of the Superb. The fighting at Alexandria, except the deliberate attack upon the consul when proceeding to the residence of the governor, seems to have been confined to Arabs and Levantines. No English have recently been reported wounded. A correspondent at Cairo says that the responsibility falls upon Arabi Pasha, and that Dervish Pasha has summoned him to resign, and there seemed to be no alternative, but his submission or defiance. Since the riot broke out Dervish had to appeal to Arabi as the commander of the only available force.

WORSE AND WORSE.

CAIRO, June 12.—Affairs since yesterday have taken a decidedly bad turn. The military party and the ulemas are enraged at the treatment of Arabi Pasha and themselves by Dervish Pasha, and are firmly persuaded that England intends the annexation of the country. They declare it to be their intention to resist all interference. Arabi expressed to-day a determination to depose Tewfik, making Halim Khedive. Last night the officers were greatly exasperated, and declared their intention of advocating the seizure as hostages of the Khedive, Dervish Pasha, and and the English and French consuls-general. On the news of this determination becoming known in the town a panic ensued, the banks sending their specie away. American missionaries from the interior have arrived; the villages are no longer safe. Arabi's expressed hatred of the English consul and his willingness to replace Tewfik by Halim indicate secret French support. I have good reason for believing that the French will stick at nothing to avoid intervention by Turkish troops. When the news was received of the fearful riot in Alexandria there was great excitement in the city.

DEFEATED AGAIN.

LONDON, June 12.—The House of Lords by 128 to 132 refused to order the bill legalizing marriage with a deceased wife's sister to its second reading.

SPURIOUS CHEESE.

LONDON, June 12.—In the House of Commons to-day Mr. Chamberlain said he had referred the subject of spurious cheese from America, made from lard, to a departmental committee: he thought the Adulteration Act sufficient to deal with the question of its sale.

QUIET RESTORED.

LONDON, June 12.—Sir Charles Dilke has received telegrams from Alexandria stating that the vice-consul is convalescent. and that the riots were not political. Despatches received this afternoon say Alexandria is quiet, and are reassuring regarding the safety of the Khedive.

THREATENING THE KHEDIVE.

CAIRO, June 12.—A meeting of the military leaders have decided to petition the Khedive to abdicate. It was declared if he did not he would be massacred. It is rumored that the cavalry and the artillery will not join in any conspiracy against the Khedive.

PROPOSED CONFERENCE.

PARIS, June 12.—It is proposed, seemingly at the suggestion of France, to hold a conference on the Egyptian question at Paris and not at Constantinople.

EUROPEANS KILLED.

LONDON, June 12.—The disturbance at Alexandria commenced simultaneously at three different points. The object of the rioters in a great measure appears to have been pillage, in which the Levantines, as well as the Arabs, participated. A regiment of cavalry and a regiment of infantry have been ordered to reinforce the garrison. The official report of the riot states that sixty-seven Europeans were killed. Arabi Pasha and Mohammed Pasha Sami had separate interviews with Dervish Pasha yesterday. It is generally believed that they refused to submit to Dervish's views. Great excitement continues to-day, and all the shops are closed.

FRANCO-SPANISH DISPUTE

MADRID, June 12.—the refusal of the committee of the French Chamber of Deputies to settle the indemnity of two hundred thousand dollars of Bou Amea's raid at Saida in 1881 has caused a general manifestation of distrust and anger against the French Parliament.

DISASTROUS FLOOD.

PESTH, June 12.—A flood occurred at Verseez, owing to the sudden rising of the water in the river. A number of houses and two bridges were destroyed, and twelve children and several adults drowned.

THE IMPRISONED SUSPECTS.

LONDON, June 12.—In the House of Commons Mr. Trevelyan, replying to Mr. O'Kelly, said John Gannon had been offered his release if he engaged to go to America. Having refused this condition, he cannot be released. The number of suspects now imprisoned is 263.

DEFIANCE FROM ARABI.

CAIRO, June 12.—Arabi Pasha last night made the following declaration:—"Egypt now looks on the the Khedive as her most deadly enemy. She is determined not to let anything deter her from continuing to defend her holy cause; the threats of foreigners do not daunt us as we regard them as vain. They merely make a friendly solution of the crisis impossible. Egypt abhors war, but will defend her liberty unto death. I myself am ready to put myself at the head of my countrymen. The Khedive is seeking for help from foreigners in order to preserve his throne. No matter even should the foreigner lay hold of the country, Egypt will resist; we shall proclaim a holy war, and enkindle, if we must, a fire which shall put the world in flames."

BISMARCK'S TOBACCO MONOPOLY.

BERLIN, June 12.—In the German Reichstag to-day Prince Bismarck, supported the tobacco bill, said a tobacco monopoly was an evil, but reform in taxation could not be effected without it. The bills for the remission of taxation as proposed by the Government will be reintroduced in the Reichstag and in the Prussian Diet. If rejected he should, appeal to the constituencies. Bismarck added that if he remained in office he did so only to keep his oath to the Emperor. He expressed a hope that party policy would give way before a feeling of nationality.

GOOD CROPS.

LONDON, June 13.—The recent rains have been very beneficial to the crops, especially to the hop plant.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

A BAD SITUATION.

LONDON, June 13—A correspondent at Alexandria, telegraphs that the situation is terrible. A small force from the fleet could land only a sufficient force to protect themselves. The English man-of-war Superb, came in on Sunday at midnight. The report that she was about to land marines to protest to the consul, soon spread. Soldiers directly crowded the beach, and the boats of the Superb were ordered to keep off.

THE WAR IN EGYPT.

CAIRO June 13.—The Khedive and Dervish Pasha have started for Alexandria. There have been numerous assaults here on Europeans by Arabi's party.

THE CROP OUTLOOK.

LONDON, June 13.—In France, Holland and Germany, the condition is favourable for the crops. The rains in Southern Russia have caused a renewal of the favourable progress. The weather in England during the last few days has been extraordinarily cold, checking vegetation.

AMERICAN.

RETIRING OFFICERS.

NEW YORK, June 13.—Under the commissary retirement clause of the Army Bill, General Sherman will be retired in February, 1884, General McDowell and Surgeon-General Barnes next December, seven colonels, three lieutenant-colonels, three majors, seven military storekeepers and six chaplains will also be retired in December. As the new law does not repeal the existing law, it is still optional with the President to retire an army officer when he reaches the age of 62. The officers of the navy now ask that the compulsory clause effecting their retirement be extended from 62 to 64 years.

THE TARIFF.

NEW YORK, June 13.—The *Herald's* Washington special says that there were filed yesterday in the office of the Secretary of the Treasury twenty applications for appointments on the Tariff Commission, to fill the vacancies occasioned by the resignations of Wheeler and Phelps. It is understood that Way means to-day to fix July 10th for the adjournment of Congress.

THE UTAH COMMISSION.

NEW YORK, June 13.—The *Tribune's* Washington special says that Paddock of Nebraska, in likely to be chairman of the Utah Commission. There will be three Republicans, and two Democrats. The majority of the Commission will probably be western men.

ASSIGNED.

NEW YORK, June 13.—Edwin Gallindo, manufacturer of coffins and cabinet house trimmings, has assigned with liabilities of $160,000. His nominal assets are $70,000.

A CANARD.

NEW YORK, June 13.—The Minister of Guatemala, characterizes as untrue the absurd sensational despatch from Mexico, regarding the object of the visit of President Barrios of Guatemala to this country.

FATAL EXPLOSION.

VIRGINIA CITY, Nev., June 13.—An explosion at the Union Consolidated Mine killed John Black, and James Brown and fatally injured R. H. Ecks. Brown was blown to pieces.

MINER'S STRIKE.

PITTSBURG, June 13.—Some excitement was created in mining circles by the decision of the Baltimore and Ohio Miners not to mine coal for the east at less than 4 cents. The mines have been in operation at 3½, but the miners discovered that coal was being shipped west which was mined with the understanding that it was for the east.

FOUND DEAD.

APOLLO, Pa., June 13.—A barrel containing the mutilated body of a negro was found in the river here. It is believed that the victim was killed at Salina where 300 colored miners have been employed recently.

A SOUTHERN YARN.

RICHMOND, Va., June 13.—A doctor yesterday applied a galvanic battery to a colored boy whom it was alleged was struck dumb for lying. The boy speedily recovered his speech. The negroes believe that the cure was effected in a mysterious and providential manner, as that by which he oringinally lost his speech.

RUSSIA'S TERROR.

ST. PETERSBURG, June 13.—Ignatieff attributes his loss of favor to his hatred of the Jews and of the German party. He says, "I came into office with a programme that would have given Russia 40 million of Roubles. The land owners would naturally have been Conservative, but to effect my purpose I had to rid the country of the Jews. I succeeded in baffling all Nihilist schemes, but Nihilism still exists in a latent state. Constant watchfulness is indispensible."

In 1878 workingmen idle. In 1882 workingmen busy. Vote for HILLIARD and BURNHAM and the Government's policy, which brought such a state of hings about.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

A WORD OF CAUTION.—As is usually the case where an article of true merit has attained a world-wide reputation by its wonderful results, as the celebrated Electric Bitters have done, certain unprincipled parties have endeavored to imitate them, and expect to induce an unsuspecting public to purchase their fraudulent wares. Ask your druggist for the genuine Electric Bitters, that are guaranteed to cure, and take no others. Sold by Taylor & McDonold at 50c.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

Daily Evening Review

TUESDAY, JUNE 13, 1882.

THE INCIDENCE OF TAXATION.

A VERY dishonest attempt is made by those who are totally opposed to the present toriff, and even by those who, finding the popularity of a protective policy, are now content to limit their demands to a modification of some items such as the cotton and woollen duties, to raise a class antipathy to the present government. It is falsely asserted that the tariff is so framed as to press more heavily upon the poor than upon the rich, and the workingmen are invited to resent this pretended injustice. The plan adopted is to add together the specific and *ad valorem* duties upon the different kind of goods, and to show that even though the tax is less upon a certain quantity of goods, the percentage is higher upon low priced than high priced articles. Then it is either asserted or insinuated, according to the degree of dishonesty of the speaker, that the whole amount of the duty is added to the cost, and that the poor man, though not subjected to a greater increase of price per yard, is subjected to a greater increase in proportiou to the value.

This whole charge of unfairness rests upon this false assumption, that the duty is added to the price. We say that it is dishonest to make such an assertion, for even those who are so wedded to their mistaken theories as to imagine that such *should* be the effect, might learn by the slightest enquiry that such is not the case at present at all events, and it is not fair or honest to tell the poor man that the price of his goods is increased more than the rich man's, when the very contrary is the fact.

The explanation lies in a nutshell for those who do not wilfully shut their eyes to the truth. The rich man pays the duty on his purchases and the poor man does not pay the duty on his.

This is how it happens. A tariff such as ours is framed for two purposes: It is intended to provide a revenue towards our necessary expenditure, and it is also intended to protect our home industries by excluding foreign goods. It is evident that it cannot have these two effects in the case of the same article. If the goods are kept out there can be no duty collected upon them—if they are admitted our manufacturers are not protected by their exclusion.

The rich and those who are inclined to be luxurious purchase silks, linens, broad cloths, Scotch tweeds, fine dress goods, extra fine blankets, &c., and as these are not made in Canada but are imported, they pay the duty upon them, as they are willing and able to do, and thus provide a revenue. The poor, and those who are content with plain, substantial articles, buy Canadian tweeds, cottons, blankets, &c., which are made in this country and have paid no duty. Thus they do not contribute to the revenue, but they do aid in building up our own industries. It is in vain that our doctrinaire free traders say that the manufacturers would add the amount of the duty to these goods. They do not do so; internal competition prevents it, and there is the fact, which may be ascertained at the nearest store, that our Canadian cotton and woollen goods are not increased in price, but are if anything cheaper, while affording better value.

The rich man has to pay duties on his imported luxuries. The poor man may clothe himself, his wife and family, well and substantially, without paying any duty, unless, indeed, better wages and constant employment make him think that he can indulge himself and his wife in some more luxurious garb for holiday wear, and we think he will hardly grumble then at paying the duty.

Workingmen be true to your own interests, and vote for HILLIARD, your friend.

THE T. V. C. AND ITS FRIENDS.

We feel that an apology is due from us to Mr. Bertram, and we hasten to tender it, as we would not willingly wrong any one in the slightest degree. It seems that we inadvertently overlooked the fact that Mr. Bertram did once secure an appropriation for work on these waters. Our only excuse is the infinitessimal nature of the omission, which rendered it almost imperceptible. It appears that Mr. Bertram succeeded in securing an appropriation for some repairs to a dam, but so insignificant was the amount that he cannot remember it, and therefore we may be pardoned for forgetting it also. Probably it did not amount to considerably over $300,000 or he would have remembered it.

The main point stands untouched, that Reform supporters of a Reform Government succeeded in getting a diminutive appropriation for repairing a defective dam but had not sufficient influence to secure additional money sufficient to remove a snag from the river, or to prevent their leaders from handing over the Trent Works to Mr. Mowat and destruction; in fact we cannot learn that they ever raised their voices against this outrage.

The companion picture is more pleasing. We find Messrs. Hilliard and Burnham in their four years' service, with the aid of the other representatives of constituencies particularly interested, obtaining from a Conservative Government, grants for improvements, survey and construction on our great navigable route, amounting to between $300,000 and $400,000, preventing with the same aid its permanent alienation and destruction, and securing a pledge for its completion.

Who then have proved themselves to be the friends of this project? Is there any reason to hope or expect that Messrs. Lundy and Roxburgh, however willing, would be more successful than their predecessors?

Those who wish to see the Trent Valley Canal will do well to vote for Messrs. Hilliard and Burnham and the present Government.

Workingman, vote for employers of labor, and for the party that supports our home industries.

CAMPAIGN NOTES.

The *Globe* says the Conservative platform is "only a rehash of 1878 promises." As the "1878 promises" have been kept and the country is flourishing in consequence, we could hardly have a more attractive programme.

* * *

The leading Reform organ says that Sir John Macdonald is in his second childhood because he has made Mr. John O'Donohoe a Senator, and sneers at the Conservative leader because "Pat Boyle," as the *Globe* very politely calls him, is not also placed in the Senate. Here is another plank of the scanty Reform platform, that no man called Pat, or having an O before his name should be eligible for the Senate. Of course the roll of our Upper House should contain nothing but Macs.

Vote for BURNHAM and HILLIARD, and stand by the Government that has stood by the country.

CANADIAN FACTORY GIRLS.

The following righteously indignant protest has been drawn forth by the dastardly libel given to the public by the special correspondent to the Toronto *Globe* in its issue of Saturday, in which it said:—"I do not think there are ten virtuous girls in a hundred. A good-looking girl is almost certain to fall before she has long lived in the surroundings of cotton mill life." Such a foul and false slander is perfectly diabolical.

To the Editor of the Mail.

SIR,—Our attention has been drawn to the letter of the special correspondent at Montreal of the *Globe* newspaper, and published in to-day's issue, in which the operatives employed in cotton mills are described as living in a state of wretchedness and gross immorality. We give this statement our most emphatic denial, and pronounce it to be a gross and malicious libel. Our operatives are earning good wages, live in comfortable homes, are contented and happy, lead moral, exemplary lives, and are deservedly respected by all classes of the community amongst whom they reside. We don't know whether the wages which are stated in the letter to be paid at Montreal and Valleyfield are correct, but they are certainly lower than the wages earned by our operatives. The wages now paid are 10 and 12½ per cent. higher than those ruling before the present tariff was enacted, while there is no increase whatever in the prices of of the goods manufactured by us.

Yours respectfully,

CANADA COTTON MFG. CO.
STORMONT COTTON MFG. CO

Cornwall, June 10.

EXPORTS TO MANITOBA.

We find in the daily papers of Hamilton a number of figures relating to the inward and outward trade of that city, some of which remind us that the energetic Hamilton manufacturers and merchants are still on the lookout for distant customers, and are prompt to supply fresh markets however distant. We find them now sending other manufactures, sewing machines, and iron and steel goods to British Columbia, in addition to the clothing, &c., which they began in former years to send. To Manitoba, the shipments from that city in May were of the value of $78,342. The largest item in the list is iron and steel goods. We tabulate the principal items of shipment to that province last month:

Iron and steel manufactures	value	$27,511
Clothing and cottons	"	8,913
Tobacco and cigars	"	5,906
Dried Fruits	"	4,045
Canned Vegetables	"	2,452
Groceries	"	4,218
Animals	"	4,281
Harness	"	3,969

To these are to be added cured meats, native wine, drugs, malt, clocks, earthen, glass and plated ware, besides leather, lumber and grain. *Monetary Times.*

TRADE NOTES.

THE Novelty Waggon Works of Speight & Son, Markham, have been put into a joint stock company (limited), with a capital of $200,000.

THE Campbell tannery at Pictou, N. S. is sending leather regularly to Great Britain and to Newfoundland. Its shipment abroad in three months ended with May were $32,820 in value.

THE Dominion Type Founding Company has held its ninth annual meeting in Montreal. The report and financial statement were considered satisfactory. The old board was re-elected.

THE steamship "Barcelona" from Leghorn, Messina, Cadiz and other Mediterranean ports, has arrived at Montreal, with a full cargo of fruit, wine, olive oil, marble &c., consigned to Messrs. R. Reford & Co.

THE Dorchester Tanning and Boot & Shoe Company is the proposed name of a concern which seeks incorporation in Dorchester, New Brunswick. Sir A. J. Smith, W. and J. Hickman, G. W. Chandler and others are in it. Capital to be $20,000, in shares of $100.

THE efforts of Mr. Munderloh, the Consul-General of the German Empire, to establish direct trade relations between Canada and Germany, are meeting with deserved success. The Hermann, a new steamship built for this trade, has just arrived in Montreal harbor on her first trip, and is a fine specimen of naval architecture. She registers 3,000 tons burden, and is fitted up for passenger traffic, as well as for general freight purposes.—*Monetary Times.*

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

REMEMBER THE

Ennismore Pic-Nic

WHICH TAKES PLACE ON

WEDNESDAY, 14th INST.,

In Hennessey's Grove.

In addition to the usual attractions on such occasions there will be a POLITICAL CONVERSAZIONE, at which the distinguished orator, **Mr. John Gray**, of Ottawa, will be present and deliver an address. ☞Dinner at Noon. Speaking to commence at 1 p.m.

Ennismore, June 12, 1882. 2d137

To the Free and Independent Electors of the

WEST RIDING

OF PETERBOROUGH.

GENTLEMEN,—

At the urgent solicitation of my political friends I have consented to be again a candidate for your suffrages at the approaching election.

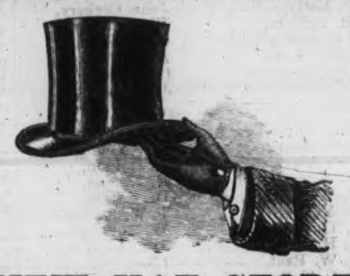
While I would have preferred not to have been a candidate on the present occasion, yet now that I have placed my services again at your disposal, you may rest assured that no private duty or engagement will be allowed to interfere with the proper discharge of my duties as your representative, should I be honoured with your confidence for the second time.

Although I failed to be present at every division during the recent session, I would venture to challenge my political opponents to specify a single instance in which I have neglected the interests of my constituents or failed to discharge the duties devolving upon me as your representative to the best of my ability and judgment.

During the past four years I have rendered a cheerful support to the government of Sir John A. Macdonald, believing that it has not only redeemed the pledges given previous to the last general election, but that its policy has been and is one eminently calculated to promote the prosperity of the country, and should you again honor me with your confidence I shall continue to give the present government the same cordial support, so long as their policy commends itself to my judgment.

In conjunction with the other representatives from this section of Ontario, I have done all in my power to secure the early construction of the Trent Valley Canal, and the large measure of success which has attended our past efforts should assure the electorate of this district that if their present representatives are re-elected and the present government sustained, this great and long-looked-for work will be brought to an early completion.

As it will be impossible for me to undertake anything like a personal canvas between this and polling day, I trust those favorable to the cause of good government will render me their hearty support without waiting to be asked, and that all the electors will make it a point to attend the meetings which I propose holding in different parts of the constituency for the purpose of public explanation and discussion of the several questions involved in the present campaign.



Again thanking you for the confidence reposed in me in 1878, and soliciting a renewal of the same,

I am, gentlemen,
Your ob't. serv't.,

GEO. HILLIARD.

MARJORIE GRAY.

Blithe in the sun of a Summer's day
Tripped little old-fashioned Marjorie Gray,
Maiden quaint of a long past day—
Marjorie Gray!
Loud sang the robins on branch and spray,
Madly and gladly and long sang they,
Carolled to Marjorie on her way—
Loud sang they!

Sweet was the roses' breath in the air,
Clear flowed the brook through the gardens fair,
White lay the road in the sun's bright glare—
Warm the glare!
But maid Marjorie, waiting there,
Had not for heat nor dust a care,
Knew not that she and the roses rare
Were so fair;

Saw not the lithe and graceful hound
Running to meet her with joyful bound,
Leaping and springing over the ground—
Friendly hound!
Farther away, with gaze profound,
And girlish forehead slightly frowned,
Her eager eyes their object found—
Gladly found!

She was a little belle from the town,
Dainty in manner and face and gown;
He was a poet of no renown,
Far from town!
Yet the haughty eyes so brown,
Under the poet's smile, or frown,
Gleamed with joy, or, shy, looked down,
Soft and brown!

Sad that one could not leave them so,
Maiden and poet of long ago,
Meeting with joy by the old hedge-row—
Long ago,
But time's departure, steady and slow,
With years of roses and years of snow,
Has wrapped the park in chill and glow—
Roses and snow!

Marjorie married the son of a peer;
Marjorie's life was short and drear;
Forgotten she, for many a year,
In church-yard drear;
While to the poet's record clear
Came sweet fame and a long career,
Fortune, and love, and all things dear—
Blessed career!

Blithe was that Summer passed away;
Happy the little maid, they say;
Tender the poet that sunny day—
Passed away,
Flown are the birds from tree and spray;
Dust is sweet little Marjorie Gray;
Deathless the honored poet's lay—
Welladay!

—ADA M. E. NICHOLDS, in *Harper's Magazine*

CANADAIN PACIFIC.

The Difficulties Already Overcome, and the Work to be Performed.

We have received from an old resident of Peterborough, and a constant subscriber, the following extract from the San Francisco *Bulletin*, giving an interesting account of the progress of the work on the western portion of the Canada Pacific Railway:—

PORTLAND, Or., May 4th.—Edward G. Tilton of Yale, B. C., contractor, Chief Engineer and General Superintendant of the Canadian Pacific Railway, arrived in this city Tuesday. In an interview with with an *Oregonian* reporter yesterday, he gave the following information concerning the enterprise:

"Last February a contract for building eighty-five miles of road from Emory Point, five miles below Yale, to Port Moody, the western terminus at the head of Barrard Inlet, was let to Andrew Onderdonk and associates, and the work of clearing and bridging is already under way. Grading will be commenced about the 25th of this month. Five thousand men will be put on the line between Emory and Port Moody, and a like number on the Fraser River. Work thus far on the Fraser has resulted in the completion of twenty-three miles of track, under contract secured in 1880, northeast from Emory. On these twenty-three miles 1,500 men have been at work for eighteen months, and a grade from the sixtieth to the ninetieth mile is nearly completed. The work from Emory to Thompson's River, a distance of sixty miles, is probably the most difficult and expensive on the North American Continent. Fraser River is bordered with steep and rugged mountains of solid granite, from 6,000 to 8,000 feet high. In the first seventeen miles there are thirteen tunnels, four in one mile and six in another. Two miles on the division about Emory, there are no less than 600 trestles and bridges, and in the last eighty-five miles more than 100 embankments. At the formation, the levels are seventeen feet wide and the cuts twenty-two feet. The tunnels are twenty-two feet wide and twenty-one feet high. None other than fifty-eight pound steel rails are used in the upper sections of the work. There are 10,000,000 cubic yards of earth excavation, 3,000,000 cubic yards of rock, exclusive of tunnel, and 2,000,000 cubic yards more of rock and cemented gravel in the excavations. Between 30,000,000 and 40,000,000 feet of timber, board measure, is required for structures over the entire contracts. The rock is of the hardest compact granite, in which often occur wide and extremely hard quartz veins. For miles the road is literally hewn out of the side of the cliffs; the approaches to many of the tunnels are by galleries. At the Eastern approach to tunnel No. 7, for over 109 feet the bluff is galleried, and overhangs the roadway twenty-four feet in width, or two feet outside the roadbed, below which is an almost perpendicular precipice of 200 feet. The first tunnel is at the north end of Yale, and the first four happens to be within a mile and a half of the town. It required eighteen months to build the first two miles working in the tunnels night and day. From one point six tunnels are visible at a glance. The grades and curves are moderate, the heaviest grade being fifty feet to the mile. The line follows the west bank of the Fraser River to a point eight miles below Lytton, where the Thompson River empties into the Fraser. Here the latter river will be crossed by an iron and steel bridge, to cost $300,000. The line will then follow the south bank of the Thompson River to Kamloop's Lake. The contractors expect to have completed by the end of this year 120 miles of the grade and have 50 miles of the track in operation. The first two miles north from Emory have cost a trifle over $200,000 per mile, eleven miles—from the eighteenth to the twenty-ninth—cost $175,000. The average cost per mile of the upper division along the Fraser and the Thompson Rivers will be over $75,000 per mile. This does not include the cost of rails and fastenings, which are furnished by the Government. The 212 miles from Port Moody to Kamloop's Lake will cost, exclusive of rolls, $12,000,000. The Company have at Yale their own nitroglycerine and powder works, with a capacity of 4,000 barrels a day, cars and machine shops and all supply departments. A steamer is under construction and will be launched in a few days for navigation on the Upper Frazer, between Boston Bar and the mouth of the Thompson River. The boat is intended for the transportation of supplies, and will be the first to ascend above Boston Bar.

Vote for HILLIARD and BURNHAM and the National Policy, under which we are flourishing.

FROM ALL OVER.

THE Rapid City Gun Club had a shooting match last week, the last day of the duck season for a supper. It was a grand success.

THE Brandon mail driver had his leg fractured the other day through his team running away, having been frightened by a locomotive in the C. P. R. yard.

PORTAGE *Review*:—A hotel keeper in this town saved $60 in one week by weighing his meat as it was delivered by the butchers. The moral is obvious.

CAPTAIN REESOR, of Pilot Mound, and his boys, have had considerable sport spearing pike in Silver Spring Creek. Several good catches have been made.

JOHN PARKER, a deaf mute, lately of Kingston, is doing a good business with a dray waggon at Brandon, and acts as runner for the Grand Pacific Hotel.

J. M. ROBINSON has purchased an interest in the Rat Portage *Tribune*. J. M. slings a nasty quill, and should be a valuable acquisition to our confrere.

THE Woodlands and Meadow Lea settlements are dryer this spring than they have been for many a year, and already the farmers are nearly all done seedling.

THE Orangemen of Manitoba are going to celebrate the 12th of July in the Portage this year. Invitations are now being sent out, and a grand time is expected.

THE foreman of Fowler, Bros. & Co. Canning Department, Chicago, Mr. Steamkelley, says he suffered with rhenmatism for more than eight months. St. Jacobs Oil will cure me completly. It will cure anybody.

G. F. BALDWIN has sent in his resignation as town clerk of Emerson. He has held the position since the town was incorporated, and has given entire satisfaction as a public officer.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

AN Italian has invented a process for solidifying wine. A small quantity of the substances stirred in water, reproduces the article in its original state. A French chemist has, according to the London *Medical News*, found a means of crystalizing brandy, which resembles alum in appearance, and dissolves readily. The object of both processes is to facilitate transportation.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents of J. McKee Peterborough.

THE Illinois board of health has decided that the diploma of a medical college will not entitle the bearer to practice in that state unless the college has a three years' course, requires dissection through two years, has clinics for two terms in each year, enforces attendance on eight-tenths of its lectures, and confers degrees only after examination.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

THE rent roll of the Duke of Devonshire from his Irish estates is about £40,000 per annum, of which half is spent upon his estate. Although non-resident, it had been the Duke's habit to visit his Lismore estates once a year, generally during the Easter recess. Many years ago he constructed a railway through his estates from Fermoy to Lismore, conferring great advantages on his tenantry, at a cost of £300,000, and although the line has never paid it is still kept working by the Duke.

THE DOCTOR'S SECRET.—Probably no new development will more surprise the public, than to learn the secret of success of certain leading physicians. When they have a difficult case of throat or lung disease that baffles their scientific skill, they prescribe Dr. King's New Discovery for consumption, Coughs and Colds, having it disguised in a prescription bottle, with their own directions and name attached. The patient is cured and they get the credit.—*Tribune*. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.—2

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

CORSETS .:. CORSETS.

CORSETS. CORSETS.

CORALINE,

A recently invented and thoroughly tested valuable patent substitute for bone, now used in the manufacture of this Corset, being far superior to Cord, Horn or Whalebone.

The CORALINE is not affected by Cold, Heat or Perspiration, is more pliable than whalebone, will bear great strain without breaking, adapts itself more readily to the figure, which makes it most COMFORTABLE and HEALTHFUL to the wearer.

The Crompton Corset Company will pay A REWARD OF FIVE DOLLARS

for every Corset in which the CORALINE breaks with four months' ordinary wear.

Each pair is stamped with the patent number, 13181, and also bears the impression of the name, without which none are genuine.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

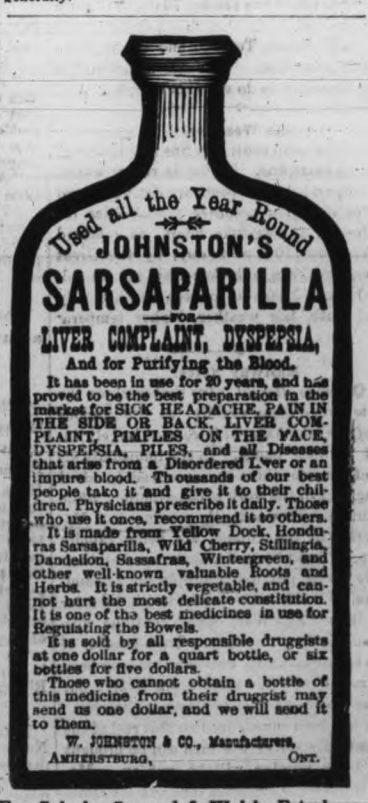
SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.



In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

MUNRO & ALEXANDER

Daily Evening Review

TUESDAY, JUNE 13, 1882.

Y. M. C. A.

We are requested to state that the Bible Class in the rooms of the Y. M. C. A. to-night is open to all; ladies and gentlemen are invited; commencing at 8 o'clock sharp.

A New Prophet.

We were gravely assured the other day by an evidently aspiring weather prophet, that there would be six weeks of the hottest weather in the next month, that there had been for a long time.

Masonic.

The celebration of laying the foundation stone of St. Andrews Church, Campbellford, has been unavoidably postponed, owing to the Grand Lodge having been summoned to meet at Ingersoll on the same day.

The Campaign.

Things are running along very smoothly as far as the Peterboroughs are concerned at least. True, nothing but politics is talked on the streets but the old time, red hot enthusiasm seems to be wanting, somehow or another

To Our Advertisers.

Advertisers who have yearly contracts running in the daily REVIEW with privilege of changes, will please hand in their copy before twelve o'clock noon, or they may have to be held over till the following day.

Fall Wheat.

It sometimes said that there is no growth yet, but this can hardly be the case in some localities. Mr. John B. Fowler has brought to our office some specimens of fall wheat measuring 4 feet 2 inches. It was grown on his farm in Smith and and he has a field of it.

The Waterworks.

Another supply of pipes for the waterworks mains have been laid on the streets. The contractor is making good progress with the trenching, but he has to encounter many difficulties that he did not calculate upon in the first place.

The Boom.

The machinery for Mr. Brodie's woollen mill is here and is being drawn up to the factory. Before long the hum will be heard on Dickson's race, as it never was heard there before. The other factories are rapidly going ahead also, and in the course of a few weeks now they will be in full blast, it is expected.

Personals.

Mr. H. Lumsden, Chief Engineer of the Ontario and Quebec Railway is in town.

The *Canada Gazette* says that his Excellency the Governor-General has been pleased to appoint Judge Dennistoun, a local judge of the High Court, under the section 76 of the Ontario Judicature Act.

Messrs. P. Ryan, Toronto and G. W. Ross of Guelph, are here. Of course politics has nothing whatever to do with their visit.

The Weather.

The weather still continues fine and the crops are looking extra fine. To-day is rather warm, in fact hot, and the prospects are not very good for cooler air. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to fresh winds, mostly east and south, fair weather, higher temperature.

Railway Notes.

The Omemee *Herald* says that work on the Link is progressing rapidly, as the various gangs of the men have, of late, been largely increased by new hands. In the immediate vicinity of Omemee there are over one hundred men engaged in the work of construction, while large numbers are constantly pouring in. Vacant houses in the village, are being rapidly filled up, in fact so rapidly, that more buildings will have to be put up to supply the demand. Business is much better than it has been for years. The "Egg War," which continue with unabated fury, is drawing a large number of farmers to our markets, who have too long been strangers to us. Our streets are lively, our shops are crowded and the outlook is cheering.

Work has been commenced on this end of the Link and as soon as the men can be brought here, a large number will be put on. Mr. Beemer is bound to complete the work on time.

Accident.

Mr. Alfred McDonald of Point St. Charles, while adjusting a saw guide this morning, had the back of his left hand rather badly cut.

A Strike.

The men at McDonald Brothers saw mill, struck yesterday for shorter hours. The men have been allowed fifty-five minutes for dinner, but demand an hour.

A Stolen Horse.

Sometime during last night some person entered the stable of Mr. D. A. McDonald and stole a small black mare. There is a strong suspicion as to who the culprit is and the Police are after him.

Lost and Found.

A couple of youths yesterday engaged a boat and went down the river to enjoy a short paddle They went rather farther than they had intended at first and finally brought up at Idyle Wild. Their friends were rather solicitous for a time, but when the boys came home all was right. They had a long trip and don't care about going the same distance again.

The Circus.

The Chicago *Daily Herald* of a recent date says that the big United States Circus and Menagerie opened last night on the Lake-Front to an immense audience. The menagerie embraces a very large collection of rare wild animals. The circus portion of the show was exceedingly fine, showing that good judgement was used by the managers in the selection of their performers. Everybody seemed pleased. The big show will remain all this week, giving two performances daily—afternoon and evening—and the managers recommend the matinees for the ladies and children. The "Big United States Circus and Hippo-Zoological Aggregation" will exhibit at Peterborough on Thursday June, 15th.

Electors of West Peterborough, vote for GEORGE HILLIARD, your tried and approved member, who has his residence and business among you.

HABITS OF THE HAIR.

Why it Falls Out and Turns Gray and When it will Grow on a Bald Head.

A prematurely bald physician on Thirty-fifth street was asked a number of questions about the growth and habits of the hair.

"In the first place," he said, "do you know what hair is, anyway?"

"Only in a general way, perhaps?"

"Then let me tell you in a word. It is an elongated epidermic appendage. Its essential structure consists of an assemblage of epidermic cells, at the bottom of a flask-shaped follicle in the substance of the skin, supplied with blood by vessels distributed to its walls."

"Can hair be made to grow on a bald head?"

"Not as a rule. In debilitated persons the hairs sometimes fall out spontaneously, or with slight assistance, and if the bulb alone comes away, and the sheath and germ remain behind, these are capable of reproducing the hair, under proper treatment or favourable circumstances. The sharp and pointed hairs on the scalp of old people, show that new shafts are constantly forming. The nutrition of hair is effected through vessels which are in contact with their tissue, without entering into their structure, so that causes affecting the general health, or affecting the health of the skin, affect also the nutrition of the hair."

"What causes premature baldness?"

"In a great measure the violation of hygienio rules, and the excess of mental and physical labor in a climate foreign to the race."

"Is there a greater disposition to grayness in this country than in others?"

"Well, some well informed people think that it is about the same in all civilized countries; but, if there is any difference, it is because of the hurried and unhealthful habits of life and mental exercise among Americans?"

"What is the chemical action which produces gray hair?"

"Accurately speaking, that's one of those things that no fellow can find out. The color of the hair depends partly on the presence of pigment granules, and partly on the existence of minute air spaces, which causes it to appear dark by transmitted light. In Albinos and gray-haired persons the coloring matter is simply absent."

"Is it the case that the hair may, from extreme fright or other strong emotions, turn white, as is said, in a single night."

"It is an undoubted fact. Just how the change takes place is a matter for conjecture, but it may perhaps be explained by some chemical action upon the oily coloring matter. This oily matter would be withdrawn from the hair under conditions of cold, debility, or insufficient food."

"Does gray hair then become dead?"

"Not by any means. The loss of vitality does not necessarily follow the loss of color, for gray hair often grows vigorously. For that matter, hair will grow after the body's dead. One of the causes of premature baldness and grayness is tightly fitting and unyielding hats."

"Are any of the thousand and one preparations for restoring the hair of any value?"

"Tonics and stimulating applications are sometimes beneficial. When the hair is thin and falls out easily shaving the scalp will often produce a thicker, firmer, and darker growth. —*N. Y. Sun.*

THIRD CLASS.—Freddie Roseborough, Maggie Fitzgerald, Aggie Fitzgerald, Bertie Allen, Coleman Boyce, Laura Northy, Lizzie Craig, Maggie Condon.

SECOND CLASS.—Freddy Heard, Harry Fitzgerald, Minnie Heard, Hannah Condon, Matilda Condon, Edith Ellen.

FIRST CLASS PART II.—Mabel Fitzgerald, Mary Northey, Fred Stabler, Ernest Roseborough, Frankie Pethick.

FIRST CLASS PART I.—Laura Allen, Lillie Clarkson, Dolly Pethick, Arthur Fitzgerald.

A Twenty-eight Thousand Dollar Shingle.

An exchange says that it isn't often that one finds a shingle worth $28,000, yet Joseph C. Palmer, a Calfornia pioneer, who recently died, once gave one that value. It happened in this way. He was a banker, and had trust funds in his hands amounting to $28,000. It became necessary to draw the money at once, and Mr. Palmer's consent was necessary, but he had been called away to attend to some duty in a lumber yard, some mile or more from the bank. Thither the depositor hastened and made known his wants, and the necessity of having them attended to immediately. Mr. Palmer could find neither pen, pencil, ink, nor paper. But without a moment's hesitation, he picked up a shingle borrowed a piece of red chalk, and with it wrote a check on the shingle in large, distinct letters for $28,000. This was good when presented for all the money the depositor had in the bank, and it proved an exceedingly good advertisement for Palmer.—*Northwestern Lumberman.*

Support HILLIARD, who supported the carworks factory.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

ERYSIPELAS, Scrofula, Salt Rheum, Eruptions, and all diseases of the skin and blood are promptly cured by Burdock Blood Bitters. It purges all foul humors from the system, imparting strength and vigor at the same time.

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

ARSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

Dominion Election, 1882.

Baltimore, Md., U. S. A.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, VT., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1wly

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry—then becomes localfever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all **morbid irritations** and **inflammation** from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the CAUSE, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Almost a Free Breakfast Table.

CHAS. BUTLER

Offers a very Superior Stock of FRESH GROCERIES, at prices that will astonish all those who have not been in the habit of procuring their family supplies from him.

Daily Evening Review

WEDNESDAY, JUNE 14, 1882.

Ontario and Quebec Railway.

Mr. Lumsden, Chief Engineer, and Mr. Ryan one of the contractors for the above railway were in Norwood on Tuesday, examining the route surveyed through the village, with a view to commencing work at once.

The Link.

Quite a large number of men are at work on the Link inside of the corporation in the vicinity of the Quarry. The steam excavators are working splendidly, but the men are hindered greatly by the soakage through some of the cuts.

The Ennismore Pic-nic.

The annual Ennismore Pic-nic to-day, was the largest and most successful ever held in this district. The attendance was very large, especially from town. Both political parties were represented. Owing to the early hour at which we went to press we are unable to give further particulars in this issue.

Bible Christian.

From the *Guide* we take a corrected list of the stations of the Bible Christian ministers for the Peterborough and Victoria district. Peterborough, W. Jolliffe. Little Britain, W. C. Beer, A. Richard, F. Woodger. Lakefield, R. Allin. Fenelon, M. Metherell. Lindsay, W. Limbert. Manvers and Cartwright, J. Whitlock, T. Brown. Ashburnham, J. W. Butcher. Wm. Jolliffe, chairman.

The Weather.

The weather this morning was exceedingly hot, the thermometer having reached 76° in the shade. The afternoon was cooler and rain fell for some time. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to fresh east veering to south and southwest winds, cloudy to fair weather with showers or thunder storms in some localities, fair and warmer weather to-morrow.

The East Riding.

The East Riding nominations took place at Norwood yesterday. Messrs. Burnham and Roxburgh were the only two candidates nominated. A meeting took place just afterwards, which was presided over by Mr. Pearse. There were a large number of voters in the village and the enthusiasm was intense. The two candidates and Messrs. John Carnegie and M. McKay addressed the electors, the speeches lasting several hours. From the confident expressions heard on all sides it is safe to predict the triumphant return of Mr. John Burnham.

Vote for Burnham and Hilliard, who admit necessaries free and tax luxuries

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE ROW IN EGYPT.

ALEXANDRIA, June 14.—The streets are blocked, carts are piled with the baggage of fleeing Europeans. All the men-of-war in the harbor are crowded with fugitives. The American frigate Galena is crowded by families claiming American protection. The Rev. Joseph and Richard Smith of New York and Baltimore have taken refuge on board. An American officer narrowly escaped while in company with a British officer who was killed in a fight. Sunday's disturbance was evidently premeditated as it broke out in several places at once. The Europeans wore dragged out of carriages and murdered with sticks and legs of tables or chairs obtained by sacking shops. The British consul is still in danger. Three officers of the British fleet were buried at sea yesterday. It is stated that the police of Alexandria with the assistance of a fanatic orator have organized an outbreak, the soldiers setting the example by sacking shops. The Khedive is coldly received by the population here. He expressed himself as greatly astonished at the agitation and excitement visible through out the city. The natives declare that they will resist all intervention. There were patrols throughout the city last night and soldiers were placed every fifty yards.

A CLOSE CALL.

TYRONE, Pa., June 14.—The funeral services over the body of John Smith, a prominent citizen, took place yesterday. At the grave the coffin was opened and signs of animation were discovered. The body was conveyed to a house, and physicians are trying to restore Smith to consciousness.

RATHER UNPOPULAR.

ST. PETERSBURG, June 14.—Count Tolstoi, the new minister of the interior, is said to be an incarnation of everything despotic and retrograde. He is disliked in St. Petersburg, and abhorred in the provinces. The appointment cannot but deal another blow to the popularity of the Russian government.

RHETORIC AND HISTORY.

ATHENS, Ohio, June 14.—The Trustees of Ohio University, have elected Cynthia M. Weed of Genesee N. Y., to the professorship of Rhetoric and History.

AMERICAN.

PAYING PENSIONS.

WASHINGTON, June 14.—It is estimated that a billion and a half of dollars will be expended during the next twenty five years in pensions.

KILLED IN MISTAKE.

NEW YORK, June 14.—The police still adhere to the theory that Gutermenst was killed by mistake, instead of Dr. Clapp, whom he resembled.

WON'T GIVE IN.

ST. LOUIS, June 14.—The President of the Amalgamated Association failed to bring about a compromise with the iron workers on the Cincinnatti plan. The strikers are still determined not to resume work unless they are paid an advance on the Pittsburg scale. The manufacturers are equally firm in refusing to concede the advances.

FIERCE FOREST FIRES.

MILWAUKEE, June 14.—Forest fires in the interior of this state have destroyed several logging camps with all cut logs and an immense amount of standing timber. It is reported that several lives were lost. And many cattle were burned to death. The flames are sweeping into Hewittaville and it is feared that the town with the mills etc., will be destroyed. The people are out in all directions fighting the flames.

THE ARMY WORMS.

CINCINATTI, June 14.—The country near Marshall Station, Kentucky is reported as swarming with army worms. They are travelling southward, doing great damage. The farmers for miles around are fighting them with fire and water without success. The worms are gathered on the railroad track at Marshall to a depth of seven or eight inches.

A BIG SCANDAL.

CHICAGO, June 14.—A great scandal has been created in Indiana by the action of Prof. E. A. Haight, President of the University of Vincennes, and Miss Gertrude Adams, a teacher there, leaving together for a vacation and stopping at a Terre Haute hotel under assumed names, and afterwards coming to Chicago, where they now are. The faculty have requested the resignations of Haight and Miss Adams. The wife of the former is coming here.

LAND SHARKS.

CLEVELAND, June 14.—The Grand Jury have returned seventeen indictments for forgery against real estate dealers and others, supposed to be part of the gang of swindlers who have been defrauding people all over the country as well as the Government, by selling fraudulent titles to lands in south-eastern Kansas. The following have been arrested. John K. Corwin, a lawyer and a prominent member of the Presbyterian Church, P. Halcomb, J. Riblet, Real Estate Agents and C. Newkirk. It is expected that others will be arrested to-day.

ON STRIKE.

COHOES, June 14.—To-day Hermony mills were again closed and not one additional operative this morning joined the ten who returned to work on Monday under the ten per cent reduction. A meeting of the company will be held on Thursday when it is stated that a formal notice will be posted closing the mills until September first.

LAKES OF OIL.

WASHINGTON, June 14.—The Consul at Buenos Ayres, reports in the province of Juzuy, in the Argentine Rupblic, there has been found a lake of oil eighty-eight acres in area, and unknown depth. The lake is covered with a cap of asphalt. An analysis compares very favourably with the analysis of Pennsylvania, and Asiatic oil. Extensive deposits in the form of springs, and lakes have also been found in the province of Mendoza. An English firm has obtained a concession for working them. The analysis are said to indicate forty per cent of pure oil.

ENGLAND.

THE Australian cricket team has won a match with Oxford University by nine wickets.

THE rumor of the engagement between Princess Beatrice and the eldest son of the Landgrave of Hesse is denied.

ALBERT YOUNG, who recently threatened the life of Queen Victoria, has been sentenced to ten years' penal servitude.

AT Liverpool on May 19th ten men who had stowed themselves away on board a National Line steamer were fined 40s. each, or a month's imprisonment.

MIDNIGHT TELEGRAMS

CABLE.

MURDER.

LONDON, June 13.—The Admiralty has received despatches confirming the report of the murder of the engineer of the Superb. The fighting at Alexandria, except the deliberate attack upon the consuls when they were proceeding to the residence of the governor, seems to have been confined to Arabs and Levantines; no English resident is reported wounded.

THE REPRESSION BILL.

LONDON, June 13.—In the House of Commons to-day the consideration of the Repression bill was resumed. Various amendments, moved by Irish members, were rejected, but Mr. Gladstone agreed that re-entry into an evicted holding should not be punishable unless it was effected by force, and that of two magistrates exercising summary jurisdiction, one must be a lawyer. Sir William Harcourt promised that summary jurisdiction, so far as it applied to assaults on bailiffs, etc., should be exercised only in proclaimed districts. Clause 6. dealing with unlawful assassinations, was adopted. It is reported that the Government is nogotiating with the Home Rulers with a view to a compromise on more of the contested clauses of the bill.

A ROYAL BIRTH.

ST. PETERSBURG, June 13.—The Empress of Russia was safely delivered of a daughter this morning. The child was named "Olga." The public buildings at St. Petersburg are decked with flags in honor of the event.

IGNATIEFF'S RETIREMENT.

The retirement of General Ignatieff from the Russian Ministry of the Interior has caused much satisfaction in Berlin and Vienna. Russian funds arose on the London Stock Exchange on his retirement.

TRIAL IN AUSTRIA.

VIENNA, June 13.—The trial of the Ruthenians arrested for assisting in organizing a Russophile agitations in Galicia has commenced at Lemburg. They are charged with high treason.

THE BOURKE MURDER.

DUBLIN, June 13.—The brother of Mr. Bourke, assassinated at Ardrahad, claims £10,000 compensation for the murder of his brother.

LEAVING ALEXANDRIA.

ALEXANDRIA, June 13.—The Europeans are leaving Alexandria as fast as they can. The consuls have issued a proclamation exhorting the Europeans to remain tranquil, and expressing confidence that the army will be able to maintain order. One hundred persons were killed in the riot on Sunday.

TREATING WITH ARABI.

ALEXANDRIA, June 13.—According to the engagement between the foreign consuls, Dervish Pasha, the Khedive, and Arabi Pasha, the Khedive undertakes to maintain order, Arabi strictly obeying his commands. Arabi also undertakes to stop seditious meetings and preachings, and the hostility of the native press. The arrangement is generally regarded as rendering Arabi master of the situation.

OUTBREAK FEARED.

CAIRO, June 13.—Unless there is an overwhelming Turkish force at Alexandria before Sunday there will be a worse outbreak than last Sunday. The prestige of Dervish Pasha has disappeared.

AT ALEXANDRIA.

ALEXANDRIA, June 13.—The Khedive and Dervish have arrived at the Rosetta palace, which can be protected by the guns of the fleet.

FOR ALEXANDRIA.

CONSTANTINOPLE, June 13.—Several Turkish ironclads are ready to embark troops for Egypt if necessary. The Sultan expressed to the British ambassador his regret at the affray in Alexandria, especially at the wounding of the British consul and the killing of the engineer of the Superb.

SMITH.

From Our Own Correspondent.

HONOR ROLL.—The following is the Honor Roll for S.S. No. 7 Smith, for the month of May. J. H. Burrow teacher:—

FOURTH CLASS.—A. B. Hoolihan, L. Fanning, S. Northey.

THIRD CLASS.—Minnie Blewett, Fred Sanderson, Josie Blewett.

SENIOR SECOND.—Victoria Sage, Jennie McIlmoyl, Annie McIlmoyl.

JUNIOR SECOND.—Emmie Blewett, Maggie Sage, Hattie Pearson.

SENIOR FIRST.—Alice Record, Fred Fitzgerald, Lizzie Graham.

FIRST CLASS A.—Maggie Preston and Sarah McIlmoyl.

FIRST CLASS B.—Joseph Trennum and Clara Sanderson, Aleck Preston, Willie Dever.

FIRST CLASS C.—Clara Rosborough, Robbie Pearson, Eddie Graham.

In 1878 workingmen idle. In 1882 workingmen busy. Vote for HILLIARD and BURNHAM and the Government's policy, which brought such a state of things about.

A WORD OF CAUTION.—As is usually the case where an article of true merit has attained a world-wide reputation by its wonderful results, as the celebrated Electric Bitters have done, certain unprincipled parties have endeavored to imitate them, and expect to induce an unsuspecting public to purchase their fraudulent wares. Ask your druggist for the genuine Electric Bitters, that are guaranteed to cure, and take no others. Sold by Taylor & McDonold at 50c.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

OUR GRANDMOTHERS taught their daughters that "a stitch in time saves nine." A pill in time saves not only nine, but oftimes an incalculable amount of suffering as well. An occasional dose of Dr. Pierce's Pellets, (Little Sugar-coated Pills), to cleanse the stomach and bowels, not only prevents diseases but often breaks up sudden attacks, when taken in time. By druggists.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

WHY suffer from Indigestion and Dyspepsia when Burdock Blood Bitters will positively cure these ailments? A trial bottle only costs 10 cents.

Daily Evening Review

WEDNESDAY, JUNE 14, 1882.

WHO PAY THE DUTIES?

As under the present government our revenues have increased, and surpluses are the rule, the party under whose management there were chronic deficits and loans to meet current expenditure, try to diminish the effect of this contrast by asserting that the people are being unduly taxed, and that so many millions additional are taken from their pockets. We have before shown the unfairness of this charge in one respect, that they include in the increased taxation the enlarged receipts from railways and other public works, from the post office, from land sales, from interest, and so on—in short from receipts which show the increase of prosperity and of the business of the country, not of taxation.

But even to take the Custom House receipts, after the passing remark that much of the increase is from increased imports of luxuries, another proof of prosperity, the question arises—Who pay these duties?

We confidently answer that to a very great extent our cousins on the other side of the line do. The proprietors of the REVIEW are manufacturers and merchants, even if it be but in a small way, and our own experience is that time and again we have had offers from the States to supply us with goods, with stock and with machinery, laid down here duty free or with an allowance to pay the duty. The price was not raised above what we had previously paid, nor above what the articles were bringing in the States, so this allowance was no pretence, and it is plain that the manufacturer in the States paid the duty. On enquiry we have found in a variety of different lines of business that similar offers have been made of duty paid goods, or of an allowance to pay duty, and we believe that not a merchant or manufacturer could be found in Peterborough who has not had similar experience. Very probably, indeed the complaints that have been heard from the Reform platform during the campaign, that a duty has been exacted in some cases on more than the price paid for an article, arises from the fact that an allowance was made from the price list either avowedly or virtually to cover the duty. The fact is, that the manufacturers in the States, rather than lose the Canadian trade altogether, have in many cases contented themselves with a smaller profit, and have paid our duties. In these instances the tariff of course did not succeed in one of its objects, that of protecting our own manufacturers, but it secured its alternative object of raising revenues, and that not from the Canadian consumer, but from the foreign manufacturer.

Of course it would be impossible to obtain accurate statistics of the whole amount thus contributed to our customs revenue by foreigners, but a few enquiries would show any one that the sums thus obtained must be very considerable, and that Canadians are far from paying the whole of the present revenue even from customs.

Workingmen be true to your own interests, and vote for HILLIARD, your friend.

CAMPAIGN NOTES.

The *Globe* has the effrontery to say:—

"The Tories do not deny that they gave a contract to Onderdonk at $209,000 above the tender of Macdonald and Charlebois, responsible Canadian contractors who had before executed extensive works!"

The REVIEW and many other Conservative papers have long ago exposed this falsehood, and have shown that the Macdonald and Charlebois tender was more than a million dollars higher than the Onderdonk tender, as is shown by the schedules of prices, calculated out by the Government engineers, and presented to Parliament. Not content with their bogus cheque, Macdonald and Charlebois also made a bogus addition of their prices, but they were to draw pay according to the schedule, and the country has been saved $1,000,000 by the contract being properly awarded.

* * *

The *Mail*, like ourselves, condemned the disgraceful insults against Canadian factory girls, which the *Globe's* special correspondent published as obtained from "an informant." The *Globe* says the *Mail* ought to have printed the next sentence to show that its correspondent did not endorse the opinions of his informant. We give the sentence which the *Globe* is so anxious to have, and which reads as follows:—

"It is possible that the views referred to may be too dark. There must be girls whose purity of life resists the tendencies around them; these deserve real and practical respect; their weaker sisters deserve sympathy, for under the conditions in which they live there is little of an elevating character."

Is not this almost worse than the direct assertion, this hope of the possibility of the views being "too dark," and that some of these girls may remain pure? The "informant" himself admitted one in ten to be moral.

* * *

The Toronto *Telegram*, an independent journal, speaking about Sir Richard Cartwright says:—

"He left the Tory ranks because Sir John would not give him the finance ministership, and, considering the poor fist he made of it when he got it, no one can say that in this instance at any rate Sir John's judgment has not been amply justified by events."

* * *

Mr. Plumb, we are told, got off a good thing on Sir Richard at Elora, on Saturday. It is a well known fact that the gallant knight placed $15,000 to his credit at a bank in Elora, "in view of the exigencies of the contest." This, said Mr. Plumb, "is the only surplus Sir Richard ever had."

Workingman, vote for employers of labor, and for the party that supports our home industries.

REP. BY POP.

MR. LUNDY'S representative at the campaign meetings states that he has added together the populations of seven or eight of the largest and smallest of Ontario constituencies as now constituted, and that the average population of the largest is 26,000 odd, and that of the smallest 13,000 add, and that consequently the rep. by pop. defence is a fraud. Without in any way making ourselves responsible for Mr. Bertram's figures, we beg to supplement them by the following statement of the populations of the four largest and smallest constituencies in Ontario, as they existed previous to the passing of the bill which they are so vigorously denouncing. The four largest; Simcoe 49,238: South Bruce 39,803; Lambton 42,616 and Essex 46,962; total 178,619, or an average per member of 44,655. The four smallest; Niagara 3,445; Cornwall 9,904; South Brant 11,894 and Stormont 13,294: total 38,537, or an average per member of 19,634. Results:—The population of the small constituencies have been raised from below 10,000 to over 13,000, and that of the large constituencies has been reduced from over 44,000 to less than 27,000, and yet Mr. Bertram asserts that the changes made by the bill have not been in the direction of equalizing the population, and therefore are not based on the principal of rep. by pop. The statement contains quite as much truth as Mr. Bertram's platform statements usually do.

THE PRICE OF OATS.

No better evidence could be adduced of the unfair and deceptive manner in which Mr. Bertram deals with public questions, than the course he has pursued at Mr. Lundy's meetings with regard to the oat question. At these meetings he quotes the REVIEW as authority that oats were worth 45 cents in Peterborough on the 19th May, while on the same day they were worth 59 cents in Chicago. While this is true so far as it goes he, with his usual want of candor, refuses to add, that, at the same time oats were only worth according to the same authority 42 to 43 cents in Montreal, against 45 to 47 cents in Peterborough, again while in Chicago oats are quoted *nominal* at 59 cents for May delivery, they were at the same time quoted at 45½ for June and 37⅜ for July delivery, showing that the quotation with which he attempted to deceive his hearers is solely attributed to temporary causes. As such conduct on Mr. Bertram's part cannot be excused on the ground of ignorance, no other conclusion can be drawn therefrom than that he deliberately desires to deceive his audiences for the purpose of securing a verdict for his party.

Vote for BURNHAM and HILLIARD, and stand by the Government that has stood by the country.

MORE CONVERTS.

To the Editor of the Review.

DEAR SIR,—You will confer a great favor by inserting the following in your widely read paper, as an evidence of the beneficial effect of the N. P. in stimulating native industry. In September of 1881, the C. W., Williams' manufacturing Company, of Montreal, makers of the now world renowned Williams' Singers took all the prizes, at every leading exhibition in Canada, where they were in competition. Previous to the introduction of the N. P., the Company was almost on its last legs, owing to the ruinous competition of the Yankee dealers. But mark the change! Since the introduction of the N. P., the company has made gigantic strides, until to-day it virtually controls the trade of Canada, and is rapidly running the Yankee sewing machines out of the country, and can even carry the war into Africa, as evidenced by the recent suit of the makers of the Glasgow, alias N. Y., Singer, in their endeavor to cheat the Customs authorities, by passing at a low valuation 150,000 old machines, which had been sent to their American factories to be re-japanned and built over, and which they destined to sell in Canada as new, "Genuine New York Singers." In this suit C. W. Handy an American, and probably the best sewing machine expert in the world, testified under oath, that the Williams' Singer was a representative machine in the States, and that he considered that it had various points of superiority over the N. Y., and Stewart Singers made in the United States.

Now we call upon you, the electors of Canada, to decide whether you will uphold by voting for protection, this Company which represents Canada in the markets of the world, and employs over a million dollars capital here, or whether you will allow them to be swamped by an inundation of Yankee mediocrity, by voting for free trade. Conservatives and Reformers we call upon you to rally around the standard of protection in the name of patriotism, and for the support of your families.

Thanking you for your valuable space, we remain,

REFORMERS,
Who have been Benefitted by the N.P.

To the Free and Independent Electors of the

WEST RIDING
OF PETERBOROUGH.

GENTLEMEN,—

At the urgent solicitation of my political friends I have consented to be again a candidate for your suffrages at the approaching election.

While I would have preferred not to have been a candidate on the present occasion, yet now that I have placed my services again at your disposal, you may rest assured that no private duty or engagement will be allowed to interfere with the proper discharge of my duties as your representative, should I be honoured with your confidence for the second time.

Although I failed to be present at every division during the recent session, I would venture to challenge my political opponents to specify a single instance in which I have neglected the interests of my constituents or failed to discharge the duties devolving upon me as your representative to the best of my ability and judgment.

During the past four years I have rendered a cheerful support to the government of Sir John A. Macdonald, believing that it has not only redeemed the pledges given previous to the last general election, but that its policy has been and is one eminently calculated to promote the prosperity of the country, and should you again honor me with your confidence I shall continue to give the present government the same cordial support, so long as their policy commends itself to my judgment.

In conjunction with the other representatives from this section of Ontario, I have done all in my power to secure the early construction of the Trent Valley Canal, and the large measure of success which has attended our past efforts should assure the electorate of this district that if their present representatives are re-elected and the present government sustained, this great and long-looked-for work will be brought to an early completion.

As it will be impossible for me to undertake anything like a personal canvas between this and polling day, I trust those favorable to the cause of good government will render me their hearty support without waiting to be asked, and that all the electors will make it a point to attend the meetings which I propose holding in different parts of the constituency for the purpose of public explanation and discussion of the several questions involved in the present campaign.

Again thanking you for the confidence reposed in me in 1878, and soliciting a renewal of the same,

I am, gentlemen,
Your ob't. serv't.,

GEO. HILLIARD.

BEGS to return thanks to all his old friends and patrons for past favors, and to announce that he has again resumed business in Peterborough. Having gained a large experience from an extended tour through some of the principal cities of Canada and the United States, he hopes to be better able to merit a continuance of public patronage.

Samples of Moorish, Egyptian, and Japanese Decorations, now the latest styles of Paper Hanging in vogue in all the cities.

In prices and workmanship he defies competition. All orders left at his residence on Aylmer street, or at the Hardware stores promptly attended to 43

RURAL BEAUTY.

Strange to say, one thing a person from the city misses in the country is trees. There are ragged bits of bush on the backs of farms and consumptive groves on stony places from which wood is ruthlessly cut whenever wanted. Some of the newer houses have saplings about them, and the more tasteful old homesteads are shaded by ancestral trees, but the ordinary farm house has little about it to make it cheerful. A row of lilacs may be planted in a garden between the currant bushes and the onions, but spirea and fox-gloves are shorn every year from the sides of neighboring rocks which they would so gratefully clothe, or at least the impression is conveyed that if this is not done it is only because no one has time to do it. The more rural cemeteries are square patches of ground with close rows of expensive marble slabs and obelisks unsoftened by a shrub or tree, where, for the tenth part of the cost of a stone, trim cedars and dark firs might be made to speak of love and eternal life, and divide between mound and mound. The people think that it would be profitable, in view of another generation, to plant ten sugar maples along each farm front, a work which would be well done in half a day, but the half day never comes, perhaps because the roadside is not made up, perhaps because the planting season is a busy time. As the prospect is the roadside will not be made up for a century, it would probably be better to make the best of it as it is. Experience may not prove that the roadside is the best place for tress, even though such a use of it enables a thrifty people to take sweetness from the strong but all acknowledge that trees by the roadside once in sixty feet, would be better for the country than no trees, and, judging from the disrespect shown to our planted trees, any process that would add to the love of trees would do good. One is sometimes pleased to find trees growing in pasture lots, and is cheered with the thought that these at least are preserved out of respect, until the illusion is rudely dispelled by seeing some of the finest trees girdled with the hatchet of some vandal who has not even the conscience to give a condemned tree the honor of decent execution.—*Montreal Witness.*

Simple Remedies for Minor Accidents.

There are minor accidents liable to occur at any time, which, if properly treated, may prevent serious results. A burn or scald is always painful; but the pain can be instantly relieved by the use of carbonate of soda, or common baking soda (saleratus). Put two teaspoonsful of soda in half a cup of water. Wet a peice of linen cloth in the solution and lay it on the burn. The pain will disappear as if by magic. If the burn is so deep that the skin has peeled off, dredge the dry soda directly on the part affected.

For a slight cut there there is nothing better to control the homorrhage than common unglazed brown wrapping paper, such as is used by marketmen and grocers, a piece to be bound over the wound.

Nose bleed, if not in excess, should not be checked. It is nature's method of relieving congestion. It sometimes, however, passes a healthy limit and wants attention. Put the hands in mustard water and apply cloths wet with ice water or vinegar water, to the forehead and over the nose. In aged persons and those who are great eaters nose bleed shows a tendency to apoplexy. The bowels should be kept free and the diet regular.

In the summer season it is not an uncommon thing for persons going into the woods to be poisoned by contact with dog wood, ivy, or the poison oak. The severe itching and smarting which is thus produced may be relieved by first washing the parts with a solution of saleratus, two teaspoonful to the pint of water, and then applying cloths wet with extract of hamamelis. Take a dose of epsom salts internally or a double rochelle powder.

For a simple fainting fit a horizontal position and fresh air will usully suffice. If a person received a severe shock caused by a fall or a blow, handle carefully without jarring. A horizontal position is best. Loosen all tight clothing from the throat, chest and waist. If the patient can swallow, give half a teaspoonful of aromatic spirits of ammonia in a little water. If that cannot be procured, give water. Apply warmth to the feet.

Electors of West Peterborough, vote for GEORGE HILLIARD, your tried and approved member, who has his residence and business among you.

Spring Diet.

Spring and fall are usually seasons in which more than usual care is required to preserve health. Caution and skill in dieting are one of the best means of preserving a healthful and robust condition, and the housewife may very profitably take time to consider what may best be done in this way. The garden is just now unproductive available being rhubarb, and where the garden is about the average, asparagus may be added. Both of there are excellent in their effect upon the system, the one for its grateful, cooling and medicinal acid, and the other for its peculiarly wholesome and purifying influence upon the blood. But to these may be added the large variety of canned vegetables and long-keeping fruits. Lemons, cranberries and tomatoes are useful antidotes to biliousness, and need no persuasive eloquence or force to induce children to take them. Tomatoes can be served as they come from the can with salt and a dash of pepper; and when the family are tired of them in this way there are many others in which they can be varied. They may be stewed with bread crumbs. or stewed and toasted crackers added to them; a very acceptable breakfast dish can be made by warming up with them thin slices of cold boiled tongue seasoned with a little butter and pepper and salt; or any tender cold meat sliced will do as well. Lemons may be saved with any kinds of cold meats, or with roast veal or stewed calf's head or roast chicken, or the juice may be used to make lemonade, which is one of the most grateful and refreshing and healthful drinks. Stewed cranberries make an agreeable supper dish, and cranberry sauce is excellent relish with roast mutton. Young onions should be one of the earliest of the garden vegetables; watercress can be grown anywhere in a running spring or brook, and is to be had in the best state very early in spring and until the summer. So that there are abundant resources in this direction to which the prudent housewife may look for the needed supplies.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. FROM ALL OVER.

A school of fine arts is to be established at Princeton College.

THE number of gipsy children in England is estimated at 30,000.

WAGNER, the composer, is seriously ill, and anxiety is felt as to his condition.

A COMMON, and often fatal, disease is Jaundice. Regulate the action of the Liver, and cleanse the blood with Burdock Blood bitters, and the worst case may be speedily cured.

SEVERAL women are employed on the staff of computors in the astronomical observatory of Harvard College. It is claimed women have shown themselves specially competent in the ordinary reductions of observations in more than one European observatory.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

A USE has at last been found for the Canada thistle. A shepherd in South Australia declares that they furnish more and better food for sheep during a protracted drought than any plant that grows. The flower buds are eaten by lambs in preference to any kind of grass.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

ON the 13th June, the session of the House of Representatives was opened with a prayer by Rabbi Jacob Voorsanger, of Houston, Texas, upon invitation of Chaplain Power. This is the third time a rabbi has made the opening prayer at the House sessions.

HAZAEL, the champion walker of the world said to a New York reporter, in the course of conversation: "St. Jacobs Oil is a wonderful medicine; I do not know what pedestrians would do without it, for it is their best friend. A rub of St. Jacobs Oil after leaving the track makes a new man of one and fits him again for the contest.

THE new excavations at the Forum and Pantheon were thrown open for the first time on the two thousand six hundred and eighty-fifth birthday of Rome, when Humbert and Margherita visited them, the ruins being illuminated with Bengal lights.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents of J. McKee Peterborough.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

DR. PIERCE'S "Favorite Prescription" perfectly and permanently cures those diseases pecular to females. It is tonic and nervine, effectually allaying and curing those sickining sensations that effect the stomach and heart through reflex action. The back-ache, and "dragging-down" sensations all disappear under the strengthing offects of this great restorative. By druggists.

THE DOCTOR'S SECRET.—Probably no new development will more surprise the public, than to learn the secret of success of certain leading physicians. When they have a difficult case of throat or lung disease that baffles their scientific skill, they prescribe Dr. King's New Discovery for consumption, Coughs and Colds, having it disguised in a prescription bottle, with their own directions and name attached. The patient is cured and they get the credit.—*Tribune.* Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.—2

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

THE American electrotypes of William E. Gladstone look as though William had just put on a pair of his last summer pants, and had neglected to remove the bumble bee that roosted in them during the winter. The expression on his face is one of extreme woe and grief and surprise.—Boomerang.

EARTH CLOSET CO'Y

13 Jarvis Street, Toronto. d124

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

MUNRO & ALEXANDER

Daily Evening Review

WEDNESDAY, JUNE 14, 1882.

John A's Meeting.

The Independent Montreal *Star* says that Sir John A. Macdonald addressed 2900 people here, and that the meeting was a large one for only 24 hours' notice. Our confrere agrees with us on that question at least.

To Our Advertisers.

Advertisers who have yearly contracts running in the daily REVIEW with privilege of changes, will please hand in their copy before twelve o'clock noon, or they may have to be held over till the following day.

Cricket Match.

On Saturday afternoon a cricket match was played on the Ashburnham ground, between the juveniles of Lakefield and Peterborough, resulting in a very hollow victory for the latter, who defeated their opponents by one innings and fifty-five runs.

Railway Accident.

On Monday a Midland brakeman, named Thompson of Port Hope, while running ahead of a train at Lakefield to open a switch, stumbled and fell on the track. The locomotive passed over one of his feet. He had on an extra strong pair of boots with very solid heels and to this fact he owes the preservation of his heel, if not his entire foot. As it is the flesh is badly torn, but a few weeks' rest will fix him all right again.

Masonic Excursion.

As will be seen by large posters, the Freemasons of Lakefield and Peterborough will have a grand union excursion to Belleville and Massassaga Point on Monday June 26th. This will be the first trip of the season to Belleville, and as the fare from Lakefield and Peterborough has been fixed at the very low rate of $1.50 for the return trip, it is altogether probable that a large number will avail themselves of the opportunity to take a day's outing.

Another Charley Ross.

The Montreal *Star* says that strange rumours are afloat in Peterborough with reference to the alleged drowning of Frank Gain, reported some weeks ago. Although the hat of the little fellow was found floating on the water where he was supposed to have fallen in, still, up to this no trace of him has been found. He was a very handsome child, and there appears strong grounds for believeing that he has been abducted. We have heard the same yarns, but as there is no foundation for them to rest on, we did not think it worth while to start another Charley Ross story, but as our contemporary has published the reports, we suppose we are bound to follow suit.

A Mammoth Combination.

To-morrow Peterborough will be honored by a visit from the Big United States Circus and Great Eastern Monster Hippodrome and Racing Balloon Show, combined. An exchange says that this is positively the only tented show that will hold forth in our Dominion this summer, and is one replete with startling novelties. In the arena will be found the following artists: Wm. Batchelor, champion high leaper and double somersaultist; Hermandez, champion bare-back rider; M'lle Aurelia, the dashing Brazilian equestrienne; Clara Lowanda, Queen of the Arena; Belle Celeste, empress of the air; Baldwin and Karl, the daring intrepid athletes, whose every act defies all imitators, and an army of gymnasts and acrobats. These all wear the diamond studded gold medals, and are in their separate acts unequalled and unapproachable. In the menagerie is to be seen the only team of ploughing-elephants the jungles of India have ever produced; a den of twelve majestic lions, the monarchs of the forest; a den of man-eating Bengal tigers; the mastodon beohemoth, or blood sweating hippopotamus of the Blue Nile; the Burmese sacred cow; black camels, from the desert of Sahara; the beautiful untamable zebra; a royal yak; an immense cage of beautiful, plumaged birds, from the tropical climes; a myriad of marvellous, mimicking monkeys, and a thousand other living natural curiosities. The street spectacular parade is represented as a gorgeous, oriental procession, reminding one of the march of the pilgrims over the desert to Mecca, to worship at the temple of the sun. This is free and should be seen by all—old and young. Make a note of the day and date, and don't miss this grand procession.

EAST RIDING NOMINATION.

Large Meeting at Norwood—Addressed by the Candidates and Others.

The nomination of candidates for the East Riding of Peterborough, for the House of Commons, took place in the villiage of Norwood on Tuesday last. At 12 o'clock precisely, Col. Haultain, Returning Officer, read his proclamation and called for nominations. The necessary papers nominating Mr. John Burnham, in the Conservative interest, and Mr. W. E. Roxburgh, in the Reform interest, were then handed to him. These were the only nominations.

The assemblage, composed of perhaps between 500 and 600 electors of the riding were addressed by the candidates and other gentlemen, one hour, by arrangement, being allowed to each speaker.

Mr. Burnham ably discussed the questions at issue, fully and satisfactorily explaining his course in Parliament as the representative of the riding, and ably and succintly laid before the electors the leading measures legislated during the last four years by the administration of Sir John A. Macdonald, and also gave valid reasons why he again claimed the support of the electors. His address was received with marked approbation, and he took his seat amid enthusiastic cheers and applause.

Mr. Roxburgh then addressed the electors. His speech can easily be found by a reference to the columns of the *Globe*.

Mr. John Carnegie also addressed the meeting, and his speech was unquestionably logical, argumentative and convincing. He briefly, though lucidly, and effectively, referred to the many political topics now engaging public attention, and in all cases gave facts and figures for the arguments he advanced. His address was remarkably well received, and, except on those who did not want to believe what he said, made a most favourable impression upon his hearers.

Mr. Mackay, High School Teacher of Norwood, then followed. All the new matter he introduced was simply that, *oats* being so heavily impressed upon his attention of late he could not possibly eat any more *Johnny Cake*, and that Sir John A. Macdonald, who was now picnicing through the country, was so covered with vermin that even his friends the Tories could not swallow him. For the remainder of his address see the columns of the *Globe*.

The proceedings were brought to a close with cheers for the Queen and the candidates.

Though the gathering was certainly the largest that ever assembled in Norwood, the utmost good feeling and unity prevailed among all parties throughont the whole of the day, and in the evening there was very little to indicate the presence of so many poeple from different and distant parts of the Riding.

Support HILLIARD, who supported the carworks factory.

Personal.

Mr. Joseph Gray, of Prescott, a fine speaker, addressed those at the Ennismore pic-nic to-day, in favor of the John A. government.

Mr. Hugh Ryan, a member of the Canada Pacific Syndicate, and contractor for the Ontario and Quebec Railway, started on Tuesday to drive over the line from here east. He desires to let the contract in five mile sections.

Canoe Race.

Mr. Purser of Lakefield has taken Mr. Thos. Wallace of Gore's Landing to Rochester, where he has matched him to paddle a canoe race in best-and-best boats, on Thursday for $100 a side, against a man named McGuire, who at one time resided here, having carried on boat building on Hunter street, near the Otonabee bridge. Wallace is a fine paddler and the yank will have to do big work, if he defeats his antagonist.

The Campaign.

Only very few more days of suspense now remains before the 20th of June comes around, and the tale is told. The Conservatives are fully organized and very little more work remains to be done. A general meeting of all the members of the Contral Committee, and all the Ward Committees is called for to-night at the old Music Hall. A full attendance is particularly requested at it is desirable that the scrutineers etc., for the various polling places should be appointed as soon as possible. The Hall will be open at 7.30 o'clock and all should be punctual.

AN INQUIRY.

To the Editor of the Review.

SIR,—Several months ago a subscription list was presented to the citizens of the town ostensibly for the purpose of procuring an artificial leg for the young man Parks, and was liberally responded to. So long a time has elapsed that we fully expected ere this he would be enjoying the use of the article, but we still find that he is trudging along on his crutches. Nothing seems to have been done in the matter for some time, and, no doubt, those interested desire to see it brought to a successful issue at an early date. If the originator of the scheme finds his time too much occupied to finish it, he might place the subscription in the hands of some responsible citizen, who would successfully prosecute the work. Hoping to see some action taken in the matter and thanking you, Mr. Editor, for your valuable space.

I Remain,
Yours Respectfully,
ONE WHO SUBSRIBED.

Peterborough, June 13th, 1882.

DEATHBED REPENTANCE.

The Independant Toronto *Telegram* says of the Reformers:—

"Their weak point is that they fought against the N. P. too long. There has not been a day in four years, Sundays excepted, that their organs have not denounced it as a swindle and stigmatised the manufactures as plunderers, while the hardshell leaders of the party have declared that the National Policy is a national folly and a national crime. To change the tune now looks like deathbed repentance. They should not have postponed their change of heart till the eleventh hour if they expected it to have any weight with the country."

Vote for Hilliard, who never shirked paying town taxes.

A SPLENDID OUTLOOK.

Three Cabinet Ministers are Elected by Acclammation.

AS WELL AS FIFTEEN OTHER N. P. MEN AND ONE GRIT.

THE FIRST SHOT STRIKES HOME TO THE HEARTS OF THE "REFORMERS."

Who Without Anything to Reform, or any Particular Policy try to Harrass the Government—The Finger of Fate Points Them to at Least Five Years More of Opposition—The Nominations in Ontario.

On Tuesday the nominations for members of the House of Commons took place throughout most of the Provinces. As will be seen by the annexed list, the result cannot but be gratifying to the Liberal Conservative party, who returned no less than three Cabinet Minsters and fifteen other members by acclammation. That fact is a significant one and one that will have a good effect on the electors. The following were elected

BY ACCLAMATION:

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

THURSDAY, JUNE 15, 1882.

THE CIRCUS.

Arrival in Town—An Immense Crowd and Imposing Procession.

The Big United States Circus arrived in town this morning from Lindsay. An immense crowd met the show at the station and the streets were just crowded with spectators. The procession, which was one of the largest and at the same most imposing we have seen for some years paraded the principal streets of the town. The elephants, camels, knights and ladies in armour, the open den of lions, the panther loose on a chariot, the long line of cages, and the two fine bands made altogether a fine sight, while the children were greatly amused by the antics of comical figures on the tops of the cages, dens and chariots.

During the afternoon the immense tents were crowded, there not being a single empty seat, while many had to stand. The menagerie is rather better than the average, the five lion whelps only six weeks old, and the hippopotomus, the only one ever seen here, came in for a large share of attention. The ring performance was far above the average and was pronounced by many to be the best ever seen here. All the features are new and good and to-night we expect to see the tents crowded again as the performance given is well worth seeing.

SEWING MACHINES AND THE N. P.

To the Editor of the Review.

DEAR SIR,—Will you kindly allow me space in your paper for a reply to an article appearing in your paper of the 14th, in which a man by the name of Williams, or some of his agents, who manufactures an imitation of the genuine Singer Sewing Machine, seeks to advertise his goods by taking advantage of the benefits accruing from the N. P.

1st. The machine he sells does not control the Canadian market, as 75 per cent. of all sewing machines sold in this country are genuine Singers.

2nd. It has no office in this county, while the genuine Singers are not only large ratepayers, but give profitable employment to a number of our townsmen, who are all supporters of the N. P.

Now, sir, if C. W. Williams wants to advertise his machine let him do so, but let him call it an advertisement and pay for it like a man, and not have it charged to the N. P.

Respectfully,
A CONSERVATIVE.

June 15th, 1882.

CHEAPEST GOODS.

Our city contemporary has been digesting the manufacturing returns of Hamilton, and has discovered that whereas the product of each man's labor in 1878 sold for $1,040.18, the product of each man's labor in 1881 sold for only $826.01. That is exactly what the *Spectator* pointed out some months ago—that manufactured goods are cheaper now than they were in 1878. Without rhyme or reason, without the slightest evidence to go upon, the free trade journals have steadily persisted that the manufacturers were monopolists and extortioners, who were adding the duties to the price of their goods. Over and over again we asserted that this was not true. We quoted from price lists, we gave the statements of manufacturers—in every way possible we argued and produced testimony to sustain our argument, that manufactured goods are not increased in price by the tariff. And the only response we could get was a stolid and unreasoning iteration of the cry that the manufacturers were robbers and monopolists who were taking advantage of the tariff to put up their prices. Then the *Times* sees a point. "Why, look here" it says excitedly, "this tariff is ruining the poor manufacturers. They sell the products of each man's labor for less money than they did in 1878." Well, it is some satisfaction to know that after several years one free trader has succeeded in fixing a solid and fundamental truth in his mind—that protection gives the consumer cheaper manufactured goods than free trade gives him.—*Hamilton Spectator.*

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dve's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is ailowed.

MIDNIGHT TELEGRAMS

CABLE.

WARNED TO QUIT.

CAIRO, June 14.—The English Consul-general desires the British residents to quit Egypt without an official request, which might produce a panic. He has started for Alexandria.

A WATERSPOUT.

PARIS, June 14.—A waterspout at Verces in Hungary drowned 60 persons yesterday.

THE EMPRESS.

ST. PETERSBURG, June 14.—The Empress whose confinement occured yesterday, is suffering unusual exhaustion.

ABOUT PHAROH'S LAND.

LONDON, June 14.—In the House of Commons a speaker denied that the troops were disaffected. Dervish Pasha is confident that he will be able to maintain order. He declined to make further statements. Wolff, a Conservative, moved the adjournment as a protest against the reticence and imbecility of the Government. A debate followed. Wolff condemned the assertion that England was with France. Gladstone greatly lamented what had been said concerning France, which promised to labour loyally and heartily with England. All the Powers were co-operating heartily with England. The Sultan is in complete harmony with the Powers, while Germany most strongly urged the Porte to accept the conference. Gladstone dwelt on the necessity of using the instrumantality of the British Policy, which was the maintainence of all established rights.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

NO BETTER.

ALEXANDRIA, June 15.—The panic in Egypt shows no signs of decreasing. The situation is absolutely demoralizing.

RAPIDLY COMING.

LONDON, June 15.—In the discussion of the crime prevention bill last night, there were several bitter passages between the Government and the Irish members, indicating that they are rapidly reaching the point, when a conflict is inevitable.

MURDEROUS INDIANS.

RIO JANERIO, May 24.—The French explorer, Dr. Jules Crevaux, and party, 17 in all, were murdered by Indians of the Nilcomays in Bolivia.

AMERICAN.

NOT MURDER.

GENEVA, Ill., June 15.—Jailor Lawson shot and killed James Irwin, a disorderly prisoner, here on Tuesday night. The coroner's jury acquitted Lawson.

ESCAPED.

LANCASTER, Ohio, June 15.—Thornton Baker, County Treasurer, an alleged defaulter of $81,000, whom the people have been trying to convict ever since his capture in Canada, disappeared yesterday. He had been under only $4,000 bonds.

EAGER TO SEE.

CHICAGO, June 15.—800 people paid an admission fee for the privilege to view the remains of Mrs. Seyblet, and the four children she poisoned.

FILLED WITH ROUGHS.

PITTSBURG, June 15.—At midnight 800 roughs took passage on a steamer and barges for the scene of the Weldon-Maloney prize fight. No effort was made by the authorities to interfere. A large delegation also left by the late train.

A DRAW FIGHT.

SMITH FERRY, Pa., June 15.—The Weldon-Maloney prize fight was a draw. After the 41st round Weldon was overawed by roughs, and agreed to have it a draw.

A FREE (?) COUNTRY.

LOUISVILLE, June 15.—John Hanson (coloured), convicted of vagrancy, was sold at auction yesterday into servitude for one year to the city scavenger for two dollars. The law authorizing the sale was passed in 1795. A large crowd were present. The negroes are much excited and thought it too unpleasantly like the old slavery time practices.

A FIRM DENIAL.

HARTFORD, Conn., June 15.—Geo. Haight publishes a statement denying the allegations that he was improperly intimate with Mrs. Christiancy, he says for aught he knows Mrs. Christiancy is as pure as any lady on earth. He made no admission as alleged to Stephen Chester and intimates that the latter's statement was influenced by the fact that Minister Christiancy effected his release from prison in Peru.

NO POLL TAX.

NEW YORK, June 15.—Fourteen foreign steamship lines, have refused to agree to pay the Commissioners of emigration 50 cents for each emigrant landed. It is thought that Castle Garden will be closed on Saturday, and all immigrants be refused admission. The Wards Island immigrants who seek aid, will be referred to the steamship Company who landed them.

ON STRIKE.

NEW YORK, June 15,—600 men employed at the freight sheds of the New York Central and Hudson River Railway, are on strike for an increase of pay. Green hands have been employed in their places.

"FOR a number of years I suffered with rheumatism of the back and hip," said Mr. Thomas Morgan, Superintendent of streets, Cincinnati, Ohio. "I was waited on by physicians, but they gave no permanent relief. It was in a fit of desperation that I resolved to try St. Jacobs Oil. My rheumatism began to weaken at the first attack of its great enemy—St. Jacobs Oil—and soon I was as well as ever."

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

CONFLAGRATION.

Destruction of Wholesale Buildings at Montreal—Loss One Million Dollars.

MONTREAL, June 13.—A fire broke out this evening at 10.30 in the upper flat of the large warehouse of Robert Miller & Co., wholesale stationers, Victoria-square. It soon communicated to the lower flats, and the sparks from the rear part of the building set fire to the warehouse of Messrs. Shaw, furniture dealers. Fortunately no wind was blowing at the time, and a stream of water disposed of the fire in Shaw's flat. Afterwards a flat of Miller's took fire, until at length the whole warehouse was in flames. Meantime the cornice and tar roof of the building carried fire to the wholesale dry-goods warehouse of Messrs. Greenshields, Son & Co., and W. Clendenning & Co., on either side of Miller's. These warehouses took fire and burned downwards, the firemen being unable to do more than confine the flames to the building. The only one of the four handsome buildings now safe (1.30 a. m.) is the store of McIntyre, French & Co. It is a question whether the firemen will do more than save it. Several narrow escapes occured. Three firemen were on a Skinner ladder, when a heavy cornice came down with a ton or more of the brick packing. A cry of horror arose from tens of thousands of onlookers, but changed to a roar of triumph as the flames shooting upwards revealed the men on the ladders untouched. Messrs. Miller had a full stock of goods in plain and fancy stationery, and the loss must come well upon $200,000, insured in part. Messrs. Greenshield were carrying over a large quantity of spring goods, and had a heavy stock of fall goods housed; the loss will be between $300,000 and $400,000. the insurance being distributed over all the British companies. Mr. W. Clendenning's loss will be in stoves and fine ironware, and will likely reach $400,000. The building was owned by W. Clendenning, and the loss thereon cannot be far short of $200,000. The total loss thus far may be safely set down at about $1,000,000. What it may reach it is impossible now to say. At this moment news comes of a large fire at Point St. Charles.

THE FIRE SUBDUED.

MONTREAL, 2:10 a. m., June 14.—The fire which looked so formidable half an hour ago, has been almost completely subdued. Messrs. French, McIntyre, & Co. will lose heavily, their stock being injured to some extent by water.

A BIG GAME OF POKER.

Three Bets of $150,000 on a Single Hand—Alleged Fraud and Conspiracy.

NEWBURGH, N. Y., May 13.—At midnight Dr. Monteville, M. Hodges, dentist and a sporting man was arrested here. Francis P. Weed of this city charges Hodges and Wm. M. Scott, who is now dying of consumption in California, with cheating at games and with conspiracy to defraud. It is stated that the three played poker in June last, each betting $150,000 on a single hand. Weed and Hodges lost. Weed alleges that the hands were put up by Hodges and Scott, they to divide the winnings. Weed had recently received from the estate of his deceased father half a million dollars. It is stat Weed paid the defendents during the year over $100,000, having compromised for $120,000, and there is $15,000 yet due on an unpaid note. This Weed desires to avoid paying and has begun attachment proceedings against Hodges and Scott to recover as much as possible of what they have already received.

Revolting Suicide.

BUFFALO, N. Y., June 12.—A ghastly suicide was committed yesterday morning in St. Mary's Catholic Church, at the corner of Broadway and Pine street. The victim was Agidous Hock, a moulder in the employ of Messrs. Scoville Bros., car wheel works. Hock, in company with his wife, attended mass at eight o'clock. but seemed little interested during the service. Towards the close he was observed to take a razor from his pocket and scan it closely, and though his action was somewhat strange, but little was thought of it. At the conclusion of the ceremonies Hock and his wife joined the dispersing throng, but on reaching the vestibule he suddenly stopped, and drawing the razor again, with a sudden movement he drew it across his throat aud cut a frightful gash from ear to ear. The blood poured in a deluge from the wound, ran down his bosom and dripped to the floor. Those about him were horror-stricken by the awful ac.t Grasping the instrument more tightly in his hand, he looked wildly about and then rushed through the door, leaving a trail of blood behind. He ran across the broad pavement and up Pine street, followed by an excited crowd. When a few feet from the corner he nervously lifted the razor again and made another desperate lunge at his throat, cutting a smaller slit above the first, immediately under the chin. As he neared Cypress street, a block distant, he began to stagger, and on reaching the corner he fell unconscious in the gutter. He was picked up, and Dr. Kammerling was sent for, but life was extinct in ten minutes. The poor wife is prostrated by the shock and refuses to see any one. Hock committed the deed while labouring under insanity. A week ago while driving a horse on Exchange street he narrowly escaped running over a woman, and that act, though little in itself, so affected him that he ceased work and often asked if he was to be arrested for it.

Vote for HILLIARD and BURNHAM, for Canadian, not Yankee Industries.

A WORD OF CAUTION.—As is usually the case where an article of true merit has attained a world-wide reputation by its wonderful results, as the celebrated Electric Bitters have done, certain unprincipled parties have endeavored to imitate them, and expect to induce an unsuspecting public to purchase their fraudulent wares. Ask your druggist for the genuine Electric Bitters, that are guaranteed to cure, and take no others. Sold by Taylor & McDonold at 50c.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

IF NEARLY DEAD after taking some highly puffed up stuff, with lofig testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Daily Evening Review

THURSDAY, JUNE 15, 1882.

WHAT MR. BLAKE WILL NOT TELL US.

THE HON. EDWARD BLAKE is to address the electors of Peterborough on Friday, June 16th, and from his well known ability as an advocate and orator he will no doubt make a good speech. What subjects he will touch upon, and how he will treat them, it would be hard to foretell, for he is a gentleman of great versatility and vivid imagination, and the display of his talents is sometimes of the Aurora type, brilliant but not trustworthy as a useful practical guide. It will perhaps be easier to point out what he is *not* likely to tell his audience.

It is not probable that he will tell us, while discussing our tariff policy, how and when and why he became so suddenly converted from the enmity to the N. P. expressed by him till within a few weeks ago—and by his colleagues, supporters and organs up to the present time—to the rather friendly feeling manifested in his address to the electors.

It is not probable that he will tell us, while discussing the Boundary award, why on a great question, particularly within the province of a lawyer, he should not have taken part in the parliamentary debate, where he might be followed by Sir John Macdonald, whom he so much dreads as a critic on a constitutional question, and why he prefers to maintain the validity of the award on the platform where he is not exposed to such criticism.

It is not probable that he will tell us, while discussing the disallowance of the Streams Bill, why he gave a professional opinion against the bill and a political opinion in favour of it; nor that he will tell us the precise nature of any changes made in the bill after its introduction that would warrant such a diversity of opinion.

It is not probable that he will tell us, while dilating on Provincial rights, why it was correct for him to recommend the disallowance of Provincial legislation that was not *ultra vires*, and why it is an outrage for his successors to follow his example.

It is not probable that he will tell us, while referring to the Civil Service, why he did not abolish, when he was in power, that "political patronage," which he denounces in his address; nor that he will tell us what he thinks of the use made by his ally, Mr. Mowat, of his officials and the provincial funds with which they have to do, in this and other counties.

It is not probable that he will tell us how many colleagues he would call to his aid in the Cabinet, if ever invited to form an administration, for he may consider that etiquette would require him, under such suppositious circumstances, to communicate his views in the first place to the Governor-General. Besides he may think that he has already said enough on this subject, having maintained while in opposition that thirteen members were too many for Sir John Macdonald's Cabinet, and then having accepted office as a fourteenth Cabinet Minister himself.

It is not probable that he will tell us whether, in the same suppositious case, he would leave his tariff policy an open question, since he himself is coquetting with the N.P., while his former colleagues and principal supporters denounce it as a "folly," a "crime," a "robbery," &c. Etiquette may, unfortunately, close his mouth in this respect also, which he must regret, for no doubt he would gladly give some information to his audience on such an important and interesting subject.

It is not probable that he will tell us, while speaking of the Trent Valley Canal, how, in the same suppositious case of his regaining power, even if individually in favour of it, he could give any practical effect to his good wishes, in antagonism to the other leaders of his party, who are either bitterly opposed to it or treated it with silent neglect when it was attacked from their own side of the House; nor that he will tell us how he came to manifest a friendly disposition towards this project by uttering no protest against the repeated condemnation of it by his colleague and ex-Minister of Public Works, even though he denounced it but a few weeks ago as a great mistake and a waste of money.

Mr. Blake might no doubt throw some light on several at least of these points, but it is not at all probable that he will do so.

Electors of West Peterborough, vote for GEORGE HILLIARD, your tried and approved member, who has his residence and business among you.

CAMPAIGN NOTES.

THE independant Toronto *Telegram* tells us:—

"There is one thing that cannot be gainsaid, and that is that the return of Sir Richard Cartwright to the Finance Ministership would be a heavy blow to our commercial prosperity. He is obstinately and incurably wrong."

Yet Sir R. Cartwright is one of the most prominent members of the Cabinet that the electors are asked to re-impose upon the country.

* * *

THE Hon. Alex. Mackenzie said in the House of Commons in 1879 according to the official *Hansard*:—

"The hon. the Minister of Railways says we will only again reach the Ministerial side of the House by adopting his protection views. I assure him that if I can never go back to the other side of the House without changing my policy, as he has done, I will continue to sit here or go out of the House."

Of course therefore Mr. Mackenzie could not take office except in a Cabinet pledged to repeal the present tariff.

* * *

THE *Globe* again comes to the rescue of its own special commissioner—that modern Titus Oates—by saying that that the base slander circulated by him against Canadian factory girls, imputing immorality to nine out of every ten of them, applies only to one factory. The *Globe* however shows a more just appreciation of the offence by denouncing those who even quote its own slander for the purpote of contradicting and condemning it.

* * *

THE more unscrupulous of the Opposition journalists are censuring Sir John Macdonald for because he has been nominated for two constituencies. Do they forget that the only plank left in their platform, on which the party agree, is to support Blake, and that Mr. Blake has at least twice run for two constituencies simultaneously.

* * *

MR. BLAKE says in his address that the true issue is whether the present tariff is perfect. That is, in his opinion, the true issue is whether the tariff is human or divine. If this is really the true issue we must admit that we have the worst of the argument, for we cannot deny that the tariff is of human origin, and therefore must, like all else human, be imperfect. If Mr. Blake means that he can himself devise a perfect fiscal policy, he must claim to be divine, or at the very least to be another Mahomet.

* * *

SIR R. CARTWRIGHT said on the floor of the House of Commons, according to *Hansard*:—

"*Nor can they* (the manufacturers), *with any degree of justice*, raise the plea of vested interests."

If restored to power therefore Sir R. Cartwright and his friends would vouhsafe neither compensation nor consideration to the manufacturers. Having no vested interests they would be at his mercy.

Workingman, vote for employers of labor, and for the party that supports our home industries.

HOW TO MARK YOUR BALLOT.

We give below specimens of the ballots that will be used at the coming contest. Every elector should see that he marks his ballot correctly. An **X** opposite the name of Mr. Hilliard means a vote in favour of that gentleman.

Election for the Electoral District of West Peterborough, 1882.

HILLIARD.

I. George Hilliard, of the Town of Peterborough, Lumber Merchant. **X**

LUNDY.

II. John James Lundy, of the Town of Peterborough, Gentleman.

An **X** opposite the name of Mr. Burnham means a vote in favour of that gentleman.

Election for the Electoral District of East Peterborough, 1882.

BURNHAM.

I. John Burnham, of the Village of Ashburnham, Barrister-at-Law. **X**

ROXBURGH.

II. William E. Roxburgh, of the Village of Norwood, Merchant.

LAST ELECTION.

The Figures of the General Election in 1878—A Good Omen for the Future.

We think it will be interesting to our readers to have before them the returns of the votes in the contest between Mr. George Hilliard and Mr. John Bertram in the general election of 1878. It will be seen that Mr. Hilliard had a majority at every polling division in town, and that he had a very substantial majority over an opponent who was considered by his party at least as strong then as Mr. Lundy is now. We do not give these figures to foster any sense of security that might lead to diminished exertions, but rather as an incentive to renewed efforts to surpass even the record of 1878.

The following are the figures:—

Polling Places.	*Hilliard*	*Bertram*	*Hilliard's Majority*	*Bertram's Majority*
Ward No. 1, Div. 1	82	20	62	
" Div. 2	51	38	13	
" Div. 3	51	34	17	
Ward No. 2, Div. 1	60	30	30	
" Div. 2	58	32	26	
" Div. 3	45	37	8	
Ward No. 3, Div. 1	42	27	15	
" Div. 2	58	54	4	
" Div. 3	73	47	26	
Ward No. 4, Smith Street	72	70	2	
Smith, Town Hall	54	86		32
" Ray's School House	62	81		19
" Selwyn	85	79	6	
Eanismore, Town Hall	62	74		12
North Monaghan, Town Hall	57	48	9	
" No. 2	53	21	32	
South Monaghan, Baillieboro'	47	53		6
" Centreville	59	43	16	
	1071	874	266	69

Hilliard's majority all over 197!

In 1878 workingmen idle. In 1882 workingmen busy. Vote for HILLIARD and BURNHAM and the Government's policy, which brought such a state of things about.

A MASSIVE QUOTATION FROM THE EAST.

To the Editor of the Review.

SIR,—A small retinue of irresponsible orators honour the Grit candidate in the East Riding of Peterborough in his canvass, and spout at his public meeting. One of these notable orators, though not a Goliah in stature, is a perfect Goliah in quoting scripture, and at a *massed* meeting at Havelock on Saturday evening jumbled together some words from the Old Testament in such a manner as would shock a most verdant reader of the Bible. In glowing terms he was denouncing Tories generally, and exultingly proclaimed the downfall of that party at the present election. "Their doom was sealed," he said, "and the rout of the Conservative party put him in mind of how *Laban* and *Jacob* fled from the wrath of the flames of *Sodom* and *Gomarrah*." The quotation is a *massi*-ve one, and no doubt, like the political questions he tried to deal with, was utterly beyond his *massi*-ve comprehension. If the *Massi*-ve one in question mixes pills as badly as he does scriptural quotations, he had better leave both pills and politics alone, and seek some other field more suitable to his distinguished talents.

Yours,

June 13th, 1882. A HEARER.

AFFRAY AT CANIFTON.

A Man Badly Clubbed by His Cousin—Both Under the Influence of Liquor.

The little village of Canifton was greatly excited on Sunday evening over an affray which took place within its usually peaceful precincts. The affair was greatly exaggerated and it was bruited about that a man had been killed. This rumour reached the city on Monday morning, and an *Intelligencer* reporter went out to Canifton to learn the facts of the case. As far as could be learned the facts are these:—Philip Collins, a river driver, and David Lindsay, his cousin, have not been on friendly terms for some time past. On Sunday afternoon, about 3 o'clock, the two men were seen going into Lindsay's house together, both being at that time under the influence of liquor. About an hour afterwards Mrs. Lindsay was seen to rush out of the house, and shortly afterwards Lindsay came out, with a club in his hand. He went to a school-teacher named Anderson, who lives near by, and told him that he had just struck a man in his house, and that the man would probably bleed to death unless something was done for him. Anderson, however, refused to allow himself to be mixed up in the matter, and would not go. In the meantime, however, the neighbors heard of the affair, and several persons went to Lindsay's house and found Collins stretched unconscious on the floor. He had evidently received three terrible blows on the head, from which blood was flowing profusely. Messengers were dispatched to the city for surgical assistance, and Drs. Farley and Ridley arrived and dressed Collin's wounds, which they pronounced very serious. He was then removed to the river driver's camp, about half a mile above the village, where he has remained ever since. His condition this morning was more favourable than was ever hoped for last night.

The immediate cause of the quarrel between the two men is not known. Lindsay says that the reason he struck Collins was, that the latter had insulted his wife and tried to kiss her. This however, Mrs. Lindsay at first denied, but, it is said, has since admitted. It is commonly believed in the village that Mrs. Lindsay was obliged, by threats from her husband, to substantiate his statement. Lindsay paraded the streets of the little hamlet, last evening, armed with a rifle and threatened death to anyone who would attempt to arrest him. He has not yet been taken into custody.

Lindsay was arrested on Monday afternoon by Chief McKinnon at his own house and is in the cells here.—*Intelligencer.*

A FALSE CHARGE.

The following letter which speaks for itself, appears in the Port Hope *Times*. We need say no word in defence of Mr. Fair from such a charge, for he is too well known:—

DEAR SIR,—I have been recently informed that at a Reform meeting held at Bensfort, on the evening of the 23rd ult., I was charged with having detained certain papers for some days in connection with the meeting at this office, instead of forwarding them through to the office at Bensfort. I now beg leave to refute the accusation, and state that on investigation the papers in question were not detained either here or at Bensfort, but that the secretary of the Reform association had made a blunder in addressing to a wrong person, and not the party for whom they were intended.

Yours very truly,
ROBERT FAIR, P. M.
South Monaghan, June 1st, 1882.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. Mechanic vs. Millionaire.

Our local contemporary, the *Advertiser* observes :—

"The mechanic is as good as the millionaire at the polls."

That is true. But he would not be so if the "Reform" views of Mr. Bethune had been allowed to prevail. Mr. Bethune sat for Stormont in the Local Legislature as a supporter of Mr. Mowat. In 1877 he made an attempt at class legislation against the working people, in the matter of the franchise. It was that known as the Cumulative Voting Scheme, which provided that an elector should vote at municipal elections in proportion to his wealth, and have an additional vote for every $1,000 worth of property for which he was assessed. In this proposition Mr. Bethune boldly announces that his object was to neutralize the woskingman's vote in the interests of his wealthy neighbor. He thought it a great scandal on our institutions that a man with $400 or $1,000 should be able to offset the vote of a man worth $100,000, and a never-dying disgrace if a workingman should be elected over a rich one. That Bill was opposed by the Liberal-Conservatives and defeated. It is well to remember, therefore, whenever anyone feels like boasting, as our contemporary does, that "the mechanicis as good as a millionaire at the polls," that it was a leading so-called Reformer who was the first to propose to make the mechanic politically subordinate to the rich man.—*London Free Press.*

Grow Finer Wool.

While the request for foreign wools in this market continues good on the part of manufacturers, at firm prices, Canadian fleece wool is not wanted, and all that can be got by the country seller here is 19 cents, and that in small quantities. We ask attention to the extract which follows, from the Boston *Commercial List* of May 27 :

"Course combing wools are neglected. For a lot of Canada 35 cents was offered, and it would be difficult to obtain any advance on this figure. These wools are not in fashon, and there is no demand for them. The only inducement to purchase would be very low prices. The advices from England continue to report them dull, and lower than at any time for thirty years. In combing pulled there have been sales of 90,000 lbs., at 32 to 34 cents per lbs."

The price offered in Boston, 35 cents, means at most, say 20 cents, in Toronto, or 18 to 19 cents to the farmer in the country for the long-stapled fleece wool we produce. That farmer could, however,get probably ten cents more per pound for the short Southdown or Oxford down wools, whose growth we have long urged upon Canadians. Every buyer of wool, and every country shop-keeper, should urge this consideration on the farmers of his neighborhood.—*Monetary Times.*

Vote for HILLIARD and BURNHAM and the National Policy, under which we are flourishing.

GOLD—Is excellent for filling decayed teeth ; but TRADERRY prevents the decay, makes them white, and makes people lovable. 5 cent samples.

FAIRWEATHER & CO.

OPPOSITION POETRY.

THE independent Montreal *Star* says that one of the Opposition campaign soegs runs as follows :—

"O Blake is the man for the nation,
A statesman both able and true ;
A foe to oppressive taxation,
And all the monopoly crew."

But the chorus, which is sung in a low voice by the crouching pirates, and is not intended for the public ear, is after this fashion :—

"O Blake is the man for the dollars,
A statesman who looks for high pay ;
When he gets a good chance he just collars
His $600 a day."

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

A GENTLEMAN AGED 65, writes : "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents, For sale by all Druggists.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents of J. McKee Peterborough.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

J. Werts & Son, Freedomville, Ohio, write :—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves ; a sample bottle convinces ; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

FOR $63 CASH

YOUNG MEN If you want to learn Telegraphy in a few months, and be certain of a situation, address VALENTINE BROS., Janesville, Wis.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them, It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d. ; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

J. C. ALLAN CO., 83 John street, New York. d62

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents :—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents :—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1wly

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

MUNRO & ALEXANDER

Daily Evening Review

THURSDAY, JUNE 15, 1882.

Killed

A bold dog, which ran under an engine at the Midland depot this morning, paid for its boldness by losing its life. The heavy wheels cut it into several pieces.

Horse Shipment.

Messrs. Ferguson and Haw, of Port Hope recently shipped to the Montreal Market twenty-four very fine horses. The majority of the animals were purchased in this vicinity.

Sprained Ancle.

One of the circus canvasmen fell this morning on the ground, while assisting to hoist the canvas and sustained a severe sprain of his right ancle. He was taken to one of the vans and attended to.

A Coal Burner.

The fine engine No. 22 of the Midland, one of the new coal burners, drew the long circus train in this morning. Although the load must have been of an enormous weight, the engine had no trouble whatever in climbing the heaviest grades on the line.

Sawmill Accident.

A Frenchman, whose name is unknown to us, met with an accident at McDonald's sawmill yesterday that injured one of his hands badly. He was engaged in rolling over a log, when one of his thumbs was badly jammed, the nail being torn off.

Our Visitors.

We notice in town to-day, to see the sights, a large number of persons from the surrounding towns and villages, more particularly along the line of the Grand Junction, the greater portion of whom, we will undertake to say, very rarely visited us until the line was built.

Funeral.

The funeral of the late Mrs. P. D. Doran, who died very suddenly yesterday morning, took place this morning at an early hour. The corpse was taken to Kingston, where the body was interred this afternoon. A number of friends from Peterborough and other places were present.

The Crowd.

The crowd in town to see the circus was without the slightest doubt one of the largest, if not the largest ever seen in the town, the streets being thronged from an early hour. The circus arrived here about 6 o'clock a.m. and even at that early hour, an immense throng surrounded the station and watched with great interest the work of unloading.

All Ready.

There was a rousing meeting of the Conservatives last night, when the scrutineers, etc., were appointed. All is now ready for the victory on Tuesday, and that we will win is a foregone conclusion, as even the staunchest Reformers, except of course some of the pig headed variety, candidly admit.

Horse Found.

The horse stolen from Mr. D. A. McDonald's premises the other morning was recovered on Wednesday. Chief Johnston, who was looking after the case, received information that an animal answering to the description of the one lost was in Otonabee, and upon driving down as far as Mr. Z. Burnham's premises the officer discovered the missing animal quietly sleeping in the woods and brought it home.

The 12th.

A meeting of the county Orange Lodge took place at Lakefield on Tuesday night. Quite a large number of the member were present. The reports of the committees showed that already, a very large number of Orangemen have signified their intention of visiting Peterborough on the coming anniversary of the battle of the Boyne. Subscriptions have been very liberal and a large number of arches, etc., will decorate the town on the occasion.

Indignation.

There is a great howl of indignation from one end of the Dominion to the other, regarding the grossly insulting attack of the *Globe* upon the moral character of the young women employed in factories. In the vicinity of the Auburn woollen mill especially, the great Grit organ is loudly denounced, and the party will lose many votes through the foolhardiness of their people. The apology tendered is fully as bad as the first article, and the fathers and brothers of the factory girls will resent the insult to their kin at the polls. A vigorous protest against the article has been made by every factory in the Dominion, and the end is not yet.

Personal.

The genial "Billy" Andrews, the press agent of the Big United States Circus, and at the same time one of the best clowns in the business, called on us this morning.

An Improvement.

The small garden at the Midland Station is being put in order, and flower beds in which are planted choice flowers decorate it all over. Hanging flower baskets are also noticable underneath the portico in numerous places.

Betting.

There is considerable betting done here just now on the election, but so confident are the Reformers of defeat, as far as the Peterborough's are concerned, that they will not put up their money, unless very heavy odds are given.

Special Police.

Chief Johnston has half a dozen specials on to-day to maintain order. Of course more or less rows will occur, but judging from the appearance of the immense crowd very few cases will come before the Magistrate to-morrow morning.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—fresh to strong, south westerly winds; fair and very warm weather; thunder storms in some localities.

Midland Railway Traffic Returns.

The traffic of the above railway for the week ending June 10th, 1882, was as follows:—Passengers and mails, $7,256.90; freight, $20,568.54; total, $27,825.44, as compared with $24,511.58 for the corresponding week of 1881, being an increase of $3,313.86; and the aggregate traffic to date is $401,986.23, being an increase of $111,989.83 over 1881.

Author Wanted.

As the *Examiner* denies that Mr. Toker is correct in his supposition that the letter in its columns last week was concocted in the *Examiner* office, Mr. Toker hereby undertakes to give twenty dollars to the Ennismore Manse Fund on the production of conclusive evidence that the letter in question was written, as it professes to be, in Ennismore and by a man from Galway.

Fakirs.

The class of travelling salesmen, dealing principally in cheap jewelry and other small wares, but sometimes going rather farther and selling soap and prize packages, were not as numerous as usual to-day, but a few put up their stands on the street corners only to be started on as soon as they commenced by the police. Our by-law is very stringent and impowers the police to run in all offenders in this respect, who will persist in selling after they have been requested to move on by the officers.

A Straw.

At the great Ennismore Picnic yesterday the vote for the cane, to be awarded to the most popular candidate, was won by Mr. Hilliard, the Conservative nominee, by nearly three to one. The vote was by ballot there being two boxes, one for Hilliard and the other for Lundy, in which the friends of the candidates deposited their money. When the boxes were opened and the contents counted, it was found that Hilliard's box contained $156.38 and the one labelled Lundy, $56.10. Some people think that the vote is a fair index of the ratio in which the ballots will be polled next Tuesday, at any rate straws show which way the wind blows, and the Ennismore vote is a straw.

THE DOCTOR'S SECRET.—Probably no new development will more surprise the public than to learn the secret of success of certain leading physicians. When they have a difficult case of throat or lung disease that baffles their scientific skill, they prescribe Dr. King's New Discovery for consumption, Coughs and Colds, having it disguised in a prescription bottle, with their own directions and name attached. The patient is cured and they get the credit.—*Tribune.* Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.—2

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

ST. JACOBS OIL

TRADE MARK.

THE GREAT GERMAN REMEDY.

FOR

RHEUMATISM,

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

A. VOGELER & CO.,
Baltimore, Md., U. S. A.

To the Free and Independent Electors of the

WEST RIDING
OF PETERBOROUGH.

GENTLEMEN,—

At the urgent solicitation of my political friends I have consented to be again a candidate for your suffrages at the approaching election.

While I would have preferred not to have been a candidate on the present occasion, yet now that I have placed my services again at your disposal, you may rest assured that no private duty or engagement will be allowed to interfere with the proper discharge of my duties as your representative, should I be honoured with your confidence for the second time.

Although I failed to be present at every division during the recent session, I would venture to challenge my political opponents to specify a single instance in which I have neglected the interests of my constituents or failed to discharge the duties devolving upon me as your representative to the best of my ability and judgment.

During the past four years I have rendered a cheerful support to the government of Sir John A. Macdonald, believing that it has not only redeemed the pledges given previous to the last general election, but that its policy has been and is one eminently calculated to promote the prosperity of the country, and should you again honor me with your confidence I shall continue to give the present government the same cordial support, so long as their policy commends itself to my judgment.

In conjunction with the other representatives from this section of Ontario, I have done all in my power to secure the early construction of the Trent Valley Canal, and the large measure of success which has attended our past efforts should assure the electorate of this district that if their present representatives are re-elected and the present government sustained, this great and long-looked-for work will be brought to an early completion.

As it will be impossible for me to undertake anything like a personal canvas between this and polling day, I trust those favorable to the cause of good government will render me their hearty support without waiting to be asked, and that all the electors will make it a point to attend the meetings which I propose holding in different parts of the constituency for the purpose of public explanation and discussion of the several questions involved in the present campaign.

Again thanking you for the confidence reposed in me in 1878, and soliciting a renewal [of the same,

I am, gentlemen,

Your ob't. serv't.,

GEO. HILLIARD.

N. H. DOWNS' ELIXIR

Vegetable Balsamic

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry—then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiates and astringent articles, which are also drying natures as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

Daily Evening Review

FRIDAY, JUNE 16, 1882.

OTTAWA.

Special to the Review, June 16.

WHILE MR. DEVILIN was out in the country of Mountack on Wednesday, for the purpose of buying cattle, a young man driving a horse attached to a waggon loaded with fire wood was a little in advance. Some of the load, from the rough nature of the road, got unevenly balanced. To rectify the matter the young man, whose name was afterwards found to be Thos. Hall, stopped the animal and went to put the wood right. While standing by the waggon in the act of doing so, the horse took fright and ran away, Hall falling to the ground and the wheel passing over him. Some parties were almost close at hand at the time and rushed to see the scene of the accident. To their horror and surprise they found the poor fellow dead, the wheels having passed over his neck, causing immediate death.

HORRIBLE MURDER.

A Farmer Near Ridgeway Shoots His Wife —The Murderer Arrested.

RIDGETOWN, Ont., June 14.—A horrible murder was committed on the Howard and Orford town line, about five miles from this place this afternoon. The victim is a Mrs. Rowland and her murderer is her husband, a well-to-do-farmer, who has been very generally respected by his neighbors. No particulars can be be learned to-night, exept that he shot her dead with a gun. He made no effort to get away, acknowledged his guilt freely, and acted generally like a man completely case hardened. Chief of police Tompkins has arrested him.

Who are Entitled to Vote.

All persons whose names appear on the voter's list, and who reside in the electoral district, are entitled to vote.

If a person whose name is on the voter's list has sold his property (if an owner) or has removed from the property for which he was assessed (if a tenant or occupant) but continues to remain in the electorial district, he is still entitled to a vote. If he has left the district he cannot vote.

Any person whose name appears on the voter's list, and who is the owner of the property for which he is assessed, is entitled to vote, no matter where he resides.

No person whose name does not appear on the voter's list can vote, but if his name has been improperly entered, he may mark a tendered ballot.

No person can vote more than once in any electoral district or riding.

Persons voting on Income must have resided in the municipality at the time of the final revision and correction of the assessment roll, and must have continued to reside therein until election day.

An error in the name of a voter will not disentitle him to a vote if he is the person intended to be designated in voter's list.

NORWOOD.

FATAL ACCIDENT.—The *Register* says that a young man named Stevens, residing in Belmont, and aged about 16, was accidentally killed while leading a horse out to pasture by the animal throwing him down and crushing him to death.

SCOTLAND.

UPWARDS of 40,000 young and valuable trees were destroyed by fire on the 20th May in a forest belonging to Sir J. P. Grant, Rothiemurchus.

THOUSANDS of eels have swarmed the Nith lately, and have shown great pluck and preseverance in their effort to work their way up the Caul.

A LARGE seam of coal has been discovered in the policies of Lord Eglington, near to the Irvine Burgh Coalfields. It is valued at from £60,000 to £70,000.

A SALMON affected with fungus has been seen in the Tweed near the Red Brig, below Galafoot, and the people fear re-appearance of the salmon disease.

THOUSANDS suffer untold miseries from Nervous Weakness, Pain in the back, and other distressing symptoms arising from disordered Kidneys. Burdock Blood Bitters is the Sovereign remedy. Trial bottles 10 cents.

GOLD—Is excellent for filling decayed teeth; but TRASERRY prevents the decay, makes them white, and makes people lovable. 5 cent samples.

MIDNIGHT TELEGRAMS

CABLE.

PARLIAMENTARY INQUIRY.

LONDON, June 15.—In the House of Commons to-day, Mr. Arnold (Liberal) stated that the British consul at Alexandria in September informed Arabi Pasha that if the Egyptian army persisted in assuming the government of the country it must be prepared to meet the united forces of the Sultan and Europe, as the country would not be allowed to lapse into anarchy. He asked whether this language was approved by the Government. Sir Charles Dilke said it was right to assume that the Government approved of it. He stated that the Channel squadron now on the way to Malta would also be under the orders of Admiral Seymour, who if occasion arrises will concert with the Bristish consul-general in Egypt as to the necessity of landing sailors and marines.

INTERNAL WAR.

LIMA, May 27.—The combats between the Chilians and the Indians in the interior still continue and the greatest barbarities committed by both parties. 400 Chilians cut the throats of all the inhabitants of a small Indian village on the supposition that they sheltered the defeated Indians. All the whites have been slaughtered indiscriminately by the aborigines.

PROTECTION FOR EUROPEANS.

LONDON, June 15.—Energetic identical instructions will be sent to the French and English consuls and admirals in regard to the protection to be afforded Europeans in Egypt. The British Channel fleet of five ships sailed east from Gibralter this morning. All the Europeans have left Cairo except the staff of the Eastern Cabinet Co., who have been advised to quit. The office of the company is closed.

NO CONTROL.

LONDON, June 15.—An Alexandria despatch says:—The governor and military commandant admit that they have no control over the situation, and the soldiers only obey their colonels. The Khedive has expressed a hope that 18,000 Turks will be shortly on their way to Egypt. He informed the Europeans that he has divided the town into districts, and has made an officer responsible for each. He said four hundred and thirty ringleaders in Sunday's riot had been arrested, and will be confined on a ship. Osman Bey, aide-de-camp of the Sultan, has arrived with instructions for Dervish Pasha. Admiral Seymour has seized the steamer Marengo to convey fugitives from Egypt.

GERMANY AND HER FOES.

BERLIN, June 15.—In the German Reichstag yesterday, Prince Bismarck, replying to criticisms on the largeness of her military budget, said the millions of bayonets maintained by Germany's neighbors pointed to centre Europe as to a magnet. Germany might have coalitions against her as in former times. He had thus far been able frustrate such coalitions, but only because the strength of Germany was known. In view, he said, of the slightly development national feeling of our countrymen the French do not abandon the hope of getting back Alsace and Lorraine.

MORE ABOUT THE RIOTS.

ALEXANDRIA, June 15.—The number of Europeans killed on Sunday is now estimated at 250. Many were thrown into the sea and are being daily washed ashore. Twelve bodies yesterday, and five to-day, were thus recovered; all the bodies bear marks of bludgeons or bayonets. Several witnesses of the riot assert that the rabble were proceeded by a detachment of gendarmes, who drew up in the middle of the square and looked on when the massacre began, and afterward took part in in it. The Consuls-General are preparing another circular to their countrymen, expressing confidence that order will be maintained by the Egyptian army, the object being to instil confidence pending the arrival of the Turkish troops.

ANOTHER ONE.

LONDON, June 15.—A man answering the description of one of the murderers of Lord Cavendish and Mr. Burke has been arrested at Kingscourt.

IN PARLIAMENT.

LONDON, June 15.—In the House of Commons to-day Mr. Childers said the arms of soldiers employed for escort and protection duty in Ireland will hereafter be loaded. Mr. Gladstone gave notice that he would move to-morrow that precedence be given to to the Arrears bill over all others except the Repression bill. It is reported that the Government will propose an autumn session of Parliament, for the purpose of dealing with the question of procedure. The evictions in Ireland now average a thousand weekly. The House this evening continued the debate on the Repression bill. Mr. Sexton moved to report progress. Sir William Harcourt opposed the motion; he said that owing to the opposition of the Irish members the time taken for the discussion of the bill had been much too long. The discussion could not continue as at present, but he reserved for Mr. Gladstone's decision what steps would be taken. Mr. Sexton's motion was rejected. Mr. Parnell moved that the chairman leave the chair. Rejected by 136 to 24. Mr. Dillon moved to report progress. Sir William Harcourt withdrew his opposition, and progress was reported.

PANIC AT CAIRO.

CAIRO, June 15.—There is a fearful panic here, which Arabi is doing all he can to calm. Last night a European stabbed an Arab ivory merchant. There was great excitement, but the soldiers prevented a riot. The American Government should send a ship to Ismailia to succour the Cairo fugitives. Matters throughout the country are most alarming; Tewfik and Dervish are powerless. There is a universal expression of praise of the Galena for the succour rendered. It would be a mistake to remove this popular ship from Europe at the present moment. The British subjects have been ordered to quiet this city instantly. The Governor of Alexandria is holding an enquiry into the late massacre. Evidence is difficult to obtain. The English Admirable has buoyed the cable, and the telegraph ship Chiltern has been ordered here for service in case the cable is cut ashore.

AMERICAN.

THE ARMY WORM.

CINCINNATI, June 15.—Army worms are suddenly appearing in places in Kentucky and Ohio near here, and are destroying the barley fields. Only yesterday a prominent Cincinnati brewer received notice that the army worms were attacking his barley fields twenty miles north of here in Butler county. He drove out and found his field destroyed. He says reports are coming from barley growers in Warren county and Hamilton county that the appearance of the worms within the past two days and the devastation has been sudden, rapid, and terrific. In Hamilton, Butler, and Warren counties their course is northward, and in Kentucky at several points they have been reported. A story comes from Mason county that the worms, in crossing a branch of the Kentucky Central near Maysville yesterday, were so thick on the track as to stop the locomotive by lubricating the rails. In Kentucky their movement is southward.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

RIOT AT CAIRO.

CAIRO, June 16.—There is a fearful panic here which Arabi is doing all he can to control. There is great excitement, but the soldiers have prevented a riot.

GONE UNDER.

PARIS, June 16.—Saillofest and Traband metal merchants, have failed with large liabilities.

HOW IT STANDS.

ALEXANDRIA, June 16.—Matters are no better. The alarm is spreading to villages and all trains from the interior are crowded. The Captain of the American ship Galena is assisting all the fugitives of unprotected nationalities. He ordered the the vice-consul to advise all Americans to come on board and chartered a bark to afford more accommodation. Judge Farmer, Judge Barringer and wife are properly protected. The Khedive has received an order from the Sultan to return to Cairo. His obedience is doubtful.

RAPIDLY COMING.

LONDON, June 16.—In the discussion of the crime prevention bill last night, there were several bitter passages between the Government and the Irish members, indicating that they are rapidly reaching the point, when a conflict is inevitable.

THE PANIC CONTINUES.

ALEXANDRIA, June 16.—10,000 persons have left here thus far, leaving many servants and workingmen without employment. The Custom House is closed and the post master doubts his ability to continue owing to the probable blight of employees. The engineers at the junction of the Madricke Canal with the Nile have threatened to quit, which might imperil the water supply.

AMERICAN.

FAILED.

HOLDEN, Mass., June 16.—Chas. Dawson, satin manufacturer, has failed with liabilities of ninety thousand. His assets are nominally $110,000.

RESCUED.

HEARTS CONTENT, N. F., June 16.—A schooner arrived yesterday bringing the boatswain and ten of the crew of the lost steamer Pera. They were picked up thirty-two miles from Cape Race on Sunday morning. They had been rowing towards land for 14 hours and were almost exhausted.

OFF THE TRACK.

BEDFORD, Ind., June 16.—The Chicago express was thrown from the track here and went down a bank. The engineer and firemen were killed and fifteen passengers injured. Dr. Sachman of St. Louis was among the badly injured.

USELESS WISH.

CHICAGO, June 16.—Guiteau's former wife has informed Mrs. Scoville that she wishes her name attached to the petition to the President for the commutation of Guiteau's sentence.

SOMETHING WRONG.

NEW YORK, June 16.—It is stated that the receivers of the Columbian Marine Insurance Company, which failed in 1866, got possession of $650,000 and paid $115,000 to the city for back taxes and paid the creditors a dividend of five per cent., or $135,000, which was all the creditors ever got, and paid the remainiug four hundred thousand to themselves, to lawyers and clerks for office expenses. It is alleged that the receivers took one hundred and seventy-five thousand for their own fees and commissions. Four hundred creditors yesterday refused the offer of the receivers to settle matters by the payment of seventy-five thousand.

THE SEA'S PERILS.

SYDNEY, C. B., June 16.—Capt. James Babbitt purchased a fishing schooner of sixty tons, here. Being unable to obtain a crew, he undertook to navigate the vessel alone to Newfoundland. The sixth day after leaving here he lashed the helm, and went below to prepare breakfast. The vessel struck some rocks, Babbitt leaped out upon a rock, and the schooner floated off in a fog and has not been seen since. Babbitt was rescued after being on the rock for nearly two days without food or drink.

RAILWAY ACCIDENT.

ALBIAN, June 16.—The New York express, passing here at 5.55 a.m., was thrown from the rails while running 30 miles an hour. The engine was thrown on its side and engineer McPharl Burns, of Rochester, fell under it and was killed. The fireman was fatally injured. All the coochers with the exception of the sleepers left the track. The passengers were badly shaken up. The track will be cleared by noon.

RAILWAY ACCIDENT.

BEDFORD, Ind., June 16.—The rear coach of a passenger train on the Louisville, New Albany and Chicago Railway, yesterday, jumped the track four miles from here, and rolled down a steep embankment pulling the other coach, mail and baggage cars with it. The engine also flew from the track, but lodged half way down the embankment. 35 or forty passengers, were on the train, and all were more or less injured. John Caomony the engineer was badly scalded, and died last evening. Among the injured are Dr. Lackman, of Louisville, Mrs. Jane Jones, and Mrs. Semira Jones, Paoli, Ind,—Shriver, wife and two children, Mrs. Wolson and two children, Louisvile, none seriously. The injured passengers were brought here, and with a few exceptions resumed the journey.

Vote for HILLIARD and BURNHAM, for Canadian, not Yankee Industries.

A WORD OF CAUTION.—As is usually the case where an article of true merit has attained a world-wide reputation by its wonderful results, as the celebrated Electric Bitters have done, certain unprincipled parties have endeavored to imitate them, and expect to induce an unsuspecting public to purchase their fraudulent wares. Ask your druggist for the genuine Electric Bitters, that are guaranteed to cure, and take no others. Sold by Taylor & McDonold at 50c.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Daily Evening Review

FRIDAY, JUNE 16, 1882.

A PRESAGE OF SUCCESS.

THE elections by acclamation at the nominations on the 13th have been a signal triumph for the Government of Sir John A. Macdonald and for the National Policy. The result had been awaited with interest, as affording a guage of public opinion, and the inference to be drawn is unmistakeable. Three Cabinet Ministers and sixteen other supporters of the Government have been returned without opposition, while only one Reformer has been so successful. And it must be remembered that so far only four provinces have been heard from. Three provinces and outlying constituencies in two others, where the date of nomination is later, may be relied upon to increase the list of Government supporters elected by acclamation.

We have been told for years that there was a growing reaction against the administration, and we have had occasion again and again to point out that this assertion was refuted by the unprecedented fact that the government, though originally so strong, had gained additional strength by the by-elections. Again we have been told that public opinion had so turned against Sir John Macdonald and his colleagues, that the feeling against them had grown so intense, that the country was longing for a general election to sweep them from power. Again this false assertion has been refuted by the inexorable logic of facts. An unprecedentedly large proportion of the House of Commons have been returned by acclamation. In nineteen constituencies the Reformers did not even dare to place a man in the field to do battle for a cause which they claim to be so popular. Not in one province alone, but in all of the four oldest, wealthiest and most important provinces of the Dominion have the people spoken, and their verdict has been unmistakeably cast for the administration under which they have been flourishing for the past four years. Nor is this all; in six or seven other constituencies in these four provinces the Opposition have not dared to bring forward a candidate, the only question being which of two supporters of the Government should be chosen.

Such a crushing defeat before the great battle has naturally cast dismay into the ranks of the Opposition, and has in the same measure elated the Conservatives.

This feeling, however—this assurance of victory—should lead to no relaxation in our efforts. The endeavour now should be, since seating our candidates is all but certain, to roll up such a majority as will show the world that we are immovable in our support of the National Policy.

It would be sad indeed, when Sir John Macdonald and his colleagues have a renewed lease of power granted to them, which is now beyond a peradventure, that it should be said that West and East Peterborough had failed to contribute their support to a government which has not only afforded them the National Policy with its attendant prosperity, and relief from the cost of our great trans-continental railway, which is now being paid for, not by us as formerly, but by the land purchases of the in-rushing immigrants and others, but to a government which has also undertaken our favourite local project, the Grit-derided Trent Valley Canal.

We do not believe that the electors of these Ridings will be so ungrateful and so shortsighted as to refuse their support to a government to which we owe these benefits.

Electors of West Peterborough, vote for GEORGE HILLIARD, your tried and approved member, who has his residence and business among you.

CAMPAIGN NOTES.

WE have to add to our list in last issue of Conservatives elected by acclamation, Mr. Coursol for East Montreal, and Mr. Desjardin for Hochelaga. So the count rolls up.

* * *

THE independant Montreal *Star* fears now that the Conservatives will be too successful. It says:—

"The election by acclamation yesterday of eighteen Conservatives and one Liberal augurs ill for the prospects of the latter party in the next Parliament. As it must indicate largely the prevalent feeling in the country, the danger seems now to be that the Conservatives will again have too large a majority in the Commons for the good of the country."

* * *

To show how the Blakeites themselves believe in their assertion, that public opinion has turned overwhelmingly against the government, we may quote from the Reform Montreal *Witness* the figures at the general election of 1878 of some of the constituencies, which they allowed to go by default 1882. Two returned Reform candidates, and four other elected Conservatives by majorities of 13, 127, 160 and 180 respectively. If the opposition had any belief in their own cry of an overwhelming reaction in their favour, would they have allowed these constituencies to return government supporters by acclamation, for want of an opposition candidate, especially as one of them is a Cabinet Minister. A few of their "disgusted Conservatives" would have turned these elections. But the Reformers have no faith in their own cry.

* * *

THE *Globe* and its local imitator still continue to repeat the falsehood that Onderdonk & Co., are to be paid for their railway contract, $209,000 more than the offer of Macdonald & Charlebois. They do this though they know, or are wilfully blind to the truth, for they have been referred to the official document, that Macdonald & Charlebois asked according to their schedule of prices over a million more than Onderdonk & Co. This is the statement not of any party politician, but of an engineer of repute. These tenderers might not be able to add up their own figures, but the staff of the Railway Department could, and the country has been saved the unnecessary expenditure of $1,000,000. Yet because we have constantly to expose such disgraceful false statements, our contemporary must needs call us abusive.

* * *

SIR C. TUPPER has been vitified by the *Globe* for years and more virulently than ever this year. But he is returned by acclamation, because it was impossible this time to persuade anyone to undertake the hopeless task of contesting his seat. Yet Sir Charles had only a majority of 500 in 1878, so it only required the conversion of 250 voters to defeat him. If the people believe one word of the *Globe* attacks, or if there was any truth in its assertions of public opinion being turned against the administration, would any opposition to Sir Charles Tupper have been looked upon as a forlorn hope for which no one would volunteer?

In 1878 workingmen idle. In 1882 workingmen busy. Vote for HILLIARD and BURNHAM and the Government's policy, which brought such a state of things about.

A PROTEST.

Midland District Factories Repel the Slanders of the Factory Girls.

The following protest against the gross slanders of Canadian factory operatives that have been circulated by the *Globe* has been signed by managers, &c., of factories in this vicinity:—

"We notice in the Toronto *Globe* of Saturday the 10th of June instant, the following account of the immorality of factory operatives. The writer among other gross slanders says of these young men and women:—

"Their lives are such that they become wholly apathetic; *a brutis* in my own language is the best term I know to describe their mental condition. Their morals are bad, very bad, the conduct of the girls is immodest in the extreme, and a deep degradation reveals itself in both sexes," etc., etc.

Again, this Reform free-trader with other people's characters says:—

"During a strike at the mills in which I saw much of their conduct when aroused, the superintendent had to face crowds of men and girls, who spat in his face and looked like demons, even the quietest looking girls hurled the most obscene language at him and the mayor."

And then this "Liberal Gentleman," writing as special correspondent to this Liberal paper, the professed friend of the working classes, writes as follows:—

"I do not think there are ten virtuous girls in a hundred.

"A good looking girl is almost certain to fall before she has long lived in the surroundings of cotton mill life," and concludes by saying that mill operatives "are generally drawn from the agricultural classes."

We, who have had much experience in manufactories, deny all this as a foul slander upon the virtuous and honest daughters of honest people.

Factory employees are, as a rule, honest, intelligent, and respectable people. If the *Globe* hopes to get people to vote against the N. P. by foul slander of those engaged in factories we think it will be mistaken.

In Campbellford there are now between 150 and 200 men, married and single, and young women employed in factories, and we contend they are respectable, honest, good citizens, and a fair sample of factory employees whom the *Globe* would try and make the public believe are brutes and sunken immoral demons.

STEAMSHIP LOST AT SEA.

The Pera Strikes an Iceberg and Sinks—Nine Men Drowned.

QUEBEC, June 14.—The steamship Pera was lost on the 10th instant, having foundered at sea after striking an iceberg off Capa Race. The captain and twenty-nine of the crew were brought up to-night by the steamship Lake Manitoba. The Pera left Quebec June 3 for London via Sydeny, with a cargo of phosphates 203 head of cattle and a deck load of deals. The Pera belonged to the London steamship line, of which John Ross & Co. of this city are part owners. She encountered a dense fog and on Saturday evening collided with a large iceberg off Cape Race, which was not visible more than half a ship's length ahead. She struck heavily and her fore compartments began to fill. Then the three boats were lowered, each one being filled, and at midnight the vessel went down with a crash. Two of the boats were picked up by the Lake Manitoba. The boatswain's boat was not found and it is presumed all in her have perished. Their names were: Thos. Connolly, boatswain; Henry J. Barrow, fireman;—Harriman, fireman; P. O'Brien, J. Irvine, G. Gorgan,—Langley, G. Green and R. Coleman, cattlemen.

A Benefit of Protection.

The American market for cotton goods is an important one. The consumption per head in the United States is 40 yards, while in Great Britian it is only 27 yards, and on the continent of Europe 24 yards per head. While, therefore, the slow rate of increase of cotton-goods export from that country is detided by some, it is *urged on behalf of the protective policy* that it has gained for American mills mainly the American market, with an annual consumption of 2,000,000,000 yards, where some 15 or 20 years ago, it was practically controlled by English mills. The production of cotton goods by United States mills in the year of 1880 was valued at $233,280,000 representing an everage value of 12½ cents per yard— say 1,866,000,000 yards.—*Monetary Times.*

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

CAMPBELLFORD.

ESCAPED THE RAVAGES OF THE WORM.—The *Herald* says that currant bushes have escaped the ravages of the currant worm, and now that the fruit is developing, and the leaves are becomming tough, there will not be much chance for these little pests to commit the same havoc they did last year and several preceding years. The continued cold weather throughout the spring was unhealthful to the young larvæ, and it is conjectured that the rapacious little creatures had a short life of it, while those that remained have come in too late to strip the bushes. Care, however, is necessary in cleaning the leaves as soon as they appear. A plentiful crop of red currants is a certainty.

SHIPMENT OF CATTLE, LAMBS AND PIGS.—Messrs. Whitton and Johns shipped from Campbellford to Montreal, on Saturday last, 13 cattle, 25 lambs and 46 hogs. They were sent via Grand Junction to Belleville, and are intended for the Montreal market.

SILVER WEDDING.—Rev. G. J. Dingman who resided in this villiage about two years ago, celebrated the twenty-fifth anniversary of his wedding at Northport, yesterday. Invitations were sent to a large number of relatives and friends, a few missives conveying the intelligence having come to Campbellford.

TORN ON THE BARBS.—A horse belonging to Mr. Thomas Hume, Seymour east, was severely injured a few days ago, by jumping a barbed wire fence. One of the animal's fore legs was badly torn, a large piece of flesh having to be removed by the surgeon. The breast was torn in several places, also, one wound requiring the use of the needle.

SALE OF A SAW MILL.—The saw mill situated a short distance north of this village, on the River Trent, built a few years ago, by Mr. John Drennan, was sold recently to Messrs. Gilmour & Co., for the very handsome figure of $18,500 cash. This sum secured both mill property and limits. Mr. Drennan retires from the ownership and enters the service of the purchasers with a large and a very satisfactory salary.

NEW BUILDINGS.—Two new and costly dwellings are now in course of erection. One is for Mr. R. W. Turner, the manager of the Trent Valley Woollen Mills, which will cost about $3,000, and the other, whose foundation is being laid, is for Rev. Father Casey. It will cost, it is said, between $5,000 and $6,000.

Bride and Bridegroom.

They were bride and bridegroom, and sat near me at Park Avenue table d'hote. They had wasted something like $8 worth of food, and had come to dessert, both nibbling pie. "Awfully nice, George, isn't it?" said she. "I can't say I like it," said George, airily. "Why, I think it is ever so nice," persisted the young wife, as she mussed it up with a fork. "It isn't half as nice as the pies my mother used——" but before he could say any more she interrupted him with:—"There you go again with your everlasting mother! For mercy goodness sakes stop telling me what she could do. I'm sick and tired of hearing about her. I know there never was anyone like her. I know—I've said—you ought to be ashamed to——." And then came the hot, angry, little tears, pushing each other out and running down her cheeks defiantly—"tears, idle tears." What need to tell how she left the table, and how she sat down in the reading-room until the night watchman came to put out the lights. Is there not a lesson or a moral hidden here somewhere?—*Hotel Mail.*

Workingman, vote for employers of labor, and for the party that supports our home industries.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

A COMMON, and often fatal, disease is Jaundice. Regulate the action of the Liver, and cleanse the blood with Burdock Blood bitters, and the worst case may be speedily cured.

FROM ALL OVER.

PRESIDENT BARNAD is in favour of the new movement for admitting girls to Columbia College.

WHY suffer from Indigestion and Dyspepsia when Burdock Blood Bitters will positively cure these ailments? A trial bottle only costs 10 cents.

A MEMORIAL window is to be placed in Hughenden Church, by Sir Samuel Wilson, to commemorate the Queen's happy escape from assassination by the lunatic McLean.

IT is proposed to place a bust of Mr. Darwin in Westminter Abby, and, if the funds admit, to found a scholarship bearing his name, and intended to foster the pursuit of scientific re, search.

IT is proposed that the house in which Darwin was born be purchased by the public authorities and preserved from destruction, and that a tablet be placed upon it recording the event that has made it famous.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

JAMES MCKIRLEY, residing about twelve miles from Nelsonville, in tp, 6, R, 6 w., had the misfortune to have his barns and stables, with contents, destroyed by a prairie fire last week. No insurance.

ARE you a martyr to headache Suffer no onger. A remedy is found in Burdock Blood Bitters. It regulates the Bowels, cleanses the system, allays nervous irritation and restores health and vigor. Sample bottles 10 cents.

THE dwelling house on G. M. Butchart's farm at Oak River was mysteriously burned to the ground last week. It had been ploughed around, and on one can account for it catching fire.

THE Prince of Wales has been elected Commodore of the Royal Yacht Squadron, in place of the late Earl of Wilton. The position, the most distinguished in the yachting world, is one long coveted by his Royal Highness.

IT is said that in some parts of England much arable land is running to waste for want of capital to pay for the labor which it requires. No farming except grazing and dairy farming is said now to pay for the outlays.

ON Wednesday, at the Portage, a young fellow was shooting at the side of Mr. James' barn with a rifle, and shot a calf and colt which were inside of the building. The calf was killed and the colt was shot in the jaw.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

CHARLES BRADLAUGH stated in a recent address that the threat of his enemies to bankrupt him had brought him an offer from Philadelphia of $10,000 for a series of lectures in America, the money to be paid in advance. He declined it only because he thought he should not need the money.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

A SCARLET chapter of Orangeism was held at Woodlands last week. R. Swayzie, Doherty, J. M. Robinson, J. Mawhinney and W. E. Crowford from the Portage were present. A number of the Poplar Point brethren were also in attendance.

Mr. James O. Neville, the general import and export agent of the Allen Line, and general Dominion shipping agent, of 538 Dorchester street, Montreal, Canada, says: "While on a late exbibition trip to the States, my old foe, the rheumatism, attacked me, and gave me a rough siege. Having read the endorsement of well known people who used St. Jacobs Oil I determined to give it a trial. In two weeks time I was as well as ever, and fully able to attend to my business."

ONE of these mirages that are so often visible on the country back of the C. P. R., at Rat Portage was seen on Thursday of last week by a great many spectators. It presented a large area of the surface of the lake and the surrounding as the immediate topography to the north.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Vote for HILLIARD and BURNHAM and the National Policy, under which we are flourishing.

To the Free and Independent Electors of the

WEST RIDING

OF PETERBOROUGH.

GENTLEMEN,—

At the urgent solicitation of my political friends I have consented to be again a candidate for your suffrages at the approaching election.

While I would have preferred not to have been a candidate on the present occasion, yet now that I have placed my services again at your disposal, you may rest assured that no private duty or engagement will be allowed to interfere with the proper discharge of my duties as your representative, should I be honoured with your confidence for the second time.

Although I failed to be present at every division during the recent session, I would venture to challenge my political opponents to specify a single instance in which I have neglected the interests of my constituents or failed to discharge the duties devolving upon me as your representative to the best of my ability and judgment.

During the past four years I have rendered a cheerful support to the government of Sir John A. Macdonald, believing that it has not only redeemed the pledges given previous to the last general election, but that its policy has been and is one eminently calculated to promote the prosperity of the country, and should you again honor me with your confidence I shall continue to give the present government the same cordial support, so long as their policy commends itself to my judgment.

In conjunction with the other representatives from this section of Ontario, I have done all in my power to secure the early construction of the Trent Valley Canal, and the large measure of success which has attended our past efforts should assure the electorate of this district that if their present representatives are re-elected and the present government sustained, this great and long-looked-for work will be brought to an early completion.

As it will be impossible for me to undertake anything like a personal canvas between this and polling day, I trust those favorable to the cause of good government will render me their hearty support without waiting to be asked, and that all the electors will make it a point to attend the meetings which I propose holding in different parts of the constituency for the purpose of public explanation and discussion of the several questions involved in the present campaign.

Again thanking you for the confidence reposed in me in 1878, and soliciting a renewal of the same,

I am, gentlemen,

Your ob't. serv't.,

GEO. HILLIARD.

Peterborough, May 31, 1882. d129w22

FRESH ARRIVALS.

Any person or persons wishing to buy anything in the line of

Ladies' Gold Solder Bar Pins, Brooches, Cuff-Buttons, Earings, Steel and Black Beads

TRENT NAVIGATION.

FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Litt Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows:—

For the Fenelon Falls work	$1,000
" Buckhorn Rapids work	500
" Burleigh Falls work	1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Department of Railways and Canals, Ottawa, 22nd May, 1882. d127-3t.11

MURRAY CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the MURRAY CANAL," will be received at this office until the arrival of the eastern and western mails on TUESDAY, THE TWENTY-SEVENTH DAY OF JUNE NEXT, for the formation of a Canal to connect the head waters of the Bay of Quinte with Presqu'ile Harbour, Lake Ontario.

A map of the locality, together with the plans and specifications of the works, can be seen at this office and at Brighton, on and after THURSDAY, THE EIGHTH DAY OF JUNE NEXT, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted bank cheque for the sum of $3,000 must accompany each tender, which sum shall be forfeited, if the party tendering declines to enter into contract for the execution of the works at the rates and prices submitted, subject to the conditions and on the terms stated in the specification.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Dept. of Railways and Canals, Ottawa, May 22nd, 1882. d125-2aw

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & CO., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1w15

HAGYARD'S YELLOW OIL CURES RHEUMATISM

FREEMAN'S WORM POWDERS.

Are pleasant to take. Contain their own Purgative. Is a safe, sure, and *effectual destroyer of worms* in Children or Adults.

You Must Recollect

THERE IS NO LONGER ANY SUCH FIRM AS MUNCASTER & SANDERSON DOING BUSINESS IN PETERBORO', THE PARTNERSHIP HAVING BEEN DISSOLVED IN AUGUST LAST.

MUNCASTER'S

JEWELLERY STORE

Is Removed from the old Stand

AND IS NOW IN **CLUXTON'S NEW BLOCK,** WHERE HE HAS A FULL AND COMPLETE NEW STOCK OF WATCHES, CLOCKS, SILVER-PLATED WARE, JEWELRY, VIOLINS, &c.

WATCH REPAIRING

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.

Don't Forget the Place.—Cluxton's New Block, opposite McKee & Davidson's, George Street.

R. W. MUNCASTER.

SULPHOLINE LOTION.—AN EXTERNAL MEANS OF CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

W. JOHNSTON & CO., Manufacturers, AMHERSTBURG, ONT.

For Sale by Ormond & Walsh, Peterboro.

MUNRO & ALEXANDER

Daily Evening Review

FRIDAY, JUNE 16, 1882.

Serenaded.

The Fire Brigade Band after leaving Mr. Blake at his hotel serenaded Mr. James Dolan, of the City Hotel.

Fight.

It was currently reported on the streets last night that a railway navvy had been brutally beaten and kicked by two roughs on George street, but enquiry revealed the fact that it was merely a drunken brawl and that no person was hurt.

Big Attraction.

The Pedestrian Tournament to take place in the Rink on the night of June 22nd, promises to be a grand success. Amongst the many entries Mr. McNaughton has received, are two champions, Mr. Raine champion runner of America, and Mr. Pearson, champion walker of Canada. The above gentlemen alone should prove a big attraction.

Runaway.

Last night shortly after seven o'clock, a large horse with a set of harness on ran down the Main street at a rapid pace. The animal narrowly missed running into several vehicles, but was finally captured near Simcoe street by a farmer who stopped him by waving a heavy whip in his face. We did not learn the owner's name or whether any damage was done or not.

Railway Notes.

The Norwood *Register* says that Mr. Lumsden, Chief Engineer, and Mr. Ryan, Superintendant of Construction, of the Ontario and Quebec Railway, arrived here on Tuesday night last, and on Wednesday proceeded to look up station grounds—the change in route of the road having necessitated such procedure. At the time of going to press (Wednesday) we learn that ground sufficient can be obtained on Wellington street, near Mr. D. Foster's, and that will altogether likely be purchased by the company. Several of our villagers are making up sub-contracts for removing sundry hills, etc. Railway matters are booming without a doubt.

The Circus.

The Big United States Circus has come and gone, and the town once more has assumed its wonted appearance. When the circus arrived in town there were grave doubts as to whether there would be a large attendance or not, on account of the very threatening character of the weather, but Peterborough maintained its reputation of being the premier show town of Canada, and at both the afternoon and evening performances the immense tents were packed, and no audiences ever left a circus here that were better satisfied. The managerie is rather above the average, and although we have seen more animals, we think that those belonging to the Big United States Circus were of a better class than usual, while the hippopotamus and the five lion whelps were things never before seen here. Of the ring performance it is impossible to speak, except in words of praise. From the beginning to the end, act after act followed each other in rapid succession and the interest of the audience never waned. We can truthfully say that no circus that ever travelled through Canada had as many first class tumblers, jumpers and general athletes as this one. Many of the feats performed were indeed startling. We may instance the performance on the flying trapeze and the blindfolded leap, but certainly the most startling feature of the whole show was Miss Belle Celeste's terrific leap from the top of the canvas to a net suspended forty-five feet below. There were many who thought that the pictures relating to it were only imaginary, but when they saw it done the applause almost shook the tent. This feature alone is well worth the price of admission, and the graceful manner in which it was done well merited the applause it received. The riding of Miss Cook and Mr. Mellville was excellent. Jolly "Billy" Andrews, the leading clown, who is indeed the "king of clowns," as he is called by the press, kept the audience in roars of laughter all the time he was in the ring. His local references were rich and "took" at once. In conclusion we must state that everything was conducted in the most business-like and orderly manner, and all the managers and officials are perfect gentlemen. There was an entire absence of those swindles generally practised on circus day, and even the sideshow and concert after the ring performance were far better than the average.

Workingmen be true to your own interests, and vote for HILLIARD, your friend.

HON. E. BLAKE.

His Reception in Peterborough—He Delivers an Address at the Drill Shed.

After two weeks presistent advertising and billing, the Hon. E. Blake arrived here on a special train on the Grand Junction division of the Midland, shortly after noon. At the station a large crowd had assembled, there being a fair sprinkling of voters among the ladies and school children, who had followed the band down. As the great Liberal alighted, a cheer was given and he was escorted to a hack drawn by four horses. The horses had small Union Jacks on their heads, but that was evidently because stars and stripes, the flag that the party appeared to like better than that of old England, if we are to judge by the remarks of a Liberal leader, Sir Albert Smith, were not obtainable. A procession headed by the band was at once formed consisting of a long line of buggies, farmers waggons, hacks, hotel busses (coming from the train with passengers) and a carter's truck, and paraded through the principal streets of the town and although the streets were lined with people, not a single solitary cheer was heard from the time he left the station, until he alighted at the hotel. Of those in the carriages some had votes in this county and some had not, but the most noticeable fact, and one that was generally commented on, was the absence of workingmen, not a single genuine workingman being in the procession.

Upon arriving at the Caisse House where the guest was quartered, three cheers or something that sounded like them at a short distance away, were given, and part number one of the programme closed.

There is no doubt the procession was a long one, but nothing like we anticipated after the great publicity that had been given of Mr. Blake's coming, the half rate fairs on railways, etc., but if the Grits are satisfied with the exhibition they made, so are we.

POLICE COURT

AFTER THE CIRCUS.

FRIDAY, June 16.—As was anticipated, after such an enormous crowd being in town, there were several cases at the court this morning, but none of them, we are glad to say, was of a serious character. The first man to answer to his name was Patrick Ryan, a very respectable looking young man, who was charged by P. C. McGhee with being drunk in a public place on Thurday night.

The person who had passed the night in the cells pleaded guilty, and after paying $2 into the town coffers, was allowed to go.

NEXT.

The next victim was O. Mowry, who was charged by P. C. McGhee with being drunk and disorderly on the public streets. The officer said the prisoner was very noisy, and had to be placed in the cells.

He admitted the offence and paid a fine of $5.

ASSAULT.

Two young men named Thomas Hickey and Thomas Donovan, were charged by Chief Johnson with committing an assault on Henry Hubson.

From the evidence and the admission of Hickey, it appeared that Hubson, who was drunk, insulted him on the street, and he turned around and knocked him down. Donovan was entirely exonerated.

Hickey was fined $5 and $3 costs, and Donovan was discharged.

FOUND DRUNK.

Henry Hubson, a "Linker" was charged with being drunk. He admitted the charge, pleaded first offence, and as he had been roughly handled he was allowed to go.

Vote for BURNHAM and HILLIARD, and stand by the Government that has stood by the country.

Give Your Names.

We have received a notice of a marriage, a cummunication from Ennismore and some other letters, but as there is no names attached to authenticate them, we cannot publish them. We have to adhere to the salutary rule of journalism, that a communication even if intended to appear anomymously or under a *nom de plume*, must be accompanied by the writers name as an evidence of good faith.

Lacrosse.

A new Lacrosse Club was organized on Tuesday evening under the name of the "Young Mechanics." The following are the officers for the ensuing year :—

CAPTAIN.—R. McMann.
TREASURER.—John McAuliffe.
SECRETARY.—Wm. McDowell.
COMMITTEE.—T. Britton, F. Hope, L. Mowry and Wm. McDonald.

The Weather.

Yesterday was hot and cool at intervals, the storms which fell at intervals, tending to make it cool. To-day is hot but showers are not far distant. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows :—Lakes—Moderate winds ; fair to cloudy weather, with local showers.

Where was He?

Among the meetings announced for the current week by Mr. Lundy was one at Springville for Wednesday evening. The day and the hour duly arrived, but no Mr. Lundy. Not only that, but the people who had been summoned from their homes to learn Mr. Lundy's views on the issue of the campaign, were deemed of so little consequence that his politicial tutor and guardian did'nt think it necessary to offer a word of apology or excuse for his non attendance.

Mothers! Mothers!!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excrucisting pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

MEDICAL AND SCIENTIFIC.

LEMONS.—Lemonade is one of the best and safest drinks for any person, whether in health or not. It is suitable to all stomach diseases, is excellent in sicknees—in cases of jaundice, gravel, liver complaints, inflammation of the bowels, and fevers. It is a specific against worms and skin complaints. Lemon juice is the best anti-scorbutic remedy known. It not only cures this disease, but prevents it. Sailors make a daily use of it for this purpose. The hands and nails are also kept clean, white, soft, and supple by the daily use of lemon instead of soap. It also prevents chilblains. Lemon is used in intermittent fever, mixed with strong, hot, black coffee, without sugar. Neuralgia may be cured by rubbing the part affected with a cut lemon. It is valuable also to cure warts and to destroy dandruff on the head, by rubbing the roots of the hair with it. In fact, its uses are manifold, and the more we employ it externally the better we shall find ourselves. Rub your hands, head, and gums with lemon, and drink lemonade in preference to all other liquids. This is an old doctor's advice. Follow it.

IT is stated that if the sufferers from asthma will get a muskrat skin and wear it over their lungs, with the fur side next to the body, it will bring certain relief.

IF you cut pineapple in thin slices and scatter sugar over it the day before you serve it, you need not add any water to make the liquor. Keep it in a cold place.

IN preparing greens for the table it is a mistake to squeeze the water so entirely out as cooks usually do. If culled fresh they are better if served with a portion of the liquor they have been boiled in.

THE usual number of articles of underclothing for a trousseau is either six or eight of everything — nightdresses, drawers, and chemise. Three flannel petticoats, and one dozen stockings, thick and thin. The number of dresses made up should be small, as it is better not to have too many.

WHEN putting up curtains which are to be draped, in a low room, put the cornice to which the curtain is to be fastened close to the ceiling, even if the window is put in lower down, as it gives the effect of a greater height to the room. The curtains meeting at the top will conceal the wall.

THOSE girls who suffer from headache ought to bathe the face and brow regularly for five minutes or more at a time in cold water, to which a little perfumed vinegar has been added. This is to be done three times a day. Cold sponging to the arms, shoulders, face, and neck is most refreshing after fatigue.

ERYSIPELAS, Scrofula, Salt Rheum, Eruptions, and all diseases of the skin and blood are promptly cured by Burdock Blood Bitters. It purges all foul humors from the system, imparting strength and vigor at the same time.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents of J. McKee Peterborough.

THE DOCTOR'S SECRET.—Probably no new development will more surprise the public, than to learn the secret of success of certain leading physicians. When they have a difficult case of throat or lung disease that baffles their scientific skill, they prescribe Dr. King's New Discovery for consumption, Coughs and Colds, having it disguised in a prescription bottle, with their own directions and name attached. The patient is cured and they get the credit.—*Tribune*. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.—2

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Daily Evening Review

SATURDAY, JUNE 17, 1882.

A CONTRADICTION.

To the Editor of the Review.

SIR,—Will you allow me space in your paper for a few lines. It appears to me a strange thing that men having the name of common sense will allow themselves to become so intoxicated with such nonsense as is learned from the *Globe* and its deluded adherents, as to wander away into the low position of making a palpable falsehood, and circulating it as truth, in hope, no doubt, by that filthy mode to do some harm to the opponent of their political faith. The matter is this; my name has been freely spoken of as promising to vote for Mr. Lundy at the coming election. I made no promise whatever, and I defy any man to say in truth that I have done so, nor have I said any thing favouring his present course. I think I have said that it was a pity that Mr. Lundy was deluded by the schemes of the Grit party. I know but little about Mr. Lundy and I don't wish to say anything about him now. Mr. Hilliard I have known intimately for over thirty years, and during that time we had some large business transactions and on all occasions I found him honest and upright and worthy of the highest confidence.

Respectfully yours,
JOHN W. MOORE.

Peterborough, June 17.

THE FACTORY GIRLS.

The following letter appeared in the *Mail*:—

SIR,—We the undersigned at the present time employed in the Auburn woollen mills, Peterborough, desire to enter our protest against the unjust and malicious aspersions cast upon the character of ourselves and our fellow employees, and especially upon those of the weaker sex, whose character and reputation should be, and we believe is, dear to every one worthy the name of man, in last Saturday's issue of the *Globe*.

There is not, in fact, a word of truth in the *Globe's* miserable accusations, and they are only worthy of notice because of their being made upon those whose reputation is dearer than life, and who are unable to defend themselves from such a cowardly attack.

JAMES KENDREY.
Manager Auburn Woollen Co.
JOHN DONIGAN. Overseer.
DANIEL MCINTOSH. "
WILLIAM SOMMERVILLE. "
J. R. SMITH. "
J. NELSON. "
F. VALLEY. "

How it was Done.

The following letter has been handed to us for publication:—

(PRIVATE.)

Reform Committee Rooms,
PETERBOROUGH, June 9th, 1882.

MY DEAR SIR,—As you are no doubt aware, the Hon. Edward Blake will address the electors of the East and West Ridings of the County of Peterborough, in the Drill Shed, Peterborough, on Friday, the 16th day of June, 1882, at 2 o'clock in the afternoon. The honorable gentleman will arrive by special train from Belleville at twelve o'clock, sharp.

The admirers of Mr. Blake in town feel that an opportunity should be given his supporters in the country to assist in doing honor to their able an honest advocate of equal justice to rich and poor, provincial rights, honesty and economy.

With this object in view, the Committee have arranged that all those desiring to add to the demonstration, will bring their carriages, single or double, to town on that day, and join a procession at the station, immediately after the carriage conveying Mr. Blake, headed by the Fire Brigade Band, and proceed along several streets to the Caisse House, where Mr. Blake will partake of luncheon.

As it will be impossible for me to attempt to notify every supporter of Mr. Blake in East and West Peterborough of this arrangement, will you kindly be good enough to notify all our friends in your section of this decision, and urge them to assist in giving the honored leader of the Opposition and future Premier, a most hearty and enthusiastic reception, on this his second visit to Peterborough.

I will depend on you doing your utmost to make this reception a grand success. Will you do so?

Yours, very truly,
J. R. STRATTON,
Secretary W. R. R. A.

MIDNIGHT TELEGRAMS

CABLE.

TROOPS FOR EGYPT.

LONDON, June 16.—It is understood that the Channel squadron will embark a large number of troops at Malta and then proceed to Egypt.

AN OPTIMIST VIEW.

LONDON June 16.—In the House of Commons Sir Charles Dilke said the news from Alexandria was reassuring; no fresh disturbance was apprehended.

A CONCESSION TO ARABI.

CONSTANTINOPLE, June 16.—Dervish Pasha has sent a telegram to the Porte declaring that the presence of the British and French squadrons is an obstacle to the restoration of order. At the suggestion of Germany and Aurtria, the Khedive has summoned Raghib and Ahmed Razed Pashas from Cairo, for the purpose of of forming a new Ministry, with Arabi Pasha as Misister of War.

A EUROPEAN ULTIMATUM.

LONDON, June 16.—It is asserted that the powers have given Turkey forty-eight hours to consider whether to participate in a conference on Egyptian affairs.

WANTS PEACE.

LONDON, June 16.—The *Daily News* says none of the European powers would refuse to try to effect a peace between Chili and Peru if requested by the belligerents, but the powers do not intend to coerce Chili at the request of Peru,

IRISH EVICTIONS.

LONDON June 16.—In the House of Commons Mr. Gladstone, replying to Mr. Dillon, declined to introduce a a bill suspending evictions in Ireland for six months. Mr. Trevelyan denied that the permission to erect huts for evicted tenants had been revoked.

PHAROAH'S LAND.

ALEXANDRIA, June 16.—Cherib Pasha has been called to Alexandria to form a Ministry. Arabi is convinced that Dervish is working Turkish tricks and will sell Egypt. Arabi is therefore determined, in the event of Turkish intervention, to oppose them to the death. The Egyptian Government is supplying the native Christians with passports to leave the country. All the shops are closed, and the exodus of the European population throughout the land is hourly increasing. There is great excitement among the Arabs. There was a rumour that the Khedive was ordered by the Sultan to Stamboul and that he would be replaced by Halim.

ENGLAND AND TURKEY.

LONDON, June 16.—In the House of Commons to-day Mr. Gladstone stated that England's relations with Turkey were never more friendly. He was not aware that Turkish troops were on the way to Egypt.

THE REPESSION BILL.

LONDON, June 16.—Clause seven of the Repression bill was adopted by 208 to 67. The Government accepted an amendment that magistrates should appear at meetings, and summon the people to disperse.

SUSPECT RELIEF FUNDS.

DUBLIN, June 16.—Miss Ann Parnell writes that the fund for the maintenance of the suspects, for which twenty-four thousand pounds has been collected, and sixteen thousand spent, should be closed.

SECRET SOCIETIES.

LONDON, June 16.—It is stated that the direction of the new criminal investigation department in Ireland is preparing extensive plans against secret societies based upon investigations made in America.

AMERICAN.

HAY EXCHANGE.

NEW YORK, June 16.—The Manhattan hay produce exchange, was formally organized yesterday.

A NARROW ESCAPE.

To the Editor of the Review:

DEAR SIR,—At two o'clock on Friday afternoon, when I was returning home from seeing a patient in Ashburnham, in a buggy driven by Mr. John Haggart, as we approached the Midland Railway crossing and were within half a dozen yards of it, a number of cars without an engine, bell or any signal whatever, and running at the rate of ten or twelve miles an hour, appeared coming down the track. Owing to the noise of the buggy on the road, the train was not heard, and most undoubtedly, but for the shouts of some people in an adjoining field and in a house close by, the horse and buggy would have been struck by the cars and we most probably killed.

I would like very much to have some explanation of this affair, as I am persuaded the law of Canada is not so lax as to allow ungoverned cars without signals of any kind to run through the town at the rate of ten or twelve miles an hour to the imminent danger not only of property but actually of life. I may remark that the cars when brought too blocked the next crossing when one of the officials of the Company, the lower end brakeman, indulged in vile and abusive language to myself and Mr. Haggart on their coming to cross at the next crossing. Are our lives to be placed in jeopardy, our roads to be blocked and ourselves to be abused by the servants of this Company?

We are convinced, that the Company has no knowledge of the false position it places itself in, by employing careless and abusive men, who appear to regard neither property not character or indeed life itself.

YOUR OB'T SERVANT,
ROBT. SPROULE

Peterborough June, 17 1882.

Ross' Manly Action.

WINNIPEG, June 15.—A telegram from Toronto to-day seems to satisfy Ross in regard to the illness of Hanlan. Ross says that when he came first his idea was to claim the forfeit of $500 put up by Hanlan should he not row, but he has since decided that as he understood the race was put off now on account of Hanlan's sickness, he would not claim the money, which, according to all sporting rules, he was entitled to. But as he believed Hanlan was sick he would waive his claim. The regatta will come off as advertised, and Ross will receive $1,000 for the exhibition and expenses. The Regatta Committee have passed the following resolution:—The General Committee of the Winnipeg Regatta Association desire to convey to Edward Hanlan the expression of their sincere regret at the news of his illness and his inability to fulfil his engagement here." A copy was forwarded to Toronto by telegram.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

IN EGYPT.

ALEXANDRIA, June 17.—The whole of the American mission are now safe in Galena. An exodus is expected hourly. It is rumored that the Khedive has been ordered by the Sultan to Stamboul, and will be replaced by Halim.

A TERRIBE RIOT.

ALEXANDRIA, June 17.—Thus far three hundred and forty corpses have been found of the Europeans killed in the Sunday riot. Eye witnesses state that those who took refuge in the police stations were massacred by the general's orders. Thousands of Europeans are arriving from the interior. Raghib Pasha has consented to form a Ministry.

JEWISH EMIGRATION.

LIMBERG, June 17.—The Jewish Committee here, has informed the London Committee that they will cease to act if the latter persist in forwarding to America only ablebodied emigrants.

RUSSIA ALERT.

ST. PETERSBURG, June 17.—It is stated that Russia is preparing to send men-of-war to Alexandria.

THE SUEZ CANAL.

LONDON, June 17.—It is stated that the Government with the approval of France and Turkey, has determined to protect the Suez Canal with British troops.

AMERICAN.

SUNK BY ICE.

ST. JOHN, N. F., June 17.—The French schooner Le Siren was pierced by ice and sank on the 10th, with a crew of 17, on St. Peter's Bank.

DAVITT'S SCHEME,

NEW YORK, June 17.—It is stated that Davitt's scheme of land nationalization has been discussed at every Irish meeting in this city. Much bitterness has been shown and the vast majority of the Land Leaguers oppose it.

THE POLL TAX.

NEW YORK, June 17.—Four of the steamship companies have agreed to pay the commissioners of emigration 50 cents for each immgrant landed at Castle Garden.

HAILSTORM.

FREDERICK M. D., June 17.—A severe hailstorm yesterday did great damage to the crops.

A NEW PEST.

WARSAW, N. Y., June 17.—The dairymen of the southern part of the country are agitated over a new weed, the "long join" believed to be brought in western grass seed. It grows 3 feet high and has the appearance of mustard. Cattle are extremely fond of it, but milk from cows fed upon it is worthless.

BLACK AND WHITE.

HARTFORD, June 17.—Adolphus Hall, (colored) has been arrested for bigamy. Recently he eloped with and married a white girl, the daughter of his employer, agent Grover of Hadley mills, Holyoke, Mass. Hall had previously deserted his colored wife. Miss Grover was a member of the senior class of Holyoke high school and moved in good society.

LYNCH LAW.

RICE, Col., June 17.—Early this morning a party entered the jail, and took out the murderers, Thomas Wall and Trinidad Charlie, and hung them in the cabin. Trinidad made a severe fight. The cutthroats were shackled together.

Workingman, vote for employers of labor, and for the party that supports our home industries.

COBOURG.

THE RYERSON MEMORIAL.—The *World* says that the amount contributed to this fund at the Collegiate Institute was $21.70. We understand that a committee has been appointed to secure the services of some eminent artist to execute a statue, or something of the kind, which is to have a place in the Normal School grounds, Toronto. Our young friends, who have so liberally responded to the invitation to contribute, may yet have the pleasure of seeing this statute, and of feeling that they have done something towards its erection.

GOING TO EUROPE.—Our Counties Clerk and Treasurer, Mr. E. A. McNachtan, is about to proceed to England, having been honored with the position of second in command of the Wimbledon Team. His many friends will wish him *bon voyage*, and a safe return. We think the appointment a very good one, and, irrespective of Mr. McNachtan's fitness for the duties, that his record in connection with the Wimbleton Team fully entitled him to the distinction.

NEW SABBATH SCHOOL BUILDING.—We have pleasure in stating that definite arrangements have been made for the erection of a new Sabbath School building in connection with the Methodist Church. The building will be of red brick, with white facings, two stories high, the school audience room being up-stairs; and arrangements will be made for all accommodation required for the social and religious purposes of the church, as well as for all the room wanted for Bible-class, Infant-class, and other apartments for the school. The building is to be erected on the vacant lot west of the parsonage; and the work is to be proceeded with at once, Mr. Wm. Henderson being the contractor, and the time stated in the agreement for its completion being the 1st of December of the present year.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

THE BILIOUS, dyspeptic or constipated, should address with two stamps and history of case for pamphlet, World's Dispensary Medical Association, Buffalo, N. Y.

Vote for HILLIARD and BURNHAM and the National Policy, under which we are flourishing.

MANUFACTURING NOTES.

THE new worsted factory at Harepoint, province of Quebec, is finished. The factory will soon be in operation. It will employ 400 hands.

MESSRS. FROST & JONES, of the Smith's Falls Malleable Iron Works, are replacing their old engine of some 15 horse-power, with a new one having a capacity of 30 horse-power. This is a good sign.

THE corner stone of the new cotton factory at St. John N.B., was laid on the 6th June, by the Mayor. It is expected the building will be completed in September, and the machinery be in motion in November.

THE buildings for the Kingston Car Works have been erected, part of the machinery has arrived and been placed in position, and the rest has been contracted for. The works will doubtless commence operation in the course of a few weeks.

A newly organized firm (Robt. W. King & Co., Georgetown) purpose making a specialty of the manufacture of power knitting machinery and knitters, winders, reels, scouring rollers, stop motions, with all necessary shafting for complete mills.

THE wadding mill at Sorel, owned for many years by Mr. J. F. Armstrong, and which has been supplying the market for the province of Quebec, being the only manufactory of the kind has been purchased by Messrs. James Morgan & Sons, who propose to increase its capacity and control the wadding trade of the Dominion.

MESSRS. R. H. Smith and Co., of the St. Catharines Saw Works, are very busy just now, and full of orders, and on a recent visit we saw picked ready for shipment cases of saws addressed to all sections of Canada. They have recently again increased their facilities, and have built a large new tempering oven for tempering every artical of their make by the "Simonds" process, which has heretofore been so successfully used in tempering the circulars only. In the erection of one oven over nine tons of cast iron and sixteen thousand common bricks were used, besides a large number of pressed bricks and tiles. This firm now employ between 60 and 70 hands, and will shortly make additions to even that large number.—*Canadian Manufacturer.*

Mechanics, will you vote for a party which says you should go on the streets or to the poorhouse?

Buffalo Hunting.

Buffalo hunting will without doubt in a few years exterminate the bovine princes of prairie. The outfit of the hunter consists of two skinners, two or three teams and wagons, a cook and a stock of ammunition and provisions. One man usually owns the outfit, and pays the other men a monthly salary. Upon their arrival in a buffalo region, a dugout is constructed. It is simply an opening in a hill, roofed with hides or boughs and dirt. A sheet iron stove or a fit place of stones and mud warms the borrow, and a hide serves for a door. The hunter then proceeds to scour the country for buffalo. On finding a herd he crawls towards them till he gets a good position in a depression in the ground or behind a little rise for shooting. Then he watches the herd for a few minutes, to learn which animal is the leader. Every herd large or small, has a captain, who directs its movement and to whom all turn for guidance in moments of danger. The hunter must first kill the leader or he will probably not get more than one or two skins out of the herd When the buffalo boss is laid low the other animals gather around him in confusion and amazement, undecided what to do. Another and another fall under the hunter's steady aim. The herd is terror-stricken. Some of the bolder animals break away from the group and look around to see from whence the danger comes, but the hunter lies low and ceases firing until they return to their dying companions. Then he fires away rapidly, perhaps getting in a dozen effective shots before the huddle of animals breaks up and the beasts begin to run to and fro in a fury of rage and fear. Before they find a new leader and stampede from the fatal spot he will probably "down" twenty or thirty of them. He rides back to camp to bring up the waggons and the skinners, takes note of the direction the herd has pursued and the next day is on their track again. It is not uncommon for a single hunter to kill 500 buffalo in a few weeks. One can see what devastation a few hunting parties will make in a single month among the few remaining herds.

Bar-Room Spree at Rednerville.

The *Ontario* says that the usually quiet little village of Rednerville was thrown into quite an excitement Thursday night by the freeks of about twenty men engaged by Gilmour & Co., to pick up logs. These men came down to the village in the evening and first called at the Russell House, and drank quite freely. Inclined to be somewhat noisy the proprietor informed them in firm language that the conduct must be stopped. The gang not pleased with this, left and went over to the Quinte House, when a continual disturbance was kept up until about 1 this morning. Different persons behind the bar were pulled out, glasses broken, windows smashed, and the floor this morning presents a hard looking sight, being dug up with brads from the boots of the men. Two of the gang got into a jangle and used knives, inflicting two wounds and threatening to stab any one who interfered. Mr. Rose will no doubt deal with them as the law directs.

Vote for HILLIARD and BURNHAM, for Canadian, not Yankee industries.

A WORD OF CAUTION.—As is usually the case where an article of true merit has attained a world-wide reputation by its wonderful results, as the celebrated Electric Bitters have done, certain unprincipled parties have endeavored to imitate them, and expect to induce an unsuspecting public to purchase their fraudulent wares. Ask your druggist for the genuine Electric Bitters, that are guaranteed to cure, and take no other. Sold by Taylor & McDonold at 50c.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Daily Evening Review

SATURDAY, JUNE 17, 1882.

A FALSE WITNESS.

MR. BERTRAM told a deliberate falsehood to start his evening speech in the drill shed. He read a portion of an article in the REVIEW, which he falsely said was then Mr. Carnegie's paper, though he knows it was Mr. Romaine's. He then falsely said it was written a few years ago, though he knows the fact that it was written more than twelve years ago. After stating these wilful falsehoods, it is not surprising that he concealed the important fact that at that time the effects of the recent civil war in the States, and the consequent enormous debt, of $2,346,913,645, made a high tariff unnecessary to protect Canadian industries. Nor is it surprising to find that such an unscrupulous debater garbled the article by leaving out a portion which contradicted the meaning he dishonestly put upon it. In short he was like the thief, who excused himself by saying "Thou shall steal," was in his Bible. So it was, but he had blotted out the *not* because it did not suit his views. Probably Mr. Bertram has blotted the *not* out of the ninth commandment in *his* Bible.

Without the evidence of our own senses, we could hardly believe that a man in Mr. Bertram's position would be so base, so we cannot expect others to believe it without seeing for themselves, but anyone who calls at our office can inspect the number of the REVIEW in question, and see that every word we have here stated is the truth, while Mr. Bertram's statements are utterly truthless. What a precious cause it must be that requires to be supported by such base means.

Vote for our old members, who would secure for us our rightful boundaries, not for supporters of Blake and Laurier, who fears that the Privy Council would give us our rights.

THE TRENT VALLEY CANAL.

WE were told before Mr. Blake made his appearance here that he would pronounce so strongly in favour of the Trent Valley Canal as to show that our favourite project was safer in his hands than in those of Sir John Macdonald and Sir Charles Tupper, and that he would construct the canal at once, not open it section by section.

He certainly did not carry out this programme, and gave but scant comfort to the friends of the Trent Valley Canal, in the very improbable event of his gaining power. He began by saying that he had been blamed for not speaking in the House in favour of appropriations for the Canal, but said it was not necessary for him to speak then, as "silence gave assent." That is just what we think, that his "silence gave assent" to his old colleague and Minister of Public Works, Mr. Mackenzie, when he condemned the project as an absurdity, a folly and a waste of money.

Again he said he would respect the engagements of the present government, as he had respected the railway engagements of the government of Mr. Sandfield Macdonald. Well, as the only matured engagement of the present government is to spend $300,000 this year, this promise will not bind him to complete or even carry on the construction after this year. And as to carrying out Sandfield Macdonald's railway engagements, he turned him out largely on the plea that the promised railway grants were too great, and then increased the grant; but he and his friends distributed it among the more populous counties, much of it among his own constituents in Bruce, while for our Toronto and Ottawa Railway not a cent could be got. Perhaps he will in a similar manner carry out the present government's canal engagements, by giving money to the Toronto project of the Hurontario ship canal, and leave us to the old condition when he was in power before, of getting not even enough money to remove a snag from our river.

As Mr. Blake pronounces against surpluses and would repeal our present tariff, he would, in fact, with the renewed deficits of Sir R. Cartwright, have no money thus to develop our country. With the Reformers in power the Trent Valley Canal would be a vanishing dream—with the present Ministry maintained, as fortunately it will be, we may confidently hope to see our great navigable route opened within a few years.

In 1878 workingmen idle. In 1882 workingmen busy. Vote for HILLIARD and BURNHAM and the Government's policy, which brought such a state of things about.

MR BLAKE'S POLICY.

As the Opposition candidates here and elsewhere, now solicit votes as supporters of Mr. Blake, rather than of the Reform party, it is satisfactory to we have had Mr. Blake here to learn from his own lips what his policy is.

The principal portion of his two speeches was devoted to the tariff question, and being while speaking on the platform less cautious than in his carefully written address, he showed unmistakeably his old enmity to the National Policy. He condemned the tariff wholesale as being too heavy, and though he referred with approval both generally and as to several particulars to Mr. Bertram's previous speech, he said no word to repudiate his bitter denunciation of the N.P. root and branch, his silence according to his own dictum giving assent to these diatribes. Then taking up the campaign resolutions of the Opposition in the recent session, he showed point by point his objections to the leading provisions of the tariff.

First he condemns the coal duty, thus, aiming a blow at a great industry of Nova Scotia, whose output has greatly increased under the present tariff, while owing to the competition thus engendered the Pennsylvanian coal owners have not increased their average prices for Ontario.

He next attacked the duties on bread-stuffs, so that if unfortunately he came into power, which is not likely, he would be pledged to do away with the system by which our Ontario farmers supply the Maritime Provinces with their bread, and would restore this profitable market to the farmers of the States, who enjoyed it under the reign of himself and his friends.

Then he had a fling at the sugar duties, thus attacking one of our great and growing industries, which not only affords sustenence to tens of thousands of Canadians, but also extends our direct commerce with foreign countries about which he is so solicitous, and he does this in spite of the fact that by internal competition we are supplied with better sugar at a lower price than when his friends in the States had the monopoly, a fact which our readers can ascertain by consulting not blue books, but the nearest grocer.

Then he attacked our great woollen and cotton industries, repeating the falsehoods as to the discrimination between rich and poor, which are not his own however, for he has confessedly so little acquaintance with fiscal subjects that this leader of a party seeking power never once ventured last session to speak on this most important question of the day. If he had really known the facts we would hope that he would not have left his hearers in ignorance of them, namely, that the duties on high-priced articles, which we do not manufacture here, are for revenue purposes, and the purchasers pay the customs, while the duties on low-priced goods, which *are* manufactured here, yes even in Peterborough, are for protective purposes, and the purchasers pay no duty on them, while internal competition has reduced instead of raising the price. As a sufficient specimen of his method we may instance that he said that a duty of 70 per cent was paid on the lowest grade of blankets, those used in the shanties. This is the theory, but according to the fact all these blankets are made in this country, and the dealers who sell them, and the lumbermen and others who purchase them say they are actually cheaper instead of dearer. Ask your dry goods dealer if we are not correct.

Mr. Blake did not touch upon the tea duties, which Sir John Macdonald's Goverment have twice taken off, and which Mr. Blake when in office re-imposed, really in that case taking twice as much duty from the poor old woman for her 50 cent tea as from the rich householder for his dollar tea, for the duties had to be paid on this imported article.

In the evening Mr. Blake again attacked the National Policy tariff, but in this case for a town audience he added that labor was not protected. Well fortunately in these good times of the National Policy labor can protect itself. Under Mr. Blake and his friends labor was glad enough to get half a day's employment at low wages, and could hardly feed much less protect itself.

It is very evident what choice is before the electors. On the one side is the Government of Sir John Macdonald and his colleagues, with their National Policy and its benefits. On the other side is Mr. Blake and his policy, with its tariff policy and its terrible results, which we all remember. Electors which will you support on the 20th?

Electors of West Peterborough, vote for GEORGE HILLIARD, your tried and approved member, who has his residence and business among you.

CAMPAIGN NOTES.

WE are waiting apparently in vain for the *Examiner* to explain why it falsified the figures of an official return to Parliament, with the view of making it appear that the farmers and reeves of Ontario were opposed to the National Policy. If it was only a gross blunder our contemporary should confess it, and not leave its readers under such a delusion. Not so long ago it professed to give market quotations from the REVIEW and actually reversed them. For exposing such falsifications as these we are accused of being abusive. No one can point to a figure that has been falsified or a fact that has been misrepresented in the REVIEW; as to matters of opinion there may fairly be differences.

* * *

IT is said by the Blake journals that because the *Globe* has published a dastardly attack upon Canadian factory girls, that is no reason why voters should be influenced, as it is not a political question. Since they take this ground, it is only right to point out that the diabolical insult was circulated by the *special commissioner* of the chief organ of the Reform party, who was sent out with a *special commission* to bring the National Policy into disrepute, and that in doing so he had previously so misrepresented the statements of his selected witnesses that many of them have protested against their names being so used, yet he has not been disavowed by the *Globe*. The matter should influence electors, not because a disreputable journal has made a vile attack upon innocent girls, for that crime should not be visited upon Mr. Blake, but because it is another evidence of the lengths to which the chief organ of himself and his party is prepared to go in discrediting the National Policy, the great issue now before the constituencies.

* * *

MR. BLAKE certainly has an amount of effontery that is almost superb. In the drill shed he blamed Sir John Macdonald for not arresting Riel. He did not mention that he (Mr. Blake) moved to offer a reward for the capture of Riel, in the Ontario Legislature, though by this claptrap motion he offended against his theories of non-interference with other provinces, but when he was in power at Ottawa, he allowed Riel to come there and sign the roll of the House of Commons without being arrested.

* * *

THE Dominion of Canada is, according to Mr. Bertram, principally an agricultural community and therefore, the prices of our agricultural products are fixed in other countries. Well, without admitting that this is altogether true, for it is not, we may point out that this is the state of things that the supporters of Mr. Blake are content to perpetuate, while the friends of the National Policy, wish to make Canada a manufacturing community so that the prices of our farm produce may be fixed in Canada by being consumed by our own operatives, and not sent abroad to feed foreigners manufacturing for us.

* * *

SEVERAL people were heard to ask in good faith whose funeral was passing yesterday. They were naturally led to make this mistake by the dejected countenances of those in the procession and the profound silence of the few onlookers.

* * *

AT the Blake meeting Mr. Bertram gave another instance of his unscrupulousness. He misquoted Sir Charles Tupper as saying that Sir R. Cartwright was introducing the thin edge of protection though Mr. Bertram must know perfectly well that this falsehood of the *Globe* has been repeatedly exposed, and that Sir Charles' words were "the thin edge of taxation."

A BET!

A Chance for a Syndicate.—$3,000 Ready to be Covered.

The Brantford *Telegram* says:—

"A gentleman in this city is prepared to make the following lump bet that the Government will carry the following constituencies, and the remainder of the bet is as under:—

South Wentworth,	North Wentworth,
Hamilton,	Lincoln,
Monck,	Toronto East,

A CALL IS SOLICITED.

C. B. ROUTLEY,

AUSTIN'S OLD STAND.

P.S.—Pictures Framed on Shortest Notice.

To the Free and Independent Electors of the

WEST RIDING OF PETERBOROUGH.

GENTLEMEN,—

At the urgent solicitation of my political friends I have consented to be again a candidate for your suffrages at the approaching election.

While I would have preferred not to have been a candidate on the present occasion, yet now that I have placed my services again at your disposal, you may rest assured that no private duty or engagement will be allowed to interfere with the proper discharge of my duties as your representative, should I be honoured with your confidence for the second time.

Although I failed to be present at every division during the recent session, I would venture to challenge my political opponents to specify a single instance in which I have neglected the interests of my constituents or failed to discharge the duties devolving upon me as your representative to the best of my ability and judgment.

During the past four years I have rendered a cheerful support to the government of Sir John A. Macdonald, believing that it has not only redeemed the pledges given previous to the last general election, but that its policy has been and is one eminently calculated to promote the prosperity of the country, and should you again honor me with your confidence I shall continue to give the present government the same cordial support, so long as their policy commends itself to my judgment.

In conjunction with the other representatives from this section of Ontario, I have done all in my power to secure the early construction of the Trent Valley Canal, and the large measure of success which has attended our past efforts should assure the electorate of this district that if their present representatives are re-elected and the present government sustained, this great and long-looked-for work will be brought to an early completion.

As it will be impossible for me to undertake anything like a personal canvas between this and polling day, I trust those favorable to the cause of good government will render me their hearty support without waiting to be asked, and that all the electors will make it a point to attend the meetings which I propose holding in different parts of the constituency for the purpose of public explanation and discussion of the several questions involved in the present campaign.

Again thanking you for the confidence reposed in me in 1878, and soliciting a renewal of the same,

I am, gentlemen,
Your ob't. serv't.,

GEO. HILLIARD.

Peterborough, May 31, 1882. d129w22

TRENT NAVIGATION.

FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Lift Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows:—

For the Fenelon Falls work	$1,000
" Buckhorn Rapids work	500
" Burleigh Falls work	1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Department of Railways and Canals,
Ottawa, 22nd May, 1882. d127-3t11

LIGHTING OF PUBLIC SCHOOLS.

How And When Myopia is Developed—Some Useful Hints.

At the meeting of the Ontario Medical Association in Toronto on Thursday, Dr. Palmer read a paper on "Lighting of Public Schools." He said that it was generally observed that school work frequently impairs the vision, and that it was an evil which should be specially guarded against. Most children up to 5 or 6 years of age have normal vision, and from this age up to 15 is the period of development of myopia. From 6 to 10—the school life of children—is the period when myopia becomes developed, and it is also established by careful and extensive statistics that the defect increased numerically as the pupil advanced through different grades of the school. A bad light is one of the most certain causes, situated as it often is in front of the pupil or at his side, shining with a glare on a level with his eye and producing great irritation. Badly constructed desks and seats, ill-heated and badly ventilated rooms, wet feet, cold floors, excessive study without interruption, all act deleteriously to the pupil. The doctor concluded an able address by hoping that the Provincial Board of Health would give attention to the matter and bring about such changes as were necessary to protect the health of juvenile scholars.

A Polar Empire.

A wonderful proposal has been made by Professor Shaler, which, if carried out, he maintains would enable a vast area of the present uninhabitable polar regions to become habitable and civilized. The following appears in the *American Architect* :—The narrowest part of Behring's Strait is thirty-six miles wide with a depth of thirty or forty fathoms, but is obstructed by three small islands in the middle of the channel. After the experience already gained by our engineers, the removal of these islands and perhaps of the rocks and reefs along the shore which offer most impediment to the current, would be a task of no very great difficulty, and considering the advantage which Professor Shaler thinks would be derived from it, not of extravagant cost. To use his words, "if the civilized nations of the earth would unite in giving to the work the money, men, and energy which they now employ in keeping themselves ready to fight each other, with the means placed at their command by modern science they could make an artificial channel, which would let enough of the Japanese current through to melt the ice of the polar seas, and reclaim a vast empire for civilization. By the same means the climate of all North America would be changed. The Arctic winds of winter, which keep British Columbia for the most part an uninhabitable waste, while they annually destroy millions of dollars worth of property as far south as the Gulf of Mexico, would cease, while the violent heat of our summers would be greatly tempered. Even those European nations who have no territory in the Western Continent might contribute to the cost, for the sake of the open north-west passage to Asia, which the change of climate would give, while Great Britain, Russia, and the United States, which now own the territory bordering on the Straits, could well afford to expend great efforts to complete a work which if what Mr. Shaler tells us is true, would in the end be so profitable.

Fashion in Roses.

"The fashionable flower for the past season was the rose," said the veteran seedsman, Peter Henderson, "and I never knew such prices to be paid for roses. The older sorts, such as the Sofrano, the Douglas, and the Isabella Sprunt, are not grown, but they are giving way to what are popularly called fancy roses, such as Perle des Jardines. But those for which the highest prices have been paid are the hybrid perpetual roses, particularly the variety known as the Magna Charta. Last year everybody was frantic to get General Jacqueminots, which are of the same class as the Magna Charta. But the costliest rose this year has been the Baroness Rothschild. It has no fragrance, but is a beautiful flower. Buds of this rose I have sold to retailers for $1 each, and the retailers made a handsome profit. They were scarce, for as yet they are rarely forced to flower early. For single corsage bouquets for an evening party last winter as much as $20 and $25 was paid. These hybrid perpetuals will, I think, soon be supplanted in popular favor by a newer class, known as hybrid tea roses, of which the Duchess of Edinburgh (bright crimson), La France (light pink), the Duke of Connaught (scarlet), the Duchess of Connaught (deep carmine), and the Coquette des Alpes (white) are at present types."—*N. Y. Sun.*

Vote for HILLIARD and BURNHAM, who would give Ontario its rightful boundary, not a "convenient line."

FROM ALL OVER.

THE wonderful Kentucky revivalist, Barnes, has begun work in Frankfort, with the avowed intention of converting the secretary of state, and other sinful state officials.

THE Jersey smack "Empress" is now at Westray loading a cargo of dried salt cod for Bilbao. It is over thirty years since a similar cargo was sent from Orkney.

A PETITION with 341 signatures against the opening on Sunday of the National Museums and Picture Galleries has been forwarded from Cupar for presentation to Parliament.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

MARY ANN RODGER or Whyle, Galston, has been sent 40 days to prison for breaking the window and stealing the purse containing two shillings of her husband, from whom she was living separate.

SOME hundreds of acres of bog, between Cookin and Scariff, East Clare, in Ireland, have begun to move toward the southeast, carrying with them several patches of reclaimed land under cultivation and part of the main road to Limerick.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

AN angry young man struck his brother with a stone at Woodstock, Va., and then thinking he had killed him, and being stricken with remorse committed suicide. The brother was only stunned.

"SEVERAL of the employees of this hotel are happy to say they have been entirely cured of rheumatism, neuralgia, and lumbago by the use of St. Jacobs Oil, writes J. E. Shaw Esq., prop'r Grand Union Hotel, New York.

THE new fortifications to be erected near Warsaw this year, at the cost of $8,000,000, will consist of 14 forts. Seven of these, on the west bank of the Vistula, will extend along a line of twenty seven versts; parallel to this will be the second line of 4 forts, and on the right bank there will be 4 other forts.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents.

BETWEEN 500 and 600 passengers sailed on the 25th of May by the Allan steamship "Hanoverian" from the Clyde for Quebec. They are all from Scotland, and many of them have considable capital. A large portion of them are for Ontario, although the majority intend settling in the North-West.

"BEST FOR ALL."—Dr. R. V. Pierce, Buffalo, N. Y., Dear Sir—My family have used your "Favorite Prescripton" and it has done all that is claimed for it. It is the best of all preparations for female complaint. I recommend it to all my customers. G. R. Waterman, Druggist, Baltimore, Md.

TWENTY-FIVE years ago the higher clergy of the Church of England were often great card players. Nowadays a card-playing prelate is hardly to be found though Bishop Ellicot of Gloucester deftly handles the cue. The famous polemical debater, Bishop Phillpotts of Exeter, was the last eminent lawnsleeved whist player. The Cardinals, too, have given up cards.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

A PIG recently born near Brown's Mills, N. J., without hind legs has become extraordinary expert in the use of its fore legs. When in no particular hurry it draws itself along on its hind-quarters, but when it is a question of getting to the trough at feeding time the singular beast balances itself upon its fore feet and trots along with the happiest combination of grace and efficiency.

J. Werts & Son, Freedomville, Ohio, write :—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

You Must Recollect

THERE IS NO LONGER ANY SUCH FIRM AS MUNCASTER & SANDERSON DOING BUSINESS IN PETERBORO', THE PARTNERSHIP HAVING BEEN DISSOLVED IN AUGUST LAST.

MUNCASTER'S

JEWELLERY STORE

Is Removed from the old Stand

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of nine pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order, F. BRAUN, Secretary.

Dept. of Railways and Canals, Ottawa, 22nd May, 1882. d127-2aw

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

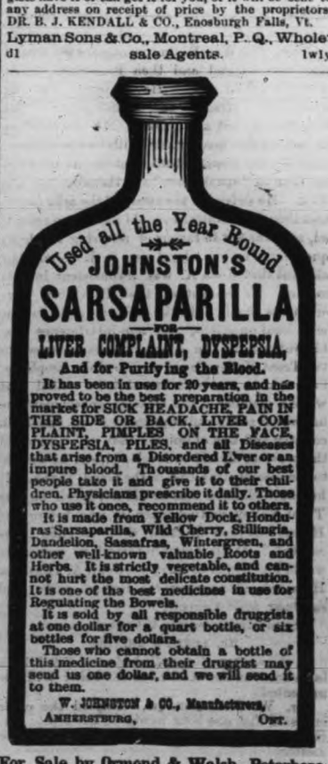
DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.



Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1wly

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

SATURDAY, JUNE 17, 1882.

ENDING THE CAMPAIGN.

Address by the Hon. E. Blake at the Drill Shed—Mr. Lundy's Meeting.

The announcemen t that the Hon. E. Blake was to deliver an address at the Drill Shed on Friday afternoon, drew together a large audience, nearly two thousand persons, including quite a number of ladies, being present. The gathering was an agricultural one, fully nine-tenths of those present being from this and the surrounding counties. Everything passed off very quietly and the speakers were frequently interrupted by applause.

The chair was occupied by Mr. James Edwards, and among those on the platform were Messrs. Blake, Lundy, Roxburgh, Bertram, Blezard, and numerous other leading Reformers.

The platform was tastefully decorated with flowers etc., and the shed was comfortably seated.

The Chairman opened the meeting by introducing Mr. Bertram, who was well received, he touched on the C. P. R. contract, the Boundary Award, and other minor matters. He informed his hearers that the N. P. was not the chief issue, and that there were other questions of more importance, and in conclusion said Mr. Blake would take up the great questions.

Mr. J. R. Stratton then read an address from the W. R. R. A. to Mr. Blake.

HON. MR. BLAKE when he rose to reply was received with loud applause. He referred to his former visit here and thought he was not worthy of the flattering address. He was of the opinion that this was a very critical moment, just about as critical as the last occasion upon which he spoke here. He next resurrected the West Riding outrage. He claimed that the Government tried to make the N. P. the great topic, but according to the address from the throne the passing of the gerrymandering bill was also one of the reasons why the House had been dissolved. Knowing that the audience was composed of farmers he mainly pointed his address to them and claimed that the N. P. did not benefit them at all nor the mechanics either. He said that the interests of farmers and townspeople were interwoven and one could not get along without the other. He took up the barley and wool questions and claimed that the farmer was not benefitted by the duty. The N. P. had helped manufacturers but had so increased the burdens of the province that a high tariff was necessary. The coal duty followed next and he claimed it should be swept off. He claimed that the consumption of sugar in England was twice as much *per capita* as in Canada and ascribed it to the duty here. Cottons and woollens followed and he stated that the poor man paid just twice as much duty as the rich man. He wanted equitable taxes and a decreased expenditure. He charged the Government with extravagance and quoted civil service figures. The gerrymandering bill next claimed attention and the speaker said it was most iniquitous. The West Riding outrage for the second time was noticed and then Provincial rights were touched on. He claimed that he was not afraid to speak on the boundary award and gave as an excuse that the arguments used by Mr. Mills had been unanswered. He thought then that it was not then his time to "speak now," and therefore did not do it. He defended the award of the arbitrators and thought the award should have been accepted, and was not in favour of referring this legal question to eminent legal men in England, and claimed that John A. was inconsistent in this matter. He thought also that Provincial governments should have the exclusive right to deal with local questions, and non-interference was his watchword. In conclusion he referred to the Trent Valley Canal, and to make people believe that he was in favour of it, he stated that while a member of the Ontario government he had voted aid to railways to open up the back country and was of opinion that the interior of the province should be developed, and he wanted to see a competing line to the Grnd Trunk. It had been claimed that he did not speak on the Trent Valley matter when it was before the House, but then all knew that "silence gives consent." If his party returned to power he would feel bound to carry out John A.'s pledges. He asked all to support the Reform party, and sat down amidst cheers.

The meeting closed in the usual manner.

MR. LUNDY'S MEETING.

In the evening the drill shed was filled by a large town audience, the fair sex being well represented.

Mr. W. PATERSON, jr., occupied the chair and said that one hour would be allowed to Mr. Hilliard or any of his supporters to address the meeting.

Mr. J. J. LUNDY was the first speaker. He was received with applause. As this was his first meeting in town, he stated that he was not a candidate of his own free will, but appeared before them as the candidate of the Reform Association. He claimed that the elections were sprung on and that he was taken at a disadvantage. He claimed that the N. P. was not the great question. He would give it no credit for our prosperous times. If elected he would support Mr. Blake and his policy. He merely mentioned the different issues before the people and said other speakers would deal with them. He spoke of Mr. Hilliard's absence from the House and promised to attend regularly if elected.

Hon. E. BLAKE was received with loud applause. He opened by saying that his physical condition would not allow him to speak at any length. His speech was very nearly a repetition of that of the afternoon, except that it was addressed to workingmen and townspeople instead of farmers. The arguments used were mainly the same, and, in fact, almost the same words were used. The N. P. was no benefit to the workingman, the coal, iron, sugar, cotton and woollen duties and the large surplus were the principal topics touched on.

MR. JOHN CARNEGIE was received with loud applause. While he had not the ability of Mr. Blake he had confidence enough in John A. to express his admiration of that statesman, and his policy. This was the first meeting that Mr. Lundy held to which he had invited Mr. Hilliard to speak, and he had only gained sufficient courage to do so at his last meeting. (Cheers.) He intended to reply to some of Mr. Blake's remarks of the afternoon, and would start where he Mr. Blake left off, with the Trent Valley canal, and Mr. Blake's second handed allusion to it. (Cheers.) That gentleman said silence gave consent, and therefore as his vote was not recorded against it, he was in favour of it, but the speaker thought that Mr. Blake's opinion of the scheme was different to that he would make you believe. (Cries of yes and no.) Mr. Blake was in opposition, and as the leader of that body he gave consent to Mr. Mackenzie's disparaging remarks. (Cheers.) Mr. Blake claimed that he had done work for the interior of the country, but he would ask, what did Mr. Blake do for this county? (Cheers.) Perhaps he was present when the order in council was made to hand over the Trent works to Mr. Mowat, in order that they might be destroyed. At one time Mr. Bertram desired that the Pacific Railway should pass through Peterborough, but Mr. Blake and his friends spent the money north of us —(cheers)—while John A. Macdonald had voted aid to build the Ontario and Sault Ste Marie Railway, which would place us on the great through line. (Cheers.) With regard to the Disallowance Bill Mr. Blake when in power had disallowed numerous acts, but now looked almost horror stricken when such was done. He wanted every man who bought land to own it, and not have it taken out of his hands. (Cheers.) Mr. Blake claimed that the Dominion Government had no right of disallowance and said the Local Legislatures in local affairs had the power, if not the courts would declare acts null and void. If this is wrong let the Imperial Government come out and say so, that would be going back on Reform records, but then that would not be anything new. (Cheers.) He next referred to the gerrymandering bill, and proved by official figures that the bill was a step towards rep. by pop. Mr. Blake had raked up the West Peterborough outrages but forgot all about the Laflamme scandal, as Mr. Laflamme was a supporter of Mr. Blake and once Minister of Justice. (Cheers.) When the gerrymander bill was before the House, why did Mr. Blake forget his celebrated Aurora speech, in which he declared in favor of the representation of minorities, that was the time to act. Mr. Blake when speaking of the Boundary beat all around the bush and never touched the centre of the question at all. Mr. Blake as leader of the Opposition should have spoken and not put up such a man as Mills. Mr. Blake spoke for two hours about a single pig for a penitentiary, (laughter and cheers) but did not open his lips on the Boundary Award. He next spoke of how farmers and workingmen were benefited by the N. P., and read a letter from a merchant in town stating that he was selling all classes of woollens and cottons and cloths as cheap now as ever before, and in conclusion asked all to vote for the N. P. and a continuance of the present good times. (Great applause.)

Mr. Bertram followed and personally abused Mr. Carnegie, speaking of the tall chimney, his connection with the REVIEW etc., and all through made false statements that he would not dare to make if any person was to follow him.

The meeting broke up in the usual manner.

SOUTH MONAGHAN.

To the Editor of the Review.

SIR,—The County Council is to sit next week. When will our town waken up to the importance of having the bridge at Rosa's rebuilt? By the building of this bridge the trade of this magnificent township of South Monaghan would be secured for Peterborough. The County Council is indifferent although it would only have to be at half the cost, Northumberland and Durham bearing the other half. If our townspeople want the bridge built they must urge it strongly upon the attention of the County Council.

Yours etc.,
PETERBOROUGH.

Mr. Blake

Mr. Blake left on a Midland train this morning for Lindsay, where he addressed a meeting to-day.

The Weather.

The weather to-day is warm, but at the time of writing rain is coming, and if the probs. are correct, we will have a shower. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate winds; fair to cloudy weather, with local showers and probably thunder.

Robbing a Circus.

While the big United States Circus was coming from Lindsay to Peterborough, an attempt was made to rob the safe in the ticket wagon. The car on which the wagon was, was boarded at one of the way stations by three men, who after smashing in the side of the waggon attempted to open the safe, but without success. The nightwatchman observed their movements and after he had fired three shots at them they cleared out. Traces of blood were found and it is supposed that one of the would be robbers was hit. There is no clue.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

Our Band.

It appears that the Fire Brigade Band is in great request just at present. On Thursday several of the members played with one of the Belleville bands, and this morning they left on the 7 o'clock train for Lindsay, where they play to-day at the Blake demonstration.

Vote for BURNHAM and HILLIARD, and stand by the Government that has stood by the country.

Railway Notes.

The Belleville *Intelligencer* says that there was a rumour on Friday to the effect that four or five cars of the circus train, which arrived here from Peterborough this morning, had been ditched near Stirling. The rumour was, however, untrue, the only possible ground for it being that several cars broke loose from the main train—a slight accident which often happens. The train consisted of nineteen cars—all the property of the Big United States Circus Company—and was hauled by two large Portland locomotives.

Mr. Gooderham, acting Managing Director of the Midland Railway, Mr. J. C. Bailey, Chief Engineer of the Toronto and Ottawa and consulting engineer of the Midland and Mr. Duncan of Toronto, went over the line on Thursday on a tour of inspection

First of the Season.

On account of St. John's Day this year falling on Saturday, the masonic fraternity of Peterborough and Lakefield, intend celebrating the day on Monday, June 26th, and have arranged to have a grand Union Excursion to Belleville and Massassaga point on that date. This is the first opportunity that our citizens have had of visiting the Bay City this year, and the first they have ever had of visiting the beautiful grove, one of the finest places for a pic-nic in Canada. As the rates are very reasonable—only $1.50, for both train and boat fare, we anticipate that a very large number will go down. Every event under the auspices of the Freemasons has been a success and we feel confident that this will be no exception to the rule.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

THE DOCTOR'S SECRET.—Probably no new development will more surprise the public, than to learn the secret of success of certain leading physicians. When they have a difficult case of throat or lung disease that baffles their scientific skill, they prescribe Dr. King's New Discovery for consumption, Coughs and Colds, having it disguised in a prescription bottle, with their own directions and name attached. The patient is cured and they get the credit.—*Tribune*. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.—2

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry—then becomes coal fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaint, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiates and astringent articles, which are of no drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

Daily Evening Review

MONDAY, JUNE 19, 1882.

CAMPAIGN NOTES.

ACCORDING to the Fenelon Falls *Gazette*, a staunch Reform journal and a warm advocate of the Opposition candidate for North Victoria, in the speech at the nominations at Coboconk Mr. Hector Cameron said :—

"He (the speaker) had challenged Mr. Blake on the floor of the House to express his views on the Trent Valley Canal; but that gentleman, instead of answering, had got up and sneaked away."

* * *

WE were sorry to hear Mr. Blake condescend to repeat the misrepresentation that the surplus was taken out of the pockets of his audience by taxation. He ventured to compare the Dominion surplus with the case of a Municipality with a surplus, and spoke of a citizen telling a boasting councillor that the surplus was taking out of his pocket, by the rate being struck too high. He omitted to give what would have been the reply of the councillor in a similar case, that by good management they had obtained increased receipts from some road, in which they were shareholders, from improved tests of corporation property, from licenses exacted from transient traders coming in, from careful collection of the taxes, which with less interest on their debt and careful economy in expenditure, had produced a surplus greater than was estimated. Just such items account for the surplus in the Dominion Treasury, and we would have thought Mr. Blake dishonest in concealing these facts if we were not aware of his want of knowledge in matters of finance, and that he was merely speaking from his brief, prepared for him by others.

* * *

MR. BLAKE attacked the Pacific Railway policy of the Government, they by so doing he condemned the abortive attempt of himself and his colleagues to form a similar company with a larger subsidy in land and money. He repeated his old clap-trap motto: "The land for the settler, the price for the country." If he meant to insinuate that settlers could not obtain free land, and that the country was not receiving vast sums of money, he suggested a falsehood, for there are free homesteads and cheap preemptions reserved for a greater number of settlers than can come in for a quarter of a century, while the receipts from land sales are large enough to bear the cost of constructing the railway. If he meant that all the land should be reserved for the settlers, he should have explained how these free grants with scanty purchases would have supplied funds for building the road with taxing the older Provinces or adding to their indebtedness, as he and his colleagues were doing. Without the present speedy construction of the road, there would be few settlers and little money coming in. Look at the state of things in the North-West now as compared with the stagnation when he and his friends were in power.

* * *

As we anticipated, Mr. Blake did not throw much light on several very interesting subjects. He did not tell how he became converted to the lukewarm friendship for the N. P., manifested in the address; probably because both his speeches showed that he had returned to his own enmity; nor the reason of his diametrically opposite opinions as to the Streams Bill and as to the power of disallowance; nor why he did not deal with Civil Service Reform while in power; nor how many cabinet members he *now* thinks there should be. He did tell us why he did not speak in the House on the Boundary Award—his reason being he would consult his own convenience, and even now he does not find it convenient to maintain that the Award is legally valid, or that it is constitutionally obligatory on Parliament to ratify it, points which he sedulously avoided. He also attempted a defence of his silence on the Trent Valley Canal, remarking that "silence gives assent," and so we and the friends of the project believe that the silence of himself and other leaders of the party gave assent to the bitter and persistent opposition of their own spokesmen.

* * *

WE have noticed that several of the Reform platform orators deny that the present prosperity of the country and of the workingmen is unprecedented. To prove their case, however, they have to go back to the time when Sir John Macdonald and his colleagues were formerly in power. They are right; under his able administration the country has been prosperous, and we think that the electors will agree with us that they will do well to stick to him and prosperity.

MR. ROGERS' WHEAT IMPORTS.

The following letter appears in the *Mail* :—

SIR,—In your issue of the 9th inst. you quote Mr. Wheeler, of "Western Ontario," as having stated that I brought in two car-loads of American wheat and sold the flour made therefrom in Canada without paying any duty on the wheat.

The facts are these, viz.:—

That in August, 1880, being in want of wheat, I bought in Chicago two cars of wheat and entered them at the port of Peterborough, giving my bonds to export the equivalent of the wheat in flour or pay the duty within twelve months from the date of entry. On the expiration of the twelve months, having only exported flour equivalent to one car of wheat, I was compelled to pay the duty (15 cents per bushel) on the other car, which I did. After I had ground these two cars, I wished to get some more of the same kind on the same terms, but was informed by H. M. Customs here that a change had been made in the bonding system, and if I wished to bring in any more wheat I would have to give my bond to ship the actual product of the wheat.

Yours, &c.,
GEORGE C. ROGERS.

Peterborough, June 10, 1882.

Vote for HILLIARD and BURNHAM, who would give Ontario its rightful boundary, not a "convenient line."

IMMIGRATION AND WAGES.

Discussing the enormous ability of this country in providing occupation for larger and larger bodies of laborers without a risk of a surfeit in the labor market, the Boston *Commercial Bulletin* points out that while the population of the United States has increased nearly 25,000,000 since 1860, about 6,000,000 of the number being immigrants, the diversity of our industries, made possible by a protective tariff, has absorbed the increase with ease, and has not been satisfied. This is evident from the fact that while the cost of the necessaries of life, both food and clothing, is no higher, and in most cases, is lower now than then (excepting, of course, certain brief abnormal periods), wages in both agricultural and manufacturing pursuits are everywhere higher, and a good deal higher. The wages of woolen mill operatives average 40 per cent higher in 1882 than 1860; those of cotton mill operatives about 35 per cent higher; of mechanics in wood and iron about twenty-five per cent higher. Farmers in the west are getting more for their produce than they did in 1860, although the consumer pays less now than then; this is due to the improvements in and decrease in the cost of transportation. Wages paid by farmers are about 30 per cent higher now than then.

IS IT A FORGERY?

To the Editor of the Review.

DEAR SIR,—I have been taunted with turning my coat, because my name appears on Mr. Roxburgh's nomination paper. If it is there it is a forgery, and put there to influence others, for I never signed it. I have been working for Mr. Burnham, and will vote for him. Mr. Roxburgh canvassed me, but I gave him a clean denial.

I do not know of any other Lipsett in the East Riding, and do not believe there is one.

Yours truly,
GEORGE LIPSETT.

Peterborough, June 19.

So far as we can learn, there is no other Lipsett on the East Riding Rolls. Apparently this is another of the unscrupulous tricks we have had to condemn.—[ED. REVIEW.

Mechanics, will you vote for a party which says you should go on the streets or to the poorhouse?

WANT OF ENTHUSIASM.

To the Editor of the Review.

DEAR SIR,—The Reformers charge us with a want of enthusasm in this election and we acknowledge the corn. How can it be otherwise? The Reformers will not enthuse worth a cent, which makes the fight all on one side, and when there is no good stand-up opposition there can be no chance for enthusiasm. When thorough, staunch Reformers speak out candidly and talk as I have heard them, opposition is disarmed. One man says he doesn't wish for a change of Government; we are doing well and any change, for a considerable time at least, could not be otherwise than detrimental. Another says it would not be fair to the Government and fair to the National Policy to have a change. Say what we will it deserves another five years' trial, and I would vote for it did I not feel certain it will win anyway. Another says:—"The Trent Valley scheme is the great consideration, and I think that the party which has already moved in the matter is the one we could best depend upon." Another says: "I believe in putting in a good man, and Hilliard is by all odds the best man." You can see, Mr. Editor, that chat like this takes the fight clean out of a man. When the ball rolls all right by all means let it roll.

Yours, &c., N. P.

[Our readers, in spite of all this, should not be apathetic, but should do their utmost to get in every vote, rolling up a large majority to give confidence to the expectant capitalists.—ED. REVIEW.]

Vote for HILLIARD and BURNHAM and the National Policy, under which we are flourishing.

MIDNIGHT TELEGRAMS

CABLE.

AT A MOMENT'S NOTICE.

DUBLIN, June 17.—A document is published purporting to be a circular from the commander of the Dublin district, giving the military dispositions, to be observed in the event of disturbances in the city. The document states that the whole garrison is held in readiness to turn out under arms. A tabulated form of the points to be occupied or used as field hospitals is appended. The circular is marked strictly confidential.

THE SITUATION.

ALEXANDRIA, June 17.—To-day all the consuls went to the palace, the Austrian consul being backed by the German and Italian, urging the formation of a Ministry. The Khedive sent to ask Raghib if he would undertake the formation. He said that he could if Arabi were in the Ministry, and the Khedive authorized this step. Raghib's new Ministry is only considered a stop-gap until a solution of the present difficulty is reached. It is difficult to see what will be the end. The Ministry is composed of the scum of the politicians; it can serve no end. Nothing can restore confidence except energetic action and the removal of Arabi. The Khedive says he might as well make his valet Minister. Sir Auckland Colvin the British controller, declares that if Arabi is Minister, he will resign. There is no abatement of the exodus of Europeans. Great difficulty is experienced in providing food for the refugees; bread commands double price. Considerable anxiety is felt about to-morrow, (Sunday,) the week after the massacre. Fresh disturbances are feared on account of the refugees' houses being now deserted, and tempting the natives to back them. The telegraph cable is now on board, a steamer, with all the arrangements for the transmission of messages.

THE NEW MINISTRY.

ALEXANDRIA, June 17.—A new Ministry has been formed as follows:—Reghib Pasha, President of the council; Arabi Pasha, Minister of War; Cadri Pasha, Minister of Justice; Raschid Pasha, Minister of Finance; Maraschi Pasha, Minister of Public Works. Raghib is a fanatical old man, who was formerly considered a smart politician, but has suffered from a paralytic stroke, and is now no good. The Khedive will probably go to Cairo to install the Ministry, Arabi Pasha objecting to come to Alexandria. Fears are entertained that Alexandria will be deprived of water owing to a panic among the European engineers at the pumps supplying the canal. All depends upon one man, who promises to stay if supplied with a guard of soldiers. The British authorities here take a gloomy view of the situation, the officials declaring that it is their intention to resign. I still think that if England could stomach moderation a settlement without further bloodshed would be possible; but there are signs of disaccord among the representatives of the powers, which augures badly.

GETTING WORSE.

LONDON, June 17.—Alexandria advices state that the troops are becomming insulting and hostile towards the Europeans.

INFLAMING THE POPULACE.

ALEXANDRIA, June 17.—Several hundred fanatical dervishes are haranging the people night and day at Alexandria.

LAST SUNDAY'S MASSACRE.

ALEXANDRIA, June 17.—Thus far three hundred and forty corpses have been found of Europeans killed in Sunday's riot. Eye-witnesses state that Europeans who took refuge in the police stations were massacred by the gendarmes. Thousands of Europeans are arriving from the interior.

PARNELL'S VIEWS.

LONDON, June 17.—The *Herald* correspondent interviewed Mr. Parnell to-day with regard to the new departure advocated by Mr. Davitt and some other Land Leaguers. The correspondent asked :—"What do you think of Mr. Davitt's new departure of the nationalization of the land?"

MR. PARNELL—In my judgement, however theoretically sound the plan of the nationalisation of the land may be considered in the opinion of its supporters, I cannot see how it can ever come in Ireland within the region of practical politics. The original plan of the Land League movement claimed for Irish tenants the right of becoming occupying owners, and the cutting down of rents was to be a necessary preliminary to attaining this right. This was the platform adopted at the Westport meeting in the spring of 1879, which was practically the first meeting of the movement, and certainly the first whereat Mr. Davitt and I attended. The organization of the Land League, which was formed subsequently in the autumn of the same year, adopted the same platform, and so far as I am aware it has never been departed from in the resolutions adopted at any of the hundreds of Land League meetings which have been held since or at either of the two National conventions.

AMERICAN.

A NICE IDEA.

NEW YORK, June 17.—The *World's* Washington special says a paper circulated in the departments yesterday secured hundreds of signatures. It pledges the signers to abstain from beef and mutton for ten days, the idea being that the prices of meats will thus be forced to a proper level.

SEVERE STORM.

INDIANOPOLIS, Ind., June 17.—There was another severe storm last night. The south eastern portion of the city was flooded. Mrs. George Wallace the wife of a prominent citizen, fell into the water in a cellar and was drowned. The storm did much damage to crops.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d27w9

GOLD—Is excellent for filling decayed teeth; but TEARBERRY prevents the decay, makes them white, and makes people lovable. 5 cent samples.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

IMPORTANT ARREST.

LONDON, June 19.—A man named Thomas Walah was arrested on Saturday night in connection with the arms seizure. The police regard the seizure as important. It is said that the information concerning the arms was sent from Paris.

MORE ABOUT IT.

LONDON, June 19.—The police in a stable at Clerkenwell seized one hundred thousand rounds of ammunition ready for removal to Ireland, four hundred rifles with bayonets, and twenty-five boxes of revolvers. The seizure this morning is one of the most important yet, and is expected to lead to further revelations regarding the shipment of weapons to Ireland. The weapons are all new, of an improved pattern. No arrests have been made.

AMERICAN.

A COLLISION.

ST. JOHNS, N. F., June 19.—The Nova Scotian fishing schooner Massachusetts on Friday night collided with the ice from high off cape Ballard and sunk. Five men are missing and it is believed are drowned. The rest escaped with difficulty in a boat.

SWIFT JUSTICE.

NASHVILLE, June 19.—Henry Huddlester, coloured, was lynched at Winchester last night for outraging Widow Vaughan.

FIRE.

TYRONE, Pa., June 19.—The Morrison large paper mill was burned yesterday. Loss $225,000.

SOLVED THE MYSTERY.

CATSKILL, June 19.—Platts Lynes, of Catskill, shot himself on Saturday on the steamer Walter Brett. He will probably die. The cause was financial troubles. He is the third brother who attempted suicide. The other two recovered.

A COUNTERFEIT.

WASHINGTON, June 19.—It is believed that the three experts appointed by Folger will report the the Doyle-Board plate a counterfeit.

A FOOLISH YOUTH.

BUCER, Ohio, June 19.—Midshipman Finley a son of the ex-Congressman, who suicided yesterday, was chided by his parents for resigning his commission in the Navy, because of the thought that he feared the approaching examination. He left a message reading "Don't say I was insane."

THE END OF LIFE.

HARTFORD, CONN., June 19.—Hall, colored, who eloped and married a daughter of Alfred Grover, of Holyoke, Mass., while he had a colored wife living, has been released. It is said that the release is on account of the fact that Hall had letters from Miss Grover, showing she was infatuated with him, and actually led him into intimacy. The girl's father wishes to avoid further scandal.

HOW THE MANUFACTURER HELPS THE FARMER.

The national advantage of broadly diversified industries, and the local advantages to farmers and manufacturers, arising from their close proximity, were set forth with rare directness and cogency by the Hon. Charles M. Shelley, of Alabama, in a recent speech in the House of Representatives, in the course of which he said

A community which is blessed with these diversified industrial enterprises, acquires wealth rapidly, and the temporary failure of one branch of industry does not bring that distress and suffering that comes from failure when you depend entirely upon a single industry, such as agriculture. The agriculturist who has a manufacturer for a neighbor, is encouraged to grow every variety of crop that the soil is capable of producing. A market is found at his door for his product, and as these neighbors are multiplied, the demand for his products is increased. This increased demand stimulates the price, which reacts upon the farmer, who improves and stimulates his land to increased production, and so on, each acting upon the other, until the highest productive capacity is reached in both agriculture and manufacturing. The farmer may have to pay higher prices for his goods, but he is able to do so because he sells his own products for higher prices, and has more to sell. A large proportion of the products of the farm will not bear transportation to a distant market. These products, which in many instances, could be grown without any additional cost to the farmer, would not be grown if they could not be sold at their doors.

Vote for HILLIARD and BURNHAM, for Canadian, not Yankee Industries.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidney, skin etc., and strengthening while it regulates and purifies.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

Daily Evening Review

MONDAY, JUNE 19, 1882.

HOW WILL YOU VOTE?

THIS is the last day for consideration, to-morrow the votes will be cast and the question who is to rule our policy for the next five years will be virtually settled.

It is no light responsibility that is in the hands of each elector—it is no mere question of whether one party or another, one set of Ministers or another shall have place and power—but it is in a very special sense a crisis in the history of our country.

Not in Canada alone, but in the United States and in Europe are capitalists looking with interest and anxiety for the result of to-morrow's vote. They are waiting to learn whether it will be safe to invest capital and start new industries among us, under a fostering tariff, or whether we are so fickle, as they have been told by unpatriotic journalists and politicians, that we are now ready to reverse our decision of four years ago, and to discard our present fiscal policy.

To a certain extent the National Policy has only been an experiment as yet, and has not had its full effect from the doubt felt as to its permanence by the more cautious capitalists. But, even as an experiment, not having yet attained its full maturity, who can doubt its success? Have not our manufacturers and their operatives found the advantage of having a home market secured to them? Does not every merchant feel that his business has improved with the increased prosperity of his customers? Have not our farmers rejoiced in better prices, more especially in the renumerative local sales of the smallest produce? Have not the mechanics and the workingmen found the benefit of increased wages, and the still greater benefit of constant employment? And do any of them wish to go back to the old days of stagnation, depression, and deficits? Before this great question all others sink into the background.

There is, however, a consequence of the fiscal policy, that has a particular interest for us locally. With our splendid natural advantages for becoming a manufacturing city, we only need one additional attraction for capitalists, and that is a cheap and convenient means of transit, improved communications. The present Government, always ready as they have shown themselves, to develop the natural resources of the country, have undertaken our Trent Valley Canal, have made a substantial commencement and have pledged themselves to its completion. Again, they have voted a large sum in aid of a railway to connect our system with that of the great North West, so that we may share the profit of supplying the settlers now flocking in. In contrast with this we know that the Reform Minister especially charged with such matters derided and condemned our canal, and refused to aid a railway to connect us with the Canada Pacific, though, he could, at our expense make the connection for the Quebec lines, and in both instances without any protest from his colleagues. But even if those were favourable instead of unfriendly to our local requirements, they would confessedly be unable to serve us, for they condemn surpluses, condemn the tariff that produced a favourable balance in the Treasury, and they could not, however willing, construct canals and railways out of deficits.

This is no time to give a mere party vote. The welfare of our whole Dominion is at stake, the future of our own town and county is to be decided. Think well therefore, and allow no mere force of habit to influence you in marking your ballot paper.

Vote for your country, for your town, and for your families, not for your party, and give your verdict in favour of the National Policy and the Trent Valley Canal. Cast your ballots for GEORGE HILLIARD and JOHN BURNHAM.

In 1878 workingmen idle. In 1882 workingmen busy. Vote for HILLIARD and BURNHAM and the Government's policy, which brought such a state of things about.

THE BOUNDARY AWARD.

AFTER Mr. Blake had devoted most of his speech to the tariff policy, as being the great question at issue, he could not avoid giving a few minutes to the little bit of political capital which his ally Mr. Mowat has been preparing for him, the boundary question. We listened with especial attention to ascertain his views on this subject, and we find that many of his own party did likewise. Yet his views have to be gathered quite as much from what he did not say as from what he did say.

He began by referring to the assertion that he had been afraid to speak in the House on this question and claimed that he was complimented by being deemed afraid to speak against his conscience. Mr. Bertram, by the bye, varied this in the evening by affecting to believe that the ground taken was that Mr. Blake was afraid to argue a law point, which was his business, and sneering at the idea. Both misrepresent the ground taken by ourselves and others. We do not say it was because of conscientious scruples or want of legal ability that he was afraid to expose himself to the criticism of Sir John Macdonald, but that he cared too much for his *professional* reputation to take a false position which would have been so quickly exposed, if before such a critic he had ventured to uphold the award as valid and its ratification as obligatory.

Why, even here to a country audience he would not maintain either point. He said, indeed, that he was not bound to speak until it was convenient, and that time has evidently not yet fully come. He had to take some notice of the question, so he appealed to local feelings and sectional prejudices. It was as a bargain between man and man, a friendly arrangement between two neighbours, that he urged the propriety of Parliament ratifying the award. Then he made an allusion, which he should have considered beneath him, to the supposed opposition of the Quebec Bleus to the enlargement of Ontario, without having the fairness to say that his friends the Rouges voted the same way, or, like their leader Mr. Laurier, urged the ratification for fear a competent court would do Ontario fuller justice.

Again he praised the arbitrators—the English Ambassador, though he sneered at appealing to English judges—Chief Justice Harrison, though he says his opinion on Mr. Bertram's want of qualification was an "outrage"—and Sir F. Hincks, though that gentleman avows that he decided every doubtful point against Ontario.

In short, Mr. Blake talked round the subject, like an advocate making the most of a bad case, without touching the heart of it, the validity of the award or the constitutional obligation of Parliament to ratify it. He would not risk his professional reputation by maintaining either point.

Vote for HILLIARD and BURNHAM, and encourage manufacturers to locate here.

THE POWER OF DISALLOWANCE.

MR. BLAKE'S manner of dealing with the disallowance of the Streams Bill, must have convinced all his careful and unprejudiced hearers, that he knew he had not a good case. A distinguished lawyer, anxious to be considered as a constitutional authority, he never disputed the legality of the disallowance, nor the justice of its exercise in this case. He was driven, since he could not well be silent altogether, to put his eloquence to the bad use of inflaming sectional jealousies, stirring up provincial prejudices, and setting one part of the Dominion against another.

He could not deny that the Governor-General in Council has the right of disallowance even of provincial legislation not *ultra vires*, for to do so he must have flown in the faces of the leaders of his own party at the time of Confederation, who strongly insisted upon the maintenance of this safeguard—he must have ignored his own despatch to Downing street that this veto power could be exercised only on the advice of the responsible Ministers—he must have condemned himself, and his colleagues for having recommended the disallowance of similar measures—he must have censured Mr. Mowat's invitation of disallowance by first voting for, and then reserving acts passed by the Ontario Legislature, and within their jurisdiction.

He could not deny that the Streams Bill was righteously disallowed, for in the first place his own colleagues had disallowed a provincial act for precisely the same reasons of being retrospective, interfering with pending litigation, and not giving due compensation for private property seized upon. He could not do so in the second place, because he had given his professional opinion that the Streams Bill was bad. He consequently declined to consider the justice or injustice of measure, even being bold enough to claim the right of the provincial legislature to commit an injustice if the majority saw fit, and if in a matter within provincial jurisdiction. They have no right to pass an unjust act though they have the power, but fortunately the Dominion Government has the power to prevent it from going into force.

MR. BLAKE did not help his party much, by sustaining Mr. Mowat in rewarding a follower by private property, taken from an opponent, nor by censuring Sir John Macdonald and his colleagues for preventing such an injustice.

AS INFLUENTIAL AS TRUTHFUL.

MR. JOHN BERTRAM, with that arrogance and want of truth for which he is so well known ventured on a public platform to give the lie to the statement that he himself complained of being unable to obtain from the Mackenzie Government aid in removing some paltry obstructions from our river. Where the lie rests may be judged from the following official report of what he said, which appears in *Hansard* for April 14th, 1877, which any voter can see for himself:—

"Mr. Bertram said that sometime last fall a steamboat had stuck fast for two or three weeks on a boulder in the river near his constituency. He was not inclined to be sectional, but it seemed to him that constituencies of Western Ontario hardly received fair treatment in the expenditure of the public money. The steamboat proprietors had spent a considerable sum of money in improving the navigation of the river in question, and, *though he had asked for aid in removing these boulders from the Government and* WAS REFUSED, he would now again ask the Government to take the matter into consideration."

One falsehood more or less from Mr. John Bertram, when he is making a closing speech and cannot be answered, is of very little consequence, but we ask the electors what they think of his officially reported words in Parliament? What reason is there to hope that Messrs. Lundy and Roxburgh, however willing, would have sufficient influence even with a Reform Government to obtain the construction of the Trent Valley Canal when Mr. Bertram could not even get a boulder removed from the river?

Vote for BURNHAM and HILLIARD, whose motto is "Canada for the Canadians."

HOW TO MARK YOUR BALLOT.

We give below specimens of the ballots that will be used at the coming contest. Every elector should see that he marks his ballot correctly. An X opposite the name of Mr. Hilliard means a vote in favour of that gentleman.

Election for the Electoral District of West Peterborough, 1882.

I.	**HILLIARD.** George Hilliard, of the Town of Peterborough, Lumber Merchant.	X
II.	**LUNDY.** John James Lundy, of the Town of Peterborough, Gentleman.	

An X opposite the name of Mr. Burnham means a vote in favour of that gentleman.

Election for the Electoral District of East Peterborough, 1882.

I.	**BURNHAM.** John Burnham, of the Village of Ashburnham, Barrister-at-Law.	X
II.	**ROXBURGH.** William E. Roxburgh, of the Village of Norwood, Merchant.	

Vote for our old members, who would secure for us our rightful boundaries, not for supporters of Blake and Laurier, who fears that the Privy Council would give us our rights.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

THERE IS NO MORE wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry,

MR. R. W. CARMICHAEL, Chemist and Druggist of Belleville, under date of May 31st, 1882, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

WEST RIDING
ELECTION
TEAMS.

All persons who are willing to volunteer the use of their teams on the Election Day, TUESDAY, 20th JUNE, for the Conservative Candidate, MR. GEO. HILLIARD, ESQ., will please notify any of the following gentlemen:—Messrs. Jas. Stevenson, C. W. Sawers, A. P. Poussette or Wm. H. Moore.

G. W. HATTON, Secretary L. C. A.
H. H. SMITH, President L. C. A.
Peterborough, June 17th, 1882. 2d142

To the Free and Independent Electors of the

WEST RIDING
OF PETERBOROUGH.

GENTLEMEN,—

At the urgent solicitation of my political friends I have consented to be again a candidate for your suffrages at the approaching election.

While I would have preferred not to have been a candidate on the present occasion, yet now that I have placed my services again at your disposal, you may rest assured that no private duty or engagement will be allowed to interfere with the proper discharge of my duties as your representative, should I be honoured with your confidence for the second time.

Although I failed to be present at every division during the recent session, I would venture to challenge my political opponents to specify a single instance in which I have neglected the interests of my constituents or failed to discharge the duties devolving upon me as your representative to the best of my ability and judgment.

During the past four years I have rendered a cheerful support to the government of Sir John A. Macdonald, believing that it has not only redeemed the pledges given previous to the last general election, but that its policy has been and is one eminently calculated to promote the prosperity of the country, and should you again honor me with your confidence I shall continue to give the present government the same cordial support, so long as their policy commends itself to my judgment.

In conjunction with the other representatives from this section of Ontario, I have done all in my power to secure the early construction of the Trent Valley Canal, and the large measure of success which has attended our past efforts should assure the electorate of this district that if their present representatives are re-elected and the present government sustained, this great and long-looked-for work will be brought to an early completion.

As it will be impossible for me to undertake anything like a personal canvas between this and polling day, I trust those favorable to the cause of good government will render me their hearty support, without waiting to be asked, and that all the electors will make it a point to attend the meetings which I propose holding in different parts of the constituency for the purpose of public explanation and discussion of the several questions involved in the present campaign.

Again thanking you for the confidence reposed in me in 1878, and soliciting a renewal of the same,

I am, gentlemen,
Your ob't. serv't.,

GEO. HILLIARD.

Peterborough, May 31, 1882. d129w22

TRENT NAVIGATION.

FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Lift Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows:—

For the Fenelon Falls work..... $1,000
" Buckhorn Rapids work..... 500
" Burleigh Falls work..... 1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Department of Railways and Canals,
Ottawa, 22nd May, 1882. d127-3w11

AN AWFUL DEED.

Details of the Poisoning of Four Children in Chicago, by Their Mother.

PHILADELPHIA, June 12.—The particulars of the poisoning of the Seybold family by their mother, and the latter's subsequent suicide, are of a most revolting character. The husband Charles Seybold, is a Bavarian, and about 45 years old, and thirteen years ago he married, his wife having been a servant in a family on Van Buren street. Children blessed their union, the four who were thus early sent to the world hereafter being Matilda, a very bright and intelligent girl, 12 years old; Antonia, 7 years old; Annie, 2½ years old and the baby 3 months old. How long the three youngest had been dead when the distracted father saw them, is not known, but as the time approached for his return from work, the unfortunate mother gave her eldest child the draught of poison, and as she heard her husband's footsteps on the stairway, she took the dose she had reserved for herself. A moment later she greeted her husband and told him that she had poisoned the children and they were dead. She would soon be with them, she said, as she lead her horrified husband, who was loath to believe her, into the sleeping room. His wife had met him clad in a gown of white, her hair flying loosely over her shoulders and surrounded by a wreath of artificial flowers. In her hands she also had a bunch of flowers. Her appearance alone alarmed Seybold, as it was undoubted evidence of her insanity. She pointed to a tub on the floor, hysterically saying :—"I bathed them first and dressed them as you see them there on the bed. I bought the flowers and placed them as you see them. Are they not beautiful?" The sight terrible in the hush of death, was pitiful in the thoughts of the innocent slaughtered. All four were in white, with their hands folded and clasping white artificial flowers, while white wreaths encircled their foreheads. The baby lay in the crib, its chubby hands being held by a ribbon, and beside it lay Annie. The boy lay under the coverlets of one bed, and on the other lay Matilda. As she pointed to the dead ones, the mother, upon whom poison was already working its deadly end, threw herself on the bed with Matilda. The father struck dumb by what he saw and appalled by the horror, recovered himself as his wife fell on the bed, and ran frantically out out of the house seeking for help. When he returned Mrs. Seybold was then in cramps, but she was was still conscious, and as Mr. Martin lifted her to the other bed, she begged her husband for forgiveness. "I am sorry," she cried, "but it is too late now. Forgive me, O, forgive me."

Physicians were immediately summoned. A glance at the bodies showed that strychnine had been used, and a brief search revealed the poison and the fact that it had been purchased at Weibmeister's drug store, corner of Twenty-second street and Archer avenue. In rummaging about the letters printed below were discovered. They were all written by Tilley, and tell plainly the history of the night's dreadful work. The longest was found under Tillie's pillow, and was probably the last she wrote. It reads as follows :—

"The baby is dead. She didn't seem to suffer. Mother gave her the medicine, and we kissed her together. Tony didn't want to take his, but we told him we must all go together. Then Annie took it, and Tony asked for his, and they both laid down toget her. Mother is fixing mine, and I am going to bed to take it. Mother is ready to give me mine, and I am ready. Papa will be out of his trouble soon and so will we all be. I am ready, good-by.

"TILLY SEY——."

Another letter for her father, and probably written before the other, is as follows :—

"DEAR PAPA,—Forgive us. We will have to part from you. Mamma said it was the best that could be done. We are going into a better land, where we will all live in peace together. Farewell.

"Thy daughter, MATILDA."

"DEAR PAPA.—Buy Tony a flower and Anna one also from this money. (Some in a box.) It is what I have saved. The knife in the box is yours."

"DEAR PAPA,—Please let us be buried decently in Wunder's potter's field, so that we shall all be together. That is all we wish of you."

Then, as though to tell the story that her playmates might know, she wrote the following :—

"FOR MARY MURPHY :—I will tell you the story of our trouble. My mother was always sick, you know, and thought of dying often, and thought how, if she was dead, how we would be treated, and so thought it best for all to die at once, and bought something to kill us; the baby first, Annie second, Tony third, I after, and then my mother. We did not suffer much, and now we are all out of trouble. No pain nor sorrow must we bear. Remember me and the family, good-bye. Please tell Rosa Morris to take the book I have brought home to school. It is not mine. It is the History of the United States. Take it to room 5, to George Capron. It is on the lower shelf of the closet."

The next, address to the same person, was as follows :—

"MARY MURPHY.—Please tell Lizzie Martin, Minnie Allen, Lizzie Raymond that I have forgotten their dispute and forgave them. I guess they will feel sorry for it. They think of me as their friend.

TILLY SEYBOL."

On the back of this was scribbled a verse of the hymn, "There Is a Happy Land." All were written on scraps of paper and in blue ink. They showed the wonderful coolness with which the little ones met their death, and the control of the mother over her daughter, who thus, without fear, awaited her turn.

In explanation of the tragedy it is stated that Mrs. Seybold has been sick ever since the birth of her last child, and her mind had been affected by her illness. The couple have apparently lived as happily together as the average, having their occasional little differences. Wednesday Mrs. Seybold was washing and did not have dinner ready at the usual time. This provoked her husband, who spoke somewhat harshly to her; she then threw a dishcloth at him, and he left without his dinner. Neither spoke to the other till yesterday morning. After his departure Friday afternoon, Mrs. Seybold went out and puchased the strichnine. She then visited some friends and bade them good-bye, saying she was "going to finish it." Returning home she prepared for her deadly work. Little Tilly, while playing on the street that evening, bade all her comrades good-bye, and said they would probably never meet in this world again. She spoke but too truly. As the news got abroad, and it spread like wildfire, the house was beseiged by men, women and children from all directions, the narrow street being fairly choked by the people who wished to see the ghastly sight of a life-time. It was with the greatest difficulty that the police kept the crowds back, and clubs were necessarily used in the efford. All this while the woman was in convulsions, and suffering terribly. Tilly had already ceased to exist, but her mother, who had hoped to sleep to death, was in untold pain. Once she rallied, and as she seemed to understand her terrible work, she shreiked for an axe and begged them to kill her with it and put her out of her suffering. It was not long, however, until she was among the dead. The dead woman was a Swiss and about 35 years old.

Electors of West Peterborough, vote for GEORGE HILLIARD, your tried and approved member, who has his residence and business among you.

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt." Read advertisement in another column.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaint, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Vote for Hilliard, who never shirked paying town taxes.

TYPHOID FEVER!

Largely Caused by Cesspools and Privy Pits.

THE SANITARY SELF-ACTING EARTH CLOSET

Provides an efficient remedy. SIMPLE, INEXPENSIVE and perfect working; can be placed in a shed, over a pit, in a cellar, vacant room, or brought to a patient's bedside, without offence. Special contracts for hotels, schools, &c. Circulars on application.

NATIONAL PILLS

SUGAR COATED. PURELY VEGETABLE

Highly recommended for Biliousness, Head-Ache, Constipation, Indigestion, Dizziness, Heartburn, Bad Breath, Loss of Appetite, Jaundice, Loss of Memory, Sour Stomach, Liver Complaint, or any illness arising from the Stomach, Bowels or Kidneys. They are safe, mild and thorough in their action. From 1 to 3 pills a dose. PRICE 25c. PER BOX.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, as if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever been produced, nor is there anything else in the least degree comparable for its Healthy Action on the human Skin.

SULPHOLINE LOTION.—The first use of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as early as possible. In two or three days the effect will become apparent in a diminished appearance of the body, a growing tendency to fade away, and complete cessation of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAIN BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London, specially valuable Pills for residents abroad and travelers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, restores the pale with. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. It is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 1 dose, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. The Fluid combination, extracted from medicinal roots is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, dizziness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid medicine by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all chemists. A most valuable and essential medicine for India, Australia, the Cape, and colonies generally.

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Dept. of Railways and Canals, Ottawa, 22nd May, 1882. 4127-2aw

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & CO., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1wly

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

W. JOHNSTON & CO., Manufacturers, AMHERSTBURG, Ont.

For Sale by Ormond & Walsh, Peterboro.

$7.50!

$10.50!

MUNRO & ALEXANDER

Daily Evening Review

MONDAY, JUNE 19, 1882.

Lacrosse.

The Port Hope Lacrosse Club has been organised for the season. The name taken is that of the "Beavers" and the secretary's name is W. J. Beatty.

Navvies.

On account of the wet weather and the fact that many of the Missing Link navvies received their month's pay on the fifteenth of the month, many of them have been in town during the last few days.

Handsome Prizes.

The prizes for amateur races in the Tournament which will come off on the 22nd, are now on exhibition in W. A. Sanderson's window. They are a handsome and valuable lot, and should induce a great many to enter. Programmes will be issued in a few days, giving full particulars of entries for both amateur and professional races.

Which Will You Choose?

The mechanics of Peterborough cannot fail to remember the time of the last general election, when the factories and workshops were closed, were short handed, or were working short time. With this they will naturally contrast the present state of affairs when working overtime, constant employment and higher wages are the rule. They know well which condition to choose, and how to cast their votes to-morrow.

Support the leaders who are giving us the Trent Valley Canal, and not for those who denounce it as a folly.

Railway Notes.

The *Intelligencer* says that Mr. Gooderham, Vice-President of the Midland Railway, accompanied by several officers of the road, was in Belleville on Friday in his own official car. He went over the newly-constructed Toronto & Ottawa line between Madoc and Bridgewater. Mr. Gooderham, Mr. Ferguson, Superintendent, and Mr. Bailey, Chief Engineer of the T. & O. Division, also examined the proposed sites of the new elevator. The exact site of the structure, however, was not immediately selected.

The Weather.

Yesterday was fine and warm during the day, but at night it became cool. Lightning, denoting heat in the opinion of many was very vivid, and some heavy showers fell, but did not last very long. To-day is cloudy and oppressive. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—winds nearing to north west and north, and increasing on the upper lakes to moderate gales. Clearing and slightly cooler weather.

Numbers at the Meetings.

As we have heard many different opinions as to the members in the Drill Shed at the recent meetings, and as estimates of such assemblies are very often wildly incorrect, we will explain how we arrived at our own calculation of the attendance at the afternoon address of Mr. Blake. The central block of seats, opposite the platform, numbered twenty, and by actual count, six of them averaged 19 persons each, making a total of 380. The side block, towards the door, was about the same dimensions, rather less than more. The similar side block, towards the gallery, never was more than three-quarters full, from fifty to a hundred seats being always unoccupied. The platform and seats at its side, by comparison with the main blocks, certainly showed less than 200, and so with the seats at the side of the door. An actual count of fifty of those standing, showed that they were more than a quarter of the whole number. In the gallery there were six persons. Thus, making the fullest allowance for each section, the count stands:—

Central Block	400
South Side Block	400
North Side Block	350
Platform and Side Seats	200
Side Seats at door	200
Standing and in Gallery	200
Total	1750

We gave the numbers as nearly 2000, but probably there were 300 less. In the evening there were hardly so many. At Sir John Macdonald's meeting, about the same space was covered, but many more were standing, and were far more closely packed.

Workingmen be true to your own interests, and vote for HILLIARD, your friend.

POLICE COURT

ASSAULT.

SATURDAY, June 17.—James Riordan was brought up by P. C. McGhee, charged with assaulting Mrs. John Newton. James is rather a hard citizen and his name figures in the Police Court record more than several times. On diffirent occasions he bad raised rows in the same house, but the probs. are that after he is tried this time, he won't have another chance for some time. He was remanded until Wednesday next.

DRUNK AND DISORDERLY.

MONDAY, June 19.—John Fagan a hard citizen and a Missing Linker was charged by P. C. McGhee with being drunk and disorderly on Saturday.

The Magistrate adminstered a sound rebuke and warned him and his chums against making this town their headquarters for sprees and promised him upon a repetition of his offence six months' free board at the Central Prison.

DITTO AND DITTO.

James Galloway a one legged navvy was charged by P. C. McGhee with being drunk and disorderly on the public streets on Saturday. James who is well known in town is a rather hard customer and when liquor gets the best of him he uses very foul language.

In order that he might not have a chance to exercise his franchise, if he has any vote, he was remanded to gaol until Wednesday,

Fire.

We regret exceedingly to announce that the barns, sheds, etc., of Mr. M. Sanderson of Smith, were destroyed by fire on Saturday afternoon.. The fire was caused by lightning. He had no insurance. The loss will be heavy. The barns were struck before by lightning, but were not destroyed.

A Beautiful Gift.

The Belleville *Intelligencer* says:—

"On Friday evening a magnificent baptismal font was placed in position in Christ Church, being the gift of Mrs. J. W. Dunnet. The font is of white marble elegantly designed. The rim of the basin bears the following inscription:—'Suffer little children to come unto me.' It will be used the first time on Sunday afternoon at 2.30."

The donor was at one time a resident of Peterborough, and her many friends will be pleased to learn that she is carrying on her good work with unabated vigor.

Personals.

A special cablegram informs us that Mr. Geo. A. Cox and family arrived all right at Liverpool on Sunday after a splendid trip.

Mr. David Rubidge, of Denver, Colorado, well known here, is on a visit to his friends in Port Hope.

Mr. H. A. Galbraith, of Toronto, is in town. He leaves this evening for Winnipeg, after he polls a good Tory vote in West Toronto to-morrow. He has been doing good yeoman service to the Conservative party this election. May his shadow never grow less.

Workingman, vote for employers of labor, and for the party that supports our home industries.

Enthusiasm to Order.

Some of our Reform friends say that we hardly manifested our usual fairness in making a burlesque of the Blake procession and belittling it. We might say that we wrote nothing but what was true, and we might, if we cared to do so, contrast this with the untruths uttered by Reform organs as to the hearty spontaneous reception of Sir John Macdonald's sudden and impromptu visit, but we have no wish to shelter ourselves under such excuses. We desire to do justice to all men even if opposed to us, and we certainly desire to see a fitting reception given to any leading man in Canada who may visit our good town, whether a Conservative or Reformer. If the procession had been a spontaneous one or the result of any ordinary announcement, we would have thought it fairly creditable, and calling for no especial remark for or against it. But when we knew, as we did, that the enthusiasm was made to order, that the excitement was manufactured as per circular, that an urgent appeal was made to the faithful to get up this little show, the matter was very different. There were two courses before us—one to denounce the dishonesty of manufacturing public display by private invitation with the intention of representing it to a deluded country as a voluntary manifestation of public opinion, and of making up a show as theatrical as that of the Myers circus on the previous day, to simulate a genuine outburst of popular enthusiasm—or else to make a little goodnatured fun of a mere farce, a sham procession convoked in such a manner, and which after all did not surpass the attendance at an average funeral, and was not one bit more lively. We think we adopted the lesient course. We do not wish to be misunderstood; we think it would be perfectly justifiable and even meritorious to invite all and sundry to hear the views of one of the political leaders of the country, or to invite their friends to give a fitting reception to their champion, but it is a very different matter sending a fiery cross through the clans coercing their attendance, and then sending them home again after endeavouring to scare the enemy by representing it as an irrepressible outburst of popular feeling. Perhaps we were wrong, in mildly ridiculing such false pretences, instead of sternly condemning them, but if so we erred on the side of leniency.

NEVER BE WITHOUT IT.—Tourists and all who are subjected to a change of climate, water, diet &c., should never be without Dr. Fowler's Extract of Wild Strawberry, the infallible remedy for all Summer complaints.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

Vote for the National Policy and good times, not for "Flies on the Wheel" and hard times.

To Hotel Keepers.

As there seems to be some misapprehension regarding the law, we give the following from the Act, which clearly defines the position of innkeepers on polling day:—

"91. No spirituous or fermented liquors or strong drinks shall be sold or given at any hotel, tavern or shop or any other place within the limits of any polling district, during the whole of the polling day at any election for the House of Commons, under a penalty of one hundred dollars for every offence; and the offender shall be subject to imprisonment, not exceeding six months, at the discretion of the Judge or court, in default of payment of such fine."

A Dirty Dodge.

We are informed on unquestionable authority that a certain large employer of labour in town—a Grit—has resorted to the dirty trick of sending such men as he knows intend to vote for the N. P. to work out in the country until Wednesday, so that they will not have a chance to poll their votes. Such an action will be condemned by all honest men. For the dirtiest of dirty tricks, commend us to the party of "purity."

ENNISMORE.

From Our Own Correspondent.

THE PICNIC.—Mr. John Gray gave his celebrated lecture on Sir John Macdonald and the National Policy on Wednesday. The picnic was a *grand* success. The amount contributed towards the new house will be $200.

ORATORS.—It is felt that Mr. Gray is one of the greatest orators in the Dominion. Mr. O'Leary spoke in the interests of the Opposition. He is a fluent speaker.

THAT CANE.—That beautiful silver headed cane was awarded to Mr. Hilliard. This is considered, and justly too, a great triumph for the Hilliard cause. The poll stood as follows:—

Mr. Hilliard	128
Mr. Lundy	56
Majority for Mr. Hilliard	112

Ennismore has fallen into line and is indeed redeemed. Hip! hip! Hurrah!

GENERAL LEIB of the Chicago, (Ill.,) *Democrat* says: "St. Jacobs Oil is the remedy for rheumatism and neuralgia, without any manner of doubt, and people who suffer from these diseases, ought to be made acquainted with that fact. Whenever I had occasion to use the Oil, I found it all its proprietors claim for it."

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

The Peterborough Real Estate Investment Company. (Limited.)

MURRAY CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the MURRAY CANAL," will be received at this office until the arrival of the eastern and western mails on TUESDAY, THE TWENTY-SEVENTH DAY OF JUNE NEXT, for the formation of a Canal to connect the head waters of the Bay of Quinte with Presqu'ile Harbour, Lake Ontario.

A map of the locality, together with the plans and specifications of the works, can be seen at this office and at Brighton, on and after THURSDAY, THE EIGHTH DAY OF JUNE NEXT, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted bank cheque for the sum of $3,000 must accompany each tender, which sum shall be forfeited, if the party tendering declines to enter into contract for the execution of the works at the rates and prices submitted, subject to the conditions and on the terms stated in the specification.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN,
Secretary.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Almost a Free Breakfast Table.

Daily Evening Review

TUESDAY, JUNE 20, 1882.

LINDSAY.

IRON MINING IN SNOWDON.—The *Post* says that Messrs. Parry & Mills, of Chicago, have leased from Messrs. O'Brien, Shortiss & Co. the Victoria iron mine, in the township of Snowden, and having tested the mine thoroughly as to the quantity of iron ore it contains with a diamond drill, have now commenced building a hot blast charcoal furnace of a capacity of thirty-five tons per day. All the castings for the furnace have been ordered from the St. Lawrence foundry, 35 Berkeley street, Toronto. The foundation of the furnace is completed, and as soon as the castings are ready the work of completing the furnace will be commenced. They have built a saw mill to cut their own lumber, and have secured about 17,000 acres of timber land for the purpose of making their charcoal. Messrs. Parry & Mills have a large amount of capital of their own, not depending upon others for funds. The furnace will be in full blast early in November, when the first furnace in Ontario will be running.

A VALUABLE PRIZE.—Our venerable friend, Mr. Samuel Dix of Mariposa, requests us to publish from the Montreal *Register* of May 27, 1847, an item setting forth that in 1774 a Mr Burnett, a merchant in Aberdeenshire, Scotland, left by his will a small landed property the rents of which were to accumulate, from time to time, for periods of forty years; the accumulation on every fortieth year after the above date to form two premiums of unequal amount—three-fourths of the whole going to the author of what competent judges should pronounce the best, and one-fourth to the writer of the second best treatise on the evidence that there is a Being all-powerful, wise and good, by whom everything exists; and particularly to obviate difficulties regarding the wisdom and goodness of the Deity; and this, in the first place, from considerations independent of written revelation: and in the second place, from the revelation of our Lord Jesus; and, from the whole to point out the inferences most necessary for and useful to mankind. The *Register* states that in 1854 the sum applicable for this purpose amounted to about £2,400 stg., and it should now, if available, be very large. Mr. Dix desires to call attention to the matter, and ascertain if anyone knows about it, for the prizes should soon again be apportioned for competition.

FENELON FALLS.

ALARM OF FIRE.—The *Gazette* says that about eight o'clock on the evening of the 17th instant, while Mr. Samuel Johnson was putting up the shutters of his store on Colborne street, Mrs. James Fielder, who lives over the next shop, informed him that smoke was issuing from one of his upper windows. Mr. Johnson instantly remembered that he had, a short time previously, given his little boy, about six years old, a lighted match to enable him to find his coat, which hung in a dark hall at the foot of a flight of stairs leading from the room behind the shop to the second story, and upon hastening to the hall, he discovered it in flames, which were speedily extinguished by a liberal use of water. It appears that the child had dropped the match into a box containing scraps of waste paper, which had caught fire and blazed up; but the hall being only the width of the stairway and without a window, there was scarcely any draught, which was very fortunate. The door and skirting board was so badly charred that they will have to be replaced by others, a considerable surface of plastering was blackened and two coats burnt; but that was the extent of the damage done.

Mothers! Mothers!!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. J52w9

GOLD—Is excellent for filling decayed teeth; but TRABERRY prevents the decay, makes them white, and makes people lovable. 5 cent samples.

MIDNIGHT TELEGRAMS

CABLE.

THE CONFERENCE QUESTION.

LONDON, June 19.—The Sultan yesterday reiterated to the French ambassador his objection to a conference on the Egyption question, and maintained that the assembling thereof would be attended with insuperable drawbacks. It is stated in paris that the powers have accorded the Port further delay for the consideration of the acceptance of a conference. Spain asks to be permitted to participate in the conference. The Khedive has resolved not to return to Cairo.

A LITERARY FIND.

LONDON, June 19.—A singular literary treasure has just turned up in the shape of a preface by Thackery for the second edition of his "Irish Sketch-book." It was suppressed by the publishers as too outspoken, and will shortly be published in a magazine. Thackeray strongly supports not only the disestablishment of the Irish Church, but the repeal of the Union.

INSULTING PARLIAMENT.

BERLIN, June 19.—Herr Bebel, the German Socialist, has been sentenced to two months' imprisonment for speaking insultingly of the Bundesrath.

INTERNATIONAL CONFERENCE.

LONDON, June 19.—In the House of Commons Sir Charles Dilke stated that Germany, Austria and Russia has accepted the proposal for a conference in reference to the affairs of Egypt. Italy had declared she would follow the course of the other powers. Instructions were sent to Admiral Seymour, on Friday, sufficient to preserve British interests in Alexandria in case of renewed disturbances.

MIGRATION FROM EGYPT.

ALEXANDRIA, June 19.—Thirty-two thousand persons have already left Egypt. It is estimated that an equal number are waiting an opportunity to get away.

BANKS PREPARING FOR A SIEGE.

ALEXANDRIA, June 19.—The banks are mostly all prepared to resist siege. The Ottoman Bank has been converted into an armoury. The entrance is blocked by bales of silk. The clerks are well supplied with provisions and have ropes ready to haul up refugees from the streets. Arabi Pasha thanked the Khedive for his appointment as a member of the Ministry. There is no doubt that he is straining every nerve to maintain order. He is beginning to realize that he provoked the exodus of Europeans, which will ruin the country. The sub-Minister of Justice, investigating the riot, states that he is unable to arrest the instigators of the crimes. He names Arabi as the chief instigator.

SEIZURE OF ARMS.

LONDON, June 19.—In the House of Commons the Secretary of War said none of the arms seized at Clerkenwell were manufactured by or for the Government.

AMERICAN SUSPECTS.

LONDON, June 19.—Baron DeWorms has stated that he will ask Mr. Gladstone on Thursday whether the United States Government refused to agree to the expulsion of the American suspects from Ireland as a condition of their release.

THE REPRESSION BILL.

LONDON, June 19.—The ninth clause of the Repression Bill, providing for the arrest of strangers found under suspicious circumstances, was adopted in the Commons.

RUSSIAN POLICE.

ST. PETERSBURG, June 19.—The new Russian Minister of Police, General Trepoff, is to have General Tcherevine for adjoint. The officers who were personally attached to General Ignatieff pass into the service of General Trepoff, and the employees of his private chancellerie into that of Count Tolstoi, with the exceptions of its chief, M. Voiekoff, whom General Ignatieff would not disavow when on his own authority and alone he pressed on the presecution of the Jews, General Ignatieff wishing to effect their expulsion gradually. The Perfect of Police of Moscow comes to St. Petersburg to take the place of Perfect Kazlow, who returns to Moscow. The present chief of the political police will probably retire, so that the *personnel* of the high police will be entirely changed. It is said that Prince Orloff will be replaced at Paris by Count Albedinski, governor of Warsaw, morganatic brother-in-law of the late Emperor, his wife being a Dolgorouki.

CURE FOR HYDROPHOBIA.

PARIS, June 19.—A doctor in Paris claims he has cured a case of hydrophobia by three subcutaneous injections of one centigramme of pilocarpine.

AMERICAN.

THE RAILWAY BILL.

NEW YORK, June 19.—The *Tribune's* Albany special says that the Governor said he could arrange a whole chapter of criticisms of the railroad Commission bill, but thought he could more wisely sign the measure, and turn his attention to many important bills yet to be acted upon.

DEATH-DOOMED GUITEAU.

WASHINGTON, June 19.—Guiteau has as yet shown no fear of meeting death, although it is expected by the gaol officials that he will break down at the last moment. He is inclined to be very serious and indulges in no bravado, but says that he has not abandoned the hope that the President will reprieve him. The prisoner is under surveillance day and night, and no one is allowed to speak to him except his counsel and Dr. Hicks, the clergyman in attendance.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidney, skin etc., and strengthening while it regulates and purifies.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

DIVISION IN THE CABINET.

LONDON, June 20.—It is rumoured that the Cabinet is divided over Egyptian affairs. It is stated that Harcourt, Dilke and Chamberlain urge an active intervention in Egypt by landing a British force and taking possession of the Suez Canal. It is said that if the Cabinet decide to land troops in Egypt, Bright and others will resign.

THE EXODUS FROM EGYPT.

ALEXANDRIA, June 20.—The state of the courtry is rapidly getting worse. Over 50,000 Europeans have already left. The exodus of Europeans shows no signs of subsidence. The U. S. steamer Galatia, is now pretty clear of refugees, most of them having taken their passage to safe sea ports. Arabi Bey is doing his utmost to stay the exodus, promising special protection for Europeans. His promises are distrusted. The natives are now showing signs of fear of the vengance of Europe. The lost American family, except that of Ginstore, is now safe.

AMERICAN.

INTERNATIONAL LAW.

TUCSON, June 20.—Captain Ross, with fifty rangers, who left here two months ago, has returned. The rangers trailed the renegade Apaches, 200 miles from the Arizona line into Chihuahua, Mexico. They counted 300 dead Indians, evidently killed by Mexicans. The body of Chief Loco was identified. The rangers met the Mexican troops under General Reys and were arrested and disarmed. After four days they were ordered to leave Mexican territory. Reys informed Ross that as he had the authority of the Sheriff, from Arizona, the life of himself and his men be spared, but he must go back unarmed. Ross demanded a voucher for the arms of the rangers, which was finally granted. Reys stated that he warned Colonel Forsythe that any body of armed men found on Mexican soil would be shot, but he should make an exception in this case. The rangers were compelled to return through the Indian country two hundred and fifty miles, without a single weapon for self-defence. Reys admitted that he was aware that the rangers meant no harm to the Mexicans, but declared that it was a violation of international law, which he would not tolerate.

USELESS IMMIGRANTS.

NEW YORK, June 20.—All but one of the important steamship lines have capitulated to the Commission of Emigration. Forty Russian Jews were sent back to Germany on Saturday and forty yesterday by the Hebrew Emigrant Aid Society, having been found vicious or incurably idle. Some were placed in factories or on farms ten successive times, only to be sent back to New York to ask for more help. Despatches have been sent to Europe asking the relief committees to stop sending refugees for the present.

RECKLESS OVERLOADING.

SAN FRANCISCO, June 20.—The pilot who took out the steamer Escambia, says that her water tanks were all pumped out to render the ship lighter for the carriage of cargo. The coal was stowed on deck as high as the bridge. While going down the harbor the machinery was stopped for a few moments, and the ship falling off into the trough of the sea, rolled scuppers under. The pilot expressed his opinion that she was unsafe and that a disastrous catastrophe might have been expected on open water The disaster was seen from the Signal Station, but it is impossible to say whether anybody was saved. The ship's complement consisted of about twenty-five men. The Escambia was about 2000 tons.

FIGHT IN A CEMETERY.

CHICAGO, June 20.—A pic-nic party quarreled at Concordia Cemetery on Sunday. A hundred men tearing from the fence fought a pitched battle, heads without number were broken. The women watched the fight from a platform, which finally broke down injuring several and breaking several tombstones.

FIGHT WITH INDIANS.

TUCSON, June 20.—Chihuahua advices state that the Mexican troops had another fight with the Indians at Eninillos, when 15 Indians were killed and 20 captured. Five Mexicans were killed.

GIRLS vs. BOYS.

NEW YORK, June 20.—In the examination of pupils of the public schools for admission into the Normal College, 71 per cent of girls passed against 48 per cent of boys.

DESTRUCTIVE STORM.

NEW YORK, June 20.—The storm in west Chester county yesterday did considerable damage to fences, trees and crops.

HEAVY RAINFALL.

PATERSON, N. J., June 20.—Four inches of rain fell here yesterday and several silk mills were flooded. A number of land slides occurred along the New York, Susquehanna and Western Railway.

FREIGHT DELAYED.

NEW YORK, June 20.—The strike of 3,000 freight handlers is embarrassing the railways. The delays in the transportation of freight are beginning to be felt. The freight piers are full of merchandise awaiting removal.

THE MALLEY CASE.

NEW HAVEN, June 20.—It is rumoured that good feeling has been restored between Blanche Douglas and Walter Malley, and that the latter has sent the former some money.

COAL MINE ON FIRE.

WILKESBARRE, June 20.—The excitement over the fire at Diamond Mount increases. The fire is a mile and a half from the opening and under the German Convent, should the fire get beyond control the foundations of a thickly populated suburb will be threatened. The explosions in the mine yesterday were violent. An immense volume of water is being poured into the mine.

THE KNIGHTS OF LABOUR.

ROCHESTER, June 20.—Recently 200 of the principal employers issued a manifesto in which they agreed to close all the shops rather than to acceed to dictation by the workingmen. The Knights of Labour yesterday issued a long reply denouncing the legislature for having adopted the provisions of the new code regarding public meeting, and asserted that the working classes instead of exacting too much wages are receiving less than their just share of the wealth they create.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Daily Evening Review

TUESDAY, JUNE 20, 1882.

EDITORIAL NOTES.

IF we are to believe the *Globe*, the pending elections are so certain that it seems hardly worth while to go to the polls. Possibly, however, the great Reform organ is a trifle over sanguine, as it was in 1878. We give its calculations, as our readers may find it interesting hereafter to compare them with the result:—

Provinces.	*Ministerial.*	*Opposition*
Ontario.	30	62
Quebec.....	45	20
Nova Scotia.	9	12
New Brunswick.	5	13
Prince Edward Island	1	5
	88	112

It will thus be seen that the *Globe* claims a majority of twenty-four, with hopes of increasing it in Manitoba and British Columbia, of all places in the world! Well, a few hours will show now.

* * *

NOTWITHSTANDING that the *Globe* asserts that our farmers are "dropping" the feeding of cattle, and killing all their calves, Canada exported, according to the official return, 40,592 head of home grown during the last half of 1881, and of these, 36,266 went from Ontario and Quebec. Not bad for a "dropped" business. Besides cattle, we also exported 564,759 lbs. of beef of our own produce.

THE PROSPECTS.

THE elections to-day will virtually decide the fate of the present Administration, and with it of the National Policy with its attendant prosperity. The four larger Provinces will have given their verdict, with the exception of a few outlying constituencies, and it is not at all probable that the later elections, in the three smaller Provinces, will materially affect it.

Though we do not arrogate to ourselves prophetic inspiration, like some of our contemporaries, who lay down the exact majorities for each Province, we have naturally considered the probabilities, and we see no reason to be alarmed as to the result. That Sir John Macdonald will be maintained is allowed as almost a certainty by all the independent journals, and even by many Reformers; the only question is as to the majority.

In Quebec, the Ministerial support was so overwhelming at the last general election, that its increase is improbable; but we know nothing to make us believe that it will be materially diminished, especially in view of the elections by acclamation on Nomination Day. In Nova Scotia and New Brunswick, where the vote was almost evenly divided, we have good grounds for believing, from reliable reports of the current of public opinion, that a considerable improvement may be expected. The less populous Provinces: British Columbia, Manitoba and Prince Edward Island, were so nearly unanimous, returning only one supporter of the Opposition, that no gain is to be expected or even to be desired, but there seems to be no prospect of much change, unless it be of a few members in the Island Province, as to which our information is somewhat contradictory.

To come to our own Province, the most populous and most important of the Dominion the result is more problematical. From the reports that come to us we have no reason to despond, for Sir John Macdonald and his colleagues are promised a support which will gain them several seats previously adverse and ensure them a continued majority from this province. So unexpectedly great was the majority in 1878 that it will be surprising indeed if it is maintained absolutely intact. The amount of the falling off, if any, will depend upon the extent to which some constituencies have allowed themselves to be lead away from the consideration of the great question of our fiscal policy, by the appeals to sectional jealousies and prejudices, which the Opposition have sedulously fomented—by the false cries that Ontario was wronged in the matters of the Boundary Award, and the disallowance of local legislation.

As to our own County, in which our readers are more immediately interested, in the West Riding the return of Mr. Hilliard is as certain as anything human can be. In the town appearances are strongly in favour of an increased rather than a diminished majority, and though our information as to the townships is not so full, we do not anticipate that taking one with the other the figures of 1878 will be greatly altered. In the East Riding the contest will probably be closer, but from the information we have received we expect that Mr. Burnham will obtain a good majority in the southern portion of the Riding at all events. The element of uncertainty is the extent to which the northern townships may be affected by the influence of Mr. Mowat and his colleagues, exerted by the partisan use of provincial officials and provincial funds.

To sum up, we think the probabilities are in favour of the present administration obtaining a majority in every Province in the Dominion, and that it is almost certain that they will be sustained with a good working majority.

BIRDS OF A FEATHER.

FOR the first time we have heard a speaker on a public platform deny the complicity of Mr. Laflamme, the Reform Minister of Justice, in the plot to stuff a ballot box with bogus Reform votes in Jacques Cartier, for which he was so righteously unseated by a court of law. Honest members of his party have been ashamed even to mention his name, and none have cared to show enough sympathy with such a heinous offender as to speak in his behalf. This has been appropriately left to a fitting advocate, to Mr. John Bertram. Who, on the principle of "birds of a feather," could more truly sympathise with a ballot-box-stuffing Minister of Justice than the man who claimed to take his seat in Parliament on a fraudulent qualification, and would have had his claim ignominiously rejected for his fraud, if he had not been saved by Mr. Mackenzie's hurried dissolution preventing the report of the Committee, which was already prepared, from being presented? Who could more appropriately defend him than the man who had the cynical effrontery on a public platform to avow that he had made incorrect custom house entries of goods, and that his undervaluation had to be corrected by the official authorities that the country might not be defrauded of its lawful dues? Culprit and advocate! Laflamme and Bertram! What a pretty pair!

DISASTROUS FIRE.

Hunter, Rose & Co.'s Warehouse Badly Gutted—The Loss and Insurance.

TORONTO, June 19:—About ten o'clock on Saturday morning a fire broke out in the warehouse Nos. 23 and 25 Wellington street, occupied by Hunter, Rose & Co., printers and publishers; the Rose-Belford Publishing Company; and H. Belden, publisher of *Picturesque Canada*. The fire started in Hunter, Rose & Co.'s drying-room, and an attempt was made by Mr. Rose to extinguish it by means of a hose in the building, but he was soon driven back by the smoke and heat. An alarm was then sounded from box 9, and in a short time all the brigade except three companies were on the spot. From the drying-room, which is under the pavement of a lane adjoining the building, the fire spread to the press-room, and thence up the hoist to the composing-room and bookbindery. The firemen worked under considerable difficulty owing to the dense smoke, but the fire was extinguished in about three-quarters of an hour.

EXTENT OF DAMAGE.

The machinery in the press-room was badly damaged by fire and water. The stereotyping department adjoins the press-room, and the flames finding plenty of fuel in the collection of matrices swept the place clean, and the flood of water completed the ruin. The damage in the composing-room was slight, although a great many cases of type were "pied." The bindery was filled with printed matter and paper of all descriptions, all of which was ruined with water. There were forty girls and about twenty men employed in the bindery, and about forty men in the composing-room. The loss is roughly estimated at $50,000. The building is insured in the Lancashire and Western companies for $12,000, and the stock and machinery of Hunter, Rose & Co., for $47,500, as follows:—Phœnix, $7,500; Royal, $5,000; British American, $5,000; Quebec, $5,000; Standard, of Hamilton, $5,000; Mercantile, $5,000; Western, $5,000; Royal Canadian, $5,000; Guardian, $5,000. There are policies made to Rose, Belford & Co., for books, plates, and manuscripts, stored in the building, as follows:—Western, $5,000; Queen, $5,000; Scottish Imperial, $5,000; Northern, $5,000. H. Belden, publisher of *Picturesque Canada*, has a policy for $6,000 in the Guardian for plates, engravings, and manuscripts.—*Mail*.

CARE OF LIVE STOCK FOR JULY.

A sheet of cotton is a great protection to horses, screening them from flies, dust and heat, while working in the harvest field. Especial care must be taken in keeping the horses clean. An occasional washing with a soft sponge and carbolic soap, cleans and cools the skin, aids perspiration, drives away the flies, and is in every way healthful and refreshing. Horses may be given a bath in a stream at evening, provided they are not warm from work, and are not kept in the water more than a few minutes. If the horses are at pasture at night, they need a good, generous feed before being turned out. When kept in the stalls, a mess of green fodder may be given daily.

During the hot weather, cows suffer if kept in a shadeless pasture. A cool, dark and clean stable is preferred by them. They need an abundance of pure water, a plenty of nutritious food, and should be kept as comfortable as possible.

Sheep that are intended for the butcher need to be pushed forward with liberal feeding. A quart of mixed ground feed to each animal daily, with the pasturage, will bring quickly into good shape for the market. Store sheep need good pasture, with a plenty of shade. If dysentery appears in the flock, remove the sick animals to a cool shed, and give one ounce of caster-oil, with bran or oat-meal mush. Should maggots be found upon the sheep, tar may be applied to the affected parts. Look well to the flock that sheep do not suffer in any way during the hot summer months.

Growing young pigs for the early market are often very profitable. They may be ready in 100 days from birth, if well fed. At first the sow needs to have rich food in abundance, that she may have a full flow of milk. After a few weeks, let the young pigs have meal and wheat middlings.

Now is the time to weed out the poor hens in the poultry yard. Poor layers or bad mothers can be quickly fattened in a coop, ready for market, and will command a good price.—*American Agriculturist.*

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

THERE IS NO MORE wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent. bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

THE HIGHEST TYPES.

Rob Burdett's Advice to Boys Who Talk About "Mere Butterflies of Fashion."

"You say you demand the noblest type of womanhood in your wife. If that is the sort of woman you want, marry Nora Mulligan, your laundress' daughter. She wears cowhide shoes, is guiltless of corsets, never had a sick day in her life, takes in washing, goes out house-cleaning, and cooks for a family of seven children, her mother and three section men, who board with her. I don't think she would marry you, because Con Regan, the track-walker, is her style of a man. Let us just examine into your qualifications as a model husband after your own matrimonial ideas, my boy. Can you shoulder a barrel of flour and carry it down to the cellar?" Can you saw and split ten cords of hickory wood in the fall so as to have ready fuel all winter? Can you spade up half an acre of ground for a kitchen garden. Do you know what will take the limy taste out of the new cistern, and can you patch the little leak in the kitchen roof? Can you bring home a pane of glass and a wad of putty to repair damages in the sitting-room window? Can you hang some cheap paper on the kitchen? Can you fix the front gate so as it will not sag? Can you do anything around the house that Regan can? My dear boy, you see why Nora Mulligan will have none of you; she wants a higher type of true manhood. You expect to hire men to do all men's work about the house, but you want your wife to do everything that any women can do. Believe me, my dear son, nine-tenths of the girls who play the piano and sing so charmingly, whom you in your limited knowledge set down as "mere butterflies of fashion" are better fitted for wives than you are for a husband. If you want to marry a first-class cook and experienced housekeeper, do your courting in the intelligence office. But if you want a wife marry the girl you love, with dimpled hands a face like the sunlight, and her love will teach her all these things, my boy, long before you have learned one-half of your own lesson."

FROM ALL OVER.

AT the Iowa Agricultural College girls are taught to make good bread, roast and broil meats, and to make coffee.

ENGLAND alone imports about 10,000 tons of cork yearly, and the quantity, is constantly increasing notwithstanding the introduction of many substitutes.

It is remarkable that O'Connell's family do not take the slightest part in Irish agitation today, and the sons of Mr. Smith O'Brien hold as severely aloof from it.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

THE Queen has approved of the regiment now styled "Princess Louise's (Sutherland and Argyll Highlanders)" being in future designated "Princess Louise's (Argyll and Sutherland Highlanders)."

SEVERAL libraries in the United States report a decrease in the reading of fiction by the young of from 65 to 58 per cent. This decrease is due chiefly to the efforts of teachers and librarians to give school children better taste in reading.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents.

THE number of Sanskrit students has increased so rapidly in the University of Vienna that it has been found necessary to appoint a second professor—Dr. Hultzsch—who assists Professor Buhler in teaching the elements of Sanskrit, and has classes in Pali, Prakrit, and Hindi.

MR. R. W. CARMICHAEL, Chemist and Druggist of Belleville, under date of May 31st, 1882, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

SAYS Judge Young, of Minnesota:—"If a newspaper publishes an item of news truthfully, without any malice and without any intention of injuring anybody, it will be protected in the publication, no matter if it seriously reflects upon the personal character or professional reputation of a person named."

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaint, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

DURING his recent visit to the Dominion in charge of emigrants, the Rev. Mr. Bridger, of St. Nicholas' Church, Liverpool, met on his travels some of the families who went out to Canada a year or two ago with him, and they expressed much gratification at the progress they had been able to make.

AT 187 West street, New York, is the Erie Ticket Office, presided over by Mr. C. V. V. Ward, who thus writes: "Some months ago I had rheumatism in my right arm, and was unable to raise it. I was advised by a friend to use St. Jacobs Oil. I did so, and on the second day I felt greatly relieved. I continued to use it, and before the second bottle had been exhaustsd my arm was perfectly well.

A remarkable flower, the largest but one of floral giants, was recently exhibited in bloom in the London Botanic Gardens. The plant itself (*Aristolchia Goldicana,*) a native of Old Calabar is not peculiar. The flower, which may be compared to a French horn on a large conch shell, requires six weeks to come to maturity, then bursts open and expands, and droops in a few hours. The plant seldom blooms in England.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

There is a large business done in France making fuel from coal dust, which is reckoned better than genuine coal. The coal is mixed with ten per cent. of pitch, such as is produced at gas works, heated by steam until the pitch melts, and then pressed into cakes. The cost is about $4.50 a ton. It is especially valuable for use on locomotives and the Orleans Railway buys from 45,000 to 60,000 tons of it yearly.

Speaking of the Tariff Commission, the Boston *Advertiser* says that Mr. John L. Hayes, "recognizes the need of a reduction as well as a readjustment of duties." Very likely he does, says the Detroit *Free Press*, in everything except wool, just as Mr. Oliver, another member, probably believes in a readjustment in everything, except in iron. We never heard of a protectionist who did not believe in a "readjustment of the tariff"—on articles of which he was not a manufacturer or representative.

TERMS STRICTLY CASH.

FAIRWEATHER & CO.

Fatal Fishing Expedition.

KINGSTON, June 19.—On Saturday afternoon four men left the city for a fishing excursion. The occupants of the small boat were John Campbell, James Cooper, Richard Cowman, and Jos. McKinstry, all employees of the cotton mill. When half-way between Garden Island and Point Frederick, McKinstry remarked that he thought he would upset the boat and see who was the best swimmer. He was cautioned not to attempt such a thing, but did so notwithstanding. Once in the water they discovered their helplessness, and clung to the boat and cried for help. Mr. Hammond, messman of "B" Battery was returning from Wolfe Island, and his little son drew his attention to the capsized boat and men in distress. Mr. Hammond pulled for them, but before he reached them the rolling waves caused two to lose their grasp on the boat, and, exhausted, they sank. The other two (Cooper and Cowman) were rescued and conveyed to the Royal Military College. The storm which set in immediately after the accident prevented search for the bodies until to-day, and grappling for them was continued up to this evening unsuccessfully. Campbell leaves a wife, to whom he was married in September. He came from Belfast in July and sent for her, having become affianced while employed in some spinning mill in the Irish metropolis. The wedding took place in Kingston. McKinstry was an employee in the Belfast mill, where he had formerly been a fellow-labourer with Campbell. He only arrived in Canada a few weeks ago, and leaves a wife and two children in the Old Country to mourn his foolishness and unhappy death. The rescued men are from England, and but for Sergeant Hammond's timely action all four would have perished.

BELLEVILLE.

SAD DROWNING ACCIDENT.—The *Intelligencer* says that one of the employees at the Eagle mill—a young man named Hornald—was drowned yesterday afternoon. He was last seen about 3.30 p. m. and was missed by the foreman about half an hour later. A search was instituted, and his hat was found in a small piece of water, about 8 feet square, within a pier. A few minutes afterwards the body of the unfortunate young man was found at the bottom, lying in only about five feet of water. There were no bruises or any mark, of violence about his body, and his clothes were untorn. The probability is that he fell from the summit of a lumber-pile into the water, and was stunned by the fall. A Coroner was summoned, but he did not deem it necessary to hold an inquest. Hornald was a young man of steady and industrious habits and was a great favourite with his fellow workmen. He had been working at the mill only three weeks, having just arrived from England. His father and two brothers work at the mill, the family having come to Canada from the old country to improve their condition in life.

PORT HOPE.

FATAL ACCIDENT.—The *Guide* says that on Friday Mr. Thomas Robinson, lot 18, con. 4, Clarke, was engaged in burying a boulder on his farm, when the bank gave way, and the stone weighing several tons, fell upon him, crushing him to death. Deceased leaves a wife and six children to mourn his untimely death. Mr. Robinson was well known in Port Hope.

TRADE NOTES.

THE Amherst Draw Cut and Mower Company have commenced to put the machinery into their factory in order to be ready for the fall trade.

MESSRS. J. M. Williams & Co., manufacturers of stamped tinware and japanned goods in Hamilton, have added a stove foundry to their already extensive premises. This addition to the stove foundries of Hamilton adds to the extent of that important industry at that point.

A JOINT stock company, with a capital of $60,000, has been formed at Montreal, for the manufacture of fire proof paints, cement, boiler covering &c. to be known as "The Sparham Fire Proof Roofing Cement Co." Letters of incorporation have been applied for, the first directors to be Messrs. A. F. Gaald, Thomas Craig, A.S. Hall, W. J. Whitehead, W. L. Maltby and Dr. T. Sparham.

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

You Must Recollect

N. H. DOWNS' Vegetable Balsamic ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation when the cough is more observable, but rather dry—then becomes l oal fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate or astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props. MONTREAL, P. Q.

N. H. DOWNS' ELIXIR

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6 Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Dept. of Railways and Canals, Ottawa, 22nd May, 1882. d127-2aw

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

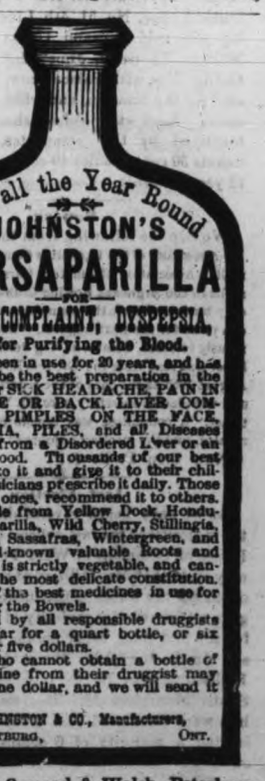
DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.



Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1w1y

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

TUESDAY, JUNE 20, 1882.

Sale of Furniture.

The sale of Mr. P. D. Doran's furniture etc., will take place on Friday June 23rd, and not the 30th as advertised.

Challenges.

The Cricket Club has received four challenges and it is requested that there will be a good turn out at this evening's practice, so that the advisability of accepting them may be discussed.

Masonic.

On Saturday, June 24, being St. John's Day the Corinthian Lodge A.F. & A.M., will meet in the Masonic Hall, at 7.30 p.m., and the Peterborough Lodge at 8 o'clock in the evening.

Dearth of News.

The elections are almost the only topics of conversation, and apparently almost the only business to-day, and under the ballot of course we cannot give any certain information even about them.

Accident.

A young lad, named Hamilton, son of Wm. Hamilton, of Peter Hamilton's Foundry, had one of his hands badly smashed at the Station to-day. He was putting nails or pins on the track, when a car ran over his hand.

Our Bulletins.

As usual on such occasions, bulletins of the state of the poll will be issued from the REVIEW office as the returns arrive from the different polling places in the two Ridings of Peterborough. When the result in our own locality is known the telegrams from outside constituencies will be delivered at the old Music Hall, where the Conservatives will meet.

The Unopposed Return.

The news that arrived to-day that Sir Hector Langevin had been returned for Three Rivers, and Mr. Fortin for Gaspe, thus making the unopposed electors twenty-one ministerialists, four of them Cabinet Ministers to one opposition, with six other seats in which none but Conservatives are running, added fresh enthusiasm to the Conservatives, and incited them to renewed efforts.

Steady Work.

The polling to-day appears to have been conducted in a very quiet orderly manner, and we have not heard of the slightest disturbance. Both sides have been working hard, but in a steady business-like manner. Even the most energetic, expend themselves in actions rather than words, and as they dash up to the polling place with one voter and then without delay proceed for another.

The Weather.

To-day the weather has been lovely, clear and bright, but not too warm, so that the active politicians have not been inconvenienced in their labours. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Light to moderate winds, gradually veering to eastward. Fine weather, higher temperature.

Grand Union Pic-nic.

Carswell Lodge, No. 411, Peterborough and Union Lodge, No. 51, 4th Line Smith, I.O.G.T., will hold a grand Union Pic-nic at Idyl Wild on Thursday, June 22nd. The steamer Golden Eye with Palace Scow, has been chartered for the occasion, and will leave Sherbrooke street wharf at 7 o'clock sharp. Tea will be furnished by the committee. Gentlemen's tickets 50 cents, ladies 40 cents, children under 12 years 25 cents.—Come one, come all.

Rowing.

We clip the following from the *Mail*:

"A meeting of the Executive Committee of the Canadian Association of Amateur Oarsmen was held last night in the Argonaut Rowing Club's boat-house. The only business before the committee was the selection of a place for the next regatta. Lachine was unanimously selected, Ottawa having declined. A very nice letter was read from the Lachine Rowing Club naming August 19th as the date of the regatta. Mr. A. Townsend was elected secretary, *vice* Mr. W. Ince, jr., unable to act. A committee was appointed to manage the regatta, and the meeting adjourned."

Now then P. B. C.!

Last Election.

As we have heard several discussions about the majority at the last general election for the House of Commons in West Peterborough, we may state that Mr. Hilliard obtained a majority of 197 for the whole constituency. The town gave a Conservative majority of 203, to which, for the first time, every polling place contributed. In the townships the majorities for Mr. Hilliard were in North Monaghan 41 and in South Monaghan 10. The majorities against him were Smith 45 and Ennismore 12, thus leaving a majority of 6 against Mr. Hilliard outside the town, leaving the net majority 197.

Canning Fruit and Vegetables.

HAVING the cans, or jars, the operation is simple. The fruit, whatever it may be, in a syrup just strong enough to properly sweeten it, is brought to the boiling point, and when the air has all been expelled from it, it is at once placed in the jars, previously warmed with hot water, and when these are well-filled, the cover is screwed down tight. Good jars, well filled with boiling fruit, and promptly covered by screwing down the caps, will insure success. Many years ago, when canning was not so general as it is now, we showed how any common wide-mouthed bottle could be used, but at present, jars made up for the purpose are so cheap, that it is not necessary to resort to any make-shifts. Among the first things to be put up in this manner is rhubarb. This, as shown in April last, can be readily canned, and green Gooseberries may be treated in the same manner. Strawberries and Raspberries come next, and are better preserved in the same manner than by any other, but these, especially the Strawberry, while vastly better when preserved thus than in any other manner, come far short of retaining their original flavor. Peaches are easily preserved thus, and are nearly perfect, as are pears, especially the Bartlett, apples and quinces. One who has put up the quince in this manner, will never preserve it according to the old pound for pound method. All the highly flavoured apples, preserved by canning, make a finer apple sauce than can be produced in any other manner. The usual process is, to cook the fruit, of whatever kind, in a syrup made with four ounces of sugar, to a pint of water. When the fruit is cooked tender, transfer it at once to the jar, and add the syrup to fill up crevices, if there are bubbles of air, aid them to escape, by the use of a spoon; see that the jar is solid full of fruit and syrup, and up to the top, before the cap is screwed on. While fruits are easily preserved in the family, vegetables are more difficult. We have many inquiries about preserving green peas, green corn, and tomatoes. Those who make a business of canning, find green peas and green corn among the most difficult things to to preserve. They can only be put up in tin cans by long boiling processes, not practicable in families. If any of our readers have found a method by which either corn or peas can be preserved by any process practicable in the family, we ask them to communicate it, for the benefit of others. Last autumn we made an experiment with tomatoes. Thoroughly ripe fruit was cooked as for the table, omitting butter and all other seasoning, and put up in ordinary fruit jars. About 3 out of 12 failed, but those which succeeded were vastly better that the tomatoes purchased in tin-cans.—*American Agriculturist for July.*

Treatment of Bones.

Bones accumulate on every farm, and a hunt for them will bring out many more than one would expect to find. When properly treated, they furnish very valuable food for growing plants. Whole bones, as they are thrown out from the kitchen, are so slowly decomposed, that they are of little use, unless applied very largely. They need to be broken up or made fine in some way that the large amount of phosphoric acid, etc., contained in them may be available. It is not practicable for ordinary farmers to have bone mills, and the next best thing is to break them up somewhat with an axe or heavy hammer, and mix them with unleached ashes, keeping the heap moist enough, so the alkali will 'eat' them, and render the bones soft. The bones thus treated will crumble to fine pieces when dried, and are then ready to spread upon the land. Every farmer should see that all bones are thus made into a valuable home-made fertilizer.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

NEVER BE WITHOUT IT.—Tourists and all who are subjected to a change of climate, water, diet &c., should never be without Dr. Fowler's Extract of Wild Strawberry, the infallible remedy for all Sumner complaints.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

MURRAY CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the MURRAY CANAL. will be received at this office until the arrival of the eastern and western mails on TUESDAY, THE TWENTY-SEVENTH DAY OF JUNE NEXT, for the formation of a Canal to connect the head waters of the Bay of Quinte with Presqu'ile Harbour, Lake Ontario.

A map of the locality, together with the plans and specifications of the works, can be seen at this office and at Brighton, on and after THURSDAY, THE EIGHTH DAY OF JUNE NEXT, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted bank cheque for the sum of $3,000 must accompany each tender, which sum shall be forfeited, if the party tendering declines to enter into contract for the execution of the works at the rates and prices submitted, subject to the conditions and on the terms stated in the specification.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN,
Secretary.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Almost a Free Breakfast Table.

Daily Evening Review

WEDNESDAY, JUNE 21, 1882.

POLICE COURT

DRUNK AND DISORDERLY.

WEDNESDAY, June 21.—James Galloway, a one legged navvy, who has been in gaol since Saturday, was brought up on remand, charged by P. C. McGhee with being drunk and disorderly in a public place. The prisoner looked considerably better than he did on the previous occasion, and appeared to feel his position keenly. He pleaded guilty, said it was his first offence, and asked for leniency, promising if allowed to go now, never repeat to the offence. The Magistrate delivered a good sound rebuke to both prisoner and his fellows, and gave them to understand that such work must be stopped. Prisoner was assessed $1 without costs, and having the necessary amount he was allowed to go.

A CURIOUS CASE.

GEORGE BALL was charged by P. C. McGhee, "with wandering on a public street, at night." Mr. George Edmison appeared for prisoner, who pleaded not guilty.

The facts of the case as given in evidence, were that the defendant was, in company, with another young man, walking along George street on the night of the circus at a late hour, when he was met by the officer, who told him that it was time he was home. The defendant told the officer that he had committed no offence and was simply walking on the street, and he told the officer that if he (the prisoner,) had done anything wrong to bring him up, and in fact he insisted on such being done.

The case was dismissed.

The Weather.

Yesterday, whether it was owing to the N. P., or not, the weather was fine. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—light variable winds, fair weather, stationary or higher temporature.

From the Link.

One of the sights on Polling day was that of nineteen workingmen of the town, at present employed on the Missing Link, marching to No. 1 Ward in a body to record their votes for Hilliard and a good Government. They were under charge of Mr. T. Raphael, Mr. Beemer's lieutenant, who did good service all day for the Conservative cause.

First of the Season.

On account of St. John's Day this year falling on Saturday, the masonic fraternity of Peterborough and Lakefield, intend celebrating the day on Monday, June 26th, and have arranged to have a grand Union Excursion to Belleville and Massassaga point on that date. This is the first opportunity that our citizens have had of visiting the Bay City this year, and the first they have ever had of visiting the beautiful grove, one of the finest places for a pic-nic in Canada. As the rates are very reasonable—only $1.50, for both train and boat fare, we anticipate that a very large number will go down. Every event under the auspices of the Freemasons has been a success and we feel confident that this will be no exception to the rule.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

GOLD—Is excellent for filling decayed teeth; but TEABERRY prevents the decay, makes them white, and makes people lovable. 5 cent samples.

MIDNIGHT TELEGRAMS

CABLE.

THE CONFERENCE.

LONDON, June 20.—In the House of Commons Sir Charles Dilke stated that the conference of the great powers met in Constantinople on Thursday, with the consent of Turkey.

BOAT RACE.

LONDON, June 20.—A boat race took place today over the Thames championship course for the *Sportsman's* challenge cup, valued at two hundred and ten pounds. The competitors were Laycock and Pearce, both Australians, and Largan. Largan won by two lengths from Pearce, Laycock stopped opposite Thorny Croft Works at Chiswick.

IMPORTANT ARREST.

LONDON, June 20.—A man named Thomas Walsh was arrested on Saturday night in connection with the arms seizure. The police regard the seizure as important. It is said that the information concerning the arms was sent from Paris.

TROUBLES IN RUSSIA.

ST. PETERSBURG, June 20.—Count Tolstoi's return to office created a perfect panic in Moscow, and led to troubles in the Tamboo Government, three districts being in insurrection. Several noblemen's stewards were killed. The peasants in a village of the Kazan Government took possession of the land and apportioned it among themselves. The landlords have appealed for troops to dislodge them. Tolstoi's suspension of *La Nuite*, an unimportant newspaper, is evidently intended as a warning to the larger journals, which are panic striken, and now confine their leading articles to hospitals and other similarly exciting subjects. Editors of Russian newspapers are so timid that they fear to receive the visits of foreign correspondents lest what is published by the latter should compromise them.

A ROSY REPORT.

CONSTANTINOPLE, June 20.—The Porte has received a despatch from Dervish Pasha reporting the state of affairs in Egypt to be very satisfactory. He says Arabi strictly obeys the Khedive's commands. He thinks, therefore, a conference would be inopportune.

TRIAL OF THOMAS WALSH.

LONDON, June 20.—The prisoner Thomas Walsh was charged this morning at the Clerkenwell Police Court with feloniously receiving and fraudulently dealing with certain rifles, bayonets, and other firearms believed to be the property of her Majesty's Government. He was remanded for a week without bail.

AFFAIRS IN IRELAND.

LONDON, June 20.—Advices from Ireland state that instructions are being given to commanding officers in all the great military centres in the south and west, as well as in Dublin, regarding the course to be pursued in the event of a rising. In the present critical state of affairs, it is felt that the authorities are wise in preparing for any emergency. Numerous police and military patrols are on duty nightly in Limerick. Admission to the military barracks throughout Ireland is prohibited. All the usual precautions have been doubled against explosive being taken into military quarters.

WAR IN ZULU AGAIN.

DURBAN, June 20.—Civil war has commenced in Zululand. A large army under Danbako, brother of Cetawayo, defeated Chief Sibhu Oham. It is expected that Danbako will attack John Dunn.

ANOTHER MURDER.

EERR, Ireland, June 20.—A farmer named Leory was shot dead near here.

CRIME IN IRELAND.

LONDON, June 20.—The *Times* says that the Lord Lieutenant of Ireland and his seb, after careful consideration, are convinced that crime in Ireland is not sporadic, but its machinery is deliberatr, and set in motion through organized agencies commanding large resources and obeying impulses of foreign origin.

AMERICAN.

A COLLISION.

ST. JOHNS, N. F., June 20.—The Nova Scotian fishing schooner Massachusetts on Friday night collided with the ice from high off cape Ballard and sunk. Five men are missing and it is believed are drowned. The rest escaped with difficulty in a boat.

HARVESTER WORKS BURNED.

BROCKPORT, N. Y., June 20.—The Johnston Harvester Works are burned; loss estimated at $500,000. Insured for $200,000 in thirty-five companies. Four hundred and fifty men will be thrown out of employment. Edward Heath is supposed to have perished in the fire. The fire is thought to be incendiary. The company was doing an immense business, having the largest sale of machines in Europe.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

DISMISSED THE SERVICE.

WASHINGTON, June 21.—The Dismissal of Lieut. Slipper, from the Army, takes effect on June 30th.

HEAVY VERDICT.

NEW YORK, June 21.—The court of appeals, has affirmed the verdict of a hundred thousand dollars, to Major Harold, against the New York Elevated Railway, for injuries received during a collision. The verdict is the heaviest, but one ever rendered in this state, for such a cause.

A DENIAL.

SAN FRANSISCO, June 21.—The Pilot of the lost steamer Escambia, denies that he said the vessel was loaded unskilfully, or that she was unseaworthy.

THE FARMER'S FOE.

LANCASTER, Ohio, June 21.—The Army worm, is making extensive havoc in the barley fields, in the northern and eastern portions of the country.

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

THE MAJORITY.

It will be seen that the Ontario majority as far as present returns go, is 16 with 6 constituencies to hear from.

Want of time and space compells us to defer the nominal list of the other provinces till to-morrow. The Quebec returns at present show, Conservatives 51, Liberals 9, or a majority of 42 with 6 constituencies not reported. In Nova Scotia the vote stands, Conservatives 14, Reform 7, a majority of 7, or two to one. In New Brunswick there is apparently a tie, 8 to 8.

This makes the total majority 65 with the three Provinces of Prince Edward Island, Manitoba and British Columbia, 6 constituencies in Ontario and 6 in Quebec, still to hear from, and these are certain to increase the majority considerable.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

NEVER BE WITHOUT IT.—Tourists and all who are subjected to a change of climate, water, diet &c., should never be without Dr. Fowler's Extract of Wild Strawberry, the infallible remedy for all Sumner complaints.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

Daily Evening Review

WEDNESDAY, JUNE 21, 1882.

THE RESULT.

AT the time of writing these words the returns of the elections are far from complete, so that it would be of little use to begin counting heads; but there is no room for doubt that Sir John Macdonald and his colleagues have been sustained by the unmistakeable voice of the whole country. The returns from two-thirds of the constituencies showed a majority of more than two to one, or already an absolute majority of the whole House with a third of the constituencies yet to be heard from. Thus the former majority may be increased, it cannot be materially diminished, and there must at the very least be a satisfactory working majority. The prediction upon which we ventured the evening before the poll, that the Government would be in a majority in every province in the Dominion is now almost certain to be fulfilled.

Another satisfactory view of the result, as far as yet known, is that all the great centres of intelligence in the country, the cities and such towns as Peterborough, have almost without exception pronounced in favour of the Government.

The whole result shows that the country is satisfied with the able conduct of affairs by the present administration, and more especially has the verdict been given as to our fiscal policy. Canada has pronounced in no uncertain tones in favour of the National Policy with its protection for native industries, and this after a fair trial of the system. This will satisfy capitalists that the verdict of 1878 was not the result of a mere fickle whim, nor the desperate step of a people suffering from depression and ready to catch at any proposed remedy, but that it is the great policy deliberately adopted by the country. This should secure the increased prosperity of the country for the next five years, and after that they are not likely to feel any inclination to go back to our old system.

There has not been such an important event in the history of Canada since confederation, and the whole country may well congratulate itself upon the result.

THE LATE MR. JOHN GORDON.

An Old Peterborough Resident and Parliamentary Candidate.

The deceased gentleman was born in the parish of Satheron, Caithness, Scotland, in the year 1828, and was, at the time of his death, in his fifty-third year. He came to Canada alone when about thirteen years of age, and spent a year in Montreal under the care of his uncle, the late Mr. Joseph Mackay. His parents then emigrated to this country, and settled at Grenville, where his father carried on business for a short time, but afterwards removed to Peterborough. There his father died, and when scarcely eighteen years of age, he was left in sole charge of the business. Thinking that Peterborough afforded too small a field for his energetic nature, he removed his business and family to Hamilton. There, in company with his uncle, a present partner, Mr. Donald Mc. Kay, he carried on a retail business which he very soon abandoned for a wholesale establishment. He continued in business in Hamilton till 1859, when the wholesale house of Gordon, McKay & Co., then, as now, one of the largest mercantile concerns in Canada, was transferred to Toronto. The enterprising disposition of the deceased led him to start the Lybster cotton mills at Thorold, the first institution of the kind in Ontario. Great obstacles had to be surmounted in this new undertaking, and during the time of the American war, when cotton could not be obtained, or was got with difficulty it proved a weight under which ordinary men would have succumbed. He lived, however, to see the Lybster brand recognized throughout Canada as a guarantee of honest workmanship, and the mill itself a great commercial success. The deceased gentleman was, for two years, president of the Ontario Rifle Association. He was also one of the directors of the British America Assurance Company, and for a time of the Imperial Building Society. But he is best known to the public as for twelve years the president of the Torouto, Grey & Bruce Railway, a position which was pressed on him, and which he accepted with great reluctance. To the maintenance of this road he devoted himself with a vigour and determination known to all railway men. Many years ago this road would have stopped running and the iron been taken off the track had it not been for Mr. Gordon. Again and again would the workmen have gone without their pay had not he interposed his personal credit to raise funds to meet their wages. Year after year he was voted large amounts for his services, but these grants he never drew, while having full control of the finances of the company. Mr. Gordon did not take any very decided part in politics, although he contested Peterborough in the Liberal interest some years ago. He was defeated by about 15 of a majority by the Government candidate. During the time of this contest he made many friendships, which he retained till the last. For about three years he had been in poor health, induced by the severe strain he underwent in the managment of the railway and his many large undertakings. During this time he visited with his sister, Miss Gordon, who accompanied him, Colorado, Southern California, the Sandwich Islands, Australia and Egypt. He spent his last winter in Mentone and the Rivera. He was believed to be convalescing, when suddenly, on the 29th of May, last, at Paris, on his way to Britain, he died when sitting in his chair The deceased was characterized by great business capacity, indomitable energy, and unswerving rectitude. He inspired all who enjoyed his confidence with strong personal regard and attachement. He was generous to a fault, incapable of meanness, and while bold and possessing great force of character was tender-hearted as a woman. He was connected with Knox Church, in this city, and was strongly attached to the Presbyterian Church, and one of his last acts before leaving Canada for Mentone, was to send a cheque for $500 to the Home Mission of that church. Strongly attached to his home and family, he was a devoted and loving son and an affectionate brother, whose loss can never be replaced. To this city his removal is a great loss, for there are few among us to take the place of this public-spirited citizen, upright merchant and large-hearted man.

The funeral took place on Monday afternoon from the residence of Mr Hugh Macdonald, brother-in-law of deceased. A large number of citizens in carriages were present and attended the remains to the Necropolis. The Rev. Dr. King, of St. James' Square Church, officiated in the absence of the Rev. Mr. Parsons. The pall-bearers were Messrs. James Michie, Wm. Ramsay, Wm. Thomson, A. T. Fulton, E. Wragge, W. Sutherland Taylor, Charles Robb and P. G. Routh, of Gordon, McKay & Co.—*Toronto Telegram.*

THE ARCTIC EXPLORERS.

Recovery of the Bodies of the Dead and their Interment.

LONDON, June 19.—Mr. W. H. Gilder, the *Herald* correspondent with the Rodgers, sends the following despatch dated Lena Delta, April 12, 1882:—Melville found the bodies of Delong's party on March 23. They were in two places 500 and 1,000 yards from the wreck of the scow. Melville's search party first started from the supply depot to follow Ninderman's route from Usturday to Malvey, and afterwards from Malvey back towards Usturday. They stopped at the place which Ninderman and Noros passed the first day after they left Delong. Feeling sure that the others had not got much further, there they found the wreck, and following along the track they came upon a rifle barrel hung upon four sticks. "They set the natives digging on each side of the sticks, and they soon came upon two bodies under eight feet of snow. While these men were digging towards the east, Melville went on along the bank, twenty feet above the river, to find a place to take bearings. He then saw a camp-kettle and the remains of a fire about a thousand yards from the tent, and approaching, nearly stumbled upon Delong's hand sticking out of the snow about thirty feet from the edge of the bank. Here, under about a foot of snow, they found the bodies of Delong and Ambier about three feet apart, and Ah Sam lying at their feet, all partially covered by pieces of tent and a few pieces of blanket. All the others, except Alexia, they found at the same place where the tent was pitched. Lee and Knack were close by in a cleft of the bank towards the west. Two boxes of records, with the medicine chest and a flag on a staff, were beside the tent. None of the dead had boots. Their feet were covered with rags tied on. In the pockets of all were pieces of burnt skin and the clothing which they had been eating. The hands of all were more or less burned, and it looked as if when dying they had crawled into the fire. Boyd was lying over the fire, and his clothing was burnt through to the skin, which was not burned. Colling's face was covered with a cloth. All the bodies were carried to the top of a hill, three hundred feet high, about forty versts to the south-west from where they were found, and there interred in a mausoleum constructed of wood from the scow, built in the from of pyramid, twenty-two feet long and seven high, surmounted by a cross twenty-two feet high and a foot square, hewn out of driftwood, and conspicuous at a distance of twenty versts. The mausoleum was covered with stones and will be sodded in the spring. The cross is inscribed with the record and names of the dead, cut in by the search party. After completing the tomb the party separated to search the Delta for traces of Chipp's people. Melville went to the north-west part of the Delta and west as far as the Olenek river. Ninderman took the centre and Bartlett the north-west. Ninderman and Bartlett found nothing. Melville has not yet returned. The search is to be extended to Cape Borchaya and the bay of that name. They expect to finish in time to reach Yakutsk or Verhojansk before the rivers break up. If they do not finish before that time they will have to retreat to the foot of the hills and mountains with the natives until the water falls, as the whole of the delta is covered with water in spring to a height of four feet, and in some places to twenty feet, above the level of the river. Otherwise they would have buried the dead where they found them."

FOREST FIRES.

The *Northwestern Lumberman*, of June 17th, says:—"Wisconsin has been visited, during the past few days, with forest fires which have destroyed large tracts of timber, and caused a large amount of damage and loss. One of the fires has swept the southwest part of Clark county, and another ravaged property through the central section of Marinette county. Reports of the ruin wrought have been coming in for several days, and in the early stages of the calamity it was feared that many towns would be incompassed by the flames. The efforts of hundreds of men in Clark county in fighting the fire were of little avail, and it swept onward, destroying millions of feet of timber. In that county, Renwick, Shaw & Crossett, of Davenport, Iowa; Cable, Gile & Holway, of La Crosse; Coburn of Maine, and Washburn, of Esta, are among the many losers on standing pine. A despatch from Neillsville, June, 12, announced spread of the fire, and the burning of the entire logging camp of F. D. Lindsay, of that place, the timber and logs being destroyed, and at that time the village of Hewettsville, with Hewett's mill and yards, were threatened with destruction. The loss on camp and log fixtures at Lindsay's was $1,000; but the full loss is not stated. One man barely escaped with his life by mounting a draught-horse and fleeing before the flames. The fire sped rapidly onward, bidding fair to sweep everything clear to the Eau Claire river. Paulus' camp was only saved by heroic efforts, though one man was severely burned, as well as several head of cattle. The last reports from this section was decidedly cheering, a heavy rain having extinguished the fires in the main, and averted further danger. The number of million feet of pine burned cannot yet be ascertained. The Martinette county fires, about the Pike river region, have done much damage, and at last advices were still raging, only partial estimates of the loss being possible. It has been ascertained that at least 30,000,000 feet of standing pine has been ruined, and when the whole loss is known it must reach into the hundreds of thousands. The fire reaches into the peninsula of Michigan. A late despatch also modifies the statements of damage in Clark county, stating that it was much lighter than the frenzied fears of the people had made it appear. The most of the fire is located about Wedges creek, and a portion of the east fork, and largely in a section previously cut over. Lindsay's was the only camp burned.

OUR Assistant Postmaster, John Bliss, Esq., used the Great German Remedy for lameness, rheumatism and pains of every description, says the Lawrence (Kan.) *Journal*. He claims that St. Jacobs Oil is the best thing that was ever applied to man or beast.

PORT HOPE.

DROWNING ACCIDENT.—The *Guide* says that on Sunday evening about 9·30 o'clock, as some persons (among whom were a number of children) were returning from a boat ride on the lake, and when in the old harbor they allowed their boat to run into the dredge which was lying in the corner, the shock threw Mr. J. J. Turner's eldest daughter, a child about 7 years of age, into the water. In spite of every effort being made, it was about half an hour before the body was recovered. Mr. Turner has the sympathy of the community in his bereavement.

About Watering Plants.

Unless one has an abundant supply of water, so that its use, when once begun, can be continued, it is better, as a general thing, to not water at all. In the drouth which we so generally have this month, a mere sprinkling of the leaves is worse than no watering at all. Still, we may all have in the vegetable as well as in the flower garden certain plants that we would like to favor. In such cases, instead of watering the plant, the water should be applied to the soil; draw the earth away from the plants, forming a sort of basin around them; then pour on water gradually, and let it soak in around the roots. Afterwards return the removed dry earth to its place, and this will act as a mulch to keep the roots moist.—*American Agriculturist for July*

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

THERE IS NO MORE wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

THE original "Little Liver Pills" are Dr. Pierce's Pleasant Purgative Pellets," and are extensively imitated. They cure sick and bilious headache. Private Government stamp with Dr. Pierce's signature and portrait mark the genuine. By druggists.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt." Read advertisement in another column.

THOUSANDS of women bless the day on which Dr. Pierce's "Favorite Prescription" was made known to them. In all those derangements causing backache, dragging-down sensations, nervous and general debility, it is a sovereign remedy. Its soothing and healing properties render it of the utmost value to ladies suffering from "internal fever," congestion, inflammation or ulceration. By druggists.

Burdock BLOOD BITTERS

NOT SO OLD.

The Ages of the Patriarchs—A New Theory for Calculation.

On a full examination of the question of patriarchial longevity, says a writer in *Popular Science*, the disparity of their ages to those of later times disappears. A very slight error in the translation of the Hebrew numbers had led to all this apparent disparity. The ages of the antediluvians was not to exceed 120 years. Genesis vi, 3: "And the Lord said, My spirit shall not always strive with man, for that he is also flesh, yet his days shall be a hundred and twenty years." This was the regular good old age of men, with special variations, both before and for some time after the days of Abraham.

In reading concrete numbers the Hebrews gave the large number first, thus: Ninety and seven for 97, forty and seven for 47. The reversal of this rule in the translation of Genesis, v. 3-5, as an illustration, will show the error in all similar cases. "Adam lived a hundred and thirty years, and begat a son," etc. This is correct, according to the rule. Seth was born when Adam was 130 years old, and was his last child. But if the rule were here revealed, as it is in the authorized version, in the fifth verse, it would read thus: Adam lived thirty hundred years, and begat a son! This shocked the consciousness of the Christian translator, and he was driven to the true rule of the Hebrew uses in case of concrete numerals.

In the fifth verse we have the force of the violated rule, thus, "And all the days that Adam lived were 930 years, and he died!" A. V. The true reading of the rule would be, "and all the days of Adam, which he lived were a hundred years, and thirty and nine years, and he died," making the entire age of Adam 139 years, instead of 930 years.

It will be seen, on examination, that concrete numeral adjectives in Hebrew, as in other languages, agree in number with their nouns. In the case cited in the A. V., the nine is made to agree with hundred in the singular, and not with years in the plural. The error is seen at a glance, for the difference between "nine years" and "nine hundred years" is too great to be overlooked in any careful translation of a sacred book. The translator here assumed that nine agreed with a hundred, when it had no such agreement; hundred in the text is itself a concrete numeral, and separately agrees with years meaning a hundred of years. At the date of this writing "nine hundred" or any number of hundreds above one, without repetition or circumlocution, there were none of the masoretic points in use. In the case of the age of Terah, the father of Abraham, the translators have made the attempt to make two hundred out of one hundred in the word mathim, used in the plural, as it might be to agree with years, thus making Terah 205 instead of 105 years old at his death; holding the theory that the word mae (or 100) would in the plural, mathim, make 200. This is contrary to all rule. The Hebrews could, by pluralizing a numeral less than ten, add tenfold to the unit, thus: hemosh 5; hemoshin 50. This rule, applied in the case of Terah, would make him ten times 105 years old or 1,050 years old.

In the case of Terar the historic record conclusively contradicts the translation, and hence demonstrates the rule of that pluralizing 100 does not, in the Hebrew tongue, make 200, while as to the numerals between 2 and 10, the rule might apply thus: Shelesh, 3; sheleshim, 30, and in like manner to 10. With these corrections, referring to the ages of the patriarchs before the Noachian deluge, the article of M. de Solaville would show a wonderful uniformity in the age of man since the dawn of history.

From Adam to the flood the ages would read as in the table below, subject to a few uncertainties in the numbers below 100, as the numerals are sometimes pluralized for the purposes of agreement when they were not increased ten-fold. The cases are not always certain; the table to the flood is substantially true. The table is added, giving the ages of each at the time of his death:—

1. Adam, 139 years and not 930 years.
2. Seth, 121 years and not 912 years.
3. Enos, 114 years and not 934 years.
4. Cain, 119 years and not 910 years.
5. Mahaleel, 122 years and not 895 years.
6. Jared, 117 years and not 962 years.
7. Enoch, 114 years and not 365 years.
8. Methuselah, 124 years and not 969 years.
9. Lamech, 117 years and not 777 years.
10. Noah, 159 years and not 950 years.

Average, 120 plus years.

Sleeping Accommodation.

Cleanliness is the great essential. Our life is passive during the hours of sleep, but our breathing goes on constantly, and the demand for pure air in sleeping rooms is very important. There should always be communication with the outside air, and in warm weather, the doors and windows may all be wide open. If currents of air can sweep through the rooms in the day time (or in the night without endangering the sleepers), so much the better. The bad air that originates in sleeping rooms—the waste substance that escapes from human bodies by the lungs and skin—settles and cling about the carpets, curtains, bedding and clothing, tainting them with decomposing, and it may be piosonous matter, unless a constant cleansing process is carried on by plentiful airing, and the action of light, especially sunshine. The room should contain as little drapery as possible. Rugs are better than carpets, and no heavy curtains should be used. The bed should not be made up after using, until the bedding has been well aired, and the more it can be exposed to bright sunshine, and outdoor breezes, the better. The room should be kept as free as possible from all odors. The night clothes should be well aired during the day, and all the day clothes be placed at night where it will get aired before it is again worn.

Sleeping rooms are often much crowded. It would be well, could each, when old enough, have a private room and a clean bed apiece. A great gain in health would result from this arrangement. In our present state of poverty, we can only insist that no more than two ought to occupy the same bed. It is an outrage on infancy to wedge a baby in between two grown up people. Much injury is done to the health and to the morals of children, by the crowded sleeping arrangements in families. The practice is now becoming quite common among careful people, where there are several young children, for the parents to divide the care of the little ones, the mother taking the youngest in her bed, and the father attending to the next to the youngest, and to others if there is need. It seems a pity that the man of the house should be broken of his rest, but it is quite as bad a thing to have the children's mother made sick and nervous from lack of sleep, and excess of care. With attention to the laws of health, especially in regard to food and air, there need be little suffering from broken rest, as healthy children sleep soundly and quietly, and need little care.

Houses Built for all Time.

The houses that are built now in Paris are not such as the coming generation will find "stuffy," "too small," "old-fashioned" and so on, criticisms which with us are commonly passed on the creation of the last twenty-five years; they are houses intended to last practically for all time. Built of solid stone and iron throughout, with foundations that resemble Roman work, on the traditions of which, by the way, they are built by the sturdy Southern workmen. Commercially, also, these investments prove successful, and household property, so far from being a drug in the maket, is at a premium. By the judicious division into "flats," not only is every inch of space utilized—the amount of rent for unoccupied room in England it would be curious to calculate—but all pockets are accommodated, from the prince who occupies the first floor above the thrifty *concierge* on the *rez-de-chausse*—whose charge it is to open the door at night and keep, not only his or her own neat *loge* bright and clean, but the *porte-cochere* and the yard, with its pretty green plants and bright brass water-cock—through the intermediate *etages* to the fifth or *cinquieme*, with its healthy balcony, where the large family of the modest lodger can enjoy the air and view as a compensation for the sensible distence from earth. But all own in common, from the prince to the fifth floor employee, bank clerk or civil servant, the *porte-cochere*; through which rolls from the compact stables and coach house in the yard at the back the carriages of the "first floor"—and for all alike the entrances are kept clean, the lamps bright, the oak stair case well waxed; each in his respective and well-proportioned degree making up the very comfortable rental which *Monsieur le proprietaire*, though his agent, the *concierge*, receive quarterly from his tenants.—*London Builder.*

Why Rest is Essential.

Nature, says the London *Telegraph*, while she specially built the human form to stand erect, has specially decreed that men and women should occasionally rest themselves by assuming a sedentary position. Almost every medical authority on the deformities of the human body has drawn attention to the fact that standing too long operates in a vicious direction, which, by elongating certain muscles weakens them; that from the necessity of changing position in order to rest the muscles it occurs that when people are standing they alternately balance themselves first on one leg and then on the other, but most frequently on the left; and that a girl with a weak spine, after standing upright for some time, generally does not keep her feet in the same line, but places one above the other. Curvature of the spine, albeit temporary, is the result. The habit of standing on one leg—a habit almost unavoidable in standing too long—induces the shoulders to lose their horizontal level. The one opposite to the projecting hip becomes higher than the other, and the spine becomes deformed laterally at this part. To deny seats to female shop assistants is downright cruelty.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents.

MR. R. W. CARMICHAEL, Chemist and Druggist of Belleville, under date of May 31st, 1882, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaint, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidney, skin etc., and strengthening while it regulates and purifies.

TWENTY YEARS A SUFFERER.—Dr. R. V. Pierce, M. D., Buffalo, N. Y., Dear Sir—Twenty years ago I was shipwrecked on the Atlantic Ocean, and the cold and exposure caused a large abscess to form on each leg, which kept continually discharging. After spending hundreds of dollars, with no benefit, I tried your "Golden Medical Discovery" and now, in less than three months after taking the first bottle, I am thankful to say I am completely cured, and for the first time in ten years can put my left heel to the ground. I am yours, William Ryder, 87 Jefferson St., Buffalo, N. Y.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the gennine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

ST. JACOBS OIL

TRADE MARK.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 29th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1wly

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Dept. of Railways and Canals, Ottawa, 22nd May, 1882. d127-2aw

MURRAY CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the MURRAY CANAL," will be received at this office until the arrival of the eastern and western mails on TUESDAY, THE TWENTY-SEVENTH DAY OF JUNE NEXT, for the formation of a Canal to connect the head waters of the Bay of Quinte with Presqu'ile Harbour, Lake Ontario.

A map of the locality, together with the plans and specifications of the works, can be seen at this office and at Brighton, on and after THURSDAY, THE EIGHTH DAY OF JUNE NEXT, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted bank cheque for the sum of $3,000 must accompany each tender, which sum shall be forfeited, if the party tendering declines to enter into contract for the execution of the works at the rates and prices submitted, subject to the conditions and on the terms stated in the specification.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Szarin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

WEDNESDAY, JUNE 21, 1882.

THE VICTORY IS OURS!

West Peterborough Stands by John A. and the N. P.

AND OUR SISTER RIDING IS THE SAME UP TO DATE.

THE TOWN GIVES A MAJORITY IN EVERY POLLING SUB-DIVISION.

The National Policy Sustained—The Trent Valley Canal now Safe—A Remarkably Quiet Election—After the Close of the Poll—Great Rejoicings—A Monster Meeting and Many Admirable Speeches.

WEST PETERBOROUGH.

The election in this Riding has had a most satisfactory termination, our tried and esteemed member having been sent back to Parliament to support the Administration of Sir John Macdonald, which has given so much satisfaction, both by its public policy and by its action in regard to our own more especial and local interests.

Mr. Hilliard has been returned by a very handsome majority, and if not quite so large as that in 1878 it must be remembered that the whole vote is smaller, partly on account of the number of our energetic and enterprising young men, most of them Conservatives, who have gone to assist in building up our great North West territory, and partly that the great personal popularity of the Opposition candidate caused many of his friends to abstain from the polls who would otherwise have voted for Mr. Hilliard.

It will be seen that the town has largely increased the already great majority in favour of the N. P. and that it has equalled the expectations of the Conservative committees in charge of the several wards, though our opponents assured us till the last moment that that they would secure a heavy majority in town.

In the county the result was not so favourable, probably in some measure for want of sufficient organization to bring out the vote, but it also seems as if the efforts made to pull the wool over their eyes by a false cry of heavy taxation had been more successful with the farmers than with the townspeople. As however our agricultural friends are really the greatest gainers by the National Policy, we have no doubt that a continuance of this prosperity will convert them also, if they have been rather slower to convince than the townspeople, especially the mechanics and workingmen.

On the polling day there was much hard work done, though with little fuss or display. Our old staff of workers aided by no less zealous and efficient recruits did their duty nobly, especially in town; hardly a vote that could be reached was left unpolled. But with all the energy there was the utmost good good nature, and the contest was fought as it had been from the beginning by the Conservatives, on public principles, not the private and personal standing of the candidates. It was a fair square fight and a victory on the merits of the rival policies.

The following is the result of the poll:—

Polling Places.	*Hilliard*	*Lundy*	*Hilliard's Majority*	*Lundy's Majority*

Hilliard's majority all over 197!

AFTER THE CLOSE OF THE POLL.

Even before the town clock had chimed the hour of five, the hour that sealed the destiny of so many political aspirants, in this as well as many other constituencies, the crowd commenced to gather around the REVIEW office, in order to hear reliable returns from this Riding, and by 5:15 the street and sidewalk was packed. The first news received was that from Mr. T. Fitzgerald's shop, where Mr. Hilliard obtained 25 majority, against 17 at the last election. The first shot was a good one, and augured well for success, and as soon as the bulletin chronicled the figures, loud cheers rent the air, and every few minutes, as return after return came pouring in, all adding to the majority, the excitement became intensified, and when it became known that the Town of Peterborough had given Mr. Hilliard 237 of a majority, the people were at fever heat, and the election was won. The returns from the country came in slowly and it was not until 7:30 that all the polling places were heard from, and it was definitely known that Mr. George Hilliard, the N. P. and the Trent Valley Canal had carried the day by a grand total majority of 157.

AT THE OPERA HOUSE,

Dense crowds thronged the streets, and some person suggested that a meeting be organized at the Opera House. No sooner said than done. The doors were thrown open, and in a marvellously short space of time, the spacious building was packed from pit to dome, with one of the most orderly and good-natured audiences ever assembled therein. The stage was very appropriately decorated with a large coat of arms and Chinese lanterns, and the band of the Fire Brigade occupied the stage at the rear, and during the evening greatly enlivened the proceedings by playing some excellent selections that met with great favor.

On motion MR. JOHN CARNEGIE assumed the chair, and in doing so he delivered a short congratulatory address, and informed the audience that he would read, from time to time, as received, the despatches from the other constituencies, giving the results of the polling.

MR. GEO. HILLIARD, the victorious candidate was next called on, and upon taking his place on the platform, he was received with tremendous applause, again and again repeated, so that for fully five minutes, he could not be heard. He said that he felt tired after the work of the campaign, and would only congratulate the Conservatives on the noble victory they had achieved and concluded by thanking all who had voted and worked to secure his election.

MR. JOHN BURNHAM who was also received with loud applause, delivered a short address, giving the satisfactory intelligence that he considered the East Riding safe.

MR. H. COLLINS, Warden of the county, was next, and delivered a good address.

DR. KINCAID M. P. P. upon being repeatedly called for, said that he congratulated the Conservative party upon their victory, and he would embrace the present opportunity of stating that he did not intend again to offer himself as a candidate for the Local House, but intended to practice his profession. While a strong supporter of the Conservative party and a warm admirer of the National Policy, on account of his great personal regard for Mr. Lundy, he had not taken any active part in the present campaign. He concluded by again congratulating Mr. Hilliard, and sat down amidst cheers,

MR. J. O'MEARA delivered a stirring address pointing out the great benefits of the National Policy, and also showing up the inconsistencies of the so called Reformers. His speech was one of the best of the evening and received well merited applause.

Owing to want of space we regret that we are unable to give some of the other speeches, but we will have to content ourselves by giving the names of the following gentleman who occupied seats on the platform and the great majority of whom, after doing yeoman service, made short speeches, Messrs. J. Kendrey, T. Cavanagh, C. W. Sawers, T. Raphael, Quinn, Willan T. Kelly, E. Phelan, Toker, Dr. Boucher, A. Campbell, T. Rutherford, John Corkery, H. T. Strickland, John Griffin, J. Barbeau, T. Le. plant, J. Barnard, A. Williams, W. H. Robertson, H. LeBrun, McIllmoyl, Stapleton, Stevenson, Poussette, Morrow, Calcutt, Langford, J. Dinwoodie, W. H. Trout, D. Costello, Dr. Hourigan, Wrighton, Sanders, Lemay, Smith, and W. H. Moore. Between the speeches the despatches were read, and as the result of the great victory became known, cheer followed cheer and the audience were loath to leave the room until a very late hour, and even then many were not satisfied but thronged the telegraph offices until an early hour this morning.

EAST PETERBOROUGH.—

The East Riding is so extensive, in spite of the improvement made by attacking a portion of it to North Victoria, that the full returns are not yet in, but we hope to have them complete to-morrow. Enough is known to render it certain that Mr. Burnham is sent back to parliament with a large majority, in spite of all the adverse influences with which he had to contend. The following are the returns already received:

Polling Places.	*Burnham*	*Roxburgh*
Ashburnham—1, Council Chamber	74	24
" 2, Town Hall	66	32
Asphodel—1, School House, Sec. 1	50	60
" 2, Heffernan's House	69	42
" 3, Paterson's House	47	58
Belmont, &c.—1, Havelock	15	43
" 2, School House, Sec. 7	29	21
" 3, Blairton	60	12
Cavendish—John Cochrane's house	..	..
Douro—1, John McCormic's house	27	21
" 2, David Condon's house	62	25
" 3, Town Hall	77	20
" 4, School House, Sec. 3	52	19
Dummer—1, School House, Sec. 2	32	41
" 2, Old Town Hall	30	31
" 3, Warsaw,	maj.	70
" 4, John Elliott's house	..	..
Dysart, &c.—1, Haliburton	maj.	19
" 2, Harcourt	..	..
" 3, Harburn	..	..
Cardiff—Cheddar School House	..	..
Glamorgan—Gooderham School House	..	..

" 3, Wm. Wilson's house	..	..
" 4, Caldwell's School House	maj.	30

The Vote.

At the last general election the total number of votes cast was:—

Hilliard	1071
Bertram	874
Majority for Hilliard	197

This year's vote stood as follows:—

Hilliard	1034
Lundy	877
Majority for Hilliard	157

It will thus be seen that 34 more votes were cast in 1878 than in 1882, Mr. Hilliard losing 37 and Mr. Lundy gaining 3.

By wards Mr. Hilliard's majorities were as follows:—

	1882	*1878*
Ward one	36	92
Ward two	73	84
Ward three	51	45
Ward four	27	2
Total	237	203
	203	
Gain in 1882	34	

County Council.

The County Council meet this afternoon at the Court House, for their usual June session

Attractive Programme.

The programmes for the Tournament to be held Thursday evening June 22nd, are now ready, and judging from the number of entries as well as the reputation of the men, there will no doubt be some of the finest races ever run in town, or likely to be for some time again, therefore no one should fail to see the champions.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Daily Evening Review

THURSDAY, JUNE 22, 1882.

THE *Examiner* is angry, and therefore, after its nature, flings abuse on all sides. Well, such a crushing defeat after all its previous boasting must have been very galling to our contemporary, and if an outbreak of vituperation relieves its irritated feelings, we feel disposed to forgive it this time in consideration of the circumstance.

AN examination of the figures reveals that Mr. Hilliard polled exactly the same vote in town in 1878 and 1882, showing that he has lost no votes, but that the reduction made on an old roll by the departure of many of his supporters for the great North-West has been compensated by fresh converts. The Reformers on the contrary could not hold their own in town. The four West Riding Townships turned out the same number of voters at both elections.

CANADIAN CANOEISTS.

"Tom" Wallis, of Gore's Landing shows an American how Canucks Paddle.

Some days ago, we announced that Mr. Richard Purser, of Lakefield, had matched Mr. Thos. Wallis, of Gore's Landing, the well known canoeist, against Mr. T. McGuire, of Rochester, to paddle a canoe race on American waters, for a purse of $100 a side. The race took place at Irondequoit Bay, four miles east of Rocheter, on Thursday last, and resulted in an easy victory for the Canadian.

On the preceding day, Messrs. Purser and Wallis crossed to Uncle Sam's domains, and were met at Charlotte by Messrs. E. H. Nash, of the Pittsburg Railway, S. S. Brewer, Steam boat Proprietor, of Rochester, and G. Pringle, of the same place. They were received with open arms, and escorted to the Bay, where there is a magnificent summer hotel, much frequented by tourists from all parts of America, and installed in the best rooms in the house.

On the day of the race, fully four thousand persons were present, and the excitement was intense, as McGuire had gained considerable notoriety for the deft manner in which he handled the paddle, and his admirers felt confident that like Hanlan, he would show the other fellow the way, from start to finish.

There was little to choose between the two men when they took their positions, awaiting the signal, which was to be given from one of the steamers. McGuire's canoe, if such it can be called, was built like a shell, 21 feet long and 16 inches wide, while Wallis used an ordinary Peterborough canoe, 17 feet long and 21 inches wide. The American used the double bladed paddle, but Wallis knew a thing or two better, and stuck to the single bladed article, with which he has often paddled to victory.

At the report of the gun, both men took the water simultaneously, prepared to make fast time over the course, which was one mile straightaway. The water at the starting point was a little rough, but before going far smooth water was encountered. After fifty yards had been covered, Wallis forged ahead, and from thence forth he had the race in hand, actually stopping several times to take a drink of water, and finally won by over 150 yards. McGuire only used his double bladed paddle for a very short distance, and then threw it away, displacing his discarded weapon with a single bladed weapon. The crowd was very enthusiastic and rather favored the Canadian, as may be judged by the remark of a prominent American gentleman, on one of the steamers, who exclaimed, as he saw the Canadian leading, "Good, Canadian colors to the front."

Both men were perfectly satisfied with everything, but McGuire thinks he was not in good condition, and another race is to take place at the same spot in about three weeks, for the same amount of money.

The Canadians who were over, were used like Princes, and are loud in their praises of the many courtesies extended to them by Messrs. Nash, Brewer, Pringle and others. Considerable money changed hands, and as we notice that "Dick" is rather flush of greenbacks, we have a suspicion that he was not on the losing side.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

MIDNIGHT TELEGRAMS

CABLE.

COMMITTED SUICIDE.

ALEXANDRIA, June 21.—The old French Secretary of the Consul has committed suicide.

ARRIVED.

QUEENSTOWN, June 21.—The Hilladale rowing crew arrived in excellent health.

UNITED STATES AND CHINA.

SHANGHAI, June 21.—Serious discussion is reported at Yaman upon the course to be pursued respecting the American Anti-Chinese agitation. One party said he welcomed it as affording an opportunity of severing all relations with the United States. The majority of the people await further developments. All agree that the Chinese rights have been ruthlessly disregarded, and the American Government has opened itself to retaliatory action. The question was raised at Lintzsing whether Chinese assistance in Cochran negotiations should not be summarily withdrawn, as it is believed Count Schuffeldt could not proceed conveniently without Chinese co-operation. There is much indignation over the publication of a letter, attributed to Schuffeldt, accusing the Empress of immorality.

FOR THE CONFERENCE.

LONDON, June 21.—The Cabinet to-day settled upon instructions for the guidance of Lord Dufferin at the Conference. They will be despatched to him to-night. It is believed that Lord Dufferin has been instructed to confine his action at the Conference to effecting such settlement as will provide for the maintenance of the rights of the Khedive, the preservation of the liberties of the Egyptians, and the observance of Egypt's international engagements.

THE MINISTRY'S PROGRAMME.

ALEXANDRIA, June 21.—Arabi Pasha has returned to Cairo. The programme of the new Ministry includes the maintenance of the *status quo* and the fulfilment of international obligations.

FINANCIAL DEPRESSION.

LONDON, June 21.—A despatch from Alexandria says:—Owing to a considerable falling off of customs revenue, and railway and telegraph receipts, and the suspension of the land revenue, combined with the increased military expenditure of the State, both of the budget of the revenue specially assigned to the service of the debt, and the budget of the general revenue not so assigned, is causing great anxiety in circles connected with European control.

THE NEW MINISTRY.

LONDON, June 21.—The *Times'* correspondent at Alexandria, discussing the history of the members of the new Ministry, says:—Ragheb Pacha was Minister of Finance under Ismail; Ruchdi Pacha, who is now Minister of Finance, is a son of a renegade Maltese; Ahmad Raschid was formerly sub-Minister of the Interior. Hassan Pasha Cherie has been nominated for Minister of Works.

AMERICAN.

ANOTHER TRIAL.

WASHINGTON, June 21.—An earnest effort is being made to secure a reprieve for Guiteau, and the appointment of a commission to make a thorough examination to find out whether or not he is insane. The President on Thursday will give a hearing to the Secretary of the National Society for the protection of the insane. He requested Bird of New York and others to be present. A strong appeal will doubtless be made to induce the President to postpone the execution.

RARE COINS.

NEW YORK, June 21.—At the sale of the Bushnell collections of coins and metals, yesterday, the celebrated good Samaritan shilling of Massachuetts, dated 1652, and believed to be the only one ever struck off, brought six hundred and fifty dollars. The Lord Baltimore penny of Maryland, dated 1658, brought five hundred and fifty dollars. Of the only three silver Virginia shillings of 1774, known, one brought one hundred and five dollars; one of them sold for $190, in 1865.

ON STRIKE.

CHICAGO, June 21.—The brick makers on the south side, who struck recently and exacted an advance of 16½ cents per day, demanded another advance of 12½ cents. It is thought that the employers will yield. 300 men are concerned.

DAVITT AT ALBANY.

ALBANY, June 21.—Davitt spoke at the Music Hall to-night to an enthusastic audience of 700 people under the auspices of the Irish organization. He was flatteringly received, apologized for the brevity of his speech, and was evidently suffering from overwork and long journeys. His speech was substantially that heretofore given. A considerable amount for the Irish cause was subscribed. Davitt speaks at Jersey City to-morrow night and in Buffalo early next week.

DROVER RELIEVED.

DETROIT, June 21.—A heavy robbery occured at the Michigan Central Depot about four o'clock yesterday morning, a drover named Donald McCaskill being relieved of $1,180. He had just came from Gladstone, Manitoba, and was on his way to St. Thomas. In Chicago he met two men who gave their names as Jas. Allen and Jno. Boquet. They claimed also to be cattle dealers, and said they were on their way to Canada. They took the same eastbound train, remaining with McCaskill throughout the journey. When the train arrived here McCaskill took out his pocket-book to accomodate them with a small favour, and while he had it in his hand, Allen snatched it and ran away. The other man followed suit, and was soon lost sight of. The Canadian reported his loss to the police, but although search was made no trace of the robbers could be found.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE ARCTIC REGIONS.

LONDON, June 22.—The steamer Hope sails to-day, to assist in the search for Leigh Smith's Arctic expedition. The Hope first goes to Hammerfest, and takes five officers, and thirty-two men. She takes two years provisions also. The commander has been instructed to avoid entering the ice, in order to not imperil the lives of the crew. The yacht Yava Kava, which has been searching for Leigh Smith's expedition, has reached Tromsoe, Norway.

ENGLAND'S POLICY.

LONDON, June 22.—The English Government refuse to recognize the Egyptian Ministry.

THE KHEDIVE'S LIFE.

ALEXANDRIA, June 22.—It is generally believed that if the Khedive goes to Cairo, he will not return alive.

WAR IN AFRICA.

SIERRE LEONE, Africa, June 22.—The natives of Martino plundered a boat belonging to Bimthe Island, where the British government offices are stationed, and fired on the police, who went to arrest them. The Governor of Sierre Leone proceeded to Martino. A force of blue jackets kiled two hundred of the inhabitants.

AFFAIRS IN EGYPT.

ALEXANDRIA, June 22.—The Egytian Ministry was yesterday informed that the British Government refused to recognize them, and was determined to carry out the terms of the ultimatum, and in addition demand reparation for all that has taken place lately. Yesterday Doud Pasha, father of the commandant of the troops at Alexandria, appeared before the Khedive. It was reported that two boats, containing fugitives had upset, and the occupants drowned. Doud thanked God for the disaster. The Khedive was shocked, and remonstrated, saying that Christians had souls. Doud cursed all Christians, saying he hoped all would have the same fate. Turning to leave, he attempted to kiss the Khedive's hand, but the latter refused. The Commision of Enquiry is not going on as rapidly as hitherto, and is not giving signs of a desire to punish the rioters. That Arabi will have virtual control of the new Ministry, is no secret. Now that the agents of Germany, Austria and Italy do not agree with the English and French agents, it seems likely that they will support Arabi. The greatest anxiety is felt lest the Khedive be deposed, leaving Arabi master of the situation.

ON PRIVATE BUSINESS.

LONDON, June 22.—Drs. Watson and Harvey left for Cario yesterday to attend to private affairs.

AMERICAN.

A FLIER.

EAST SAGINAW, Mich., June 22.—Buffalo Girl, won the free-for-all race yesterday. The last heat was run in two fifteen and a quarter.

GUITEAU AGAIN.

NEW YORK, June 22.—Dr. Geo. Beard went to Washington last evening, bearing a petition for the reprieve of Guiteau, and for the creation of a special commission to determine the assassin's insanity. The petition received the signatures of many medical experts of the Board. Medical and new evidence as to the insanity of Guiteau, will be presented at the interview of the petitioners with the President to-day.

HEAVILY INSURED.

SAN FRANSISCO, June 22.—The lost steamer Essambia was insured for $25,000.

PRIZE FIGHT.

BROOKLYN, June 22.—It is reported that Leonard Tracey and Alexander Brown had a prize fight, last night, in a hotel in Queen's county. The men fought one hour and a half. Tracey won. Both are under bonds not to fight in the United States.

FOR GOVERNOR.

WASHINGTON, June 22.—The Convention has nominated General W. Bate for Governor.

News from Alaska.

PORT TOWNSEND, W. T. June 21.—The United States revenue cutter Corwin reached St. Lawrence Bay, Behring's Straits, on May 14th, and found the crew of the burned steamer Rodgers aboard the whaler North Star. The crew were transferred to the Corwin, taken to Sitka, and then brought here. There were some cases of scurvy among them, but all are doing well. Lieutenant Berry is not with the crew, having left St. Lawrance Bay on Dec. 23rd with Ensign Hunt to sleigh the Siberian coast in search of the Jeannette. On May 13th Master Warring received a letter through the natives from Lieutenant Berry, dated Keoyma River, April 4th, stating that he heard of the loss of the Jeannette and the landing of her boat, and should search for her survivors. The letter directed Warring and the crew to make the best of their way to San Francisco Point, where the letter was dated, half way between St. Lawrence and the Lena River. Alaska advices state that the citizens are protesting bitterly against the tardiness of Congress in providing civil government. While the Marine guard at Sitka were arresting drunken Indians one of the latter attacked a corporal, who shot and wounded him. Great excitement prevails among the Indians, and a disturbance is threatened. The howitzers at the guard-house were got ready. The guard were under arms all night, and the citizens assembled at the House, where the Government armoury is. The wounded Indian did not die, and the excitement abated. The arrival of the cutter Corwin awed the malcontents. Black measles and scarlet fever are raging fearfully amongst the children of the Russian half-breeds. On the 4th of February Master C. F. Putnam, commanding the supply depot at Cape Serdze Kamen, arrived at the village where the crew took refuge, with four sledges loaded with pemmican and other provisions, having heard of the loss of the ship through the natives. He started to return in bad weather, was overtaken by a gale and obliged to turn back. In the endeavor to reach the village on the south side of St. Lawrence Bay he became separated from the native escort, and was carried out to sea on ice floes. Later in the day he was seen seven miles off shore. A vigorous attempt was made to rescue him by four of the Rodger's crew and two natives in a canoe, but owing to intervening ice they were unable to reach him. This was the last ever seen of Putnam.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Daily Evening Review

THURSDAY, JUNE 22, 1882.

INTERESTING PARTICULARS.

AN inspection even of the incomplete returns shows that the victory of the Conservative Government and the National Policy is not only overwhelming, as to numbers, but is very satisfactory in its particulars, as evincing the weight of public opinion.

Not a single Cabinet Minister has suffered defeat, a rare occurrence, and those who principally incurred the censure of the Opposition has been most triumphant. The veteran Conservative leader and foremost statesman of the Dominion, is not only returned by a largely increased majority for Lennox, but has also been chosen as their representative by a second Ontario constituency. Sir Leonard Tilley, who was told that his National Policy had disgusted the whole country, but especially New Brunswick, has been sent back to Parliament from its chief city with a larger majority, and at least half the representatives of his province at his back, instead of the small number in the last Parliament. So with Sir Charles Tupper, after the systematic attempt to crush him by vituperation and slander, he was elected by acclamation, none daring to face him, and his province also sends him efficient supporters.

Thus the country has pronounced in favour of the Government, and most especially so in the case of those officially responsible for our fiscal and our railway policy. But with the Opposition how different is the result! The past and present leaders have been elected, but both Mr. Mackenzie and Mr. Blake have been returned by majorities greatly reduced from the old figures. Sir R. Cartwright, the most bitter opponent of our home industries and of the Government that fostered them, has been rejected by a disgusted people. Sir A. Smith, who in his own province has been almost as virulent, has been defeated by one of his old supporters. Mr. Laflamme, the ballot box stuffing Minister of Justice, has not been successful in repeating the trick. Mr. Jones, of unsavouring reputation, is left at home. Mr. Huntington, the leader of the clerk-bribing and letter-stealing conspirators, can devote himself to his mines. Mr. D. A. Macdonald, the partisan Lieutenant Governor of picnicking notoriety has been replaced by a better man. Ex-Speaker Anglin who sat in the chair, ballasted with douceurs from the public treasury, cannot even occupy a side seat. Ex-Speaker Turcotte, who voted himself into the chair as a Conservative, and then for a session maintained by his casting vote a usurping Liberal government, is sent back to private life. In short the country has pronounced in favour of an able and honest administration, and against in opponents.

A glimpse at localities also is interesting. Look at our leading cities! Montreal, Halifax, St. John, Quebec, Toronto, Hamilton, Ottawa and London, all sending strong supporters of a government which encourages Canadian manufacturers. One division of Quebec and Kingston are the only dissenters.

Peterborough, town and county, may be proud of having recorded its decision in such company.

IT appears that there was no harm in the *Globe's* Special Commissioner circulating a slander against Canadian factory girls, with his own qualifying hope that things might not be quite so bad, nor in the *Globe's* editorial comments that the N. P. would spread the evil in this country, but that it was a heinous offence for the *Mail* to quote the foul accusation, for the manager and overseers of the Auburn Mills to denounce it, and for the REVIEW to publish their letter. Queer logic!

DUMMER.

From Our Own Correspondent.

COURT OF REVISION.—Court met at Warsaw, May 26th. All the members present, who took the necessary oaths and organized.

On appeals the following changes were made in the Roll:

Alexander Rose, Real Property Reduced		$100
Alexander E.W. Kidd,	do	200
William H. Elliott,	do	300
David Lewis,	do	200

Hugh Matthews placed on Roll as a Farmer's Son. C. Bell's name struck off and J. White's put on as owner of S.-W. ½ lot 20, concession 3. John Robb, sr., put on Roll for E. ½ 28 and E. ½ 29, concession 10. Benjamin Roraback's name struck off for W. ½ 15, concession 8, and that of John Willoughby put on for the same as tenant and T. M. Grover as owner. Thomas Kempt's put on jointly with Kenneth Kempt for W ½ 1 and W. ½ 2, concession 11. James McMillan, put on as Farmer's Son. John and George McMillan put on as Farmer's Sons. West Peterborough Street 1, Warsaw, changed from Mrs. E. Thompson, owner, to William Wason, tenant. John Finlay put on as owner for N ½ 15 concession 6. Thomas Hamblin, Real Property reduced $360. Ten acres of E. part N. ½ 13, concession 7 were taken from the N. R. Roll, and placed to Nelson Emery.

After some minor changes, it was moved by J. White, seconded by George Kirk,—That the Clerk certify to the Roll as being the "Revised Assessment Roll for the Township of Dummer for 1882," and that this Court of Revision do now adjourn.—Carried.

COUNCIL MEETING.—On motion Council went into session, and minutes of last meeting were read and signed.

The Clerk was instructed to give notice that the Council intends to pass a By-Law to close a road on part of lot 12, concession 2, at a meeting to be held in the Old Town Hall, on 11th of August next.

On motion a road appropriation of $500 was made in terms of By-Law No. 470.

ORDERS GRANTED.—To James Robb, salary as Assessor, etc, $35, refund of Statute Labour Tax, on $29.10 that accrued through lot being divided, $3—$38.00. W. Darling, refund for Reg. By-Laws, $1.03, Davis account, 80 cents—$1.83. George Payne, sr., for assisting in locating road, on 17,2—$2.00.

BY-LAWS PASSED.—One to make a road appropriation and to appoint Commissioners for expending the same.

Council adjourned to meet at Old Town Hall on the 11th of August next.

THE COUNTY COUNCIL.

THE SEMI-ANNUAL MEETING OF OUR COUNTY PARLIAMENT.

The Warden Delivers an Interesting Address Dealing with Several Important Matters—Shall Asphodel and Douro have Deputy-Reeves?

Peterborough, June 21st, 1882.

The Council met. Present, Henry Collins, Esq., Warden, and Messrs. Sanderson, Fitzgerald, Lang, Stewart, Rorke, Walsh, Burgess, Pearce, Kidd, Oliver, Burnham, Crough, Strickland, Mansfield, Moloney and McCliggott.

The minutes of last session were read and confirmed.

WARDEN'S ADDRESS.

The Warden then read the following address:

GENTLEMEN,—In opening the business of this session, it is very gratifying to me, and I am sure to every one of you, to know, notwithstanding the uncertainty of life, that if not now all present, I have every reason to believe that every member of this Council will be able to take his accustomed place, in the enjoyment of his usual health.

The report of the Special Committee, appointed by you to inquire into the right of certain Townships to be represented by Deputy Reeves, will be laid before you.

Since the last meeting of this Council, the case of the Grand Junction Railway Company and the County of Peterborough was argued in the Supreme Court, Messrs. Bethune & Edwards represented the County. Judgment was reserved, and the suit, therefore, stands in abeyance.

The new iron bridge at Lakefield has been completed, and was passed by the Committee and County Engineer, and pronounced a good and substantial structure that reflects great credit on the Contractors.

The caretaker of the Mud Lake Bridge notified me that the Bridge was in great danger from the floating ice. I, at once, accompanied by the Engineer, visited the Bridge and found it broken in two by the ice shove, the chains having been torn from the anchors, and the Bridge and booms being much damaged. I at once ordered the twe parts to be united so that public travel could be resumed, with as little delay as possible. Then, when the weather permitted, the Bridge was straightened and anchored, but it still requires additional anchorage.

The Locks Bridge was reported to me impassable or unsafe for travel. I at once notified the Mayor of the same. He at once called the Joint Committee together, and then, jointly with the Mayor, I ordered temporary repairs to be made without delay, under the supervision of the County Engineer. The expenses connected with this and the other repairs referred to above, will be laid before you by the Engineer in his report, in which you will also find the result of our inspection of the Bridge at Norwood.

I expect that the necessity of repairing or rebuilding several bridges will be brought under your notice. The bridges at Nassau and Young's Point, and also the Pigeon Creek bridge, have all been reported to me as in need of extensive repairs or rebuilding.

At this session of the Council it is your duty to equalize the assessment of our several municipalities, and to provide for the current expenses of the County. The report of the Joint Committee, the report of the Auditors and other communications and reports will be laid before you in their proper order.

Mr. COLLINS also added that since he had prepared the above report he regretted being obliged to state that the Reeve of Smith, Mr. Sanderson, had met with a severe loss by the destruction of his barns, &c., last Saturday afternoon by lightning, and that he was sure that he had the sincere sympathy of the Council.

The address was referred to a committee composed of Messrs. Burnham, Sanderson, Lang, Moloney, Strickland, Kidd, Pearce and Rorke.

On motion, all accounts and papers in the hands of the Warden and Clerk were referred to the proper committees.

THE DEPUTY REEVE QUESTION.

Mr. SANDERSON presented the following report:—

The Committee to whom was referred the matter of the right of certain townships (Asphodel and Douro) to be represented by Deputy Reeves in the County Council beg leave to report:—

The Committee met on the 14th of February, and at the request of C. A. Weller, Solicitor for the Township of Asphodel, and also of Messrs. Walsh and McCliggott, Deputy Reeves, the Committee adjourned for two weeks to enable the Clerks of Asphodel and Douro to prepare a list as follows:—

1. Number of freeholders and householders named in second column.
2. Number of freeholders named in column six and not in column No. 2.
3. Number of persons named and counted twice in column two.
4. Number of farmers' sons who are sons of freeholders, with property assessed high enough to entitle them to a vote.
5. Number of tenant farmers' sons with the the same property qualification as in No. 4.
6. Number of income voters.
7. Number of persons assessed in column two not assessed high enough to entitle them to vote, and for the Clerks of the said townships to appear before the Committee at its adjourned meeting with the original assessment rolls of their municipalities.

The Committee met on the 28th February, pursuant to adjournment.

MR. JOHN POWELL, Clerk of Asphodel and MR. JOHN WALSH, Deputy Reeve, appeared before the committee with the original assessment roll of Asphodel, and a statement in accordance with the request of the committee hereto annexed, showing 514 persons who appear upon the roll of which 50 appear as farmer's sons of freeholders, with the property qualification of voters, who in the opinion of Mr. E. B. Edwards, County Solicitor, are not entitled to be counted in order to entitle the municipality to a Deputy Reeve, whilst Mr. Weller, Solicitor on behalf of Asphodel, contended that farmer's sons of freeholders appearing on the roll, are entitled to be counted for said purpose. We therefore submit the matter to you for further consideration, as to the right, or otherwise of Asphodel to be represented by a Deputy Reeve, the same so far as your committee have been able to ascertain, depending on the legal point, namely whether freeholders farmer's sons whose names appear upon the roll, should be counted when ascertaining the number of freeholders and householders that appear upon the roll, possessing the same property qualification as voters.

Your committee further report that Mr. McCliggott, Deputy Reeve of Douro, and Mr. O'Brien, clerk of the township, appeared before the committee on the 14th February and although they also attended on the 28th they declined to hand in a statement as to the rolls, as required by the resolution passed at the first meeting. Your committee after investigation of the roll filed in the office of the County Treasurer, find the following as the number of names appearing on the roll. Total number of freeholders and householders possessing the same property qualifications as voters 434; Total number of farmers' sons assessed for the proper amount of property 54; This shows a total of 488 persons possessing the proper qualifications, including farmers' sons; There are nine freeholders and householders numbered on the roll who are assessed for less than $100, one of them being as low as $12, and one farmer's son assessed for less than $100; There would thus be only 498 names on the roll in any case, therefore in the opinion of your committee the township of Douro is clearly not entitled to a deputy Reeve whether farmers' sons be counted or not.

MICHAEL SANDERSON,
Chairman.

Moved by Mr. BURNHAM seconded by Mr. KIDD that the opinion of Christopher Robinson, Q.C. be obtained as to the right of farmers' sons to be calculated in estimating the number of persons to entitle a municipality to a deputy Reeve and that in the meantime no further action be taken in the enquiry as to the rights of certain Deputy Reeves in this council.—Carried.

The council then adjourned.

ENNISMORE.

From Our Own Correspondent.

FIRE.—On Saturday last during the heavy thunder storm which passed over this township the lightning struck the barn of William Curtain, Lot 4, Con. 4, by which his two barns, stable and out buildings along with their contents, a threshing machine, nearly new, belonging to his son Timothy and six pigs were completely destroyed. The loss on the building and contents is $700, insured in the London Mutual for $320 on buildings, the contents being fully covered by insurance, but there was none on the threshing machine.

Killed by an Adirondack Bear.

SARATOGA June 16.—William Milliken, of Boston, was killed by a 400-pound bear near the shore of Lake Piseco, in the Adirondack, last Saturday afternoon. He was one of a party, the others being John Dixon, Fountain, and Watson, of Philadelphia, and William Wilkinson, of Birmingham, Conn. They had with them James Shires, a skillful guide, and four dogs. A bear trail was followed up, when Shires told the men to be careful about shooting too suddenly should they happen to come across any bears, who at this time are very savage and apt to be on the aggressive. Miliken, with the dogs some distance ahead of the others came across a male bear, a female, and three cubs. Not heeding the caution given him by the guide, he opened fire. The balance of the party hurried forward; but when Shires, who first reached the scene, came up, the bear had killed the four dogs and was attacking Milliken, the latter making a gallant fight for life. The guide hurried to the rescue, but as he came up the bear closed upon Milliken and killed him. The bear then attacked Shires, who was terribly hurt, and would have been killed had not Watson gained the spot and shot the male bear dead. The others of the party poured a volley into the female bear, who was also attacking, and despatched her. Shires was conveyed to his home on a litter. The mangled remains of Milliken were shipped to his late home on Monday. He was about 35 years of age, and leaves a family. He was interested heavily in mining in Nova Scotia, and was a stockholder in the Mechanicville Water Power Company of this county.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

FROM ALL OVER.

ACCORDING to the London *World*, if the physicians will permit, Her Royal Highness the Princess Louise, it is understood, is anxious once more to try and brave the rigours of a Canadian winter.

A NEIGHBOUR Gave me a dose of Dr. Smith's German Worm Remedy and it removed a large number of worms from my children, after all so-called worms medicines failed.—Thomas McElligott, 51 Anderson street, Montreal. 25 cents.

THE New York importers memorialize the President to put a representative of their interests upon the tariff convention. If all the interests that are unrepresented on the tariff commission should memorialize the President, says the Boston *Post*, he would think it memorial day all the year round.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

ACCORDING to Commissioner Loring's report, it would seem that it costs the Government $52 a pound to make sugar from sorghum under Mr. LeDuc's system of farming. It strikes the Boston *Post* that the tariff commission will have to prepare a pretty high protective duty to make that industry pay.

MR. ARTHUR FISHER says: "I caught a very bad cold which settled into a severe case of rheumatism. I did not know what to do for it, so I resolved to purchase St. Jacobs Oil for trial. Happy thought. I began applying the Oil, and in two weeks was as well as ever.—*Toronto (Canada) Globe.*

THE death is announced in England, at the age of 102, of John Mooring, one of the now few survivors of the battle of Trafalgar, in which engagement he was captain of the maintop of the *Thunderer*. Until a few months ago he retained a clear recollection of all the events of that memorable day.

PROF. BEHREND, a distinguished German scholar and a Jew, has been made rector of the University of Greifswald. The provincial synod sent a memorial to the Government, protesting against this step on account of the professor's religion and race, but he was nevertheless invested with the office with all the usual ceremony and display.

A MISSISSIPPI girl was eloping with the man of her choice, and reached a flag station on the Ohio and Mississippi Railroad, with the old man in full pursuit. The train came apace, but there was no flag with which to signal it, and the heroic maid stepped out of her red petticoat, stopped the train, and the pair got on board just in time to pull out as the irate father sailed into sight.

J. Werts & Son, Freedomville, Ohio, write :—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

Are Lunches Bad.

Alternate activity and rest is a law of nature for every part of the body except the heart and blood vessels, and for the mind also. This law can not be violated without more or less harmful results, whether they are noticed or not. The human stomach must have periods of rest, or it will weaken and finally fail. It is in one sense the gristmill that supplies the whole body with nutriment. The mill keeps to work as long as there is anything in it to grind. An ordinary heavy meal requires 4 to 5 hours for being dissolved and sent out to the system; in weak stomachs more time is needed. Then the stomach wants quiet and rest of at least an hour or two to recuperate itself, during which the other parts of the body and the mind may be active. As a rule, not less than six hours should intervene between meals. A lunch of any kind, even milk itself, if put into the stomach before it has disposed of the previous meal *and rested*, is harmful. Lunches between meals, nibbling at cake, candy, fruit, at anything that must be digested, keeps the stomach at work, and robs it of rest absolutely needed. Even beer and sugared drinks have to be digested. The feeling of faintness, of "gone-ness" experienced in the hay or harvest field, usually comes from the disturbance of a hearty breakfast or dinner that by reason of hard work and depressing heat, is still undigested. The lunch quiets it, but partially unfits the stomach for attacking the next meal; the best way is to do without the lunch; stop work when too weary to go further, and rest at least 15 or 20 minutes before taking food, then rest a little more, and gradually push on to one's full measure of strength. Attention to these matters will wonderfully increase the amount of work, mental and physical, which one can accomplish during a year, or a series of years.

ST. JACOBS OIL
TRADE MARK.
THE GREAT
GERMAN REMEDY.
FOR
RHEUMATISM,
Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,
Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.
No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.
Directions in Eleven Languages.

Delicious Ice Cream by the QUART, and have it sent to their homes by leaving their orders through the day or evening.

N. H. DOWNS' Vegetable Balsamic ELIXIR!
This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:
Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,
and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that
CONSUMPTION
is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry; then becomes coat over and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,
IT HEALS THE ULCERATED SURFACES
and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate or astringent articles, which are so fond drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.
HENRY, JOHNSONS & LORD, Props, MONTREAL, P. Q.

KENDALL'S SPAVIN CURE,
The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.
From Rev. P. N. GRANGER,
Presiding Elder of the St. Albans District.
ST. ALBANS, Vt., Jan. 20th, 1880.
DR. B. J. KENDALL & CO., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.
Respectfully yours, P. N. GRANGER.
PERSEVERANCE WILL TELL.
STOUGHTON, Mass., March 16th, 1880.
B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.
Respectfully yours, CHAS. E. PARKER.
KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.
Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.
Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.
Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1w1y

WELLAND CANAL.
NOTICE TO CONTRACTORS.
SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.
A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.
Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.
The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.
This Department does not, however, bind itself to accept the lowest or any tender.
By order,
F. BRAUN, Secretary.
Dept. of Railways and Canals, Ottawa, 22nd May, 1882. d127-2aw

MURRAY CANAL.
NOTICE TO CONTRACTORS.
SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the MURRAY CANAL," will be received at this office until the arrival of the eastern and western mails on TUESDAY, THE TWENTY-SEVENTH DAY OF JUNE NEXT, for the formation of a Canal to connect the head waters of the Bay of Quinte with Presqu'ile Harbour, Lake Ontario.
A map of the locality, together with the plans and specifications of the works, can be seen at this office and at Brighton, on and after THURSDAY, THE EIGHTH DAY OF JUNE NEXT, where printed forms of tender can be obtained.
Contractors are requested to bear in mind that an accepted bank cheque for the sum of $3,000 must accompany each tender, which sum shall be forfeited, if the party tendering declines to enter into contract for the execution of the works at the rates and prices submitted, subject to the conditions and on the terms stated in the specification.
The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.
This department does not, however, bind itself to accept the lowest or any tender.
By order,
F. BRAUN, Secretary.
Dept. of Railways and Canals, Ottawa, May 22nd, 1882. 4128-2aw

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.
It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.
It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.
Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.
W. JOHNSTON & CO., Manufacturers, AMHERSTBURG, ONT.

Daily Evening Review

THURSDAY, JUNE 22, 1882.

Masonic.

On Saturday, June 24, being St. John's Day the Corinthian Lodge A.F. & A.M., will meet in the Masonic Hall, at 7.30 p.m., and the Peterborough Lodge at 8 o'clock in the evening.

St. Andrew's Appeal.

A telegram has been received from St. John this morning stating that the decision of the General Assembly in the matter of the appeal of St Andrew's Kirk session is entirely satisfactory to the appellants.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Light to moderate winds; fine, warmer weather.

Midland Railway of Canada.

The Traffic of the above Railway for the week ending June 17th, 1882, was as follows:—Passengers and Mails, $8,162.43; Freight, $15,536.46; Total, $23,698.89 as compared with $21,951.25 for the corresponding week of 1881, being an increase of $1,747.64; and the aggregate traffic to date is $425,685.12; being an increase of $113,737.47 over 1881.

Queer Geography.

The following item which appears in the *Stillwater Lumberman*, published in the town of Stillwater, Minnesota, will be read with some ammusement:—

"On the line of the Northern Pacific, between Rat Portage and Winnipeg, large quantities of lumber and ties have been destroyed by recent forest fires."

Some of our friends to the south of the line, seem determined to annex us, whether or no.

That Procession.

We did not think it necessary to give the exact number of vehicles in the recent rather premature Reform funeral procession, but as we find that the numbers have been grossly exaggerated, we may state that an actual count by six different persons ranged from 95 to 97, the discrepancy appearing to arise from the uncertainty whether an hotel 'bus and a dray ought to be included or not. At all events the number was under a hundred, in spite of the fiery cross.

Still Misrepresenting.

Of course we cannot expect to make either our Reform contemporary or Mr. Bertram understand or even keep to the truth, about the position of Mr. Carnegie, but we think it has been made clear to the public that he was not the proprietor of the REVIEW and had not the control of it before January 1878, that he has only been a part proprietor and has only had partial control of it since then. Any misrepresentation of these facts will be taken by the public for what they are worth.

A Sample.

As a fair specimen of the Grit predictions, we take the following from the Independent Montreal *Star*. We think a new correspondent is desirable, or at least that the present one will make better predictions:—

"The Hon. E. Blake arrived on Friday. His coming had been well advertised, and it is conceded by all parties that his reception was very imposing. A procession, three-quarters of a mile long, followed him through the town. He spoke in the afternoon and evening, in the drill shed, to 3,800 electors, exclusive of ladies. In the evening Mr. John Carnegie addressed the meeting on behalf of the Conservative candidate. The West Riding election is never sure for either parties, but Mr. Roxburgh's election in the East is certain."

Picturesque Canada.

The following letter be heard with interest by many of our readers, who are subscribers for that excellent art work, "Picturesque Canada."

"*To the World*:—I wish to correct the statement which appeared in your last issue of yesterday, to the effect that Belden Bros. had a quantity of stereotype plates of Picturesque Canada destroyed in Saturday's fire at Messrs. Hunter, Rose & Co's. We never use stereos, but electros, and these are always kept in our fire-proof vault, except when in form on the presses. All we have lost consists of printed sheets, the replacing of which will principally require night work in the press-room, until the editions broken in upon are re-completed. This will not in any way interfere with the progress of the work, or its delivery to subscribers as the above statement in your article might lead to be inferred.

V. V. ASHFORD, Man. Art Pub. Co."

EAST PETERBOROUGH.

One more victory has been pronounced most unmistakeably for the Conservative party in East Peterborough, and by such an expressed opinion of the electors of that riding as to surprise the most sanguine supporters of Mr. Burnham. This great success too has been achieved against the most unflinching attempts to corrupt the electors, and in spite of the influence exercised by the Provincial Government in many parts of the Riding, especially the northern townships, all however proved of no avail. The free and independent elector determined to show their approval of the national policy, and their strong appreciation and admiration of Sir John A. Macdonald, marked their ballots in favor of the candidate in whom they still had confidence, and who would still give his support to the Government that had given them contentment and prosperity.

The action shows that this riding has increased the Conservative vote in some municipalities and reversed the Opposition vote in other places. Asphodel, in the election of 1878 gave Mr. Buck a majority of 87; while in the present election, with the same Conservative candidate, that township gave a majority for Mr. Burnham. Norwood also favoured Mr. Buck in 1878, and in 1882 gave Mr. Burnham a majority. There has been a slight loss in Belmont to the Conservatives, but this is owing, not to a change in political opinion, but to the fact that twenty-two Conservatives had during the past year or so removed to the North West or elsewhere. Douro has increased the Conservative majority, while the mother Grit, Otonabee, has largely decreased the Reform vote. Although the conservatives of East Peterborough have great reason to rejoice over the election of 1882 as it has already proved that with a popular candidate and good cause, they can carry the Riding honestly against all the illegitimate efforts of the Grit party to corrupt or bribe the electors.

The re-election of Mr. Burnham has caused unbounded enthusiasm throughout the whole of the East Riding, and on Tuesday evening the returns as received were welcomed with immense cheering. In Norwood, the headquarters of the Riding, a very large number of the electors assembled in the evening, and anxiously awaited the returns from the different polling places. As almost each statement gave either figures announcing without doubt the election of Mr. Burnham, or the election of Conservative candidates elsewhere, the enthusiasm was intense, while there was a feeling of utter despondency and discomforture depicted on the faces of the Reformers who had the courage to wait for the intelligence announcing the total rout of the horse, foot and artillery of their party. So confident, however, were the Reformers in the Riding of success that Norwood was to be made the scene of great rejoicings, and extensive preparations were made to celebrate the election of the Reform candidate. As it was, materials were gathered together in Norwood to duly honor the election of Mr. Burnham; but, as it was thought that this would be obnoxious to the Reformers of the village, and would do no good whatever, the leading Conservatives of the village put a stop to the proceedings.

Mr. Burnham's majority so far is 196.

They Meet Here.

It was decided on Monday that the next meeting of the Methodist Conference, Toronto district, will be held at Peterborough on the second Wednesday in June, 1873.

Bishop of Peterborough.

The Montreal *Star* among other clerical announcements says that Mgr. Jamot, Vicar Apostolic Northern Canada, has been appointed first Bishop of the diocese of Peterborough, Ont.

The Celebration Committee.

We are requested to announce that a meeting of the joint Committee of the Fire Brigade and Lacrosse Club, will take place on Friday evening at the Simcoe street Fire Hall at 8 o'clock. A full attendance is specially requested as business of importance will be brought up.

Change of Day.

Owing to the fact that the First of July this year falls on Saturday, would it not be well to have some provision made for holding the market on Friday instead of Saturday? According to the Statute, Dominion Day is not a market day, and therefore it is illegal, and any person disposing of produce on the square would be subject to a fine. In town it is generally understood that Friday is to be the day, and the same should be known throughout the country.

Accident.

On Tuesday, we simply referred to the fact that a young lad named Hamilton, had been injured at the station. The facts are that the boy who is aged about 7 or 8 years, had a very narrow escape from death, and as it was he may lose the use of his hand. He was playing under some box cars standing in a siding, when some other cars were shunted against those which were stationary, and the young lad was thrown on the track, the wheel of one car passing over his hand. Two of his fingers were badly jammed, and the centre of his hand bruised. The little sufferer is now getting along nicely.

Dominion Day.

Once again the natal day of our young Dominion is close at hand, and as usual, it is not to be allowed to pass without a celebration. This year the Fire Brigade, and Lacrosse Club, have united their forces, and the programme they offer to the public, is undoubtedly one of the finest ever offered in the Province, and judging by past experience, it will be carried out to the letter. In the morning comes the lacrosse match for the Gildersleeve Cup, and the championship of Central Ontario, between the "Kingstons" and the "Peterboroughs." The two teams are very evenly matched, and as both are practising very hard, a magnificent game is anticipated. At an early hour in the afternoon the Fire Brigade, and apparatus, the Lacrosse Club etc., will parade the streets, marching to the Agricultural grounds, where the best programme of events ever offered here will be contested. In the evening a promenade concert will take place in the Drill Shed. The champion amateur Band of the Dominion will be present, and discourse choice selections, after which a grand display of fireworks under the direction of Prof. Hand, the "Pyrotechnic King," will take place, and the whole day's amusement will close with a torchlight procession.

Mothers! Mothers!!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

Aluminium Pens

The undersigned have been appointed Sole Agents in Peterborough for the above Pens manufactured by H. JACOBS & CO., London, England.

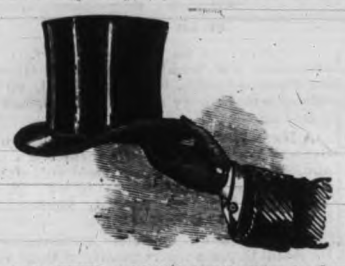
Price $1.50 per gross, or 20 cents per dozen.

TOKER & CO.

MACK'S MAGNETIC MEDICINE.

The medicine is pleasant to the taste, and each box contains sufficient for two week's medication, and is *the cheapest and best.* Full particulars in our pamphlet, which we desire to mail free to any address.

Mack's Magnetic Medicine is sold by Druggists at 50 cts. per box, or 12 for $5, or will be mailed free of postage, on receipt of the money, by addressing MACK'S MAGNETIC MEDICINE CO, Windsor, Ont., Canada. Sold in Peterborough by ORMOND & WALSH, and by all druggists everywhere. d133-w49-t23



WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Daily Evening Review

FRIDAY, JUNE 23, 1882.

DESTRUCTIVE FIRE.

Three Dwellings, Sheds etc. Burned to the Ground—No Hose or Water.

On Thursday afternoon about 4.40 an alarm of fire was sounded and dense clowds of black smoke arising in the west end betokened a conflagration. Upon arriving at the scene it was found that three dwelling houses occupied by Messrs. R. Innes, D. Pentland and T. Dolan with all the sheds outbildings etc. were in great danger.

Owing to a short supply of hose the Firemen were not able to get water for a considerable time and in the meantime the flames spread with great rapidity devouring all the sheds in the centre of the block like so many shavings, and burning T. Dolan's residence clean to the ground. In the meantime, while the firemen were getting to work, the hook and ladder company were doing good service, and hundreds of citizens were working might and main to save the house and sheds of Mr. Adam Hall, close to the residence of Mr. Innes, and the other houses surrounding. The greater portion of the furniture in the houses in the vicinity was saved, but in a damaged state. By this time, the firemen, using every foot of hose belonging to the town, had got two streams on the flames from the tank in front of the Convent, and were fighting and battling with flames in the rear of the residences of Messrs. Pentland and Innes, but in spite of all that they could do both houses, as well as that of Mr. Dolan, were destroyed, the walls alone of Mr. Pentland's residence being left standing.

It was not for some hours that the flames were completely subdued and the adjoining property safe. There is considerable growling at the tardiness of the Fire Brigade, but men cannot do the work if they have not the apparatus and the Town Council alone is to blame. If it had not been for the five hundred feet of hose procured within a week, no one can say where the fire would have stopped, or if it had crossed Stewart street and got in among the storehouses, the entire town might have been destroyed, and all for the want of a few thonsand feet of hose.

As near as can be ascertained at present the losses and insurance are as follows, the actual insurance and the probable losses being given. Robert Innes, furniture, Royal $500, loss $200; D. Pentland furniture, Canada $600, loss $200; Miss A. Ferguson, dwelling, Phœnix $1,000, loss $2,000; Mrs. M. Clementi, dwelling, North British and Mercantile, $1,500, loss $800; Richard Hall, dwelling, N. B. & M., $1,000, loss $2,000; T. Dolan, furniture, Liverpool and London and Globe, $800, loss unknown. Besides those given Dr. King, A. Hall and Miss Ferguson, will also suffer slight losses.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaint, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

MIDNIGHT TELEGRAMS

CABLE.

ENGLISH RACES.

LONDON, June 22.—The Stockridge races begin to-day. The Beaufort handicap was won by J. R. Keene's Golden Gate, Windsor, second, the three year old Transatlantic third. There were four starters.

THE RIOT COMMISSION.

ALEXANDRIA, June 22.—The Commission of Inquiry into the late riots have suspended their sittings for twenty days. This is supposed to be a subterfuge to defeat the inquiry.

AT ALEXANRIA.

ALEXANDRIA, June 22.—The exodus of Europeans is diminishing. There was much sensation caused by an article violently denouncing the European reception.

MEETING OF AMBASSADORS.

CONSTANTINOPLE, June 22.—The ambassadors met to-day, but there was no conference, because the German and Austrian representatives had not received their instructions.

TROUBLES IN THE CABINET.

LONDON, June 22.—The rumours of troubles in the British Cabinet with reference to intervention in Egypt are officially denied, and are attributed to stock speculators.

THE SUEZ CANAL.

LONDON, June 22.—An Alexandria correspondent telegraphs that he is informed on the best authority that if France and England interfere actively in Egyptian affairs, Arabi will blow up the Suez canal, cut the railway to Cairo, and oppose the landing of European troops in Alexandria. If beaten, he will retire to the desert, where he is promised the support of 30,000 Bedouins, partisans of Prince Halim. The Egyptian Ministry are prepared to sanction the above on patriotic grounds.

EGYPTIAN AFFAIRS.

ALEXANDRIA, June 22.—The British admiral is making dispositions supporting the landing of troops at Alexandria. The European and neutral ships will receive ample notice to clear, in the event of matters getting warm. Major Tulloch, a British officer of the intelligence department, who recently made a stratagetical survey of the country, has arrived. He is living on board the admiral's ship, and is awaiting the arrival of the troops. The Egyptians are showing signs of great anxiety and consternation at the continued arrival of warships. The exodus of fugitives continues unabated; crowds are thronging the departing ships. Two large French transports arrived to-day to assist the refugees. The commission to enquire into the massacre was dissolved yesterday, on account of its negligence and incapacity. The fresh commission is not much better.

ASSAULT.

ALEXANDRIA, June 22.—The New York *Herald* correspondent writes:—"Last night while I was walking in the square Arabi drove past, the band playing his anthem. As he passed me, an Arab purposely ran against me, kicking me severely in the back and knocking me over. Arabi was out of sight before I could do anything. This instances the present position of Europeans here. Events are rapidly closing in. I have taken all necessary steps to get a good view of coming events."

BASIS OF THE CONFERENCE.

LONDON, June 22.—Sir Charles Dilke made a declaration touching the basis of the conference in the House of Commons this afternoon similar to that of M. de Freycinet.

NIHILIST ARRESTS.

ST. PETERSBURG, June 22.—Among the arrests on Vasili Island was a Nihilist leader disguised as a woman. The police made a decent upon a Nihilist haunt on Fornary street and made several arrests.

AMERICAN PORK.

PARIS, June 22.—The French Senate has rejected the bill on the importation of foreign pork, on the ground that it does not offer a sufficient guarantee against trichinosis.

MR. BRADLAUGH AGAIN.

LONDON, June 22.—Mr. Bradlaugh attempted to present a petition at the table of the House of Commons this afternoon, but withdrew under protest at the order of the Speaker.

ORDERED TO CONSTANTINOPLE.

ALEXANDRIA, June 22.—Dervish Pasha has received a telegram from the Sultan instructing him to endeavour to induce Arabi Pasha to proceed to Constantinople before the first sitting of the conference, and stating that the Sultan is satisfied with the attitude of Arabi. It is believed Arabi will decline to go. The Sultan has also telegraphed the Khedive expressing satisfaction at his course, and promising to use every means to strengthen his authority.

WAR MATERIAL.

LONDON, June 22.—The ironclad Belleisle has been ordered to Egypt, and will reinforce the ships guarding the Suez canal. The torpedo ship Hecla sailed for Egypt to-day, with a vast store of explosives, several torpedo boats, and a detachment of marines.

THE REPRESSION BILL.

LONDON, June 22.—In the House of Commons to-day, clause 12 of the Repression bill was taken up. It provides for the application of the Alien Act to aliens in Ireland. Mr. Healy moved an amendment limiting the operation of the Act to a year instead of to three. Mr. Trevelyan said the object was to enable the Government to get at those it believed to be at the bottom of most of the crimes committed in Ireland. The Government knew that a number of the most dangerous characters in Ireland were aliens. Mr. Healy's amendment was rejected by 72 to 33. Mr. L. Lloyd (Liberal) moved an amendment applying the Alien Act to the whole of the United Kingdom. After discussion, Mr. Gladstone proposed to allow the amendment to stand over till the report was made, when it would be proposed for the acceptance of the House, so that fuller consideration might be given it. Mr. Lloyd's amendment was agreed to by 228 to 51.

AMERICAN.

ON STRIKE.

CHICAGO, June 22.—The condition of the workmen at Irondale, who struck when averaging from $1.50 to $2.00 per day, is becoming pitiable. The strike only grows firmer, however the Hyde Park authorities announce that on no condition will they aid the strikers.

SUNK BY ICE.

ST. JOHN, Nfld., June 22.—The Steamer Asturbul of London, 1200 tons, struck an iceberg and sunk off Point Lance, this morning. The crew of twenty-five were saved by a fishing craft.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

AT ALEXANDRIA.

ALEXANDRIA, June 23.—Doctors Watson and Harvey returned safely from Cairo. All the Americans, except the family of General Stone, have left or are in safety. The greater part of the American mission has left for Liverpool.

DAVITT IN HOT WATER.

LONDON, June 23.—A letter of Mathew Harris, a prominent Land Leaguer, denouncing Davitt's land nationalization scheme, is creating deep interest both in Ireland and political circles in England, believing that Davitt has done more damage to the cause of Ireland than a dozen of Forster's Acts could accomplish. However high Davitt's motives may be his actions from day to day, since his release, are such as to cause disorder and disunion thoughout the whole Irish race. The letter declares that if six hundred thousand farmers who with their families number over three millions, become tenants under the British Government, Ireland might bid farewell for ever to the long cherished hope of becoming an independent nation. When Davitt asserts there is little difference between Parnell and himself he shows more ingenunity than candor. As far as ever there existed a difference between any two men on a public subject there exists between them. Harris argues against land nationalization as visionary, and favours a peasant proprietory which has been tested by experience and which has brought an increased population, wealth and power to every nation that has adopted it as the form of its agricultural system.

GAGGING THE PRESS.

LIMA, May 31.—General Lynch has published a decree silencing the Peruvian press, and suspending *La Situacion* a Chilian paper. None but Chilians are allowed to engage in the publication of newspapers.

THE STATE OF AFFAIRS.

ALEXANDRIA, June 23.—The British admiral evinces a disposition to support the landing of troops at Alexandria. The Egyptians are showing signs of great anxiety and consternation at the continued arrival of war ships. The exodus of fugitives is thronging the roads. The commission to enquire into the massacre was dissolved on account of negligence. The capacity of the fresh commission is not much better.

RUSSIAN COTTON.

ST. PETERSBURG, June 23.—Five important firms in Moscow have formed a syndicate for the for the promotion of cotton cultivation in central Asia. They propose to engage American experts to superintend the cultivation of the plant.

A NEW SCHEME.

LONDON, June 23.—A company comprising Irish noblemen, and large land owners has been formed as a purely commercial speculation, for defeating the influence of the Land League, and for supplementing the work of the property defence association and the company will take possession of all evicted lands, and work them to the greatest public advantage.

OPPOSITION.

LONDON, June 22.—In view of the fruitless conference regarding Greece, it is stated that Germany, Austria, and Italy have declined to participate in the conference at Constantinople against the will of Turkey.

AMERICAN.

ANOTHER EMBEZZLER.

ST. LOIUS, June 23.—O. H. Owen, recent teller of the Third National Bank, has been arrested for embezzling $15,000 of the funds of the bank. It is said that owen's operations extended over several years and has been carefully concealed.

FEARFUL STORM.

DES MOINES, June 23.—Another terrible storm passed over Iowa yesterday. The storm lasted 3 hours and the damage to the goods was fearful. Considerable damage was done at Pleasantville, and is thought the damage north of here is more severe.

FREIGHT RATES.

NEW YORK, June 23.—Many prominent mercantile firms are signing the petition to Railway Managers, calling attention to the serious embarrasment and injury to trade in the city, by the controversy between the Railways regarding freight.

HEAVY DAMAGES.

NEW YORK, June 23.—Catharine McDermott yesterday obtained a verdict of ten thousand dollars from Elizabeth Clark, for injuries caused by falling into a coal slide on the latter's premises.

PUTNAM'S FATE.

WASHINGTON, June 23.—Lieut. Danenhower thinks that Master Putnam was carried on an ice flow to St. Lawrence Bay, and may have reached St. Lawrence Island and had some chance of escaping alive. Danenhower wants a revenue cutter sent after Putnam. At the Navy Department the opinion is expressed that the search for him will be fruitless.

LABOR TROUBLES.

PITTSBURG, June 23.—The local assembly of moulders has decided to stop work in all the establishments in which castings are made, and withdraw custom from Gordon and Newcastle, Pa., who had trouble with his men recently. This will effect four firms in Pittsburg, and several in Cleveland and Philadelphia.

GUITEAU'S REPRIEVE.

WASHINGTON, June 23.—It is stated that Reed will have an interview with the Attorney General to-day, and urge the petition on Guiteau's reprieve.

SALE OF COINS.

NEW YORK, June 23.—At the sale of the Bushnell Collection, yesterday, a silver half dollar, issued 1792, brought $365, and another of the same year, of a different design, one hundred and twenty-six dollars.

A SALT WELL.

CINCINNATTI, June 23.—At an artesian well sunk near St. Bernard, the flow is 90 gallons per minute, and that amount of water contains bushels of salt.

GUITEAUISTIC.

CLEVELAND, June 23.—Mrs. Scoville failing to get an interview with Mrs. Garfield, left the city without telling her destination.

Who's the Best Physician

The one that does most to relieve suffering humanity of the thousand and one ills that be fall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

Daily Evening Review

FRIDAY, JUNE 23, 1882.

SATISFACTORY REPRESENTATIVES.

It is satisfactory to know that even those electors of the two Ridings of Peterborough, who have been disappointed in not seating the candidate of their own political views, may console themselves with the reflection that the members elected, will well represent their respective constituencies, and are gentlemen of whom we may all feel proud.

The *Examiner* in September 1878 writing of the same two gentlemen, Messrs. Burnham and Hilliard, after their election at that time said :—

"In both Ridings two of the best men in the Opposition (Conservative) ranks were in the field, and two men that are not likely to do anything wilfully that they may consider adverse to the general interests of the country, and since it is our fate to be so signally defeated, we will hope that all the Opposition may prove as good men as those elected in these Ridings."

Though we have not so far had a similar expression of opinion, as to the result of the recent election, we have no doubt that the favourable opinion remains unmodified, but rather that it is strengthened. The people of Peterborough know that the members exerted themselves sucessfully in favour of projects for the development of this locality, and that they may be safely trusted to continue in the same course.

OUR LOCAL LEGISLATURE.

In consequence of the members of the Legislative Assembly of Ontario resigning their seats to become candidates in the recent election, for the House of Commons, several constituencies are now without representatives in our Provincial Legislature, comprising Bruce, South ; Essex, South ; Glengary, Hastings, West ; Muskoka, Renfrew, North ; and Waterloo, South. Of course these vacancies should be filled at once but we know that Mr. Mowat has rather elactic ideas as to the meaning of the word "forthwith."

A THREEFOLD TRAGEDY.

Two Murders and Suicide at Hamilton—Details of the Crime.

Hamilton was the scene of a threefold tragedy on Wednesday afternoon, the particulars of which are taken from the *Times* of last night. About two weeks ago a man named Alexander Forbes came from Erie, Penn., and did his utmost to persuade his wife (who was engaged as housekeeper for George Ralston, caretaker of the central school), to give up her situation and take up with him again. Mrs Forbes had borne with

HIS DISSIPATED WAYS

and abuse too long in her American home to concede to his request, and repeatedly told her husband that she would never have anything more to do with him. It may be stated that it is six years since she and her three children left him and came to Hamilton. About two weeks ago he sought an interview with her at Ralston's house and begged her to live with him again, promising to make amends for the past. She considered the risk too great, and refused him. He returned to the house yesterday morning and urged her to revoke her decision, but she was immovable, telling him that it was better for them both that it should not be. Returning at 2 o'clock he again urged her to leave her place and live with him. The same answer was given, and Forbes, who appeared greatly excited, placed something in the hand of his little son Ernest, which, he said, would serve to remember them by, and pulling out a seven-shooter.

FIRED TWO SHOTS AT HIS WIFE.

She, as soon as he pulled the weapon, ran behind Mr. Ralston, who was standing near by, and Mr. R. received one of the bullets in his head. The woman sank down on the sidepath and died almost immediately, and Ralston could not have lived more than five seconds, so precise was the scoundrel's aim. The murderer then placed the weapon at his own breast, fired and dropped under a tree a few feet from his victims. The sight of the three bodies lying lifeless in the yard connected with Ralston's house (and on central school premises) was one that will not soon be forgotten. The excitement occasioned by the horrible tragedy was intense. As the news spread from mouth to mouth and was passed through the telephone to the central office, and from there throughout the city, crowds might be seen rushing to to the scene, and all kinds of questions were asked by the spectators of those who had taken charge of the bodies. The children in the school were greatly terrified and it was with the utmost difficulty that the teachers could pacify them.

THE MURDERER.

Forbes is a man of 35 or 40 years of age, and although of dissipated appearance, cannot be said to possesse the face of a murderer. He was the son of Mr. Forbes, who owns a potash factory at the corner of Wellington and Burton streets, and has not born a good character, having lived with another woman in the States, and whom he wished to keep under his care along with his former wife. Mrs. Forbes was a daughter of John Norton, of Tapleytown, and has always been know as an industrious and highly respectable woman. She had three children, Katie aged 19, Willie 15 and Earnest 12.

THE MURDERED MAN.

Ralston was a widower and had engaged Mrs. Forbes to keep house for him. He was engaged to a woman in London and was to have been married in about three weeks. He informed Mrs. Forbes of the intended marriage and told her he would no longer need her services after that time. Ralston's wife died some time ago. He leaves two interesting children, and the screaming and wailing of the eldest, a little girl about 10 years of age, was most hart-rending.

NOTES.

The bodies were deposited in the dead house, where they will lie till after the inquest, which will take place to-day.

Forbes presented his eldest daughter with a gold watch "to remember him by," as he said, and also gave to his little boy a $20 gold piece as a keepsake. The weapon with which the deed was committed is what is known as a bull-dog (English) with one chamber, and capable of holding seven shots. All the bullets were not exploded.

Personal ! To Men Only !

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

THE COUNTY COUNCIL.

THE SEMI-ANNUAL MEETING OF OUR COUNTY PARLIAMENT.

THURSDAY.

The Council met pursuant to adjournment, H. Collins, Esq., Warden, in the chair, and all the members being present.

The minutes of yesterday's session were read and confirmed.

Mr. Moloney presented the following report of the Committee on the Warden's address :—

The Special Committee on the Warden's address beg leave to report recommending :—

1. That a legal opinion be obtained as to the right of farmers' sons to count in estimating the number of ratepayers to entitle a municipality to a Deputy Reeve.

2. That the Committee regret that no decision has yet been given in the Grand Junction suit. We hope that when a decision is given it will be favourable to the County.

3. That your Committee are glad to hear that so substantial a bridge has been erected at Lakefield and that the same is so creditable to the contractors and engineer.

4. The Committee endorse the action of the Warden in the matter of the Mud Lake and Locks bridges.

5. That the questions as to the repairing or rebuilding of the several bridges mentioned be referred to the Road and Bridge Committee.

The report was adopted.

Moved by Mr. Burnham, seconded by Mr. Kidd,—That the award between the County and Town having expired on the 1st January last, and it being desirable to save the expense of a new arbitration, this Council are willing to allow the same award to stand for three years from the 1st January last, if the Town is also willing, and that a copy of this resolution be sent to the Town Council with a request that they should inforn this Council at once whether they require a new arbitration.—Carried.

On motion of Mr. Burgess, the application of Peter Whytock for charity was referred to the Finance Committee.

On motion of Mr. Walsh, the propriety of the County paying Mr. Weller's account for his services in connection with the Deputy Reeve matter was referred to the Finance Committee.

The Council then adjonrned.

A FAITHFUL DOG.

He Defends His Mistress and Chews the Face off a Tramp.

One evening last week two men came to the house of G. Mead, who lives in Evergreen township, Sanilca County, Michigan, and asked pemission of Mrs. Mead to stay over night. Mrs. Mead replied that her husband was away and they had lately moved into the house and were not settled, and therefore could not keep them. They asked when her husband would be back. She replied not that night, whereupon the men said they would stay anyway. Mrs. Mead started back into the house and closed the door, when one of them followed and burst open the door. Mrs. Mead told him to go away and he replied in an insulting manner and advanced into the room. Neighbors were distant and the only companion Mrs. Mead had was a large shepard dog who was a faithful animal. Mrs. Mead said to the dog, "Take him Rover," whereupon the dog sprang and seized the man by the face and tore the right cheek off, exposing the entire jaw and teeth, and felling the man to the ground. Before Mrs. Mead could take the dog off he had nearly bitten the man's nose off. The man's companion ran when the dog made the attack and has not been heard of since. The man who was so badly bitten started off, crawling on his hands and knees. Mrs. Mead was so frightened she locked herself in the house. As soon as her husband returned Mrs. Mead related what had passed, and he started to find the man and see the extent of his injuries. He found him at a neighbor's house about three miles distant. He was horribly disfigured and unable to talk. The men were strangers in the county and supposed to be tramps.

FOUR VERY RICH MEN.

Uncle Rufus Hatch Gives Very Big Figures that may be True.

"Well, there are just four of them in the first class. First, Vanderbilt and his sons ; second, Russel Sage ; third, Jay Gould ; and fourth, James Keene. I suppose you refer to men who have been directly concerned with stock operations. Vanderbilt and his sons, who are altogether, have got $300,000,000. I am sure that this is not overstated, for the $60,000,000 or $70,000,000 they have in the Government loans represents their interests as it has accumulated. The next man is Russell Sage, who is richer than Gould. He is worth from $60,000,000 to $70,000,000. Gould is worth from $40,000,000 to $50,000,000, and Keene from $25,000,000 to $30,000,000. These are prodigious figures. See what they represent of other men's losses, when you look at the present state of the stock market, and what it is tumbling to. There is about $450,000,000 to $500,000,000 in the hands of four men, who have made it all around this Stock Exchange, out of the gambling propensities and the credulity of the people."

"You surprise me in rating Russell Sage so high."

"Well, it is a fact. He has been a cool, steady, strong man, playing no tricks, but scooping it in all the time. I may say for him that if you get his name to a piece of paper it is just as good as any obligation in the world. Gould has been the most dexterous of this lot. Keene represents his name. In character he is certainly a wonderful keen man. The history of his operations in Lake Shore and North-Western would be a great subject for one of your letters. He took Lake Shore at 60, and got rid of most of it at a profit of 100 per cent., and in the same way he took North-Western when it was about 40, and sold most of it at about 300 per cent, profit, for it went up to 126 last year, and stands now at about 130. Vanderbilt now owns the railroad."—*Cincinnati Enquirer.*

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

Bright's Disease, Diabetes.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

A Gentleman Aged 65, writes : "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

Admitting the Fact.

From the Hamilton Times, (Lib.)

We are whipped. There is no use squealing or explaining, or talking about "moral victory." The simple fact remains that we are whipped, and badly whipped.

The Smith Medicine Co.—Gentleman,—I have very much pleasure in testifying to the efficacy of Dr. Smith's German Worm Remedy I found it to operate successfully after only two doses. Have tried other remedies with the child without success. Yours truly, W. T. Hart, 128 Amherst St., Montreal.

WHY BEEF IS DEAR.

Enormous Shipments to Europe, and Severe Weather and Droughts the Cause.

A New York wholesale dealer gives the following four reasons for the enhanced cost of beef :

The first is the enormous shipment of beef to Europe. For eight or nine years past, the shipments of cattle have averaged four thousand to five thousand head per week from the three ports of New York, Boston and Philadelphia. Cattle were being carried away and eaten faster than they were being bred. Not even the vast herds of Texas, Missouri, and other parts of the far West, can as yet produce cattle enough annually to keep up with the demand, especially if the production is affected by any exceptionally unfavorable circumstance. And that brings me to the second clause of high prices. Two winters ago we had a remarkably severe season. It is not an over estimate to say that fully half a million head of cattle perished that winter from cold and hunger in the West. The third cause was the excessive drought that prevailed last summer and the summer before. Last summer it was so bad in many cattle growing districts of the West, that stock had to be driven six or eight miles daily for water. Of course, under such conditions, it was impossible to fatten them or put any flesh on them. The best that could be hoped for them was that they would exist. The autumn came, and with it the fourth of my reasons. Farmers found that they were offered such prices for ther corn and hay as paid them better for selling it than feeding it to cattle. Many of them sold their cattle to the butchers. Others kept the poor beasts on half rations of hay and straw or chopped cornstalks. Then, when spring came, or the time when we should have had spring, if something hadn't gone wrong or missed connections, the cattle were in no condition for the market.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh. Bronchitis, Asthma and Lung disease by Dr. Souvielle's Spirometer and instrument, which conveys medicinal properties direct to the seat of disease Read and judge for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of *Post* and *True Witness*, Montreal. Mr. C. Hill, Montreal, catarrah and bronchitis. Mr. DeBoucherville. of the Indian Deparment, Ottawa, catarrh of many years, now cured; Mr. Geo. Ager, Ottawa, cattarrh and lung disease ; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 482 Adelaide street West ; daughter cured of asthma. George Willis, Exeter, Ont,, Catarrh and Bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrahl deafness. Thomas Telfer, 12 Merinda street, Toronto, asthma ; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma, and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitation in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis, John C. Fleming, Editor of *Post* and *True Witness*, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physiciann always in attendance. Every information given. Physicians and sufferers can try the Spirometer free.

$200.00 Reward !

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

FROM ALL OVER.

Mr. BLACK, the novelist, is seeking inspiration by hobnobbling with Arabi Bey in Egypt.

IF Cattarah has destroyed your sense of smell and hearing, Hall's Cattarah Cure will cure you. 75 cents per bottle. Druggists sell it.

A LADY teacher at Muirkirk, Elgin County, was fined one day last week for unnecessarily whipping one of her pupils.

Trouble, which to-day looks as big as a millstone, may, ere to-morrow's sundown, shrink to the size of an ice-cream saucer.

$100 REWARD is offered for any case of Cattarah that can't be cured with Hall's Cattarah Cure. Taken internally. Price 75 cents.

THE Belgian Government is about to adopt pulverized meat for an army ration. One pound of the article is said to be equal to six pounds of fresh beef.

NEVER BE WITHOUT IT.—Tourists and all who are subjected to a change of climate, water, diet &c., should never be without Dr. Fowler's Extract of Wild Strawberry, the infallible remedy for all Sumner complaints.

A FAIR American, Miss Amy Fay, is the authoress of an unambitious but interesting volume of German souvenirs, entitled "Musikstudien in Deutschland," which has just been published in Berlin.

THE Bismark *Tribune* says that farming is not likely to make progress among the Indians, in view of their full recognition of the fact that their success in it means the cutting off of government rations.

A SON of John McKellar, of the Township of Ekfrid, aged 3 years, died recently from the effects of a bite received from a swift, a species of lizard which inhabits low ground and rotten logs.

MR. R. W. CARMICHAEL, Chemist and Druggist of Belleville, under date of May 31st, 1882, writes as follows :—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

A YOUNG girl, named Nancy Cook, employed at the Station Hotel, Ridgetown, attempted to commit suicide by poisoning, the other day. The man whom she married to save her honor, deserted her, and she became disheartened.

FAMILIAR as household words—the names of Esterbrook's celebrated steel pens—Falcon, Bank and Easy Writer. To be had from all the Booksellers, Stationers and Newsdealers.

THE students of Michigan university are to act Rachine's comedy, "Les Plaideurs," speaking French, wearing strictly correct costumes, and using scenery in conformity with that of the French stage in the seventeenth century.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

ANTHONY TROLLOPE, who has been very much out of health lately, is about starting on a tour through Ireland. He intends to write a novel description of Irish country life at the present time. Mr. Trollope is well acquainted with Ulster, as he was stationed at Belfast for many years when he was in the postoffice.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidney, skin etc., and strengthening while it regulates and purifies.

THE fact that a quart of pins, hairpins and needles was found in a mouse nest at Newton Lower falls, in pulling down the piazza of an old hotel, may not be a fact of importance in itself. Nevertheless, a partical solution of the puzzle of generations as to what becomes of the pins, is furnished by this Massachusetts mouse.

AN opinion from one whose experience the expression thereof is always in order. Mr. Hiram B. Ferguson, a member of the Supreme Court, Bar of the State of New York, whose office is at No. 287 Broadway, New York City says : "I consider St. Jacobs Oil a most wonderful remedy. I had been a sufferer from rheumatism for years and probably have endured as much misery from that disease as any man can stand. I tried many of the so-called remedies without any relief. Finally, I used St. Jacobs Oil which gave me almost instant relief. I found it a safe, sure and pleasant remedy. I believe it to be an infallible medicine. It is a pleasure to me to recomend St. Jacobs Oil to all who suffer and need its good services."

STATISTICS appears to show that Germany surpasses all other countries in the consumption of matches, the number used there daily being as great as from ten to fifteen per head of the population. This fact is attributed to the almost universal custom of smoking. In Belgium the consumption of about nine per head ; in England eight ; in France six.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation palced upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by druggists, or sent free by mail on receipt of price, $1.00 per box, or six boxes for $5.00. Address F. J. Cheney, Toledo, O., sole Agent for the United States. Send for circular.

A Pastor Dismissed for Drunkeness.

F. W. Maynard, who has officiated as pastor of the Church of Disciples, in St. Thomas, has been dismissed for drunkeness. He went to a picnic at Yarmouth Centre, and indulged too freely in the flowing bowl, with the result that his subsequent conduct was such as could not be tolerated in a Christian minister.

Harness and Trunk Store.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents :—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents :—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d. ; next size, 11s. Sold by chemiste everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6 Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

FRIDAY, JUNE 23, 1882.

POLICE COURT

ASSAULT.

THURSDAY, June 22.—James Reardon was brought down from the gaol on remand, charged with committing an assault on Mrs. Jane Newton with intent to do her grevious bodily harm.

The PRISONER pleaded not guilty and elected to be tried by the County Judge.

JOHN NEWTON was sworn and said that prisoner for two or three years at intervals had been in the habit of assaulting both himself and wife. On this occasion prisoner had taken his wife by the back of the neck and had hurt her severely—in fact, she was not able to appear at the court and give evidence.

The Magistrate committed prisoner for trial, and in doing so delivered a good, sound lecture to the prosecutor for keeping such a man as the prisoner around his premises, especially as he had appeared at the Court at least half a dozen times in the last few years, to answer to charges of assault on prosecutor and his wife.

FOUND DRUNK.

FRIDAY, June 23.—George Campbell, from the back country, was found drunk on the street last night, was lodged in the cells, and this morning appeared to answer the charge preferred against him.

The prisoner pleaded guilty, said he just came from Burleigh, and was working at the fire, and feeling thirsty, he had taken some beer, which had upset him and made him intoxicated. He pleaded hard for liberty, using the first offence cry with such success that he was allowed to go with a caution.

The Longest Days.

To-day and to-morrow are said to be the two longest days of the year, there being sixteen hours of daylight in each.

Two to One.

A certain old Reformer was overheard remarking to another on the street yesterday:—"This ain't fair. They say that every dog has his day, but these Tories have had two days to our one, and I say again it ain't fair."

Personal.

We notice the name of Mr. M. O'Brien among the prize winners at St. Michael's College, Toronto.

Mr. J. B. Trayes, of the Port Hope *Times*, was in town last night. He thinks "'twas a great victory" in East Durham.

Daly Hotel, Winnipeg.

The undersigned having bought the premises known as the Club Hotel, Winnipeg, have renovated it throughout. Hereafter it will be known as the Daly Hotel. The proprietors will be glad to see their old friends from Peterborough.—JAMES SHERIDAN and F. J. DALY, proprietors.

Cheese Market.

At the last regular fortnightly cheese market, held at the Drill Shed, there was a good attendance of both buyers and sellers. The sales were 1100 boxes of June cheese, at 10 5-16ths cents. and 108 boxes of May cheese at 10 cents. Mr. W. Cluxton purchased all that was offered.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes and Upper St. Lawrence—Light variable winds generally fair, warm weather, with local thunder showers.

Our Band.

The Lindsay *Post* man, whom we know is an excellent judge of music, speaks thus of the Fire Brigade Band:—

"The Peterborough band, which headed the procession at Mr. Blake's reception, sustained its reputation as the premier band of the Midland counties. They arrived on the 9 a.m. train and fifteen minutes afterwards the whole town knew they were here. The band renders the best of marching music with a "lift" that inspires the feet of the hearers to extraordinary pedestrian feats. In a selection they are equally at home. The band is a credit to the town and a credit to themselves."

The *Warder* says:—

"The Peterborough band, which visited Lindsay on Saturday to work up some enthusiasm for Mr. Blake, and who by the way it is said was paid $100 by the Ontario Government for so doing, is a fine band. Their different selections were very good indeed, and showed careful practice as well as keen appreciation of melody."

THE CINDER PATH.

The Pedestrian Tournament at the Skating Rink is a Grand Success.

On Thursday evening, the second pedestrian tournament under Mr. T. McNaughton, took place at the Skating Rink, and was a success as far as sport was concerned. The attendance was not as large as upon the previous occasion, but many of the events were more closely contested, and the victors in each case had to work for their victory. The Band of the Fire Brigade was present during the evening, and from the gallery discoursed inspiriting music, that helped along the pedestrians as they spun around the enclosure.

A splendid track or cinder path had been secured, just one fifteenth of a mile in length, so that to travel a mile it was necessary to walk fifteen times around the rink.

Messrs. Captain Edwards and J. Raine acted as judges, Jas. G. Macdonald, Referee, T. Raphael and E. Brow, Scorers and E. Connelly, Timekeeper.

AMATEUR WALK THREE MILES.

The first event was the three mile walk for amateurs. There were two entries. W. Hazlitt, Toronto and W. Spence, town. The former shot ahead on the start and being a very pretty as well as very fast walker, he kept gaining on his opponent every yard he walked. On the fourth lap he was half a lap ahead, on the sixth lap he was a full lap ahead and still gaining. He made the ½ mile 3.55 and the mile in 6.50. Spence kept on at the same easy going jog that he started with and walked around the rink paying no attention to the efforts of those who tried to induce him to quicken his snail's pace. Hazlitt made the 2 miles in 16.30, Spence making the same distance 2 minutes later. Hazlitt finally won by five laps in 25.17.

ONE MILE AMATEUR RACE.

In the above race there were two entries. R. McGregor, town and A. Elliott, Omemee. Both were boys and very evenly matched. McGregor led at the start, his competitor being very close behind. For the first quarter mile about six feet intervened between the two and the pace was hot and the race a good one. At the half mile Elliott ran to the front only to resume his old position in the next lap. The half mile was made in 2.20. On the 14th lap Elliott retired and McGregor finished the mile in 5.15.

ONE MILE PROFESSIONAL RACE.

For the one mile professional race, Messrs. J. Raine, Ottawa, A. Williamson, Omemee, and J. Watson, Town, were the contestants. The start was very even, Williamson taking the lead, being several yards ahead of Raine and the latter rather farther ahead of Watson, who was jogging along in the rear. Raine passed Williamson on the 7th lap, and made the half mile in 2.15. Raine kept gaining steadily until he had gained about half a lap, when Williamson began to close up. Raine noticed the move and spurting made the mile in 4.50, beating Williamson about one lap, Watson being considerably behind the second man.

BOY'S WALK.

This event was one of the best contested and most exciting events of the evening. The entries were Jas. Hannah, W. Logan and J. Fairweather. A good start was effected, the contestants for the first three laps being in the order named, after which Logan commenced to gain on Fairweather very perceptibly, but not on the leader. On the 6th lap Hannah and Logan spurted, and from that to the finish it was nip and tuck for first place. Hannah finally won in 7.25, Logan pressing him hard and finishing a splendid second, Fairweather being considerably in the rear.

FIVE MILE PROFESSIONAL RUN.

This race was looked to by all as the event of the night, and such it undoubtedly was, as such an exhibition of running and staying powers has never been seen here. The entries were J. Raine, Ottawa, who had a great reputation as a runner, and is sometimes called the champion of America, and M. Bird, who also had a local reputation as a mile runner, and J. Watson. Raine took the lead in the start, closely followed by Bird, Watson being last. Bird took the first place in the fifth lap, but at the half mile Raine again resumed the lead, running the first mile in 5.13, the second in 10.40, Bird gaining slightly, the third in 16.55, Raine being then being exactly one lap ahead and clogging Bird around the track. Raine made the fourth mile in 21.50. Bird then spurted amidst loud cheers and gained a half of the lap he had lost. The race was now a splendid one, Bird was gaining on Raine, who had taken a stitch in his side, was laboring hard, and had only half a lap to make to win, and win he did, in 28.25, Bird being 12 seconds behind. Bird ran a good race, but there are many, who, knowing what Raine can do, feel confident that he could have made better time, had he seen fit to do so, while many others think that Bird, when in proper training, can press Raine still closer.

THE LAST OF ALL.

The wind up was a race between W. Hazlitt, Toronto, who undertook to walk half a mile, while R. McGregor ran a mile and a half. Hazlitt won by half a lap.

In conclusion we may say that everything was conducted in the fairest possible manner, and we have heard of no complaints whatever. While the tournament was a success in many respects, we are afraid that the promoter will find himself out of pocket, as the attendance was not large enough to warrant the expenditure of the amount of money laid out.

THERE IS NO MORE wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry,

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

PORT HOPE.

SAD DROWNING ACCIDENT.—The *Guide* says that Capt. Geo. Wright received a telegram on Thursday that his son Mark—who was mate of the steam barge Van Allan, which was unloading walnut timber at Quebec—had been knocked overboard and drowned. The particulars are not given. The body has been found and will arrive here to-morrow evening at 8 o'clock. The deceased was 28 years of age, the fourth son of Capt. Geo. Wright. He leaves a wife and three children to mourn his sudden departure. The family have the sympathy of all their numerous friends in the hour of their deep distress.

Declines the Honour.

The Ottawa *Free Press* with its usual amount of accuracy, place Mr. George Hilliard among the Opposition members in its list of the returns.

Filling a Tank.

The steam fire engine was engaged this morning in filling the tank in front of the convent on Rubidge street. The Silsby was placed at the Simcoe street bridge, and a very long line of hose was required to fill up.

Meeting After Forty Years.

The Fulton *Patriot* relates that William Spooner, for many years a lumber dealer at Port Hope, Ont., being called to Oswego on business this week, concluded that he would go to Mexico, fifteen miles distant, and look up his brother Trueman, whom he has not seen since he went to Canada forty years ago. His brother having to go to Phœnix, he stopped in Fulton on his way there, and asked his cousin, S. R. Spooner, formerly of Mexico, to go to Phœnix with him. Trueman happened to be at S. R's house. William went to the house, but his brother did not recognize him till they were introduced to each other. The are respectively 72 and 76 years old.—*Palladium.*

HALL'S Catarah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by druggists.

The Fight Goes Bravely On!

SCOTT'S CORNERS, June 10.—A rousing meeting was held here last night. The address by the Conservative speaker was most telling and was admired, together with his gentlemanly appearance. He wore one of T. DOLAN & CO'S suits.

INDIAN RIVER, June 10.—A general meeting of the Reform Party was called for here this evening. Quite a crowd assembled, but before the meeting began, word was received that T. DOLAN & CO., of Peterborough, had reduced the price of Ready-made suits. The meeting at once broke up to take advantage of the offer.

ENNISMORE, June 8.—The joint meeting last night was very noisy, neither speaker could obtain a hearing until they sent for PETE SIMON, the well-known cutter for T. DOLAN & CO, when the noise at once ceased. Mr. Simon seems to have the confidence of the clothing constituency.

LAKEFIELD, June 9.—The Reform speaker was received with words of applause. The Tories are completely demoralized. The address eulogized the two local enterprises—the Trent Valley Canal and T. Dolan & Co., Clothiers, of Peterborough. The audience voted *en masse* in favour of both.

BRIDGENORTH, June 9.—A most enthusiastic Conservative Caucus was held here yesterday. After an able exposition of the N. P. and an enthusiastic discussion of the price of butter tubs, a deputation waited on the speaker and enquired where he got his good clothes. He at once frankly referred them to T. DOLAN & CO. of Peterborough.

APSLEY, June 8.—What looked like a free discussion with blows, wound up a meeting held here yesterday. The arguments of the gentlemen against the N. P. were knocked sky-high by the exhibition of a fine TWEED SUIT offered as evidence of no higher prices by T. DOLAN & CO. of Peterborough. Good humour was at once restored, and the meeting broke up with cheers for the firm.

GENTLEMEN! what will be the verdict at the polls in the face of such testimony.

Yours,

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

ROBBED

—Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

GERMAN INVIGORATOR

Which positively and permanently cures **Impotency** (caused by excesses of any kind), **Seminal Weakness**, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circulars with testimonials free by mail. The INVIGORATOR is sold at $1 per box, or six boxes for $5, by all druggists, or will be sent free by mail, securely sealed, on receipt of price by addressing

F. J. CHENEY, Druggist.

TRENT NAVIGATION.

FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Lift Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows:—

For the Fenelon Falls work	$1,000
" Buckhorn Rapids work	500
" Burleigh Falls work	1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN,
Secretary.

Department of Railways and Canals,
Ottawa, 22nd May, 1882. d127-3t.11

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

SLENDER MAJORITIES.

Is it supposed that the force of the Conservative victory can be lessened by publishing false statements, which can be refuted on the spot? The *Globe*, in a disgraceful article stating that the Government is one of slender majorities, gives the number of seats won by Conservatives by majorities not exceeding 150 as being 17 in Ontario and 33 in the Dominion. Even if these figures are correct, is it not palpably dishonest of the *Globe* to conceal that there are already 25 Liberal members in Ontario and 34 in the Dominion with even smaller majorities, a number to which the complete returns will add? It must be remembered, too, that the proportion of Ministerial to Opposition members is 2 to 1. so the small returns should be in the same ratio. The following is the list, so far, of Opposition members with majorities not exceeding 150:—

CANADA'S GREAT STATESMAN.

The New York "Tribune" on the Elections—A Deserved Tribute to the Premier.

NEW YORK, June 22.—The *Tribune* to-day says:—"Sir John Macdonald's reputation as a political manager has been justified by the results of the Canadian elections. He has been elected by two constituencies; his colleagues in the Ministry have been successful in the various provinces, and his majority in the new Parliament will be very large, even if it does not exceed his majority in the last Parliament. The Conservatives have held their ground in Nova Scotia, strengthened their position in Quebec and New Brunswick, and not met with serious losses in populous Ontario, where the Opposition have been making frantic appeals to sectional prejudices. The three Toronto districts, comprising the most influential constituencies in the Dominion, have been carried by the Government, and three of the Opposition leaders—Sir Richard Cartwright in Ontario, and Sir Albert Smith and Mr. Anglin in New Brunswick—have lost their seats. Mr. Blake and Mr. Mackenzie have been re-elected, but with the forces at their command they will be unable to make a successful stand against the overcrowded Ministerial benches. Sir John Macdonald has achieved a triumph which gives him the first rank among Canadian statesmen of the past as well as the present. In 1878 he gave the constituencies a broad and comprehensive issue, the National Policy of protection, and when he entered upon office he fulfilled his pledges. He gave a powerful impulse to manufacturing interests and industrial energies, converted a Treasury deficit into a surplus, and promoted practical schemes of railway construction of the first magnitude. When the general lines of his policy had been defined so clearly that the constituencies could follow them intelligently, he dissolved Parliament long before its term had expired, and appealed to the people for unequivocal support on the basis of the high tariff. The constituencies have sustained his Government, and in this way have given their positive sanction to the National Policy."

MIDNIGHT TELEGRAMS

CABLE.

THE FIRST SESSION.

PARIS, June 23.—The conference, there is reason to believe, would have held its first regular sitting yesterday had it not suited the Austrian Government to take up a peculiar position by deliberately omitting to send the necessary instructions to its representative at Constantinople. On this becoming known to the two western Governments an immediate interchange of despatches took place between M. de Freycinet and Lord Granville, the result of which was that a joint communication was addressed to Austria by England and France couched in very vigorous terms, declaring that if she persisted in her isolated course, Austria would have to take the responsibility for anything that might happen in consequence in Egypt. This communication, coupled with the fact that Prince Bismark was quite determined that Germany should adhere to the conference, had a speedy and satisfactory effect, and the needful instructions having been forwarded to the Austrian ambassador, the conference was able to meet this afternoon.

WHOLESALE ARRESTS.

ST. PETERSBURG, June 23.—The police have seized thirty-eight pounds of nitro-glycerine and 120 pounds of dynamite in a house searched yesterday, besides a quantity of bombs of the newest pattern, ten of which were loaded. Among the persons arrested are several naval officers and a Jewess. It is also said that an operetta singer is implicated in the plot. The major of hussars arrested had for some time been suspected and watched by the police; agents disguised as coachmen followed him wherever he went, and without knowing it he had repeatedly been driven about by his spies. Latterly, too, he had unsuspectingly made himself a friend of the police agent, whom he was in the habit of meeting at a restaurant. Up to the present time about eighty persons have been arrested.

THE JEWS IN RUSSIA.

ST. PETERSBURG, June 23.—*Le Messenger Official* publishes to-day a long circular from Count Tolstoi regarding the Jews. It says in substance that while existing laws must be respected, local exigencies must also be taken into consideration. All attempts against the Israelites will be promptly and energetically repressed. The recent exceptions were due to the slowness or inertness of those charged with the repression of outrages. The circular menaces with dismissal all the functionaries who display a similar weakness or negligence.

RAILWAY DEED SIGNED.

LONDON, June 23.—The deed effecting the consolidation of the Grand Trunk and Great Western railways of Canada has been signed.

DELUDED PEASANTRY.

ST. PETERSBURG, June 23.—Another secret printing establishment has been discovered at Moscow. The Communist delusion is spreading among the peasantry, who are persuaded that the Emperor at his coronation will make them a present of the estates of the nobles. This is one of the reasons why the coronation was postponed, as the disappointment would lead to an insurrection.

THE REPRESSION BILL.

LONDON, June 23.—During the debate in the House of Commons this afternoon on clause 12 of the Repression bill Mr. John Bright said it was obvious that the condition of Ireland was made greatly worse by the subscription raised in America by persons coming from America to participate in conspiracies. He did not hesitate to say that subjects of the Queen who took part in the Chicago convention were traitors to the Crown. The object of the clause under discussion was to prevent conspirators of the very worst dye exciting people to disorder. Mr. Sexton warned the Government that the feelings generated among Irishmen in America by seeing their countrymen driven as aliens from their careers of industry must cause trouble to Great Britain at no distant date. The clause was adopted by 132 to 30. Clause 13 defining the power of justices to summon witnesses was passed.

SUSPECTS AT DRILL.

DUBLIN, June 23.—The police have discovered fifty men drilling in county Roscommon. Eight were captured, and three recognized as released suspects.

AMERICAN.

BUFFALO PRINTER'S STRIKE.

BUFFAO, N. Y., June 23.—The *Couaier* and *Commercial Advertiser* still remain firm in the position taken at the outset in regard to the strike. Both papers have a few printers from out of town engaged to take the place of the strikers, while a number of others who came to the city to work have been induced by the strikers to join their ranks. The papers are being published regularly. The attitude of the disaffected printers remain the same; they are very quiet and orderly, remain in the neighborhood of the two papers and quietly use their influence to dissuade new comers from going to the cases. The proprietors are hourly in receipt of telegrams from typos from other cities, and feel confident of being able to fill the places of the strikers by the close of the week. A few of the dissatisfied men would have been taken back but refuse to come unless all the strikers are returned, a dictation to which the publishers of the *Commercial* and *Courier* declare they will not submit.

NORWOOD.

CHEESE "BOOMING."—The *Register* says that Since Mr. Pearsall has taken control of the Norwood Cheese Factory, business—in the cheese line—has improved wonderfully. When he first took possession the factory only turned out three cheese per day, but by perseverance and strict attention to business he has raised it from that number to seven per day. His factory in Westwood is also doing well—better than he anticipated.

CAN IT BE BEATEN?—We have been shown two stalks (pulled indiscriminately) of Rye, grown on Mr. W. H. Stephenson's farm near this village, which measured 6 feet 4 inches in length. Farmers! if you have anything in the Rye line that 'can beat this we would like to hear from you.

TO LEAVE.—The Rev. W. M. Pattyson has been appointed pastor of the Coboconk C. M. church by the Toronto Conference. He intends taking his departure about the first week in July. His many friends in this section will regret this change exceedingly, and will join with us in wishing him all success in his new field of labor.

BUSINESS.—Mr. J. Finlay returned last Saturday from a business trip through Western Ontario. He reports a large number of heavy sales. He left yesterday for a trip through the eastern portion of the Province.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

ATTACKING BRIGHT.

LONDON, June 24.—During a debate in the House of Commons, last night, Healy violently attacked John Bright, describing him as a political renegade.

THE AMERICAN CREW.

LONDON, June 24.—The Hillsdale crew is staying at Hammersmith.

AUSTRIA CHIPS IN.

LONDON, June 24.—In the House of Lords Granville announced that Austria has consented to join the conference.

AN INFERNAL MACHINE.

LONDON, June 24.—It is stated that a package of powder with a smouldering fuse attached was discovered inside of the railing of the Vestry Hall at Kensington.

AMERICAN.

BRADSTREET'S WEEKLY REPORT.

NEW YORK, June 24.—Special despatches to *Bradstreet's Journal* from leading cities throughout the United States again point to encouraging progress in the general trade situation. The prospects warrant preparations for a favorably active fall trade. The outlook for wheat is good, and for corn is for an average crop. There is no change in the industrial situation. New York City's trade has been seriously blockaded by a strike among freight handlers. There were 137 failures in the United States and Canada reported to Bradstreet's Journal during the past week—an increase of 33 over preceding week, and 52 more than during corresponding week last year. New England States had 20, increase 6; Middle States 38, increase 5; Southern States 7, decrease 3; Western States 55, increase 25. California and the territories same as preceding week. Canada 8, decrease 5.

FOR MURDER.

NEWTON, N. J. June 24.—James Freglawn who murdered Minnie Cheogeoin at Point Oran has been arrested.

DAVITT CONTRADICTS

JERSY CITY, June 24.—In a speech here last night, Davitt vigourously contradicted Mathew Harris' charges.

ON THE TURF.

SALT LAKE CITY, June 24.—The mile and a half dash for five thousand dollars a side between Redboy and Wild Moon, was won by Redboy, time 2.41¼.

ARISTOCRATIC ROBBERS.

PITTSBURG, June 24.—Jury commissioners, Saunders, Breen and others were arrested yesterday on a charge of entering a Chinese laundery and robbing the proprietor.

SMALLPOX.

COLUMBIA, Ohio, June 24.—Small-pox is raging in the North Eastern townships of Hicking County. There has been 20 deaths so far.

A WATERY GRAVE.

SCHENEDADY, June 24.—Albert Carmichael, a member of the senior class of Union College was drowned last evening while swimming in the Mohawk, just before the time he was to have delivered the valedictory oration at the anniversary of the Adelphic Society.

BAD BEEF.

HARTFORD, Conn., June 24.—It has been discovered that the butchers have been carrying on a large traffic in unwholesome meat, of distillery fed cattle.

A BOLTER'S MEETING.

NEW YORK, June 24.—The *Herald's* Washington special says that private despatches from Tennessee, says that the bolt from the Democratic state convention, was headed by ex-Senator Bailey, ex-Governor Porter, ex-Attorney-General Wright and General W. H. Jackson, brother of Senator Jackson. 200 delegates participated in the meeting of Bolters.

THE LAST FALL.

RHINE CLIFF, N. Y., June 24.—Henry Grabert Redcliffe, sole survivor of the party who accompanied Dr. Hayes, on his second polar expedition, died yesterday, aged 43.

DOLLARS FOR CENTS.

NEW YORK, June 24.—At the sale of the Bushnell collection yesterday, three United States cents dated 1792, brought $120, $290 and $300 respectively.

Lumber on Fire.

TRENTON, June 21.—About 2.30 this afternoon a fire was discovered in a pile of lumber in Gilmour & Co.'s mill-yard. An alarm was given, but before the fire brigade got to the yard, or the company's own appliances could be got to play on it, fanned by the high winds the fire spread with fearful rapidity until the whole o the lumber in the north-east part of the yard was in one blazing mass. Fortunately the wind was blowing away from the mill or nothing could have saved the splendid new mill now completed, and it looked as if they would go at one time, and assistance was telegraphed for from Belleville and Cobourg. The fire, after leaping through the yard, fired four of the houses belonging to the Company and occupied by their men, also a couple of other small houses. The fire brigade with the mill hands were enabled to keep the flames from working up against the wind toward the mill and other buildings, the whole of which are saved. The fire was got under control about five this afternoon, after destroying about 5,000,000 feet of lumber, four large dwelling houses and two small ones. The loss will exceed $100,000, covered by insurance. The fire is supposed to have been caused by some one smoking and leaving his pipe in the lumber pile, as a pipe was found where the fire started.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents, For sale by all Druggists.

Daily Evening Review

SATURDAY, JUNE 24, 1882.

SOME ELECTION NOTES.

Our own home district has certainly done its duty well. East and West Peterborough, North and South Victoria, East and West Northumberland, East, West and North Hastings, and East Durham have all chosen Conservative representatives, and only West Durham has elected a Reformer. Nine supporters of the Ministry out of the ten, and then, as there must be one Reformer to make a little variety, the district would condescend to nothing less than the leader of the Opposition.

* * *

Besides their utter failure as to numbers, it is noteworthy how many of their leaders the Opposition have to lament They have lost seven ex-Ministers, viz., Sir Richard Cartwright, Sir Albert Smith, Messrs. D. A. Macdonald, L. S. Huntington, R. Laflamme, A. G. Jones and David Laird, besides ex-Speaker Anglin, ex-provincial Speaker Turcotte and several lesser lights.

* * *

Another point worthy of remark is the thoroughgoing support which the centres of intelligence have given to the Government. Every city constituency has pronounced in favour of Sir John Macdonald's administration, with two exceptions only, and even from them something may be learned. Kingston has the reputation of being the least enterprising of the Ontario cities and remains in Opposition. Quebec, which returns one Liberal to two Conservatives, is also rather wanting in energy, and has let others outstrip it. Perhaps both these ancient cities rely too much upon their historical reputation.

* * *

Peterborough gives a majority of 237 in favour of the National Policy, while Lindsay gives a majority of 6 against it. Who that knows both towns, and their relative enterprize, energy and intelligence, can be surprised at the respective marking of their ballots.

* * *

East Peterborough, if it has no town, has several flourishing and enterprising villages for *its* centres of intelligence, and they have not proved recreant to their duty. Ashburnham gives the magnificent majority of 84 or nearly three to one, Lakefield contributes its quota of 59 or more than two to one, being the splendid increase of 40 over its majority in 1878, and even Norwood, in spite of some not unnatural sympathy for a local man, added its mite of 4.

* * *

Though in 21 constituencies the Reformers did not venture to put a standard bearer in the field, we learn that several of their candidates will forfeit the $200 exacted from them for vexatious opposition, where they could not poll more than a third of the ballots cast. Mr. A. Turcotte, ex-Speaker, is said to be among the number. Those who had the hardihood to contest Carleton with Sir John Macdonald nearly shared the same fate, for he polled just 1,200 against 621 for the Reform candidate, the other Conservative candidate just saving himself with 600. The chieftain nearly beat both his competitors combined, and the Conservative majority was almost three to one.

THE PROVINCIAL ADMINISTRATION.

Though one of the principal planks in the old Reform platform was the non-interference of Provincial governments in Dominion politics, Mr. Mowat, his colleagues and their officials did all in their power for their allies in the recent elections for the House of Commons. The Lindsay *Warder* says :—

"Mr. S. C. Wood, whose proper place we believe is in the treasury department of the Local Government in Toronto, made it his business to come up here and interest himself a great deal in this election, and we trust he is now satisfied with the result. Mr. Wood may possibly think he had a perfect right to interfere in a Dominion election if he chose ; but whatever Mr. Wood may think the electors of South Victoria do not look at it in such a light, and we shall be very much mistaken if the insult is not most emphatically resented on the first opportunity that presents itself."

If we had not in Peterborough a member of the Provincial Cabinet to interfere in our elections, we had to contend against the influence of Provincial officials, with all the prestige of their public position, and the unfair use of Provincial funds, that is of our own money. We, too, will not forget this when the proper time comes.

THE CHIEFTAIN.

Sir John Macdonald has great reason to be proud of the result of the elections. He is getting to be an old man, and this is in all human probability the last time he will appeal to the people of Canada to maintain him in power. He is in his sixty-eighth year. No doubt his personal popularity had a good deal to do with bringing about the triumph of the Conservative party, for whatever his faults may be, it is undeniable that he is the most popular man in Canada to-day, and would be the first man selected for Governor-General if the office were filled by election instead of by appointment. It is to be hoped that he will take advantage of the opportunity now offered him to broaden the basis of his Government. It is too Tory. He should introduce the leaven of liberalism, and so strengthen it in the hearts of the people that when his successor comes to the front, the party will not go to pieces, as its opponents now prophecy will be the case. The manufacturers and the skillful artizans have twice returned him to power. Many of them left the ranks of their own party in order to vote for the N. P. He should show his appreciation of their support and clinch their allegiance by giving them a representative in his Cabinet. They are far more entitled to it than the Catholics are, and we have all seen to what length he will go in order to catch the Catholic vote. Sir John's career has been a most extraordinary one. During the thirty years he has been in the field of politics his has been the greater part of it the controling mind. A triumph like that which he has just gained must make him feel that he lives in the hearts of the people and should inspire him to do that which is best for the country with whose history his name will be forever intertwined.—*Toronto Telegram.*

LINDSAY.

Serious Accident.—The *Warder* says that Mr. Thos. Fobert, formerly of this town, but now of Fenelon Falls, met with an accident on the 24th of May that may prove fatal, and which took place three miles from Fenelon Falls, while performing at a celebration. He was acting on a trapeze, which was made by the branches of trees, and while springing from one to another the branches bent and he missed his grip, thereby falling to the ground. He was picked up and found to be internally injured, and was brought to his parent's home in this town. He laid here in a very low state for a day or two, but seemed to be gaining, and, against the wish of his medical advisers, started off for Fenelon Falls to resume work. All went well for a week, when all of a sudden he became worse than before. He was brought to Lindsay again on the 14th instant, and has been speechless ever since. The doctors are unable to find where he is hurt, and, though speechless he seems to be sensible. He now lies in a very precarious condition, and doubts are entertained as to his recovery.

Congratulatory.—After the close of the large meeting on the market square, at which several speeches were made, congratulating the Conservatives on the victory achieved, a large number proceed to the residence of the newly elected member where refreshments were provided by Mrs. Dundas on an extensive scale, and where a couple of hours was pleasantly spent in the reception extended to all by that lady. The band also paid Mr. Dundas a compliment by giving that gentleman a serenade. The grounds were beautifully lit up by Chinese lanterns and we might say hundreds were welcomed during the evening from the first news of the returns until late in the night.

Buying Cattle.—Mr. James Cain, of this town, has agreed to buy for Mr. E. B. Morgan, of Oshawa, 300 head of sheep and 1,000 lambs. The sheep are to be ready for export by the 10th of July and the lambs by the 12th of September. Mr. Morgan intends shipping the sheep to England and the lambs to New York.

The Paper Mill.—The *Post* says that the paper mill improvements will be so far advanced by the end of this week that everything will be nearly ready for the machinery, which has been in the manufacturer's hands for the last two months. The boiling tubs are already in position. The boilers have been generally overhauled and new furnaces and grates were built in underneath. Before getting up steam the boilers will be tested and if found satisfactory the engine will be tried. There will be a wide market for the product of the mill, as the demand for this class of goods is increasing so rapidly that another concern is about being started in Peterborough.

Sheep Killed.—Ten valuable sheep belonging to Mr. David Walker, Reeve of Ops, were killed by dogs on Monday night. The ten young lambs by their sides were not touched. It is a pity Ops has no dog by-law.

An Early Blast Furnace.—Referring to the Kinmount iron industry now being pushed forward by Messrs. Parry and Mills, the *Post* said it was the first blast furnace in Ontario. It seems that this statement is not a correct one. Forty-five years ago Mark Seymour and his brother, the latter father of Mr. William Seymour of this town, crossed Lake Ontario from New York state and started a small furnace at Madoc, opening up the famous Seymour iron mine to furnish the furnace with ore. Prospectors from the States had been through the Madoc region, and were favourably impressed with the resources of the country. The trade, however, being purely local, did not develope into anything large enough to support the enterprise of the Messrs. Seymour, and after running for two seasons the furnace shut down. They used a cold blast and smelted with charcoal, turning out an excellent quality of iron. During their operations the experiment was tried of smelting the ore with wood supplemented by the blast, and a very fair result was obtained.

CAMPBELLFORD.

Sudden Death.—The *Herald* says that a boy named Lloyd, residing in Rawdon township, died rather suddenly last week at his father's home. The little fellow was sent to school, but awaiting an opportunity he got away and went into the water to bathe. He became ill soon afterwards, inflammation followed, and the next day he died. He was thirteen years of age.

Larger Quarters Needed.—The managers of the Grand Junction division having given their prompt and steady attention to the improvement of the road, and the necessity of increased rolling stock and appliances along the line, it is somewhat unaccountable that they should have overlooked the present inconvenience at the Campbellford station. Commonly speaking there is no passenger accommodation. The little building has been partitioned off so that one-third of it has been allotted for office use, and this is sub-divided to separate the office from the remaining portion. For passengers there is a space 8x10 feet, where two benches are placed capable of seating eight or ten persons. This constitutes the "general waiting room," where passengers—ladies and all, in a promiscuous crowd—are required to await the arrival of trains, unless they take a standing position outside on the platform, where the waiting of the majority is done. A similar fault may be found with the freight shed, and sometimes freight and trunks have to remain outside until taken away. A station having the passenger traffic that this one has, should have a better reception room. No objection could be taken to it in earlier days, but now when there is ten-fold the travel, something on a more extensive scale should be erected. The entire building could be used solely for a freight shed, and a new station with a baggage room erected a short distance from it. Either that or an enlargement of the premises is absolutely necessary, and should have the consideration of the Midland authorities. We trust they will see the deficiency and inconvenience as the passengers do, and give their officials better offices and the public neat and comfortable waiting rooms in due time.

Personal ! To Men Only !

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Thousands of women bless the day on which Dr. Pierce's "Favorite Prescription" was made known to them. In all those derangements causing backache, dragging-down sensations, nervous and general debility, it is a sovereign remedy. Its soothing and healing properties render it of the utmost value to ladies suffering from "internal fever," congestion, inflammation or ulceration. By druggists.

BOBCAYGEON.

Creditable.—The *Independent* says that it omitted to mention that the Rockland House was furnished by Mr. Bellegham, of Peterboro'. It is creditable to his taste as an upholsterer.

Canal.—The work of repairs on the Canal has commenced. It is expected that a number of hands will be placed on the works at once.

Bathing.—The water is pronounced to be warm enough for bathing. The bath-house should be put in repair for the season. It is a great convenience for everyone, and a general attraction with visitors.

Steamer.—Dr. McCamus' steam launch is taking in a new boiler. The old one was a perpendicular kind, and threw the weight too high above water level. The new one is a lay-downdicular or something of that kind, and is a great improvement. She returns to her duties between this village and Peterboro' at once.

A Nation's Printing Bill.

From a statement in the *Printers' Register* for June, we find the annual sum voted in Parliament for printing is £610,000. The printing of Parliamentry debates and records costs £5000 the Customs bills of entry, £4,000 ; the *Gazettes* for London, Dublin, and Edinburgh, £5,000 ; and the remainder is expended in salaries, printing, stationary, &c., for the various Government departments throughout the British Isles, which divided among the whole population, amounts to 4½d. per head.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts Bruises, Sores, Ulcers, Salt-Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

Bright's Disease, Diabetes.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

The Smith Medicine Co.—Gentleman,—I have very much pleasure in testifying to the efficacy of Dr. Smith's German Worm Remedy I found it to operate successfully after only two doses. Have tried other remedies with the child without success. Yours truly W. T. Hart, 128 Amherst St., Montreal.

A Gentleman Aged 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

New Advertisements.

Peterboro' Lodge A.F. & A.M.

The St. John's Day Meeting of Peterborough Lodge No. 155, A. F. & A. M., will be held in the Masonic Hall, George Street, this Saturday evening, June 24, at 8 o'clock, of which all brethren are requested to take notice. A cordial invitation is extended to the brethren of sister lodges. By order of the W.M.

HALIBURTON COUNTY COUNCIL.

The regular midsummer session of the Haliburton County Council was held on Tuesday, the 13th June. The Warden, J. C. Scott, Esq., reeve of Snowdon, presided, and there were present:—Mr. Delamere, Mr. Ferrier, Mr. Gainer, Mr. Kellett, Mr. Ritchie, Mr. Sidley, Mr. S. S. Peck, and Mr. Ogilvie.

The minutes having been read and approved, the Warden briefly detailed what had taken place since last meeting. The County Buildings had been repaired. They had strapped it with iron at a cost of $65. The county rates maturing in April had been renewed at seven per cent. The Treasurer had given the required bonds, but some delay had arisen in their execution. The business of the session was important, and many subjects would claim their attention, all of which would be laid before them in due order.

Mr. Mooney, the County Clerk and Treasurer then brought up the routine business, and a protracted discussion ensued relative to the cause of the delay in the execution of the Treasurer's bonds, which were those of the Guarantee Company. The discussion elicited the fact that there had been a trial before the Stipendiary Magistrate, between Mr. Gainer and the Rev. Mr. Jones, and that Mr. Jones had been the cause of the delay in the execution of the bonds, by writing to the Guarantee Company It was also stated that Mr. Mooney, the Treasurer, had commenced an action for libel against the reverned gentleman. The discussion occupied a lengthened period, and a resolution and amendment were introduced censuring Mr. Jones. Finally the matter was dropped.

Mr. Gainer moved that the equalisation of the assessment be the same as in the year 1880. He thought that the assessment of 1881 was neither just nor equitable. It was passed during his absence, and he believed that the assessment of 1880 was the one which should in justice be adopted.

Mr. Delamere moved an amendment to Mr. Gainer's motion. The yeas and nays were taken, and finally the assessment was equalized on the same basis as that of the year 1880. The assessment is as follows:—Minden, Dysart, Snowdon, Lutterworth, Anson $2.50; Stanhope $1.50; Monmouth, Glamorgan, Cardiff, $1.20; Hindon, Sherborne Dudley, Harcourt, Guilford Hatburn, Pruton, $1.00; Havelock, Eyre, Clyde, 50 cents per acre.

The Council then adjourned until nine next morning.

On Wednesday the first matter for consideration was the County School Rate. This has to be levied in accordance with the amount of money granted by the Local Government, which makes its grant on the basis of population as furnished by the annual census of the assessor. In some instances the assessor had been remiss in the performance of this duty, and the amount of Government money was deficient in consequence. The amounts granted by the local government were as follows:—Anson, $46; Cardiff, $72; Dysart. $128; Glamorgan, $67; Lutterworth, $69; Minden, $150; Monmouth, $54; Snowdon, $100; Stanhope, $70. A By-law levying similar amounts was passed by the Council.

The Reeve of Dysart moved a resolution to the effect that the repairs of the Haliburton Lock-up, made necessary by the damage done to it by an escaped prisoner, named Austin, be paid for by the County Council. A short discussion ensued as the repairs amounted to about $40. Mr. Ferrier seconded the resolution, and it was passed.

A resolution was passed authorizing the County Treasurer to put a barbed wire fence around the County Buildings lot. It was admitted that a wire fence was cheaper than a board fence.

Moved by Mr. Sidley, seconded by Mr. Ogilvie,—That the resolution authorizing the building of an addition to the gaol at Minden be rescinded. Mr. Sidley supported his motion in a brief speech. The Warden stated that the expense would be about $150. Mr. Delamere was in favour of building the addition, and of making a fit residence for the goaler, provided the expense should not exceed $115 or $120. Mr. Peck thought the building should be only 16 ft. by 12ft. Mr. Ferrier gave some useful practical information on the subject. Mr. Gainer gave a brief history of applicants for the office of constable. The Warden gave an account of the views of the stipendary Magistrate on the qualifications of constables, and the proper material for constable summer kitchens. Mr. Peck said the stairs should be outside. Mr. Gainer thought the stairs should be inside. The Warden explained Mr. Garrett's position in reference to the matter. Mr. Peck said the Council should keep its promise, and if Mr. Garrett and Mr. Whiteside remained in the present frame of mind it would be better to do something. The Warden thought the building should be 32ft by 12ft. Mr. Gainer said that it would be better to withdraw the motion and if the Warden could put up the building for $75 to the satisaction of Mr. Whiteside and Mr. Garrett that then he should do so, otherwise he was not to build at all. The motion was withdrawn.

Moved by Mr. Sidley, seconded by Mr. Ferrier,—That the sum of $250 be given to each of the municipalities of Dysart, Minden, Lutterworth, Snowden, Stanhope, Cardiff, Anson, Monmouth, and Glamorgan, to be expended for the making or repairing of roads in each township, and that the respective reeves be commissioners to expend the same, and that the corporate seal be attached, to give this resolution the force of a by-law.

A closely reasoned and temperate debate ensued. Mr. Sidley supported his motion in an effective address. He said the policy indicated in the motion would involve an expenditure of $2,500 on roads. This would have to be raised by taxation, and he might as well state at once that a large portion of that taxation would fall on the English Land Company, for that Company was paying something like sixty per cent of the whole taxation. But that Company was doing nothing to aid settlement, and was stripping the townships of their timber. The Company had been the means of involving the County in all its troubles. Had it performed its duties, it would have been an advantage to the County, but it had not done so, and as soon as it had got everything it could off the land it would throw the townships on the hands of the Government. The Company were simply trying to get all it could and give nothing in return, and therefore he thought it right that the Council should get from the Company all it could while the opportunity offered.

Mr. Peck said that the motion was most unjust, and he could scarcely think that they were in earnest. The proposal was really to take $1,500 or $1,600 from Dysart, give it back $250 and divide the balance among the other municipalities. There could but be one result of such a policy. The people injured would be driven to the Legislature to ask protection from such injustice. If this council legislated as unjustly as was proposed then those interested wood go to the Provincial Government, and ask to have the hands of those who sought to rob them securely and effectually tied. They would have to expose to the Legislature the action of the Council, and ask for protection.

Mr. Ferrier said that Dysart only paid in proportion to what it was worth. The English Land Company ought in justice to pay no more than its proportion, but in justice to others it ought also to pay no less. The land was the basis of the taxation, and if the English Company did not wish to pay taxes on land it ought not to hoard up its nine townships.

The Warden could not agree with Mr. Peck. If any going to the Legislature was to be done, it should be done by this council to compell the company to preform its duties. The Company was skinning the land of its timber, and was doing nothing for the County.

Mr. Gainer said he should support the motion. The Company had advertised forbidding all parties to purchase timber from the settlers without first consulting the Company, the Government was spending money in the Company's limits; the Company had got the cream of the County, therefore they ought to build roads.

The Warden dwelt on the value of the timber which the company was selling. He pointed out that the Company had not carried out their agreement with the Government to settle the townships. They were not liberated from their settlement duties. He regarded the Company as the ruination of the County.

Mr. Ritchie said that if the Company had done its duty the County assessment would have amounted to a million and a half of dollars, instead of that it only amounted to $700,000. For that the Company was to be blamed. The government's lands had all settled up, but the Company's had not.

A discussion ensued between Mr. Peck and Mr. Gainer, in which Mr. Peck defended the municipality he represented. Mr. Gainer declaring that the majority of the settlers in Dysart would support the motion. Mr. Peck said it was an injustice that that portion of the County which paid two thirds of the taxation should have only one ninth of the representation in that Council. He would ask the Council to withdraw the name of Dysart from the motion, as it did not want the $250, and so reduce the amount to be levied on them to $2,000.

A vote was taken as follows:

For—Delamere, Ferrier, Kellatt, Gainer, Ritchie, Ogilvy, Sidley, Scott.

Against—Peck.

The Council proceeded with the estimates for the year. The Clerk stated that the valuation of the County would this year be $86,422 less than last year. In 1881 it was $798,675, whilst this year as the Council had adopted the basis of 1880, it would be only $718,253. It appeared that the assets of the County for 1882 included the following sums due by the various municipalities:—

Snowdon	$1000
Cardiff	126
Monmouth	532
Glamorgan	654
Minden	191
Stanhope	30
Lutterworth	182

Deducting the amount in hand and the various assets, it was found that a sum of $4,789 would have to be raised by taxation, and to realise that sum a County tax of six and three quarter mills on the dollar of assessment would be required. A by-law was in consequence passed levying that amount.

Various small accounts were ordered to be paid, several details of minor importance were attended to, and the Council broke up.—*Bobcaygeon Independent.*

THE MAN WHO BOXED.

And His Short but Eventful Experience with the Man who Sold Strawberries.

(From the Detroit Free Press.)

There are scores of respectable and reputable heads of families in this city who take regular lessons in the manly art of self-defence, and who spend an hour every evening in swinging clubs, and otherwise developing and hardening the muscle. One of the most enthusiastic of the lot had finished his boxing lesson the other night, when the trainer said:

"I am sorry to lose your money and your company, but I feel it my duty to say that I can teach you nothing further. You have the science and muscle to clean out a crowd, and heaven help the man who stands before you."

The citizen went home with a consciousness that only cowards carry revolvers, and he wondered how a man would look after he had given him a socdologer straight from the shoulder. The next morning, as he was leaving his house, along came a strawberry man, who was yelling his wares at the top of his voice.

"Do you sell any more berries for yelling in that manner?" asked the citizen as the peddlar drew rein.

"Oh, take in your nose," was the reply.

"Some one will take your whole body in, some day."

"But it won't be a man with a wart on his chin."

"No impudence, sir."

"And none from you, either."

"You deserve a good thrashing."

"And perhaps you can give it me?"

There was the golden opportunity. The one had science—the other impudence. The one had received thirty-eight lessons in boxing—the other fairly ached to be pounded.

"Don't talk that way to me, or I'll knock you down!" said the finished pupil, as he gently threw himself in position to mash a brick wall.

"Oh, you will, eh? Then let's see you do it!"

Even the graduate couldn't tell exactly what took place. He remembered being kicked in the shins, struck on the chin, and twisted over a horse-block after he fell; but when consciousness returned his wife and children were crying over him, and the peddlar was two blocks down the street, shouting:

"Straw-buries—great big ones—perfect daises—two shillings a quart without any thumb in it!"

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

A Reward—Of one dozen Teaberry to any one sending the best four line rhyme on Teaberry, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

Teaberry whitens the teeth like chastened pearls. A 5 cent sample settles it.

FROM ALL OVER.

"It certainly is an elegant remedy for all pains and aches," says Dr. J. Turner, of Shirrell's Ford, N. C., speaking of St. Jacobs Oil.

The Illinois sheriffs have been holding a convention. Their platform is not likely to prove acceptable to the murdering classes.

A Detroit boy conquered the measles in twenty hours, and the mumps only brought him off the fence for half a day.

Logic is logic, and it does not follow that Noah brewed beer in the ark because the kangaroo went on board with hops.

A strong effort is being made in Chicago to suppress the sale of liquor to minors, and to punish all dealers who break the law governing the matter.

The Chicago *Inter-Ocean* has discovered that the man who pays fifteen cents for a drink of whiskey, is swindled a clear ten cents' worth.

The original "Little Liver Pills" are Dr. Pierce's Pleasant Purgative Pellets," and are extensively imitated. They cure sick and bilious headache. Private Government stamp with Dr. Pierce's signature and portrait mark the genuine. By druggists.

A Kansas man ate twenty-one boiled eggs in seven minutes and thereby won a bet of $2, but $2 doesn't go far towards paying for a funeral.

Elizabeth Collins of Milwaukee, feels so bad to think she couldn't catch a husband 60 years old that she wants $25,000 to live while she breaks her heart.

A hand organ-grinder says that people who have pianos in the houses express the most satisfaction with his music. Some one might discover a point here.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

It is really very little use teaching a future great man penmanship. When he gets to man's estate he is sure to write as if he were drawing a design for a cobweb factory.

It is the opinion of a Chicago newspaper that a man had better run than to be bothered with a revolver. Friend, did you ever try a club? There's nothing like it.

If Nearly Dead after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

A Paris paper speaking of the recent death of the elephant Bangkok at the Jardin des Plantes, says that "his female companion, Ajuna, is bearing up under her bereavement."

In cutting into a hollow tree into which he had chased a rabit, Riley Donaldson, of Merriwether, Ga., found two rabits, two squirrels, a nest of owls, and a swarm of bees, with nine gallons of honey.

Thakohentmetha is one of the grand chiefs of the Caughnawaga Indians and has gone into a law suit at Montreal. The scalp of Thakohentmetha will presently aborn the girdle of some Montreal lawyer.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh. Bronchitis, Asthma and Lung disease by Dr. Souvielle's Spirometer and instrument, which conveys medicinal properties direct to the seat of disease Read and judge for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer.' John P. Whelan, Manager of *Post* and *True Witness*, Montreal. Mr. C. Hill, Montreal, catarrah and bronchitis. Mr. DeBoucherville. of the Indian Deparment, Ottawa, catarrh of many years, now cured; Mr. Geo. Ager, Ottawa, cattarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., Catarrh and Bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrahl deafness. Thomas Telfer, 12 Merinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma, and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitation in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis, John C. Fleming, Editor of *Post* and *True Witness*, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1880.

Dr. B. J. Kendall & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 16th, 1880.

B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

Kendall's Spavin Cure is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Sulpholine Lotion.—An external means of curing skin diseases.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

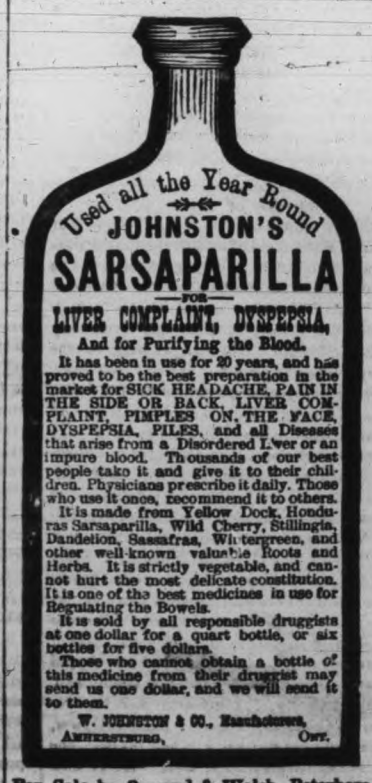
Sulpholine Lotion, a fluid peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

Sulpholine Lotion.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

Sulpholine Lotion.—Bottles containing nearly half a pint.—Sold by Chemists everywhere. Made in London, Eng.

LIVER COMPLAINTS.

Dr. King's Dandelion & Quinine Liver Pills (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.



In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

Pepper's Quinine and Iron Tonic strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

Pepper's Quinine and Iron Tonic rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

Taraxacum and Podophyllin.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

MUNRO & ALEXANDER

Daily Evening Review

SATURDAY, JUNE 24, 1882.

A Rare Chance.

Mr. John Babb, of Gilmour Street has a white Ccactus in bloom, and all lovers of flowers should not miss the rare opportunity of seeing the beautiful plant. Mr. Babb will be pleased to show it to all visitors.

Personal.

We are much pleased to learn from the Lindsay *Post* that Mr. Geo. G. Hilliard, of Peterborough, son of Mr. Geo. Hilliard, M. P., who has been lying seriously ill there in town for the last two weeks is much better and able to be out.

Daly Hotel, Winnipeg.

The undersigned having bought the premises known as the Club Hotel, Winnipeg, have renovated it throughout. Hereafter it will be known as the Daly Hotel. The proprietors will be glad to see their old friends from Peterborough.—JAMES SHERIDAN and F. J. DALY, proprietors.

New Bishoprics.

The Toronto *World* says that the Pope has made several new Catholic dioceses in Canada. The anticipations are confirmed by the receipt of news from Rome that Mgr. Jamot, bishop of Sarepta, and vicar apostolic of Northern Canada, has been nominated to the newly erected episcopal see of Peterborough in the province of Ontario. A new vicariate apostolic, to be called Pontiac, has been formed from the northwestern portions of the diocese of Ottawa, of which Mgr. Zephyrin Larain is named titular; also a prefecture apostolic in the lower St. Lawrence region, to which Abbe Bosse has been appointed.

The Late Fire.

Although we have made very diligent enquiries we have not been yet able to ascertain how the late fire originated. The most likely story is that some boys were playing with matches in some of the sheds, and set fire to some straw, from which the flames spread to the adjoining sheds. Among the heavy losers is Mr. T. Dolan, who lost his whole library, all the winter clothing of his family and all his poultry, some of the finest in town. Mr. R. Innes also lost all the household goods in his back kitchen, consisting of several stoves, tables, etc. Mr. Pentland also lost all of his poultry. Mr. Innes' house was only of veneered brick, and the walls were all shoved in.

Monday's Trip.

For the last time we beg to call attention to the grand opportunity, the first of the season, to visit the beautiful city of Belleville, and the splendid pic-nic grounds at Massassaga Point. Last year many thousand of our citizens visited the front, and were delighted with what they saw and the manner in which they were received, and this year if we are not mistaken a larger number still will avail themselves of this opportunity. This trip is under the auspices of the Masonic body, a sufficient guarantee that it will be conducted in a first class manner, and arrangements have been made whereby all who go down will be provided with seats in first class coaches—not box cars. As the tickets are very low only $1.50 for the return trip, including both car and boat fare, we anticipate an enormous crowd. Arrangements have been made for dinner for all at Belleville, or those who so desire can lunch at the Point, where everything is in readiness.

A Chapter of Accidents.

Within the last few days, no less than four accidents, all of them of a rather serious character, have occurred in town or vicinity. The first occurred at Tully's Cut, on the "Missing Link," by which a man named Connolly, hailing from the vicinity of Harwood, came very near losing his life. He was walking in the "dump," when he went too far and fell over. One of the heavy cars passing over his body, dislocated his right thigh in several places. At present he lies at his boarding house in a very precarious condition. The physician in attendance pronounces the case one of the most serious he ever attended....The second occurred at the South end of the town. A child of Mr. Edward Venette was struck on the temple by a stone, thrown by a playmate, inflicting a nasty cut. Prompt medical attendance probably saved the life of the child....Number three occurred to a man at the Stewart House. He was engaged with another in lowering some casks of ale into the cellar, when one of them slipped ank jammed his hand against the stone wall, smashing it badly....The fourth and last occurred in Otonabee, a farmer named Dywer, being caught in a horse power, and having one of his ancles dislocated and torn. He is now under medical care.

The Majority.

The official count gives Mr. Hilliard 158, the additional vote being in Smith.

A Correction.

In our account of the last race at the pedestrian tournament, a misiake occurred. Hazlitt undertook to walk *a mile* and not half a mile, while McGregor ran a mile and a half.

St. John's Day.

This being St. John's Day, the Masonic Lodges will meet at their Hall this evening, the Corinthian Lodge at 7.30 o'clock and the Peterborough Lodge at 8 o'clock.

Street Watering.

The contract for watering the streets for one year from the first day of May last has been again awarded to Mr. Michael O'Donnell, for the sum of $480. Mr. O'Donnell has given very good satisfaction in the past, and will doubtless do the same in the future.

Those Hand Engines.

Some years ago the Town went to considerable expense to procure half a dozen small hand engines. At first some of them were always at every fire, but for the last year or two none of them have shown up. At the late fire a dozen enquiries were made for them, but no person appeared to know where they were kept. If those who have charge will inform us we will publish a list of the places, so that people may know where to get them.

A Contemptible Act.

Some worthless, contemptible scoundrel, for nothing short of that can he be, slit a length of the new "Eureka" hose at the fire on Thursday afternoon. An examination of the fabric shows undoubtedly that the damage was done with a knife, and the perpetrator, if caught, should be sent to Kingston, the only fit place for such birds. The "Eureka" has now been in use for several years, and has given better satisfaction than any other hose ever used here, and has paid for itself several times over. There are some who think that the cut was made with some sharp instrument, probably a knife. The matter is well worth looking after, as the person who would do such a thing would fire a building.

Railway Notes.

The Norwood *Register* says that Mr. Thomas Rork, of Asphodel, has been appointed by the Ontario & Quebec Railway Company to purchase the right of way for that road through the County of Peterborough. He will commence work shortly. A better appointment could not have been made, as Mr. Rork is well acquainted throughout the County, and, what is more, has a good reputation for fair dealing—a very necessary qualification where so many people have to be dealt with. We congratulate the Company on having secured the services of such a good and reliable man.

Numerous railroad contractors have been over this section of the Ontario & Quebec, during the past week. They say that as soon as the contract is let, it will be but a very short time until the road is completed.

A very large excursion of the York Pioneers, passed through Stouffville on Thursday morning for Midland. It was the largest train that has ever passed over the Midland since the amalgamation. The directors are offering very liberal terms for excursions, and the company well deserve to be patronized.

The Midland Railway authorities have ordered 25,000 tons of coal for the use of the locomotives on the line. The coal stations will be located at Lindsay, Peterborough, Belleville and Port Hope.

The Midland Railway is erecting a semiphore on the north and east of the river opposite the water tank at Lindsay. The work is being pushed rapidly, and in the course of a few days they will be ready for use.

The new station of the Midland Railway at Orillia is being rapidly pushed to completion and will be finished within a few weeks. It will be a neat and commodious structure, as indeed all the stations are that are being recently built by the Midland.

Work on the missing Link is progressing faster than even the contractor expected. On Monday night work will be commenced by lantern light, and then our citizens will have an excellent opportunity of witnessing the operators of the monster steam excavators. The engineers are now laying out the work along the creek above Bethune street, and the work of excavating and filling up will commence as soon as practible.

Mr. John Boyd of Yorkville, formerly of Peterborough, a gentlemen of much experience in his business, has been awarded the contract for building all the bridges, trestle work etc, along the line from Peterborough to Omemee. He has already secured the greater portion of the timber required and commences work framing etc., at once.

The Ontario and Quebec engineers and assistants have been engaged for several days past in finally locating the line of the railway through the town. They have secured a straight line for six miles east of George street and it is expected that the river will be bridged across between the houses of Messrs. Leonard and Cohk, and then run across the vacant lots, and pass through Mr. T. Cahill's garden, crossing the Midland a little further on and again some place near Bethany.

Owing to the immense and rapidly increasing freight business being done here by the Midland Railway Company, the present freight shed has been found totally inadequate, and another shed, the same size as the one at present used, is to be constructed just south of it. Truly there is a boom in railway matters in this vicinity.

A very heavy freight train left here last night at 10 o'clock for Belleville.

Mr Beemer the contractor for the Toronto & Ottawa division of the Midland Railway, advertises for five hundred men to work on the line. To good men he will guarantee two years' steady work, shovelling during the summer and rock work during the winter. This is a grand opportunity for good men who desire steady work.

Refreshment Stands for Dominion Day.

The committee of management invites tenders for the privilege of running the refreshment booths in the morning, afternoon and evening. Address the Secretary af the Celebration Committee. All tenders must be in by 5 o'clock p.m. on Tuesday. The highest or any tender not necessarily accepted.

The Weather.

The weather to-day is exceedingly hot, apparently the hottest of the season, although the air is not as close as it has been. We are promised the usual Saturday night thunder storm, and doubtless it will file an appearance.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes moderate to fresh; south-easterly and south-westerly winds; fair to cloudy weather with showers and thunder storms to-night.

C. O. F.

At the recent meeting at Guelph of the High Court of the Canadian Order of Foresters, Mr James Byrne, Chief Ranger of Court Peterborough, was elected High Junior Woodward. Court Peterborough was represented at the meeting by Mr. Jas. Byrne and Mr. Hooper, and Court Lakefield by Dr. Bell, who was appointed D. D. H. C. R. for Peterborough County. Mr. Sanderson was also present as High Junior Beadle. The reports showed that the order is in a very flourishing condition and that it is growing rapidly.

The Lacrosse Team.

The following are the names of the Lacrosse team that will play against the "Kingstons" on Saturday next, Dominion Day:—

Goal	W. A. Sanderson
Point	A Lackie
Cover Point	P. Rudkins
Defence Field	J. Joyal
do	G. H. Giroux
Field	A. Yelland
do	W. Morrow
Home Field	W. Craig
do	M. Halpin
3rd Home	C. Rutherford
2nd Home	M. McDonnell
1st Home	W. Rudkins

The above players will play against all comers during the whole of next week, and in order to give them lots of practice, we hope to see a large turnout of members each evening.

Fourth of July.

As usual our American friends are making great preparations to celebrate the fourth of July. As Rochester is always the objective point of many Peterborough people, we may say that the arrangements for that city are, if possible more elaborate than ever. The Rochester driving park, where the fastest time on record has been made, will of course be visited by thousands, and the management have made extensive preparations for the entertainment of all visitors. Besides three other races for heavy purses, the great event of the year, the ten mile race for a stake of $4,000 and the championship, between Miss Lizzie Pinneo, the bold and dashing rider from the Rocky Mountains, and Miss Myrtie Peek, the little Michigan girl, will take place, at 2.30 o'clock p. m., each lady to make eight changes from horse to horse without touching the ground. As both ladies ride thoroughbred horses, not only good time will be made, but the grandest exhibition of courage, skill and endurance ever witnessed in this country. This is no hippodrome, but a *bona fide* race. The ladies use side saddles, and wear the usual riding habit. All who can should see the race.

Methodism.

The following is the revised list of the stations of the Canadian Methodist ministers in the Peterborough district.

PETERBOROUGH—John Shaw, J. Manning, G. C. Workman, M. A., (is left without a station at his own request). Ashton Fletcher, supernumerary.

MILLBROOK—Henry S. Matthews, Isaac B. Howard; J. Sing, superannuated.

CAVAN—Albert C. Wilson.

SOUTH MONAGHAN—F. Johnson (Fraserville).

KEENE—John Tozeland.

NORWOOD—Joseph E. Sanderson, M. A.; William M. Paterson, superannuated.

LAKEFIELD—William Johnson.

HALL'S BRIDGE AND CHANDOS—M. E. Wilson.

MUD LAKE—To be supplied from Hall's Bridge.

HIAWATHA—Thomas Woolsey.

BETHANY—Thomas Cleworth (Matthew E. Wilson).

BALLYDUFF—John B. Wass, M. A.

WARSAW—Thomas Fox.

BLAIRTON—Richard Pinch.

John Shaw, Chairman.

H. S. Mathews, Financial Secretary.

Besides those stationed here we may mention that the Revs. N. R. Willoughby is at Brampton; F. H. Wallace, Cobourg; Dr. Jeffers, Belleville; Dr. Harper, Barrie; Cecil Harper, Allandale; S. P. Rose, Orillia; Geo. Washington, Meaford; John E. Star, Winnipeg and C. Fish, Bracebridge, Ontario.

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

TWENTY YEARS A SUFFERER.—Dr. R. V. Pierce, M. D., Buffalo, N. Y., Dear Sir—Twenty years ago I was shipwrecked on the Atlantic Ocean, and the cold and exposure caused a large abscess to form on each leg, which kept continually discharging. After spending hundreds of dollars, with no benefit, I tried your "Golden Medical Discovery" and now, in less than three months after taking the first bottle, I am thankful to say I am completely cured, and for the first time in ten years can put my left heel to the ground. I am yours, William Ryder, 87 Jefferson St., Buffalo, N. Y.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

PORT HOPE.

ONE TOO MANY.—The *Times* says that it is informed that one of Mr. Ross' supporters, in his anxiety to help Mr. Ross, Tuesday violated one of the strictest clauses of the Election Law by depositing a ballot in two sub-divisions. We might here say that this voter is liable to a penalty of $200, and is at present at the mercy of his opponents, providing they wish to be exacting. Something more will likely be heard of this case as those who know this gentleman do not regard his zeal for voting as an evidence of ignorance of the law.

A Remarkable Bear.

The number of odd things that are sent to a New York commission dealer in the course of a year, would make up a curious catalogue. We often find, besides those animals ordinarily regarded as "game," living Alligators, Horned owls, Oppossums, etc., and lately there was the carcass of a fine Brown or Cinnamon Bear hanging at a store. Upon enquiry, we learned that the bear wes sent from the mountains of western Pennsylvania. As this bear, formerly considered a distinct species, but now regarded as only a variety of the common black bear, is not known east of the Rocky Mountains, we thought that their must be some mistake about it, and that possibly it had been a tame specimen. Upon further enquiry of the sender, Seeley Bovies, of Bradford county, Pa., he replied in substance that the animal was killed by him on the "South Mountain Range," in Lyncoming Co. Mr. B., who is an old hunter, had never killed such an animal before. He states that all last summer the people of that sparsely settled district had been alarmed at a strange animal, which followed men, women, and children who were out after dark, and would sometimes come very near them, making a frightful noise. From the occasional glimpses had of the animal, it was decided that it was a panther. Mr. B. is convinced that this bear, which he shot on April 12th, was the mysterious animal. He writes that he was the most ferocious of all the bears he ever killed. Feeling sure that the occurrence of a Cinnamon Bear in this locality must be of interest to naturalists, we wrote to Prof. Baird, Secretary of the Smithsonian Institution, the above statement. He at once telegraphed to purchase the animal and forward it to Washington. Prof. B. afterwards wrote that the specimen was a remarkable fine one, and was a welcome addition to their collection, which, full as it is in our native animals, had not before included the rare Cinnamon Bear.

Mothers! Mothers!!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

MURRAY CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the MURRAY CANAL," will be received at this office until the arrival of the eastern and western mails on TUESDAY, THE TWENTY-SEVENTH DAY OF JUNE NEXT, for the formation of a Canal to connect the head waters of the Bay of Quinte with Presqu'ile Harbour, Lake Ontario.

A map of the locality, together with the plans and specifications of the works, can be seen at this office and at Brighton, on and after THURSDAY, THE EIGHTH DAY OF JUNE NEXT, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted bank cheque for the sum of $3,000 must accompany each tender, which sum shall be forfeited, if the party tendering declines to enter into contract for the execution of the works at the rates and prices submitted, subject to the conditions and on the terms stated in the specification.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Dept. of Railways and Canals,

N. H. DOWNS' Vegetable Balsamic ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiates or astringent articles, which are often during a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the CAUSE, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

Daily Evening Review

MONDAY, JUNE 26, 1882.

MIDNIGHT TELEGRAMS

CABLE.

READY TO EMBARK.

LONDON, June 24.—It is rumored that the authorities have arraigned for the embarkation of troops at Gibraltar and Malta for the protection of the Suez canal in case of necessity.

WAR PREPARATIONS.

LONDON, June 24.—The newspapers this morning, under the heading "English War Preparations," give great prominence to the orders from the Admiralty for the immediate undocking of the ironclad Hotspur, the preparations for the immediate embarkation of marines, and the getting ready of some troopships.

PENSIONER SHOT.

DUBLIN, June 24.—Disguised assassins fatally shot Thomas Magaghrey, a constabulary pensioner, while he was sitting in the lodge house of a wealthy farmer at Kilkean.

REPUBLICANISM IN NORWAY.

LONDON, June 24.—The movement for the severance of Norway from Sweden, and the establishment of a Republic, is assuming increasing proportions. Unpleasant complications are expected.

RIOTING AT CORK.

DUBLIN, June 24.—There was a rioting at Cork on Saturday night, and to-night the shutters were torn from the shop windows to replenish the bonfires for the celebration of St. John's Eve. Shots were exchanged and the police stoned.

THE ANTI-LEAGUE SOCIETY

LONDON, June 24.—The provisional honorary board of the Land Corporation Society for the purpose of defeating the influence of the Land League is composed of the Marquis of Drogheda the Marquis of Ormond, the Marquis of Waterford, Earl Ross, the Earl of Longford, Earl Fortescue, Lord Ardilaun, Lord Cloncurry, Lord Ventry, and others. The proposed capital is £750,000, and the guarantee fund £125,000, which has already been subscribed. Advances at a moderate rate of interest will be made to enable landlords to maintain the management of grazing farms. In some cases the company will undertake the management of farms at a short lease at a low rental, giving the owner a share of the profit.

INSULTING A CONSUL.

ALEXANDRIA, June 25.—Sir Auckland Colvin to-day protested to Arabi Bey against his sending large numbers of Arabs of the lowest class every night into the Place de Consuls in order that he might receive an ovation. Sir A. Colvin said that possibly a row would ensue some night in which case the responsibility would be Arabi's.

THE PORTE AND THE CONFERENCE.

CONSTANTINOPLE, June 24.—Count Corti, who presides over the conference, has expressed to the Porte regret that Turkey took no part in the conference. He said the deliberations would be attended with results from Turkey and the powers. The conference was not hostile to Turkey. Constantinople had been chosen as the place of meeting, in order easily to obtain the Porte's views. The communication has produced a good impression on the Porte. The conference sat to-day, when the sovereign rights of the Sultan over Egypt were discussed and confirmed.

HONORS FOR ARABI.

CONSTANTINOPLE, June 24.—The Sultan has conferred the order of the Medjidie of the first class upon Arabi Pasha, and has presented the Khedive with a souvenir.

PRIESTS REWARDED.

ST. PETERSBURGH, June 24.—The Holy Synod at St. Petersburgh publishes a decree rewarding 32 priests who were instrumental in checking Jewish outrages.

THE REPRESSION BILL.

LONDON, June 24.—Sir William Harcourt has placed on the paper in the House of Commons two new clauses to the Repression bill, one providing that no combination under the Trades Union Act shall be an offence under the bill, and the other that nothing under the Act shall render unlawful any political or social association for such objects and acting by such means as under the Act and otherwise are not unlawful.

DEMONSTRATION AT ARMAGH.

ARMAGH, June 24.—Several hundred men marched through the city to-day in military order singing rebel songs and execrating the Queen. They afterwards drilled.

THE LEIGH HUNT EXHIBITION.

LONDON, June 24.—The *Hope*, with Sir Allen Young in command, and a picked crew of officers and men, has sailed from the Thames in search of the *Eira* making first for Nova Zembla, provisioned for two years, and one year for the *Eira*. The *Hope* is completely equipped with light ice boats, sledges and tents, for use in case of the loss of the vessel. There was much mystery almost to the last moment respecting the leadership of the expedition, rival candidates pressing their claims with much persistency; but Sir Allen, being the favourite in high quarters, carried the day. It is believed that if both the *Eira* and *Hope* return safely, they will bring most important discoveries in Franz Joseph Land, tending to show that the future route to the Pole will lie along its shores.

AN INDIAN EXPEDITION.

LONDON, June 24.—It is rumoured in Calcutta that the authorities contemplate organizing an expedition composed of Indian troops.

PROTECTION OF THE CANAL.

LONDON, June 24.—It is understood that England is resolved to assume the responsibilty of protecting the Suez canal, not only in the name of British interests, but in the interests of all civilized commercial nations. A correspondent of the *Times* at Portsmouth says it is well known to military authorities that an expenditionary force for Egypt has been organized. It is reported that arrangements have been made for the embarkation of troops at Cyprus and Aden without delay to guard the Suez canal.

THE ARCTIC EXPLORERS.

LONDON, June 24.—Engineer Melville telegraphs from Yakutsk under the date of April 10th as follows:—"I have searched the coast from the river Alanek to the river Java, but have found no traces of the second cutter or Lieut. Chipps' party. I have buried the remains of Lieut. DeLong, Dr. Ambler, Mr. Jerome, J. Collins, also the seamen Lee, Gortz, Dressler, Knack, Morsen, and Boyd, and the Chinese servant Ah Lom. I have secured every paper pertaining to the expedition. The seaman Erickson and the Indian Alexie had already been buried in the river Lena. I am now *en route* for Irkutsk."

MORE GUNBOATS.

ST. PETERSBURG, June 24.—The *Novisti* has information that the construction of thirty gunboats, costing seven million roubles, has been decided on.

THE RED COAT DOOMED.

LONDON, June 24.—The New York *Herald* correspondent says:—"Speaking of levees reminds me to mention the renewal of the rumour that red coats in the British army are likely to be abolished in favor of a less conspicuous color. The Conservatives are horror-struck, and exclaim: 'Only one thing remains to be done; abolish the army itself.' As for the navy, its uselessness is patent since British subjects can be slaughtered under its guns. As if to add bitterness to the dregs of the cup of humiliation it is a fact that the traditional enemy Russia has sent two ironclads to protect the Russians at Alexandria, who number one family."

THE REPRESSION BILL.

LONDON, June 24.—The steady opposition of the Irish party to the Crime Prevention Bill has resulted in many important concessions by the Government. The right of search for arms by night has been abandoned, and some of the most objectionable sections of the press clauses have been thrown out. The limitations actually imposed on the right of seizure were already passed and exercised in the case of the *United Ireland*. The power to try men for treason-felony without a jury is only to be given for deeds committed after the passage of the Act. Aliens convicted under the bill are to be treated as first-class misdemeanants, not as ordinary felons; the Government must prove that an accused person is an alien before proceeding to expel him.

THE GOLD COAST.

LONDON, June 24.—The work of Messrs. Burton and Cameron on a recent visit to the Gold Coast will be issued shortly. There are no outward signs of a great rush to the wondrous gold seeking shore yet.

RAW MATERIALS.

MADRID, June 24.—The Spanish Minister of Finance has introduced a bill in the Cortes reducing the import duties on coal, cotton, leather and other raw materials.

AMERICAN.

GUITEAU'S LAST DAYS.

NEW YORK, June 26.—The *Sun's* Washington despatch says that Reed yesterday stated that he had done all that could be done for Guiteau, and that every avenue was closed now but that which leads to the gallows. Yesterday John W. Guiteau found his brother perfectly calm and seeming fully to realize that it was his last Sunday on earth. He displayed no anxiety or fear and seemed content. Reed said he had been urged to persistence because he had become more and more convinced that Guiteau was legally irresponsible. The Rev. Mr. Hicks said he once believed the assassin to be thoroughly bad, vicious and wholly responsible for his crime, but since attending him in gaol he had been obliged to believe that Guiteau's convictions respecting his inspiration are genuine.

STRIKES.

JERSEY CITY, June 26.—This morning 200 Erie railway trackmen joined the strikers. They demand an advance of 40 cents per day. The switchman and brakemen in the Erie yards in the east and west have also joined the strikers. The freight traffic is at a complete standstill. The Pennsylvania Company have induced 75 old hands to resume work. No freight trains on the road has been moved this morning.

PORT HOPE.

A HOLIDAY.—A petition is being numerously signed by the merchants in which they agree to keep their stores open on Saturday, the 1st July, and close on Monday, the 3rd, so as to afford the clerks a clear holiday. We are also pleased to learn that an effort is being made to have the stores close at six o'clock during the months of July and August, excepting Wednesday and Saturday evenings. This is a move in the right direction.

A GOLD MEDAL.—We are pleased to learn that our enterprising young townsman, Mr. F. M. Beamish, received a few days ago a Gold Medal Diploma for a sample of Canadian white flour of his manufacture forming part of the Canadian exhibit at the Universal Exhibition, held in Paris, France, in 1878. This speaks well for the product of Mr. Beamish's mill, and is an acknowledgement of the superiority of our Canadian wheat. Mr. Beamish is to be congratulated on securing such an honor, and we are sure our citizens will be glad to hear of his success.

THE local editor of the Springfield, (Mass.) *Republican*, Mr. J. H. Mabbitt, says that his father suffered from rheumatic pains in the back, which nothing would relieve until he commenced the use of St. Jacobs Oil. The doctors failed to afford any relief, but the Oil did, and now he speaks enthusiastically of the Great German Remedy.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

EGYPT TO BE CHECKED.

LONDON, June 26.—Preparations are being made for a great meeting in London to impress upon the Government the necessity of effectual measures to protect British life and property in Egypt. The Conservative leaders are expected to speak. The conviction at present is that hostilities with Egypt are inevitable sooner or later.

AFFAIRS IN EGYPT.

ALEXANDRIA, June 26.—The uneasy feeling continues. It is rumored that a number of cases containing explosives, accompanied by men in uniform, arrived at Ismaila and have been deposited in unoccupied public buildings under the supervision of the government. The Khedive has been advised to go on board a vessel, as there is some danger that he will be seized as a hostage. Arabia Pasha states that if the Porte abandons him he will publish correspondence proving that every step he has taken since the 7th of September last was instigated by the Porte.

THE BRITISH SQUADRON.

LONDON, June 26.—It is stated that a thousand marines will be sent to the Mediteranean to strengthen the British squadron.

ENGLAND AND EGYPT.

LONDON, June 26.—The *Times* says that there is something more than empty sound behind the preparations at the dock yards. We can but hope that if the conference fails to find a solution for the Egyptian questions, France will agree with England for united action, or leave us free to act alone. The expeditionary forces to Algebrolar and Malta have been constituted and commanders and sloops have been nominated.

WHY HE RESIGNED.

BERLIN, June 26. It is now stated that Ignatieff resigned the Russian Ministry of the Interior because he could no longer guarantee the safety of the Emperor. Since his resignation, the political police have been revised.

AMERICAN.

CHILIAN AFFAIRS.

NEW YORK, June 26.—The *World's* Washington despatch says that the State Department is busily engaged with the question of what instructions are to be given to Dr. Logan, the new minister to Chili. Godey, the new Chilian minister, has not made a favorable impression. The tone of his remarks on presenting his credentials was extremely airy and self sufficient. The President administered what most of the diplomatic corps consider a neat and effectual snubbing, reminding Godey that the United States expected Chili to co-operate with this country in regard to an honorable peace. Trescott is urging this government either to acquisce in the violent appropriation of Tara Paca by the Chilians, or in a French intervention to settle a question which the United States two years ago undertook to superintend.

AIDING IMMIGRANTS.

NEW YORK, June 26.—The Emigrant Aid Society has informed the Superintendent of Castle Garden that the Society will not take charge of any Russian refugees, or other than Irish emigrants who hereafter arrive. The Society lacks funds.

ASSESSING OFFICIALS.

NEW YORK, June 26.—The *Herald's* Washington despatch says that the President thinks it his duty to give notice to the clerks, labourers and others in the employ of the Government that while they may give what they please for the support of their party, he will protect them against harm if they pay no attention to the political assessment circular.

BATHER DROWNED

BRIDGEPORT, Conn., June 26.—Lewis Seed and James Holden, both Americans, went bathing last night. The former was drowned and the latter was unconscious, but with much difficulty was recovered.

OFFICIAL MURDERERS.

NEW ORLEANS, June 26.—Ed. McCormack, an inoffensive man, was wantonly stabbed and killed on Saturday night by four city employees. The last preceding murder was committed by the same parties at the city hall.

A FATAL STORM.

INDIANAPOLIS, Ind., June 26.—In the storm last night Wm. Laun was blown from a carrage under a train and was killed. Geo. Wilkins was blown from a bridge into the creek and was drowned. Great damage was done in Mucre and other towns in that section.

BOATING ACCIDENT.

SAN FRANCISCO, June 26.—Yesterday a boat containing ten persons while attempting to reach San Celiti capsized in Richardson's Bay. Seven were rescued, and three were lost. Reinseld, aged 20, his sister, aged 12, and his brother, aged 16, were drowned.

VESSEL BURNED.

HALIFAX, June 26.—The barque Wild Hunter, Captain Teate from Boston, bound to Reverusia, loaded with cotton, was destroyed by fire ninety miles off this harbor on Saturday. The crew arrived here to-day.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

IF Cattarah has destroyed your sense of smell and hearing, Hall's Cattarah Cure will cure you. 75 cents per bottle. Druggists sell it.

THERE IS NO MORE wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaint, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

Daily Evening Review

MONDAY, JUNE 26, 1882.

PROVED BY AN OPPONENT.

WE wonder if there is another journal in the world that has such a trick as the *Globe* of running its head against a wall of substantial facts, possibly with the desire to find out whether the facts or its head is the more substantial. In its issue of Friday it gives a table showing the population of the Ontario constituencies west of Port Hope, and the members representing them, with the object of showing that there is a majority of nine Reform members representing an excess of 169,483 of the population of that portion of the Province. Of course it chooses this starting point because immediately to the east lie a number of Conservative constituencies in an almost solid block. But taking even its own starting point and its own facts and figures, though we believe that they are doctored to make out a stronger case for it, we find that its majority of nine members with their surplus population of 169,483 gives an average of only 18,832 people to each member. Even taking the whole of the 63 members for this part of Ontario we find that the *Globe's* 36 Reform members represent an average population of only 21,392, while the 27 Conservative members represent each 22,246 people. Thus the *Globe's* own figures prove the truth of the assertion that the Reform constituencies are smaller than the Conservative, and also the fact that the readjustment of the ridings according to population was not carried far enough to do full justice to the Conservatives, instead of being carried too far, as well as the fact that each government supporter has a greater popular backing than the Opposition members.

Now Mr. *Globe* having given us statistics for two thirds of the Ontario members, please oblige us with the figures for the other third, and see if you have better success with them.

A GOOD EFFECT.

ALREADY we may see the good effect of the national verdict in favour of the National Policy. The Toronto *Mail* publishes the following telegram :—

"NIAGARA FALLS, N.Y., June 20.

"*The Mail Newspaper* :

"We congratulate the sensible action of the people of Ontario. Now we will put our capital up and make steel in Canada.

"THE STEEL ASSOCIATION OF CANADA,
"per T. G. Hall,
"President."

In the Hamilton *Spectator* of Thursday, June 22, appears the following paragraph :—

"The National Policy was sustained by the vote of the people on Tuesday, and to-day Mr. Edwards, architect, advertises in the *Spectator* for tenders for the erection of a large new cotton mill. Thus the promises made to the people by the Conservatives before the election are already being fulfilled."

These are only specimens of the general result that we are about to witness. Capitalists, who are proverbially cautious, are now assured that Canadian industries will have fair play, and are governing themselves accordingly, so that a great impetus will be given to our Canadian industries.

We hope that now the Reform leaders and the Reform journals will bow to this repeated manifestation of public opinion, and will accept the determination of Canada, thus plainly and deliberately manifested.

We give this advice in the interest of our country, not of our party, for we are convinced that the Reformers can never hope to return to power so long as their leaders oppose the National Policy.

CANADA'S GREAT STATESMAN.

Another American Tribute to Sir John—The New York "Sun" on the Elections.

NEW YORK, June 23.—The *Sun* says this morning :—"The Conservative party still hold their own in Canada, though their majority in the new Parliament will be somewhat smaller than in the last. This shows that the Canadian provinces still wish to preserve their relations as colleagues of England, and also that they adhere to the high tariff of Sir John Macdonald in preference to the modified system of free trade offered them by the Liberals. The most noteworthy incident of the elections is the effort of both parties to make friends with the voters of Irish origin. As for the policy of protecting home industry it will probably long be enforced in Canada. Though the rates of duty on imports are pretty high, they accomplish the purpose of paying the expenses of keeping the Government and keeping the Treasury in a satisfactory condition, and no set of politicians can easily raise as much revenue in any other way. Yet it seems rather singular that while the Imperial Government is zealously devoted to the doctrine of free trade, the Colonial Government should insist on doctrines of protection. However, this is not the first political inconsistency in the world, and we daresay it will not be the last. We tender our compliments to Sir John Macdonald, the present chief ruler of Canada, and one of the cleverest public characters to be found in any continent."

LIBERAL POLICY.

Although Mr. Blake has met with a reversal on the occasion of his first appeal to the people of Canada, he is too sensible a man to be discouraged. It is to be hoped that he will have courage enough to mark out a line for the future distinctly his own, and that he will not be moved to the right or to the left by the hidebound Grits by whom he is surrounded. He is a Liberal by instinct, sympaty and tendency, not a Grit. So far, the policy of the Reform party appears to have been laid down not by the Liberal leader, but by the Grit lieutenants. Mr. Blake cannot misapprehend the meaning of the present elections. They show that the country is determined to have the N. P. The Government of the country must be carried on according to the well understood wishes of the people. For the Reformers to continue to butt their heads against the wall is to commit political suicide. From this day forward hostility towards the N. P. should cease. The Reformers have twice lost the country by fighting against it. It would be madness to go on in the old way, and yet this is precisly what the Grit wing of the party will persist in doing, unless Mr. Blake lets it be known that as the country has twice pronounced in favour of the N. P., he will no longer oppose it. If the N. P. had been accepted by the Reformers and all hostility to it withdrawn, they would have been much stronger to-day. Instead of killing the N. P. the N. P. is killing them. It is the part of wisdom, when you find that you cannot knock the wall down by butting it with your head, to stop butting it. We shall see if the Reform leaders have any wisdom left.—*Toronto Telegram.*

A HUGE TIDAL WAVE.

$30,000 Worth of Property Destroyed at Cleveland.

CLEVELAND, O, June 23.—A tidal wave two miles wide and eleven feet high swept the lake from here this morning. It came in the wake of a dense, angry-looking black and grey cloud, which moved from the north over the city. There was no wind and no rain at the lake shore, but some rain fell in the city. The wind blew fiercely south of the town, and vessels parted their lines. At the mouth of the river the piers and docks were submerged four feet in some places. Hundreds of fish were cast ashore, and the fires were put out in the Lake Erie rolling mills. A scow loaded with sand was landed high on the shore, a short stretch of railway near the Union depot was ripped up, and numerous small buildings were overturned. A tramp sleeping near the lake was drowned, and a man standing on the bank was washed against the wall of the Union depot, and another sitting in a switch-house was buried under the stove. Iron rails, twenty-eight feet long, were lifted up and scattered in confusion, and huge logs were washed ashore. The life-saving station was badly wrecked, and other damage of various kinds done. The wave lasted about a minute. Several parties who were fishing in skiffs report a sudden rise of water and a violent commotion like a whirlpool, but the skiffs weathered the storm without accident. The damage to property on shore is estimated at $30,000.

HAMILTON AFFAIRS.

The Forbes Murder and Suicide Case—The Recent Railway Accident.

HAMILTON, June 23.—The jury in the inquest on the bodies of Mr. and Mrs. Forbes and Geo. Ralston, killed by Forbes on Wednesday, concluded its labours to-day. It will be remembered that Forbes shot and killed his wife and Ralston and then committed suicide by shooting himself, jealousy being the cause. The jury returned a verdict as follows :—"That the said Prudence Forbes came to her death by means of a bullet from a revolver in the hands of Alexander Forbes, and that the murder of the said Prudence Forbes was premeditated; that the said Alexander Forbes came to his death by means of a bullet fired from a revolver in his own hand, and that the said Geo. Ralston came to his death by the means of a bullet fired from a revolver in the hands of Alexander Forbes, but sufficient evidence has not been brought to show that the murder of the said Geo. Ralston was premeditated. The jury is also of opinion that there was no improper intercourse between the said Prudence Forbes and the said Geo. Ralston." The funeral of Mrs. Forbes took place to-day at Tapleytown. Mr. Forbes was buried here to-day.

Martin Allen, of the Great Western Railway, who was arrested in connection with the late accident on that railway, says he is innocent of any negligence.

The London Police.

Although London has a police force of 10,700 men, the *World* feels called upon to express itself as follows :—"It is necessary to put the matter plainly, and to say at once that, for the purpose of the prevention of crime, the protection of life and property, the detection of criminals, the suppression of ruffianism, the London police are, if not impotent, scandalously inadequate. They are equal to the task of regulating traffic. They can keep order on a levee or drawing-room day, and can turn back intruding carriages from their accustomed line of route in St. James's Park with an imperious gesture and a peremptory tone worthy of a dowager duchess's hall porter. But when it comes to be a competition of intelligence and capacity between the habitual and determined criminals on the one hand, and the guardian of the public peace on the other, the constabulary of the capital are literally not in it. Can a single case be mentioned, during the last two or three years, in which the police have effected a really clever capture of a murderer or thief—a single case, in fact, in which the criminal has not escaped scot free—unless, indeed, he has played into the hands of the law? Lefroy and Lamson committed murders which were as clumsy as they were cruel. Yet the police at first were strongly disposed to let Lefroy go. Within the last eighteen months there are known to have been eight murders — there have, of course, been many more of which nothing is known—whose authors are still at large. We do not go back as far as the Hoxton, the Eltham, the Great Coram street and the Euston Square tragedies. We restate our general proposition—that it is the exception for the myrmidons of Scotland Yard to unearth homicides, cut-throats and robbers, who display address and intelligence in concealing their crime. The machinery of detection and prevention is pitted against that of assassination, outrage and theft, and it cannot stand the strain."

Meat Shipment to England.

We have now to record a triumph over physical difficulties that would have been incredible, and even unimaginable, a very few years ago. Had any fervid protectionist told Parliament in the heat of the free trade controversy that New Zealand would send into our London market 5,000 dead sheep at a time, and in as good condition as if they had been slaughtered in some suburban *abattoir*, he would have brought on himself a storm of derision, and would have been otherwise than honorably mentioned on a thousand platforms. But this has actually come to pass. We seem only just now to have got at the certainty that meat can be brought in good condition a mere weeks voyage accross the Atlantic in the most temperate of the earth's zones. The present arrival is by a sailing ship, after a passage of ninety-eight days across the tropics; indeed, for a large part of the voyage in heat which Englishmen find almost intolerable. The ship that has accomplished a feat which must long have a place in commercial, indeed, in political annals, is the Dunedin, belonging to the Albion Shipping Company. An apparatus supplied by the Bell-Coleman Mechanical Refrigeration Company, has kept the temperature constantly down to twenty degrees below freezing point. Under a torrid sun and in a tepid sea, an artic winter has been steadily maintained below, where coolness and circulation are generally least expected. How this has been done and what is the nature of the mechanism we have yet to learn. The fact is prodigious.—*London Times May, 27.*

The Scott Act.

MONTREAL, June 23.—This afternoon news was received here that the Privy Council had decided in favour of the constitutionality of the Scott Act. It will be recollected that the Temperance Act of 1878 was objected to by many anti-temperance people and all the saloon-keepers. Though the Supreme Court had decided in its favour, there were many who still believed it to be *ultra vires*. It came before the Privy Council in May last in this wise :—A Fredericton saloon-keeper named Russell was convicted of selling liquor against the law, the Scott Act being in force in the country at the time. Upon being convicted he appealed upon the ground that the Dominion Parliament had not the right to pass the Act. The Supreme Court of New Brunswick also seemed to have been seized with the same belief, and although they decided against the appeal they made it plain that they did so only because the Supreme Court of the Dominion had so held in a previous case tried before them. They gave it as their opinion nevertheless that the Act was *ultra vires*. The result of this decision was that the appellant obtained special leave to carry the case to the Privy Council. Accordingly on the 3rd and 4th of May last the case was argued before their Lordships. J. P. Benjamin, Q.C., of London, for the appellant, attacked the Act as an interference with the powers of Local Parliaments in four points. 1st, municipal institutions; 2nd, property and civil rights; 3rd, the right to get revenue from licenses; and 4th, as being private and local. J. J. McLaren, Q.C., of Montreal, appeared for the supporters of the Bill. Their Lordships at once decided against the first three points, and asked Mr. McLaren to answer to the last. Having heard the argument they reserved their decision until to-day, when they decided in favour of the Act upon all the points, dismissing the appeal. It is needless to remark that the news will be received with satisfaction by the temperance party in all parts of the Province.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

THE SMITH MEDICINE CO.—Gentleman,—I have very much pleasure in testifying to the efficacy of Dr. Smith's German Worm Remedy I found it to operate successfully after only two doses. Have tried other remedies with the child without success. Yours truly W. T. Hart, 128 Amherst St., Montreal.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

THE COUNTY COUNCIL.

THE SEMI-ANNUAL MEETING OF OUR COUNTY PARLIAMENT.

FRIDAY.

The Council met pursuant to adjournment, H. Collins, Esq., Warden, in the chair, and all the members being present.

The minutes of yesterday's session were read and confirmed.

On motion of Mr. MOLONEY, a By-law was passed levying the following amounts on the several municipalities named, as an equivalent to the government grant to the schools in these municipalities, viz.:—

Asphodel	$191 00
Burleigh, &c.	250 00
Belmont, &c	183 00
Douro	261 00
Dummer	282 00
Ennismore	145 00
Galway and Cavendish	100 00
Harvey	131 00
Monaghan	104 00
Otonabee	505 00
Smith	500 00

On motion of Mr. STRICKLAND, notices were ordered to be put up on the Lakefield bridge forbidding fast driving over the same.

On motion of Mr. STEWART, the Warden was instructed to advertise in the United States as well as in Canada for tenders for the construction of the iron swing at the Locks and the iron bridge at Nassau.

THE PROTESTANT HOME.

Mrs. GILMOUR and Mrs. F. W. HAULTAIN appeared before the Council with reference to the Whyticks, vagrant paupers, who had for some time been inmates of the Home, but who could no longer be kept in that institution, and asked that, as they belonged to the County, they should make some provision for their maintenance.

On motion of Mr. STRICKLAND, the application was referred to the Finance Committee.

THE EXPENSES OF CRIMINAL JUSTICE.

On motion of Mr. BURNHAM, a By-law was passed providing :—

1. That if the Town would agree to pay the County the same sum as they have been paying for the last three years ($1,592) for their share of the cost of the administration of criminal justice, for the next three years, the County would agree to accept the same, in order to avoid the expense of an arbitration.

2. That in the event of the Town not accepting this offer, appointing Mr. John Carnegie arbitrator on behalf of the County.

EQUALIZATION.

Mr. PEARCE presented a report of the Committee on Equalization, recommending that the assessment of the several municipalities be equalized on the same basis as last year, and thus making the equalized value for the several municipalities for the current year as follows :—

	Rev. ac.	Total value.
Ashburnham	—	$ 220,000
Lakefield	—	152,000
Norwood	—	60,000
Asphodel	$23 00	959,831
Belmont	4 00	270,239
Methuen	1 25	16,755
Burleigh	1 50	28,908
Anstruther	1 60	18,923
Chandos	1 75	76,301
Dummer	9 00	637,688
Douro	23 00	971,140
Ennismore	25 00	479,737
Galway	1 50	42,829
Harvey	4 00	266,406
Monaghan	32 00	489,456
Otonabee	30 00	2,153,448
Smith	30 00	1,874,163
Total equalized value		$8,717,764

The report was adopted, and a By-law confirming the same subsequently passed.

HOUSE OF REFUGE.

Moved by Mr. STRICKLAND, seconded by Mr. LANG,—That the Warden appoint a committee to report at the next meeting of this Council, the best course to be pursued in providing a home for the poor and destitute of the different municipalities in this County, and that it shall be a part of their duty to obtain information regarding the expense of maintaining like institutions in other Counties in this Province.

The motion was carried and the Warden appointed Messrs. Strickland, Burnham and Moloney such committee.

The Council then adjourned until next morning at ten o'clock a. m.

SATURDAY.

The Council met pursuant to adjournment. Henry Collins, Esq., Warden, in the chair, and all the members being present.

The minutes of yesterday were read and confirmed.

Mr. LANG presented a report of the Committee on Roads and Bridges, recommending :—

1. That the Burleigh Bridge be refloored with the plank taken from the Lakefield Bridge under the superintendance of the Warden and County Engineer.

2. That a new iron bridge be built at Nassau.

3. That the Deer River Bridge be repaired by this County in conjunction with the County of Hastings, and that Mr. Burgess be the Commissioner on behalf of this County.

4. That a new iron swing be erected at the Locks, at the joint expense of the County and Town.

5. That the necessary repairs be made to the Mud Lake Bridge under the superintendance of the Engineer and Warden.

6. That no action be taken with regard to the Norwood Bridge.

7. That an application be sent to the County of Northumberland to replank the swing and repair the Wallace Point bridge, with the intimation that this Council will pay one half of the cost of the same.

8. That Messrs. Moloney and Sanderson be a committee to act with the Warden in rebuilding the Nassau bridge, and that Messrs. Burnham and Stewart with the Warden be the committee for the Locks bridge.

The report was adopted, and at a subsequent stage a by-law was passed giving effect to the recommendations contained in the report.

COUNTY PROPERTY.

Mr. ROBK presented a report of the committee on County property recommending :—

1. That the Warden and County Engineer have the vault in the clerk and treasurer's office enlarged, and that the work be done under the supervision of the County Engineer, under contract, and that the clerk's office be repaired and cleaned and the floors painted.

2. That a wash house be erected in the gaol and a stove purchased for the same under the supervision of the gaoler, and also have the woodshed shingled.

The report was adopted.

FINANCE.

Mr. GOLBORNE presented the report of the Finance Committee, recommending :—

1. That the grant made to the Norwood High School be paid by your Treasurer as soon as demanded.

2. That the following accounts and claims be paid, viz :—

H. C. Rogers, postage	$ 19.50
McKee & Davidson, Lock	40
Garner Nichols	7.60
Adam Hall, stoves and tinware	26.82
Geo. Chalmers, Lakefield Bridge	105.44
Toker & Co., Registry Office	19.50
" County Clerk's office	33.60
J. R. Stratton, County	110.80
Toker & Co., Clerk of the Peace	20.55
M. S. Dean, balance of salary	2.80
Toker & Co., Clerk of the County Court	10.80
W. H. Robertson & Co., advertising	7.60
Telephone Company, for 1882-3	15.00
Peter Coxal & Co., Jail account	12.15
Telegraph Company, Telegraphing	1.30
Wilson & Davis, Stationery	10.60
John E. Belcher, Lakefield bridge	140.75
" Mudlake "	18.00
" Burleigh "	5.00
" January session	9.00
" Norwood bridge	9.00
C. A. Weller, Aspodel account	5.00
Adam Hall, Court House repairs	338.26

3. With reference to the application of the ladies of the Peterborough Protestant Home for a grant in aid of the support of the Whyticks, your committee cannot recommend that any action be taken.

4. That in the matter of the debenture rates, your committee recommend that inasmuch as it appears that the amount that it is provided shall be levied under Debenture By-laws, No. 355 and 373, will produce a sum largely in excess of the amount required, that the clerk be instructed to levy such an amount only as will be sufficient to meet this year's sinking fund and interest, and one-half only of the rate provided under By Law 454 be collected, for the reason that only one-half of the debentures authorized to be issued thereunder have been issued.

5. That owing to the construction of the Lakefield bridge, and the proposed construction of the new bridge at Nassau, and a swing at the Locks, properly chargeble to capital account, the sum of $6,680.92 be obtained by the sale of unsold debentures, now in the hands of the Treasurer, wherever the money may be required, and the balance of current year's expenditure, $24,868.38 (less the estimated revenue of $3,074,) be met by the levy of a rate of two and one half mills on the dollar, to be levied and collected on the equalized value of the County.

6. That the payments of certain accounts and claims, amounting to six thousand, seven hundred and ninety-two dollars and twenty cents, by your Treasurer be confirmed.

The report was adopted, and By-laws confirming the same were passed.

The payments made by the Treasurer and confirmed above were as follows :—

A. Rutherford, Court House Roof		$ 99 60
D. Carlisle,	do	49 41
J. Z. Rogers,	do	39 07

A DUMMER ROAD.

On motion of Mr. KIDD, a resolution was passed and had the corporate seal attached to it, to give it the effect of a By-law, confirming a By-law of the township of Dummer closing up an original road allowance on the fifth concession line, opposite lots number three in the fourth and fifth concessions of Dummer, and authorizing the sale thereof to David Rose.

ANOTHER PLOUGHING MATCH.

Mr. REDMOND appeared before the Council asking a grant of $100 in aid of a county ploughing match.

Several councillors objected to repeating the grant of last year, on account of the manner in which the prize in the boys class was allowed to be taken by a "boy" considerably over age. After considerable discussion, in the course of which it was suggested that to prevent such occurrences in the future competitors should be required to make affidavit as to the correctness of their entries,

It was moved by Mr. LANG, seconded by Mr. BURGESS,—That this Council grant $100 to be distributed in ploughing match prizes, provided the East and West Riding societies each grant $50 for the same purpose, and that Mr. Stewart be the commissioner of this Council to supervise the expenditure of the same.—Carried.

The Council then adjourned.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidney, skin etc., and strengthening while it regulates and purifies.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

HALL'S Cattarah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by druggists.

Who's the Best Physician

The one that does most to relieve suffering humanity of the thousand-and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

TRENT NAVIGATION.

FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Lift Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows :—

For the Fenelon Falls work	$1,000
" Buckhorn Rapids work	500
" Burleigh Falls work	1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Department of Railways and Canals, Ottawa, 22nd May, 1882. d127-3d11

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Dept. of Railways and Canals, Ottawa, 22nd May, 1882. d127-2aw

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents :—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents :—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

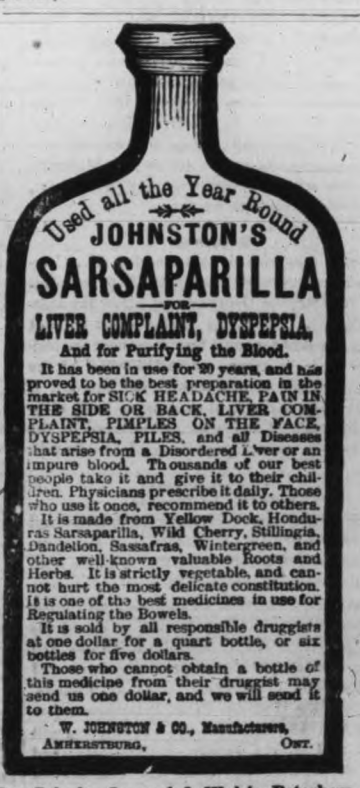
SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.



In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

MUNRO & ALEXANDER

Daily Evening Review

MONDAY, JUNE 26, 1882.

Still Taller.

Mr. Dunlop brought us in on Monday some stalks of rye, *only* six feet eleven inches long. Next!

A Good Clip.

Mr. Henry Collins sold thirty-five fleeces of wool on Monday morning, which weighed 258 lbs., or nearly an average of seven and one-half pounds per sheep.

The Twelfth.

A mass meeting of the Orangemen of the town and vicinity, has been called for Thursday night to make preparations for the celebration on the Twelfth.

Railway Notes.

The engineering staff of the Ontario & Quebec Railway are still making their surveys in the south part of the town, endeavouring to find a suitable route without interfering with the Roman Catholic Cemetery.

Town Council.

According to adjournment, the regular meeting of the Town Council will take place this evening. It is expected that there will be a quorum, as there is business of importance to transact.

Personal.

Mr. A. Freeman, for many years a member of the Fire Brigade Band, left town this morning for Belleville, where he has secured the position of bandmaster of the 45th Battalion Band. We congratulate our young townsman on his success.

Daly Hotel, Winnipeg.

The undersigned having bought the premises known as the Club Hotel, Winnipeg, have renovated it throughout. Hereafter it will be known as the Daly Hotel. The proprietors will be glad to see their old friends from Peterborough.—JAMES SHERIDAN and F. J. DALY, proprietors.

Open Air Concert.

The Fire Brigade Band turned out on Saturday night and played a few selections in their usual good style, on the Post Office corner. As it was not known that it was their intention to play in public on that night, there was nothing like the usual number of listeners. The next time they turn out for a similar purpose, it would be well to announce it in the papers, and publish the programme.

Masonic Excursion.

The excursion to Belleville to-day, under the auspices of the Masonic Lodge, started punctually on time at half-past seven o'clock this morning. There were about 175 of the fraternity and their friends, and accessions to their numbers were expected on the road. The special train had a very handsome appearance, being composed of five new coaches, fresh from the workshops. We will give further particulars to-morrow.

The Weather.

Sunday was fine though very hot. It grew cool at night, but not to the extent of Mr. Vennor's predicted frost. To-day has been bright, but with a fresh breeze to moderate the temperature. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes and Upper and Lower St. Lawrence—Moderate to fresh winds mostly west and north west, continued fine warm weather.

Runaway.

About nine o'clock this morning Mr. Comstock's span of black horses ran away from his furniture store on George street, below the Market Square, and ran up Water street without doing any damage until they came near the residence of Dr. Boucher, where the wheel of the waggon struck against a post, and smashed it badly. The horses kept on running until stopped by some of the workmen engaged on the waterworks, near the residence of Mr. Dennistoun.

Recently in Toronto,

At 73 Young street, over 500 physicians and sufferers visited Dr. M. Souvielle of Paris, ex-aide-surgeon of the French army, using his wonderful instrument, the Spirometer, for the cure of catarrh, bronchitis, asthma and all throat and lung diseases. The Doctor, or one of his surgeons, from the International Throat and Lung Institute, 75 Yonge street, Toronto, or 13 Philipe square, Montreal, office for Canada, will be at the Huffman Hotel, Peterborough, on July 3rd, 4th, 5th, 6th, 7th and 8th, and will have with him a supply of Spirometers and medicines. Physicians and sufferers can try it free.

POLICE COURT

DRUNK.

MONDAY, June 26.—W. Midett was charged with being drunk on Saturday. As it was his first offence he was allowed to go, on his undertaking not to offend again. He had been locked up since Saturday.

Water Works.

The water works are being pushed ahead. The pipes have already been laid from the Engine House, North of Hilliard's Mill, to near Judge Dennistoun's. More pipes for the main are being deposited along the line, and a number of pipes for the side streets have arrived. Provisions are being made for the hydrants on George Street, as the pipes are laid.

The Hand Engines.

Our remarks on the small hand engines have called some attention to the matter. We learn that at least one of them is unserviceable from being out of repair, and that it has never been used. They should either be sold, or they should be placed in charge of people who will see to them, some inducement to do so being offered if necessary. Even when we have the waterworks, these small engines may be of good service in the outskirts of the town.

POISONED BY CHEESE.

About Seventy-five Persons Sickened After Partaking of a Certain Make of Cheese.

ADRIAN, Mich., June 19.—Since Friday evening last some seventy-five people of this city have been poisoned by cheese. Whole families have been suddenly seized with violent vomiting and purging, and in many cases severe illness has resulted. In one case—that of John L. Smith—only the most vigorous treatment prevented a fatal result, while to-day several men who had partaken of the cheese were so ill that they could not attend to their labor in the Lake Shore and Peninsular Car Shops. The cheese was sold by several grocers, but was all the product of one factory on the 20th of May last. A microscopic examination shows the cheese to be filled with minute parasities, but the deleterious effects are believed to have arisen from the presence, accidental or otherwise, of some dangerous substance. The affair certainly demands an official investigation, and the cheese should be submitted to a scientific analysis. The following is a partial list of the sufferers:—A number of the employees of the Central Hotel; three children of Mr. Thomas Allen, foreman of the *Times* composing room; three members of the family of John C. Wooler; four in the family of Henry Acker; eight in the family of Hiram Fisher; Carl Mahuke; five in the family of Matthias Steinmetz; two in the family of William Leitiz; five in the family of George Van Dreazen; Mrs. Van Alstine; four in the family of John L. Smith; Lisle B. Ross, Frank Lehr, Anna Arnold; three in the family of Louis Semke; John Pronge, and three in the family of Alonzo Erlacher.

FENELON FALLS.

KILLED BY LIGHTNING.—The *Gazette* says that during the tremendous storm last Saturday afternoon a valuable cow and a year old heifer, owned by Mr. James Cameron of this village, were killed by lightning a few yards from the south end of the railway bridge. The same flash struck and splintered two of the ties on the bridge and set off north along the track at more than express speed. On the switch leading to McArthur & Thomson's mill, Mr. McArthur and two of his men were piling lumber on a car, under which they crept for protection from the rain, and while stretched between the rails Mr. McArthur suddenly felt a rather severe shock on one of his legs. Turning to the men he asked whether either of them had kicked him, to which they both replied that they had been "kicked" too, and all then became aware that they had received an electric shock, which would probably have been more severe had they been lying on the main line.

BITTEN BY A SNAKE.—On Wednesday, the 14th inst., while Mrs. John Varcoe, of Fenelon, was watering plants in her garden, a copper snake, which she thinks she must have trodden upon, bit her severely on one of her ankles, the reptile's teeth passing through the stocking. For a while afterwards she continued her occupation; but soon beginning to feel sick and faint, she returned to the house and bathed the wound with buttermilk and other things she had heard were good for snake bites. The ankle gradually swelling and the veins increasing to the size of a person's finger. Dr. Wilson was sent for and told her to continue the bathings, which at length had the desired effect, and on Monday she was a good deal better. The day after Mrs. Varcoe was bitten her husband killed a copper snake about fifteen inches long in the garden, and the next day another the same size; from which it is inferred that they were a pair and probably had a young and interesting family, for which a sharp lookout is being kept.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genujne will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

THE population of Cavan, according to the census returns, has fallen off almost one-half since 1841. In that year the population numbered 243,168; last year at the taking of the census it had gone down by regularly decreasing gradations to 129,476, or 8.0 per cent. less than in 1871.

THE Earl of Dunraven's tenantry turned out recently *en masse* to meet him and the Countess, with bands and banners; addresses of welcome and congratulation were presented, and at night the village of Adare was illuminated with a display of Chinese lanterns and bonfires that turned the darkness into noonday.

FROM ALL OVER.

THE Romans held peculiar views about ducks; they ate only the head and breast, the remainder, according to Martial, being the cook's perquisite.

$100 REWARD is offered for any case of Cattarah that can't be cured with Hall's Cattarah Cure. Taken internally. Price 75 cents.

SEVERAL Florida negro children burried a baby alive, intending to dig it out immediately; but they got to playing at something else, and forgot the infant for hours, leaving it to die of suffocation.

EUGENE WEBSTER caught his enemy, Stephen Tarbell, in a secluded place at Bedford, Mich., tied him fast to a board, and leisurely inflicted horrible torture by cutting him here and there with a knife.

NEVER BE WITHOUT IT.—Tourists and all who are subjected to a change of climate, water, diet &c., should never be without Dr. Fowler's Extract of Wild Strawberry, the infallible remedy for all Sumner complaints.

FOR some time past the most vigorous measures have been taken for the destruction of the locust plague in Cyprus. In the belief of the authorities fully seven-eighths of the whole quantity of the locust with which the Island is infested have been destroyed.

A SECOND advent camp is being held at Denton, Texas, by people who believe that the second coming of Christ is at hand, and might be hastened by a proper demonstration of all readiness to receive him. They have gone so far as to prepare a tent for the Saviour's occupancy, with a handsome bed and other furniture.

MR. R. W. CARMICHAEL, Chemist and Druggist of Belleville, under date of May 31st, 1882, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

THERE is a general disposition among the mayors of cities just now to worry the gamblers. The chief magistrate of Milwaukee is among the latest and most zealous to join in the movement. In one of his raids, thirty-seven well known and more or less respected residents were taken to court and fined from $10 to $50 for playing faro.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation palced upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by druggists, or sent free by mail on receipt of price, $1.00 per box, or six boxes for $5.00. Address F. J. Cheney, Toledo, O., sole Agent for the United States. Send for circular.

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

MURRAY CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the MURRAY CANAL," will be received at this office until the arrival of the eastern and western mails on TUESDAY, THE TWENTY-SEVENTH DAY OF JUNE NEXT, for the formation of a Canal to connect the head waters of the Bay of Quinte with Presqu'ile Harbour, Lake Ontario.

A map of the locality, together with the plans and specifications of the works, can be seen at this office and at Brighton, on and after THURSDAY, THE EIGHTH DAY OF JUNE NEXT, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted bank cheque for the sum of $2,000 must accompany each tender, which sum shall be forfeited, if the party tendering declines to enter into contract for the execution of the works at the rates and prices submitted, subject to the conditions and on the terms stated in the specification.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN,
Secretary.

Dept. of Railways and Canals, Ottawa, May 22nd, 1882. 4126-2aw

HALL'S CATARRH CURE

Is Recommended by Physicians.

CURES

Catarrh of the Nasal Cavity—Chronic and Ulcerative Catarrh of the Ear, Eye or Throat. It is taken INTERNALLY, and acts DIRECTLY upon the Blood and Mucous Surfaces of the System. It is the best Blood Purifier in the WORLD, and is worth ALL that is charged for it, for THAT alone.

THE

Only Internal Cure for Catarrh!

IN THE MARKET.

$100! We offer $100 for any case of CATARRH it will not Cure!

WELLAND, Ont., March 23, 1882.

My little daughter was troubled with Catarrh for two years, and was very much benefitted by the use of "Hall's Catarrh Cure." She is now about cured.

W. T. HOUSE.

WELLAND, Ont., March 20, 1882.

I have used "Hall's Catarrh Cure," and judging from the good results I derived from one bottle, believe it will cure the most stubborn case of Catarrh if its use be continued for a reasonable length of time.

W. H. HELLEMS.

WELLAND, Ont., March 20, 1882.

F. J. CHENEY & Co., Toledo, O.

Gents.—Have sold Hall's Catarrh Cure for the last year, and it gives entire satisfaction.

Yours truly,

H. W. HOBSON, Druggist.

Hall's Catarrh Cure

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Almost a Free Breakfast Table.

Daily Evening Review

TUESDAY, JUNE 27, 1882.

MIDNIGHT TELEGRAMS

CABLE.

BRITISH CROP OUTLOOK.

LONDON, June 26.—The cold, showery weather is seriously affecting the prospects of the grain crops, barley especially. The outlook up to the end of May was exceedingly promising but another defective yield is now inevitable, unless there is an immediate favourable change in the weather, while at the best there can be now scarcely an average crop of cereals. There are reports of early inroads of disease on potatoes, and dry weather is much wanted to check its progress.

LABOURERS' PLOTS.

LONDON, June 26.—At meetings of labourers at Longford and at Bruff resolutions were passed in favour of agitation to obtain from the farmers a grant of a plot of land and dwelling. The disinclination of the farmers to assist the labourers was denounced, and strong opinions were expressed in favour of having direct dealings with the landlords instead of with the farmers.

THE AFRICAN SLAVE TRADE.

LONDON, June 26.—A memorial has been presented to the Foreign Secretary, signed by forty-four members of Parliament, praying that British representatives be instructed to press the suppression of the slave trade as one of the objects of the conference at Constantinople.

RUSSIAN JEWS.

LONDON, June 26.—The batch of refugees from Russia, who sailed from London on Saturday for New York, are all furnished with drafts payable at their destinations in the West, so that they cannot linger in New York. The Mansion House committee is despatching over one hundred refugees weekly.

REPUBLICAN DEMONSTRATION.

LISBON, June 26.—Yesterday the police dispersed the crowd at a meeting of Progressists and Republicans, where revolutionary speeches were made. Tranquility was restored.

EJECTMENTS IN CONNEMARA.

DUBLIN, [illegible] two hundred and fifty ejectment decrees have been obtained against small tenants in Connemara. If the decrees are carried out two thousand persons will be homeless.

NIHILIST ARRESTS.

ST. PETERSBURG, June 26.—The role played by the major of hussars among the Nihilists conspirators was that of a simple *affilie*, no more serious than that lately played by Lieutenant Lustig, who gave a lodging to Lieutenant Soukanoff and his accomplices. The major was bought over by the Nihilists. He received in all 1,600 roubles. The opera singer who was arrested is named Katimskaja. The name of the naval officer is Bontchewitch; he is *adjoint* to an engineer of naval construction at Nikolaiff. These captures are of the highest importance. At the time of his fall General Ignatieff had under surveillance all the persons who have been arrested. They belonged to the ordinary category of *gens de classes*, and were notoriously in relation with the Jews. They will be included in one great trial, wherein will also appear those whom General Ignatieff caused to be arrested on declarations of the condemned prisoners in the Soukanoff trial. Among them will be the famous Stephanovitch, propagator of the clandestine writings of the Nihilist journals. The trial will take place as soon as possible.

GREEKS MURDERED.

ALEXANDRIA, June 26.—Three Greek moneylenders were murdered at Cairo on Sunday. The captain of the United States steamer *Galena* has notified all American residents that the *Galena* is ready to receive them, and that they now remain in Egypt at their own risk.

THE SUEZ CANAL.

LONDON, June 26.—In the House of Commons to-day Sir Charlees Dilke stated that Admiral Seymour reported that neither he nor the British consul at Alexandria had heard that Arabi Pasha intends to seize hostages. Sir Charles Dilke said the proctocol of *desinteressement* signed by the Powers contained nothing precluding England's opposing the neutralization of the Suez Canal, if such a project were mooted.

ARABI'S DECLARATION.

ALEXANDRIA, June 26.—The impression caused by the Sultan sending the Meddjidie decorations to Arabi Bey is very varied. By some Europeans it is considered as a great blunder; by others, including some of the official class, it is regarded as indicating the Sultan's intentions to bribe Arabi to obey the wishes of Europe. Some Arabs also hold this opinion. One prominent Egyptian remarked to Sir Auckland Colvin: "We often butter our bread before eating it." The Arabi national party, however, regard the decoration as a sign of the Sultan's approval of Arabi's rebellion; hence it is possible they may have bad consequences.

MINISTERIAL CHANGES.

ST. PETERZBURG, June 26.—More Ministerial changes are talked of. No one seems to want to assume office. As to Count Tolstoi's circular about the Jews, it is simply a confirmation of the *status quo*. The laws against them having been either modified nor abolished, they will gain nothing by the changes in the Ministry.

FREEDOM OF A CITY.

DUBLIN, June 26.—It has been definitely arranged that the presentation of the freedom of the city of Dublin to Mr. Parnell and Mr. Dillon will take place on the 15th of August, the occasion of the opening of the Exhibition and the unveiling of the statue of O'Connell.

AN EARTHQUAKE.

LONDON, June 26.—A strong shock of earthquake occured at Smyrna yesterday.

ITALIAN MAN-OF-WAR.

LONDON, June 26.—Five Italian ironclads arrived at Smyrna on Saturday. It is presumed they go to Crete or Egypt.

THE KHEDIVE'S FETE.

ALEXANDRIA, June 26.—The Khedive's *fete* was held to-day. At the reception there was a large attendance. Tewik appeared cheerful. Sir Edward Macy, the British agent, has only left on account of his health for a few days. He has gone to Venice, and will be back in the same steamer.

WARLIKE PREPARATIONS.

LONDON, June 26.—It is reported that the War Office has issued orders for 20,000 arms and accoutrements to be ready in four days, with a view, it is believed, to calling out the army reserve within three days.

FOR THE MEDITERRANEAN.

PORTSMOUTH, June 26.—Portsmouth advices state that 300 marines and 300 men, of the marine artillery have been ordered to embark in the troopship Orontes, which sails for the Mediterranean on Wednesday.

EGYPTIAN SECURITIES.

LONDON, June 26.—There was a forced sale of £500,000 of Egyptian securities to-day after official hours. The failure of the firm concerned will be announced to-morrow.

BOMBS DISCOVERED.

ST. PETERSBURGH, June 26.—An important arrest was effected on Thursday night in a wood which extends from the Finland railroad to the right bank of the Neva, opposite the Island of Kronstadt, which is distant from that bank ten miles, starting from a point named Lissines, or Cap des Renards. This side of the Neva, like many points in the environs of Kronstadt, is defended by lines of sleeping torpedoes, which by a simple electric current can be instantly rendered murderous. The Nihilists desired to get possession of these torpedoes, which would enable them to arrange submarine mines in places of their choice, as they have already done on the streets or railways. This point of Lissines was admirably chosen, being close to the land at a place where ships cannot pass on account on account of the shallowness of the water. These designs were discovered from some papers found in the house of a Nihilist, where the authorities arrested a young man about 26 years of age, tall, thin, and dark complexioned. In view of the probable trips of the court by sea or river, the police had received orders to survey the neighborhood of the coast. It was known that another man had hired a country house, and was living there alone. He was watched at the time when the last Nihilist arrest became known, and he was observed to be making preparations for departure. The commissary of police determined to examine him, but on presenting himself at the house the man escaped into the wood, which was immediately surrounded by the police. A search was organized, and owing to the clearness of the night at this period of the year the fugitive was observed in a tree, from the top of which he fired several shots from his revolver at those approaching him. Several of the boldest of the police got to the foot of the tree, and began to saw it, defended against the balls by the branches. The tree at last fell, and the man surrendered. Among the bombs found in his possession were several of a new form, quite flat, with loops attached, permitting them to be concealed under the clothing, or in the hat.

AMERICAN.

KILLED BY A TORNADO.

FORT DODGE, Iowa, June 26.—The train despatcher reports that Emmetsburg, the county seat of Paolo, Alta county, was blown to pieces this morning by a tornado, and over one hundred people killed. The Illinois Central and Chicago and North-Western trains were blown from the track, and the Milwaukee and St. Louis road wrecked. There is a washout north of Forest City, and it is reported that three or four more towns in that locality were blown to pieces. The wires are all down, and it is impossible to get more news at present.

PONIES BLOWN AWAY.

WAHOO, Neb., June 26.—During the storm here 150 ponies were swept eight miles over fields and through wire fences. One man was killed and one injured near Talmage by a freight car being hurled against them.

KILLED BY LIGHTNING.

DETROIT, June 26.—On Saturday afternoon, during the violent thunder storm which was raging throughout the city, Mrs. Mary Selinski sat in her house near the open door, conversing with her husband, her brother-in-law, and a neighbor. About her were six children. A vivid flash of lightning, followed by a terrible peal of thunder, interrupted their conversation, and Mrs. Selinski fell from her chair to the floor, and all present were more or less injured. Upon recovering from the shock, the inmates attempted to rouse Mrs. Selinski, but found her dead. A doctor was hastily summoped. He stated on examination that she had been killed instantly. On her bosom was found a black spot.

FRIGHTFUL RAILWAY DISASTER.

ST. PAUL, June 26.—A work-train on the Manitoba line, consisting of an engine, caboose, and 22 flat cars, left the track near Atwater Minn., while going 18 miles an hour. The engine, caboose, and five cars went down a 12 foot embankment into a pool of water. An indescribable scene of confusion ensued. George Floody, engineer, and Joe Doehl, Andrew Johnston, S. Thomson, Torison Burgland, Christianeen Stifle, and John Holland were killed. The injured are:—James Wilson, C. Saunburg, bruised; H. Staunson, badly bruised in the back; Peter Rossmussen, arm broken and internally injured; the fireman, both arms broken and amputated. The company is sending out a relief train. It is believed others are under the cars in the pool, and a search for the bodies is proceeding.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE NIHILISTS AGAIN.

ST. PETERSBURG, June 27.—The Nihilists have planned to seize the torpedoes sunk for defensive purposes in the river Neva. The Nihilists desired the torpedoes in order to arrange submarine mines in a place of their choice. Two men concerned in the affair have been arrested. One of them took refuge in a tree, which had to be sawed down before he was captured.

BRITISH PROTECTION.

CONSTANTINOPLE, June 27.—It is reported that the British ambassadors has been instructed to ask the assent of the powers for British protection for the Suez Canal.

ARMY CORPS FOR EGYPT.

LONDON, June 27.—The *Times* says:—"In view of the information we received from various quarters we cannot doubt that preparations for the protection of the Suez Canal are maturing on a considerable scale. We have reason to believe that the First army corps and a considerable part of the Second, are at their full force. Should it be necessary to strike a sudden blow there would be no difficulty in despatching 20,000 men to Egypt in a few days."

EGYPTIAN STOCK FALLEN.

LONDON, June 27.—Egypt Unified stock, has fallen fifteen per cent since the last stock exchange settlement.

TROOPS FROM INDIA.

LONDON, June 27.—A Simla despatch confirms the report that the Government communicating with India, in regard to the despatch of Indian troops to Egypt.

ALARMING RUMOURS.

LONDON, June 26.—In the House of Commons the alarming rumours of attempts on the fleet at Alexandria were formally denied. Sir C. Dilke stated that he could not answer questions concerning the alleged war-like preparations of France.

AMERICAN.

GITEAU'S LAST CHANCE.

WASHINGTON, June 27.—The President has returned. He has decided to grant John W. Guiteau an audience this afternoon.

A RAILWAY CASE.

JERSEY CITY, June 27.—The chancellor of New Jersey has issued an order calling upon all persons to refrain from obstructing operations on the Jersey Central Railway.

KILLED BY A RAM.

GORDON, Wis., June 27.—Mrs. Ellis, aged 75 was butted to death yesterday by a ram.

STARVED TO DEATH.

RICHMOND, Va., June 27.—A woman and five children were starved to death in Patrick County, before aid could reach them. Supplies are pouring in to relieve the famine stricken people.

A MINERS' APPEAL.

PITTSBURG, June 27.—The coal miners' Union has issued a public appeal for aid in behalf of the striking miners.

A HEAVY FAILURE.

SOUTH AMBERY, N. J., June 27.—Reilly Brick, manufacturer of cast iron water pipe, has resigned wth liabilities amounting to $50,000. The citizens, in 1878, subscribed $10,000 to have the works established here.

A PRIZE FIGHT.

MANTZDALE, PA., June 27.—A prize fight for $2,000 took place yesterday, between Thos. Reese and Daniel Reese, local pugilists. Forty-three rounds were fought in 49 minutes. Thos. Reese won, Daniel being terribly punished.

A DESTRUCTIVE STORM.

OMAHA, June 27.—The damage by the storm in Butler County is estimated at $500,000. Several people were killed.

FORGED CREDENTIALS.

BROOKLYN, June 27.—The first Presbyterian Church at Williamsburg last night decided not to retain Pastor R. Moffet Neil, who is accused of being in Ministry on forged credentials.

FREIGHT STOPPAGE.

NEW YORK, June 27.—There is considerable talk by those who have suffered loss from the freight stoppage of bringing suits against the Railways. It is stated that a large amount of cheese and butter, had been sold by the St. Lawrence Co., on through contracts to Europe, and much of it is now in the car or in the Depot, and is rapidly decreasing in value.

BANK DEFALCATION,

WASHINGTON, June 27.—The Savings Bank defalcation is stated to amount to 150,000.

HIS OWN EXECUTIONER.

WHITE MOUNTAIN, June 27.—Cornetta, a convict sentenced to death, announces his determination of starving himself to death. He has eaten nothing for five days. Means will be adopted to force him to partake of nourishment.

A GAMBLER'S END.

RATON, N. M., June 27.—Yesterday Deputy Sheriff Dalman attempted to arrest a gambler named Gus Mentzel. Mentzel fired two shots at Dalman, slightly wounding him, also Charles Fox and Jacob Harris, who were standing near. Shortly afterwards Dalman made a second attempt to arrest Mentzel. Mentzel again opened fire at the Deputy, killing Harry Moulten, Justice of the Peace, Hugh Edleston, one of the proprietors of the Moulten Hotel, and S. Jackson, and seriously wounding H. Latimer and Deputy Sheriff Bergan. The latter is dying. The enraged citizens hanged Mentzel. The town is greatly excited and it is thought that a raid will be made on the gamblers.

RESISTING ARREST.

LEADVILLE, June 27.—Thos. O'Conner, a well known veterinary surgeon, was shot and killed this afternoon by officer Townsend while resisting arrest.

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term they are the best and cheapest physici known.—*Daily Times.* Sold by Tayle McDonald, at 50 cents. (3)

THE DAILY EVENING REVIEW is subscribers at ten cents a week.

Daily Evening Review

TUESDAY, JUNE 27, 1882.

THE CAR WORKS.

ALL our readers will agree, however, much they may differ on other points, in wishing to see any new industry established in Peterborough that will help to build up our good town. We are admirably situated for the successful establishment of manufacturing establishments, but perhaps for no factory would this be found a more advantageous locality than for car works. Already we have become a railway centre of great importance, and in a short time our railway connections will be largely extended. What an enormous demand there must necessarily be for cars on the Midland, its Toronto and Ottawa division and the Ontario and Quebec railways. Surely here in Peterborough we should be in a position to supply these companies as well as any competitors could. We would have the benefit of the locality, and the great advantage of getting much of the bulky material at a short distance and at a reasonable rate. We have abundance of capital even in our own town, some of it seeking employment and being unable to find it at the old rates. Surely there ought to be no insuperable difficulty in raising the amount required to set our projected car works on a satisfactory footing. We hope that this very promising project will not be allowed to drop, but that it will be taken energetically in hand and pushed forward so as to make it a success, to the great gain both of the shareholders and of the whole community.

"THE 'GLOBE' DID IT."

OF course some excuse must be offered for a defeat, and this is how the Reform Lindsay *Post* does it:—

"The verdict must be accepted as largely an approval of the present tariff and of its general features. The substantial principle of incidental protection would not have been endangered by the success of Mr. Blake, but the persistent and often irrational diatribes of the *Globe*, in season and out of season, gave our opponents an effective handle that was skilfully used. The *Mail* says truly the *Globe* was one of the most active friends of the tory cause, and we have no hesitation in publicly stating a fact that we have long perceived. The most idiotic act of the *Globe's*, however, was the publication of what was called the "factory girls slander," a statement in a descriptive letter about the Montreal cotton mills to the effect that many of the girls there employed were immoral. The publication of this statement, whether true or untrue, was most inopportune, and was handled with great effect by the tories in every town, and, it is believed, lost the reform party many votes and many constituencies. In publishing this statement the *Globe* displayed unparalled stupidity."

It will now be in order for the *Examiner* to say what it thinks of the *Post*, as they have such different opinions about the *Globe* slander of the factory girls. By the way the *Post*, like the *Examiner* never missed a chance of making or inventing a point against the N. P., so it is not fair that the *Globe* should bear the whole burden. We hope that all three will now fall into line and agree henceforth to encourage our Canadian industries.

RAILWAY FUSION.

The Agreement Signed by the two Presidents of the G. T. and G. W. Railways.

The agreement between the Grand Trunk and Great Western, which has been signed by the Presidents, will be submitted to a meeting on the 29th June. The united Company will assume the name of the Grand Trunk. The Board includes all the Grand Trunk and Great Western Directors, except Mr. Plunkett, M.P., who succeeds Mr. John Swift. The terms of the agreement provides that if 30 per cent. of the net earnings appropriated to the Western share of the capital be insufficient to pay a dividend of 5 per cent. on preference and 3 per cent. on the remainder of the capital, then the amount required to make up the deficiency shall be taken from the 70 per cent. of the Grand Trunk earnings. If the net earnings do not yield the per cent. the dividend which remains is a cumulative deficiency which shall be a first charge payable out of the earnings of subsequent years. As an additional security for the regular payment of the 3 per cent. dividend on Great Western stock, and the protection of the 70 per cent. appropriated to the Grand Trunk, when a deficiency occurs in the 30 per cent. accruing Great Western, the united company will be at liberty to apply such portion as may be necessary to make good the deficiency from the present reserve fund of the Great Western.

THE NEW PARLIAMENT AND COMMERCIAL POLICY.

The *Monetary Times*, which favors the free trade theory, says:—

"The election of the new parliament settles the question of the general character of the commercial policy for the next five years. On this question more than any other the contest turned. The effect of bringing on the elections a year before the natural demise of Parliament, is to substitute certainty for uncertainty, in the matter of the commercial policy. A change of Government was supposed to mean a change of tariff. It is probable that the change would, even in this case, not have been great; but it is impossible to say how far it would have gone, for no clear and comprehensive programme had been accepted by the Opposition as a whole. The leader of the party showed a disposition to temporize and give and take; but it was difficult to extract from his various utterances on the subject, any certain idea of what he would have been prepared to do, in the event of his having obtained a majority. His late utterances pointed to a much less extensive change in the tariff than would have satisfied Sir Richard Cartwright and some others. These speculations are now of no practical importance; for the Opposition is not charged with the framing of a tariff; and for the next five years it can frame no commercial policy to displace that of the Government.

THE Independent Montreal *Star* is calling for a redistribution of seats in the Province of Quebec to equalize the representation in the House of Commons with the population of the constituencies.

MESSRS. BARTON & DOHERTY have let the contract for their new stove foundry at Sarnia, to be completed by the 18th of July, as the firm desires to be in operation by the 1st of August.

TOWN COUNCIL MEETING

A SHORT AND UNIMPORTANT SESSION OF THE CITY GUARDIANS.

The Question of Raising the Smith Street Bridge—The Waterworks Extensions—Aylmer Street not to be Watered—The Closed Streets—Street Improvements Asked For—Communications and Accounts.

The regular meeting of the Town Council was held on Monday evening.

PRESENT—His Worship the Mayor, Councillors Cahill, McNaughton, Menzies, Denne, Richardson, Rutherford, Wilson and Kelly.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS.

From the Guttapercha and Rubber Manufac. turing Company, Toronto, enclosing a circular respecting fire hose manufactured by them.—Referred to the Fire, Water and Gas Committee.

From the Provincial Board of Health, making a number of enquiries regarding the enforcement of sanitary rules.—Health Committee.

From John Smith, Secretary of the Committee, asking the permission of the Council to erect arches on the principal streets for the 12th of July celebration.—Granted, on condition that they be removed within ten days thereafter.

From the County Clerk, enclosing a resolution of the County Council offering to renew the arbitrators' award, with reference to the shares of the Town and County in the cost of the administration of justice, for three years.—Finance Committee.

From Mrs. Crowe, asking for street improvements.—Street and Bridge Committee.

From certain residents of the townships of Douro and Otonabee, asking that the Smith street bridge be raised.

From Wm. Bell, stating that he had paid for a license for a pigeon-hole table for a year, and that the License Commissioners had ordered it to be removed, so that it had only been used three months, and asking that a portion of the license money be refunded.—License Committee.

From Wm. Cummings, recommending that the taxes of certain persons be remitted, as their chattels would not pay the taxes and the expense of selling and carting them.—Finance Committee.

From James Tremain and others, asking for street improvements on Dublin street.—Street and Bridge Committee.

ACCOUNTS.

The following accounts were read:—

John Bertram, hose	$ 561 50
C. A. Alexander, bread	3 35
J. W. Flavelle	3 00
Edward Green, window shades	4 02
R. Lund, bread for immigrants	33 18
Special Constables on circus day	10 00
County Treasurer, conveying persons to asylum, &c.	52 28
Co. Treas., Repairs to Locks Bridge	25 90
do Shade Trees, C't Hou. Gr's	15 70
Michael Fee, five pails for fire	1 25

The above accounts were ordered to be paid, with the exception of the one for the shade trees, which was referred to the Finance Committee.

SMITH STREET BRIDGE.

Councillor RICHARDSON, speaking of the communication from residents of Douro and Otonabee, asking that the Smith Street Bridge be raised, said that this was a dangerous place, and something should be done to remedy it. Mr. Cox had told the Council that he would attend to it, but nothing had been done, and the Council should take some action in the matter.

Councillor RUTHERFORD said that the bridge was a good one and had served its purpose well, and it would not need to be raised now, only for the railway. It would be well to refer the matter to the Street and Bridge Committee, and they could confer with the railway authorities.

Councillor CAHILL said it would be attended to more promptly if it were referred to the Street Inspector, and the Town Engineer.

Councillor MENZIES said that the Town should not bear the expense of raising the bridge, as it would be safe but for the railroad; at present it was very dangerous. He thought the railway company would raise the bridge and make it free from danger, and they should be asked to do so.

The communication was finally referred to the street Inspector and Town Engineer.

STREET WATERING.

Councillor RUTHERFORD presented the report of the Fire, Water and Gas Committee, stating that they had let the watering of the street to Mr. M. O'Donnell at the sum of $435.

Councillor CAHILL asked if anything had been done with reference to the petition of the residents of Aylmer street asking to have that street watered?

Councillor RUTHERFORD replied that the necessary number of the ratepayers residing on that street, had not signed the petition.

WATERWORKS.

Councillor RUTHERFORD said he intended to move that a by-law be prepared in accordance with the request of the Secretary of the Waterworks Company.

Mr. HATTON was, on motion, heard by the Council, and said that the Secretary had written to the Council with reference to the extension of the mains, at the instance of several members of the Council, but no answer had been received. If the Council so desired, they could pass a by-law permitting to discontinue the eight inch pipe at Sherbrooke street. If the Council desired any pipes to be laid east or west from George street for fire purposes, they should so signify to the Company, and it would be done; but if the crossstreets were passed, and the work completed, these extensions could not be put in. The Company only asked the Council to let them know what they desired to have done.

It was moved by Councillor MENZIES, seconded by Councillor RICHARDSON.—That the letter of the Secretary of the Waterworks Company be referred to the Fire, Water and Gas Committee, and that they prepare a by-law in accordance with the requests of the company.—Carried.

OPENING THE STREETS.

Councillor WILSON said that the persons had been notified that in accordance with a resolution of the Council, to open certain streets blocked by them, but they had not complied with the request. He moved that the street inspector be authorized to summon these parties before the Police Magistrate.

Councillor RICHARDSON asked who it would benefit if these streets were opened?

Councillor MCNAUGHTON contended that no ratepayer had a right to use a street and block it up any more than another ratepayer. He advocated opening all streets.

Councillor DENNE said one street should not be referred to more than another, but there were streets blocked which, in the interests of ratepayers, should be opened.

The point of order having been raised that no notice had been given, the motion was allowed to stand as a notice.

PEREGRINATING CATTLE.

Councillor KELLY asked that Councillor Poussette's notice of a by-law regarding the impounding of stray cattle, be allowed to stand.—Granted.

The Council then adjourned for one week.

A Striking Confession.

The Chicago *Tribune* says:—"Four years ago Sir John Macdonald was chosen to the Dominion Ministry, his party having been elected on the 'National Policy,' which, in simple language, meant the adoption of a protective tariff intended also to retaliate upon the United States, which had refused to adopt a treaty for reciprocal trade. The United States manufacturers had for many years adopted the policy of *making the British provinces a slaughter-house* where they shipped their manufactures for which there was no sale at home. The panic of 1873 had filled the warehouses of this country with unsalable goods for which there was no market in this country at any price, and *which were sent over to Canada to be sold—slaughtered at any price that could be got for them. Canada in this way was kept stocked with the old-fashioned out-of date, unsalable productions of American manufactories. The trade was all on one side.* These American goods were sold to the Canadians for much less than like goods could be imported from England even under a nominal tariff."

"If you know of any one who is suffering from rheumatism, bruise or sprain, tell such to use St. Jacobs Oil," says Mr. Rosenthal, of the well-known printing house of Rosenthal & Roesch, 538 California street, San Francisco, Cal. "We all know of St. Jacobs Oil, and are perfectly amazed at the suddeness of the relief it affords."

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dve's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

Keep the *Stomach, Bowels, and Digestive Organs in good working order and* perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

For sale by all dealers in medicine. Send address for pamphlet, free, giving full directions.

HENRY, JOHNSONS & LORD, PROPS.,
MONTREAL.

Spavin, Ring-Bone, Etc., with Methods of Treatment.

From Farm and Fireside.

The horse is our noblest domestic animal, perfect in structure, imposing in appearance, full of intelligence and when kindly treated giving in return an affection almost human in its nature, and performing to the last point of endurance the tasks imposed, and we may add it is too often subjected to the hardest and harshest usage of any of our animals, and probably for this reason is the most liable to disease and blemishes.

Many an otherwise valuable horse is disfigured for life and rendered more or less unfit for service by ugly spavins, unsightly ring-bones, splints, etc. Sometimes these difficulties are not of a serious nature, that is, do not lame the horse or make any material difference in the ability for performing work on the farm, but such animals are rendered unsaleable, or if disposed of, it must be at a sacrifice of price. Generally, however, the horse is permanently lamed unless the cause is removed, which is very seldom—and often entirely ruined for travel or work.

Spavins are most generally produced by a strain or overwork in drawing. The bony excrescence or substance of which it is composed will grow quite fast and sometimes give the appearance of an enlarged joint, and unless attended to in season will soon become difficult to manage. Many remedies have been divised for this difficulty, but usually with very indifferent success. Blistering is generally resorted to when anything is attempted, and will in some cases, when properly performed, stop the growth of the spavin but will not remove the bunch already formed or cure the lameness, besides the process is a painful one producing soreness and rendering the horse more or less unfit for service.

Some four years ago Dr. B. J. Kendall of Enosburgh Falls, Vt., having a horse troubled with spavin tried blistering to cure it. The operation appeared so painful and unsatisfactory that it was abandoned with the belief that a remedy less torturing in its application and more certain in its effect might be divised. Accordingly the Docter set himself to work, and being a practical physician and druggist, succeeded in preparing a remedy that since its introduction to public notice, has achieved a success that is of the most satisfactory character. About three years since, hearing of several cases where "Kendall's Spavin Cure" as the remedy is termed, had been used with good effect. I took some pains to ascertain the facts in the case, and reported the same for several of our leading agricultural journals. I give a few instances to which I am personally knowing. Mr. R. A. Gaines, of Berkshire, Vt., owned a valuable horse having a spavin of the size of half a hen's egg, and producing severe lameness. After trying the usual remedies with no effect, learning of "Kendall's Spavin Cure" a bottle was obtained and used according to directions. The application produced no blistering, did not appear to be painful, and left no scar or callous. A one dollar bottle was used and it cured the spavin, stopping the lameness and removing the bunch. I examined the legs carefully and could find no difference in the size of the joints, and could not tell upon which the spavin was located. The horse has been worked hard since and upon examining him the second time a while since, after an interval of three or four years, was pleased to find no return of the difficulty in any shape or manner; one leg is as sound and perfect to all appearance as the other.

Mr. N. F. Weld, also of Berkshire, Vt., treated a bad case of spavin with this remedy and in six weeks the lameness was gone, the bunch nearly removed and he considered the horse cured. There has been no return of the difficulty since, although the horse has been worked hard. A. A. Simpkins, of West Enosburgh, Vt., has had an experience similar to the above, and others might be given, but these may be considered sufficient to establish the fact of the curative powers of this remedy, and also, which is equally important, the permanence of the cure; the relief afforded being not temporary, but lasting in effect. Equal success has been had with "Kendall's Spavin Cure" in the treatment of splints, curb, ring-bone, bruises, strains of different kinds, callous, etc. I wish to call particular attention to this as a humane method of treatment, the remedy, while it is efficient in operation yet does not produce pain or soreness, as is the case with most applications. This feature is deserving of notice and is receiving commendation from many prominent gentlemen in this country, among whom I would mention Mr. Charles A. Currier, special agent for the Massachusetts society for the prevention of cruelty to animals, Boston, Massachusetts, and others.

Although this remedy was originally designated for the treatment of horses, yet it has been used for human ailments, such as different forms of rheumatism, or deep seated pains of long standing, with equally good effect.

"Kendall's Spavin Cure" has been introduced throughout the most of this country, and is being put into the hands of all the leading wholesale druggists from whom it may be obtained, or through whom it may be ordered by every druggist. Dr. Kendall has also compiled a small work or "Treatise on the horse and his Diseases," of about one hundred pages, fully illustrated, and giving in a small compass a large amount of useful information, free from all technical terms and which will be worth many times its cost, of twenty-five cents, to all owners of horses. Something of the favor with which this work is being received by the public may be inferred from the fact that one hundred thousand copies or over have been sold since April last. Should any one desire further information upon any matter contained in this article, they will please address Dr. B. J. Kendall at Enosburgh Falls, Vt. E. R. Towle, West Berkshire, Vt.,

We are informed that the "Kendall's Spavin Cure" is now sold by all of the leading wholesale druggists and a large number of prominent retail druggists.

The Lawn in Summer.

In the spring months, when there are frequent showers, and the grass is in rapid growth the lawn mower may be used as often as once a week with decided benefit. But in our climate with its extremes and uncertainties, such fixed rules, as "mow once a week," will lead to trouble, if followed. With the first drouth, the grass on the lawn shows a diminished growth, and is often really at a standstill. At such times, nothing worse can be done to the grass than to cut it. All that there is above ground is needed to sustain the root, and incidentally to shade the surface. In the treatment of the lawn, as in all gardening operations, some thought should be given to the present condition of the plants, and the object to be gained by any operation. The kind of grass varies the time or frequency of cutting. A fine, thick bottom growth, of June grass or blue grass may be kept pretty closely shaven. But many front yards and lawns have a Timothy or Herd's grass sod, and if this is allowed to grow 8 to 12 inches high and then cut, it will leave a woody stubble, and if dry weather prevails, it will be a long time before a new growth from the roots comes up, the plot, in the meantime, having the appearance of a burned-over surface, or a dry stubble at best.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

FROM THE OLD COUNTRY

ENGLAND.

The Queen is the sole survivor of her first Privy Council.

Lord Elcho has given in his adhesion to the proposal to form companies of Volunteers mounted on bicycles or tricycles.

The church erected by Warren Hastings, at Daylesford, where he was buried, has been replaced of late years by one larger and handsomer.

The Hudson Bay Company have declared a dividend of 14s. per share for the year ending 31st May, and £2 per share return capital from land sales.

Permission will shortly be granted to Volunteer officers to wear gold lace. By the new territorial scheme this right has been concealed to the officers of Militia.

Great Paul, the new bell of St. Paul's Cathedral, London, was dedicated the other day, and shortly afterwards its tones were heard over London for the first time. Eight ringers were employed.

In a few weeks the Hon. John Bright will have represented the borough of Birmingham in Parliament for twenty-five years. The Liberals propose to mark the event by an appropriate celebration.

One of the richest men in England is Sir Henry Meux, adjudged a lunatic in 1858. He is senior partner in the brewery of his name, out of which also Sir Dudley Marjoribanks—created Lord Tweedmouth by Mr. Gladstone—has made a fortune.

As many as 26,000 volunteers have already stated their willingness to take part in the volunteer review which is to take place at Aldershot on the 7th August, at which Her Majesty has intimated her intention, should circumstances permit, to be present.

June 7th was the semi-centenial anniversary of the passage of the Reform Act by the British Parliament. The only member of the House of Commons who had occupied his seat in that body uninterruptedly during those fifty years is Mr. C. R. M. Talbot, who has been the representative of Glamorganshire since 1830.

On arriving in England Mr. P. T. Barnum at once took to the lecture-field, and addressed the British public on the ever-fascinating theme of "Jumbo." He reported to all anxious inquirers, who thronged to hear him by thousands, that their one-time pet was getting on famously in America, and had become a strict teetotaller, thus adding much weight and strength to the temperance cause.

Alderman Henry Ingledew, of Newcastle, said to be the oldest solicitor in the United Kingdom, died last month, aged ninety-six years. Mr. Ingledew had been a solicitor for upwards of sixty-five years, and entering the Newcastle Town Council when he was fifty-three, he was for forty-three years a member of that body.

IRELAND.

John Trimble, son of a boycotted farmer near Curleogh mountains, Swanlinbar, was shot at and it is believed mortally wounded on the first of June. Three men were concerned in the shooting.

On the 28th May, a patrol of military and police surprised a moonlight band of thirty at Castlemahon, near Newcastle West. All but five made their escape. The five have been returned for trial at the assizes.

The inquest in the case of Melody, who was shot in Ballina during a disturbance between the people and the constabulary, has been concluded. Out of a jury of twenty-one persons fifteen returned a verdict that death was caused by a gunshot wound inflicted by Irish constabulary. The jury expressed sympathy for the relatives of Melody, and recommended that the Government compensate them.

At the Patrick's Hall sessions on Saturday, May 27, Patrick Hunt, Sr., and Patrick Hunt, Jr., were charged with having intimidated a servant man named John Bryan to prevent him from working for a farmer whom they alleged to be boycotted. Bryan swore that the defendants pelted clods at him on the Butlerstown road on the 20th ult., and the elder man held him while the younger beat him. They said he was working for a boycotted farmer. He was not frightened or intimidated. The intimidation charge was dismissed, and summonses for assault ordered to be taken out.

SCOTLAND.

Gas is now to be used in some of the trains running between Glasgow and Greenock.

The per centage of illegitimacy in the county of Banffshire last quarter was 19.1, the highest in Scotland.

Lochs Yad and Quain are being cleared of pike and perch in order to the introduction of trout. A connection is also to be formed to permit salmon to go up to the locks.

The Shetland Disaster Relief Fund has been augmented by the receipt of a draft from New South Wales for the large sum of £904. The total amount received for the fund is now £15,450.

A Shetland pony bought at last Stirling Fair after being on its way to its new home bolted back to its companions, who formed a cordon round it, and it was with great difficulty it was ultimately removed.

On the 29th May the Lord Advocate promised a deputation from Glasgow Sabbath Protection Association to if possible introduce this session "a bill that would remove the flagrant scandal presently existing on the Sunday pleasure steamers."

A fine herd of pure bred cattle founded by Mr. D. A. Pearson, of Johnstone, Laurencekirk, has been attacked with pleuro-pneumonia. Several were slaughtered, and it was decided that the whole remainder of the herd, valued at £1,500, must be killed.

The latest about the sea-serpent is that it was seen at Shetland on the 29th May. The story goes that the monster appeared close to a fishing boat eighteen miles at sea. The boat made for the land, and was followed for nine miles by the serpent—a hideous monster, 150 feet long, "whiskers" seven feet long, and "glaring green eyes." One of the crew had a rifle on board, and fired a shot at the gigantic reptile, when it went down and did not appear again.

A Gentleman Aged 65, writes: "I heartily thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

The Smith Medicine Co.—Gentleman,—I have very much pleasure in testifying to the efficacy of Dr. Smith's German Worm Remedy I found it to operate successfully after only two doses. Have tried other remedies with the child without success. Yours truly W. T. Hart, 128 Amherst St., Montreal.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

TRENT NAVIGATION.
FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.
NOTICE TO CONTRACTORS.

Sealed tenders, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Lift Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows:—

For the Fenelon Falls work.....$1,000
" Buckhorn Rapids work..... 500
" Burleigh Falls work..... 1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Department of Railways and Canals,
Ottawa, 22nd May, 1882. d127-3w11

WELLAND CANAL.
NOTICE TO CONTRACTORS.

Sealed tenders addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Dept. of Railways and Canals,
Ottawa, 22nd May, 1882. d127-2aw

KENDALL'S SPAVIN CURE,
The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.
From Rev. P. N. GRANGER,
Presiding Elder of the St. Albans District.
St. Albans, Vt., Jan. 20th, 1880.
Dr. B. J. Kendall & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.
Respectfully yours, P. N. GRANGER.
PERSEVERANCE WILL TELL.
Stoughton, Mass., March 16th, 1880.
B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.
Respectfully yours, CHAS. E. PARKER.
Kendall's Spavin Cure is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.
Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.
Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.
Lyman Sons & Co., Montreal, P. Q., Wholesale Agents.

In prices and workmanship he defies competition. All orders left at his residence on Aylmer street, or at the Hardware stores promptly attended to 43

Sulpholine Lotion.—An external means of curing skin diseases.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

Sulpholine Lotion, a fluid peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

Sulpholine Lotion.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

Sulpholine Lotion.—Bottles containing nearly half a pint.—Sold by Chemists everywhere. Made in London, Eng.

LIVER COMPLAINTS.
Dr. King's Dandelion & Quinine Liver Pills (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

Pepper's Quinine and Iron Tonic strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

Pepper's Quinine and Iron Tonic rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

Taraxacum and Podophyllin.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. Pepper, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

For Sale by Ormond & Walsh, Peterboro.

Daily Evening Review

TUESDAY, JUNE 27, 1882.

The English Mails.

The mail steamer Circassion arrived at Rimouski from Liverpool on Monday, May 26th at 3.45 a. m.

St. John's Church.

The Bishop of Toronto will hold a confirmation in St. John's Chapel on Sunday next, July 2nd, at 11 o'clock in the morning.

Railway Notes.

Mr. Raphael brought a large number of navies from Toronto this morning to work on the "Missing Link."

Court of Revision.

The adjourned meeting of the Court of Revision for the Town of Peterborough will be held in the Council Chamber at half-past seven o'clock on Wednesday evening.

One Side.

We notice that the *Globe* gives the figures of the reduced Conservative or increased Liberal majorities in some cities and towns, including Lindsay, Cobourg, Port Hope, &c. It does not say a word about the Conservative gain in Peterborough.

Daly Hotel, Winnipeg.

The undersigned having bought the premises known as the Club Hotel, Winnipeg, have renovated it throughout. Hereafter it will be known as the Daly Hotel. The proprietors will be glad to see their old friends from Peterborough.—JAMES SHERIDAN and F. J. DALY, proprietors.

Kendall's Spavin Cure.

Those interested in good horses will do well to read Mr. Towle's letter in another column on Spavin, Ring-bone, Etc., with Method of Treatment. We are informed that Mr. Towle is one of the best agricultural writers in Vermont, and no doubt his investigations on this subject will be of great benefit to horse owners.

Confirmation.

The Lord Bishop of Toronto will visit St. Luke's Church on Sunday next, July 2nd, at 7 p.m., for the purpose of confirming those candidates who may be presented by the Rector. The Bishop will also address those assembled. The public are cordially invited to take part in this interesting service; all the seats in this church are free and unappropriated.

The Great Lacrosse Match.

The following players will comprise the Kingston "Young Earls" Lacrosse Club, who are to play a match with our team on July 1st, on the Ashburnham cricket ground: J. McDonald, T. Maguire, P. Morgan, M. Hagerty, W. Towers, M. Hogan, C. Millane, J. Linaugh, M. Foley, D. Millane, C. Greara, P. Gallivan, Jno. Behan, field captain.

Bailiff Appointed.

The *Ontario Gazette* contains the following announcement:—

"His Honor the Lieutenant-Governor has been pleased to make the following appointment, under the provisions of 'The Division Courts Act, 1880,' viz.:—

"John Henry Davis, of the township of Douro, to be bailiff of the Fourth Division Court in the County of Peterborough, in the room and stead of Henry Masters, resigned."

Recently in Toronto.

At 75 Young street, over 500 physicians and sufferers visited Dr. M. Souvielle of Paris, ex-aide-surgeon of the French army, using his wonderful instrument, the Spirometer, for the cure of catarrh, bronchitis, asthma and all throat and lung diseases. The Doctor, or one of his surgeons, from the International Throat and Lung Institute, 75 Yonge street, Toronto, or 13 Philipe square, Montreal, office for Canada, will be at the Huffman Hotel, Peterborough, on July 3rd, 4th, 5th, 6th, 7th and 8th, and will have with him a supply of Spirometers and and medicines. Physicians and sufferers can try it free.

Peterborough Excursionists.

The Belleville *Intelligencer* of Monday says: "A special train, consisting of five brand new Midland cars (never before used) arrived here about noon to-day, loaded with excursionists from Peterborough and vicinity. The excursion was run by the Masonic fraternity of Peterborough in celebration of the anniversary of St. John the Baptist, which fell on Saturday. There were between 300 and 400 persons on board the train, among whom were several prominent citizens of Peterborough. A large number of the excursionists went down to Massassaga Point this afternoon, on board the steamer *Quinte*, which had been chartered for the occasion, and were accompanied by quite a number of friends from the city. The party are favored with good weather, and it is to be hoped their visit to the Point will be pleasant, as well as their short sojourn in this city.

THE ST. ANDREW'S APPEAL CASE.

The following report of the final proceedings of the General Assembly in the above case are taken from the *Mail*, with the addition of the words printed in italics, and which the reader will observe are necessary to make sense of the paragraph in which they are inserted, and from which they were, no doubt omitted through oversight, inasmuch as they are contained in the same as submitted to the Assembly.

ST. JOHN, N. B., June 23.—On the appeal of the Rev. Mr. Bell and the session of St. Andrew's Church, Peterborough, against the finding of the Synod of Toronto and Kingston, a good deal of discussion took place, and not a little feeling was manifested.

MR. LAING, the convenor of the Judicial Committee, to whom the matter was referred, in giving to the Assembly the committee's decision, said that he dissented from the finding, and consequently could not move its adoption.

DR. JARDINE then narrated the steps in the case, gave reasons as are seen below why the finding was such as it was, and moved accordingly.

The Judicial Committee's presentation was in these words:—

"In the case of the appeal of Mr. A. Bell and the kirk session of St. Andrew's Church Peterborough, against the decision of the Synod of Toronto and Kingston, the Judicial Committee have to report that they have carefully considered the case, and recommend that the following be the finding of the General Assembly, without either sustaining or dismissing the appeal, and in view of all the circumstances of the case, instruct the session of St. Andrew's church to give Mr. Pentland a certificate of his actual standing in the church at the time of his first application, November 26th, 1880."

From this decision Mr. Lang dissented.

The following statement was made by Dr. Jardine in moving the adoption of the finding of the Judicial Committee. The Judicial Committee felt they could neither sustain nor dismiss the appeal for, reasons such as these:—1. When the case first came before the Presbytery there should have been instituted a more thorough examination of the whole case; the records before the Presbytery did not contain all the facts which the presbytery should have had before them, and the presbytery were at fault in not insisting that these should be submitted. 2. During the subsequent process of the case there were from time to time new elements introduced which tended to confusion, and to the prejudice of the decision, and these elements could not be completely expelled. In reference to the finding of the committee that a certificate should be given to Mr. Pentland stating his standing at a certain date, it is to be distinctly understood that the session is not directed to grant a certificate of *good standing but of* Mr. Pentland's actual standing according to the conscientious convictions of the kirk session.

To this, it was moved in amendment by Mr. Sedgwick, seconded by Dr. McVicar, as follows:—"Sustain the appeal, and instruct the session of St. Andrew's church to give Mr. Pentland a certificate of his actual standing in the church at the time of his first application."

The amendment, when put to the vote, was lost, and Mr. Sedgwick, for reasons given, entered his dissent against the finding of the Assembly.

STREET WATERING.

To the Editor of the Review.

DEAR SIR,—Allow me space in your paper to draw the attention of the Fire, Water and Gas Committee to the way in which the residents of Water street, just back of the Market Block, are treated by the contractor, who has the contract for watering the streets of the town. Now, Mr. Editor, the residents of this portion of the town pay a high water tax, and it is nothing but fair that they should get what is right. The watering cart merely passes up the centre of the road once in the forenoon and once in the afternoon, making *two* trips during the whole day. Other portions of the town are well watered, and there is no reason why this should be made an exception This matter should be attended to, or a deputation may have to wait on the Council for an investigation.

Thanking you, Mr. Editor, for your space.

I remain,

A SUFFERER.

Peterborough, June 27, 1882.

The Peterborough Diocese.

A Kingston despatch says that the new Diocese of Peterborough takes from the Diocese of Kingston nine of the wealthiest parishes. These are now under the charge of the following priests:—Peterborough, Father Lynch; Cobourg, Father E. Murray; Lindsay, Father Stafford; Port Hope, Father Browne; Ennismore, Father Kielty; Grafton, Father Larkin; Fenelon Falls, Father Kirkpatrick; Douro, Father O'Connell; Downeyville, Father Connolly. The counties taken off are Northumberland, Durham, Peterborough and Victoria. These changes have been anticipated for many years, but the authorities at Rome wishing to fix the ecclesiastical boundaries in accordance with those of the Province; the boundary question between Ontario and Manitoba, however, being as far from settled as ever, the Pope has probably decided to appoint the limits of the Diocese of Peterborough as his advisers think it should be. Peterborough will be the Episcopal centre, and Bishop Jamot will probably remove to that town. In the Vicariate Apostical of Northern Canada the principal parishes are Killarney, Prince Arthur's Landing, Fort William, Bracebridge, Sault Ste. Marie, and Garden River. There are 13 priests and the bishop in the vicariate. The diocese of Kingston will deeply feel the loss of the wealthy portion its territory.

THE JEANNETTE VICTIMS.

Extracts from the Diary of Captain Delong—A Story of Suffering.

WASHINGTON, June 26.—Captain Delong's note-book, forwarded here by Lieutenant Melville, contains a record of terrible suffering. The party lived on small allowances of dog meat, tea, alcohol and ptarmigan soup, suffered greatly from cold, and made very slow progress. The concluding entries are as follows:—

"Monday, Oct. 10.—The last half ounce of alcohol at 5 30. At 6.30 sent Alexy to look for ptarmigan. Ate deerskin scraps. Yesterday morning at my deerskin boot tips. Under way at 8 a.m. In crossing a creek three got wet; built a fire and dried out; ahead till 11, Used up. Built a fire and made a drink out of tea leaves and from the alchohol bottle. On again at noon; very hard going. Ptarmigan tracks plentiful. At three halted, used up; crawled into a hole in the bank. Alexy in quest of game. Nothing for supper except a spoonful of glycerine. All hands weak and feeble but cheerful. God help us.

"Tuesday—South-west gale with snow. Unable to move. No game. One spoonful of glycerine and hot water for food. No more wood in our vicinity.

"Wednesday—For breakfast, the last spoonful of glycerine and hot water; for dinner, a couple of handfuls of Arctic willow in hot water and drank the infusion. Everybody getting weaker and weaker; hardly able to get firewood.

"Thursday—South-west gale, with snow. Willow tea. No news from Nindermann. We are in the hands of God and unless He relents we are lost. We cannot move against the wind, and staying here means starvation. This afternoon went ahead for a mile after crossing another river or a bend of the Big river. Missed Lee; went down in a hole in the bank and camped; sent back for Lee; he had lain down and was waiting to die. All united in saying the Lord's prayer and creed. After supper a strong gale; a horrible night.

"Saturday, Oct. 15.—Breakfast, willow tea and two old boots. Conclude to move at sunrise. Alexy breaks down, also Lee. Come to an empty grain raft. Halt and camp. Signs of smoke at twilight to the southward.

"Sunday.—Alexy broke down. Divine service.

"Monday.—Alexy dying. The doctor baptised him. Read prayers for the sick. Collins' birthday, 40 years old. About sunset Alexy died of exhaustion from starvation. Covered him with an ensign and laid him in a crib.

"Tuesday.—Calm and mild; snow falling. Buried Alexy in the afternoon. Laid him on the ice and covered him with slabs of ice.

"Wednesday.—Cutting up the tent to make foot gear. The doctor went ahead to find a new camp; shifted by dark.

"Thursday.—Bright and sunny, but very cold. Lee and Knack done up.

"Friday.—Knack found dead about midnight between the doctor and myself. Lee died about noon. Read the prayers for the sick when we found he was going.

"Saturday.—Too weak to carry the bodies of Lee and Knack out on the ice. The doctor, Collins and myself carried them around the corner out of sight, then my eyes closed up.

"Sunday.—Everybody pretty weak. Slept or rested to-day, and then managed to get enough wood in before dark. Read part of Divine service. Suffering in our feet; no foot gear.

"Monday.—Hard night.

"Thursday, 27th, 137th day.—Iverson broken down.

"Friday.—Iverson died during the early morning.

"Saturday, 29th.—Dressler died during the night.

"Sunday.—Boyd and Gattz died during the night; Collins dying."

NOTE.—This is the end of the Delong Diary. Captain Delong, Surgeon Ambler, and Ah-Sam, the cook, must have died soon after the last note was written.

TRADE NOTES.

THE Merino Company of St. John, New Brunswick, has been fully organized and has adopted by-laws.

THE enterprise of the Mount Royal Milling & Manufacturing Co. in importing unhulled rice and preparing it here for the market is meeting with much encouragement. It is stated the company have more orders than can readily be filled, and during the past week between 4,000 and 5,000 sacks have been shipped, principally to western buyers.

PERTH is a busy town just now. Two hundred men are employed in erecting a car building shop, 200 feet long by 75 feet in width; a shop for wood-working machinery, 170 feet long by 75 in depth; one machine and smith's shop, 180 by 75 feet; a drying kiln; a sawmill and a boiler house, all for the Canada Pacific Railway. An engine of 150 horse power is employed to drive the machinery.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

NOTICE TO CONTRACTORS

THE LETTING of the works for the FENELON FALLS, BUCKHORN and BURLEIGH CANALS advertised to take place on the fifth of July next, is unavoidably postponed to the following dates:—

Tenders will be received until WEDNESDAY, THE SECOND DAY OF AUGUST NEXT.

Plans, specifications, &c., will be ready for examination (at the places previously mentioned) on SATURDAY, THE FIFTEENTH DAY OF JULY NEXT.

By order,

A. P. BRADLEY,
Secretary.

Dept. of Railways and Canals, Ottawa, 20th June, 1882. d150-law

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

Daily Evening Review

WEDNESDAY, JUNE 28, 1882.

FOR MURDER.

Vankoughnet the Buck Lake Murderer hanged at Kingston—How He Died.

Special to the Review, June 28.

This morning at 8.20 Vankoughnet paid the penalty of his crime, for the murder of John Richardson on the 13th of August last near Buck Lake.

The facts of the murder have been fully published, and it is but necessary to revert to them in brief. He was a neighbour of Richardson's and about 8 o'clock, on the night of the day named, he hid himself in the bushes on the farm of his victim, and while the latter was going to his house with a scythe on his shoulder he deliberately shot him in his tracks, and left the body lying where it fell. He afterwards took Richardson's horse out of the stable and put his own in its place, and then set fire to the building burning it to the ground. The horse was not disfigured sufficiently to destroy its identity. On the following morning he borrowed a buggy from a neighbor and hitching Richardson's horse to it he drove to Elgin where he attempted to dispose of the animal in trade for another. The person with whom he tried to trade desired the ownership to be proved, but while the two were driving along the road to a place where Vaukoughnet said he could be identified, he changed his mind about trading and asked the man to buy the horse. A bargain was made, Vankoughnet receiving $27, all the money that the other had. The prisoner then entered the woods and after wandering through the country, he went on an island in Buck Lake and there remained hidden for some days. None knew where he was secreted but the members of his own family. His wife took provisions to him by night in a boat, but finally his little four year old girl was influenced by the reception of three coppers to tell where her doomed father was, and shortly afterwards he was discovered and captured. When approached on the island he drew a knife and threatened to kill, but he was persuaded by his captor to give himself up. His captor a few weeks afterwards met with a fatal accident on the Kingston and Pembroke, railway. Vankoughnet after his arrest acknowledged having shot Richardson, and related the circumstances in detail. On last Wednesday he says he found peace with his Maker, and since that time a marked change has come over him, instead of being given to shedding tears he read the Bible diligently since that date, and grew stronger in body and mind. Last evening the prisoner began to show signs of weakness, and complained that he did not feel well. He could not eat any supper prior to being locked in his cell. At six o'clock a special guard was placed on him during the night in order to prevent any attempt at suicide. He was sleeping soundly at ten, eleven, and two o'clock. About four he awoke and got out of bed. He looked very careworn and haggard and again complained of weakness. His guard asked him if he would like an egg and a cup of tea, but he refused them saying that it was impossible for him to eat anything. At half-past seven o'clock he drank a cup of tea, after which the Rev. Mr. Jolliffe read three passages of scripture and prayed with him until twenty minutes before the execution, and then taking a clean white handkerchief in his hand he announced himself as ready. On reaching the corridor he sobbed aloud, holding the handkerchief to his eyes. He ascended the steps to the scaffold arm in arm with the minister, and once he turned around and said "Is my brother not here? Is not that him at the door?" He was answered in the negative when he went on crying bitterly and exclaiming "Oh my God! oh dear me!" He was quite strong and required no assistance to walk. While his arms were being pinioned on the scaffold he told the hangman not to draw the cord so tight that it hurt him. When all was ready he cried aloud "My God have mercy on my poor soul," and repeated it two or three times. He requested the gaoler to give his photograph to his mother who is 70 years of age, and who visited him for the last time yesterday. The clergyman whispered something in his ear, when he said "I'm ready," and spat out a large tobacco quid at the feet of the hangman. The minister then engaged in a short prayer and while he was saying the words "God have mercy on his soul," the doomed man ejaculated, "Yes Lord do, do Lord." At the word amen the bolt clicked and he was launched into eternity, and his pulse ceased to beat 14 minutes after the drop. His neck was not broken. Death was caused by apoplexy. He requested that his body be handed over to his mother, which request will be complied with. The whole affair did not occupy over four minutes. There was only one spectator allowed in besides the press and the gaol officials.

The execution took place by lamplight. None of Vankoughnet's friends were present, not even his wife. She had some words with him when she visited him four weeks ago.

MIDNIGHT TELEGRAMS

CABLE.

AN IMPORTANT CASE.

LONDON, June 27.—The Home Secretary, on account of the importance of the case, has ordered the examination of Walsh, who was arrested in connection with the seizure of arms at Clerkenwell recently, to be held in the Bow Street police court. The court this morning was guarded by an extra force of constables on account of the receipt of a threatening letter. The van in which the prisoner was brought to the court was escorted by six men. The Treasury asked that Walsh be committed for trial at the Central Criminal Court on the charge of treason-felony.

FRESH OUTRAGES.

ALEXANDRIA, June 27.—There have been fresh murders of Christians in the Delta villages. The intention is expressed to seize some Europeans as hostages. The state of the interior is becoming alarming. Several murders have occurred near Berka. The United States steamer Lancaster has arrived at Alexandria.

FRANCE TO CO-OPERATE.

LONDON, June 27.—It is reported that France will co-operate with England in the armed intervention, if intervention be determined upon. If necessary France will send 10,000 men.

"THE THUNDERER."

LONDON, June 27.—The *Times* says:—In view of the information we have received from various quarters, we cannot doubt that preparations for the protection of the Suez canal are maturing on a considerable scale. We have reason to believe the first army corps, and a considerable part of the second, are at full strength, and should it be necessary to strike a sudden blow, there would be no difficulty in despatching twenty thousand men to Egypt in a few days.

PANIC AND DISTRESS.

ALEXANDRIA, June 27.—The proposed departure of the British and French controllers-general has caused a revival of the panic at Alexandria. The distress among the natives is increasing.

NARROW ESCAPE.

LONDON, June 27.—The Duke of Edinburgh while fishing near Bayonne, hooked a large fish, and in his attempt to haul it in, he lost his footing and was dragged into water sixteen feet deep. After struggling half an hour he reached land.

THE REPRESSION BILL.

LONDON, June 27.—The House of Commons this evening resumed consideration of the Repression Bill, Clause 14, for the apprehension of absconding witnesses was adopted.

THE NIHILISTS.

ST. PETERSBURG, June 27.—Among the persons arrested in the last Nihilist affair are the Chief Terrorist Gratchewski, Major Tikowski, son of the general, Lieutenant of Engineers Bouschevitch, Midshipman Philospheff, son of the Procureur-General, a student of Bokowski, Kotiruskmaja, a cantatrice, and Figner, a colonel of artillery. All have been incarceated. The number to be tried is estimated at one thousand, including the forty-seven just arrested at Pskov. The persons arrested at Vasiliostrow manufactured dynamite bombs and published a clandestine journal. About thirty thousand roubles were seized with them.

FOR EGYPT.

LONDON, June 27.—It is stated that General Sir Evelyn Wood has been ordered to be ready to proceed to Egypt.

NOT A MERE THREAT.

LONDON, June 27.—The *Times* says:—"It may be taken for granted that there is something more than an empty sound behind the preparations at the dockyards. We can but hope that if the conference fails to find a solution of the Egyptian question France will agree with England on a plan of united action, or leave us free to act alone. It is stated that the expeditionary forces at Gibraltar and Malta have been constituted, and that the commanders and staffs have been nominated."

MAKING PROGRESS.

LONDON, June 27.—The House to-day took up the fifteenth clause of the Repression bill, which provides for an additional constabulary force. After various amendments had been rejected a motion to report progress was agreed to.

Fourteen to One.

Mr. Patterson, of Essex, has a majority of 785. There are fourteen Grit members, the aggregate of whose majorities do not reach that figure. These are Messrs. Bain (North Wentworth,) Mills, (Bothwell,) Blake, (West Durham,) McCraney, (Halton,) Cameron, (Huron,) Gunn, (Kingston,) Mullen, (North Wellington,) Ross, (Middlesex) Cockburn, (North Ontario,) Glen, (South Ontario,) Platt, (Prince Edward,) Trow, (South Perth,) and the members for North and South Grey. How vexed each of these Reformers must feel when he reflects that he has in Parliament the same voting power as another member, who had a majority fourteen times as large as his!—*Mail.*

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

TRUTH IS MIGHTY.—When Dr. Pierce of Buffalo, N. Y., announced that his "Favorite Prescription" would positively cure the many diseases and weaknesses peculiar to women, some doubted, and continued to employ the harsh and caustic local treatment. But the mighty truth gradually became acknowledged. Thousands of ladies employed the "Favorite Prescription" and were speedily cured. By druggists.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

WARLIKE.

ALEXANDRIA, June 28.—The national party are completing the coast defences. They have brought some heavy guns to bear on the fleet. All the guns, however, are miserably mounted, and would be silenced in half an hour.

FEARS FOR THE CANAL.

LONDON, June 28.—Alexandria advices state that the uneasy feeling continues respecting the Suez canal. It is rumored that a number of cases containing explosives accompanied by men in uniform, have arrived at Ismailia, and have been deposited in unoccupied public buildings under the supervision of the governor. The Khedive has been advised to go on board a vessel, as there is some danger that he will be seized as a hostage.

MARINES.

LONDON, June 28.—It is stated that a thousand marines will be sent to the Mediterranean to strengthen the British squadron there.

PREPAIRING TO FIGHT.

LONDON, Considerable uneasiness and excitement prevails in view of the possible conflict with Egypt. The latest news from Alexandria states that the troops there evidently intend to fight the British if the latter attempt to land.

ARABI THREATENS.

CAIRO, June 28.—Arabi Pasha states that if the Porte abandons him he will publish correspondence proving that every step he has taken since the 7th September last was instigated by the Porte.

THE RIOTERS.

ALEXANDRIA, June 28.—The British consular official has advised Englishmen desiring to remain there to take up their quarters in the Eastern telegraph office, as news might arrive at any moment from Constantinople which might cause a popular outbreak. Arabi Pasha declares that the natives implicated in the massacre of the 11th inst. shall not be punished unless the Europeans who fired upon the rioters are also punished.

AMERICAN.

BETTER PAY.

NEW YORK, June 28.—Yesterday the New York Central and Hudson Railway announced their intention, after July the first to advance the wages of switchmen five dollars a month; boss porters are to get $3, gatemen $2.50 and porters $2.50.

ONE EFFECT.

JERSEY CITY, June 28.—The shop keepers and residents, of fifty towns on the Erie railway dependent on New York for supplies are greatly embarrased on account of the freight handlers' strike.

BADLY OFF.

PITTSBURG, June 28.—The Watson iron works company deny the reports that they signed the scales. The contractors doing the excavating for the work of erecting new buildings, state that they are daily besieged for employment by former iron mill laborers who say they are almost reduced to want.

TWO PUGILISTS.

PITTSBURG, June 28.—Walling and Campbell, the pugilists, and some friends left this city yesterday in three squads by different routes, and will meet at Geneva, near the West Virginia line. The fight will take place in an unsettled locality near Geneva.

ON THE RAMPAGE.

BROOKLYN, June 28.—A steer broke from a herd yesterday, and tossed a little boy in the air without injuring him, and then swam from the East River to New York, where it was captured.

A BIG FIGURE.

NEW YORK, June 28.—The quotation of money at nine per cent caused some excitement on Wall street yesterday. Such a figure had not been known on the street for many a year. The quotation afterwards receded.

A BANKRUPT CITY.

LONG ISLAND CITY, June 28.—The general opinion is that Shortly will be appointed to wind up the affairs of the city. The interest fund has been overdrawn $104,000.

RAILWAY DAMAGES.

NEW YORK, June 28.—The Board of Trade Transportation Company yesterday resolved to employ counsel to compel the railways to promptly perform their duties as common carriers and pay the damages sustained in consequence of their failure to do so. A committee was appointed to solicit subscriptions for carrying out this purpose and receive from the merchants their claims for damages.

LINDSAY.

MR. WOOD'S PETS.—A correspondent writing to the *Mail* from this town says:—"Owing to the questionable means used by our Ontario officials, our majority is perhaps reduced some ten or twenty votes, but when we consider that even the guards of the Central prison, the keepers of the asylums, and Edgar Mercer Institute, &c., Mr. Wood's pets, were brought down at the expense, no doubt, of the Ontario Government to vote against the Conservative candidate, that is not to be wondered at."

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

Daily Evening Review

WEDNESDAY, JUNE 28, 1882.

THE STATE OF EGYPT.

It must certainly be galling to every British subject to read and hear the sneers that are being aimed at the Imperial Government, for its lethargy under the wrongs done to our fellow countrymen in Egypt. Massacres, pillage, even the murder of British officers have been allowed to go on unredressed and without an effort to shield the sufferers by the display of the force at the command of the authorities. It is no wonder that our enemies, our rivals and our lukewarm friends regard the spectacle with mingled astonishment and derision.

Certainly the prestige of our country has not been maintained under the administration of Mr. Gladstone, which has seemed fatally unable either to conciliate or to make itself feared. This last exhibition of a quaker-like policy at the wrong time and place is of all the most to be condemned or lamented.

It is true that there now seem to be some preparations for a recourse to arms, but not before our government has been driven to action by popular indignation, not before damage has been done and lives have been lost that cannot be recalled, not before a heavy blow has been given to the prestige of the British empire.

Our countrymen from their enterprize and ubiquity are constantly brought into contact with barbarous and semi-civilized countries, and it is among such communities that we may hereafter find that we have made a terrible mistake by such unworthy inaction, which they will assuredly believe to be due to cowardice. The sooner such leaders are relieved from power the better for the Empire to which we in Canada are proud to belong.

UNBLUSHING INTERFERENCE.

From all sides we have evidence pouring in of the unscrupulous interference of the Provincial officials in the present Dominion elections. The Owen Sound *Times* in its report of the contest in North Grey says:—

"A noteworthy feature of the campaign was the unblushing interference of the Ontario Government officials in the election—from the County Attorney, Division Court Clerks, Bailiffs, License Commissioners down to the License Inspector, they seemed to act as if they thought their offices were given them in order that they might become party hacks; and the County Attorney, who has no more right to interfere in elections than has the Sheriff or County Judge, actually got from the Returning Officer a certificate of qualification to enable him to vote at one of the country polls as Mr. Allen's agent, though if he had any knowledge of the law at all he must have known that his voting would be in direct violation of the statute."

INDIAN WHEAT.

The Manchester *Guardian* says that the recent enormous increase in the export of wheat from India is strikingly shown in the official trade statistics for the year ending 31st of March last, just received from Calcutta. The following table shows the qualities and quantities of the export during each of the past three years; we convert rupees into sterling at the rate of two shillings per rupee:—

EXPORTS OF WHEAT FROM INDIA.

	Cwt.	£
1879-80.....	2,195,550	1,121,014
1880-81.....	7,444,375	3,277,941
1881-82.....	19,863,520	8,604,081

We have thus an increase of about 800 per cent. or 17,668,000 cwts. in quantity, and of nearly £7,500,000 in value in the course of two years. The improvement is, no doubt, mainly due to the favorable agricultural seasons enjoyed in India during 1880 and 1881, but it has been largely promoted by the drought and consequent deficient yield of grain in the United States last year, and to the comparatively high prices to which wheat was driven by the speculators in Chicago and elsewhere in the eastern half of the Union. The *Guardian* says that the progress of this comparatively new department in the export trade of India will be watched with very great interest. It is already a highly important one, and with continued good seasons and a further extension of the railway system, in the northern and central provinces of the dependency, its further increase may be anticipated with considerable confidence. On the same subject the London *Spectator* says: "With light railways in the Punjab, Northern India, the supply of good wheat for export might be raised to more than 80,000,000 bushels at a price with which in a good year Americans cannot compete. The single difficulty with which the wheat growers of Northern India now have to contend is the slow and therefore expensive method of collecting by country carts and river boats. Grant even a slight improvement in internal transit, and England would be fed from British India—an enormous addition to the importance of the Suez Canal."

The British Grain Trade.

London, June 26.—The *Mark Lane Express*, in a review of the British grain trade, says:—"The weather during the week was rainy. Most of the crops are in blossom; smut is very plentiful. The trade in English wheat consists of efforts to clear off dangerous samples. Foreign is firmer in consequence of a very moderate supply. The arrivals of foreign flour are very small. Maize is rather against the buyers. Oats are firmer, and other grains are unchanged. There were four fresh arrivals and two sales, and four cargoes were withdrawn. The floating bulk of breadstuffs decreased as compared with the previous week. The sales of English wheat during the week were 22,880 quarters at 46s 11d a quarter, against 24,119 quarters at 45s a quarter in the corresponding week of last year."

The Scott Act Valid.

Mr. J. J. Maclaren, Q.C., of Montreal, who argued the case in support of the constitutionality of the Scott Act before the law lords of the Privy Council in the British metropolis, has received a cable message announcing that the decision rendered this morning confirmed the judgment of the Supreme Court of the Dominion, upholding the constitutionality of the Act. The principal point upon which the lords called upon Mr. Maclaren to speak specially was weather leaving the question of enforcing the Act to each locality did not render it a local matter withing the meaning of the clause of the British North America Act. The judgment holds the negative. The legality of the Act is now established beyond question.

THE PETERBOROUGH WATER COMPANY.

Sir,—I am instructed to ask you to insert the following for the ratepayers of Peterborough:

1. The town will have the right to fill the water carts for sprinkling the streets from the new fire hydrant, paid for by the Town, without any additional charge. The By-law provides that the payment of the sum per hydrant, shall cover the *use of the same for all public purposes.*

2. Persons requiring water for protection against fire, on their own premises, can attach their own hose to a pipe, upon which there will always, night and day, be sufficient pressure to throw a stream sufficient to put out local fires For instance, had a pipe and hose been provided on the premises on which the recent fire originated, any ordinary servant or person, who could attach the hose to the pipe, could, in an instant, have provided such a supply of water as would have prevented the fire spreading, thus in all probability, saving the property in which the fire originated, or, at any rate, confining it within that property, thereby preventing it spreading to the adjoining property. Had this been the case, a saving equal to what would have paid the whole water rate for protection against fire, for the whole town, for two or three years, would have been made, and the property owners, besides saving their property, would have been enabled to enjoy the income therefrom, that will be lost until the houses are rebuilt.

3. The water carts of the town, if they had the right to refill at the hydrants, could cover four or five times as much ground, as can now be done. The cart at present having to return after emptying to the lower part of the town empty, whereas had they the right to refill at the hydrants they could do so in about half the time now required at the present stand pipe—and could go on from hydrant to hydrant, both up and down the streets, always keeping the cart full, and thus keeping a larger area more effectivly watered for the same or less cost than at present.

The pipes are being laid as fast as can be done at present, as no more men than are employed could work in the trenches; this, however, will be different as soon as the streets crossing George street are reached; when they are reached the Company could put gangs of pipe layers on each cross street, and make the connections without at all retarding the laying of the main on George street. The Company has the pipes and material, and are prepared to do this at the instance of the town. Of no action is taken, all that will be done will be to lay the maines on George street, and the cross streets will have to wait until the requisite action is taken by the town before the pipes will be laid on those cross streets, the ratepayers on which do not petition the Council.

Your obedient servant,
GEO. W. HATTON.
Sec'y Peterborough Water Co.
June 28, 1882.

TELEGRAPHIC ENTERPRISE.

That the holding of a parliamentary election throughout the country on one and the same day, instead of having the excitement kept up for a series of days, as formerly, is an advantage, and that the closing of the drinking or liquor selling places on polling day is a blessing, will hardly be denied by any observant person. The electoral contest, which took place on the 20th instant, was a warm and exciting one, the country over. In the cities it was especially "hot." And the arrangements made by the Great North Western Telegraph Company were so good that in every city and large town, from Winnipeg eastward, it was possible for the result of the elections to be generally known before midnight. The crowds that thronged the streets of Toronto in front of the newspaper offices on Tuesday evening last, were nearly as great as in 1878. An expert telegrapher was posted in the editorial rooms of each of the city dailies, who received the reports by special wire the minute they were known at the central office. In the operating room at the latter point, the scene was a busy one. Some sixty male operators and sixty ladies were on duty at the seventy-five instruments from five o'clock till long past midnight, while a squad of entry clerks and copyists attended to the returns received by wire, and below stairs a small army of messengers supplemented the extra wires to the press. Two quadruplex registers, one working eastward and the other westward, facilitated transmission. One of these worked, for example, direct with Chicago. The Winnipeg papers, ever enterprising, wanted "full reports same night;" and it is an incident of the perfection of the telegraphic arrangements that the return of a member in central Ontario, learned at seven, was made known in the Prairie City before nine, enabling a friend in Winnipeg to despatch congratulations to that member which were delivered to him at ten. Some 10,000 or 12,000 words of election news, covering seven columns of the *Globe* or *Mail* were received by the dailies that night by wire, in addition to probably as much more of cables, market news and special despatches, over 20,000 words in all, between dusk and daylight. And this, thanks to the vigilance of the telegraphers, almost without an error in the transmission. So severe a feat successfully performed, deserves a word in favour of a hard worked body. The staff in this city, especially the Press Supt., Mr. R. F. Easson, the chief operator, Mr. J. L. Curry, and the night manager, Mr. R. Lanskail, used as they are to sleepless nights in busy seasons, have rarely had so hard a seige. Doubtless the like can be said of the operators in other cities, Mr. Angus Grant, Mr. R. McFee, and Mr. W. J. Graham, as heads of the departments in Montreal, needed all their energy to handle promptly the mass of business.—*Monetary Times.*

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co.; Rochester, N. Y.

Bad Blood.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidney, skin etc., and strengthening while it regulates and purifies.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

$100 reward is offered for any case of Catarah that can't be cured with Hall's Cattarah Cure. Taken internally. Price 75 cents.

REVIEWS.

Picturesque Canada.—The two numbers of Picturesque Canada which have just been delivered, are fully equal to their predecessors in artistic merit. They deal with our young capital, its magnificent river, its fine public buildings, its busy industries, its beautiful scenery and its social amusements. The descriptive letter press graphically describes both Ottawa and its surroundings, its inhabitants and its history. We are not surprised and rejoice to learn that the list of subscribers in our town and neighbourhood is a long one, for it is a work of which Canadians may feel proud.

Harper's Monthly Magazine.—The July number of Harper has for a frontipiece a beautiful engraving from Rowse's portraits, of Emerson, and Julian Hawthorne and the editor both contribute papers on the subject. In "Glimpses of Great Britons." Mr. Lucy gives some interesting sketches of the leading members of both houses of our Imperial Parliament, with their portraits. Miss Edwards dealing with a far remoter date in history describes the recent discoveries of royal Egyption mummies, the graver also reproducing them for us. Mr. Lathrop continues his "Spanish Vistas," and Mr. Woodbury gives the second part of the "History of Wood Engraving," with *fac-simile* specimen of early stages of the art, "The old ship Builders of New York," recalls the history of the past successes in that line. For music lovers there are some gracefully told reminiscences of the Abbe Franz Liszt. Mr. William Black's serial novel "Shandon Bells" progresses with unabated interest, while for lighter reading there are several stories and poems. The editorial departments are too well appreciated to need either praise or description.

A Wise Precaution.—During the summer and fall people are liable to sudden attacks of bowel complaint, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

In the cure of severe coughs, weak lungs, spitting of blood and the early stages of Consumption, Dr. Pierce's "Golden Medical Discovery" has astonished the medical faculty. While it cures the severest cough, it strengthens the system and purifies the blood. By druggists.

STRENGTH OF THE BRITISH FLEET.

In view of the threatening condition of affairs existing in Alexandria and the imminent probability of the necessity arising for the active employment of the naval forces of the European Powers, the following information respecting the British ships of war composing the Mediterranean squadron will be found interesting :—

The squadron is under the command of Vice-Admiral Sir Frederick Beauchamp Paget Seymour, G. C. B., whose flag is borne on the armour plated ship Alexandria, Capt. Chas. F. Hotham, which vessel carries 12 guns of the heaviest calibre in use in broadside armament and a crew of 800. The other ships of the fleet are as follows:—The double screw turret ship Inflexible, Captain John A. Fisher, carrying four guns in two turrets, with a crew of 270. This is the heaviest armed and most formidable vessel of war afloat, with the exception of the Italian turret ships Duilio and Dandolo. Next comes the armour plated ship Invincible, of 14 guns and 600 men, Captain Robert O'B. Fitzroy; the armour plated turret ship Monarch, 7 guns and 475 men, Captain Henry Fairfax, C.B., A.D.C.; the armour plated ship Superb, 16 guns and 600 men, Captain Thomas Le Haute Ward; the armour plated ship Tremeraire, 8 guns and 590 men, Captain Henry F. Nicholson; the torpedo depot ship Hecla, 6 guns and 370 men, Captain Arthur K. Wilson; the Iris, steel despatch vessel of 10 guns and 370 men, Captain Edward H. Seymour; the Beacon, double screw gun vessel, 4 guns and 175 men, Commander George W. Hand; the Bittern, double screw gun vessel, 3 guns and 175 men, Commander Thomas S. Brand; the Condor, screw gun vessel, 3 guns, 148 men, Commander Lord Charles W. D. Beresford; the Falcon, screw gun vessel, 3 guns, 148 men, Commander John E. Pringle; the Coquette, screw gunboat, 4 guns and 120 men, Lieutenant and Commander Lenox Napier; the Cygnet, screw gunboat, 4 guns and 120 men, Lieutenant and Commander Hugh C. W. Ryder; the Decoy, screw gunboat, 4 guns and 120 men, Lieutenant and Commander Arthur H. Boldero; the Grappler, screw gunboat, 4 guns, 120 men, Lieutenant and Commander Hugh G. Gough; the Antelope, paddle despatch vessel, 2 guns, 75 men, Lieutenant and Commander Hon. Walter H. Joliffe. This vessel is stationed at Constantinople for the service of the British Ambassador to the Sublime Porte. There are also the Cockatrice, paddle vessel, of 2 guns and 100 men, Commander Henry T. Grufell, stationed at Galatz, on the River Danube, for the protection of British interests, and the paddle despatch vessel Helicon, 2 guns, 75 men, Lieutenant and Commander William M. Morrison.

PREPARING FOR TROUBLE.

The foregoing vessels constitute the fleet under the immediate orders of Vice-Admiral Sir F. Seymour, who is now at Alexandria in his flagship, and accompanied by the Superb, Monarch, and Helicon. The Inflexible and Invincible are at Port Said, the entrance of the Suez Canal, the Red Sea outlet to which is also guarded by two vessels of the East Indian squadron. The force at the British Admiral's disposal is also by this time augmented by the following vessels, viz.:—The armour plated ship Achilles, 16 guns, 700 men, Captain Edward Kelly, and the armour plated ship Argincourt, 17 guns, 700 men, Captain Elibank H. Murray. This vessel bears the flag of Rear Admiral the Hon. Henry Carr Glyn, C.B., C.S.I., commanding the Channel squadron. There are also the armour plated ship Minotaur, 17 guns, 700 men, Captain John R. E. Pattison; the armour plated ship Northumberland, 27 guns, 800 men, Captain George S. Bosanquet; the steam corvette Carysfort, 14 guns, 370 men, Captain Henry F. Stephenson, C.B.; the steel frigate Inconstant, 16 guns, 600 men, Captain Charles C. P. Fitzgerald; the screw corvette Toutmaline, 12 guns, 270 men, Captain Robert P. Dennistoun; and the paddle despatch vessel Salamis, two guns, Commander Frederick R. Boardman. These latter vessels have been detached from the Channel squadron and the squadrnn for "particular service," and ordered to place themselves under the orders of the Commander-in-Chief in the Mediterranean in view of the events in Egypt. This will make a total of 9,575 men and 233 guns at Sir F. Seymour's disposal. Of the above there are some 1,500 men of the Royal Marine artillery and light infantry, and a naval brigade of between 4,000 and 5,000 could be quickly landed for service in case of need.

EATING FOR WORKING.

The importance of this matter is far too little appreciated or understood by the great majority of farmers. Many who carefully consider what kinds and quantities of food, of oats, corn, ground and cut feed, hay or grass, will enable them to get the most good work out of their horses and oxen, the richest milk, or largest amout of it, from their cows—also the best time of feeding—sadly neglect to use similar thought and care respecting themselves and their workmen. The foreigner working a New Jersey farm, in explaining how he got together money enough to buy it said: "We sell every ting that brings de cash; what won't sell we feeds to de hosses; what the hosses don't eat we feeds to the cows, what the cows don't eat we feeds to the sheeps; what the sheeps don't eat we feeds to the pigs; and what the pigs don't eat we eats ourselves." This is an exaggerated statement, of course, but it illustrates a principle to often followed—selling the good and eating the poor.

Strength comes only from suitable nutritious food, well digested. A man whether employer or employed, will have far more working power if he eats as much, and only as much, as he can digest well, of lean meat properly cooked, good bread, oat-meal, ordinary and cured cheese, and the like, than consuming salt fat pork, cooked almost to a crisp, with potatoes, etc. A laborer paid a dollar or more a day, will do double real work if 5 or 10 cents extra be spent in supplying him with food that will give him the fullest strength. Beans, if not charred or browned in cooking, peas, green, or ripe, good bread, and cabbage thoroughly cooked, supply the elements for muscular force.

The blood is the active helper in digesting food, by supplying the gastric solvents, and it carries nourishment to the muscles and to the brain, while a heavy meal is being worked up, the blood is drawn away from the muscles and brain to the stomach. When at hard work or exercise with mind or body, the blood is drawn from the stomach, and less nutriment is obtained from the food. It is a good rule to work slowly at first, after full meals, and increase the amount of exercise gradually, as the blood can be spared from the digestive organs. More will be accomplished by this course in working and thinking. The French people who make a study of the subject, take a very little food on rising, a roll and coffee, and perhaps a baked apple, and begin work at daylight. Towards noon they take another similar repast, and do a full day's work by 4 o'clock in the afternoon; then rest a little, take a full hearty meal, and make a business of digesting it. During the rest of the evening and night, this meal is digested, diffused all through the system, and quietly builds up and strengthens the muscles, so that they are ready for vigorous work the next day. Experienced horsemen understand that with a heavy feed of oats, etc., at night, and a light breakfast, a horse gets a reserved stock of muscular strength laid in in advance, and will travel faster and further than one having a hearty morning feed to start on.

A Noxious Weed.

The noxious weed "Long John," about which the New York dairymen are in such a stew, is said to have been brought in with clover seed from the Western States. In that case Canadians need not fear its introduction, as we grow more clover seed than we want. At the same time we should advise the greatest vigilance with respect to our pastures. If any evil smelling foreigner is seen in the grass it will do no harm to pull it up and destroy it before its seed is scattered around. The New York dairymen must have neglected this duty. Else why should a weed which does not prevent Western dairymen from making good butter be thus damaging to the flavour of New York dairy products.—*Globe.*

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week

FROM ALL OVER.

THERE were twenty-three deaths from the effects of the heat in New York, on Monday.

IF Cattarah has destroyed your sense of smell and hearing, Hall's Cattarah Cure will cure you. 75 cents per bottle. Druggists sell it.

THE diocese of Ottawa has been divided by His Holiness, and the see of Pembroke created. The Very Rev. N.Z. Couveau has been designatted Bishop of the new see.

HALL'S Cattarah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by druggists.

THERE IS NO MORE wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

A MEETING was held in Rome on Sunday at the Grand Hall Romano to do honor to the memory of Charles Darwin. Prof. Moleschott delivered an address, in which he reviewed the career of Darwin. He said Italian history was a grand illustration of Darwin's theory of struggle for existence.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

MRS. ELEANOR PARKER LONG, of Philadelphia, has bequeathed an estate valued at $200,000 to found a home for orphan girls, especially for children of soldiers who served during the late war, and of firemen whose lives have been sacrificed in the discharge of duty.

THE report recently gained journalistic circulation that Rev. Dr. Talmage of Brooklyn, N Y. had spoken in a derogatory manner of St. Jacobs Oil, personal interview with the Doctor, by a St. Jacobs Oil representative brought out this expression: "I never spoke a word against that substance, nor ever heard anything but good of it."

ACCORDING to a London paper, a special train having as its only passengers Mrs. Langtry and her maid, left Glasgow at 12 midnight, and arrived in London at 9.30 a. m., a wonderfully quick run. If Mrs. Langtry travels in this fashion on this side of the water her impresario will not be happy.

THE SMITH MEDICINE CO.—Gentleman,—I have very much pleasure in testifying to the efficacy of Dr. Smith's German Worm Remedy I found it to operate successfully after only two doses. Have tried other remedies with the child without success. Yours truly W. T. Hart, 128 Amherst St., Montreal.

THE "wickedest woman in England," Jane Johnson, aged eighty-four, has been converted. She has been in Leeds prison two hundred and forty times, and nearly as many times in other goals. She is now preaching in Hull.

MR. R. W. CARMICHAEL, Chemist and Druggist of Belleville, under date of May 31st, 1882, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

OSCAR WILDE ran across a lynching at Bonfouca, La. A negro assailant of a white woman had been taken out of jail by a mob, and Oscar saw the hanging from a car window. The negro was a preacher, and his wild, eloquent appeals for mercy moved the æsthetic traveller greatly, but did not affect the lynchers, who quickly suspended him from a railroad bridge.

R. BARRETT BROWNING'S unexhibited portrait of his father is to be at once engraved, says the London *World*, and the engraving published. The poet has been painted as often as any man living, and his son's is one of the various readings. In features it will be found an excellent likeness, in expression perhaps a little sterner than the original as Mr. Brownings friends have the pleasure of knowing him.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation palced upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by druggists, or sent free by mail on receipt of price, $1.00 per box, or six boxes for $5.00. Address F. J. Cheney, Toledo, O., sole Agent for the United States. Send for circular.

SOMEBODY'S CHILD.—Somebody's child is dying—dying with the flush of hope on his young face, and somebody's mother thinking of the time when that dear face will be hidden where no ray of hope can brighten it—because there was no cure for consumption. Reader, if the child be your neighbor's, take this comforting word to the mother's heart before it is too late. Tell her that consumption is curable; that men are living to-day whom the physicians pronounced incurable, because one lung had been almost destroyed by the disease. Dr. Pierce's "Golden Medical Discovery" has cured hundreds; surpasses cod liver oil, hypophosphites, and other medicines in curing this disease. Sold by druggists.

BEAUTY RULES.

RULE ONE.—A woman's power in the world is measured by her power to please. Whatever she may wish to accomplish, she will best manage it by pleasing. A woman's grand social aim should be to please.

RULE TWO.—Modesty is the ground on which all a woman's charms appear to the best advantage. In manners, dress and conversation, remember that modesty must never be forgotten.

RULE THREE.—So the woman's aim is to please, and modesty is the first principle in the art of pleasing.

RULE FOUR.—Always dress up to your age, or a little beyond it. Let your person be the youngest thing about you, not the oldest.

RULE FIVE.—Remember that what women admire in themselves, is seldom what we admire in them.

RULE SIX.—Women's beauties are seldom men's beauties.

RULE SEVEN.—Gaiety tempered by seriousness is the happiest manner in society.

RULE EIGHT.—*Always speak low.*

RULE NINE.—A plain woman can never be pretty. She can always be fascinating if she takes pains.

RULE TEN.—Every year a woman lives, the more pains she should take with her dress.

RULE ELEVEN.—In all things let a woman ask what will please the men of sense, before she asks what will please the men of fashion.

NOTICE TO CONTRACTORS.

THE LETTING of the works for the FENELON FALLS, BUCKHORN and BURLEIGH CANALS advertised to take place on the fifth of July next, is unavoidably postponed to the following dates:—

Tenders will be received until WEDNESDAY, THE SECOND DAY OF AUGUST NEXT.

Plans, specifications, &c., will be ready for examination (at the places previously mentioned) on SATURDAY, THE FIFTEENTH DAY OF JULY NEXT.

By order,
A. P. BRADLEY,
Secretary.

Dept. of Railways and Canals, Ottawa, 20th June, 1882. d150-1aw-2t.13

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Department of Railways and Canals, Ottawa, 22nd May, 1882. d127-3t11

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & CO., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & CO., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

HALL'S CATARRH CURE

Is Recommended by Physicians.

CURES

Catarrh of the Nasal Cavity—Chronic and Ulcerative Catarrh of the Ear, Eye or Throat. It is taken INTERNALLY, and acts DIRECTLY upon the Blood and Mucous Surfaces of the System. It is the best Blood Purifier in the WORLD, and is worth ALL that is charged for it, for THAT alone.

THE

Only Internal Cure for Catarrh!

IN THE MARKET.

$100! We offer $100 for any case of CATARRH it will not Cure!

WELLAND, Ont., March 23, 1882.

My little daughter was troubled with Catarrh for two years, and was very much benefitted by the use of "Hall's Catarrh Cure." She is now about cured.

W. T. HOUSE.

WELLAND, Ont., March 20, 1882.

I have used "Hall's Catarrh Cure," and judging from the good results I derived from one bottle, believe it will cure the most stubborn case of Catarrh if its use be continued for a reasonable length of time.

W. H. HELLEMS.

WELLAND, Ont., March 20, 1882.

F. J. CHENEY & Co., Toledo, O.

ROBBED

—Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

GERMAN INVIGORATOR

Which positively and permanently cures **Impotency** (caused by excesses of any kind), **Seminal Weakness**, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circulars with testimonials free by mail. The INVIGORATOR is sold at $1 per box, or six boxes for $5, by all druggists, or will be sent free by mail, securely sealed, on receipt of price by addressing F. J. CHENEY, Druggist, 187 Summit St., Toledo Ohio. Sole Agent for the United States.

JOHN McKEE, Druggist, &c.,
d146-w26 George Street, agent for Peterborough.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

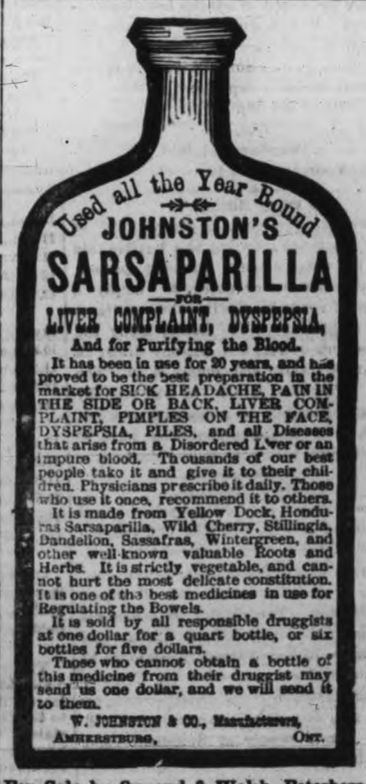
SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.



In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

OPENED OUT!

BOATING SHAWLS.

PIC-NIC WRAPS.

MUNRO & ALEXANDER.

Daily Evening Review

WEDNESDAY, JUNE 28, 1882.

Change of Day.

The cricket club play a game at Port Hope on Saturday. The members will practice on Friday night this week.

For the Body.

The Golden Eye went down to Harwood this afternoon to bring up the body of Mr. D. Carlisle. Some half dozen members of the Oddfellows' Order went down on the boat.

Lacrosse.

Our second twelve leave town to-morrow for Bobcaygeon, where they are to play a match with the first twelve of that place. As this is the first appearance of this team in a match this season, we hope they will acquit themselves in a creditable manner.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes, Light, moderate, variable winds; fair warm weather, with thunder storms in some localities.

Daly Hotel, Winnipeg.

The undersigned having bought the premises known as the Club Hotel, Winnipeg, have renovated it throughout. Hereafter it will be known as the Daly Hotel. The proprietors will be glad to see their old friends from Peterborough.—JAMES SHERIDAN and F. J. DALY, proprietors.

Sudden Death.

The saying that "in the midst of life we are in death" was truly exemplified this morning by the receipt of the news of the sudden death of Mr. David Carlisle, at Harwood. The deceased went down to the Lake on Tuesday morning and died early this morning. At the time of writing the cause of death was not known here. We will give further particulars in another issue.

Another Hack.

We are rapidly rising to the dignity of a city and of course we are bound to keep pace with the times. Mr. Harry Drake recognizing the want of another hack has embarked in the business, and now has on the road one of the best carriages in the town. He may be called at Darcy's hotel or at his residence opposite the Court House Park.

Our Canal.

Those who were fortunate enough, saw a sight, the other day, that we hope, before long, will be very common, namely, a steamer and several scows passing through the heart of Ashburnham. Of course they did not run up the Trent Valley Canal, but over the Grand Junction Division of the Midland. They were loaded at Little Lake and were taken to Lakefield. Messrs. Pousette and Roger are the owners and the boat will be used in towing timber.

Chancery Sittings.

The autumn circuits of the Chancery Division of the High Court of Justice have been arranged, and the following are the appointments for this district:—

VICTORIA CIRCUIT—THE HON. MR. JUSTICE OSLER.

Brampton, Monday. Sept. 18.
Whitby, Thursday, Sept. 21.
Lindsay, Monday, Oct. 2.
Peterborough, Monday, Oct. 9.
Cobourg, Thursday, Oct. 12.

A Dirty Dump.

Just now the residents in the vicinity of Spaulding's Bay are growling at a terrible rate regarding the action of some unknown person, who had the audacity or cheek, to empty a wagon load of rotten turnips into the great fever breeder. A portion of the railing along the edge is now torn down, and persons draw all the refuse they choose and dump it in. The man who threw the turnips in was seen by several, but fortunately for himself he was not recognized, or he would undoubtedly have to file an appearance before the Police Magistrate.

Recently in Toronto,

At 75 Young street, over 500 physicians and sufferers visited Dr. M. Souvielle of Paris, ex-aide-surgeon of the French army, using his wonderful instrument, the Spirometer, for the cure of catarrh, bronchitis, asthma and all throat and lung diseases. The Doctor, or one of his surgeons, from the International Throat and Lung Institute, 75 Yonge street, Toronto, or 13 Philipe square, Montreal, office for Canada, will be at the Huffman Hotel, Peterborough, on July 3rd, 4th, 5th, 6th, 7th and 8th, and will have with him a supply of Spirometers and and medicines. Physicians and sufferers can try it free.

The Twelfth.

A meeting of all the Orangemen of the town is called for Thursday evening to make preparations for the coming twelfth.

An Excursion

The *Ontario* says that the congregation of St. Andrew's Church, Belleville, will have an excursion to Peterborough in July.

Railway Notes.

Work on the Ontario and Quebec Railway will be rapidly pushed eastward from Carleton, and has been let out in five mile sections. Laborers are being set to work near Sharbot Lake and the village of Maberly.

True Blues.

A deputation from the True Blue lodge here, proceeded to Lakefield last night and organized a lodge in that village. The fife and drum band accompanied the visitors. The new lodge starts out under exceedingly favourable auspices.

Forester's Funeral.

There will be a special meeting of Court Peterborough, Canadian Order of Foresters, at their Hall at eight o'clock this evening, to make arrangements for attending the funeral of Brother David Carlisle.

Mr. Carlisle's Funeral.

We are requested to state that if arrangements can be completed in time, Mr. Carlisle's funeral will take place to-morrow afternoon. The deceased was a member of the Oddfellows and Foresters and it is probable that both bodies will be present at the obsequies.

No Particulars.

For some reasons unknown to us we have not been able to ascertain the facts regarding the sudden death of Mo. David Carlisle. Heart disease and sunstroke are given as the cause, but as the family have no information, they must only be surmises.

Personal.

Mr. Ormiston Dixion, one of the best ventriloquists of the age, who has just concluded an engagement at New York, is here on a visit. He is succeeding splendidly and for the coming season has made an engagement with one of the leading companies on the road. He will remain here for five or six weeks.

The Golden-Eye.

As will be seen by an advertisement in another column, Mr. Calcutt intends to-morrow to commence his regular weekly family excursions on the steamer *Golden-Eye*. The steamer will leave her wharf at eight o'clock in the morning, and will call at Gore's Landing, Harwood, and Idyl Wild. This pleasant trip should be well patronized, as the return tickets are placed at the low price of fifty cents. The regular time table for the *Golden-Eye* will be announced next week.

Rich Embroidery.

The *Globe* says that at an altar cloth for St. John's Church, Peterborough, has just been completed by the Ladies' Church Embroidery Guild—amateurs. The material employed is red silk velvet. The super-frontal has a rich border of pomegranates, conventionally treated, the delicate shading of whose flowers being most exquisite. The fringe is of parti-colored silk and gold thread. The orphrey is a gentle cross enwreathed with pomegranates and leaf sprays, most artistically dealt with. Each stole, which is of darker velvet, has a geometrical design in gold embroidery, terminating in an acanthus, in whose shading blue is the prevailing type. The effects of the contrasts and the treatment of the embroidery are thoroughly artistic, and although sufficiently ecclesiastical to please the most rigid, are yet sufficiently free from stiffness to gratify those of that more modern taste which is making such rapid advances in Toronto. The altar cloth will be on view in the window of 5 King street East.

Canoe Association Regatta.

We believe that a considerable number of our canoe men intend to visit Lake George for the annual meeting and regatta on August 8th, of the American Canoe Association, of which Mr. E. B. Edwards, Captain of the Peterborough Boating Club, is Vice Commodore. The following programme of their proceedings will therefore be of interest to many of our readers:—

TUESDAY, August 8th, 10 a.m. Preliminary Meeting of Association at the Island. 3 to 6 p. m., Ladies Reception.

WEDNESDAY, THURSDAY and FRIDAY, August 9th, 10th and 11th. Regatta off Crosbyside from 10 a. m. to 1 p.m.

SATURDAY, August 12th. 10 a.m. Annual Meeting of the A. C. A. at the Cabin.

The Regatta will be held under the new sailing regulations of the A. C. A.

Races will be called promptly at the hours named, unless the weather makes it impossible.

"Lorna," the large island, will be open for encampment of the A. C. A. during the whole month of August.

WEDNESDAY, AUGUST 9TH.

10 a.m., Review of entire fleet, in divisions by class.
11 a.m., Junior Class 2, 1 Mile Paddling.
11.30 a.m., Regular Class 1, 1½ Mile Paddling.
12 m., Junior Class 2, 1½ Mile Sailing.
12.45 p.m., Capsize Race,—Paddling.

THURSDAY, AUGUST 10TH.

10 a.m., Regular Class 3 and 4, 1½ Mile Paddling.
10.30 a.m., Regular Class 2, 1½ Miles Sailing.
11.30 a.m., Junior Class 3, 1½ Miles Sailing.
12.30 p.m., All Canoes, ½ Mile Paddling, ½ Mile Sail, Capsize and come in with all gear.

FRIDAY, AUGUST 11TH.

10 a.m., Regular Class 2, 1½ Miles Paddling.
10.30 a.m., Regular Class 3, 3 Miles Sailing.
11.30 a.m., Regular Class 4, 3 Miles Sailing.
12.30 p.m., All Canoes, 1½ Mile Paddling, 1½ Mile Sail. The distance in the sailing race may be reduced should the wind be light.

PRIZES.

For the regular regatta the prizes will be flags only. Special prizes of minor value may be offered for competition. Mr. J. H. Rushton offers three fine paddles.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

At the Convent.

On Tuesday afternoon a "music review" took place at the Convent of the Notre Dame. The majority of the parents of the pupils were present, and all the performers acquitted themselves admirably. The following was the programme:

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Almost a Free Breakfast Table.

CHAS. BUTLER

Offers a very Superior Stock of FRESH GROCERIES, at prices that will astonish all those who have not been in the habit of procuring their family supplies from him.

Daily Evening Review

THURSDAY, JUNE 29, 1882.

OUR YOUNG DOMINION.

HOW THE ANNIVERSARY OF CONFEDERATION IS TO BE CELEBRATED HERE.

An Immense and Attractive Programme—The Lacrosse Match—Excursion to Spooke Island—Athletic Sports and Games—Fire Brigade Procession—Promenade Concert—Fireworks and Torchlight Procession.

While all the places of any size in the surrounding district have made preparations for grand celebrations, the people of the premier town have not by any means been idle, and as befits our position our programme is the best offered. The celebration is under the joint auspices of the Fire Brigade and Lacrosse Club, a sufficient guarantee that it will be a success.

THE LACROSSE MATCH.

At 10 o'clock a.m., the proceedings will commence with a grand lacrosse match for the "Gilderslseve Cup," and the championship of Central Ontario, between the "Kingstons" and "Peterboroughs." As both teams are in fine trim and very evenly matched a splendid game may be anticipated. The Fire Brigade Band will be present and prizes will be awarded to the best long distance throwers, belonging to the competing teams.

PROCESSION AND SPORTS.

In the afternoon a grand procession of the band, Fire Brigade, Lacrosse players, etc., will parade the principal streets as far as the Agricultural grounds, where an extensive programme of games will be carried out, consisting of all kinds of races for both amateurs and professionals, Indian club swinging, tug-of-war, etc., for each of which events handsome prizes are offered.

THE EVENING.

In the evening, at 7.30 o'clock, a grand promenade concert will be given in the Drill Shed by the band of the Fire Brigade, the champion amateur band of the Dominion. At 9 o'clock the best display of fireworks ever seen here will take place in the Agricultural grounds. The grounds will be beautifully decorated with torches, Chinese lanterns, etc., and seats have been provided for two thousand people. The day's amusement will conclude with a brilliant torchlight procession.

DOWN THE RIVER.

Father Murray, of Cobourg, holds a grand pic-nic at Spooke Island, in aid of the Roman Catholic Church at Harwood, and it is fully anticipated that it will be one of the largest ever held at Rice Lake. Amusements of all kinds will be provided for on the Island. The Golden Eye will carry passengers from Peterborough, landing them at the pic-nic grounds and calling for them on the return trip. Martin's Quadrille band will be on the boat, and scows will be attached for dancing.

Bank Change.

Mr. R. McLeod, who for about a year has been connected with the Bank of Montreal here, has been removed to Brantford. He was tendered a supper at Faucher's Hotel on Saturday evening, and left for his destination on Wednesday. He will be badly missed by the football club, but all are glad to see him promoted.

An Imposter.

The young man who was soliciting money to carry him to Belleville, was an impostor and was compelled to leave town. There are several gentlemen in town who know him and are aware of the fact that he can hear and speak. He should have been handed over to an officer by some of those whom he duped.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes, Moderate to fresh north-east to south-easterly winds. Fine weather, cool nights.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

U. S. AND CUBA.

MADRID, June, 29.—It is stated that the Sagasta Cabinet is disposed to make the greatest concessions to promote trade between Cuba and the United States.

AMERICAN.

A BACK DOWN.

PITTSBURG, June 29.—The scale signed by Kirkpatrick & Co., of Leechburg, it is said is the same as last year's, with the exception of 50 cents per ton advance for puddling. This is looked upon by manufacturers os a back down by the amalgamated association.

ORGANIZING.

BOSTON, June 29.—Representatives of the Trades Unions in this state met yesterday for the purpose of forming a state organization.

THE CHILIAN QUESTION.

WASHINGTON, June 29.—In diplomatic circles there is great gossipping over the alleged insolent letter that Martinez, the Chilian Minister, wrote to Frelinghuysen just before he delivered the letters of recall. The subject of Martinez's letter, it is said, was on Trescott's conduct in Peru after he returned from Chili.

WANT MORE TIME.

NEW YORK, June 29.—Pick and Freeman oil producers of Bradford, Pa., Richburg and Olean N. Y., have asked for an extension, with liabilities $100,000.

CORNER IN PEPPER.

NEW YORK, June 29.—A London Syndicate has cornered the pepper market. Pepper has risen here about five cents a pound.

A FORGER CAUGHT.

NEW YORK, June 29.—Edward Courtney, one of the most expert forgers in this country was convicted yesterday of forging the signatures of the president and treasurer of the Erie Railway to a check for $33,000.

A CYCLONE.

CASTON, Wis., June 29.—A cyclone here yesterday destroyed five houses. Several persons were injured but none fatally. Considerable damage to crops is reported from the heavy rains.

A RIOT.

New York, June 29.—150 excursionists went from here yesterday to Hudson Park, West Chester County. The large majority of both men and women got drunk and a terrible fight broke out in which 50 men and women engaged. 20 rioters tumbled off a sloop in a heap and 30 persons were badly hurt before the riot ended.

GUIEAU'S INSANITY.

NEW YORK, June 29.—Dr. John P. Gray, Utica, telegraphs to the *Herald* from Oskosh, Wis. He has not changed his opinion of Guiteau's sanity, and considers the assassin sane and responsible.

TERRIBLE R. R. ACCIDENT.

LONG BRANCH, N. J., June 29.—The express train from here ran off a bridge near the city today. Over one hundred passengers are either drowned, killed or injured.

REGARDING GUITEAU.

WASHINGTON, June 29.—An effort will be made to dissuade Mrs. Scoville from attending the execution, for fear it would make her insane. Washington is full of queer people these days. There seems to be a general eruption of cranks. Yesterday an inventor begged Hicks to take a picture of his patent gallows, and asked a doctor to take it to Guiteau and persuade him to insist upon being hanged on one. Hicks replied that if the inventor would go away and hang himself on one of his own scaffolds, he would cheerfully certify to the machine. The inventor then expressed his willingness to do some singing at the execution. Dr. Mary Walker yesterday went to the Whitehouse to urge a reprieve for Guiteau, but was not permitted to see the President. Guiteau said the other day that he was sorry Hicks, whom he is very fond of, wasn't going along with him. Guiteau once remarked "I don't want the President to weaken at the last moment, to send me a reprieve when I am on my way to the gallows, when I get out there and am all ready to, I want to go." One of the prisoner's officers said yesterday that he regarded Guiteau as absolutely the meanest prisoner who ever came into his charge, and he has all along attributed the crime to one object, meanness, rather than to insanity or inspiration. In his deposition to escape hanging, he forged the inspiration theory and his talk about being God's man and under Divine protection, and makes absurd comments as to the delay of his execution beyond the latest hour named, as if he would make a plea that his hanging after that hour would be illegal. The guards allege that instead of sleeping profoundly, as he did a few weeks ago, his sleep is now so light that he answers at once if spoken to. Hicks says that before he is hanged Guiteau will read an invocation of a personal nature with political allusions. It is entirely proper in tone and free from feelings of malice. Guiteau said yesterday he had not prepared a speech, but I have written with great care an invocation to the Deity which I shall present in case I go off on Friday. Hicks has it and the President has a copy of it. The President has decided to hear no further applications on the assassin's behalf, but those who call may submit their views to the President's private secretary. Guiteau yesterday declared "I was directly inspired by the Deity to remove Garfield. Can you find any man no matter what his politics who will say it has not resulted for the benefit of the party and nation? If he and Blaine had been permitted to continue in the way they were going, this country would be at war with Chili to-day. It was a good thing, and the time will come when I will be looked upon as a patriot. Poor Garfield had to go because he was under bad, malign influences. It is not Guiteau who is in trouble it is the people of the United States who are on the brink of crime. Guiteau, the inspired is all right, but those who hang him will wish they had never been born. Oh, I wish the President had the grit to put this thing off till January. Dr. Beard will write a book about me whether I am dead or alive and will be published by some good house in New York, and bound with my book of "Truth," would make a sensation, and be an important factor in the education of the people." Guiteau also claims that he was as sane as any body. Guiteau sent to the President a paper entitled "God's Ways." The document aims to show from Scripture how God always indicates his man. The jail is daily visited by hundreds of people. It is probable that the programme heretofore arranged for the execution of murderers will be observed in this instance. There can be no disposition of Guiteau's body without the consent of his relatives as Judge Cox did not add "As the law authorizes." This provision has to be made to the judgment of death. It is understood that his counsel and relatives desire an autopsy in the hope of showing his brain to be diseased.

HE WANTS THE WIDOW.

A Wealthy Business Man Suing for Breach of Promise.

It is seldom that a man seeks the law to heal his wounded heart, but on Saturday George Young, a wealthy and respected business man, sought this solace for a jilting he received at the hands of Mrs. Sarah Jane Fleming, a widow living at No. 707 South Nineteenth St. Mr. Young has brought a suit for breach of promise of marriage, and lays his damages at $10,000. The injured lover, however, declares that his purpose is to compel Mrs. Fleming to give a reason for refusing to marry him after promising to be the partner of his joys.

Mrs. Fleming appears unruffled at the proceeding against her. She thinks that Mr. Young was very foolish not to be satisfied with the answer she gave him. Mr. Young was made a widower in April, 1881, and Mrs. Fleming asserts that three months later the bereaved proposed to her to take the place of his affections. She would not consent to such a proposition, she said, until his wife had been dead a year, and withheld a positive answer until that time had elapsed. Mrs. Fleming says that she declined his offer at last because she did not want to break up her family, but adds that in the meantime Mr. Young had publicly announced their engagement. Counsel for Mr. Young asserts that the affair may yet be terminated by marriage.

REVIEWS.

THE CANADIAN MONTHLY.—After reading the June number of Rose-Belford's *Canadian Monthly* and *National Review*, we leave the perusal of this periodical for the first time with a feeling of unalloyed regret. This is because upon the very last page we find an announcement from the publisher that they intend to discontinue the publication for the time, at all events. Though they disclaim any wish to reproach the public, we must say that the bare fact, as stated, is a heavy reproach. It is not to the credit of Canada that such a periodical should be discontinued for want of support. The current number shows no falling off; Mr. Hamilton in his "Old New World tales," concludes his interesting account of early explorations by Northmen on this continent; Mr. N. F. Davin in "Literature connected with the C. P. R." ably describes early schemes for a great transcontinental route; Mr. Harding recalls some agreeable reminiscenses of "Toronto and its early theatrical entertainments." Other original contributions are "Sophocles as a Poet and Teacher," by Fidelis, "Musical and theatrical reminiscenses," by Mr. Hector, "Æsthetic, or not Æsthetic," by Mr. Fowler, "Free thought and responsible thought," by Mr. Le Sueur, "Two schools of modern poetry," by Dr. Stevenson, besides many poems and minor articles. The republication of Mr. Goldwin Smith's lecture on "The conduct of England to Ireland," will be read with interest though hardly with approval.

THE SEASON.—We have received a specimen number of "The Season," a ladies' magazine profusely illustrated. Its great success over a wide erea is demonstrated by the fact that it is already published in thirteen different languages. Besides the usual fashion plates and patterns, with their descriptions, it gives in each part two beautiful illustrations of National costumes. Ladies who have examined it praise it highly. The publishers are the International News Co., of New York, the Toronto News Co., of Toronto, &c.

COBOURG.

RUNAWAY.—On Sunday night while Thomas Galiece, Jr., of the Township of Hamilton, was going home from church, his horse took fright, and ran away, throwing him out over the dashboard of the buggy, and he was kicked on the head by the horse, fracturing his skull badly. He is in a precarious condition.

Who's the Best Physician.

The one that does most to relieve suffering humanity of the thousand and one ills that befall them, is certainly the best of all physicians. Electric Bitters are daily doing this, curing where all other remedies failed. As a spring tonic and blood purifier they have no equal. They positively cure liver and kidney complaints. In the strongest sense of the term, they are the best and cheapest physician known.—*Daily Times.* Sold by Taylor & McDonald, at 50 cents. (3)

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

BRIGHT'S DISEASE, DIABETES.—Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinry or Liver diseases, as they only relieve for a time and make you ten times worse afterwards, but rely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.
TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

Daily Evening Review

THURSDAY, JUNE 29, 1882.

THE TRENT VALLEY CANAL.

No doubt the announcement that the time for receiving tenders for the works at Burleigh, Buckhorn and Fenelon Falls has been unavoidably postponed until the second of August will be heralded, from one end of the country to the other, by the organs of Mr. Blake, as the first step to their abandonment, seeing that the elections are now over. While such postponements are of common occurrence, and are not unfrequently absolutely necessary in the public interests, we cannot but regret the present one, for the reason stated, and because the circulation of statements calculated to cast doubt upon the sincerity of the Government in this matter, is certain to prove of greater or less injury to the best interests of the project, and to that portion of the country through which it passes. We sincerely trust, therefore, that no stone will be left unturned to have the plans all ready for the inspection of intending contractors at the time now named, so that the work may at once be got under way, and pushed with such vigor as will ensure the completion of navigation between Lakefield and Coboconk not later than the Spring of 1884.

While on the subject, it may not be out of place for us to say that a good deal of feeling exists hereabouts, that the engineering part of the work is not being pushed with the vigour with which it ought to be. Without in any way committing ourselves to such an opinion, we cannot help thinking that the Department is requiring too much when it expects one engineer to attend to both the Trent and Murray Canal Works. If the intention be, as we believe it is, to prosecute the works on the Trent route until it is completed from end to end, then there is ample work, on it alone, to employ the full time of an engineer of first-class ability, for some years to come. As soon as the present section is put under contract, there is the location of the next section to be decided upon, and the preparation of the plans, etc., necessary to the letting of contracts thereon next season; and so on until the whole work is completed. Under these circumstances, we believe true economy as well as the interests of the undertaking, both present and prospective, require that it should have the undivided attention of an engineer of first-class ability. Even after the general location has been decided upon, too much importance cannot be attached to the proper location of every lock and cutting, as the future value and efficiency of the route must largely depend upon their being located with judgment, and after a full consideration of every surrounding circumstance.

THE DOMINION ELECTIONS.

THE San Francisco *Chronicle*, which published the following article on the morning of June 20th, certainly proved a truer prophet than many Canadian journals:—

"One great point in favour of the Parliamentary elections in Canada, which correspond with the Presidential elections in this country, is the short duration of the campaign. In the case of the present election, which takes place to-day, the whole period of the canvass is confined to thirty days, and where, as in several instances, there is no contest, the agony was over on the day of nomination, which fell on last Tuesday, or a week earlier than the polling. In Canada, as in England, a general election usually anticipates the extreme duration of Parliament as fixed by law, which for the Dominion House of Commons is five years, and taking the form of a special appeal to the country, is called at a time to suit the necessity or convenience of the Ministry. In the present instance the necessity is not apparent, and the Ministry, in asking a renewal of public confidence after a remarkably successful career, is understood to be simply taking time by the forelock.

"The main pretext for the present dissolution of Parliament is the importance of obtaining a final verdict on the tariff question, and this is the point that is chiefly of interest to this country. The Tory party in Canada, like the Whig and Republican parties in the United states, have always been great for internal improvements, and they have lately, in imitation of the Republicans, still further strengthened their position by adopting a protective policy. As in the case of the last general election four years ago the tariff question is the leading issue before the people, and the one on which the fate of the Ministry chiefly depends. In 1878 the Liberals or Reformers were so firmly intrenched in office, and possessed in so marked a degree the confidence of the country, that nothing short of an exceedingly popular programme, on the part of the Conservatives or Tories, could have driven them from power. But the programme was forthcoming in the shape of the N. P. or National Policy, the popular designation of the present Canadian tariff, and Sir John A. Macdonald and his followers, after five years spent in the cool shades of opposition, have since been masters of the situation. In addition to the improvement in her public credit, and instead of an empty exchequer, Canada has now, like the United States, an overflowing treasury, and the result is clearly owing to the new tariff. Canada is also, like the United States, enjoying a period of almost unexampled prosperity; and although this may not be altogether owing to protection, the claim is put forward all the same, and the tariff, as at least a step in the right direction, is sure to receive the full indorsement of the people."

OUT OF TEMPER.

The *Examiner* is still so vexed at its defeat that its ravings are quite amusing. Well, some allowance must be made for its natural irritation, to which it can only give expression in its own manner. We feel pity for our contemporary, both on account of its disappointment and its peevishness. But even its present disturbed state of mind does not excuse it for making false assertions that any one individual is especially responsible for what appears in the REVIEW, when it well knows the contrary, more particularly after the true state of the case has been so clearly explained to it. We hope our contemporary will soon recover its temper, and with better grace accept the repeated decision of the people of Canada.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week

THE PETERBOROUGH WATER COMPANY.

As some errors crept into the letter of the Secretary of the Waterwork Company, as published yesterday, we give it again to our readers to-day in a corrected form:—

To the Editor of the Review.

SIR,—I am instructed to ask you to insert the following for the ratepayers of Peterborough:

1. The town will have the right to fill the water carts for sprinkling the streets from the fire hydrant, paid for by the Town, without any additional charge. The By-law provides that the payment of the sum per hydrant, shall cover the *use of the same for all public purposes.*

2. Persons requiring water for protection against fire, on their own premises, can attach their own hose to a pipe, upon which there will always, night and day, be sufficient pressure to throw a stream sufficient to put out local fires. For instance, had a pipe and hose been provided on the premises on which the recent fire originated, any ordinary servant or person, who could attach the hose to the pipe, could, in an instant, have provided such a supply of water as would have prevented the fire spreading, thus in all probability, saving the property in which the fire originated, or, at any rate, confining it within that property, thereby preventing it spreading to the adjoining property. Had this been the case, a saving equal to what would have paid the whole water rate for protection against fire, for the whole town, for two or three years, would have been made, and the property owners, besides saving their property, would have been enabled to enjoy the income therefrom, that will be lost until the houses are rebuilt.

3. The water carts of the town, if they had the right to refill at the hydrants, could cover four or five times as much ground, as can now be done. The cart at present having to return after emptying to the lower part of the town empty, whereas had they the right to re-fill at the hydrants they could do so in about half the time now required at the present stand pipe—and could go on from hydrant to hydrant, both up and down the streets, always keeping the cart full, and thus keeping a larger area more effectivly watered for the same or less cost than at present.

The pipes are being laid as fast as can be done at present, as no more men than are employed could work in the trenches. This, however, will be different as soon as the streets crossing George street are reached; when they are reached the Company could put gangs of pipe layers on each cross street, and make the connections without at all retarding the laying of the main on George street. The Company have the pipes and material, and are prepared to do this at the instance of the town. If no action is taken, all that will be done will be to lay the mains on George street, and the cross streets will have to wait until the requisite action is taken by the town before the pipes will be laid on those cross streets, for which the ratepayers do not petition the Council.

Your obedient servant,
GEO. W. HATTON.
Sec'y Peterborough Water Co.

June 28, 1882.

BOTHWELL ELECTION.

The independent Montreal *Witness* says:—The fact that the Bothwell returning officer declared Mr. Hawkins elected, and that the judge, on a recount, reversed this decision in favor of Mr. Mills, has been generally looked upon as proof of that partizanship of which the returning officer had been very freely accused. We have, however, a letter from a returning officer nearer home, who says "that the Bothwell returning officer had to declare Mr. Mills not elected so far as the record before him stood." This correspondent says, "He could not go beyond the statements of his deputies, the votes being in sealed envelopes which could only be opened and recounted by a judge. Nothing could possibly be gained by a temporary victory based on such grounds, and he had no motive to deviate from his clear duty. As to appointing partisan returning officers, it will perhaps be news to you that the fees are so ridiculously small that both our sheriffs and registers refuse to act, and the Government has no alternative but to victimize some good-natured friend. Mr. Mackenzie, no doubt, had his own rural constituency in mind when he framed our election law, which may work well enough there, but it is simply absurd when its provisions are applied to large city constituencies."

LAKEFIELD NEWS.

From Our own Correspondent.

PRESENTATION.

The following address and presentation to the Rev. C. R. Bell, Incumbent of Lakefield and Warsaw, took place in Lakefield at the residence of Mr. Mellor, on Tuesday evening the 27th June.

DEAR MR. BELL,—It is with a feeling of great pleasure I am able through the kindness of some of your Lakefield friends and all your Warsaw congregation, to present you with the sum of forty dollars, which, with the assistance of Mr. Garlick of Warsaw I have been able to collect for you. Hoping you will accept this small amount as a token of christian love.

I remain,
Yours Sincerely,
ALICE MELLOR.

Avondale House.

To which Mr. Bell replied.

DEAR MRS. MELLOR,—The handsome gift which you have presented to me from yourself and other members of the congregations of Lakefield and Warsaw was quite unexpected, and I must certainly thank you very heartily for any trouble that you have taken in this matter, and also yourself and my other kind friends who have united in this practical expression of their good wishes for my welfare. It will prove of great use to me in the many expences about to be incurred by my removal to another sphere of labour. I trust that you and your families will be blessed by having an earnest and loving pastor in my successor, and I wish you every other happiness both in this life and also in the life which is to come.

CONFIRMATION.

The Lord Bishop of Toronto has signified his intention of holding a confirmation service in St. John's Church, Lakefield, on Friday evening, the 30th June, at 7 o'clock.

TRUE BLUES.

A lodge of True Blues was organized in Lakefield on Tuesday evening, the 27th June. A large number of brethren from McWilliams Lodge, accompanied by the band, drove from Peterborough and arrived in Lakefield about 9 p.m. The visitors marched in procession through the principal streets to the Orange Hall. On arriving at the hall Bro. M. A. Jamieson, G.L., in the absence of Bro. Clegg, D. D. G. M., took the chair and declared the lodge formally open for the transaction of business, the first of which was the initiation of candidates. Fifteen members were proposed and initiated, the following brethren acting as officers during the initiation: M. A. Jameson, W. M.; T. Duncan, D. M.; T. Weir, Chap.; T. Robinson, Sec.; S. Martin, Committeeman; L. Mowry, D. of C.; S. Sharp, Lecturer; F. McDowell, Tyler. After the initiation of candidates, the acting Secretary read the warrant authorizing Bro. W. J. Saunders to hold and work a lodge of True Blues under the name and style of Lakefield Lodge No. 39, Bro. Saunders to be the first Master, after which the W. M. called for the election of officers, which resulted as follows:—

Bro. W. J. Saunders	W. M.
" W. Hill	D. M.
" R. Colville	Treas.
" W. Casement	Secretary
" John Isbester	Chaplain
" W. Hales	D. of C.
" F. Mann	I. T.
" Jas. Sanders	O. T.

COMMITTEE—Bros. Wm. Trued, Robt. McWilliams, S. Hodger, R. Richardson and F. Richardson.

Speeches were then delivered by the following brethren, Bros. Saunders, Hill, Colville, Casement, of Lakefield; Jameson and Robertson, of Peterborough, and Breillatte, of Toronto, the band then gave a few selections after which the lodge closed. The visiting brethren were then entertained to a spread in the hall by the Lakefield Lodge, at which songs, toasts and sentiment where indulged by the following brethren, Bros. Martin, selection; Wm. McDowell, song, Red and Blue; W. Hales, stump speech; W. Hill, Battle song; P. Breillatte, song, Spot where Hackett Fell; S. Martin, song, Little Empty Cradle; Wm. Erskine, song, English, Irish, Scotchman; C. Robinson, song, Barney O'Lean. A vote of thanks was then tendered by the Peterborough brethren to the Lakefield Lodge for the kind manner in which they entertained the visitors. Three cheers was then given for the Queen and the Lakefield Lodge, after which the company broke up by singing God Save the Queen; and the brethren dispersed to their homes wishing the new Lodge every success.

Still They Come.

The Berlin *News* says:—We are pleased to note as one of the results of the vote on Tuesday that the extensive manufacturing firm of Bingeman & Wilds, of the Berlin Glove Works, have already commenced work at the erection of a large three-story factory on Foundry street. This fine new addition to our large manufacturing establishment, is to be ready for occupation in about two months.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidney, skin etc., and strengthening while it regulates and purifies.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

BANK SWINDLERS.

Extensive Operations by Forgers at Montreal —A Bold and Skilful Game.

MONTREAL, June 27.—A gang of the most expert American forgers have for the last ten days made Montreal their headquarters, and have been playing a bold game on some of our leading financial institutions, happily, however, with but partial succes. The visitors, who are described as exceedingly gentlemanly fellows, dressed with the best of taste, and so forth, arrived here last Thursday week, and leased an office from Mr. A. H. Plimsoll, 17 John street. The office furniture was of the plainest description, consisting merely of a table and two chairs, and no business ever appeared to be transacted. A boy named Jamieson was hired last Thursday, whose duty it was to present cheques at the various banks. Their first operation appears to have been at Ottawa, where they applied for a draft on Montreal at the Bank of Montreal for $20. This draft appears only to have been used for the purpose of counterfeiting it, and a lithographed counterfeit, for $4,800 was made. This was deposited yesterday with the Merchants' Bank here, where they had opened an account previously, and later on in the day a cheque for $2,500 was drawn against it, which was duly honored. Upon the draft being presented at the Bank of Montreal this morning it was refused and declared to be a forgery. The Manager of the Bank of Montreal declares it to be a most cleverly lithographed counterfeit, the paper, however, being of a lighter colour than that of the bank and the signature of Mr. A. Drummond, the Manager at Ottawa, also not being at all similar to his genuine one. Operation number two consisted in opening an account with the Banque Nationale and depositing $400, which on Saturday was augmented by a further deposit or $2,985, in the shape of a draft drawn at Ottawa on the Bank of British North America here. This draft proved to be one which had been issued at Ottawa for $20 in favour of H. J. McArthur, and which had been raised to $2,985. Yesterday morning at half-past nine two of the gang were already at the bank and drew $390 of the deposit. In the meantime, however, Mr. Ray, the teller, who was suspicious that all was not right, with commendable foresight sent round to the Bank of British North America to see if the draft was genuine, when, of course, it was declared to be a forgery. The services of Detective Fahey were now called in, and a trap was laid to catch the birds. This, however, was a difficult job, as the forgers were evidently as well, if not better, acquainted with Fahey and his men than the detectives were with the Americans, and a game of cut-throat euchre ensued, the detectives shadowing the forgers and the forgers shadowing the detectives. At all events yesterday morning the boy Jamieson was despatched from the office on St. John street with a cheque for $2,500 on the Banque Nationale. The cheque was accepted by the ledger keeper and handed to the paying teller, who counted out the money, but instead of handing it to the boy a decoy parcel, supposed to contain the notes was given, when he started for St. John street, shadowed by the detectives. The latter were shadowed by some of the gang, who, seeing that their little game had been intercepted, switched off from the St. John street track, and never put in an appearance to claim the $2,500, and by this time are probably enjoying their ill-gotten gains. Some of the gang put up at the Windsor, and one of them was enjoying a game of billiards there late last evening. The boy Jamieson states that the forgers had a great number of pass books on various banks, which would seem to indicate that extensive operations were contemplated. In the meantime all the city banks and all their branches have been notified.

GUITEAU.

A Last Appeal for Executive Clemency—The Attorney-General's Report.

WASHINGTON, June 27.—The opinion of the Attorney-General with reference to the case of Guiteau, submitted to the Cabinet, is comparatively brief, but it is spoken of by a Cabinet officer as a very strong and pointed review of the trial. It is said the opinion points out very forcibly that the issue of insanity was in fact the only matter that occupied much of the time of the Court. The murder was practically admitted, and there was no room for doubt as to all the facts connected with its commission. The fullest discussion was given to every feature of the enquiry upon the subject of insanity, and the largest latitude was allowed the prisoner and his counsel. The opinion holds that the petition failed to furnish the least reason to justify the President in interfering in the most unusual and extraordinary manner proposed. The views of the few who petitioned for the respite ought not to prevail against the preponderance of opinion on the part of the medical profession that Guiteau was legally responsible. It is said that the Cabinet fully and unanimously approved the opinion. The President was the first to express his views. He gave the most emphatic assent to the position taken by Brewster.

MRS. SCOVILLE'S MOVEMENTS.

Mrs. Scoville and her little daughter arrived last evening. She is reticent as to her intentions during her stay in Washington, but indicated her purpose to see the President and endeavour to induce him to grant her brother a respite. She says she will go to the gaol to her brother as soon as she has done everything for him possible. It is her intention to attend the execution if it comes to that. Reed does not have the same opinion of her mental condition as Scoville, and does not apprehend any trouble on her account.

THE GALLOWS SPEECH PREPARED.

It is said that Guiteau has already prepared a speech for delivery on the gallows, and had duplicate copies prepared for the press. It is another of his characteristic effusions claiming inspiration.

GUITEAU CHEERFUL.

Guiteau retired last night at the usual time, slept well, and appeared much refreshed this morning. He ate heartily, was cheerful, and less taciturn than usual. He took half an hour's exercise in the corridor in front of the cell, mostly a slow walk, but now and then putting in quick spurts. He then returned to his cell and read the Revelations of St. John. Dr. Hicks arrived at 10.30 and spent twenty minutes with the prisoner. They talked about the revelation and the beauties of the other world. Guiteau spoke glowingly and cheerful of his future life, saying that he felt assured of his reward. He also said he hoped the authorities would stay his execution, but he was ready to go if called. Dr. Hicks left, promising to call later. Guiteau went out again in the corridor and resumed his exercise, walking at a regular step for an hour. He was evidently in deep thought. Meantime a number of workmen were on the scaffold fixing the blocks and pulleys and getting it in order.

A LAST APPEAL.

John Guiteau submitted to the President this afternoon a synopsis of the pamphlet he prepared as tending to show the insanity of his brother, and also a copy of the pamphlet itself. He made an earnest appeal on behalf of his brother urging the President to give an opportunity to fully establish the assassin's real mental condition before it was too late. He deplored his brother's crime, and could only account for it on the theory of inspiration. The President said he sympathised with John Guiteau in his affliction, and would give the papers submitted his careful attention. He did not hold out any encouragement to hope for executive interference. Dr. Hicks says the assassin does not want to see his brother or anybody to say he is insane.

LOSSES BY FIRE.

Half of a New Brunswick Town Destroyed. Loss $50,000.

FREDERICTON, N. B., June 27.—St. Marys, opposite this city, was half destroyed by fire this afternoon; loss $50,000. The fire caught in a quadruple house known as the "Bee Hive" and owned by Rev. Wm. Jaffray and John Leslie. The house was completely destroyed, and the loss is $4,000. With lightning speed the flames swept over the northern end of the village, destroying the two-storey house of Louis Crause; John Ranford's house and barn, valued an $1,000; the house of Joseph Smith, valued at $1,200; three houses and several barns, including the grocery store owned by Elisha Vanwart, valued at $10,000; the storey and a half house owned by James Riley, value $1,000; the Douglas hotel, owned by Thomas Tambersa, the residence of Walter McFarlane, value $1,000; the dwelling of Allan Moorehouse value $500; the house of John Hughes, value $1,000; the barn of James Hughes, value $300; the St. Marys harness factory, owned by Walter McFarlane, value $8,000; the dwelling of Wenslow Tilley, owned by C. L. Estabrook, value $1,000. The water was scarce, and the flames got under headway before the fire engines arrived. The insurance will not cover one-third of the loss. McFarlane's harness factory was insured for $15,000 in the Central. Tilley had $600 insurance on his stock of drugs in the Ætna; Elisha Vanwart, dwelling $1,000, furniture $200, woodshed, $100, bark $300, in the North British and Mercantile; store, 800, in the Commercial Union; R. H. Rainford, dwelling, $450, barn $50, in the North British and Mercantile.

FROM ALL OVER.

THE reform club in London is made up of 1400 members, who pay $55 each yearly dues. The income from subscriptions and debentures is $80,000 a year.

LORD ROSEBERRY has offered the Duke of Hamilton one million sterling for the Island of Arran, on which Hamilton Palace is situated, but the Duke declines to sell.

A GENTLEMAN AGED 65, writes: "I heartly thank you for the great boon I have obtained through the use of your wonderful rejuvenator, known as Mack's Magnetic Medicine. I am fully restored—feel like a young colt" Read advertisement in another column.

THE Prussian Government has selected Aiken, S. C., as one of the stations for the observation of the transit of Venus in December next, and the members of the expedition from the Royal Observatory in Berlin are expected to arrive there about the end of October.

THE Boadicea, of 400 tons, the new steam yacht of Mr. Pearce, of Glasgow, is said to be the finest vessel of her class ever built. It is rumoured that James Gordon Bennett has challenged Mr. Pearce to run against his new steam yacht, the Namouni, and that the race will take place in a few weeks.

THE great California millionaires don't run to family. Leland Stanford has but one child, a boy of 13. Flood has a son and a daughter, a fine young lady. Mrs. Mackey has a daughter. Miss Bryant, by her first husband, and two sons, who are yet boys, by Mr. Mackey.

A RAILROAD company bought some land adjoining its track at Meriden, Conn., and the seller agreed to remove a house, barn and sheds within a specified time. He failed to do so. Cables were then fastened round the buildings and attached to locomotives, and in that way the structures were speedily dragged off.

THE British Medical Journal says that a castor-oil plant was placed accidentally in a room swarming with flies, but almost immediately the flies disappeared, and flies were found under the plant, or clinging to its leaves, dead. The leaves are said to give out a property deadly to insects.

GREAT difficulty is felt in organizing the new Irish criminal investigation department. Respectable Irishmen won't join the force, and Englishmen are useless by their accent alone. An attempt is being made to get Irish detectives in England to go to Ireland for very high pay if the treasury will give it.

MARY BEEBE was the Josephine in the Ideal opera company's performance of Pinafore. Eighteen months ago she suddenly disappeared from the stage, the reason being that she had married Richard G. Haskell of Boston. It is announced that she will reappear in the fall, having separated from her husband.

THE SMITH MEDICINE CO.—Gentleman,—I have very much pleasure in testifying to the efficacy of Dr. Smith's German Worm Remedy I found it to operate successfully after only two doses. Have tried other remedies with the child without success. Yours truly W. T. Hart, 128 Amherst St., Montreal.

THE municipality of Rome have resolved on the erection of a monument to Garibaldi on the Janicular Hill. A subscription list has been opened, which the city of Rome headed with a contribution of 80,000 francis. Telegrams have been received from Naples, Palermo, and Milan announcing that the municipalities of those cities have severally voted a 100,000 francis for the monument.

CAPT. MALLOY of the Kansas City (Mo). Police force says: "We use St. Jacobs Oil for bruises, cuts, injuries, etc., incident to police business. I have used it myself with the most beneficial results, and the men are enthusiastic in their praises of it. I consider the Great German Remedy a truly marvelous substance completely fulfilling its every claim.

PARNELL'S estate of Avondale is the subject of an action for £30, interest on a mortgage for £10,000. Avondale House is an old and old-fashioned mansion in County Wicklow, where nothing new seems to come; where the books are all of the last century, and where Mr Parnell never stays if he can avoid it. When he took to politics he deserted his family seat.

MISS JESSIE GREEN of New Orleans, La., daughter of Protestant Episcopal parents, embraced the Jewish faith, and was married to Isaac Feitel, a Hebrew, in that city on the 14th inst. Shortly before her public declaration of her change of faith they were married by a civil magistrate; after it they were united by the Jewish rabbi.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all these Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,600 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Dept. of Railways and Canals, Ottawa, 22nd May, 1882. d127-2aw

TRENT NAVIGATION.

FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Lift Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows:—

For the Fenelon Falls work $1,000
" Buckhorn Rapids work 500
" Burleigh Falls work 1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN, Secretary.

Department of Railways and Canals, Ottawa, 22nd May, 1882. d127-3t.11

W. SANDERSON'S.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1wly

There is no excuse for suffering from CONSTIPATION and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S

MANDRAKE BITTERS

will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the *cause*. Keep the *Stomach, Bowels, and Digestive Organs in good working order and* perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

For sale by all dealers in medicine. Send address for pamphlet, *free* giving full directions.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

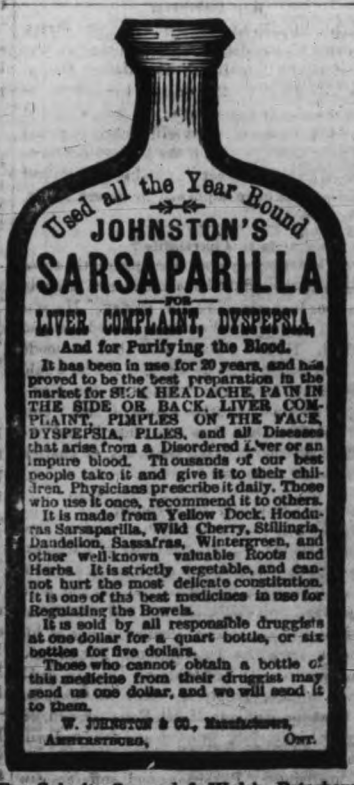
SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.



In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

THURSDAY, JUNE 29, 1882.

Farm and Stock.

The attention of farmers and others is called to the sale which Mr. C. Stapleton has been instructed by Mr. Patrick Creamer to hold on Monday, July 3rd, of his farm on the First Concession of Emily, with the stock and implements.

Daly Hotel, Winnipeg.

The undersigned having bought the premises known as the Club Hotel, Winnipeg, have renovated it throughout. Hereafter it will be known as the Daly Hotel. The proprietors will be glad to see their old friends from Peterborough.—JAMES SHERIDAN and F. J. DALY, proprietors.

A New Order.

Beginning July 1st, and throughout that month and the month of August, the Meteorological Department at Toronto will issue the weather probabilities for the next twenty-four hours at midnight. They will be at the regular stations about 8 o'clock on the following morning.

Loading Timber.

One of the new Midland locomotives is engaged to-day at the station here, loading timber which is to be rafted at Port Hope for shipment to Quebec. It is owned by Mr. Elias Thompson, and was all cut within a short distance of the Town. Some of the sticks are as fine as any ever sent from here, even in our palmiest days as a lumbering centre.

Drying the Hose.

The hose that was used at the late fire has been thoroughly dried. The hose tower is found to be a great convenience and will pay for itself in a very few years. Some of our neighbouring towns are advocating for such a building, and our advice is to commence work at once, as you will pay for its erection in the saving of hose in a very short time.

They Beat Us.

For a long time we have had the conceit that no place in Canada or any other country for that matter, could beat us for dust and flying paper, but after a visit to Belleville we are free to admit and most candidly do so, that the Bay City beats us in both of the respects mentioned. For both of the things mentioned Belleville undoubtedly takes the belt and is justly entitled to it.

Railway Coal.

The other day we stated that the Midland had ordered 25,000 tons of coal for use on the line, but we are told by one of the officials that we were slightly out in our figures, as they should have been 250,000 tons instead of those given. The locomotives that run in here now are nearly all coal burners, and before long all will be. Quite a number of tons have already arrived at Port Hope, and in a short time a coal yard is to be established here.

Bad Culverts.

We beg to call the attention of the Street Inspector to the disgraceful condition of the culvert almost opposite to Mr. James Campbell's gate; also to the one at the corner of Aylmer and London streets. If not attended to promptly some accident will occur. It would be a great improvement if the loose stones were removed from the streets, as we know of several accidents that have happened to horses lately, from them.

Is it Charitable?

On Wednesday a young man apparently about 24 years of age, might have been seen begging from door to door asking for money. He was deaf and dumb, but otherwise appeared as sound as a bell. He had a blank book that he made use of for telling what he wanted. All he would write in his book was "Help me for God's sake." He smelled rather strong of the "cup that inebriates but does not cheer," and we question whether it would be an act of charity to help such characters.

Recently in Toronto,

At 75 Young street, over 500 physicians and sufferers visited Dr. M. Souvielle of Paris, ex-aide-surgeon of the French army, using his wonderful instrument, the Spirometer, for the cure of catarrh, bronchitis, asthma and all throat and lung diseases. The Doctor, or one of his surgeons, from the International Throat and Lung Institute, 75 Yonge street, Toronto, or 13 Philips square, Montreal, office for Canada, will be at the Huffman Hotel, Peterborough, on July 3rd, 4th, 5th, 6th, 7th and 8th, and will have with him a supply of Spirometers and medicines. Physicians and sufferers can try it free.

MR. D. CARLISLE'S DEATH

THE JURY FIND THAT IT WAS CAUSED BY COMPRESSION OF THE BRAIN.

The Evidence Taken Before the Coroner in Full—The Deceased Called without Warning.—The Body Brought to Town on the "Golden-Eye"—Medical Evidence.

On Wednesday we chronicled the fact that Mr. David Carlisle, one of our best known and most respected contractors and bricklayers had been called away very suddenly. For some cause, not yet fully explained, it was found impossible to obtain any information from Harwood, beyond that the deceased had died very suddenly, and it was not until the Golden-Eye arrived here, about three o'clock this morning, with the body and the deputation of Oddfellows, that the facts were made known.

As will be seen by the evidence, the deceased was apparently in the best of health, and was transacting some business, regarding the subletting of a church contract with Mr. S. Campbell, and after finishing retired to bed. During the night his companion noticed that he was breathing hard, but did not pay much attention and got up without waking the deceased. Shortly afterwards he returned to his room, and found the deceased lying dead on the bed. He, of course, gave the alarm, and medical attendance was summoned, but to no avail, as the vital spark had fled when the doctor arrived.

THE INQUEST.

On account of the very sudden nature of the death, Coroner Ewing, of Cobourg, was requested to hold an inquest, and did so at the house where deceased died, about three miles east of Harwood. The following is the evidence in full as taken by the Coroner:—

SYLVESTER CAMPBELL sworn—He made the acquaintance of deceased about three months ago. Deceased came to the residence of witness about 10 p. m. on Tuesday, and he appeared to be in good health and spirits. James Campbell and Ralph Robertson were with him. We were preparing specifications for a new church until about 2 a. m., when we had some lunch and retired to bed. We drank no liquors. Deceased and R. Robertson went to bed together. Robertson awoke me about 5:30 a. m. on Wednesday, and said he thought something was wrong with deceased, as he could not awake him. Witness went to the room and found deceased dead. Witness heard no noise in the bedroom occupied by deceased and Robertson. Both were sober when they retired. Six persons lunched together. The deceased eat and drank nothing different from the others. If any noise had taken place in the bedroom, witness would have heard it.

ELLEN CAMPBELL, wife of the previous witnest, was sworn and corroborated the evidence of her husband.

RALPH ROBERTSON, sworn—He lived at Cold Springs. He is a carpenter and joiner by trade. Never saw deceased to know him until Tuesday. Mr. James Campbell and deceased came for him on Tuesday and requested him to go to Campbell's and assist them in preparing new specifications for the church, because they had lost the old ones. He prepared the old specifications and tendered for the church. His tender was not accepted. He understood the work had been given to deceased, but whether with or without tender he did not know. He went to the house as requested and assisted to prepare the new papers. He and the others had lunch about 2.30 a.m. Deceased ate longer than any of the others and complained of having a pain in his head. Deceased and witness went to bed together in the room where the body is, about 3 a.m. Witness went to sleep shortly afterwards. Deceased slept on the front side of the bed. Heard no person enter the room after he retired. About 5.30 a. m. witness was awakened by a moaning noise made by deceased. He at once asked if deceased was sick and noticed that his eyes were glaring. Deceased made no answer, and witness noticed no movement of his body or limbs. He then told Campbell, and upon going to the room deceased had expired.

DR. DAY, sworn—He was called in to see deceased about 6 a.m. and found him dead. He had made an external examination of the body, but found no marks of violence thereupon. From the appearance of the body and the evidence of the witnesses, he gave as his opinion that death was caused by compression of the brain.

After being charged by the Coroner, the jury retired and returned a verdict "That the death of deceased was caused by compression of the brain."

The funeral took place this afternoon with society honors. The Oddfellows and Foresters, headed by the Fire Brigade band, were both present.

A Corner Stone.

The corner stone of the new Methodist Church at Campbellford will be laid on Dominion Day, by the Rev. Dr. Jeffers, of Belleville, assisted by the Rev. Jno. Shaw, of Peterborough.

The William Hall Poor Trust.

At a special meetieg of the congregation of St. Andrew's Church, on Wednesday evening, Dr. R. W. Ball was elected a member of the Board of the William Hall Trust, in the place of Mr. Robert Fairbairn.

Canoe Race.

A canoe race for $100 a side will take place at Lakefield on Dominion Day, between T. Wallace, of Gore's Landing, and G. Nicholls, of Bridgenorth. A very exciting contest is looked for, as both have first class reputations as wielders of the paddle.

Grand Orange Lodge.

The Grand Orange Lodge of British America, which was in session at Sherbrooke, Quebec, concluded on Wednesday. The following are some of the newly elected grand officers:—Henry Merrick, G. M.,—Merrickville; Wm. J. Parkhill, D. G. M.,—Randwick; Rev. James Norris, G. C.,—Omemee; Thomas Keys, G. S.,—St. Catharines; Captain William Anderson, G. T.,—Mountain View; William White, G. D. C.,—Tweed; A. J. Vininger, D. G. S.,—Cobourg; E. F. Clarke, D. G. T.,—Toronto; Joseph Evans, D. G. L.,—Port Hope.

Little Lake Cemetery.

The Little Lake Cemetery is now looking its best and is well worthy of a visit, from those who have not yet had an opportunity of visiting it. The northern and north-eastern portions of the grounds, formerly the roughest places in the cemetery have been beautifully terraced this year, and one hundred and sixty new lots, some of the most valuable in the enclosure have been made and are now open to purchasers. The number of visitors just now is very large, coming from all parts of Canada and the United States, and all agree in saying that the grounds could not be kept in better order than they are kept under the supervision of Mr. Kelly, the watchful superintendent. At this season of the year the temptation to pluck flowers is very great, but those who transgress the rules in this respect are few and far between, and when caught in the act a gentle reminder of the penalties of the law is generally sufficient to work a cure. Although notices are posted up outside the gates forbidding the entrance of dogs, some persons will persist in bringing them in, evidently being pleased to see them tear up flower beds, but when they are seen a few well directed stones start them out. There are some few who growl when a flower is taken and blame the Superintendent for allowing it to be done, but watchful though he is he cannot be in all parts of the cemetery at once, and to watch all the flowers he would require a small regiment of guards. The lot of Mrs. John White, close to the main entrance is one of the finest and best kept in the cemetery, and just at present the most prolific yellow rose we have ever seen is covered with flowers. At the present rate of going on, before very long more ground will be required and now is the time to buy, before land in that portion of the town "booms" like Winnipeg. A few years ago land in that vicinity could have been purchased for one-half of what is asked for it now.

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1. (3)

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

IF NEARLY DEAD after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinry Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

Mothers! Mothers!!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the exeruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Almost a Free Breakfast Table.

CHAS. BUTLER

Daily Evening Review

MONDAY, JULY 3, 1882.

MIDNIGHT TELEGRAMS

CABLE.

DAVITT'S PLAN CONDEMNED.

LODON, June 30.—M. Healey, M.P., and Mr. Justin McCarthy have condemned Davitt's land nationalization scheme.

DERIDING ENGLAND.

ALEXANDRIA, June 30.—Arabi Pacha addressed the troops at the Arsenal yesterday. He said that an invasion has often been threatened by Europe, but had come to nothing. Their eyes were opened now and it was not of England alone they were going to be afraid. One report says that the attitude of the army was hardly re-assuring to Arabi.

THE STOCK MARKET.

LONDON, July 1.—There is much rejoicing over the result of settlement day on the Stock Exchange. The heavy fall of Egyptian bonds, ranging from twelve to twenty per cent., and representing a depreciation of upwards of fourteen million pounds, has caused great anxiety. Other securities, consuls and railways participated in the decline. The actual losses of speculators in the past fortnight are estimated at two million pounds, yet there have been only 9 failures, and only one which was for a large amount. The tendency now is to anticipate a rise in Egyptians, owing to the regeneration of the country, which British arms, it is supposed, will infallibly cure.

FENIANS IN EGYPT.

ALEXANDRIA, July 1.— It is reported that Fenian emissaries are actively engaged in Egypt keeping alive and intensifying the anti-English feeling, and aiding Arabi.

BISMARK'S LEANINGS.

BERLIN, July 1.—It is stated that Prince Bismark expects no satisfactory results from the Constantinople conference, but is on the side of England as far as the Suez Canal is concerned.

MEMBERS SUSPENDED.

LONDON, July 1.—On Friday, there began an all night session of the House of Commons, when an effort was made to force through the reading in Committee of the Crimes Bill. This was not effected till after 32 hours, two batches of Irish members numbering 16 and 9, having been suspended for obstruction.

SPANISH POLITICS.

MADRID, July 1.—A considerable sensation has been caused in policical circles by the resignation of Senor Albarado, Minister of Public Works, who, while the Minister of the Colonies, represented the Sagasta Cabinet, the most Liberal faction of the majority in Congress. Senor Sagasta insists on Senor Albarado remaining in office at least till the Cortes are porogued next week, as his resignation may cause a broader modification of the Cabinet. The advanced Liberals, with Marshall Serrano and Senor Lopez Dominiquez, and the Democrats with Senor Moret, are much preoccpied by anxiety to see in what direction Senor Sagasta will take his new colleagues after his recent conservative declaration. In Congress to-day Senors Portuondo and Betancourt, the Cuban autonomists, rigorously defended their party from the reactionary accusations propagated in Havana. The Minister of the Colonies thanked the autonomists for consenting to adjourn the irritating debate on the abuses in the colonial administration, and paid a flattering compliment to the loyalty and patriotism of Col. Portuondo during his visit to the colony. In a Cabinet Council which lasted five hours Senor Sagasta refused to admit the resignation of the Minister of Public Works, who, after a long persistence, consented to remain in order to avoid dividing the majority on the eve of the recess.

PREPARING FOR WAR.

LONDON, July 1.—This week finds England feverishly preparing for war, the first gun of which may be the signal for the commencement of the greatest struggle in which she has engaged since the Crimea. The note of preparation, at first feebly sounded, now grows louder; we hear of orders sent to arsenals for seige trains to be ready in forty-eight hours, with hospital, telegraphs, torpedo cables and all the paraphernalia of warfare. The authorities of the War Office are busy maturing plans for the invasion of Egypt, despite Arabi's assertion in his harangue to the troops at Alexandria that invasion has often been threatened by Europe, but has always come to nothing, and that he is not afraid of England alone. It is a strange fact, however, that even in military circles doubts are entertained whether the Government really mean to fight. As usual when England engages in military operations, the question of calling out the reserves immediately arises. Owing to the impossibility of placing even 20,000 regular troops in the field, it seems as if the Egyptian crisis requires something more than mere sword-rattling, and the volunteer force will be used for garrison work. The coming week seems pregnant with exciting events, the development of which is awaited with great interest and curiosity.

ARABI'S MOVEMENT.

ALEXANDRIA, July 1.—The Quinneburg arrived to-day. This morning the rumours spread that the Khedive was going afloat, and there was great excitement in consequence. Arabi Bey is now commencing operations against the Suez canal. Barges laden with stones were sent down to sink when necessary, explosives are also being hurried down. England is most dilatory in not sending gunboats to guard the canal. Arabi is now at Damietta looking after the coast defences. The natives thrown out of employment by the exodus of the Europeans are being pressed into the army.

GUITEAU'S PLACE.

LONDON, July 1.—The London *Times* says Guiteau's place in the dark calendar will be by the side of Felton and Ravaillac.

ATTACKING THE JEWS.

LONDON, July 1.—Fresh attacks upon the Jews have occured in Hungary, and in is reported the Government will sent troops to Upper Hungary for their protection.

AN ENGLISH PROPOSAL.

CONSTANTINOPLE, July 1.—It is announced this evening unofficially that England proposed to the conference that a strong Turkish military force should go to Egypt to settle affairs in that country, but stipulated that a number of English and French officers should be allowed to accompany the expedition to supervise the regulation of affairs, and to protect English and French interests in that country, claiming that such an adjunct to the Turkish army would be a guarantee that the *status quo* would be maintained in Egypt.

ENGLAND'S INDIAN RESOURCES.

LONDON, July 1.—Simla advices state that twelve thousand men could be concentrated at Bombay for transport to Egypt in forty-eight hours.

THE BRITISH FLEET.

ALEXANDRIA, July 1.—In consequence of the manœuvring of the British fleet, Arabi Pasha has proposed to send an Egyptian officer on board the flagship to ask an explanation of the movements of the vessels.

AMERICAN.

THE QUAKING EARTH.

SAN FRANCISCO, June 29.—Two shocks of earthquake were felt here yesterday, shaking the houses but doing no damage. At Oakland windows were shaken with much violence. The shake up extended over a considerable portion of the country and lasted for 30 seconds.

MISCEGENATION.

FREDERICK, MD., June 30.—There is a great sensation here over the marriage of Emile Burgy, a French professor of music, at Frederick Female Seminary, and finely educated, to a mulatto girl, who has been a domestic in some leading families.

A TERRIBLE FALL.

NEW YORK, June 30.—Tommy White, aged 7, was sitting on a window sill of the fourth storey of No. forty-six Norfolk Street, last night, with a baby sister of seven months in his arms. The blinds were open and suddenly both fell to the sidewalk. The baby was killed and the boy was badly injured.

A DOMESTIC TRAGEDY.

ELGIN, Ill., June 30.—Norman Prant, a prosperous farmer, recently absconded with $5,000 belonging to other people. His infant child died of poison on the day of his flight. His wife narrowly escaped the same fate. Prant was captured and committed suicide in jail by cutting his throat.

THE STAR ROUTE FRAUD.

NEW YORK, June 30.—The *Times* Washington despatch says that the Star Route case now on trial was the weakest the Government had. It is pretty well understood that the case will be a failure and it is very probable the Judge will throw it out of court before the prosecution can have an opportunity to sum up.

THE BEAN WEEVIL.

WARSAW, N. Y., June 30.—The bean weevil is causing great devastation among the newly planted crops in the large bean raising districts of Western New York.

AN AGENT KILLED.

LAUGHREA, Ireland, June 30.—Mr. Blake, Lord Clauricard's Agent, was killed yesterday. He had obtained ejectment decrees against some tenants. The place of the murder is not far from where Burke and a dragoon were killed recently.

THE FREIGHT BLOCKADE.

NEW YORK, June 30.—The *World* says:—"Those familar with the condition of the strike are generally of opinion that the trouble will be over to-morrow and that by Monday the railroads will be ready to give the advance demanded by the freight handlers. The merchants are making desperate efforts to get all the freight possible shipped before Saturday."

FATAL ACCIDENT.

BROOKLYN, June 30.—Allen Astins, aged 27, was thrown from a wagon at Bomland, near Coney Island, last evening. He was killed and his sister, aged 18, was seriously injured.

SUFFERING HUMANITY ought surely to find relief in at least two of the proprietary medicines advertised in these columns. We refer to Burdock Blood Bitters, and Dr. Fowler's Extract of Wild Strawberry. The B.B.B. as a cure for diseases of blood, liver, etc., and the Extract Wild Strawberry for summer complaints. Judging from the popularity and steadily increasing sales that these remedies seem to have in this locality, we are ready to account for the verdict in their favor.

IF MOTHERS and nurses would cease giving opiates in the guise of paregoric, and cordials, and for children teething and subject to bowel complaints, give instead Dr. Fowler's Extract of Wild Stawberry, the lives of many infants might be saved that are sacrificed to deadly drugs.

V. EDMISON OF BRADFORD, writes:—Burdock Blood Bitters is an excellent preparation, gives entire satsifaction, and sales increasing every day, it sells now on its merits:—Burdock Blood Bitters cures Scorfula, Liver Complaint, Dyspepsia, and Kidney complaints, in their worst form.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

Swimming Trunks, Lacrosse Belts and shoulder Braces will be found at "Habiliment Hall."

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

THE REVENUE.

WASHINGTON, July 3.—The receipts of the Government for the past fiscal year are estimated at four hundred and three millions of dollars, the largest since its foundation, except in the years of 1866 and 1867. The sources of revenue have been largely reduced since 1867. The interest bearing debt has been reduced $17,575,000.

MORMON ARRIVALS.

NEW YORK, July 3.—Nine hundred Mormons arrived here yesterday from Europe, being the largest number in a single day since 1862.

ALMOST A BLAZE.

NEW YORK, July 3.—Yesterday the city hall was set on fire with fire crackers. Timely discovery prevented serious damage.

TERRIBLE WATERSPOUT.

MANITON, Col., July 3.—Every house here was damaged by the waterspout on Saturday, which swept everything before it. It is feared that several persons perished. An omnibus filled with passengers was picked up on the street and dashed against rocks; the occupants were slightly injured. Four hotels were injured. Horses and cattle were swept for miles. The total loss is over $75,000. Yesterday a steamer moved out a number of families from Randolph three miles below, who were in danger from the general wash out. Harlem is yet unharmed, but a slight increase of water would create trouble. Last year every house in Harlem was damaged, and some destroyed.

DROWNED.

CONEY ISLAND, July 3.—Michael Quinn, while returning from church yesterday, had his hat blown into the sea. Quinn donned a bathing suit and swam after the hat, but was drowned while returning to shore.

BUSINESS DULL.

CINCINNATTI, July 3.—Business being improfitable, farmers here employing eleven hundred men, whose production in the past year amounted to five million, decided only to employ a fraction of the full capacity.

PROHIBITION VOTE.

DES MOINS June 30.—Returns from all the counties except six, give a majority for the prohibition amendment of 27,000.

RAILWAY TRAFFIC.

PHILADELPHIA, PENN., July 3.—The railroad officials announce that they now have the full force of freight handlers at New York and Jersey City, and that they anticipate no further delay in the delivery of goods. Men are paid at the old rates.

CATTLE TRAINS WRECKED.

LOCKEDA, Mo., June 30.—The second section of a stock train ran into the first section at Locust creek yesterday, and twelve cars loaded with cattle were detached. Both sections were badly wrecked, Charles Koffinderfer a brakeman was terrible injured, and afterwards died. The engineer and fireman, of the second section, are probably fatally hurt. Several cattle men were seriously injured, and two are reported to be dead.

"I DID have the rheumatism," said Mr. Robert Fletcher of the Chicago *Irish Tribune*, "and was cured by St. Jacobs Oil. I think it a wonderful, never-failing remedy."

Boys' White Dress Shirts in all sizes just received at "Habiliment Hall."

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

IN the cure of severe coughs, weak lungs, spitting of blood and the early stages of Consumption, Dr. Pierce's "Golden Medical Discovery" has astonished the medical faculty. While it cures the severest cough, it strengthens the system and purifies the blood. By druggists.

POINT ST. CHARLES.—Wm. Cullahan, Water Police, 206 St. Etienne street, Montreal, says Dr. Smith's Great German Worm Remedy was a decided success in his family. Had tried other worm remedies and doctors for four years without success. 25 cents—of John McKee, druggist, Peterborough.

DO NOT BE DECEIVED.—In these times of quack medicine advertisements everywhere' it is truly gratifying to find one remedy that is worthy of praise and which really does as recommended. Electric Bitters we can vouch for as being a true and reliable remedy, and one that will do as recommended. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urniary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at fifty cents a bottle by Taylor & McDonald.—No. 4

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the tooth like chastened pearls. A 5 cent sample bottles it.

Daily Evening Review

MONDAY, JULY 3, 1882.

VOLUME EIGHT.

TO-DAY we begin the eighth volume of the DAILY EVENING REVIEW. When we first undertook the daily publication we were told by many of our friends that it was a hazardous experiment, but we had faith in the enterprize and progress of our good town, and we have found that our confidence was not misplaced. Each year we have received more and more support from those who believe that a good daily paper is in itself a very efficient means of advancing the interests and promoting the progress of a town and therefore deserved encouragement. We look hopefully to the future to extend our field, and we promise to use our utmost efforts to keep pace with the times.

DOMINION DAY.

SINCE our last issue another anniversary of Canada's natal day has come and gone. Our young Dominion has no very long history, upon which to look back, but even the fifteen years that have now elapsed since confederation have witnessed very just and gratifying improvements, and if the restrospect is thus satisfactory, our future prospects, at the present time, are even more promising. With our fertile but sparsely settled territory, our greatest want is population, and this is being secured to us by the influx of emigration, which is now being attracted hither upon a scale heretofore unprecedented. The various provinces which go to make up the Dominion, and the territories out of which other provinces will be carved, are now being rapidly connected by means of our great transcontinental railway, which is progressing at a rate that will shortly result in its completion. But this national connection, great as will be its benefits, yields in importance to the aptly named National Policy, which after sufficient trial has now been so decisively adopted, by which each province, as a part of one great whole, aims at mutual benefit, and by interprovincial commerce will be closely welded into one great and prosperous nation.

On such anniversaries it is usual to make good resolutions, and we hope that on this Dominion Day just past, many have made up their minds to do all in their power to further the progress of our country, and to give their quota of support to these national objects, even though they may not approve of every detail of the plans by which they are being effected, and even though they would prefer to see them in the hands of another administration. So they can help in perfecting them, and securing the greatest amount of benefit for the country.

LINDSAY.

A PLEASANT EXPEDITION.—The *Post* says that taking advantage of the meeting of the county council the Midland Railway authorities, through J. R. Dundas, M. P., invited the council and town fathers, together with a number of prominent citizens, to a trip over the line northward to Midland City. The invitation was promptly accepted and arrangements made for the jaunt. On Thursday morning shortly after eight o'clock three coaches left the Midland station well filled with a merry party of holiday makers. There were, however, no ladies invited, and the company were packed into the coaches irrespective of political proclivities. About 250 lucky men embraced the opportunity, and as the guests of the Midland a royal time was ensured. The Midland terminus and grain elevator were to be inspected. Much regret was expressed that Mr. White was not of the party, but he was unavoidably detained by pressing business matters. Mr. J. F. Jeffers accompanied the excursion, and Mr. Dundas for the directors acted as host and courier. They were expected to return early in the evening.

NO USE.—After the hose was attached to the hydrant near the station on Saturday it was found that the hydrant would not work. Instead of pouring the water through the hose the concern manifested the strongest possible intention of coming up out of the ground. On Monday an examination was made and the hydrant was found to be broken off near the bottom at a depth of about six feet from the surface. The fracture was corroded and looked as if made a long time ago. The only reason for the breakage apparent was that waggons had struck the upper part. Mr. John Makins had it at once taken out and will probably have a new one in position by this evening.

FIRE.—The bells rang an alarm of fire Saturday afternoon shortly after five o'clock. A crowd gathered and rushed across the bridge in the direction of the Midland station. It was at once seen that the roof of the C. L. Baker storehouse had caught fire. A few active fellows mounted the roof of the structure and put out the incipient conflagration with a pail of water. Three of the hose reels were promptly on hand, and a line of hose stretched from the hydrant near the station, but the water was not turned on. A spark from one of the passing engines had been caught by the shingle on the roof of the building and started the fire. It is a fortunate thing that it did not happen at night, as once under headway it would have been exceedingly difficult if not impossible to control the flames. On Monday a second alarm was given, but it turned out to be nothing more serious than a blaze among a pile of ties in the Midland yard.

LARCENY.—James Willfried was committed to gaol on Monday charged with the larceny of a suit of clothes and watch from his employer, Richard Caliaghan, North Emily. Willfrid was arraigned on Tuesday before Judge Dean and remanded for trial until Friday, the 30th June. Prisoner was goaled seven years ago for a similar act of theft, but went at that time under the name of George Fisher. This is probably his real name, his present cognomen being an assumed one.

SUDDEN DEATH.—We learn from the *World* that Mr. D. C. Campbell, of North Mariposa, died suddenly at the St. James' hotel, Toronto, on Tuesday afternoon. He came to the city in the morning, it is thought to consult a doctor for lung disease. At 11:30 he registered at the hotel and ate a hearty dinner. At 3:30 p. m. while sitting in the billiard room, he called for a drink of water. A glass of ice-water was given him, and he immediately fell to the floor with blood streaming from his mouth. Dr. Thorburn was quickly summoned, but life was extinct. The cause of the death is supposed to be hemorrhage of the lungs. The body was removed to the morgue.

ST. PAUL'S CHURCH.—A well attended vestry meeting of the officials of St. Paul's church was held on Monday evening. Matters in connection with building a new church were taken up and a subscription list opened. Nearly $3,000 was subscribed at once. An efficient committee were appointed to wait upon the members of the church and see to what extent they would be willing to support the improvements financially. It is confidently expected that there will not be the slightest difficulty in raising the amount necessary to put up a handsome building. It is proposed to spend $15,000 on the new edifice, if that amount can be raised. Should the expected subscriptions fall short of this sum then a building in keeping with the funds at disposal will be erected. The new church will stand where the present one now does, the old structure to be removed to the rear of the lot, and in the future utilized for a Sabbath school.

PORT HOPE.

NOT SO BAD.—The *News* says that a young town fellow, on jumping from a hayloft the other day landed on a board in which a nail was sticking. He immediately doubled up, and was carried into the house by some friends who feared that he was ruined for life. A doctor was sent for, the messenger conveying the shocking intelligence that the lad had jumped on a wrought nail, which had run through his foot, clinching itself on the other side. He hurried to the scene of distress, and found the sufferer nursing the foot and holding the board close to his boot, the nail in the board having pierced the sole of his boot in the shank. The doctor wanted the lad to let go the board until he should pull the nail out, but the sufferer said he would not until he would be given a dose of chloroform. By dint of persuasion the doctor got him to let go the board, and to every body's surprise it dropped, and the nail with it. The poot was then removed, and it was found that the nail had not pierced the foot more than a quarter of an inch, instead of being clinched on the other side. Truly the force of imagination is strong.

ACCIDENT.—The *Times* says that the mail steamer Corsican when passing Gull Light, early on Sunday morning, had the misfortune to break part of her machinery and thus beocme disabled. She was towed into Port Hope by the tug Albert Wright, and the steamer Corinthian, on her way to Toronto, about 4 o'clock on Monday a.m., took her in tow to that city for repairs.

DROWNED.—The body of Mark Wright, an extended notice of whose death, at Quebec, appeared in last week's *News*, reached here on Friday night last, and was taken to his late home. On Sunday, the funeral, which was a large one, took place to the Union Cemetery. The members of the Sons of England Benevolent Society acted as bearers and the Port Hope Lodge attended in a body, marching before the hearse to the grave. The Rev. W. H. Laird conducted the funeral services in an impressive manner. Afterward the burial ritual of the Sons of England was read by the Acting President and Chaplain, and the rose, the national emblem, was deposited on the coffin by all the members. Mark Wright was a Charter member of the Durham Lodge, and, as with all who knew him, was highly esteemed for his many virtues. The loss thus sustained by his wife and children is irreparable, and much sympathy is everywhere expressed.

FIRE.—Mr. Richard Harness' residence on Lot 31, Con. 2, Hope, York Road, was destroyed by fire on Monday afternoon. Sparks from the chimney set fire to the roof, and owing to a high wind spread with alarming rapidity. Mr. Harness' neice unfortunately fell when ascending the roof with a pail of water, and by the injuries then received was prevented from reaching the flames, otherwise the fire would have been mastered. The furniture from the lower part of the house was saved. Everything upstairs, including $40 in cash, was consumed. There was a small insurance on the building.

PRESENTATION.—On Friday evening last a number of friends met at the residence of Mr. E. Jenkins, and presented the Rev. W. H. Butt with a handsome sum of money and a flattering address.

NORWOOD.

TALL RYE.—The *Register* says that on Friday Mr. T. Cuthbertson exhibited in our office a stalk of Rye, 6ft. 1in. long. Since then Mr. H. Reynolds has exhibited one, grown under the N. P., measuring 7ft. 3in. Can any of our contemporaries beat this?

IEPROVEMENTS.—The Norwood House is receiving an overhauling. Extensive additions will be built to the south and west sides of the house, and the whole building generally refitted. When completed the hotel will be second to none in this section of the country.

QUICK WORK.—Mr. J. Ruttan, with the assistance of two men, framed a building for Mr. Harrison, of Asphodel, 36x22 in 13 hours! They commenced on Friday morning last at 7 o'clock, and had the building ready to raise by 9 the next morning. Mr. Harrison would like to know if it could be done in any shorter time, and if so, who are the parties capable of doing it?

YET ANOTHER.—Just previous to going to press yesterday, Mr. Chas. Nicoll, of Dummer, came into the office and showed us a stock of Rye 7 feet in length. Mr. Lockwood came in a few minutes afterwards and exhibited one which measured seven feet one inch. If the rush continues much longer we will have to borrow a barn to store the specimen stalks in, as it is now we will sell a few loads cheap.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

NINE PHYSICIANS OUTDONE.—It is generally considered a pertty difficult task to outdo a physician, but the following will conclusively prove where nine were completely outdone. Mrs. Helen Pharviz, 331 Dayton St., Chicago, Ill., was treated for Consumption by nine physicians, and all pronounced her case incurable. Seven bottles of Dr. King's New Discovery for Consumption completely cured her. Doubting ones please drop her a postal and convince yourselves. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.00.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents, For sale by all Druggists.

IF Cattarah has destroyed your sense of smell and hearing, Hall's Cattarah Cure will cure you. 75 cents per bottle. Druggists sell it.

Text of the Assassin's Will.

The following is Guiteau's will:—

"WASHINGTON, D. C., June 29th, 1882.

"*To Rev. Wm. Hick*:

"I, Charles J. Guiteau, of the City of Washington, in the district of Columbia, now under sentence of death, which is to be carried into effect between the hours of 12 and 2 o'clock on the 30th day of June, A. D. 1882, in the United States gaol in said district, do hereby give and grant to you my body after such execution, provided, however, it shall not be used for any mercenary purposes; and I hereby, for good and sufficient consideration, give, transfer and deliver to said Hick my Book entitled "The Truth and Removal," and the copyright thereof to be used by him in writing a truthful history of my life and execution, and I direct such history to be entitled "The Life and Work of Charles Guiteau," and I hereby solemnly proclaim and announce to all the world that no person or persons shall ever in any manner use my body for any purpose whatsoever, and if at any time hereafter any person or persons shall desire to honor my remains they can do it by the erection of a monument, whereupon shall be inscribed these words:—"Here lies the body of Charles Guiteau, patriot and Christian. His soul is in glory."

("Signed) CHARLES GUITEAU.

"Witness { CHARLES H. REED, JAMES WOODWARD."

The Cotton Crop.

With a failure of the Egyptian cotton crop and reduced production in the States the prospects are of a short cotton crop. Leaving the Sea Island crop, at all times but a very small one, out of consideration, our Gulf long staples is the best substitute for the Egyptian cotton. Some of the Lancashire factories work only the long staple cotton, and will have to shut up in case the Egyptian crop proves a total loss, or our supply is not large or fine enough. The supply from the East Indies shows an increase of 370,000 dales over last year, but East Indian cotton cannot be worked at all by the European machinery without an admixture of at least 60 per cent of American cotton. Yarn made from the short staple India cotton is unsalable. The world's consumption of cotton is steadily increasing. The European consumption alone was 115,000 bales of different kinds of cotton per week in 1881, against 100,000 per week in 1880. These facts, indicate that the demand for American cotton this year is likely to be greatly increased, while the estimates show that the supply is likely to decrease. Taking the figures of last year there will be a shortage of 1,000,000 bales on October 1.

"Habiliment Hall." For the Newest, Prettiest, Perfect-fitting Linen Collar try Andrew McNeil.

LIVER COMPLAINT, is rather an indefinite term, as commonly understood it consists of a torpid sluggish state of the liver, a deficiency or superabundance of bile, or any alteration from its proper character. All disturbed action of the liver and billiary organs giving rise to a pain in the side, or under the shoulder blade, headache, weariness, dizziness, sick stomach, loss of appetite, bad bowels, etc., are promptly cured by Burdock Blood Bitters.

THE WELL KNOWN drug firm of N. C. Polson & Co., of Kingston, writes that Dr. Fowler's Extract of Wild Strawberry has long been considered the best remedy for summer complaints in the market, and adds that their customers speak in the highest terms of its merits. Wild Strawberry is the best known remedy for Cholera Morbus, Dysentry and all bowel complaints.

They are safe, mild and thorough in their action. From 1 to 3 pills a dose. PRICE 25c. PER BOX.

FRIGHTFUL RAILWAY ACCIDENT.

Five Passenger Cars Precipitated into a River—One Hundred Persons Injured.

LONG BRANCH, N.J., June 29.—While the express train leaving Long Branch at eight o'clock this morning was crossing the bridge over the branch of the Shrewsbury river, near Little Silver station, the rails spread, and four passenger coaches, the smoking car, and parlour car left the rails, and ran over the ties of the bridge, tearing them to pieces. The cars kept on the bridge until the train was half way across, when the four passenger coaches and the smoking car went over into the river with a terrible crash, and landed on their sides in four feet of water. The cars were full of passengers and the scene that followed beggars description. An unknown man from Ocean Beach was taken out dead, and a hundred were hurt, more or less. Mr. Demorest, of the firm of Demorest & Co., Read Street, New York, was badly injured at the base of the skull; he will die. B. Garrison, son of Commodore Charles K. Garison, was terribly hurt in the chest; Charles W. Woodruff, of Newark, and J. Mitchell, of Scranton, Robert Robertson, iron merchant of New York, and a grocer named Edison, of Branchport, were also seriously hurt. James Brooks, manager of the Brooks & Dickson theatre troupe, New York, had his collar-bone broken. Morris H. Brown, son of the superintendent of the Erie railroad, received a severe blow on the head, and his back is injured; C. J. Fox, of Richmond, Va., had his head crushed; James E. Malley, of New York, was badly crushed, and cannot recover. The physicians of the neighbouring towns have been summoned. Charles Foster, the fireman of the engine, pulled ex-President Grant out of the smoking-car. Gen. Grant was not injured.

The dead man has been identified as James L. Bradley, produce dealer of New York. Mr. Demorest is dead. President Galloway, of the elevated railroad, is slightly injured, and Wm. R. Garrison has been unconscious since the accident, suffering from concussion of the brain. He is at Hollywood park, the residence of John Haig. George R. Blanchard, vice-president of the Erie railroad, Robert M. Minturn, ex-President Grant, and Arthur L. Sewell are among those only slightly cut or scratched. Annie Irwin, of Brooklyn, has a deep gash in her forehead and is unconscious; Wm. McCall, the brakesman is fearfully injured. Mitchell's condition is precarious. Woodruff and Mallory are about breathing their last. John T. Raymond, the actor, has his collar bone broken, and is otherwise severely injured. Mr. Fox, his father-in-law, is severely injured.

It is Charles Woodruff, of Newark, who is dead, not Mallory. The latter is very low.

The inquest begins to-morrow. Those badly wounded were taken to farm-houses, where they were promptly attended to by physicians. About eighty persons were slightly wounded, either by being hurled over seats or being struck by window glass. There is said to be a number of passengers missing, but their names could not be ascertained. Railroad men condemn the managers of the New York and Long Branch railway for not placing guard-rails upon the bridge. The engineer used the air brakes promptly but could not stop the train. If the cars had been without air-brakes all the passengres would most probably have been killed.

The railroad accident is attributed to the fact that the track was changed for the Monmouth races, and the frog at the switch was not properly spiked. A passenger states that the train was going forty miles an hour. The passengers, not stupefied pulled themselves through the car windows, and reached the bridge by planks extended by a large number of laborers. General Grant was precipitated into the water brest high, and was drawn up through the window still smoking. A more serious accident was averted by a brakesman running across the trestles to warn another train fifteen minutes behind.

The report that John T. Raymond was injured in the accident to-day is incorrect.

LOST IN THE WOODS.

The Belleville *Intelligencer* says that on Saturday, June 17th, Mr. H. Smith, residing in Faraday, about three miles south-west of Bancroft, went out at 4 o'clock p. m. to hunt for his cows in the woods, and got lost. Not returning that night or Sunday morning, his wife and family became alarmed at his absence, and Mrs. Smith started off to Mr. J. Vanleek's, where nearly the whole settlement were assembled to hear divine worship. On receiving the news the meeting at once broke up, and the men started off to hunt for Mr. Smith, and searched the woods for a long distance around till dark, but without success. At nightfall a fearful storm of thunder and lightning commenced, accompanied by torrents of rain, which lasted till midnight, and as Mr. Smith is upwards of sixty years of age, and in the course of his life has had a leg, an arm and several of his ribs broken, and is also subject to heart disease, his chances of pulling through were all against him. Next morning, the news having spread, large numbers of volunteers flocked in to renew the search, which was actively kept up till 3 p. m., when he was at last found by Mr. A. Johnson, of Bancroft, who is certainly about the best woodranger we have in the back country. Mr. Smith travelled a good deal on Saturday evening and all Sunday. Fortunately he did not lose his presence of mind, and seeing the storm of Sunday approaching, he found a great pile of fallen trees and logs, under which he crawled and slept all night. On Monday he was exhausted with hunger and fatigue, and did not move very far. It is probable he made a wide circuit in his wanderings, as he was found at a distance of less than two miles from his home. He was thoroughly used up, and a very few more hours in the woods would have finished his mortal career.

I. O. G. T. Grand Lodge

BROCKVILLE, June 29.—At the St, Lawrence camp ground yesterday, W. M. Jones, G.W.C. of New York State, was introduced and gave an interesting account of the state of Templarism in the Empire State, which the Grand Lodge gratefully acknowledged. A few amendments to the constitution were adopted. Reports from various committees were adopted relating to the good of the order. There is a slight decrease in the number of members, arising mainly from the great tide of emmigration from all quarters of the Province. The great event of the day was the election of officers for the ensuing year. The following is the result:—J. H. Flagg, G. W. C. T., Mitchell; B. H. French, G.W.C.C., Brockville; R.W. Storr G. W. V. T., Ottawa; T. W. Casey, G. W. S., Napanee; Rev. S. Card, G. W. C., Napanee; J. B. Nixon, G. W. T., Toronto; R.W. Bride, G. W. M., Hamilton; Miss Casey, G.W.V.M. Napanee; G.H. Lees, G.G., Hamilton; Chief Wanbanm, G. S., Bothwell; Rev. J. Shaw, G. W. C. T., Peterborough; Auditors, A Burritt, Mitchell; W. H. Rodden, Toronto; Representatives to the R. W. G. L., W. S. Williams, Oronhyatekha, N. S. Connor, A. L. Henry. The next meeting of the Grand Lodge is appointed to be held at Woodstock on the fourth Tuesday in June, 1883.

He Took the Lemonade.

After the circus had opened to the public yesterday, a gray-haired colored brother, who held the hand of a boy of 14 as both stood gazing at the tent, shook his head in a solemn manner as he observed:—

"It's no use to cry 'bout it, sonny, kase we am not gwine in der, no how."

"But I want ter," whined the boy.

"In course you does. All chill'en of your aige run to evil an' wickedness, an' dey mus' be sot down on by dose wid experience."

"You used to go," urged the boy.

"Sartin I did; but what was the result? I had sich a load on my conscience dat I couldn't sleep nights. I cum powerful nigh bein' a lost man, an' in dem days de price of admission was only a quarter, too."

"Can't we both get in for 50 cents?"

"I 'spect we might, but to-morrow you'd be bilin ober wid wickedness an' I'd be a back slipper from de church. Hush up, now, kase I hain't got but 30 cents, an' dar' am no show for crawlin' under the canvas!"

The boy still continued to cry, and the old man pulling him behind a waggon and continued:—

"Henry Clay Scott, which had you rather do—go inter de circus an' den take the awfullest lickin' a boy eber got, or have a glass of dat red lemmonade an' go to heaben when you die? Befo' you decide let me explain dat I mean a lickin' which will take ebery inch of the hide off, an' I also mean one of dem big glasses of lemonade. In addition I would observe dat a circus am gwine on in heaben all de time, an' de price of admishun am simply nominal. Now, sah, what do you say?"

The boy took the lemonade, but he drank it with tears in his eyes.—*Detroit Free Press.*

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung disease by Dr. Souvielle's Spirometer and instrument, which conveys medicinal properties direct to the seat of disease Read and judge for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of *Post* and *True Witness*, Montreal. Mr. C. Hill, Montreal, catarrah and bronchitis. Mr. DeBoucherville, of the Indian Deparment, Ottawa, catarrh of many years, now cured; Mr. Geo. Ager, Ottawa, cattarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont,, Catarrh and Bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrahl deafness. Thomas Telfer, 12 Merinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma, and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitation in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis, John C. Fleming, Editor of *Post* and *True Witness*, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free.

USELESS FRIGHT.—To worry about any Liver, or Kidney or Urinary Trouble, especially Bright's Disease or Diabetes, as Hop Bitters never fails of a cure when a cure is possible. We know this.

HALL'S Cattarah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by druggists.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

POSSESSION is nine points of the law, and the possession of a good pen goes a long way to make a good penman—Esterbook's takes the lead of all the rest. Can be obtained at all the stationers.

AMONG THE MOST prevelant fatal and sudden attacks of diseases, are those incident to the Summer and Fall, such as cholera morbus, bilious colic, diarrhœa, dysentry, etc., that often prove fatal in a few hours. That ever reliable remedy Dr. Fowler's Extract of Wild Strawberry, should be at hand for use in emergency.

TRUTH IS MIGHTY.—When Dr. Pierce of Buffalo, N. Y., announced that his "Favorite Prescription" would positively cure the many diseases and weaknesses peculiar to women, some doubted, and continued to employ the harsh and caustic local treatment. But the mighty truth gradually became acknowledged. Thousands of ladies employed the "Favorite Prescription" and were speedily cured. By druggists.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation paced upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debilty, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by druggists, or sent free by mail on receipt of price, $1.00 per box, or six boxes for $5.00. Address F. J. Cheney, Toledo, O., sole Agent for the United States. Send for circular.

SOMEBODY'S CHILD.—Somebody's child is dying—dying with the flush of hope on his young face, and somebody's mother thinking of the time when that dear face will be hidden where no ray of hope can brighten it—because there was no cure for consumption. Reader, if the child be your neighbor's, take this comforting word to the mother's heart before it is too late. Tell her that consumption is curable; that men are living to-day whom the physicians pronounced incurable, because one lung had been almost destroyed by the disease. Dr. Pierce's "Golden Medical Discovery" has cured hundreds; surpasses cod liver oil, hypophosphites, and other medicines in curing this disease. Sold by druggists.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

W. SANDERSON'S.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, VT., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & CO., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rórke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

MONDAY, JULY 3, 1882.

LOCAL AND MUNICIPAL.

Board of Education.

A regular monthly meeting of the Board of Education will be held to-morrow evening at 7.45 o'clock in the Collegiate Institute building.

Good Fishing.

On Friday night Mr. Tobias Fitzgerald and other gentlemen from Peterborough, went to Burleigh Falls to spend Dominion Day fishing. Before three o'clock in the afternoon they had caught 105 bass and 7 maskenonge. Pretty good fishing!

New Instruments.

The Fire Brigade Band are badly in need of some new instruments. Several new players are on the way, and there are others—old hands—who will either have to get new instruments or stop playing altogether. We understand it is the intention of the band to hold a grand promenade concert at no distant date for the purpose of raising funds to put themselves on a solid basis for competitions this summer.

Photographic.

Mr. G. B. Sproule has just received two new backgrounds from the studio of the celebrated artist Seavey, of New York. These backgrounds are very costly, coming as they do from an establishment which has no rival in the world for photographic backgrounds. Mr. Sproule has now six of these Seavey backgrounds, a boast which no other photographer in Canada can make, but in this, as in other matters, he is determined to be at the top of the tree.

Confirmation.

The Lord Bishop of Toronto performed the rite of confirmation in St. John's Church on Sunday morning, and in St. Luke's Church in the evening of the same day. The churches on both occasions were crowded to their utmost capacity, benches and chairs having to be brought from the neighboring houses to accommodate the large congregations assembled. There were a large number of candidates in both churches, and the Bishop delivered eloquent and profitable addresses to the candidates.

T. V. C.

Commenting on the contest in North Victoria the Lindsay *Post* says:—

"In the north, as well as in the south riding, the Trent Valley Canal vote contributed materially to the majorities of the ministerial candidates. Very little was said about it publicly, but in a quiet way it was used effectively by Mr. Cameron's agents especially, and as the canal is to go through the heart of his riding it affected the vote from Fenelon Falls all along the route to the western boundary."

Again, in reference to the contest in South Victoria, the *Post* remarks:—

"In Verulam and Bobcaygeon the Trent Valley Canal subsidy gave an increased ministerial majority."

Personal.

The Right Reverend Dr. Cleary, Roman Catholic Bishop of Kingston, is staying at Father Lynch's.

Mr. Lewis Ross, ex-M. P., and Mr. W. T. R. Preston of the Port Hope *News* are in town.

The Rev. J. E. Starr, formerly of this town, and now of Winnipeg, occupied the pulpit yesterday morning in the Charlotte Street Methodist Church, and in the evening he preached to a very large congregation in the George Street Church, many persons leaving the church on account of being unable to secure seats. He delivered excellent sermons on both occasions.

The First Smelting Furnace.

The following letter appears in the Lindsay *Post*:—

"SIR,—I beg to correct an impression made by your remarks on the early blast furnace in the *Post* of last week. Some fifteen years before the Seymours came to Madoc, a Mr. Hay from England started a smelting furnace and a foundry at Marmora. The late Mr. Thompson, of Monaghan, and the late Mr. Harper, afterwards of Peterborough, started from Monaghan in 1832, went through the woods to Marmora, taking some patterns and bringing the castings home on their backs more than fifty miles through a dense forest. I also travelled the same road a few years after, and had the satisfaction of seeing the works, although shut down at that time. I used a log chain for many years. It wore as bright as silver, but never broke. It was made of Marmora iron. Somebody prized it as highly as I did, for they stole it from me.

JOHN BARNARD.

Lindsay, June 27th, 1882.

CANADA'S ANNIVERSARY

THE YOUNG DOMINION'S SIXTEENTH BIRTHDAY FITTINGLY CELEBRATED.

Peterborough Wins the Lacrosse Championship and Cup—The Athletic Sports—Pleasant Excursion—Promenade Concert—A Fine Display of Fireworks.

The morning of Saturday, the first of July, the anniversary of the formation of the Provinces of British North America into the Dominion of Canada, dawned dismal and damp, and the weather continued cloudy and threatening throughout the whole day. Nor did the clouds contain threats only, for occasional light showers fell during the forenoon, and in the evening the rain descended heavily. Notwithstanding this serious drawback, however, the programme arranged for the celebration was carried out, and that, too, with a large degree of success. The townspeople turned out in great numbers to be entertained and to enjoy themselves, and they were joined by a large number of visitors in witnessing the different features of the entertainment prepared under the joint auspices of the Fire Brigade and Lacrosse Club. The first salute given to welcome the incoming day, was a cannon shot fired by the Battery at 6 o'clock in the morning.

THE LACROSSE MATCH.

The first event of the day was the lacrosse match between the Peterborough Club and the Earls Lacrosse Club of Kingston, for the "Gildersleeve Cup," and the championship of Central Ontario. A great deal of interest was felt in this match, but it was thought from the first that the home team would be successful in winning the prize, and the result fully justified this expectation, for they won the match by three straight games. The team representing the Peterborough Club was made up as follows:—

Goal	W. A. Sanderson
Point	A Mackie
Cover Point	P. Rudkins
Defence Field	J. Joyal
2nd Home	M. McDonnell
Field	A. Yelland
do	W. Morrow
Home Field	W. Craig
do	M. Halpin
3rd Home	C. Rutherford
do	G. H. Giroux
1st Home	W. Rudkins
Field Captain	H. LeBrun

The Kingston team was composed of fine, athletic looking young men, heavier in appearance than the members of the home team. Their names and positions are as follows:—

Goal	T. McGuire
Point	J. McDonald
Cover Point	P. Morrain
Defence Field	C. Millan
do	W. Towers
do	M. Hogan
Centre	M. Hagerty
Home do	J. Linaugh
do do	M. Foly
Home	D. Millan
do	C. Geaza
do	P. Gallivan
Field Captain	J. J. Behan

Owing to the rain which fell in the forenoon, the game was delayed over an hour beyond the time appointed for it to commence, and it was not until half past eleven that the players took their positions on the field. At 11.35 the ball was faced by Yelland and Hogan, and immediately each side fell earnestly to work. The grass being wet interfered a great deal with the players, and the falls were frequent, but in spite of this fact much good throwing, dodging and running, and excellent playing generally, was displayed. The greater part of the playing was done in the vicinity of the Earls Club's goal, as the ball was kept a greater part of the time at that end of the field, and it was only occasionally that the services of the Peterborough defence were called into action to defend their goal; but when the ball did reach that end Sanderson, Rudkins and Lackie were on hand, not only to defend the goal, but to send the ball again to the other side of the field. Gallivan and Geaza did some good playing, defending their goal against the endeavours of Halpin, Giroux and Rutherford to pass the ball between the stakes, and the contest was kept up warmly and excitingly until after 12 o'clock, when a short interruption took place, on account of an unpleasant occurence between two of the players. Morrow, the player belonging to the home team, said that the Kingston player struck him on the head with a lacrosse, and that he dropped his lacrosse and returned the blow. Both of the players, however, were counted out, the ball was again faced, and the game proceeded harmoniously. Fifteen minutes after recommencing, Halpin, by a good throw, sent the ball close to the Earls' goal and Rudkins passed it through, scoring the first game for Peterborough fifty-five minutes after it was begun.

The second game occupied much less time. It, too, was vigorously contested, but the Peterborough team again proved to be more than a match for their visiting brethren. Fifteen minutes after the second game commenced, the ball left Halpin's lacrosse and passed through between the stakes, and the home team had won another game.

The loss of the first two games did not appear to discourage the visitors, but rather to incite them to more determined efforts, and some still better playing was done in the third game than in the two previous ones. But after eighteen minutes playing, McDonnell threw the ball through the Earls Club's goal, and the match was won by the Peterborough Club by three straight games.

Cheers were then given for the visiting club, and the victors, and the two clubs formed in procession and marched back to town. The Fire Brigade Band was present on the field and played several selections in their usual excellent style, and headed the procession on the return.

PROCESSION AND ATHLETIC SPORTS.

At three o'clock in the afternoon the Firemen formed in line of procession at the hall, and headed by the band marched up George street to the Agricultural Grounds. A large number of people assembled on the grounds, dispite the still very threatening appearance of the weather, to witness the atheletic sports. A lengthy programme had been arranged, consisting of a two mile walking race, one hundred yards race, one mile race (professional), quarter mile race, Indian club swinging, three-legged race, quarter mile race (boys under 14), one mile race (amateur) quarter mile race (professional), a tug of war and a consolation race. Of these the amateur running races and the tug of war between the band and members of the Fire Brigade were perhaps the most exciting, and the three-legged race, in which two boys much smaller than the two pairs against whom they competed won the race, was probably the most amusing. The Indian club swinging performance of J. Hannah was much admired and drew loud plaudits from the crowd. The Fire Brigade Band enhanced the pleasure of the proceedings by playing at intervals.

The following is a list of the prize winners in the games:—

THE PRIZE LIST.

TWO MILE WALKING RACE.—1st, Jas. Hannah; 2nd, David Spence.

ONE HUNDRED YARDS RACE.—1st, A. Mooney; 2nd, H. Carnegie.

ONE MILE RACE, (professional).—1st, John Raine; 2nd, John Watson.

QUARTER MILE RACE.—1st, A Mooney; 2nd, H. Carnegie.

INDIAN CLUB SWINGING.—1st, Jas. Hannah.

THREE-LEGGED RACE.—1st, M. Ord and F. Sherwood; 2nd, E. A. Jones and J. E. Haggart.

QUARTER MILE RACE (boys).—1st, E. Stratton; 2nd, D. Wallace.

ONE MILE RACE (amateur).—1st, S. Sharp; 2nd John Craig.

QUARTER MILE RACE (professional)—1st, John Raine; 2nd, John Watson.

BOYS' RACE.—1st, Thos. Cronan; 2nd, Andrew Ferguson.

TUG OF WAR.—This prize was won by the Fire Brigade Band.

THE CONCERT.

In the evening the promenade concert in the Drill Shed, given by the Fire Brigade Band, was fairly attended. The music and amusement were kept up until about nine o'clock, and the concert proved to be one of the most pleasurable events of the day.

FIREWORKS AND TORCHLIGHT PROCESSION.

At nine o'clock the display of fireworks was begun, and was witnessed by an immense concourse of people. Rain fell almost continually during the evening, sometimes quite heavily, but the brilliancy of the grand pyrotechnic exhibition held the crowd until the end. The display was indeed a good one, the representation of the waterfalls, the moving wheels, and the ascension of the balloons especially delighted the assemblage. Immediately after the conclusion of the display of the fireworks, the torchlight procession took place. The Fire Brigade formed in line at the Drill Shed, and with the band at the head of procession, marched down the street to their hall, sending up all the way down the street a brilliant display of beautiful sky-rockets. This procession was a fitting termination of the good programme of the day, and with it closed the celebration of the sixteenth Dominion Day in Peterborough.

DOWN THE RIVER.

A number of persons went down the river on the Golden Eye, to attend the picnic at Spooke Island, held by Father Murray, of Cobourg, in aid of the Catholic Church at Harwood. Dancing and other amusements were provided at the Island, and a pleasant day was spent there by a large number of persons drawn together from Peterborough, Cobourg, and other neighboring places.

Our Balbriggan Underwear are the admiration of all who see them. All sizes at "Habiliment Hall."

Committee Meeting.

A meeting of the Committee of the Fire Brigade and Lacrosse Club, which had charge of the celebration on Saturday, will take place at the Fire Hall this evening at 8 o'clock.

Railway Notes.

The Madoc *North Hastings Review* says:—"The engineers of the T. & O. R. have removed their office from this village to Bridgewater, the work of construction being now under way from the latter place to Perth. We are sorry to lose the genial countenances of Messrs. Sykes and Smith."

Slate Roofs.

Those having buildings to roof, will do well to confer with Mr. J. H. Temperton, slater, McDonnell street, Peterborough, before coming to any decision, as he claims to be in a position to furnish a first class roof on reasonable terms. See card in another column.

Council Meeting.

A meeting of the Town Council will be held this evening at 7.30 o'clock. The principal business before it will probably be in connection with the waterworks, as it is desirable that the Council should decide on what streets they will have pipes laid down east and west from George street, before the mains are laid past these streets. Other questions in connection with the same matter will probably come up for discussion.

Not Much Disturbance.

Although there was a large number of people congregated together on Saturday, witnessing the sports and games, the day passed quietly with almost no disturbances. Only one person was arrested—a young man for being drunk. In the evening a couple of slight disturbances were caused near the post office by two young men striking another, but were soon ended by the victims taking flight. Other petty brawls took place in the evening, but none of any importance.

The Earls Lacrosse Club.

The members of the Earls Lacrosse Club, of Kingston, took their defeat very well on Saturday. They said that they expected to be defeated when they were coming, and were very much in earnest in praising the Peterborough team on account of the manner in which they play Canada's national game. The Kingston players were gentlemanly young men, and played well, this being the first match which the club has played, and we wish them better success in their next match—unless it should happen to be with Peterborough.

$100 REWARD is offered for any case of Catarrah that can't be cured with Hall's Catarrah Cure. Taken internally. Price 75 cents.

BRIGHT'S DISEASE of the Kidneys, Diabetes and other diseases of the Kidneys and Liver, which you are being frightened about, Hop Bitters is the only thing that will surely and permanently prevent and cure. All other pretended cures only relieve for a time and then make many times worse.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

RAILWAY ACCIDENT.

A Young Man Killed on the Grand Junction Railway.

Shortly after four o'clock on Saturday afternoon, a young man named Ellis, who was employed on the Grand Junction division of the Midland Railway as a brakeman, lost his life by an accident at Campbellford. The train on which the accident occurred consisted of only the engine and the van, upon which Ellis was breaking. Coming close to Campbellford he put on the breaks very tightly, and when he tried to let off the break again he found it difficult to do. Turning around on the platform, he kicked at the cog to loosen it, but his foot slipped, perhaps through missing his aim, and he fell under the van, the wheel of which passed over his right shoulder, severing the shoulder and right arm from his body. Medical aid was promptly summoned, but the injury was fatal, and no efforts could save the life of the poor victim. He lived about five hours after the accident happened, and died about nine o'clock on the same evening. Ellis' remains were taken to Belleville, where he resided. His father, Mr. George Ellis, who is an extensive cattle shipper and an old resident of Belleville, is at present in England on business. Mr. Ellis has been called upon to mourn the loss of his wife and daughter within the last two years, and now his son, during his absence, is suddenly deprived of life. Young Ellis, the victim of the accident, had been employed on the Junction for some months. He leaves a wife to mourn the loss of her husband after a brief married life of a little over a year. He had no children.

The Weather.

The disagreeable weather seems to have spent its force, and a pleasant change has taken place, to-day being warmer and more summer-like. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a.m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to fresh south-westerly to south-easterly winds, fair to cloudy weather with rain areas, stationary or higher temperatures.

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

A POSITIVE CURE

Without Medicines
ALLAN'S SOLUBLE MEDICATED BOUGIES,
Patented October 16, 1876. On Box

No. 1 will cure any case in four days or less.
No. 2 will cure the most obstinate cases, no matter of how long standing.
No nauseous doses or cubebs, copabia or oil of sandalwood, that are certain to produce dyspepsia by destroying the coatings of the stomach.
Price $1.50. Sold by all druggists, or mailed on receipt of price. For further particulars send for circular. P. O. Box 1,533,
J. C. ALLAN CO., 83 John street, New York. d62

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on **Tuesday, the Eleventh Day of July next**, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after **Tuesday, the Twenty-seventh Day of June next**, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Dept. of Railways and Canals,
Ottawa, 22nd May, 1882. d127-2aw

30 CENTS.

Daily Evening Review

TUESDAY, JULY 4, 1882.

POLICE COURT.

DRUNK.

MONDAY, July 3.—Thos. Donovan was charged with being drunk, and being found guilty, was fined $1.00, or in default to receive ten days in goal. He paid the fine.

SABBATH BREAKING.

TUESDAY, July 4.—The adjourned case, in which employees of the Midland Railway of Canada were charged by P. C. McGhee with breaking the Sabbath by running a train from Belleville to Peterborough on Sunday, the 25th of June, was brought up to-day. The first case tried was that of Wm. Bowen, the conductor.

Mr. D. W. Dumble appeared for the prosecution, and Mr. E. H. D. Hall for the Railway Company.

B. Ferguson, Superintendent of the Midland Railway, was sworn and said that it was his duty to give instructions to have trains despatched. There was a train brought up from Belleville on the Sunday mentioned, because it had to be here on Monday morning in order to take an excursion. The train was not a through one and did not carry mails. Wm. Bowen was the conductor of the train, which was a special one. The train could have come from Belleville after 12 o'clock on Sunday night in time to take the excursion, but it would have compelled the men to work twenty-five hours and a half without rest. It took about four or five hours for a train to go to Belleville. The train remained here on Sunday night and left here on Monday morning at 5.45 o'clock to go to Lakefield; the men would be on duty an hour before starting. It was the custom of railways to run all kinds of trains on Sundays. It was not the custom of the Midland Railway to do so; they only did it in cases of necessity.

John McGhee, police constable, was sworn and said he saw the train as it was being shunted on the siding. He saw Bowen and Russell on the train. They rang the bell all the way down the street.

Mr. Dumble held that the men were engaged in their ordinary calling on the Sunday in question, and the case did not come under the exceptions mentioned in the statute. He also contended that it was not a work of necessity, in the meaning of the words of the statute, for the train could have been brought up on Monday morning in time for the excursion. The case was not brought to punish the men personally, but to prevent such occurrences in the future.

Mr. Hall contended that the words of the statute did not mean absolute necessity, but reasonable necessity. It was the custom of all railways in the United States and Canada to run trains on Sunday. The train was run to accommodate passengers, and was therefore one of the exceptions mentioned in the statute. Mr. Ferguson, who was a good judge of the matter, had sworn that it was necessary to run this train.

The Magistrate reserved his decision until a future day.

Personal.

The Winnipeg *Times* of June 26th says:—"Thomas Steers and I. H. Brock left home this morning to make a detailed examination and report of the country direct through from Winnipeg to Moose Mountain for the information of the Government."

Mr. Jacob Shelhart, sheriff of Montour County, Pennsylvania, has been staying for several days at the Cassie House, visiting his friends Mr. and Mrs. W. H. Law. He speaks highly of Peterborough and its surroundings and particularly of its magnificent river and abundant water power. When it was known Mr. Shelhart could remain here no longer, the ladies of the Cassie House handsomely entertained him and a party of friends on Monday night. Mr. Law accompanies him as far as Toronto on his return journey. Mr. Shelhart purposes again visiting Peterborough soon.

Swimming Trunks, Lacrosse Belts and shoulder Braces will be found at "Habiliment Hall."

MIDNIGHT TELEGRAMS

THE FOURTH OF JULY.

To-day is the one hundred and fifth anniversary of the declaration of the independence of the United States of America, and it is celebrated in that country by a general holiday. In consequence of this we are not in receipt of our usual American telegrams.

CABLE.

PERUVIAN AFFAIRS.

PANAMA, June 24.—The message of the President of Chili was well received by the people. The President is undoubtedly desirous of avoiding a contest. He is removing from office strong partizans of extreme measures, and replacing them by others who support his peace policy. There is no doubt that the whole north of Peru will soon be given up by the Chilians. Some believe they will even abandon Lima. The citizens fear anarchy. The revolution at Equador is progressing. General Viendimilla having declared himself dictator, he has no one in his favor. He dreads assassination, and will not leave his residence.

NIHILISTS ARRESTS.

ST. PETERSBURG, July 3.—Arrests continue. Among the persons captured, three belong to the Holy League, or voluntary police sustained by voluntary subscriptions. On Thursday a Nihilist was arrested among the machinists of the court theatre at Peterhof, and they telegraphed from Moscow that two officers of Uhlans have just been arrested as being affiliated with the Nihilists.

DANGEROUS OIL.

LONDON, July 3.—The Indian Government has suspended the order that oil which failed to stand the fire test shall be re-shipped within 72 hours. The consequence is that oil which according to the existing law ought never to have been landed, canstitutes a serious danger to the shipping and the houses in the vicinity.

PROTECTION OF TELEGRAPH CABLE

LONDON, July 3.—Sir Charles Dilke stated to-day that the Government had agreed to attend a Congress of nations regarding the protection of telegraph cables, if an understanding could be arrived at.

KEEPING THEM QUIET.

ALEXANDRIA, July 3.—The authorities are energetically trying to prevent the natives insulting and molesting Europeans. Persons so offending are confined in the arsenal without trial.

THE FRENCH SQUADRON.

PARIS, July 3.—The French Mediterranean squadron, consisting of six ironclads, has been ordered to Bona, to be in readiness to proceed to Egypt if necessary. Transports capable of carrying 1,750 men are ready at Toulon.

A CONFLICT IMMINENT.

ALEXANDRIA, July 3.—Ragheb Pasha and the other Ministers declare they will oppose armed intervention by Turkey. They have obtained a declaration from the Ulemas that such a war is lawful. A conflict between the English ironclads and the forts may occur at any moment. Dervish Pasha and Arabi have disagreed.

OPPOSED TO FIGHTING.

ALEXANDRIA, July 3.—The majority of the officers have informed Arabi Bey that they are against fighting.

RE-ELECTED.

DUBLIN, July 3.—Mr. Dawson, M.P., has been re-elected Lord Mayor of Dublin.

THE SPANISH NAVY.

MADRID, July 3.—The Government will propose a vote of 150,000,000 pesetas for the reconstruction of the navy.

A FALSE ALARM.

LONDON, July 3.—The supposed machinery found in a railway carriage during the Prince of Wales' visit to Bradford proved to be fireworks.

THE BULGARIAN MINISTRY.

SOFIA, July 3.—The Russian Generals Bass and Skobeloff have arrived at Sofia. The former will be appointed Minister of War, and the latter Minister of the Interior. It is reported that the whole Bulgarian Cabinet will be reconstructed.

BIMETALLISM DENOUNCED.

COLOGNE, July 3.—A number of leading manufacturers of Cologne have adopted a resolution declaring that the bi-metallic agitation is most seriously affecting the economic interests of the country, and that the Government should express its determination to carry out the gold currency scheme without undue haste.

SUSPICIOUS STRANGERS.

DUBLIN, July 3.—Official statistics show that there are 1,580 Americans, or Irish Americans, in Dublin without visible occupation.

HOUSE OF COMMONS PROCEEDINGS.

LONDON, July 3.—In the House of Commons this afternoon, Mr. Trevelyan said nobody was injured by the firing of the police at Listowel yesterday.

THE CITY OF GLASGOW BANK.

GLASGOW, July 3.—Mr. Fleming, a director of the City of Glasgow Bank, has been sentenced to 8 months for connection with the failure of the bank.

REBELLION IN MUSCAT.

LONDON, July 3.—A rebellion has broken out in Muscat against the Imaum. The movement is headed by the Imaum's brother. A British man-of-war has proceeded to Muscat to protect British subjects.

OUTRAGES IN CLARE.

DUBLIN, July 3.—Judge Lawson, addressing the grand jury in county Clare, said the number of offences committed in that district had trebled. He shuddered to think of the terrible consequences were the military withdrawn for a moment.

PLOT AGAINST A CARDINAL.

DUBLIN, July 3.—It is reported that a plot has been discovered to assassinate Cardinal McCabe.

THE ARMY RESERVE.

LONDON, July 3.—A committee under Gen. Wolseley met at the War Office to-day. Before rising they will settle arrangements for the pay, clothing and victualling of the army reserve, whose calling out is shortly expected. At Woolwich harness equipments are being hastily repaired for a number of batteries, such as are used in countries destitute of good roads. The men-of-war Ajax and Agamemnon, are now at Chatham, having been ordered to prepare for immediate service.

GUITEAU'S SANITY.

WASHINGTON, July 3.—Dr. McWilliams says it is not true that Guiteau's brain was found to be soft and yielding. The adhesion in places of the membrane to the skull proved nothing. In Daniel Webster's brain the whole brain adhered to the skull. A prominent physician who carefully examined Guiteau's brain says it was healthy and as free from exciting or irritating causes as the brain of the sanest citizen of Washington. Drs. Harting, Lamb and Somers, the examiners of Guiteau's brain, met to-day to complete the work. The main features of the report, which will be written by Dr. Lamb, were agreed upon. There is good authority for stating that its conclusions were accurately foreshadowed by the despatches last week. It will embody numerous photographs and elaborate microscopic analyses.

THE CRISIS IN EGYPT.

ALEXANDRIA, July 3.—To-day is the Sultan's birthday. All the ships in the harbor were dressed in flags, and salutes were fired, the American flagship Lancaster representing the United States. Many natives were in a panic for a short time, believing that the bombardment of the town had begun. Europe's action in not acting quickly and settling the thing out of hand is causing a dangerous spirit to manifest itself among the natives. Fanaticism now has a good chance of spreading, and the preachers are doing their utmost to increase the feeling against the Europeans. On all hands it is now agreed that Egypt will be impassable for Europeans unless strong measures are taken immediately. Meanwhile many of the respectable natives are losing heart and joining the national party. Colonel Long, American consul here, who has had great experience in the country, takes the gloomiest view of the situation.

ORDERS TO PREPARE.

CALCUTTA, July 3.—The Bombay Government have received instructions to be prepared for shipping the contemplated military expedition to Egypt. The Calcutta press considers the campaign in Egypt will be hailed with the liveliest satisfaction by the native Indian troops.

JOINT INTERVENTION.

LONDON, July 3.—It is predicted that if Turkey persists in abstaining from the European accord, the conference will be obliged to entrust intervention in Egypt to a mixed corps of English, French, Italian, and Greek troops.

SEIZURE OF FIRE ARMS.

LONDON, July 3.—Walsh, who was arrested in connection with the seizure of arms at Clerkenwell, was arraigned to-day. Extra precautions were taken to guard him in the dock. The evidence showed that the prisoner had been engaged in nefarious proceedings for a long time.

The Waterworks.

The Waterworks Company are pushing forward the work with energy. The mains were laid across the raceway at Hilliard's mill, the water having been dammed back for that purpose.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a.m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to fresh northerly winds, fair stationary or higher temperature. Wednesday fine and warm.

Intermediate Examination.

The Intermediate Examination of our Collegiate Institute began on Monday. There are in all forty-five candidates, nineteen males, and twenty-six females. The examination will continue until Saturday at noon. Mr. Brown, the County Public School Inspector, presides. He is assisted by Mr. John Braden and Mr. T. B. Braden, Masters in the town Public School.

Hotel Opening.

Mr. Gurlais' handsome and commodious new hotel at Bobcaygeon is to be formally opened to-morrow, Wednesday, July 5th, when the genial proprietor extends an invitation to his friends, acquaintances and the public generally. We understand that a party from Peterborough intend to visit Bobcaygeon for this occasion, the steamer Beaubocage leaving Bridgenorth at 9:30 a. m. and starting from Bobcaygeon for the return trip at 4 p.m., the fare being only 50 cents. No doubt it will be a pleasant trip, and will be likely to lead to some of the party making a longer stay hereafter, as the Rockland House will be found an attractive summer resort.

The Martha Whitla Murder.

DETROIT, July 1.—The case of Hugh Peoples, on trial for the murder of M. Whitla, was resumed this morning. Judge Swift read his charge, and at 10.25 the jury retired. At one o'clock a verdict of "not guilty" was returned, and the defendant was discharged. Dr. Hollywood was then released on his own recognizance in the sum of $1,000. The jury were out two hours and thirty-nine minutes. Nine jurors voted steadily for acquittal and on the sixth ballot they were joined by their associates. When the foreman announced the verdict of "not guilty" there was no demonstration. Peoples did not seem to understand the verdict until his wife repeated it to him: then he exhibited feeling. He rose to his feet, and his eyes filled with tears. He walked over to where the jury sat and shook hands with each man. Mrs. Peoples, Maggie Peoples, Wm. Peoples, and Mr. Conely, his counsel, followed suit. The spectators quietly dispersed, and were quickly followed by the principal actors in this celebrated case.

BRIGHT'S DISEASE of the Kidneys, Diabetes and other diseases of the Kidneys and Liver, which you are being frightened about, Hop Bitters is the only thing that will surely and permanently prevent and cure. All other pretended cures only relieve for a time and then make many times worse.

POINT ST. CHARLES.—Wm. Cullahan, Water Police, 206 St. Etienne street, Montreal, says Dr. Smith's Great German Worm Remedy was a decided success in his family. Had tried other worm remedies and doctors for four years without success. 25 cents—of John McKee, druggist, Peterborough.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

Daily Evening Review

TUESDAY, JULY 4, 1882.

EAST PETERBOROUGH.

As the shadow of the coming elections for the Ontario Legislature is already upon us, it will no doubt, prove interesting to many of our readers to have placed before them the vote just polled in East Peterborough, as constituted for Ontario election purposes, as well as those of the two preceeding elections in the same constituency, in order that they may be the better enabled to speculate as to the political changes in this somewhat doubtful riding in the coming campaign.

In the last three contests the vote has been as follows :—

LIBERAL CONSERVATIVE VOTE.

	1878	1879	1882
Ashburnham	129	124	140
Asphodel }	175	124	166
Norwood }		57	67
Belmont, &c.....	99	103	104
Burleigh, &c.....	52	62	51
Douro	151	185	227
Dummer...	107	82	144
Otonabee.....	219	211	269
Totals	932	948	1168

REFORM OR GRIT VOTE.

Ashburnham	55	57	56
Asphodel }	232	199	160
Norwood }		42	63
Belmont, &c.....	62	60	76
Burleigh.....	43	63	74
Douro	64	130	97
Dummer.....	177	176	160
Otonabee.....	288	351	328
Totals	921	1078	1014

These figures show :—

1st. That the total vote polled has steadily increased from 1853 in 1878 to 2026 in 1879, and to 2182 in 1882.

2nd. That of the 173 extra votes polled in 1878 Mr. Blezard received 157 against Mr. Calcutt's 16, hence the conversion of Mr. Burnham's preceding majority of 11 in these municipalities into a majority of 130 for Mr. Blezard.

3rd. That in the late election Mr. Burnham not only received the whole of the increased vote of 156, but actually succeeded in inducing 64 of those who voted for Mr. Blezard to vote for himself, so that Mr. Blezard's majority of 130 in 1879, has been converted into a Liberal Conservative majority of 154 in 1882, and that too in an election where the Mowat Government were largely on their trial, and in spite of the unblushing and avowed use of every means at the disposal of the same to secure a different result.

4th. These figures prove that Mr. Burnham gained in every municipality where the colonization road money did not come into play, viz: In Asphodel, Douro, Dummer and Otonabee, while Mr. Roxburgh's gains were confined to Belmont and Methuen, and Burleigh, &c., both of which municipalities have colonization roads within their bounds, and both of which were duly visited by the joint dispensers of these funds in this county—the Local M.P.P. for the East Riding and the Forest Rangers. That they did not accomplish all Mr. Roxburgh so fondly anticipated in his nomination speech at Norwood is, no doubt, no fault of theirs.

In dealing with the foregoing figures we have of course confined ourselves to the official returns for 1882 as well as the preceding years. Were it not that it would be, in a measure, "high treason" to question the correctness of any of the returns of either the Returning Officer or his deputies for East Peterborough, we should be disposed to revise his figures for Dummer. It will be noted that by the figures given Mr. Roxburgh had only a majority of 16 in this township against Mr. Blezard's 94, and Mr. Buck's 70. We fear there are too many "aspiring grits" in this township for such "good news" to be true, and were the truth told we are inclined to think that somehow or another the vote in number four (Stoney Lake) polling division in this township has by some mistake been reversed, and that instead of giving Mr. Burnham a majority of thirty-two it gave Mr. Roxburgh that number. This of course would bring Mr. Burnham's majority down to 90 in this portion of his constituency, and to 193 in the whole of it. But after all that would be a very satisfactory gain on the 11 he had in 1878, and would still leave a small Conservative majority to begin the next campaign with, even should Mr. Mowat, as some people think he will, gerrymander Ashburnham into West Peterborough before the next political tug of war takes place.

THE ONTARIO BOUNDARY.

The *Monetary Times*, which certainly cannot be classed among the partizans of the present Dominion Government, has the following fair and sensible article on the Boundary question :

"The Ontario Boundary dispute formed an issue in the late contest. Ontario was as much a party in the struggle, as she would have been if the election had been for an Ontario House; the two premiers distinctly taking opposite sides. The occasion was one on which the policy, on an important question, of the Dominion and of Ontario, were distinctly put in issue; and as there were two sides to this question, one provincial the other general, the contest would not have been avoided. The issue, on one side, was of course confined to Ontario, and it has been dealt with in a way which shows that the electors of that Province do not fear that they will lose their just rights; in other words, they believe that their just rights will be safe in the hands of the highest tribunal of the realm. The award of the arbitrators, if it had been accepted by the Dominion, would have been binding on the two parties which agreed to the reference; but it is a well understood principle that a conventional arbitration cannot bind third parties. For instance, the award in this case could not bind Manitoba, or anyone, who, before a tribunal, might object to the jurisdiction of the court. Thus the question is reduced to one of procedure, and in no way affects the merits of the case. Ontario has not decided that the award of the arbitrators was right or wrong, but only that a conventional arbitration could not give us a settlement that would be binding on all parties. For a just settlement Ontario is not afraid to go to the Privy Council. She has never yet shown a want of confidence in the courts, and she is not going to begin with the highest tribunal in the Empire. This is Ontario's view of the matter, and a very sensible view it is."

MIDLAND.

From Our Own Correspondent.

FIRE.—The peaceful slumbers of those who adopt the motto of early to bed were soon disturbed, on Friday evening, by the cry of fire; those who sat up late were early at the house which was found to be on one of Mrs. Hunter's lots on Queen Street. Owing to our city not providing fire appliances of any kind, the result was the loss of the building, a small one, worth say $250. It was by sheer hard work by the pail, tub and blanket brigade, that the flames were prevented from catching the adjoining house. Had they not done so our village would have suffered severely, The want of a few thousand dollars spent new for fire appliances, will, at no distant date, result in very serious loss to our rapidly growing village. We noticed some of our young men hard at work in their store clothes. They had evidently, before the alarm of fire was given, been pleasantly engaged in arranging for Dominion Day.

NEW BUILDINGS.— The bank buildings, are well under way. Work has been commenced on Thorn & Sphon's block. Wm. Lumins is making preparations on his lot on King street for another block. Plans are prepared and tenders will be asked for shortly for the erection of a building for a music hall, capable of seating 800 persons.

STREET IMPROVEMENTS.—The village fathers are hard at work with gangs of men laying sidewalks, opening up and grading streets, but they cannot, with all their efforts, keep pace with the demand caused by the rapid sale of lots and the number of buildings in course of erection. They are doing very well though, and we hope they will keep on doing so.

QUIET ELECTION.— Election matters here were very quiet; our townspeople are too busy to devote much time to such matters, being fully occupied in keeping even with the progressive spirit of the village.

FORESTERS.—The Independent Order of Foresters, Court Midland No. 87, had an excursion on the 17th of June to Collingwood, that day being the anniversary of their Order. The Court here is progressing finely, and is very highly thought of by its members. We are informed that this Court has taken $5000 stock in the Foresters' North-West Colonization Society. Only Foresters can be members. They have 8 townships in the most fertile part of the Northwest, selected by parties connected with the Order.

THE SAW MILLS.—The British Canadian Company's new mill at Hugel Point is now running. The lumber mills here are all hard at work. Cameron & McLeod's mill is engaged in cutting cedar. The British Canadian new mill and the large mill, formerly H. H. Cook's mill, Chew Bros., and Dollar's Wye mills, are all cutting pine lumber. The lumbermen report the logs all down and in safe water and a full supply for all the mills. This season's cut will far exceed any heretofore in Midland.

NARROW ESCAPE FROM DROWNING. — On Monday Mrs. King, of this village, her son, a boy about six years, and child about a year, rowed across from McLead and Cameron's mill to the elevator dock here, when the boy in attempting to get out capsized the boat and threw Mrs. King and child in the water. Her shouts were heard by a young lad named James McGregor who rushed in and grasped the child, pushed it up on the wharf, and then attempted to save the mother; he managed to get her drawn up on the boat which was bottom up in the water, and shouted for aid, which was soon rendered by those who heard him. By his promptness and coolness in acting he has the honor of saving the lives of two human beings, who, through assistance, have escaped with merely a severe fright and thorough wetting.

MUNICIPAL.—The Reeve has returned from the County Council where he was engaged last week. The Inspector is on the warpath again looking after those who neglect to comply with the requirements of our village by-laws, owners of horses, swine, and dogs not properly labelled will do well to keep both eyes open when the Inspector is about.

LAKEFIELD NEWS.

From Our own Correspondent.

NO RACE.

The expected canoe race at Lakefield on Dominion Day did not come off. Mr. T. Wallace, of Gore's Landing, some time ago issued a challenge to any man in the Dominion to paddle with him for $20 to $50 a side. The challenge was accepted by Mr. G. Nicholls, of Brigenorth, but the date and place have not yet been fixed. At the suggestion of Mr. Wallace it was agreed by Mr. Nicholls to have a race for a purse on Dominion Day at Lakefield, letting the challenge match stand over for the present. At the appointed time Mr. Nicholls was ready in his canoe on the course, but Mr. Wallace, though on the bank, for some reason best known to himself did not take to the water, but went home to Rice Lake, greatly to the disappointment of the crowd of spectators who had assembled to witness the contest.

BOBCAYGEON.

CANAL.—The *Independent* says it is understood that Mr. T. D. Belcher, the Superintending Engineer of the Trent Works, purposes lining the canal bank with a brest work, and filling it with gravel. This will be a great improvement, and an improvement which is an imperative necessity, as at present the bank is in a most unsafe condition. Several small breaks have been just stopped in time, but should the bank break away in the night the result to the village would be more serious than appears to be understood. In consequence of the canal having an elbow in it, which is one of those things no fellow can understand, the logs and scows have worn away the bank at this point. The brest work, however, proposed by the Superintendent will render it safe, and the sooner it is done the better.

CHANDOS.

FATAL ACCIDENT.—The Bobcaygeon *Independent* says that a sad accident resulting in the death of Edward Woods occured last week. The deceased was engaged in driving logs for Irwin and Boyd, or rather Irwin, now that the firm has dissolved partnership. The drive was running Massasoga Creek, above Buckhorn, when Woods fell from the logs. Under ordinary circumstances he might have saved himself, but unfortunately in falling he dislocated his neck, and was drowned. The foreman, Mr. Bravoc, recovered the body of the poor fellow and sent it home to his father. Sad to say, his mother was also drowned last winter.

BELLEVILLE.

MURDEROUS ASSAULT.—The *Intelligencer* says that Geo. Lindsay was brought before Judge Lazier yesterday, charged with committing a murderous assault on Felix Collins at Canifton on the 11th of June. The prisoner was found guilty of assault, but the Judge exonerated him from having any intent to murder. Sentence was reserved till this morning, but was not prouounced until this afternoon, when Lindsay was sentenced to Central Prison for six months.

War Among Squatters.

The Fort Totten special report to the Grand Forks, Dakota, *Herald*: Considerable trouble and some fighting is going on over on the north side of the lake. There are several hundred squatters over there, and some it is claimed are holding more land than the law allows. The new settlers coming into the country try to squat on the land which the other parties claim and a fight ensues in which knives and revolvers are freely used. As yet no one has been killed, though one named Hance was struck with a club and badly hurt. A party of 20 is trying to hold a tract of fine timber of over 3,600 acres. Whenever any one attempts to squat on it they are driven off at the point of revolvers. They will not state where their stakes are, or where or how much they claim. They are thus able to cover a great deal more territory than the law allows. Trouble is anticipated, and the fort commandant threatens to interfere to prevent bloodshed.

Parties just in from Devil's lake corroborate the above statement, and give additional facts, which the *Herald* correspondent who is at the fort, would not care to divulge. It is rumored, though there is no proof of the fact, that Lieut. Creel of the fort has employed the 20 men above mentioned to hold nearly four thousand acres of timber until such time as it shall come into the market. The men, of course, will not state who is employing them. They are well drilled and have a code of signals by which they communicate with each other. When a squatter attempts to settle as stated, they gather to the number of ten or a dozen and tear down his shanty, driving him off by threats of killing. The leader of the gang is an ex-Mountana cowboy, who is slightly known in this section. About a week ago a poor man came to the fort with a story to the effect that his shanty had been torn to peices, and that he had been ordered to leave the country. He had a wife and several small childern, who were exposed all night without shelter.

"Habiliment Hall." For the Newest, Prettiest, Perfect-fitting Linen Collar try Andrew McNeil.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

FROM THE OLD COUNTRY

ENGLAND.

Over 40,000 emigrants left the Mersey in the course of May, being the largest number recorded for any one month.

A London grocer has been fined 20s. for selling as "raspberry jam" a substance in which no trace of raspberries was found.

The great seal of Great Britain and Ireland is affixed to yellow wax for English documents, red for Scotch, and green for Irish.

Mrs. Mary Russell, of Bath, has bequeathed £105,000 to the London Diocesan Home Mission for the extension of Church of England operations in the metropolis.

During a high wind near Wolverhampton on June 14th two children who had been left in a perambulator were capsized into a deep pool and were drowned before assistance could be rendered.

The British people are beginning to demand a more energetic Egyptian policy from the Government. A public meeting is to be held in London this week to give vent to the feelings of discontent.

Mr. Isaac Holden, M.P., who is now in his 75th year, gave a feast to his family on one of his recent birthdays, and when they came to the table his daughters found in each of their napkins a cheque for £50,000.

It is announced that several dukes in Great Britain, and many other members of the aristocracy, with no fewer than 15 bishops, have formed themselves into an association to discourage or forbid all unnecessary expenditure at funerals. Fashion in death, as well as in life, is led by example, and the noble leaders of this new movement will best accomplish their object by going to their graves without ostentations or fuss.

In London has been founded a national society for the suppression of juvenile smoking. One of the leaders in the movement is the eminent teetotaler, Dr. Benjamin Ward Richardson. Letters in approval of the society's aims were read from the Earl of Aberdeen, Mr. Samuel Morley, and others. Dr. Richardson said the use of tobacco by the young was a grave and increasing evil, and that the effects of it on them were destructive both to mind and body.

IRELAND.

A movement which is meeting with much support is under way to have Belfast incorporated as a city.

A disease among pigs, popularly known as "soldier," has made great ravages among the hogs of the counties of Wexford and Waterford.

Mr. Trevelyan is credited with being a hard-working, energetic, and fairly successful Secretary for Ireland.

The Irish Judges have protested, for the second time, against the proposed suspension of trial by jury, and desire that their views may be made known to the Lord Lieutenant.

Three guns have been found at a lonely spot within two miles of Rahassane Park, County Galway, and there is little doubt that they were thrown away by the murderers of Mr. Rourke and his escort.

A most destructive fire raged on June 14th at Roscommon. It had its origin in an escape of gas in the Court House, and the flames spread so rapidly that a large portion of the town was destroyed.

The funeral of Corporal Wallace, who was murdered in the County Galway, took place in Dublin on June 12th with military honours. Wallace was a native of Shotts, Lanarkshire, and had been over six years in the army, in which he bore a high character. His aged mother was present at his funeral.

Some time ago, John Money, while digging in Creavesheedy bog, near Killaloe, found a shoe nineteen inches in length. It was made of one piece of green (untanned) hide; it was beautifully shaped and formed, and the sewing was from the front middle up, and at the heel. The workmanship was admirable, the leather was as thick in the upper as in the sole. In the same bog was found a quantity of tallow or bog-butter, which was sold in Ennis to a chandler.

SCOTLAND.

Lord Roseberry has offered the Duke of Hamilton one million pounds sterling for the island of Arran.

The trial of J. Nicol Fleming for complication in the City of Glasgow Bank transactions is set down for the 3rd of July in the High Court of Justiciary.

The Queen has appointed the Very Rev. Principal Tulloch, of St. Andrews, Dean of the Order of the Thistle, in place of the Rev. Dr. Macleod.

A watch which an engine driver dropped fifteen years ago was picked up at North Merchiston a few days ago little the worse of its long ambush on the track.

In addition to the large quantity of trout put into the Castle Loch at Lochmaben some years ago by Major Johnson, several hundred trout fry have just been added from Lochleven.

At a meeting of the Clyde Trust on the 6th of June it was reported that Lord Blantyre had made a claim for £100,000 for damages sustained by certain operations on the river by the Trust.

The total number of emigrants from the Clyde during May was 7,608, of whom 6,611 were for the United States, 917 for Canada, 27 for Australia, 50 for New Zealand, and 3 for other places.

The Queen has made Mr. James McNeil Caird, the well-known Scottish writer on land and agricultural topics, a Knight Commander of the Bath. The honor is well deserved.

The consignment of fresh fish by the St. Magnus to Aberdeen last week consisted of nearly 700 boxes of halibut, requiring a train of 32 railway waggons to convey it to the southern markets.

Mr. George M'Kenzie, vice-president of the Singer Sewing Machine Company, New York, and his family, are presently residing in the hotel at Kingussie. Mr. M'Kenzie is a native of the district.

A tremendeous explosion occured in the magazine of the Nobel's Dynamite Company at Irvine on the 8th of June. Peter Hughes, foreman, was blown to pieces, and considerable damage done. The concussion was felt for miles around.

On the 3rd of June a brake containing the Pathhead Brass Band dashed down a steep declivity near Largo, against a stone wall. One of the horses were killed, and the occupants of the brake, 18 in number, were all more or less injured.

Abnormally cold weather is being generally experienced throughout Scotland. Snow lies to the depth of seven inches on the Grampian mountains, the high-lying lands in the Upper Deeside, and other districts in the North of Scotland.

The International Twenty Volunteer Match took place at Cowglen, near Glasgow, on June 10th, and after an exciting struggle was won by the Scotch team with a total score of 1,753 points as against 1,735 by the English, and 1,546 by the Irish team.

A shepherd, while casting peats from a moss in the Dhu of Glengyle, on the Duke of Montrose's side of the water, came upon a wooden box which was 18 inches below the surface, and which contained two guns and three swords. It is conjectured that this "find" is a genuine relic of Rob Roy's time.

For the Review.

SEARCH THE SCRIPTURES.

"Search the Scriptures, for in them ye have eternal life, and they are they which testify of Me."—*Our Saviour.*

Search the Scriptures, let the *whole*
Book of inspiration be
Means of blessing to thy soul,
As Heaven designed for thee,
But 'twill not profit thee unless
Faith mingles with the Word to bless.

Search the Scriptures, love and fear,
With a childlike spirit meek
Blending, saying, "I will hear
What the Lord, my God, will speak."
This thy prayer at all times be,
"Lord unfold Thy truth to me."

Search the Scriptures, doing so
By the Holy Spirit's aid,
Do His will and you shall know
Of His doctrine, He hath said,
And he that will, alone can show
Who the Eternal mind doth know.

Search the Scriptures, Christ in view,
Every time you read, for He
Is the *sum* and *substance* true,
And the way to Heaven for thee.
With uplifted heart cry "Lord
Reveal Thyself through Thine own Word."

Search the Scriptures, full in sight,
Even of Mount Calvary's gloom,
Gleameth thence the eternal light
That doth ev'ry page illume.
For where God's love to us is shown,
The *knowledge* of His Glory's known.

Search the Scriptures; with the blood
To thy conscience oft applied,
Cleansed in the crimson flood,
Sin's defilement may not hide
From eyes that Satan fain would seal
The truth the Spirit will reveal.

Search the Scriptures, that the Word
In your heart firm-rooted may
In temptation's hour afford
Weapons for defence alway.
No happier way all ill to flee
Than God's own word engirdling thee.

Search the Scriptures, let them dwell
In you richly, so to be
For each good work furnished well,
Flourishing like prosp'rous tree,
Planted by riverside, whose fruit
Bears witness to the living root.

Search the Scriptures with delight
As a message from above,
Meditating day and night,
Cherish them with ardent love,
Partaking of the fount divine,
Immortal streams of bliss are thine.

Search the Scriptures with this test,
Do *I* ev'ry word *believe*,
Do *I* on Christ's merits rest—
As my Saviour him receive?
And still my prayer, "Let thy Word be
Most gracious Lord fulfilled in *me*."

E. B.

FROM ALL OVER.

Sir Theodore Martin has undertaken to write a memoir of Lord Lyndhurst, and for this purpose has been furnished by Lady Lyndhurst with letters and other documents.

There is a Chinaman in San Francisco with red hair. His countrymen treat him with superstitious respect. At the table he has the best of everything, and at all ceremonies he takes precedence.

Useless Fright.—To worry about any Liver, or Kidney or Urinary Trouble, especially Bright's Disease or Diabetes, as Hop Bitters never fails of a cure when a cure is possible. We know this.

It is announced that in consequence of the large number of suicides that have recently taken place from the platform of the Vendome column, in Paris, the public is no longer to have access to the interior of the monument.

Prof. William J. Land, a chemist of wide reputation, committed suicide in Atlanta. This was a second attempt. It is regarded as strange that he did not utilize his knowledge of chemistry to provide a painless death, instead of which he used razor and a pistol.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

Annie Louis Cary is still without a voice for anything but whispering. On the occasion of her last public appearance in her home city of Portland, Me., prior to her forthcoming marriage, she could not sing a note. Physicians tell her that she is done with vocalism for a year, if not forever.

In a betting case decided on the 8th June, in which the sum of £60 was involved, Sheriff Lees decided that in accordance with a Scotch Act of Parliament passed upwards of 250 years ago and not since repealed, all moneys in excess of 100 merks that may be won within twenty-four hours in wagers on horse races must be paid over to the poor of the parish within which the winning occurs.

The Hon. Daniel Beatty, Mayor of Washington, N. J., whose Organs and Pianos are known and used wherever there are newspapers and people, says in referrence to St. Jacobs Oil: "My brother, Capt. H. Beatty, purchased St. Jacobs Oil for the use of his wife. She was well pleased with the results it affected as it proved an excellent remedy for rheumatism, the disease from which she suffered. From my knowledge of its efficacious working I must say that St. Jacobs Oil is unequalled as a remedial substance."

Five adventurous young men have gone from San Francisco on an expedition into the unexplored eastern part of Alaska. They expect to find mineral wealth, and are prepared to spend five years in the search. They will go up the Yoakon river 1,500 miles in a chartered vessel, and then in a steam launch of their own, try to penetrate 1,200 miles further into the mountainous region.

The curates of England have been numbered by the various diocesan officers and found to number 5,640. More than three-fourths of the whole body are stationed in the province of Canterbury, the province of York, in spite of its large centres of population, needing only 1,269. In the diocese of London alone there are over 500 assistant curates, and 328 have been licensed by the Bishop of Lichfield to curacies in the back country.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

Boys' White Dress Shirts in all sizes just received at "Habiliment Hall."

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

By order,
A. P. BRADLEY,
Secretary.

Dept. of Railways and Canals, Ottawa, 20th June, 1882. d150-1aw-2l13

There is no excuse for suffering from CONSTIPATION and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S MANDRAKE BITTERS

will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the *cause*. Keep the *Stomach, Bowels, and Digestive Organs in good working order and* perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

For sale by all dealers in medicine. Send address for pamphlet, *free*, giving full directions.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1880.

Dr. B. J. Kendall & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 16th, 1880.

B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

Kendall's Spavin Cure is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal; P. Q., Wholesale Agents. d1 1wly

Sulpholine Lotion.—An External Means of Curing Skin Diseases.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

Sulpholine Lotion, a fluid peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

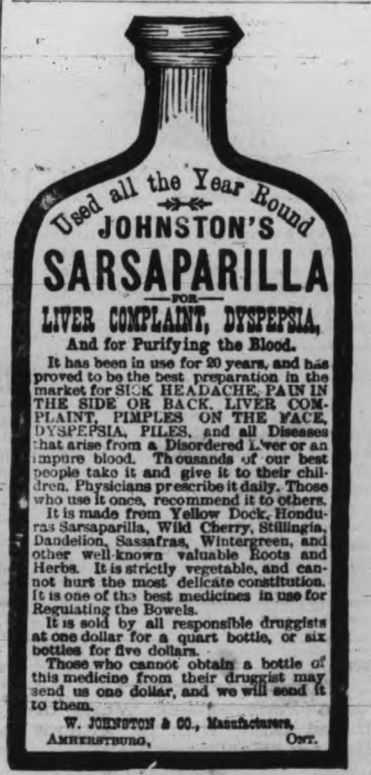
Sulpholine Lotion.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

Sulpholine Lotion.—Bottles containing nearly half a pint.—Sold by Chemists everywhere. Made in London, Eng.

LIVER COMPLAINTS.

Dr. King's Dandelion & Quinine Liver Pills (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.



In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

Pepper's Quinine and Iron Tonic strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

Pepper's Quinine and Iron Tonic rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

Taraxacum and Podophyllin.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. Pepper, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

FROM THE OLD COUNTRY

ENGLAND.

OVER 40,000 emigrants left the Mersey in the course of May, being the largest number recorded for any one month.

A LONDON grocer has been fined 20s. for selling as "raspberry jam" a substance in which no trace of raspberries was found.

THE great seal of Great Britain and Ireland is affixed to yellow wax for English documents, red for Scotch, and green for Irish.

MRS. MARY RUSSELL, of Bath, has bequeathed £105,000 to the London Diocesan Home Mission for the extension of Church of England operations in the metropolis.

DURING a high wind near Wolverhampton on June 14th two children who had been left in a perambulator were capsized into a deep pool and were drowned before assistance could be rendered.

THE British people are beginning to demand a more energetic Egyptian policy from the Government. A public meeting is to be held in London this week to give vent to the feelings of discontent.

MR. ISAAC HOLDEN, M.P., who is now in his 75th year, gave a feast to his family on one of his recent birthdays, and when they came to the table his daughters found in each of their napkins a cheque for £50,000.

IT is announced that several dukes in Great Britain, and many other members of the aristocracy, with no fewer than 15 bishops, have formed themselves into an association to discourage or forbid all unnecessary expenditure at funerals. Fashion in death, as well as in life, is led by example, and the noble leaders of this new movement will best accomplish their object by going to their graves without ostentations or fuss.

IN London has been founded a national society for the suppression of juvenile smoking. One of the leaders in the movement is the eminent teetotaler, Dr. Benjamin Ward Richardson. Letters in approval of the society's aims were read from the Earl of Aberdeen, Mr. Samuel Morley, and others. Dr. Richardson said the use of tobacco by the young was a grave and increasing evil, and that the effects of it on them were destructive both to mind and body.

IRELAND.

A MOVEMENT which is meeting with much support is under way to have Belfast incorporated as a city.

A DISEASE among pigs, popularly known as "soldier," has made great ravages among the hogs of the counties of Wexford and Waterford.

MR. TREVELYAN is credited with being a hard-working, energetic, and fairly successful Secretary for Ireland.

THE Irish Judges have protested, for the second time, against the proposed suspension of trial by jury, and desire that their views may be made known to the Lord Lieutenant.

THREE guns have been found at a lonely spot within two miles of Rahassane Park, County Galway, and there is little doubt that they were thrown away by the murderers of Mr. Rourke and his escort.

A MOST destructive fire raged on June 14th at Roscommon. It had its origin in an escape of gas in the Court House, and the flames spread so rapidly that a large portion of the town was destroyed.

THE funeral of Corporal Wallace, who was murdered in the County Galway, took place in Dublin on June 12th with military honours. Wallace was a native of Shotts, Lanarkshire, and had been over six years in the army, in which he bore a high character. His aged mother was present at his funeral.

SOME time ago, John Money, while digging in Creavesheedy bog, near Killaloe, found a shoe nineteen inches in length. It was made of one piece of green (untanned) hide; it was beautifully shaped and formed, and the sewing was from the front middle up, and at the heel. The workmanship was admirable, the leather was as thick in the upper as in the sole. In the same bog was found a quantity of tallow or bog-butter, which was sold in Ennis to a chandler.

SCOTLAND.

LORD ROSEBERRY has offered the Duke of Hamilton one million pounds sterling for the island of Arran.

THE trial of J. Nicol Fleming for complication in the City of Glasgow Bank transactions is set down for the 3rd of July in the High Court of Justiciary.

THE Queen has appointed the Very Rev. Principal Tulloch, of St. Andrews, Dean of the Order of the Thistle, in place of the Rev. Dr. Macleod.

A WATCH which an engine driver dropped fifteen years ago was picked up at North Merchiston a few days ago little the worse of its long ambush on the track.

IN addition to the large quantity of trout put into the Castle Loch at Lochmaben some years ago by Major Johnson, several hundred trout fry have just been added from Lochleven.

AT a meeting of the Clyde Trust on the 6th of June it was reported that Lord Blantyre had made a claim for £100,000 for damages sustained by certain operations on the river by the Trust.

THE total number of emigrants from the Clyde during May was 7,608, of whom 6,611 were for the United States, 917 for Canada, 27 for Australia, 50 for New Zealand, and 3 for other places.

THE Queen has made Mr. James McNeil Caird, the well-known Scottish writer on land and agricultural topics, a Knight Commander of the Bath. The honor is well deserved.

THE consignment of fresh fish by the St. Magnus to Aberdeen last week consisted of nearly 700 boxes of halibut, requiring a train of 32 railway waggons to convey it to the southern markets.

MR. GEORGE M'KENZIE, vice-president of the Singer Sewing Machine Company, New York, and his family, are presently residing in the hotel at Kingussie. Mr. M'Kenzie is a native of the district.

A TREMENDEOUS explosion occured in the magazine of the Nobel's Dynamite Company at Irvine on the 8th of June. Peter Hughes, foreman, was blown to pieces, and considerable damage done. The concussion was felt for miles around.

ON the 3rd of June a brake containing the Pathhead Brass Band dashed down a steep declivity near Largo, against a stone wall. One of the horses were killed, and the occupants of the brake, 18 in number, were all more or less injured.

ABNORMALLY cold weather is being generally experienced throughout Scotland. Snow lies to the depth of seven inches on the Grampian mountains, the high-lying lands in the Upper Deeside, and other districts in the North of Scotland.

THE International Twenty Volunteer Match took place at Cowglen, near Glasgow, on June 10th, and after an exciting struggle was won by the Scotch team with a total score of 1,753 points as against 1,735 by the English, and 1,546 by the Irish team.

A SHEPHERD, while casting peats from a moss in the Dhu of Glengyle, on the Duke of Montrose's side of the water, came upon a wooden box which was 18 inches below the surface, and which contained two guns and three swords. It is conjectured that this "find" is a genuine relic of Rob Roy's time.

For the Review.

SEARCH THE SCRIPTURES.

"Search the Scriptures, for in them ye have eternal life, and they are they which testify of Me."—*Our Saviour.*

Search the Scriptures, let the *whole*
Book of inspiration be
Means of blessing to thy soul,
As Heaven designed for thee,
But 'twill not profit thee unless
Faith mingles with the Word to bless.

Search the Scriptures, love and fear,
With a childlike spirit meek
Blending, saying, "I will hear
What the Lord, my God, will speak."
This thy prayer at all times be,
"Lord unfold Thy truth to me."

Search the Scriptures, doing so
By the Holy Spirit's aid:
Do His will and you shall know
Of His doctrine, He hath said,
And he that will, alone can show
Who the Eternal mind doth know.

Search the Scriptures, Christ in view,
Every time you read, for He
Is the *sum* and *substance* true,
And the way to Heaven for thee.
With uplifted heart cry "Lord
Reveal Thyself through Thine own Word."

Search the Scriptures, full in sight,
Even of Mount Calvary's gloom,
Gleameth thence the eternal light
That doth ev'ry page illume.
For where God's love to us is shown,
The *knowledge* of His Glory's known.

Search the Scriptures; with the blood
To thy conscience oft applied,
Cleansed in the crimson flood,
Sin's defilement may not hide
From eyes that Satan fain would seal
The truth the Spirit will reveal.

Search the Scriptures, that the Word
In your heart firm-rooted may
In temptation's hour afford
Weapons for defence alway.
No happier way all ill to flee
Than God's own word engirdling thee.

Search the Scriptures, let them dwell
In you richly, so to be
For each good work furnished well,
Flourishing like prosp'rous tree,
Planted by riverside, whose fruit
Bears witness to the living root.

Search the Scriptures with delight
As a message from above,
Meditating day and night,
Cherish them with ardent love,
Partaking of the fount divine,
Immortal streams of bliss are thine.

Search the Scriptures with this test,
Do *I* ev'ry word *believe*,
Do *I* on Christ's merits rest—
As my Saviour him receive?
And still my prayer, "Let thy Word be
Most gracious Lord fulfilled in *me*."

E. B.

FROM ALL OVER.

SIR THEODORE MARTIN has undertaken to write a memoir of Lord Lyndhurst, and for this purpose has been furnished by Lady Lyndhurst with letters and other documents.

THERE is a Chinaman in San Francisco with red hair. His countrymen treat him with superstitious respect. At the table he has the best of everything, and at all ceremonies he takes precedence.

USELESS FRIGHT.—To worry about any Liver, or Kidney or Urinary Trouble, especially Bright's Disease or Diabetes, as Hop Bitters never fails of a cure when a cure is possible. We know this.

IT is announced that in consequence of the large number of suicides that have recently taken place from the platform of the Vendôme column, in Paris, the public is no longer to have access to the interior of the monument.

PROF. WILLIAM J. LAND, a chemist of wide reputation, committed suicide in Atlanta. This was a second attempt. It is regarded as strange that he did not utilize his knowledge of chemistry to provide a painless death, instead of which he used razor and a pistol.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

ANNIE LOUIS CARY is still without a voice for anything but whispering. On the occasion of her last public appearance in her home city of Portland, Me., prior to her forthcoming marriage, she could not sing a note. Physicians tell her that she is done with vocalism for a year, if not forever.

IN a betting case decided on the 8th June, in which the sum of £60 was involved, Sheriff Lees decided that in accordance with a Scotch Act of Parliament passed upwards of 250 years ago and not since repealed, all moneys in excess of 100 merks that may be won within twenty-four hours in wagers on horse races must be paid over to the poor of the parish within which the winning occurs.

THE Hon. Daniel Beatty, Mayor of Washington, N. J., whose Organs and Pianos are known and used wherever there are newspapers and people, says in reference to St. Jacobs Oil: "My brother, Capt. H. Beatty, purchased St. Jacobs Oil for the use of his wife. She was well pleased with the results it affected as it proved an excellent remedy for rheumatism, the disease from which she suffered. From my knowledge of its efficacious working I must say that St. Jacobs Oil is unequalled as a remedial substance."

FIVE adventurous young men have gone from San Francisco on an expedition into the unexplored eastern part of Alaska. They expect to find mineral wealth, and are prepared to spend five years in the search. They will go up the Youkon river 1,500 miles in a chartered vessel, and then in a steam launch of their own, try to penetrate 1,200 miles further into the mountainous region.

THE curates of England have been numbered by the various diocesan officers and found to number 5,640. More than three-fourths of the whole body are stationed in the province of Canterbury, the province of York, in spite of its large centres of population, needing only 1,269. In the diocese of London alone there are over 500 assistant curates, and 328 have been licensed by the Bishop of Lichfield to curacies in the back country.

J. Werts & Son, Freedomville, Ohio, write:—"This informs you that we have sold all those Baxter's Mandrake Bitters you sent us. We sold the last three bottles to-day. Two of our customers disputed about which should have the last bottle, and we decided the matter by promising to send for more at once. The Bitters give universal satisfaction to all who have tried them. We want you to send us twelve dozen forthwith." Baxter's Mandrake Bitters never fail to cure all diseases of the Stomach, Liver and Bowels. 25 cents per bottle. Sold by all dealers in medicine.

Boys' White Dress Shirts in all sizes just received at "Habiliment Hall."

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

NOTICE TO CONTRACTORS.

THE LETTING of the works for the FENELON FALLS, BUCKHORN and BURLEIGH CANALS, advertised to take place on the fifth of July next, is unavoidably postponed to the following dates:—

Tenders will be received until WEDNESDAY, THE SECOND DAY OF AUGUST NEXT.

Plans, specifications, &c., will be ready for examination (at the places previously mentioned) on SATURDAY, THE FIFTEENTH DAY OF JULY NEXT.

By order,
A. P. BRADLEY,
Secretary.

Dept. of Railways and Canals, Ottawa, 20th June, 1882. d150-law-2t.13

There is no excuse for suffering from CONSTIPATION and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S MANDRAKE BITTERS

will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the *cause*. Keep the *Stomach, Bowels, and Digestive Organs in good working order and* perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle; or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1wly

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

OPENED OUT!

BOATING SHAWLS.

PIC-NIC WRAPS.

MUNRO & ALEXANDER.

Daily Evening Review

TUESDAY, JULY 4, 1882.

LOCAL AND MUNICIPAL.

Board of Education.

A regular monthly meeting of the board of Education will be held this evening, in the Collegiate Institute building, at 7.45 o'clock.

County Court.

A special sitting of the County Court was held on Monday, Judge Dennistoun presiding. James Rierdan, who was charged with assaulting Julia Newton, and elected to be tried by the Judge, was found guilty and committed to gaol for one month.

Railway Notes.

The Omemee *Herald* says:—

"Two gangs of men have been put on the missing link to run the steam shovel night and day at the big cut near Doube's. The work of excavation is progressing very rapidly. Many of our villagers have taken a trip to the scene of operation and they are loud in praise of the sights to be seen. The work of cutting along Elm street is a heavy piece of work and is rather slow."

A New Departure.

The *Canadian Manufacturer and Industrial World* takes what it describes as a "new departure." In future it will be published weekly instead of fortnightly, and will deal not only with manufactures, but with finance and commerce in all their branches, so as to make it a complete business man's paper. We wish it continued and increasing success.

Legislation Extraordinary.

An instance of the extraordinary powers possessed by the License Commissioners was brought up in the Town Council on Monday night. The Council granted Mr. Bell a license for a pigeon hole table in March last, but the License Commissioners ordered the table to be removed, and refused Mr. Bell a liquor license until this demand was complied with, thus overriding the action of the Council. As remarked by Councillor Rutherford, it is a strange law which gives one body power to grant a license and receive money in payment for it, and another body power no annul the license.

Cricket Match.

A cricket match was played at Port Hope on Saturday between Trinity College School and the Peterborough eleven, resulting in favor of the school by an innings and 7 runs. It could hardly be said that it was a Peterborough *eleven* as after numbering off at the station two or three times they found five was the highest they could rally, but thought it better to take that number than disappoint the College by not turning up, and here it might be said that those who have already made themselves conspicuous by their absence at matches after promising to be on hand, and keeping others from taking their place were up to their usual peculiarities, one in particular, even going so far as to take some of the cricket material home with him the night before and making it necessary for those who played to borrow pads, &c., from the school, and in future we would suggest that those who don't wish to play would say so and give others a chance who, no doubt, would do just as well and perhaps better.

TOWN COUNCIL MEETING

A BY-LAW PASSED IN REFERENCE TO THE WATERWORKS.

The Remission of Taxes Discussed—The License Commissioners and the Town Council—Sanitary Matters—The "Missing Link"—Forestalling not Practiced—Communications, etc.

A meeting of the Town Council was held on Monday evening.

Present—His Worship the Mayor, Councillors Cahill, McNaughton, Wilson, Rutherford, Menzies Denne, Richardson, Paterson, Kelly and Alford.

The minutes of the previous meeting were read and confirmed.

COMMUNICATIONS.

From the License Commissioners of West Peterborough, submitting a statement of the amount of the license fund due to the Town.—Finance Committee.

From A. T. Smith, agent for the Bell Telephone Company, asking the Council to sanction his action of putting up poles on Water Street.

From Thomas Bradburn, with reference to a portion of Stewart Street, which he had been notified to open, and offering to pay for it at a valuation to be named by arbitrators, or to pay rent for it.—Committee of the Whole.

From Richard Hall and forty-two others, asking for street improvements.—Street and Bridge Committee.

From E. B. Edwards, with reference to the case of McGhee vs. Bradburn.

ACCOUNTS.

J. M. Irwin	$ 1 67
George Barry, board for indig't woman	5 00
Fire Brigade, filling tanks	7 00

The last account was ordered to be paid, and the other two were referred to the Finance Committee.

TELEGRAPH AND TELEPLONE.

It was moved by Councillor McNaughton, seconded by Councillor Cahill,—That A. T. Smith's communication be referred to the Street and Bridge Committee, and that the Great Northwestern Telegraph Company be notified to remove their poles from George Street.—Carried.

PRINTING.

Councillor Menzies presented the report of the Printing Committee, recommending that the account of the *Times* Printing Company ($30.51) be paid.—Adopted.

FINANCE COMMITTEE.

Councillor Paterson read the report of the Finance Committee, which was as follows:—

To the Mayor and Council of the Town of Peterborough:

Gentlemen,—The Finance Committee beg leave to report, and recommend the payment of the following accounts:—

Peterborough Gas Company	$11.70
" " "	9.60
Edg. Pearce, County Treasurer	15.70

The Committee have examined the communication of Wm. Cummings, recommending remission of taxes to William Course, Louis Burgoyne, Wm. J. Rierdan and John Phelan, and cannot recommend the remission of taxes to the parties named. In the case of Thos. Robinson, we find that a petition asking for remission of taxes was received and referred to the Charity Committee.

In the case of Dr. Taylor, asking remission of arrears of taxes, your committee recommend that $3.58 be refunded him, that being the 10 per cent. added yearly.

In the case of Alex. Graham, your committee recommend that $43 be refunded him on a account of a deposit of $51, together with the balance of costs, amounting to the further sum of $41.25.

All of which is respectfully submitted.

W. Paterson, Jr.,
Chairman.

Councillor Cahill moved in amendment to the report that Wm. Course's taxes be remitted. He said that four years ago Mr. Course was unable to pay his taxes, and since then 10 per cent. had been added yearly, and if it was unjust to collect them at that time, it was doubly wrong to do so now.

Councillor Rutherford said that the committee had found that Coursa had paid his taxes to Mr. Chamberlain, and, besides, he should be able to pay his taxes because he was able to work.

Councillor McNaughton thought that if it is was right to collect these taxes now, the collector and council had neglected their duty in not collecting them at the time. No one would like to see a poor man's traps sold, and if the man had faults his family should not be made to suffer on that account. He would support referring it to the Charity Committee.

Councillor Richardson said that any man strong and in health should be compelled to pay his taxes.

Councillor Denne said a resolution had been passed that no taxes be remitted, and that the Charity Committee would not be backward in giving assistance to those who needed it.

Councillor Cahill, on the strength of Councillor Rutherford's statement that Course had paid the taxes to his landlord, withdrew the amendment and the report was adopted.

THAT PIGEON-HOLE TABLE.

Councillor Rutherford read the report of the License Committee, as follows:—

To the Mayor and Council of the town of Peterborough.

Gentlemen,—The License Committee beg leave to report, that in regard to the petition of Wm. Bell, asking for a rebate of thirty dollars on his pigeon-hole table license, your committee recommend that the same be not granted.

A. Rutherford,
Chairman.

Councillor Rutherford said that if the council refunded the money, Mr. Bell could still use the table at any time during the year. Besides the License Commissioners had no right to dictate to this council.

Councillor Menzies said that were this petition granted, any of the men who had licenses for tables might find business slack and ask the council to refund their money. The License Commissioners had no right to say to this council what they should license or what they should not license.

Councillor Kelly said that the License Commissioners had refused Mr. Bell a liquor license until the table was removed. Mr. Bell had paid his money and had not received value for it; he was quite willing to pay the money if allowed to use the table.

Councillor Richardson said that Mr. Bell had accepted the liquor license rather than the license for the pigeon-hole table and ran the risk of getting his money back.

Councillor McNaughton denounced pigeon-hole tables in strong terms. No man's money, he said, should be taken unless he received value for it. It was like taking the money out of Mr. Bell's pocket.

It was moved in amendment by Councillor Cahill, seconded by Councillor Alford,—That a *pro rata* amount of the license money paid by Mr. Bell for the pigeon-hole table be refunded to him, as soon as he delivers up to the town clerk the license for the said table.

Councillor Cahill said that as soon as Mr. Bell delivered up the license he could not use the table. The License Commissioners were masters of the situation, and the council must "grin and bear it."

The Mayor, in reply to Councillor Wilson, said the Commissioners had the power to refuse the license on the ground on which they did.

Councillor Rutherford thought it strange that the council had the right to license pigeon-hole tables and another body had the power to order their removal. He claimed that the council had no right to refund the money.

It was moved by Councillor Menzies, in ammendment to the amendment, seconded by Councillor Paterson,—That the report be referred back to the Committee to ask the License Commissioners, and the Inspector for the West Riding of the County, whether they had refused a liquor license to Mr. Bell unless this table was done away with, and to report at the next meeting of the Council.

The amendment to the amendment was carried.

COURT OF REVISION.

Councillor Rutherford read the following report of the Court of Revision:—

To the Mayor and Council of the Town of Peterborough:

Gentlemen,—The Court of Revision begs leave to report as follows:—

1. That the petition of Jas. Z. Rogers be not granted.

2. That the petition of H. C. Strickland be not granted.

3. That the petition of E. W. Murphat be granted, and that the sum of $4.44 be refunded to him.

4. That the Court of Revision received a petition from the Rev. Mr. Bennett, asking exemption on his property to the extent of $16. Your Committee recommend that the same be not granted.

All of which is respectfully submitted,

A. Rutherford,
Chairman.

FIRE, WATER AND GAS.

Councillor Rutherford read the report of the Fire, Water and Gas Committee, stating that the solicitor had been instructed to prepare a By-law in accordance with the letter of Mr. Hatton, Secretary of the Waterworks Company.—Received.

WATERWORKS.

A petition was read from M. Graham and others, asking to have the waterworks pipes laid down on Dublin Street.—Fire, Water and Gas Committee, with power to act.

Councillor Rutherford introduced a By-law amending the Waterworks By-law, which was read a first time.

The Council went into Committee of the Whole on the By-law, Mr. Menzies in the chair.

The By-law provides that the Waterworks Company should complete the main on George Street as far south as Sherbrooke Street, but that the pipes need not be extended at present to Wolf Street, the Council, however, reserving the right to call upon the Company at any future time to fulfil the terms of the previous By-law.

The By-law was passed in Committee and the report of the Committee adopted. It was then read a second and third time, and finally passed.

THE CLOSED STREETS.

Councillor Wilson asked that his notice of motion with reference to opening the streets, be allowed to stand over.—Granted.

SANITARY.

Councillor Cahill moved, seconded by Councillor Alford,—That the Health Committee be instructed to report at once on the communication of the Provincial Board of Health, and that particular attention be directed to Spaulding's Bay.—Carried.

THE "MISSING LINK."

Councillor Paterson moved, seconded by Councillor Rutherford,—That the question of the Midland Railway building the Omemee branch through this town, be referred to the Street and Bridge Committee, with power to consult the Town Solicitor, and to see that the interests of the town and ratepayers were protected, and with power to act on the advice obtained.

Councillor Paterson referred to a curve in the line near Brock street, which would be a dangerous place.

After a slight discussion the motion was carried.

FORESTALLING.

Councillor Rutherford asked how it was that dealers were allowed to buy produce on the market before the proper time?

Mr. Beavis, Market Inspector, denied that forestalling was practised, and said that the farmers held their produce back until after 11 o'clock, so as to secure competition.

The Council then adjourned for four weeks.

Our Balbriggan Underwear are the admiration of all who see them. All sizes at "Habiliment Hall."

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

TRENT NAVIGATION.

FENELON FALLS, BUCKHORN RAPIDS AND BURLEIGH CANALS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Trent Navigation," will be received at this office until the arrival of the Eastern and Western Mails on WEDNESDAY, THE FIFTH DAY OF JULY NEXT, for the construction of two Lift Locks, Bridge Piers and other works at Fenelon Falls; also, the construction of a Lock at Buckhorn Rapids, and for the construction of three Locks, a Dam and Bridge Piers at Burleigh Falls.

The works at each of these places will be let separately.

Maps of the respective localities, together with plans and specifications of the works, can be seen at this office on and after WEDNESDAY, THE TWENTY-FIRST DAY OF JUNE NEXT, where printed forms of Tender can be obtained. A like class of information relative to the works at Fenelon Falls will be furnished at that place, and for those at Buckhorn and Burleigh, information may be obtained at the resident Engineer's office, Peterborough.

Contractors are requested to bear in mind that Tenders for the different works must be accompanied by an accepted bank cheque, as follows:—

For the Fenelon Falls work	$1,000
" Buckhorn Rapids work	500
" Burleigh Falls work	1,500

And that these respective amounts shall be forfeited if the party tendering declines entering into contract for the works at the rates and prices submitted, subject to the conditions and terms stated in the specifications.

The cheques thus sent in will be returned to the different parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN,
Secretary.

Department of Railways and Canals,
Ottawa, 22nd May, 1882. d127-3t11

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Travel.

Daily Evening Review

WEDNESDAY, JULY 5, 1882.

STEAMBOAT DISASTER.

A Steamboat Collision on the Ohio River—Many Lives Lost.

Special to the Review.

MINGO JUNCTION, Ohio, July 5.—It is impossible to ascertain the number of lives lost in the steamboat disaster last night. Captain Thomas and his son Dan is missing; a deck hand, name unknown, was also drowned from the Sciota. The rest of the crew are safe, the first man taken out of the water being watchman Charles McCoy. The Lomas struck the Sciota in port fifteen feet from the bow, through which the hull filled rapidly, and sank at once. The boat is now lying in the bottom of the river. The water is two feet deep in the cabin. Charles Page, assistant engineer on the Scotia, said:—"We started from East Liverpool at 6.30 yesterday morning, with a large excursion party off for the fourth of July. We went as far down the river as Mounds, arriving there about 1.30 p.m. After lying there two hours, we started for home, stopping at Wheeling and Martins. People hailed us all along the river, but the captain said we had enough on board and refused to take anymore, except at Steubenville, where we took on several. When we collided with the Lomas, as near as I can judge from what I heard the people saying, we had on board four-hundred persons at least, probably five hundred. I was on watch at the time of the accident, and when the boats whistled for passing I noticed that there was something wrong, but thought nothing of it and stepped out on the deck for a second, when I saw the Lomas right on us. I rushed back to my engine and obeyed the bell to go back, which was at once followed by the bell to stop, and then, seeing that the boat was fast sinking, the engineer and I threw the skiff into the river and then I ran after my coat. When I got back the skiff was so full of panic stricken people that I knew it would sink. I jumped into the river and struck out for the West Virginia shore. In looking around me as I swam, I saw a sight that fairly took my life out of me. The water was black with struggling humanity, and the expression of their faces was the most terrible you can imagine. Men, women and children were crying piteously for help, and some of the screams so unnerved me that I could scarcely swim; but the current was strong, and as I struck out with all my might, I soon got out of sight of the crowd in the water, there being but two boys near me who managed to reach the shore safely with a little help from me. We swam about a mile altogether, and when we reached the shore it was almost impossible for any of us so stand up. As to how many were lost, I can form no idea. I know not what caused the accident, nor who is to blame."

POLICE COURT

DRUNK.

WEDNESDAY, July 5.—Wm. O'Brien was charged by P. C. McGhee with being drunk in a public place on Tuesday. He pleaded guilty, and said he intended to go out of town.

The Magistrate said it would not be safe to let him go out of town in his present nervous condition, and committed him to gaol for two weeks to give him time to sober up.

A Large Drive.

One of the largest if not the largest drive that ever passed through Peterborough is at present running down the river. It is a joint affair, the logs being owned by Messrs. Rathbun and Ullyott and Saddler, and number about 180,000 pieces. The camps of both firms are on the bank of the lake, and during the last few days they have been visited by a large number of people, who have enjoyed the hospitality of the foremen in the shape of pork and beans, etc. Mr. James Lynch, one of the best men on the river, has charge of Ullyott's drive, and Mr. J. Callahan has charge of the other. Among other attractions, Mr. Lynch has two fine black bear cubs that afford any amount of amusement to visitors.

Swimming Trunks, Lacrosse Belts and shoulder Braces will be found at "Habiliment Hall."

MIDNIGHT TELEGRAMS

CABLE.

DEFEATED.

LONDON, July 4.—In the House of Lords today the Duke of Argyll's Parliamentary Oaths bill was defeated by 138 to 62.

THE REPRESSION BILL.

LONDON, July 4.—In the House of Commons to day Mr. Gladstone renewed his motion declaring urgency for the Repression bill, and it was carried by 402 to 19. Mr. Justin McCarthy read a resolution adopted by the Irish members declaring that in consequence of their expulsion, and the passage of the bill through committee in their absence, they would now leave the House, declaring the bill unconstitutional, and would not further participate in the debate on the bill in committee. All then quitted the chamber, except Messrs. Biggar, Collan, Sheil, and Metge. Mr. Gladstone stated that if the postponed clauses of the bill were passed in committee, the Arrears' bill could be taken up to-morrow. The Speaker presented a new rule for use during urgency, that if a committee decide by 3 to 1 majority that a question be put the question shall be put forthwith. The substitute for the nineteenth clause of the Repression bill was carried, Messrs. Biggar, Callan, Metge and Richard Power being the only members opposing it. The Government clauses, for the trial by special juries of criminal cases, and inflicting a fine of £20 on special jurors not attending, were passed.

ANOTHER MURDER.

DUBLIN, July 4.—Another dreadful murder occured here early this morning, Shortly after one o'clock intelligence was conveyed to the Summerhill police station that a man had been found in Seville place, who had died from the effects of a bullet wound. The place is in the vicinity of the arches supporting the Great Northern railway. A gentleman states that he heard an altercation between three men, and supposed it to be a street brawl. Then he heard a sound as of a blow from a stick. A man cried out "Don't!" and immediately there was the report of four revolver shots heard. One of the men then fell to the ground, and the others ran away. The shots attracted many people to the spot. The man was at first on his hands and knees, and was unable to speak; he then dropped forward and died at once. The police conveyed his body to the Jersey street hospital, where an examination showed that the man was apparently of the artisan class, but was poorly clad. His body was strongly built. The victim was about thirty years old. He wore an overcoat in tolerably good condition, but his undercoat was very much tattered. The overcoat was singed, which showed that the shots had been fired in close proximity to him. There were four bullet wounds, one in the centre of the back, two on the back of the head, and one other on the left side. There were also seven stab wounds, as if from a knife, in the region of the heart. The man wore a belt, the clasp of which represented a sunburst surrounded by the words "God Save Ireland." He also had a memorandum book in his pocket, but it contained no clue to his name or address. The murdered man was afterwards identified as John Keeny, a dock labourer residing off Oriel street. He leaves a wife and two children. He left his home under the influence of drink shortly after eleven o'clock last night in company with a man who wished him not to go out. Nineteen minutes afterwards he was a corpse. It is believed that the assassins awaited him under the shadow of the railway arches. Four years ago the deceased was arrested for having a revolver without a license.

EXCITING RUMOUR.

LONDON, July 4.—There is reason to believe that military action will be taken in Egypt probably within twenty-four hours. The Cabinet this afternoon consulted the commander-in chief of the army. It is rumoured in the lobby of the House of Commons that Alexandria will be immediately bombarded.

NIHILISM.

ST. PETERSBURG, July 4.—Two Uhlan officers found distributing proclamations have been arrested. They were among those specially charged to protect the Emperor. Count Tolstoi has been threatened and is constantly guarded. Additional precautions have been taken at the Peterhof palace.

ARRIVED.

LONDON, July 4.—The Canadian riflemen have arrived in England.

MEETING OF EMPERORS.

BERLIN, July 4.—It is reported that the Emperors of Germany and Austria will meet at Gastem.

TO BE RESTORED.

LONDON, July 4.—The Colonial Secretary made a statement in the House of Lords to-day apparently indicating that Cetewayo's visit to England will be a prelude to his restoration to the Zulu throne.

THE LOUGHREA MURDER.

DUBLIN, July 4.—A large number of arrests were made early this morning at Loughrea of persons suspected of being connected with the murder of Mr. Bourke and his escort and of Mr. Blake and his servant.

THE BULGARIAN CRISIS.

ST. PETERSBURG, July 4.—The General Skobeloff who has been appointed Minister of the Interior in Bulgaria is probably merely a namesake of the famous Russian general, as nothing indicates that the latter has quitted his command at Minsk.

CRIME BILL PASSED.

LONDON, July 4.—At ten minutes past one o'clock this morning the Crimes bill was passed through the committee stage and ordered for report.

THE DUBLIN MURDER.

DUBLIN, July 4.—Kenny, the man murdered in Dublin to-day, was fired at two years ago as an informer. A man named Poole has been arrested with two others in connection with the murder. The police believe the arrest of Poole is important outside the present case.

PEACE OVERTURES.

ALEXANDRIA, July 4.—The Raghab Ministry returned from Cairo to-day. Some say that certain overtures will be made to Europe in view of a settlement of the difficulty.

GRANT VOTED.

PARIS, July 4.—The French Chamber of Deputies has voted a grant of 19,000,000 francs to defray the cost of the expedition to Tunis during the second half of 1882.

THE SUEZ CANAL.

LONDON, July 4.—M. de Lesseps, replying to a deputation of the International Peace Association, deprecated the attempt of England to disembark troops in Egypt or to make a naval demonstration at the mouth of the Suez Canal. He was assured that there was no danger to the canal unless the people were excited by the interference of foreign powers.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

FURTHER INSTRUCTIONS.

LONDON, July 5.—In the House of Commons, it was stated that further instructions had been sent to Admiral Seymour in regard to the forts at Alexandria, so that he could meet any continuency.

GETTING READY.

LONDON, July 5.—Notices have been sent from the War Office to sixty-one towns in the Kingdom, ordering some military authorities to prepare for the immediate calling out of the reserves. It is believed that summonses will be issued before the end of the week.

THE CONFERENCE.

PARIS, July 5.—If is said that the Conference will probably decide to-day to formally request the Porte's intervention in Egypt. The principle of collective action has been already resolved upon. If the Porte refuses to consent to the proposed conditions, and if its execution becomes necessary, it is probable that several powers will participate, but the share of England will be greater than that of any other power.

THE PORTE'S INTENTIONS.

LONDON, July 4.—The *Times* confirms the statement that the Porte has signified its intention to be guided by the views of the conference and that Turkish troops will be sent to Egypt to re-establish the *status quo* under the direction of the powers. It is clear, however, that there is a disagreement regarding the conditions of the Turkish intervention.

AMERICAN.

KILLED BY A TRAIN.

JERSEY CITY, July 5.—Matilda Steinbruner and Georgina Neckert, who were injured by a train while crossing the track in a carriage at Secacus Crossing on Friday, died yesterday. Freeholder Steinbruner, who was injured at the same time, is dying.

FIRE.

COHOOSE, July 5.—Three buildings were burned yesterday. The families had barely time to escape. Loss, seven thousand dollars.

NEW OIL WELL.

PITTSBURG, July 5.—A new oil well in the New Warren field is flowing three thousand barrels a day.

ANOTHER VICTIM.

NEW YORK, July 5.—John Mitchell, the sixth victim of the railway disaster near Long Branch the other day, died yesterday.

AN OLD FEUD.

LEXINGTON, N. C., July 5.—A desperate encounter occured here in the street between Charles Thompson and Baxter Shimwell, both prominent men, each assisted by friends. Shimwell was shot twice and afterwards died. An old feud was the cause.

REFUNDING.

WASHINGTON, July 5.—It is stated that Folger thinks there will be an immediate lively demand for the new three per cents, as soon as the Bank Charter bill authorizing the issue of the same becomes law. He will not be surprised to see the sales of the first week reach fifty millions. The remarkable success which has attended all the refunding efforts of the Government has given rise to speculation as to the possibility of refunding the outstanding fours, redeemable twenty-five years hence.

FREIGHT SHIPPING.

NEW YORK, July 5.—The strike of the freight handlers is unchanged. The report that the demand of the strikers would be granted this morning was false. To-day has not been a heavy shipping day and lines of trucks waiting to be unloaded at the various depots are not so long. The railroad officials express satisfaction with the new employees.

PORT HOPE.

HORSE KILLED.—The *Guide* says that a valuable horse was killed on Saturday, in the town park by the shaft of a buggy running into it. A subscription was taken up on the ground and considerable money raised to reimburse the owner, Mr. J. Glendenning, of Brighton, who had been offered, it is said, $900.00 for the animal.

$100 REWARD is offered for any case of Cattarah that can't be cured with Hall's Cattarah Cure. Taken internally. Price 75 cents.

BRIGHT'S DISEASE of the Kidneys, Diabetes and other diseases of the Kidneys and Liver, which you are being frightened about, Hop Bitters is the only thing that will surely and permanently prevent and cure. All other pretended cures only relieve for a time and then make many times worse.

POINT ST. CHARLES.—Wm. Cullahan, Water Police, 206 St. Etienne street, Montreal, says Dr. Smith's Great German Worm Remedy was a decided success in his family. Had tried other worm remedies and doctors for four years without success. 25 cents—of John McKee, druggist, Peterborough.

The exemption of several individuals from Typhoid Fever, which recently prevailed, very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

Mothers! Mothers!!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w6

Daily Evening Review

WEDNESDAY, JULY 5, 1882.

THE ONTARIO ELECTIONS.

THE Hamilton *Spectator* announces upon what it states to be "most reliable authority" that the Ontario Government has decided to dissolve the Legislature, and bring on a general election for this Province at the earliest possible moment. Its information may be reliable, but we must confess we doubt it. We doubt it, not because our political opponents are incapable of now doing themselves what they so strenuously condemned in Sir John Macdonald a few days ago, namely, the bringing on of a general election a year before its time, and upon such short (?) notice: not because they have no good, much less sufficient excuse, for bringing it on at the present time; not because no more inconvenient season of the year could be selected for such a contest than any time during the next three months, but simply because we fail to see wherein Mr. Mowat is likely to secure any political advantage by so doing.

In going to the electorate before the ordinary time, as it is alleged Mr. Mowat proposes to do, a reason of some kind must be assigned. What reason could Mr. Mowat assign, that, upon the ablest chancery pleading, would justify such a course? It could not be that he had not a sufficient following in the Legislature as now constituted to enable him and his colleagues to pursue any policy they may deem proper; it could scarcely be that he wants the people for a second time to pass judgment upon the boundary business or the Streams Bill; or if he does, in what form does he now propose to submit these questions to the electorate? In the recent campaign the people of Ontario have by a considerable majority declared in favour of the Dominion Government's policy on these questions and against that of Mr. Mowat. Does he expect them to reverse that decision on a second appeal, and if he does whither does he propose such a decision shall lead? Does he propose to appeal to the people of Ontario, on his "fighting policy" with regard to the boundary, and if he does how does he propose to carry the war into Africa if they should give a favourable reply to his appeal? Does he propose if re-endorsed by the people of this Province, to hang the Boundary issue up until another general election for the Dominion comes round five years hence, or does he propose to send Mr. Hay up to take possession by force, or does he, seeing that the Dominion authorities have obtained from the people of Ontario an endorsation of their policy at least equally as good as any which Mr. Mowat can obtain of his, propose to settle this matter, as it might long ago have been settled had he been so disposed, by consenting to its reference to the judicial committee of the Privy Council? If the latter be his policy, he need not have a general election to whip his followers into line, while he is certain of the support of his opponents. If either of the two first possibilities be his "little game" the people should be so informed in order that they may think twice before they enter upon a policy which cannot but prove disastrous to both the Province and the Dominion.

Then with regard to the Streams Bill, the position is much the same. Ontario is certainly, if the late elections are to be accepted as an indication of public opinion, not in favor of doing away with the right of disallowance, and the cry of "Provincial rights" did not take worth a cent. Moreover, Mr. Mowat will learn, whether the elections take place before or after another session of the legislature, that he will have to answer for, what Mr. Blake was so careful to shirk in his Peterboro' speech, the merits of the Rivers and Streams Bill, and that is one issue which he will find it more difficult to defend than the utterance of a bundle of meaningless platitudes about Provincial rights. And if it be not on either of these two questions that Mr. Mowat proposes, if he does propose, to appeal to the people, what then? Can it be that for once he is going to play the part of a man, and accept the result of the Dominion elections in this Province as a pretty broad hint that the services of himself and his colleagues are no longer required? If so we shall be glad of it, but we would suggest that in doing so he should consult the convenience and interests of the great mass of the people so far as to postpone the conflict until after harvest—until a period sufficiently late to afford time for public discussion after the farmers busy season is over, and before polling day. If Mr. Mowat and his friends do not fear discussion, they will do so; if they do not desire it, if they wish to take the electorate at a disadvan and steal a march upon them, why they will bring them on at the time suggested, but, as we said before, we incline to think they will do neither, but instead, hold on where they are for another year, in the hope that in the meantime something will turn up that will improve a position which even the most sanguine of their friends cannot deem over-secure. However, let these elections come when they may, we should prepare for the struggle forthwith. Eternal vigilance is the price of liberty, and certainly if ever the truest and dearest liberties of a free people were at stake in a contest, the liberty and freedom of the people of Ontario will be at stake in the coming contest. A Government which can, through its agents, use the public money, as has been done by the Mowat Government in this county during the recent contest, to coerce and bribe the electors into voting against their honest convictions, is equal to strangling every liberty that is not tributary to its own aggrandizement, and should be hurled from power on the first opportunity.

THE ONTARIO GOVERNMENT.

The following appears in the Toronto *World*:

SIR,—I wish to bring before your readers a few reasons why many think there should be a change of government in Ontario, and I trust the independent nature of the *World* will permit of the publication of the same.

First, the Mowat government have so thoroughly identified themselves with the free trade minority in this province (and now for the second time, though on the first occasion protection had not been proved to be a great benefit) that it would be very inconsistent that they should be supported by any one in favor of our national policy (as the *World* appears to be) and thus be aided in retaining a position wherein they could again exercise so great an influence against that policy.

Second, we need and must have an economical government. The present Ontario government if not really an extravagant one is not an economical one. Vast sums are spent by it in ways that are not profitable—thousands and thousands of dollars find their ways in certain and various pockets for which the province does not receive a fair equivalent.

Third, the government, contrary to true reform principle, are centralizing power and patronage instead of leaving it as much as possible with the municipalities.

These are facts which cannot be argued away nor pushed aside, but must be faced.

Question—Are there not men to be found in Ontario capable of looking after the affairs of the province in a more satisfactory manner—more in accordance with the wishes of the "free and independent" electors? They need not all be so called "reformers," nor "conservatives," nor "tories," nor "grits," nor even lawyers; simply competent, honest men. Indeed old party names, as I think you will admit, ought to be kept out of Ontario governmental affairs.

LIBERAL.

THE POPULAR VOICE.

A St. John, N. B., correspondent of the Montreal *Gazette* gives the following account of the New Brunswick elections:—

"It is noticeable that, in the contest in this province, the Government has swept the north and east, and been beaten in the south and west. The whole north and east coast, from Madawaska to Westmoreland, is represented by Government candidates who have gone in by very large majorities or by acclamation. Restigouche disowned Mr. Haddon, although there were three Government candidates in the field, and Gloucester dismissed Mr. Anglin, although our friends divided their votes between two candidates. Taking the province as a whole, and making a fair allowance for what our majorities would have been in Victoria and Northumberland, a considerable majority of the electors of the province have pronounced in favour of the Government and its policy, although half the members elect are Opposition. Albert and Sunbury were carried by the Opposition by very narrow majorities, and the only large majority they got was in York. Not to speak of Victoria and Northumberland, which we carried by acclamation, and of King's, where two Government candidates only were in the field, our men went in for Restigouche, Gloucester, Kent and Westmoreland by very large majorities, while our smallest majority, that of the Finance Minister, was one hundred and thirty-seven. Let our Opposition friends bear in mind that this, their "banner province" of the last four years, has given a large popular majority against them. The popular vote in Prince Edward Island is also against them."

YOUNG'S POINT.

From Our Own Correspondent.

THE DRIVES.—The saw log drives are coming along very slowly this season; none have passed through here since those of Messrs. Rathbun & Son, and Messrs. Nlyott & Saddler, consisting of 200,000 logs; all under the foremanship of Mr. James Lynch, one of the best foremen in the business that runs these waters. The logs were all to be assorted at Harwood on Rice Lake.

THE SHINGLE MILL.—The new raceway is now completed, and when the driving wheel is put into proper order, which will take a few more days, then Mr. Kearns will be making the shingles fly out of the slabs and logs in a hurry, and will keep the packers busy from now until winter.

ACCIDENT.—Mr. John Young, Sen., of this place met with rather a serious accident a few days ago. He is nearly 84 years of age, but is as smart as a cricket. His foot slipped as he was coming down a scaffold at the building he is erecting, and he fell quite a distance, breaking two of his ribs and receiving some internal injuries, but under proper care he may get round all right. Dr. Caldwell of Lakefield is attending him.

NEW FALLOW.—Mr. Geo. Chalmer's new fallow of 100 acres, which was lumbered on by Arthur Dugan, foreman for the concern had a splendid burning some time ago, and Arthur is having it logged and cleared up by a gang of men, to be ready for fall wheat.

THE ROAD TO BURLEIGH BRIDGE.—The road from the 14th con. of Smith to Burleigh bridge has undergone a radical change. Mr. Geo. Chalmers was appointed pathmaster for the beat this year, and he put Arthur Dugan with a gang of men on the road to improve it for traffic. Everyone who travels over the road says that he has done more good to the beat than has been done for the past 12 years. You can now trot with a horse and buggy, instead of walking, and also save the blacksmith's bill for broken springs, axles, &c. This highway was for years a disgrace to the township of Smith.

THE TRENT VALLEY CANAL.—If surveyors, engineers and men are any sign of the T.V.C. being constructed, lots pass through this way *en route* to Burleigh—your correspondent had a visit lately from Mr. Rubidge, the Chief Engineer, and he told me for a fact, that the canal was to be built, and that right away. He is a man of too much reserve to come out so blunt if it was only an election dodge.

IMPROVEMENTS.—Mr. Robert Young, sr., is going to have a new building erected on his property here on the Douro side of the river. The size of the house will be 22 x 32. It is to be built of wood.

NEW PASSENGER STATION.—The steamer Fairy, purchased some time ago, made her first trip on these waters on Monday last. She has been painted and thoroughly overhauled at Lakefield. Mr. G. Chalmers intends that she shall carry passengers from Lakefield every alternate day, to Burleigh Falls Hotel and Mount Julien along with the Crusier. She is a trim built little steamer.

COBOCONK.

DROWNED.—The Fenelon Falls *Gazette* says a young unmarried man named Boyce, from Norland, was drowned at Coboconk on Tuesday, June 27th. He was a river-driver, and in the course of his occupation was riding down stream on a sawlog, a man named Parker being near him on another. While the two were drifting along side by side Parker accidentally dropped his pike-pole, and, being unable to balance himself without it, sprang on to the log ridden by Boyce, which caused the latter to fall off, and he was drowned before assistance could arrive.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by all Druggists.

THE WELL KNOWS drug firm of N. C. Polson & Co., of Kingston, writes that Dr. Fowler's Extract of Wild Strawberry has long been considered the best remedy for summer complaints in the market, and adds that their customers speak in the highest terms of its merits. Wild Strawberry is the best known remedy for Cholera Morbus, Dysentry and all bowel complaints.

Suicide by Drowning.

FREDERICTON, N. B., June 30.—A young lady named Louisa Dunn, daughter of Richard Dunn, committed suicide last night by drowning herself below Morrison's Mills, opposite the Dunn estate. She was stopping with her brother for several weeks, and had been in low spirits over matters in connection with the disposition of the estate, which developed into insanity. She left her residence some time between midnight and 6 o'clock this morning, and from some remarks she had unconsciously made the day before it was suspected that she had drowned herself. The river was therefore dragged, and in a few minutes her body was found a few yards from the shore opposite the house.

"Habiliment Hall." For the Newest, Prettiest, Perfect-fitting Linen Collar try Andrew McNeil.

V. EDMISON OF BRADFORD, writes:—Burdock Blood Bitters is an excellent preparation, gives entire satisfaction, and sales increasing every day, it sells now on its merits:—Burdock Blood Bitters cures Scorfula, Liver Complaint, Dyspepsia, and Kidney complaints, in their worst form.

A SERIOUS AFFAIR.

A Possible Murder on the Canada Atlantic Railway, near Ottawa.

The Ottawa *Free Press* gives the following account of a stabbing affray on the Canada Atlantic Railway :—

"On Saturday afternoon the news reached town that a possible murder had been comitted at Eastman's Springs, about twelve miles from this city. A telegram was sent to Chief of Police Sherwood asking him to send officers to secure a man named Gibson, who had stabbed a fellow laborer on the Canada Atlantic Railway, named Callaghan. The Chief immediately despatched Detective McVeitty and Assistant Detive Montgomery to the scene of the stabbing, where they found the wounded man in charge of Dr. McDougal of this city. They arrested the assailant Gibson, brought him to the city and lodged him in the county gaol.

THE PARTICULABS OF THE AFFAIR,

so far as can be learned, are as follows :—Both men are employed in the construction of the Canada Atlantic Railway, near Eastman's Springs, where about 400 laborers are employed at the same work. Owing to the heavy rain on Saturday the men knocked off work, and most of them spent their time in a hotel near by. It seems that while at breakfast Callaghan and Gibson began to dispute over religious matters, one being a Roman Catholic and the other a Protestant. After breakfast the bickering was kept up, and finally Callaghan seems to have attacked Gibson with his fists. A fight was about to ensue, when some by-standers interfered and separated the combatants. Gibson then, it is stated, retired to a small summer kitchen in the rear to escape Callaghan; and was blackening his boots when the latter came in and renewed his attack. A Frenchman named Boullion who was present stepped in between them, when Gibson drew a large clasp knife and reaching over his head stabbed Callaghan near the shoulder. The knife penetrated the lung, and Callaghan fell to the floor. Gibson then threw himself upon his prostrate victim and stabbed him repeatedly in the head and body. One of the blows was given with such force that the knife crushed through the skull and entered the brain. There were several men present when the affray commenced, but at the sight of Gibson's knife they all decamped, and did not return until the mischief had been done. The knife with which the stabbing was done was a large clasp knife with a spring to keep the blade open. The blade was nearly four inches long, and over two inches of it broke off in one of the wounds. When Dr. McDougal arrived he found the victim in such a condition that he would not consent to his being removed.

Up to this morning Callaghan was still living but it was not expected that he would live till this evening.

George Gibson, the assailant, is well known in this city. He is a man about fifty years of age who has frequently figured before the police court on charge of assault and disorderly conduct. He was at one time convicted of committing an aggravated assault on Mr. Thomas Langrell, when that gentleman was Chief of Police. He has the reputation of having a violent temper and a brutal disposition. It is said that at one time, out of pure wantonness, he cut the legs off a cow and left the animal to bleed to death. He was at one time commonly known as "the terror of Bank street."

Thomas Callaghan, the victim, is an Irish emigrant, who was employed last winter at waiting and other odd jobs in the city. He is understood to have a large family in Ireland."

Guiteau Buried.

WASHINGTON, July 1.—Guiteau was buried this afternoon in the corridor of the gaol, and as far as now known to the contrary the remains will lie there undisturbed by any future sepulchre. Under the law the disposition of the bodies of criminals executed rests within the discretion of the warden. In the case of Guiteau his sister is without means to undertake the burial expenses, even if permitted to do so, and his only other relatives who appeared upon the scene, his brother John, was unwilling to assume the risk and take charge of the remains, believing that he would be powerless to prevent body-snatchers from stealing them. Therefore, General Crocker resolved to bury the assassin's body within the walls of the gaol. At four o'clock the coffin was borne from the chapel upon the shoulders of six gaol prisoners, and without any service or ceremony lowered into the grave. J. W. Guiteau, Dr. Hicks, and a few gaol officials were present.

Mr. Talmage Talks About Horses.

Mr. Talmage preached recently about horses. His text was taken from the Book of Samuel, where the war-horse is represented as "sniffing the smell of the battle from afar." Mr. Talmage would not classify the horse among the ordinary beasts. Like Mr. Bergh, he believed that horses after dying went to a kind of heaven, although he would not undertake to describe that heaven. He loved the glossy coat, the flowing mane, and tail of the horse, and it delighted him when he saw the animal put up his foot to be shod. It was beyond dispute that most great men had been lovers of the horse. A city was named after Alexander's horse Bucephalus, and the Duke of Wellington ordered a salute to be fired over the grave of the horse that carried him through so many battles. Mr. Talmage acknowledged that he was not an opponent of horse racing, but he was dead set against betting on horse races. Betting was the beginning of all the iniquity connected with horse racing. The man who loses a few thousands of dollars on a horse race was to be pitied, but the man who won those few thousands of dollars was steering straight for hell. Mr. Talmage said that even ladies are in the habit of betting at horse races.

Wood to Wear.

One of the peculiar industries is that of manufacturing clog soles and wooden shoes. The timber is first cut into planks, and on the side of each plank a metal guage is laid, an operative then roughly outlining the size and number of soles which can be cut from it, the planks pass on to a band saw, where they are cut up into blocks with the required curvature for a sole, thence passing to the roughening machine which crudely shapes them. Another machine cuts the sides, another shapes the shanks, and a third round the heels, and the toes are shaped by a fourth. From these they go to a revolving cutter, which roughly hollows the upper side of the sole, and subsequently this hollowed surface is smoothed in another machine. The soles pass next through various finishing machines, the bottoms, sides, shanks, heels and toes being thus successfully rendered perfectly smooth by friction with swiftly revolving bands—the latter covered with a mixture containing ground glass and some other attritive materials—which scour them in the same way as if with sand or emery paper. Finally, a gripping machine bevels the edges, leaving a "grip" to which the leather uppers can be fastened. The sole of each wooden shoe, from the time that the log of wood is first cut into segments to the time when the edges are beveled by the gripping machine, passes through 15 distinct machines.—*Northwestern Lumberman.*

FROM ALL OVER.

THERE were 46,000 post-offices in the United States on June 30th, an increase of 1,700 in the past year.

GUITEAU'S avenger has appeared in the shape of a crank from Chicago, who has gone to Washington.

THE sale of the library of the Hamilton Palace began on Saturday. Three hundred and two lots were sold, realizing £3,225.

THE bronze coinage executed at the English mint during last year only amounted to £174,000.

THE premium for war risks at Loyds on vessels passing through the Suez Canal has advanced from 2s 6d to 5s per cent.

THE authorities have ordered tho evacuation of the village of Elm, Switzerland, because of the threatening condition of the mountain.

HALL'S Catarrah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by druggists.

PROSPERE BERTRAND, whose father was lately killed on a crossing by a Grand Trunk train in Quebec, has sued the company for $5,000 damages.

THE Hungarian Colonization Society has purchased 10,000 acres of land in Virginia for Hungarian emigration. Negotations are pending for a similar acquisition in New Jersey.

THE swimming contest between Webb, of England, and Wade, the American champion, for $1,000 and the championship of America, 2 miles, was won by Webb with one minute to spare.

USELESS FRIGHT.—To worry about any Liver, or Kidney or Urinary Trouble, especially Bright's Disease or Diabetes, as Hop Bitters never fails of a cure when a cure is possible. We know this.

LADY HOBART, an English philanthropist who has promoted the emigration of 3,000 English people to Canada, is in Quebec at present with her son, Lord Hobart, *en route* for western Canada and the North-West.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all Druggists.

THE christening of the little Russian princess will take place on the 23rd of July, at Peterhof. There will be a grand banquet on the occasion, at which the King of Denmark is expected to attend.

IN the cure of severe coughs, weak lungs, spitting of blood and the early stages of Consumption, Dr. Pierce's "Golden Medical Discovery" has astonished the medical faculty. While it cures the severest cough, it strengthens the system and purifies the blood. By druggists.

GUITEAU'S fortitude just previous to and at the time of his execution would appear after all to have been a myth. The assassin wept copiously, and had the greatest difficulty in keeping himself from utterly breaking down while on the scaffold.

"THE true professional leads to a regular gypsy life," says Mr. Fred. J. Engelhardt, the great sporting manager, of New Orleans, La., who writes that he cured himself of a severe attack of rheumatism, and subsequently of a stiff neck, by the use of St. Jacobs Oil. He invariably uses it on those whom he trains for the various kinds of athletic exercise.

AT Metamoras, Mex., on Saturday morning, Curl, foreman labourer on the Tampico railroad, quarrelled with an Italian. The foreman ordered a squad of guards to shoot the Italian. They obeyed, riddling the body with bullets. Curl has fled.

AMONG THE MOST prevelant fatal and sudden attacks of diseases, are those incident to the Summer and Fall, such as cholera morbus, bilious colic, diarrhœa, dysentry, etc., that often prove fatal in a few hours. That ever reliable remedy Dr. Fowler's Extract of Wild Strawberry, should be at hand for use in emergency.

CORNERS in wheat are reported from St. Louis and Chicago. At the former place the "shorts" were closed with 1,250,000 bushels against them, and refused to settle at the corners' figures, leaving the matter to the Arbitration Committee. At Chicago the market is oversold by thirteen million bushels, and the cornerers are making settlements at an increase of 12 cents per bushel on their purchase money.

THE treaty between the United States and the Corea gives the former many valuable privileges, and ensures the protection and relief of distressed vessels and their crews sailing under the American flag on the Corea coast.

LIVER COMPLAINT, is rather an indefinite term, as commonly understood it consists of a torpid sluggish state of the liver, a deficiency or superabundance of bile, or any alteration from its proper character. All disturbed action of the liver and biliary organs giving rise to a pain in the side, or under the shoulder blade, headache, weariness, dizziness, sick stomach, loss of appetite, bad bowels, etc., are promptly cured by Burdock Blood Bitters.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation palced upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by druggists, or sent free by mail on receipt of price, $1.00 per box, or six boxes for $5.00. Address F. J. Cheney, Toledo, O., sole Agent for the United States. Send for circular.

SOMEBODY'S CHILD.—Somebody's child is dying—dying with the flush of hope on his young face, and somebody's mother thinking of the time when that dear face will be hidden where no ray of hope can brighten it—because there was no cure for consumption. Reader, if the child be your neighbor's, take this comforting word to the mother's heart before it is too late. Tell her that consumption is curable; that men are living to-day whom the physicians pronounced incurable, because one lung had been almost destroyed by the disease. Dr. Pierce's "Golden Medical Discovery" has cured hundreds; surpasses cod liver oil, hypophosphites, and other medicines in curing this disease. Sold by druggists.

An Iron Tree.

The iron palmetto at Columbia, S. C., is the greatest work of art in the State House yard. This is a casting wholly of iron, commemorating the death of many of Carolina's slain, whose names are found in raised letters on brass tablets at the base. The success of this casting consists in its perfect imitation of living palmetto—the favorite tree of South Carolina. We had heard of this statute in other places, but had never been able to believe the stories of the flexible leaves bending in the breeze, supposing this phenomenon an optical illusion, but such is really the case. The long thin leaves of iron, life-like even to the hair like fibres of the twigs and branches, wave tremulously in every zephyr, and the whole tree, painted artistically, has so close a resemblance to the real tree as to deceive the acutest observer at the distance of five rods.

Boys' White Dress Shirts in all sizes just received at "Habiliment Hall."

The Stinging Tree.

Among the luxuriant and beautiful shrubs of Queensland is one known as the "stinging tree," which is exceedingly dangerous, and often fatal to life. It grows from two or three inches to 10 or 15 feet in height, and emits a very disagreeable smell. It is also easily distinguished by the peculiar shape of its leaves. "Sometimes," says a traveler, "while shooting turkeys in the scrubs, I have entirely forgotten the stinging tree till warned of its close proximity by its smell, and have often found myself in a little forest of them. I was only once stung and that very lightly. Its effect was curious; it leaves no mark, but the pain is maddening; and for months afterwards the part when touched is tender in rainy weather, or when it gets wet in washing, etc. I have seen a man who treats an ordinary pain lightly, roll on the ground in agony after being stung, and I have known a horse so completely mad after getting into a grove of the trees that he rushed open-mouthed at every one who approached him, and had to be shot. Dogs, when stung, will rush about whining piteously, biting pieces from the affected part."

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr, Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

d146-w26 George Street, Agent for Peterborough.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.
DR. B. J. KENDALL & CO., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.
Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.
B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.
Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1wly

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

For Sale by Ormond & Walsh, Peterboro.

Daily Evening Review

WEDNESDAY, JULY 5, 1882.

LOCAL AND MUNICIPAL.

Piano Tuning.

Mr. Geo. J. Gumpricht, tuner for Messrs. Mason & Risch, Toronto, is in town for a few days. Orders left for him at Mr. T. Menzies' Bookstore will be promptly attended to.

Railway Notes.

The telegraph wires at the Midland station have been changed from behind the building to the front of it, thus making the line straight past the station.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a.m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to northerly winds, becoming variable, fine and warmer. Thursday, fine warm weather.

The Market.

There was not a large attendance on the market this forenoon, and prices ranged a little higher than on Saturday. For butter from 18 cts. to 20 cts. was asked; eggs, 17 cts.; potatoes were sold at $1.25 per bag; hay $13 to $15 per ton, and 15 cts. per box was asked for strawberries.

School Assessment.

The amount required to be raised this year for school purposes is as follows:—For Collegiate Institute, $3,220; for the public schools, $5,650; total amount required, $8,870. Last year the amount levied for the same purposes was:—For Collegiate Institute, $3,324; for public schools, $5,000; total, $8,324.

Brought Home for Burial.

The body of the late Mrs. Robert Farley, formerly Miss Sarah Jane Conroy, of Peterborough, who was married and removed to Onieda Falls, N.Y., about a year ago, was brought into town on the 10 o'clock Midland train on Tuesday night. She was buried this afternoon in the Roman Catholic Cemetery.

A Ducking.

On Tuesday afternoon, while some children were playing on the bank of the river, one little fellow ventured out on a raft made of some pieces of board, but before he had got far from the shore, he slipped and fell into the water. Fortunately where he fell the water was not deep, and his brother waded out and got him ashore, a good deal frightened but none the worse for his bath. Parents should keep a watchful eye on their children, or else we will be called on to chronicle a drowning accident some of these days.

The Shaughaun.

Of the performance of the Shaughaun Combination, who are to give a representation of that play in Bradburn's Hall to-morrow evening, the Toronto *Mail* writes as follows:—

"The American Comedy Company opened a weeks' engagement last night, and produced the romantic Irish play "The Shaughaun." The piece was very fairly produced, and deserved a larger audience than attended. Mr. John T. Hinds, as *Con McCarthy*, gave a clever impersonation of the character, humorous and racy, with occasional touches of pathos that indicated the artist. He was ably supported by Miss Ivian Lawrence as *Mary Lismore*, our old friend Sydney Smith, of comic opera fame, as *Felix O'Flannigan*, Miss Emma De Gray as *Mollie O'Toole*, S.A. Mortimer as *Redmond Hara* and Frank A. Doud as *Roger De Lacey*. A number of Irish songs were introduced during the progress of the piece, which met with much favour. The company ought to draw good houses during the week."

At Last.

We are informed on good authority that we are at last to have the splendid band of the Fire Brigade to play in public this season. Owing to the efforts of a few enterprising gentlemen, the band stand in Mr. Geo. Dunsford's grounds is to be placed on the Market Square, and the gas lamp that was to have been put on the corner of Water and Charlotte Streets is to be used for giving light to the players. It is the intention to put the stand at the corner of the square, and run a gas pipe right up the middle of the stand. The arrangements are not yet complete, but no doubt everything will be done that is necessary to attain this end. The gentlemen who have so kindly taken upon themselves the little trouble in this connection, are entitled to the thanks of the citizens at large.

For a Perfect-fitting White or Coloured Shirt, with or without Collar, try "Habiliment Hall."

BOARD OF EDUCATION.

THE ESTIMATES FOR THE CURRENT YEAR CONSIDERED AND ADOPTED.

The Attendance in the Public Schools in May and June—Arrangements with Ashburnham—Leave of Absence—The Holidays—Overcrowding—Communications.

A regular monthly meeting of the Board of Education was held on Tuesday evening.

PRESENT.—Messrs. Stevenson (chairman), Rutherford, Denne, Sproule, Wrighton, Stratton, Weir, Burnham and Sawers.

The minutes of the last meeting were read and approved.

ENQUIRIES.

Mr. RUTHERFORD asked how it was that so many of the children were dismissed before the holidays commenced?

The CHAIRMAN replied that some classes were dismissed to make room for the candidates who were attending the intermediate examinations.

Mr. J. BRADEN, Principal, explained that according to law no high school teacher could be in or about the building when the intermediate examinations were being held, and the teaching in the high school was therefore virtually closed.

ACCOUNTS.

Only one account, from John McKee for $3,54, was presented.

COMMUNICATIONS.

From the Clerk of the Village Council of Ashburnham, enclosing a resolution of that Council granting $125 to the Collegiate Institute, on condition that pupils from Ashburnham be admitted to the Institute on the same terms as Peterborough pupils.—Received.

From Sarah McLeod, applying for a situation as teacher.—Received.

A communication was read in reference to a bust of the late Rev. Dr. Ryerson.—Received

From J. Braden, submitting a report of the attendance at the public schools during the months of May and June.

During the month of May the attendance was as follows:—

ASHBURNHAM PUPILS.

It was moved by MR. STRATTON, seconded by Mr. SAWERS,—That the proposition of the Ashburnham Council be accepted, that pupils from Arsburnham be admitted to the High School on the same terms as those from Peterborough, and that the Secretary of this Board notify the clerk of the village to this effect.—Carried.

SCHOOL PROPERTY.

Mr. SPROULE, at the request of the chairman of the Property Committee, submitted a report on school property.

Mr. SAWERS complained that he had not received notice of the meetings of the Property Committee.

The Secretary said he had not been requested to issue notices.

Mr. SPROULE stated that the chairman could not attend to the duties of the chairmanship, and desired to be relieved from the position.

The report was referred back to the committee.

THE ESTIMATES.

The estimates for the year ending 31st December, 1882, were submitted.

For the Collegiate Institute the estimates were as follows:—

EXPENDITURE.

Salaries of Teachers	$ 4,500 00
Proportion of salary of Sec.-Treas.	132 50
do do Janitor	200 00
do Rent	700 00
do Fuel	90 00
do Printing and Stationery	125 00
Maps, chemicals and works of ref'ce	50 00
Proportion of Interest Account	123 00
Incidental Expenses	150 00
	$6,070 50

REVENUE.

Government Grants	$ 1,725 50
Grant from Ashburnham	125 00
Fees from pupils	1,000 00
Required from Town Treasurer	3,220 00
	$6,070 50

For the Public Schools the estimates are as follows:—

EXPENDITURE.

Salaries of Teachers	$ 5,860 00
Proportion of salary of Sec.-Treas.	132 50
do do Janitor	400 00
do Interest Account	200 00
do Fuel	260 00
School requisites, printing & stat'ry	100 00
Repairs, furniture and insurance	277 00
Salary of Inspector	100 00
Election and other incidental exp'ns	100 00
	$7,429 50

REVENUE.

Surplus brought forward from 1881	$ 333 95
Government Grant	646 55
Fees from non-resident pupils	100 00
Rent charged to Collegiate Institute	700 00
Required from Town Treasurer	5,650 00
	$7,429 50

RECAPITULATION OF ASSESSMENT.

Required for Collegiate Institute	$ 3,220 00
Required for Public Schools	5,650 00
Total assessment	$8,870 00

The CHAIRMAN explained that, on account of only a portion of the ratepayers using the public schools, and all of them using the High School, the Public Schools were placed in the position of landlords and the High School in that of a tenant, and that accounted for the item of $700 for rent.

It was moved by Mr. Stratton, seconded by Dr. Burnham,—That the estimates as read be adopted, and that a copy of them be sent to the Town Council and the demand made for the amount to be paid by the 1st of December.

Mr. RUTHERFORD said that, considering the cost of the building, the rent paid by the High School should be higher. It was three years since the rent was fixed at $700, and the value of property had risen. He moved in amendment that the rent be placed at $1,000.

After a short discussion, the motion adopting the estimates was carried.

LEAVE OF ABSENCE.

It was moved by Mr. STRATTON, seconded by Mr. WRIGHT,—That this Board grant to Mr. G. A. Cox immunity from forfeiture of his office as a member of this Board by reason of absense from regular Board meetings, on the ground that Mr. Cox's absence from the country renders it impossible for him to attend the meetings, and that leave of absence until the September meeting be granted unto him.—Carried.

CLOSING THE SCHOOLS.

On motion of Mr. RUTHERFORD, seconded by Dr. BURNHAM, the Principal was authorized to close the Public Schools on Wednesday, if he thought it was better to do so.

Mr. SPROULE called attention to the large number of scholars in Miss Graham's room. He thought there were more scholars in that room than one teacher could attend to.

Mr. BRADEN said that the examination would remove some of the scholars from that room, and there would not be so many scholars in it after the holidays.

The Board then adjourned.

Our Balbriggan Underwear are the admiration of all who see them. All sizes at "Habiliment Hall."

IF Cattarah has destroyed your sense of smell and hearing, Hall's Cattarah Cure will cure you. 75 cents per bottle. Druggists sell it.

IF MOTHERS and nurses would cease giving opiates in the guise of paregoric, and cordials, and for children teething and subject to bowel complaints, give instead Dr. Fowler's Extract of Wild Strawberry, the lives of many infants might be saved that are sacrificed to deadly drugs.

TRUTH IS MIGHTY.—When Dr. Pierce of Buffalo, N. Y., announced that his "Favorite Prescription" would positively cure the many diseases and weaknesses peculiar to women, some doubted, and continued to employ the harsh and caustic local treatment. But the mighty truth gradually became acknowledged. Thousands of ladies employed the "Favorite Prescription" and were speedily cured. By druggists.

Information Wanted!

CHAS. GEORGE ROSE

LEFT his parents' home about four weeks ago, and has not been heard from since. He is 13 years of age, of fair complexion, and with large light blue eyes. He had on a black suit of clothes, a black stiff felt hat and a pair of heavy boots, very much worn. Any information respecting him will be thankfully received by his distressed parents, GEORGE and ELLEN ROSE, Peterborough, Ontario.

July 5, 1882. 243-2w27

ROBBED—Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

GERMAN INVIGORATOR

Which positively and permanently cures **Impotency** (caused by excesses of any kind), **Seminal Weakness**, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circulars with testimonials free by mail. The INVIGORATOR is sold at $1 per box, or six boxes for $5, by all druggists, or will be sent free by mail, securely sealed, on receipt of price by addressing F. J. CHENEY, Druggist, 187 Summit St., Toledo Ohio. Sole Agent for the United States.

JOHN McKEE, Druggist, &c.,
d146-w26 George Street, agent for Peterborough.

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Daily Evening Review

THURSDAY, JULY 6, 1882.

LAUGHING AT HIM.

Mr. Blake's Irish Speech Creates Amusement at Home.

In his speech made expressly to capture the Irish vote for the Reformers, Mr. Blake said: "Ireland has splendid coal fields, though these are hardly used at all. It has magnificent, perhaps unequalled, fisheries in regard to the quantities of fish caught, and harbour and other facilities in connection with the industry. It is possessed of valuable mines of gypsum, gold, silver, lead, copper, and zinc." The Glasgow *Herald*, in an article criticizing Mr. Blake's speech, says:—"As regards coal, our impression was that geologists considered that Ireland was in the unfortunate position of having lost her coal measures by some ancient process of denudation; as to fisheries, that the usual complaint was that the harbours were defective and the fish not caught, as to mines, that gypsum, where it exists, is of little value, and that the gold, silver, lead, copper, and zinc are just as illusory as the well-known Wicklow diamonds, which Mr. Blake strangely omits from the catalogue of wealth. If these great resources really existed, it would be strange that British capital should explore all the ends of the earth for such things and neglect them so close at hand. But as to Scotland also Mr. Blake has information peculiarly his own. Scotland, it seems, is agitating for Home Rule. He says, 'within the last few days a very important meeting was held, which came to the conclusion to ask for a Local Legislature for Scotland, with triennial elective Parliament,' and this agitation in Scotland cannot fail to have an important influence in maturing public opinion on the Irish question. Very likely, if it existed; but we confess we had not heard of the 'important' meeting or the demand for a Scottish triennial Parliament before."

TORONTO.

Special to the Review, July 6.

MOSES OATES, an alleged weather prophet, predicts a snow storm for July 12th.

A NEW YORK FIRM intend starting a Gutta-percha and Rubber manufactury in this city.

CAPT. PAUL BOYNTON has arrived in this city and is stopping at Hanlan's hotel on the island. He intends leaving shortly for an extensive swim down the St. Lawrence.

A Distressing Accident.

Occured to Marshall Beard as he was going home with a load of lumber on Monday evening last. It happened about two miles from Markdale, when descending a steep hill. The lines broke, and he at once lost all power over the horses. It is pupposed that in attempting to get off the load he slipped and fell, the two wheels passing over his leg, bursting his knee-joint and breaking the leg above the knee. His daughter Ellen, who was also on the load of lumber, escaped unhurt. It is doubtful whether it will not be necessary to amputate the injured limb.

BRIGHT'S DISEASE of the Kidneys, Diabetes and other diseases of the Kidneys and Liver, which you are being frightened about, Hop Bitters is the only thing that will surely and permanently prevent and cure. All other pretended cures only relieve for a time and then make many times worse.

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic. Price 50c. For sale by J. D. Tully, Druggist.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

Swimming Trunks, Lacrosse Belts and shoulder Braces will be found at "Habiliment Hall."

MIDNIGHT TELEGRAMS

CABLE.

THE DUBLIN MURDER.

DUBLIN, July 5.—Four laborers have been lodged in Kilmainham on suspicion of being connected with the recent murder in Dublin.

TOMBS OF THE CZARS.

ST. PETERSBURG, July 5.—According to good information, Dr. Weimar, who was sentenced to exile in Siberia, is still in the fortress of St. Peters and St. Paul. The authorities have lately shown much anxiety concerning the safety of the ground underneath the fortress and Cathedral of St. Peter and St. Paul, in which are the tombs of the Czars.

STATE OF THE CHURCH.

ROME, July 5.—The Pope, in an allocution at the consistory on Monday, said the position of the Church in Italy was becoming worse than ever. The Government, he declared, was guilty of bad faith in refusing its *exequatur* to the twenty bishops he had nominated.

ARMED INTERVENTION.

LONDON, July 5.—The *Daily News* foreshadows English armed intervention in Egypt, and says it would be penny-wise to count the cost, which the *News* estimates at from four to four and a half million pounds.

FRENCH SUBTERFUGE.

PARIS, July 5.—To avoid armed intervention, France is now urging Germany to use her influence with the Sultan to depose Aribi Bey.

ARABI'S AIMS.

COLOGNE, July 5.—A correspondent of the *Gazette* says Arabi, at a meeting of his friends, declared he would imitate Napoleon, create an empire and re-establish united Arabia. On Friday last on his way to the mosque, Arabi suddenly stopped, stamped his foot on the ground, declaring that God had revealed to him that the barrel of a sacred cannon had been buried in that spot. A hole was dug and the barrel was found.

A CHANGE.

CONSTANTINOPLE, July 5.—A significant fact is the publication to-day by the *Vakit* of a pro-English article such as has of late seldom appeared in that paper, which is supposed to represent the opinions of the palace. Rumours of Ministerial changes are circulating.

A FRENCH BUGBEAR.

LONDON, July 5.—An Alexandria correspondent alleges that the Communists have drawn up a list of hostages for Arabi Pasha, and that Arabi Pasha is being advised by a renegade Frenchman.

PREPARATIONS IN INDIA.

BOMBAY, July 5.—Orders have been given to prepare a force of 1,800 English and 5,000 native troops, including three batteries of artillery for Egypt. Large siege trains are being organized at Agra and Bombay. Tenders for tonnage have not been issued yet pending the receipt of final orders.

REJECTED.

BERLIN, July 5.—The Bundesrath has rejected Herr Windhost's motion previously adopted by the Reichstag abrogating the law to prevent the authorized exercise of ecclesiastical offices.

WHO HE IS.

ST. PETERSBURG, July 5.—The name of the new Bulgarian Minister of the Interior is Soboloff.

THE CONFERENCE.

LONDON, July 5.—The Constantinople conference, after a prolonged discussion, finally agreed to invite the Porte to armed intervention in Egypt. Austria and Germany united in advising the Sultan to join the conference, and send a strong military force to Egypt. In the event of an English expedition being decided upon, it will be commanded by Sir Garnet Wolseley.

THE RESERVES.

LONDON, July 5.—Orders have been sent to Woolwich, Chatham, and Aldershot to prepare a rendezvous for the reserves.

ARABI DEFIANT.

ALEXANDRIA, July 5.—Arabi Pasha expresses his intention of fighting Turkey, England and all Europe. He says the construction of forts will enable him to repel the landing of twenty thousand men.

THREATENED.

ALEXANDRIA, July 5.—Admiral Seymour has complained to the Governor of Alexandria regarding the placing of two large guns in a position threatening the fleets. The Governor's explanations were deemed unsatisfactory, and Admiral Seymour intimated that if the works were not stopped he would promptly take measures to stop them.

THE ARREARS BILL.

LONDON, July 5.—In the House of Commons to-day Mr. Gladstone moved to go into committee on the Arrears of Rent bill. He said the Government depended on two millions pounds from the church surplus fund and half a million from the consolidated fund to meet the contingencies contemplated in the bill. He asked the House in the interests of all parties and of peace and order in Ireland to expendite the bill. Mr. Chaplin, Conservative, moved a resolution in favour of declining to proceed with a measure imposing taxation for objects which must demoralize the Irish.

DISTRIBUTING ARMS.

LONDON, July 5.—Twenty thousand arms have been distributed to the various military centres, in readiness for arming the reserves. The distribution of 20,000 more has been ordered.

MUST BE STOPPED.

BERLYN, July 5.—The English and French Admirals at Alexandria have asked their Governments to authorize the bombardment of the forts unless work is stopped.

BLOCKING.

ALVXANDRIA, July 5.—Admiral Seymour's caution to the Governor was relative to the rumoured intention to block the entrance of the harbour by sinking ships laden with stone. Admiral Seymour notified the Governor that he would regard any such attempt as an act of open hostility. Meanwhile the Egyptians are despatching large quantities of stores and ammunition to the forts on the coast.

SECURING THE FLEET.

LONDON, July 5.—The *Times* reports that Admiral Seymour will send a communication to the Egyptian Government to-morrow, requiring it forthwith to abandon the obnoxious works. If Arabi refuses, Admiral Seymour will bombard Alexandria. These instructions are entirely independent of the conference, and belong to a different category of action. They are an act of police rather than an act of war. They are not based on the general condition of Egypt nor on the relations of the Khedive to Arabi, nor on any of the questions referred to the conference, but simply on the paramount necessity of securing the safety of the British fleet, for which the Government is responsible to the country, and cannot submit the responsibility to the decision of any conference or the sanction of any single power.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

ATTACKING THE SULTAN.

ALEXANDRIA, July 6.—On Tuesday in a council of ministers, Arabi deliberately attacked the Sultan and Dervish Pasha, demanding the latter to leave the country immediately. The President immediately left the room. Yesterday Dervish was informed that his mission has ended, and that if he refuses to take the hint and leave Egypt he will be sent away.

STEAMSHIP INSURANCE.

LONDON, July 6.—It is stated that a large fleet of steamers using the Suez Canal are being insured at ten shillings per cent, continuously until February. The insurance does not involve the compensation for delay, but only for damages sustained through hostilities.

AQUATIC.

LONDON, July 6.—The Amateur Rowing Association of England yesterday received the news that they would be justified in recognizing the Hillsdale crew as amateurs, in accordance with the English difinition of the term, but they cannot undertake to ad vise the acceptance of a challenge from them.

THE PUBLIC FEELING.

LONDON, July 6.—There is intense excitement here over the Egyptian difficulty. The feeling is that any minute may bring news of the commencement of hostilities. Intelligence of hostilities being begun would probably be received with satisfaction in England, so dissatisfied is the public as to the way matters have been going.

THE SULTAN AND ARABI.

ALEXANDRIA, July 6.—Raghab Pasha, President of the Council, received a telegram from the Sultan announcing that the British fleet wolud bombard the forts unless the construction of earthworks was stopped. He said the Khedive and Ministry would be responsible for the consequences. Demonstrations have been made in consequence of which the Sultan's permission to resume the work was asked. Pending the Sultan's reply, no definite resolution will be adopted. Despite all denials to the contrary, work on the fortifications continues. Admiral Seymour delays formally demanding the cessation of work until all the British residents are on board the vessels. They are now hastily embarking. It is reported that Arabi Pasha is supplying arms to the natives.

QUADRUPED DETECTIVES.

DUBLIN, July 6.—The Government intend to employ blood hounds to track murderers.

NEWMARKET RACES.

NEW MARKET, July 6.—In the race for the summer cup, for three year olds, Isabel won, with J. R. Keen's Golden Gate 2nd, and Credo 3rd. Five started. The race for the Chesterfield stakes, two year olds, was won by Galliard, Export 2nd and Padlock 3rd. Seven ran, including Lorillard's Touch-me-not.

AN ULTIMATUM.

ALEXANDRIA, July 6.—Admiral Seymour sent an ultimatum to the authorities demanding the instant stoppage of the construction of the earthworks, under the threat opening fire. The work ceased for the moment.

AMERICAN.

A FATAL FALL.

DES MOINES, IOWA, July 6.—Yesterday the internal revenue collector, L. P. Sherman, brother of the General of the Army, fell from a ladder and was probably fatally injured.

THE AMERICAN MINISTER.

BRUSSELS, July 6.—French, the American Minister, yesterday presented his credentials to King Leopold.

THE STEAMBOAT COLLISION.

MINGO JUNCTION, July 6.—There seems to be little doubt that the wrecked steamer Sciota was overcrowded. A hundred people left her at Wellsville on the morning of the excursion, afraid to go further. It is stated that the Sciota was laid up at Wheeling by the Government officers for overloading, but they gave them the slip. Under the law she would carry from 60 to 75 passengers. It is said that by a special permit she was allowed to carry 300. On the down trip she broke the rudder rope. She stopped and the rope was tied, and when passing the Lomas it parted again and swung her in front of the latter. The opinion is that the Sciota was to blame for the catastrophy. The other boat had the right of way. Keller, the pilot of the Sciota, is said to be keeping a saloon in Wheeling, and it is thought that he had grown rusty. There appears to have been considerable drinking on board. The officers of Sciota say that only a few passengers drank, and that the crew was all right. The Sciota after the collistion took fire, and would have burned had she not sank. She sank on Wills bar, and had she foundered above or below, or on either side of this spot, she would have been completely submerged.

A DEMONSTRATION.

LONDONDERRY, July 6.—A meeting was held yesterday under the auspices of the three released suspects on the heights of Cruckaughrim to celebrate the 4th. The American flag was carried in procession with another bearing a picture of O'Connell.

BUILDING OPERATIONS.

NEW YORK, July 6.—Thirty-four million dollars were expended in building here and in Brooklyn during the last six months.

CROP REPORTS.

WASHINGTON, July 6.—The *Herald's* Washington despatch says advices received by the agricultural department about the crops are very encouraging from every section of the country. Wheat and oats are turning out even better than was expected a month ago. The reports in regard to corn are improving every day. The grass crop will be unusually heavy.

ACCUMULATED FREIGHT.

NEW YORK, July 6.—To-day on the New Jersey Southern Railway, thirty of the old men were taken on at advanced wages. The freight rapidly decreased. At other piers and at St. John's Park, green hands are still at work. There is an accumulation of freight at all the receiving piers.

FREIGHT RATES.

CHICAGO, July 6.—The lowest rates of the season for lake freights have been reached, the last charter rates to Buffalo being half a cent per bushel. Grain was taken as ballast, there being no dead loss figure named. Other freights are low in proportion and exceedingly dull.

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

Daily Evening Review

THURSDAY, JULY 6, 1882.

EDITORIAL NOTES.

It seems to us that a very unnecessary clamour is being raised about the Bothwell election. Whether the deputy returning officers, or the returning officer, or the county judge, any or all of them, were mistaken it is impossible to tell from the multiplicity of reports, no two of which completely agree with each other. Amidst all the outcries and confusion, however, there are two points that are very clear. The member who, being eligible, obtained the greatest number of votes, should and no doubt will, represent the constituency. If Mr. Mills was prejudiced he could obtain speedy redress by the easy and economical process of having a recount of all the votes by the County Judge, including those of the polling places were the alleged informalities occurred. If he did not choose to do so he has only himself to thank for the result, and he knows best why he shrank from this course.

* * *

It does not seem very generous of many Reform journals, who have been glad enough to follow the lead of the *Globe* without any remonstrance, to blame their big brother now that the result of the general election has been so disastrous to them, and consequently a scapegoat is needed. *Grip* signalizes itself in this respect, its three principal illustrations in the last issue all having a rap at the *Globe*. The cartoon represents Mr. Blake, as the political John Gilpin, being unhorsed by the good steed "Public Opinion," which is affrighted by the "braying ass," of the ballad labelled "Globe," and vociferating "Down with the N.P.," while the Hamilton *Times* and London *Advertiser* figure as frightened geese. On the first page is the N.P. elephant taking its revenge on the tailor Gordon Brown at the "Globe" stall, by a liberal sprinkling of dirty water in return for the needle prick on its trunk. A third cut portrays Sir John Macdonald, and Sir Richard Cartwright bearing to its grave the coffined remains of "Purely Revenue Tariff," while Gordon Brown, as a boy, playing with his gas-inflated "Globe" vainly shouts:—"Stop! stop!! It's not dead." This desertion of their leading journal is almost as mean as their treatment of Mr. Mackenzie.

* * *

It is surprising to what falsehoods the Reform journals descend in their attacks upon what they call the "Gerrymandering Bill." For instance we notice in the Uxbridge *Guardian* a paragraph, which has appeared also in other Opposition organs, in which is a list of ten constituencies that are represented as having been "gerrymandered," and "fixed specially for the Tories." In this list, incredible as it may seem, there are included "the two Peterboroughs." Now we know that in East Peterborough the withdrawal of the townships on the Burleigh road to add them to North Victoria, with a view of equalizing the two constituencies, had the slightest political significance, the votes being a trifle in favour of the Government. In West Peterborough absolutely no change was made. Yet people at a distance are made to believe that our two ridings are victims of gerrymandering. And here it is hoped that we will believe in equally false assertions with regard to distant constituencies with the details of which we are not well acquainted.

* * *

It is rumoured that Mr. McMillan will resign his seat for South Huron, where he has just been elected by a majority of six hundred, in order that Sir Richard Cartwright may be nominated.

THE ELECTORATE CHALLENGED.

It has been asked why some of the Conservative journals, and among them the Review, are already beginning to impress upon the Ontario voters the necessity of dismissing from power the Mowat administration, and why, contrary to our usual practice, we import Dominion politics into the coming contest.

Our answer is that it is not we but the friends of the provincial government who have imported Dominion questions, and have distinctly challenged the verdict of the electorate on these issues.

During the recent general election, Mr. Mowat, Mr. S. C. Wood and their colleagues, with all their army of officials, openly took part in the contest, which they urged was of especial provincial concern, so as to justify their interference. We know the result.

Their leading organ is even more outspoken in its challenge to the constituencies.

On Dominion Day the *Globe*, in one of its editorials, after asking why the promised foreign capitalists with their millions have not already arrived, proceeds as follows:—

"Probably they have heard that a provincial election takes place in Ontario next year, and have concluded to wait a little longer and see if the result indicates anything of a reaction."

Can anything be plainer than this. Is it not evident that a verdict in favor of Mr. Mowat's administration will be represented as a verdict hostile to the N. P., and will be used so as to deter foreign capitalists from coming here under the idea that we are steadfast in our fiscal policy. This is the great issue as laid down by our opponents, and we are ready to accept the challenge.

The Ontario electorate is called upon to say whether it adheres to its decision in favor of the National Policy, or whether it wishes the conclusion to be drawn that there is a reaction in favor of the old fiscal system under which the country suffered so severely.

The electors will remember how their vote in favor of the Mowat Government at the last general election for the Provincial Legislature was misrepresented, so at to deter cautious capitalists from investing among us, and they will not be led astray a second time by specious pretences. They meant what they said on the 20th of June, and they will adhere to their decision.

THE CONVENT SCHOOL.

Closing Exercises of the Scholastic Year of the Congregation de Notre Dame.

On Wednesday afternoon those who were favored with invitations betook themselves to the Convent de Notre Dame to witness the closing exercises of the pupils. The Right Rev. Dr. Cleary, Bishop of Kingston, presided, and among those of his clergy in attendance were the Monseigneur Farelly, Vicar Apostolic, (Belleville,) the Rev. Fathers Lynch, (Peterborough,) Keilty, (Ennismore,) Casey, (Campbellford,) Quirk, (Hastings,) Brown, (Port Hope) and Connolly (Peterborough). Sister Superior St. Thecla, of St. Mary of the Lake, Kingston, and Sister Irenæus, of the City School, Kingston, (who founded the *Congregation de Notre Dame*, fifteen years ago,) were also present as guests of the sisters.

The rooms were tastefully decorated with flowers and with inscriptions of welcome to his lordship.

After the grand entrance march, a choral song of welcome was sung by the whole body of the pupils, who in row upon row, clad in spotless white, and with bright faces, greeted the guest and bishop. The singing of Messrs. Fairweather, Tierney and Dunn was much admired.

An address, admirably spoken by Miss Annie Dunn, called forth some kind words and a benediction from his lordship.

The little ones then tendered their greeting, of song, floral offerings and address, prettily spoken by Miss Maud Morrow, who presented a beautiful bouquet, and received the episcopal blessing. Each little girl, who had delivered a few words appropriate to the flower she bore, (the bearer of the shamrock receiving a special recognition,) advanced in turn, and offered her particular tribute.

Miss Annie Delaney then showed her own musical talent, and the able tuition of her instructress, by her performance of Irish airs on the piano.

Then followed a charming little operetta, "The Choice," in which a maiden entering upon life (Miss Minnie Henry) had to choose between the allurements offered by Frivolita, (Miss Maggie Lynch,) attended by Sport, (Miss Katie Rogers,) and Mirth, (Miss Minnie Wyer) as contrasted with the more sober attractions of Celesta, (Miss Margaret Cahill) with her attendants Reason (Miss Mary Fitzpatrick) and Religion (Miss Maggie Wall). When the maiden hesitated between the rival inducements, Conscience (Miss Mary Lauder) came to the rescue, and the choice was confirmed by the appearance of Folly (Miss Cecilia Harvey) Falsehood (Miss Katie Simons) and Shame (Miss Alphonsine Lemay), who showed that they ever followed in the train of Frivolita. The several parts as described, and the choruses were all given in a manner that deserved great praise and made up a very pleasing performance.

The following prize list was then read:—

JUNIOR CLASS.

Silver Medal presented by the Mother Superiors, merited by Miss Katie Lynch, Miss Katie Calcutt, Miss Maggie Doherty, Miss Maggie McCabe, Miss Annie Tobin, Miss Clara Curran, Miss Lizzie Donegan, Miss Emily Carew, obtained by Miss Katie Lynch.

SENIOR CLASS.

Silver Medal presented by Rev. Father Lynch P. P., for punctual attendance at School, and application to study, merited by Miss Mary Fitzpatrick, Miss Mary Ann O'Connell, Miss Catherine Rogers, Miss Kate Martin, obtained by Miss Mary Fitzpatrick.

Miss Mary Tierney, Miss Annie Dunn and Miss Azeline Mercier also merited this prize for application, but could not obtain it on account of frequent absence from school.

INSTRUMENTAL MUSIC.

Silver Medal presented by the Mother Superior, awarded to Miss Annie Delaney.

Silver Medal presented by Rev. Father Lynch awarded to Miss Mary J. Morency.

Silver Medal presented by his lordship, Right Rev. James Vincent Cleary, D. D., Bishop of Kingston, for general excellence in deportment and application to study, competed for by the Pupils of the senior class, awarded to Miss Margaret Ellen Cahill.

His Lordship presented the several medals to their winners with a few kind words to each of congratulation and encouragement.

The little ones again came forward and sang in chorus "Many Happy Returns," the solo part being given by Miss Charlotte Watson in an admirable manner for so young a musician.

Miss Mary Tierney then delivered on the part of the pupils an address of thanks to the Bishop for his presence and assistance at their closing exercises, the whole of the pupils kneeling as the episcopal benediction was given to them.

Bishop Cleary then delivered an eloquent address to which space will not allow us to do justice. He expressed his pleasure at being present on this occasion, and witnessing this specimen of their training. He was pleased with the evidence of their varied talents, pleased with their whole deportment, and pleased with the sight of their cheerful, innocent countenances. They had showed the attention they had paid to their studies, and he trusted they would always grow in grace, wisdom and virtue till they became good, holy, virtuous women. They had a high and holy duty before them. It was they who as wives and mothers, as centres of families, would mould the character of coming generations, and would have a most important influence on the future of this rising city. He had devoted a fortnight from his pressing episcopal duties to visiting the little children in the convents schools of his diocese, following the example of his Master, who had called the little children to him. He had gladly accepted their flowers as speaking the language of their souls, sweet and innocent, pure, beautiful and natural. Such an exhibition as they had seen partly showed the character of their training but hardly proved their acquirements in knowledge. He knew however from other sources that their elementary education, here as in other convents was equal to any in Canada, in spite of some disadvantages. Their moral education as christian women was his chief concern, and this he called upon them to cultivate. Referring to their scenic "Choice" he aptly enforced the moral of it, as representing a combat that took place in all breasts, and hoped that they would never forget the truth thus inculcated. He depicted in glowing terms the moral character of a virtuous woman, a more valuable acquisition than that of any worldly knowledge, though virtue and knowledge were both the gifts of God. He called upon them to take as their model the Blessed Virgin with her modesty, purity, humility, self sacrifice, and other christian virtues which made her an example for all women to follow. The present was their time of preparation for the future. They each had a place to fill, a choice to make, and they would find that the seemingly rugged path of duty brought them to enduring pleasures and happiness. They should attend to their duties at school now, and the principle would grow into a habit, but they must remember that christian duty founded on faith in our Saviour was alone of value. He bade them look to the nuns for an example, and to learn a lesson not only from their teaching, but from their lives and demeanour. He concluded his interesting address, of which this is only a faint and inadequate outline, by invoking a blessing upon the children here and hereafter.

Judge Dennistonn, Mayor Smith, Mr. James Stratton and Mr. William Cluxton, also spoke briefly, but warmly, of their gratification at what they had witnessed, Mr. Cluxton alluding especially to the excellent musical training afforded at the convent.

The finale was an instrumental quartette by Misses Delaney, Morency, Henry and Lauder, which well illustrated the truth of Mr. Cluxton's remarks.

Thus ended a very pleasing ceremony, which showed in a most gratifying manner the excellent and painstaken training bestowed upon their pupils by the sisters of the convent.

Killed by a Bee.

Napanee, July 3.—Nathan Briscoe, a farmer living in Ernestown, while handling bees yesterday, was stung on the forehead by one and died in about fifteen minutes. Briscoe was 73 years of age.

"Habiliment Hall." For the Newest, Prettiest, Perfect-fitting Linen Collar try Andrew McNeil.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Changeable weather is trying to the system, rendering it more liable to disease. As a preventative of sickness use Dr. Carson's Stomach and Constipation Bitters. They purify the blood, cure all Bilious, Stomach and Liver disorders, and give tone and strength to the system. Price 50 cents. For sale by J. D. Tully, Druggist.

J. C. ALLAN CO., 35 John street, New York. 402

A REFORMER ON THE VIRTUES OF CORRUPTION.

One strong Grit organ, the Orillia *Times*, cooly proposes that Ontario shall be gerrymandered at the forthcoming election in the interests of the Grits. It says:—

"Mr. Mowat is not only entitled, but is bound, in the interests of his party, to so arrange the constituencies that a Reform majority in the next Legislature will be assured beyond a shadow of a doubt."

Our reform contemporary is quite in earnest over the matter, and enforces its contention with what it doubtless considers to be solid and unimpeachable arguments. It goes on:—

"Our leaders may say that Mr. Mowat is safe in Ontario, especially while the Conservatives are in power at Ottawa, and that we should not sully our reputation by resorting to an expedient so unworthy. We have no doubt that as long as Mr. Mowat is at the head of the Ontario Government he will be sustained, but *nothing should be left to chance.*"

That is to say, the Despotic System of the Czar should be adopted in its entirety. Government by means of a Cabinet and Legislature should be at once done away with, as it was not long ago attempted to be done away with in Quebec by Letellier. Our Grit friends would desire to have everything so arranged, or, in other words, "FIXED," that the voice of the people may be forever stilled and disregarded. "Fixed!" that is the word. Our Reform contemporary says:—

"WE WOULD 'FIX' THE CONSTITUENCIES SO THAT A REFORM MAJORITY WOULD BE ASSURED FOREVER."

No doubt our tolerant Reform contemporary would like to see so close a monopoly of power in Grit hands that the old Family Compact would be quite thrown into the shade. And in order the more effectually to maintain the little despotism of the Little Premier, our cheerful Reform contemporary would cause a revolution in official life. The *Times* says:—

"We are not sure but we would kick out every Tory civil servant and office-holder in the Province."

That's the way to do it! Kick them out, and in their places put good, reliable, Grit henchmen. That policy was announced by certain members of the Ontario Government in their campaign speeches in Toronto. The spirit of intolerance there declared was equal to anything said by our exceedingly *liberal* contemporary of Orillia. And it is quite in accord with the sentiment of the Little Premier himself, as announced at the City Hall in this city in 1874, when he pointedly justified the purchase of votes by the saying that 'it was needful to fight the devil with fire.' The *Times*, following out the principle laid down by Mowatt on that occasion, declares its belief that "it does not pay to be honest in politics," and audaciously recommends a recourse to such dishonest tactics as may lie in the power of the Little Premier.—*London Free Press.*

THE "GLOBE" PROPRIETARY.

THE Toronto correspondent of the Montreal *Witness* gives the following account of the proprietorship of the *Globe*:—

"The dissatisfaction of a large number of Liberals with the course of the *Globe* makes it a matter of public interest to know who has a controlling interest in the Printing Company which owns the paper. In financial circles here it is stated that the largest single interest is that of the late Hon. George Brown's estate, which is represented by his executors, Mrs. Brown and her brother, Mr. Nelson, of Edinburgh. The representatives of the estate here are the legal firm of Messrs. Mowat, McLennan and Downey, Mr. McLennan representing the estate on the board of directors and being one of the most influential directors. A large amount of stock is said to be held by several of the banks, it being originally pledged as collateral security, and being retained, as it could not have been easily disposed of at the time. This interest is represented on the board by Mr. Lockie, formerly a banker, but now manager of a lumbering company. A large amount of stock is held by Mr. J. F. Taylor who is also a director, and the three directors named are those who have, or rather represent, the controlling power in the company. Besides these three large interests there is a good deal of stock held in smaller amounts by quite a number of people. The directors have hitherto left the entire control of the *Globe* in the hands of the managing director, but it may become a question with them as to whether some change may not be necessary under the circumstances. Mr. Mowat, as premier of Ontario, has a very direct interest in the *Globe*, being in harmony with the Liberal party in the province. His turn to go the country comes next. At the same time if he were to bring any pressure to bear, as head of the firm representing what is thought to be the largest interest, his direct influence over the *Globe* might soon be gone, the bank interest would only be to secure as large a dividend as possible. It is clear, therefore, that where the control will be in the future is somewhat problematical, if the present arrangement does not continue. It would be for the pecuniary interests of the shareholders that the *Globe* should be in harmony with the Liberals, as the establishment of a daily paper here to represent the party as led by Mr. Blake, could not but injure it financially. It would, however, be a very serious and expensive undertaking to start a new daily paper, and the chances are that a great effort will be made to secure harmony before any decided step is taken to secure a paper which will be in harmony with the policy of the Liberal party."

BASTINGS.

HOTEL TO BE RE-BUILT.—The *Star* says:—During the past few days a number of contractors have been in the village making estimates, with a view of tendering for the erection of two hotels, one for the Messrs. Fowlds Bros., and the other for Mr. Coughlin. That of the Messrs. Fowlds' will be, judging from the plans, a magnificent structure. As shewn on the plan, the frontage will be 136 ft., which will include three double stores and two single ones, the frontage on Bridge street being 80 feet. The building will be two storeys of brick, and a mansard roof forming the third storey 13 feet high. The whole is of a very neat design, John E. Belcher, Esq., Peterboro, being the architect. The plans for the Coughlin House are very similar to that which was destroyed by fire, and when carried out will be second to none in any town on the front. Mr. J. E. Belcher is also the architect.

FREAK OF NATURE.—One of those singular freaks which Nature occasionally indulges in may be seen on the farm of Mr. Wm. Richardson, on the Norwood road, in the form of a lamb with five legs, and three udders. The animal is large for its age, and appears to suffer no inconvenience from the additioual leg which is somewhat shorter than the natural ones.

Her Son.

Two ladies out walking met a gentleman. He raised his hat to one, and the other said, "Do you know that gentleman?" Oh, yes," the other replied. "His mother was my mother's only child." What relation was the gentleman to the lady?

Boys' White Dress Shirts in all sizes just received at "Habiliment Hall."

FROM ALL OVER.

THE Pope at a consistory made the Archbishop of Algiers a cardinal.

AT Brenham, Texas, W. Johnson, from Kentucky, was riddled with buckshot by Miss Christian, aged 18, for having circulated an infamous scandal about his fair assailant.

JERRY S. BISSELL, aged 78 years, dropped dead while hoeing potatoes in his garden at East Saginaw on Saturday.

JOHN F. SIMPSON, the wife murderer, was sentenced at Detroit on Saturday forenoon for life at hard labour in the Jackson penitentiary.

USELESS FRIGHT.—To worry about any Liver, or Kidney or Urinary Trouble, especially Bright's Disease or Diabetes, as Hop Bitters never fails of a cure when a cure is possible. We know this.

A SPECIAL from Peteosky says the Saturday evening train struck a tree seven miles south of Peteosky. The engine was badly wrecked. The engineer, Ed. Hoff, was badly scalded, and the Mail Agent, Harry Loselle, was bruised about the head.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. For sale by J. D. Tully, Druggist.

THE Senate bill, constituting Robert Garrett, and others a company to lay a cable from the United States to Europe, has passed, with an amendment extending the time within which the company are to begin laying the cable, to two years.

C. BRITTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sich Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

POINT ST. CHARLES.—Wm. Cullahan, Water Police, 206 St. Etienne street, Montreal, says Dr. Smith's Great German Worm Remedy was a decided success in his family. Had tried other worm remedies and doctors for four years without success. 25 cents—of John McKee, druggist, Peterborough.

THE Health Department of the city of Detroit reports 78 new cases of scarlet fever, 16 of diphtheria, and 7 of smallpox during the month of June. The deaths from each disease were thirteen, four and two respectively, and four cases are still under treatment for each disease.

SPECIAL DEPUTY SHERIFF, Mr. Michael Shelly residing at No. 28 Oliver Street, New York City, says: "My wife would not be able to walk to-day, but for the benefit she has received from St. Jacobs Oil. It is a most wonderful medicine; an unequalled remedy. My wife was an invalid when she began its use now she is well."

ROBERT STURGEON, employed at Andrews' shingle mill, above Saginaw City, Mich., was drowned in the Littabawasse river on the 24th ult., while bathing. The diseased was twenty-seven years and six months old, and was the eldest son of William Sturgeon, of Bervie, Ont.

Tree Plantations.

Mr. B. F. Peck, of Bethany, N. Y., affords an example of what can be done in forest culture. He began a plantation of trees on two fields six and eight years ago. He now has ten acres of trees on rather poor soil, which consists of a clay loam resting on shelf-rock near the surface. He grew European larches and Scotch pines. At two years from the seed these young larch and pine trees were transplanted to places where they are to remain, four feet apart each way, an acre thus containing 2,640. Those that have been set six years are now 10 or 12 feet high, vigorous in growth and branching so extensively as to make it difficult for one to pass through the woods. These are from two to three inches in diameter at the ground. Those set eight years ago are from 18 to 24 feet high, and from four to six inches through. The pines are planted out 16 feet each way. In a year or two Mr. Peck will begin to thin out the larches, using them for poles and small fence posts. The land is thought to pay as well in these trees as if planted to ordinary farm crops, while the advantages they afford in protection to other crops and to the farm buildings is inestimable. Mr. Peck believes if 20 per cent. of our older and rough cleared land was planted to forest trees, it would render the remaining 80 per cent. more productive and valuable than the whole now is.

Wooden Piping 250 Years Old.

Some recent excavations in Berkeley square, London, England, brought to light one of those curious relics of old London, which are every now and then being exposed in its streets. In the sixteenth century London was supplied with water from the Thames by means of wooden pipes invented by one Peter Morris, or Maurice, a Dutchman, who, in 1580, obtained a right from the corporation to erect machinery to supply what many housholders had been compelled to purchase, a tankard at a time, from water-bearers. Maurice's works were erected at Old London bridge, and his water pipes were hollowed out of the stems of trees, tightly fitted into each other, much after the manner of the common sewer pipe of to-day. Some wooden piping of the kind devised by this ingenious Dutchman has recently been dug up in Berkerley square, but it was probably part of the works of the New River Company, which so far adopted Maurice's plan that it originally supplied water through pipes formed of the stems of small elm trees, denuded of bark, drilled through the center, and cut to lengths of about 6 feet. Some 10 years ago a considerable length of this wooden piping was exhumed in Pall Mall.

$200.00 Reward!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Pine Pipe.

At Lycoming, Pa., a factory has been established by Bower & Wyckoff for the manufacture of wooden pipe, to be used in tanneries, in mines and by farmers. Two buildings are occupied, one as a factory and another for the storage of manufactured stock. The pipe is made of white pine, and is of four inch bore. The sections are eight feet in length, and of all thicknesses, as may be required. The small pipe used by the farmers is rendered durable and preserved from decay through being coated with asphaltum and rolled in sawdust. The factory averages from 1,200 to 1,800 feet of piping per day.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

PATENTS!

We continue to act as Solicitors for Patents, Careats, Trade Marks, Copyrights, etc., for the United States, Canada, Cuba, England, France, Germany, etc. We have had **thirty-five years experience.**

Patents obtained through us are noticed in the SCIENTIFIC AMERICAN. This large and splendid illustrated weekly paper, $3 20 a year, shows the progress of Science, is very interesting, and has an enormous circulation. Address MUNN & CO., Patent Solicitors, Publishers of SCIENTIFIC AMERICAN, 37 Park Row, New York. Hand Book about Patents sent free. 1dw&t

You Must Recollect

THERE IS NO LONGER ANY SUCH FIRM AS MUNCASTER & SANDERSON DOING BUSINESS IN PETERBORO', THE PARTNERSHIP HAVING BEEN DISSOLVED IN AUGUST LAST.

MUNCASTER'S

JEWELLERY STORE

Is Removed from the old Stand

AND IS NOW IN CLUXTON'S NEW BLOCK, WHERE HE HAS A FULL AND COMPLETE NEW STOCK OF WATCHES, CLOCKS, SILVER-PLATED WARE, JEWELRY, VIOLINS, &c.

WATCH REPAIRING

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.

Don't Forget the Place.—Cluxton's New Block, opposite McKee & Davidson's, George Street.

R. W. MUNCASTER.

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

Dept. of Railways and Canals, Ottawa, 22nd May, 1882. d127-2aw

Every description of Cabinet Ware kept in stock, or made to order. Jobbing and repairing done neatly and cheaply.

R. CHAPIN.

Lakefield, March 17th, 1881. 11w

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine: It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritating, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an Impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

W. JOHNSTON & CO., Manufacturers, AMHERSTBURG, ONT.

Daily Evening Review

THURSDAY, JULY 6, 1882.

LOCAL AND MUNICIPAL.

Cheese Market.

At the cheese market held here on Wednesday, 1661 boxes were sold at 10½ cents. Mr. W. H. Wrighton was the purchaser.

Fall Rye.

Mr. J. B. Fowler, of Smith, informs us that he can beat Mr. Dunlop's tall rye. He has rye that measures 7 feet 1 inch in height. Any more?

Municipal Holiday.

We notice that the Ottawa City Council, has voted itself three mont hs' holidays. Our own Town Council has not resolved upon any such well earned vacation.

In the Water.

On Wednesday evening, shortly after eight o'clock, three young men were rowing on the lake, and when about one hundred yards off McDonald's Point one of the oars slipped out of the row-lock and the boat capsized, upsetting the three occupants into the water. They swam to the Peint, which they reached in safety, though thoroughly drenched.

Personal.

The Winnipeg *Sun* has the following item in reference to two former residents of Peterborough :—

"The Club Hotel has been completely transmogrified, and the men who built it would hardly know it again. It is now in the hands of Mr. J. H. Daly and James Sheridan, and will henceforth be known as the Daly House. It has been thoroughly remodelled, carpeted, etc., and the bar will be run on the Bodega principle. The Daly House will rank A. 1."

The Weather.

The cold and wet state of the atmosphere having modified considerably, we are experiencing more seasonable weather, and are promised higher temperature. The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a.m. to-day, by the Great North-western Telegraph Company, are as follows :—Lakes—Moderate winds, fair weather and higher temperature.

Recently in Toronto.

At 75 Young street, over 500 physicians and suffers visited Dr. M. Souvielle of Paris, ex-aide-surgeon of the French army, using his wonderful instrument, the Spirometer, for the cure of catarrh, bronchitis, asthma and all the throat and lung diseases. The Doctor, or one of his surgeons, from the International Throat and Lung Institute, 75 Yonge street, Toronto, or 13 Philipe square, Montreal, office for Canada, will be at the Huffman Hotel, Peterborough, on July 3rd, 4th, 5th, 6th, 7th, 8th, and will have with him a supply of Spirometers and medicines. Physicians and sufferers can try it free.

Vandalism.

Only the other day we referred to the fact that Mr. Brundrett, the agent of the Midland Railway here, had greatly beautified the grounds by having handsome beds laid out and choice flowers planted. We now regret to learn that after the flowers had only been planted for one or two days, and had just taken root nicely, some person or persons unknown, under the cover of darkness, entered the premises and removed the best and most promising plants. Such an act is deserving of the severest censure, and it is to be hoped that the vandals will be discovered and dealt with as the law directs. For meanness, such a dirty trick surely takes the palm.

Annual Meeting of A. C. A.

The Toronto *Globe* has the following paragraph :—The annual meeting of the American Canoe Association has been fixed for August 8th, 9th, 10th, 11th, and 12th, at Lake George, N.Y. The first day is the reception and "Ladies' Day"; second, third and fourth days, races for various classes of canoes; fifth day, annual meeting of the Association and election of officers. Last year the A.C.A. gave Canada a Vice-Commodore in the person of Mr. E. B. Edwards, of Peterborough. The Vice-Commodore expects to visit Lake George this year with a party of canoeists. Three or four Toronto canoeists and their craft will also be at the A.C.A. meet, and at least two of them think they are going to bring some prizes home with them.

For a Perfect-fitting White or Coloured Shirt, with or without Collar, try "Habiliment Hall."

A Blank.

There were no cases before the Police Court this morning and no arrests last night.

Railway Guide.

We have received the July number of that useful publication "The A.B.C. Path-finder Railway Guide," published by the New England Railway Publishing Co., of Boston, U.S. The time-tables are very well arranged.

The Shaughaun.

A private telegram from Mr. W. Sailsbury, of Cobourg, says that the Shaughaun as played by Mr. Hind's Company is one of the best performances ever seen in the town, and drew one of the largest audiences of this season. They will perform in Bradburn's Hall here, to-night.

Vennor-able.

Mr. Vennor having predicted the weather correctly for Dominion Day, through a double-barrelled prophecy, is encouraged to come forward again with probabilities. He says we will have a rainy July and a fair but frosty September.

Vital Statistics.

The number of registrations made with the Town Clerk, Division Registrar, during the month of June were as follows :—Births, 6; Marriages, 2; Deaths, 4. The total number for the half year ending 30th June last, were as follows :—Births, 70; Marriages, 40; Deaths, 31. Total 141.

Excursion from Belleville.

The *Intelligencer* says that the first and only excursion of the season to Peterborough will take place on Wednesday, July 19th, under the auspices of the Ladies' Aid Society of St. Andrew's Church. The Drill Shed and grounds have been granted for the excursionists, who will be accompanied by the Oddfellows' Band.

Rowdyism.

If Chief Johnston or P. C. McGhee, would take a walk around the market building occasionally and scatter the crowds of young rowdies who congregate there every night making the night hideous with their clog dancing, mouth-organ playing, and profanity, they would confer a favour on the peaceful residents of that vicinity.

Presentation.

On Friday last Mr. John Braden was presented with a handsome alarm clock and an elegant gold compass by his promotion class in the public school, as a token of the esteem in which he is held by his pupils. The presentation was made by Miss Aggie Mercer, and Miss Sarah Richardson read an address on behalf of the class.

A Peterborough Poetess.

The Montreal *Post* in a report of the closing ceremonies at Ville Marie Convent, thus discribes a poem by Miss Fitzgerald the gifted daughter of Mr. J. W. Fitzgerald of this town :

"An original poem written by an ex-graduate, Miss Fitzgerald, was read by Miss Dowling with exquisite taste and effect. The poem itself is an admirable piece of literature, being beautifully poetic. It was entitled "Our Mountain Home," and is a clever production, and highly creditable to the young poetess."

An Escape.

On Wednesday afternoon, Mrs. Sheehan, who is employed about the Midland Station, was standing on the steps of a car when the train started. She sprang towards the platform, but slipped, and as she did so, her dress caught on the car. Luckily, however, the dress was not of strong enough material to bear the strain, but gave way and tore free from the car, or the result might have been of a more serious nature than a fright and a narrow escape.

The Ontario & Quebec Railway.

We have much pleasure in being able to announce on undoubted authority, that the Ontario and Quebec Railway Co.'s after many surveys, have at last the correct out actual purchase of some two acres of land immediately west of George street, on Wolfe street, for the use of the Company—the money therefore having been paid over. This is the most conclusive proof that the Company are in earnest, and that they propose to push the road through to early completion.

Railway Notes.

The *Ontario* says that Ellis was the third Belleville boy that has met with an untimely end on the Grand Junction Railway during the past eighteen months.

We learn from the *Intelligencer* that the frame work of the superstructure of the new Midland elevator at Belleville, is now almost completed, ready to be put together. All that is now necessary before the active work of erection can be commenced is for the site to be selected and the piers sunk.

Ashburnham P. S. Honor Roll.

The Honor Roll for the Ashburnham Public School for the month of June is as follows :—

Grade I. (a)—J. Anderson, A. Smith, J. Cumming's, H. Bennett. (b). E. Faint, F. Pakenham, G. Overton, G. Phillips, B. Cathcart.

Grade II. (a)—Stanley Mathews, Frank Eano, George McWilliams, Effie Bennett, Martha Emery, Katie Phillips. (b) Lizzie Beattie, Charles Crowe, Aggie Wills, Archie Wood, Andrew Forsythe, Thomas Burnham.

Grade III. (a)—Robbie Dormer, Fred. Cook, Maxwell Anderson, James Reid, John Pollock. (b) Minnie Hamilton, Robbie Erskine, Maud Dawson, Minnie Davidson, Harold Jewett, Thos. Cattecart.

The Twelfth.

Active preparations have commenced for the celebration in Peterborough of the twelfth of July, next Wednesday. The work of erecting the arches has begun, four of which will be placed on the principal corners. One is being put up on the corner of Water and Hunter streets, and another will be placed near the Post Office, the third on the corner of George and Hunter streets, and the fourth on the corner of George and Simcoe streets. The arches will be constructed by placing a pole in the centre of the square and forming the arches from it by means of wires and ropes, handsomely decorated and stretched in the four directions to the four corners of the square. More arches may be erected, but it is not yet decided.

DECOYING FEMALE EMIGRANTS.

Notice from the Women's Protective Immigration Society.

Quebec, July 3.—The supposed decoying away of three immigrant girls from the steamship Hibernian, in this port, was first reported by despatches from Montreal; nothing is known of the matter here. The following appears in the Montreal and Quebec papers :—

"Notice.—Three young women named respectively Emily Maria Dow, Florence Alice Dow, and Mary Hughes, are supposed to have been decoyed from the steamship Hibernian, at Quebec. As they have been sent out from England directly to the undernamed society, information concerning their whereabouts is earnestly requested, and should none be forthcoming within a week of this date, prompt measures will be taken to discover them.

G. H. Mussen,
"Hon. Sec. Women's Protective Immigration Socy."

ENNISMORE.

From Our Own Correspondent.

Weather Notes.—June has come and gone, and although rain fell on 16 days to the depth of 3.54 in. the medium temperature has stood wel at sunrise and set, namely 56.11-30°, while June of 1881 only averaged 52.10-30°. The lowest temperature indicated was on the morning of the 2nd, being only 34°, and the highest on the evening of the 27th, namely 80°, and at 2 o'clock p. m. 92° in the shade. We had frost on three mornings, namely, on the 2nd, 12th, and 13th, respectively, but doing very little damage. We had five thunder storms, one especially very severe on the 17th, accompanied with hail.

Harvest Prospects.—The crops have made rapid progress during the month. Fall wheat is now headed out, barley is fast following suit, and other spring grains will soon do so.

An Unlucky Week.—In the beginning of the week Mr. Hickey broke the tongue of his waggon, the day following he borrowed a neighbor's to go to Peterborough, and in coming home with a load lost a tire, and finally broke the wheel badly. P. Killin's horses got frightened coming to a bee, ran away and injured a new waggon somewhat, but the horses, although one was upset and the other had some logs on the top of it, were little the worse. To wind up on Thursday C. Louel's team ran away from the cheese factory, from the raising of the safety valve, spilling a quantity of milk, breaking a number of cans badly, and considerably damaging the spring wagon used for hauling the milk. As he is afraid to risk his horses at the same place, Robert Weir will now take his rounds for the remainder of the season.

OTONABEE.

Honor Roll of S. S. No. 7., Otonabee, for the month of June, W. M. Wood, Teacher :—

Fourth Class—Maggie Rubidge, 1st; Florence Rubidge, 2nd.

Third Class—Jennie Thompson and Donald McFarlane, 1st; Annie McFarland, 2nd; Matilda Carey, 3rd; Bert McIntyre, 4th.

Second Class—Mary Comrie, 1st; Vina McFarlane, 2nd; Effie Hunter, 3rd; Ida Mary Howson, 4th; Emma Jane Taylor, 5th.

Jr. Second—Amy Drummond and Mabel Throope, 1st; Mary Drummond, 2nd; Aggie Carey, 3rd; D. F. McFarlane, 4th.

Sr. Part II—Ada McFarlane, 1st; Ida McFarlane and Mary McFarlane, 2nd; James Lang and Eliza Doris, 3rd; Fred McIntyre, 4th.

Jr. Part II—Willie Taylor, 1st; Joseph Hunter, 2nd Evie Drummond, 3rd; Eva Howson, 4th.

Sr. I—Chas. Thompson, 1st; Herbert Doris, 2nd; Joe. Doris, 3rd.

Jr. I—Herman Howson, 1st; Scott McFarlane, 2nd.

Average attendance for June 40.

HAMILTON.

A Close Call.—The Rev. T. W. Jeffery went out on Tuesday afternoon in his skiff, taking Miss Allen and Miss McQuarie with him. The wind was blowing pretty fresh from the east, and a heavy sea was running. While rounding to near the Brant house at Burlington Beach the skiff capsized, immersing all three. Mr. Jeffery and Miss Allen clung to the boat; Miss McQuarrie was floating about 15 or 20 feet from it. She sunk once or twice, but Josie Thompson, son of Robert Thompson, witnessed the accident and rushed into the water and rescued Miss McQuarrie, after which he went to the assistance of Mr. Jeffery and Miss Allen and brought them safely to shore. It was a mercy the accident occurred so near the shore, or there would have been another record of loss of life.

Our Balbriggan Underwear are the admiration of all who see them. All sizes at "Habiliment Hall."

THE Rev. Charles E. Piper, formerly of Pittfield, N. H., but now of Wakefield, R. I., writes :—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

Special to the Review, July 7.

THE Montreal, Ottawa and Western Railway Company, which was the original Company to get the charter for the present Quebec, Montreal, Ottawa and Occidental Railway, and built the road from Montreal to Aylmer in 1875, has to-day commenced a great enterprise, that of continuing the road from St. Jerome to St. Agathe, thence to the Valley of the Red River, to tap the Gatineau Railroad, at Desert 100 miles from Ottawa, and thence in the direction of Lake Temiscamingue to join the Canada Pacific Railway, a total length of about 200 miles. At a meeting of the shareholders the following among others, were elected Directors: Hon. Mr. Chapleau, Hon. Mr. Beaubien, Hon. J. J. C. Abbott, Mr. Tassempand, and Mr. Natull, M. P.

DUNBAR BROWN, imprisoned for embezzling Inland Revenue funds, has been pardoned after serving three years of his sentence of five years.

AN EXCITED MEETING of shareholders of the Lake St. Francis Navigation Company is being held to consider the offer from the Richalieu and Ontario Company to purchase their steamers. Mr. Senical has secured the controlling influence, the other shareholders vigorously protesting.

GUITEAU'S REMAINS.

The Body Quietly Removed to the Army Medical Museum.

WASHINGTON, July 5.—The *Star* says that on Monday night a waggon drove into the enclosure of the gaol, and was for a short time out of sight. When it reappeared it was driven to the city, and into one of the alleys through which the rear part of the Army Medical Museum is reached. The waggon without any doubt contained the body of Guiteau, but few of the gaol guards knew even of the departure of the remains. At the Army Medical Museum to-day none of the physicians would say anything about the whereabouts of the body or what will be done with it. Dr. Lamb said decidedly:—"I don't know anything." Before it was decided to bury the body in the gaol, Warden Crocker had an understanding with Dr. Hicks that it should be removed to the Medical Museum. The warden, when questioned to-day, seemed rather displeased. He said:—"If the body is not at the Medical Museum it will be there in a day or two." It was the warden's intention not to make the fact of the exhumation public for some weeks.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d32w9

A REWARD—Of one dozen TEABERRY to any one sending the best four line rhyme on TEABERRY, the remarkable little gem for the Teeth and Breath. Ask your druggist for address.

TEABERRY whitens the teeth like chastened pearls. A 5 cent sample settles it.

MIDNIGHT TELEGRAMS

CABLE.

COMING TO AN ISSUE.

LONDON, July 6.—During the afternoon there was a rumour in the House of Commons that the first shot was fired by the fleet, but when the question was put by Sir Stafford Northcote, Mr. Gladstone said that the Government had no information that hostilities had begun; but he said that Admiral Seymour had full instructions to act. The rumour seems to have arisen from Sir Charles Dilke coming to the House with an important dispatch for Mr. Gladstone, looking very pale and anxious. It is evident that the firmness and determination displayed by England during the last few days are bringing matters to an issue, and that things must be brought to a crisis very shortly, possibly within a few hours. There is a great stir at the Government dockyards and in the depots for the reserves, whither arms are being sent, preparatory to the reserves being called out. There is great activity at the War Office, where everything is in readinesse to despatch 20,000 men to Egypt. All the officers have been appointed and the mobilization is complete.

NO MORE OPPOSITION.

LONDON, July 6.—Mr. Parnell announced that his party did not intend further to oppose the Repression bill.

FRENCH TREACHERY.

ALEXANDRIA, July 6.—Arabi Pasha's answer does not satisfy Admiral Seymour, who sent out a call on the English war ships. The French are encouraging Arabi to resist.

TURKEY WAVERING.

CONSTANTINOPLE, July 6.—Serious doubts are again expressed regarding the entrance of Turkey into the conference.

ARABI STILL DEFIANT.

ALEXANDRIA, July 6.—Although Arabi may yield at the last moment, he still preserves a defiant attitude. Admiral Seymour has received a reply to his ultimatum, stating that the report as to the work upon the batteries and forts is untrue.

GOING TO EGYPT.

MALTA, July 6.—A Spanish ironclad has arrived at Malta on the way to Alexandria.

STATEMENT BY MR GLADSTONE.

LONDON, July 6.—In the House of Commons to-day Mr. Gladstone said that though he quite recognized the merits of M. de Lesseps he could not be guided by him on the policy to be pursued in Egypt. He said it was not his intention to propose a vote of credit for warlike operations, because such measures at present would not be justified.

THE FIRST ARMY CORPS.

LONDON, July 6.—The constitution of the first army corps is now settled. Fifteen thousand men of the corps go from England to Egypt and the rest from India.

THE FRENCH FLEET.

PARIS, July 6.—The French Cabinet has considered the instructions given to the commander of the French fleet in view of the possibility of the English fleet bombarding the defences of Alexandria. It is understood that they decided that he shall remain passive, and only participate if provoked by some act or incident.

THE REPLY TO THE ULTIMATUM.

ALEXANDRIA, July 6.—Toulla Pasha, commander of the garrison at Alexandria, replying to the ultimatum, assures Admiral Seymour that no such hostile act as he apprehends has been or will be taken. He concludes with an appeal to the Admiral's well-known humanity.

EGYPTIAN SECURITIES.

LONDON, July 6.—Egyptian securities closed firmer to-day, on the report that Turkey had consented to enter the conference.

THE RESERVES.

LONDON, July 6.—It is stated the Government will summon the reserves on Monday.

THE COMMAND.

LONDON, July 6.—Sir Herbert Macpherson will command the force to be sent from India to Egypt, with General Hughes and Col. Tanner as Brigadier-General.

THE SUEZ CANAL.

MADRID, July 6.—The Spanish Government has received a despatch from Alexandria asserting that Egyptian bands have attempted to cut the Suez canal.

DENOUNCED.

DUBLIN, July 6.—The Archbishops and Bishops of Ireland have prepared a circular to the priests directing them to order the discontinuance of the Ladies' Land League, and forbidding females to attend public meetings without the consent of their parish priest.

THE RUSSIAN JEWS.

ST. PETERSBURG, July 6.—Count Tolstoi has instructed the Russian frontier authorities to do all possible to facilitate the return of the Jews.

POLAR EXPEDITION.

AMSTERDAM, July 6.—The steamer Varna, conveying the Dutch section of the Polar expedition, has sailed from Amsterdam for Dickson Haven.

AMERICAN.

STAR ROUTE CASES.

WASHINGTON, July 6.—It is reported that James B. Price, indicted with Brady in what the Government regard as a very strong and easily proven case, has fled to Canada. It is understood the Government is making every effort for his apprehension.

CRUELTY.

DETROIT, July 6.—Two Cadillac boys, aged 12 and 8, are reported to have taken a six-year-old playmate into the woods, bound him to a log, whipped him cruelly, and afterwards burned him with matches.

ANOTHER TORNADO.

COLUMBUS, Kansas, July 6.—A tornado swept this section; trees were uprooted, stacked grain scattered, corn cut down, and all property touched by the wind wrecked. J. P. Thomas' house was demolished, and six persons injured; one boy may die. Mrs Davis' kitchen was blown down, and the side of her house blown in; she and her child were badly hurt. Best & Son's new mill was damaged. At Girard and Balkhap much damage was done. The farms and towns in Crawford county were visited, and the grain levelled. Peter Crawford and James Arrowsmith are reported dead, and their families injured by being blown away.

V. EDMISON OF BRADFORD, writes:—Burdock Blood Bitters is an excellent preparation, gives entire satisfaction, and sales increasing every day, it sells now on its merits:—Burdock Blood Bitters cures Scorfula, Liver Complaint, Dyspepsia, and Kidney complaints, in their worst form.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE ARREARS BILL.

LONDON July 7.—The House went into committee on the Arrears bill at 2.15 a. m., and reported progress.

ARABI'S VIEWS.

ALEXANDRIA, July 7.—Arabi Bey said yesterday, that England had no more right to interfere in Egypt than any other nation, and she must be content to accept such a position. Egypt will pay her debts, but will allow no intervention of any kind. European employees will be retained in the country so long as Egypt employs them. The lives of Europeans are safe unless England acts aggressively, in which case the people might rise and carry all before them. Arabi complained bitterly of misrepresentation on the part of the correspondents, and said that if Turkish troops are sent to suppress the Egyptians the army will resist to the utmost. "If they come to help us," he said, "we will receive them as brothers." Should European troops of any kind interfere they will fight to the death. He announced himself loyal to the Khedive, but refused to answer a question about Dervish Pasha. While Arabi was most bitter against England, he did not allude to France or any other power. One of his aides stated that a Monternegrin was arrested for attempting to shoot Arabi yesterday.

SKOBELOFF DEAD.

MOSCOW, July 7.—General Skobeloff, the famous Russian General, suddenly died at the Hotel Dussand here.

BRITISH VESSEL BLOWN UP.

PARIS, July 7.—A private report says a British vessel was blown up at Alexandria.

THE CONFERENCE.

PARIS, July 7.—It is officially said that the Conference has agreed upon the terms of the invitation to the Porte to interfere in Egypt.

GEN. WOOD.

MALTA, July 7.—The British despatch steamer Salamas has sailed for Brendsaia to bring Gen. Sir Evilin Wood here.

MILITARY PREPARATIONS.

LONDON, July 7.—Military preparations continue. Yesterday all the officers first Battalion Scots Guards were ordereed to rejoin the regiment. Two battalions at Aldershot have been ordered to embark for Egypt.

AMERICAN.

TEXAS CORN.

CHICAGO, July 7.—A stand of corn from Texas, 9 feet 10 inches high, was yesterday exhibited at the Board of Trade. A letter accompanying it says that the Texas corn crop will be about 140,000,000 bushels this year against 70,000,000 bushels in 1880. If this be so Texas will have a good deal of corn to spare.

EXTENSIVE FIRE.

SAN JOSE, Cal., July 7.—There was a large fire here yesterday. The loss amounts to over $100,000. Several workmen barely escaped alive.

WILL NOT RESIGN.

BOSTON, July 7.—The *Herald's* London special says Mr. Lowell says he would not resign under fire, and has too much respect for what he believes best for the people of America to accede to the blatant demands of the most violent elements of American society.

A RISING IN IRELAND.

NEW YORK, July 7.—A Dublin dispetch says it is generally believed that a rising of Irishmen is imminent. The crisis in Egyptian affairs and the military embarrassment of the Government are regarded by the Irish revolutionary leaders as furnishing the long sought for opportunity.

ANNUAL DRILL.

The last Canada *Gazette* contains the following regulations for the annual drill of 1882-83, Dominion of Canada:—

1. In order that the expenditure for drill and training of the Active Militia of Canada for the fiscal year 1882-83 may be kept within the appropriation made by Parliament, the strength of corps to be drilled and paid for that year has been limited as under, viz:—

Corps of Infantry and Garrison Artillery (excepting the Battery at Victoria, B. C.,) are not to exceed 42 non-commissioned officers and men per company and battery including regimental staff-sergeants and bandsmen.

Field Batteries—1 captain, 2 1st lieutenants, 1 2nd lieutenant, 1 surgeon, 1 veterinary surgeon, 1 sergeant-major, 1 quarter-master-sergeant, 4 sergeants, 4 corporals, 4 bombardiers, 1 trumpeter, 1 farrier, 58 gunners and drivers and 29 horses, including the officers' and non-commissioned officers' horses.

City and Rural Corps.—2. The maximum number of officers, non-commissioned officers and men to receive pay for drill in each district will be: Military District No. 1, 2,559; No. 2, 3,573; No. 3, 2,048; No. 4, 1,417; No. 5, 3,229; No. 6, 1,385; No. 7, 2,293; No. 8, 1,476; No. 9, 2,249; No. 10, 450; No. 11, 300; No. 12, 428; total, 21,407.

The strength of corps authorized to drill at their local head-quarters in each district is to be deducted from the total strength authoized for drill in the district, the remainder will represent the number which may be concentrated in a camp of exercise.

Boys' White Dress Shirts in all sizes just received at "Habiliment Hall."

BRIGHT'S DISEASE of the Kidneys, Diabetes and other diseases of the Kidneys and Liver, which you are being frightened about, Hop Bitters is the only thing that will surely and permanently prevent and cure. All other pretended cures only relieve for a time and then make many times worse.

POINT ST. CHARLES.—Wm. Cullahan, Water Police, 206 St. Etienne street, Montreal, says Dr. Smith's Great German Worm Remedy was a decided success in his family. Had tried other worm remedies and doctors for four years without success. 25 cents—of John McKee, druggist, Peterborough.

IF MOTHERS and nurses would cease giving opiates in the guise of paregoric, and cordials, and for children teething and subject to bowel complaints, give instead Dr. Fowler's Extract of Wild Strawberry, the lives of many infants might be saved that are sacrificed to deadly drugs.

Daily Evening Review

FRIDAY, JULY 7, 1882.

THE RIGHT OF VETO.

At length the *Globe* attempts an explanation, which it was long ago challenged to make, of the Hon. George Brown's advocacy of the power of the Dominion Government to veto provincial legislation. At the head of its article it places the following extract from a speech of Mr. Geo. Brown during the Confederation debates :—

"We have retained in the hands of the General Government all the powers necessary to secure a strong and efficient administration of public affairs. By vesting the appointment of the Lieutenant-Governors in the General Government, and *giving a veto for all local measures, we have secured that no injustice shall be done, without appeal, in local legislation.*"

This seems plain enough, but as the "*Globe*" is unwilling to disavow its old head, it is driven to the alternative of arguing that he did not mean what he said. That veteran Reformer generally knew pretty well what he did mean, and said pretty plainly what he meant.

After a long rigmarole about "absolutism" and our American neighbors and conflicts as to jurisdiction, &c., the *Globe* proceeds :—

"Mr. Brown says the General Government has been given "a veto for all local measures." No one disputes the fact. The question is as to the nature of the veto and the cases in which it may be legitimately used. Its purpose was, we are told, to secure "that no injustice shall be done without appeal in local legislation." Mark these significant words. In more than one of the Provinces there were known to be troublesome differences of race and creed. The founders of the Dominion did not propose to place the minority in any Province absolutely at the mercy of the majority, from whose national or religious prejudices they might, it was comceivable, suffer injustice. Hence the just and natural reservation to the minority of the right of appeal, and to the Central Government of the right to veto unjust legislation upon "*appeal.*" We confidently submit to those who are conversant with the history of Confederation and with the events which led to it, if this is not the natural interpretation to be put upon the veto clause. It was meant first to avoid conflict on questions of jurisdiction, and second to guard the rights of minorities who might otherwise think those rights prejudiced by the removal of the old safeguards."

It is all very well now for the *Globe* to say that no one disputes the fact of the General Government having a veto for all local measures. When it was a question of making political capital, the *Globe* and Mr. Blake and their followers vowed that the Dominion had nothing to do with matters within local jurisdiction, and that the Provinces, within those limits, had a right to go wrong if they liked. Of course that nonsense has now to be given up. If Mr. Geo. Brown had intended his words to apply only to minorities in "race and creed," he would have said so, and not have extended them to all cases. And as to the right of appeal by a minority against unjust legislature, it was precisely because Mr. McLaren was in the minority that Mr. Mowat confiscated his property to bestow it upon that member of the majority, Mr. Caldwell. The legislation was most unjust, and upon an appeal to the Dominion Government it was righteously disallowed for the protection of individual rights of property.

Mr. Mowat had not even the excuse that Mr. Caldwell could not protect his own interests without invading his neighbor's property, for he had only to get four others to write with him to form an association, and he could have legally obtained possession of Mr. McLaren's property, like a railway company could, by *paying the fair value for them.* This, however, was just the point of difficulty with Mr. Caldwell ; he did not wish to pay the fair value for his neighbor's property, but to seize upon it without compensationand Mr. Mowat was weak enough to yield to his solicitations. At this very moment more than one company is in process of formation to acquire such rights over lumbering streams, and Mr. Caldwell could have adopted this step if he had not relied upon a friend at court, in the person of the too complaisant Mr. Mowat.

BLAKE'S MISSIONARY TOUR.

Splendid Results to the N. P. Party in the Maritime Provinces.

Some time since we called attention to the good work accomplished by Mr. Blake during his missionary tour of the Maritime Provinces last fall, and the splendid service he has rendered the cause of the N. P. Wherever he went the result of his speeches was to induce the people to go into every branch of industry that he had been denouncing—sugar refineries, cotton and woollen mills, etc.

We did not, at that time, however, foresee the great political services he had rendered the Liberal-Conservative party in the Maritime Provinces. He did more for us in 1882, than even Mackenzie and Cartwright did in 1878. Let us recount his services and—return him our most sincere thanks.

He spoke in St. John—and Sir Leonard Tilley's majority has been increased from 9 to 136!

He went to Queen's, N. B.,—and Mr. King's majority has been reduced from 513 to 242 !

He spoke in Woodstock—and Farmer Irvine, M. P., has been converted to the National Policy !

He went to Chatham,—and Mr. Snowball, with his Grit majority of 206, was so afraid of the people that he allowed Hon. Peter Mitchell to be returned by acclamation !

He went to Charlottetown,—and secured the defeat of ex-Governor Laird by 400 majority!

He went to Pictou,—and increased Mr. McDougall's majority from 223 to 312.

He went to Richmond county,—and the result was that Mr. Flynn, who has represented that county for a dozen years or so, was beaten !

He went to Inverness,—and Mr. S. McDonnell, who has represented the country since 1878 has been beaten by nearly 900 votes !

He came to Halifax,—and Jones and Fuller are both beaten !

He went to Hants,—and ensured the election of Mr. Allison !

He held a demonstration in Kings,—and Dr. Borden is defeated by nearly 400 votes !

He went to Yarmouth,—and Mr. Killam's majority of 541 in 1878 is now converted into a minority of 300 votes !

He went to Westmoreland,—and Sir Albert Smith's majority of 600 in 1878 is now converted into a minority of 500 votes !

Space fails to tell all the good he has done us. We should rejoice to welcome him again just before the next general elections, when we may hope to return a united delegation of Liberal Conservatives.—*Halifax Herald.*

BALOONING IN ENGLAND.

A Very Serious Accident to Sir Claude de Crespigny, Bart.

A very large crowd assembled at Maldon, Essex, on June 10, forenoon, to witness the ascent of the baloon "Colonel." It had been intended that Sir Charles Champion de Crespigny, Miss Agnes de Crespigny, and Mr. Joseph Simmons, the aeronaut, should attempt an aerial journey to France ; but Mr. Simmons thinking the lifting capacity would be insufficient, it was decided that the gentlemen alone should venture. On the aerostat being inflated with about 400,000 cubic feet of gas, Sir Claude de Crespigny and Mr. Simmons took their seats, and the order was given to loose the ropes, but some of the men failing to do this promptly, the car was jammed twice against a brick wall, and Sir Claude de Crispigny's leg was broken in two places just above the ankle, as were several of his ribs. He therefore left the car, and a few minutes later Mr. Simmons ascended alone amid loud cheers. The baloon took a south-easterly course across the Straits. The accident was caused by the gale blowing hard at the time. The baloon therefore dragged very much at starting, and bounded so violently against a brick wall as to fracture Sir Claude's leg, and he fell out when about 15 feet from the ground. The accident was witnessed by Lady de Crespigny and Sir Claude's sister, Miss Agnes de Crespigny. Sir Claude believes that his leg was fractured by the concussion of the car with the brick wall. On seeing that a collission was inevitable, he placed his feet firmly against a ballast bag, and on looking down after the bumping he saw that his foot was twisted nearly round. An old man, Milligan, was also caught by the baloon as it flew up, and had his ribs badly broken. Mr. Simmons had his hand severely cut.

THE ASCENT.

When Sir Claude was out of the car the balloon rapidly shot up. The last seen of Mr. Simmons was that he was without a hat, and was waving his hand to the assembled crowd, but was perfectly cool. He descended at Arras, in France, and gives the following account of his voyage :—I had much difficulty in making the ascent. After the balloon came into collision with the brickwork adjoining the wall of gasworks a number of men made a rush to seize her ; but they found it impossible to hold on against such a wind as was then blowing, and they entreated me to get out. I was too much knocked about to assist Sir Claude de Crespigny, having hurt my arm, and my side seemed to be "caved in." Sir Claude being out of the car, I had to replace ballast equal to his weight, allowing a very great margin for ascending power. In fact, when Sir Claude de Crespigny and I got in 1,000 lbs. of ballast were in the car. The balloon lifted with great force, and, throwing out more ballast, I made sure of clearing everything, as the clouds were very low, and I was anxious to see which way I was going. A few minutes after I had started I heard the breakers, which satisfied me that the wind was a true one from the earth's surface to a great atitude, and I came down to have a look at the sea. The sound of the breakers I had left behind me ; but in a few minutes there was a similar sound, and I concluded I was right for France, for I could just perceive a sandy coast-line before me. I did not remain too long out of sight of land and water, and when I again dipped below the clouds I was over land. I guessed in must be Kent, and a few minutes later I was just to the west of Deal. Every house was very distinct. It was exceedingly difficult to keep low enough to be under the clouds, so as to see around me all the coast line, and at the same time to be high enough to get a good sweep of it. At 1.45 I was over the chalk cliffs between Dover and Deal, and a very few minutes later I was over the Calais-Douvres steamer, and could see the passengers was waving to me. Twelve minutes only were occupied in passing from the English chalk cliffs to the French coast. I was near enough to Calais to see all its streets and objects of interest. I now took off my Cork jacket and at this moment I remembered that I had not money enough to return from a long distance. I believed by what I afterwards experienced that the kind-hearted French people would have passed me back from any distance in their power, but I did not know so much about them at the time, so I began to look out for a suitable landing place. There was nothing in my track that I could fix my grapnel to, so I went on looking out, for hedges and ditches till I thought I was nearly 200 miles into France. Nothing was passed but fields. At last I had a large city just before me, and I came low enough to get a hearty greeting from the people, who ran into the principal place of quadrangle to look. Some of them told me that the place was called Arras. I passed over to the other side of the town, and determined to descend shortly, for it was no use to wait longer for hedges and ditches. The grapnel began to tug away at the standing crops, and I went bundling over them for about two miles, while I was crippling the balloon, and at last the car had pushed its way enough to collect a mound sufficient to put a stop to the trip. The rustics soon came up to help me. M. Dubus of Arras, Pas de Calais, was kind enough to convey me back to Arras. After being hospitably entertained by many kind people, I took train to Calias, steamer to Dover, and here I am at home, safe and sound, at 6 a. m. on Sunday. I brought my balloon back with me unhurt, excepting that it was very muddy.

$200.00 Reward !

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is entended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of Hop Bitterf published in papers or for sales as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted. Hop Bitters Mfg. Co., Rochester, N. Y.

Personal ! To Men Only !

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

THE Rev. Charles E. Piper, formerly of Pittfield, N. H., but now of Wakefield, R. I., writes :—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

THROUGH the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

LINDSAY.

LINDSAY, July 5.—Intelligence reached here last evening of the drowning of two young men, whose friends reside in Lindsay, named Booth and McDonald, aged about 16 years. They were trying to cross Sturgeon Lake on Saturday last during a heavy wind. The body of Booth was found upon the shore, but the body of McDonald has not yet been recovered.

"Habilliment Hall." For the Newest, Prettiest, Perfect-fitting Linen Collar try Andrew McNeil.

$100 REWARD is offered for any case of Cattarah that can't be cured with Hall's Cattarah Cure. Taken internally. Price 75 cents.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

J. C. ALLAN CO., 83 John street, New York. d62

A. T. STEWART AND DRY GOODS.

The sudden announcement that the great firm of A. T. Stewart & Co. is to retire from business, brings to mind a memorable conversation I once had with Mr. Stewart. We were crossing the Atlantic on the good ship Scotia, Captain Judkins. Mr. Stewart walked the deck more than any other passenger. For the most part he walked alone. He conversed very little with his friends on deck. He appeared to me to be keeping up a great deal of thinking. And he certainly had much to think about. If any man might be oppressed, crushed with cares, this man might be with so many branches of trade, and with interests so widely scattered. But he said to me, one day, while we were speaking of the danger of "flying off the handle,"

"I never gave myself any anxiety whatever about an operation after I have decided to go into it. I look at the matter on all sides with all the light I can get, and when my mind is made up, I determine on it, and that is the end of it. I do not think of it again." "Yes," I said, "that is all very well after you have made so much money that you will not be hurt by the failure of one venture, or two or three, but if your whole property were at stake, if the purchase of a large quantity of merchandize in Europe would ruin you should the price suddenly go down, I think it would keep you awake 'o nights, till you had sold at a profit."

"No, it would not, it never did at any period in my life. I always exercise the best judgement I have, and then let the thing take care of itself. And speaking of making money I suppose you and others, perhaps the public generally, think that I do business for the sake of the money I make. But that is a great mistake. My object in life is widely different from that. I do not care to speak of it publicly, there are many who would laugh at the idea as ridiculous in me, but the truth is that I am at the head of a great moral institution; a seminary where, as its principal, I am teaching the young men of the whole country and the men of business, that the secret of success in trade is found first in absolute honesty between man and man; and, secondly, in selling goods not for as much as you can get for them, but for as small a profit as you can and live. On the first of these principles I require every one of the salesmen to tell customers the exact truth, and nothing less or more in regard to everything offered for sale. He has a great temptation to deceive, for he is to keep and render an exact account of all he sells, and his pay and promotion are regulated by the amout of money he takes in. But if he is detected in having told a customer anything respecting goods not strictly true, he is discharged. This is with me a rule without any exception. And I am training up successive relays of young men who go into business for themselves, or into the employment of others, having learned this principle, that the way to secure confidence and custom is to state only the simple truth in regard to what is sold. This is the lesson taught in my school, which is called a dry-goods store, but it is a great seminary, and is run not to make money, but to do good."

"The second principle is to sell goods for just as small profit as possible. Thus, when the price of a lot of goods is to be fixed, I do not ask how much can I get for them or what is the market price for them now, or what it will probably be in the future; but I get an estimate of the lowest price at which I can sell them and just make a living profit, and the public learns that they pay for my goods as little as the goods can be sold for in lawful trade."

Perhaps Mr. Stewart saw a smile under the surface, a sort of doubtful suggestion, as if this was not the view his neighbors took of his mode of doing business; perhaps he did not see any such expression; but he continued after a pause: "You, as a religious man, will appreciate these motives, and I speak of them freely to you on that account."

I remember this conversation well. Every thought here attributed to him is given, not in his own words exactly, but with so much caution and precision, that no sentiment or opinion is here mentioned as his which he did not distinctly and decidedly express. It is no business of mine to enquire how much confidence his rivals in trade, who knew his hibits of thought and action better than I, will repose in these statements of his, as the guides and motives of the great merchant. But as the matured judgement of the greatest dry-goods man the city of New York has ever seen, they are worthy of being set down and made much of. His success was not a sudden result of lucky speculation. He did not speculate in personal or real property. I never heard of his over-reaching anybody, by trick, deceit or bluster. He was reputed to be a hard man. Justice was with him, as it ought to be with all men, a higher virtue than generosity. I have heard that he did not give his note when he bought the goods of a neighbor, but made him wait for the pay till it suited the convenience of the great Mr. Stewart, though the smaller dealers suffered for want of it. These things may not be true. And they do not affect the two principles he proposed to me as the governing rules of his business.

And they are just the lessons that young men in the world of trade should take into their hearts as the man of their counsel and the guide of their lives. We do not believe the half that is told us in the trades we make from day to day. And the worst of it is the ways of trade are so well understood that we do not expect to be told the whole truth when we are buying. I am not now discussing the old vexed question as to the duty of one who in selling, to inform the buyer of all the defects of the article he offers. Let that be for the present. But the Lord of the conscience knows that the seller who answers a question untruthfully, or uses any evasion, trick, subterfuge or concealment, for the purpose of deceiving the buyer, is at heart a rascal. It is not needful in order to be a bad man, to rob the till, or alter the figures in the account book, or keep back part of the money received when making returns. To state the original cost to be more than it was, to give qualities to goods that are soon found to be fictitious, to give the buyer a false impression in regard to the property offered for sale, whether it be a house, or a horse, a book or a broom, is to lie about it. The clerk who indulges in this vice, whether for his employer's good or his own, is sapping the basis of all good character, and training himself to steal, to gamble and to swindle. He may get money. Nine out of ten young men in business think that success means getting rich. But Mr. Stewart held scrupulous integrity, the nicest honor in dealing with women, who were his principal customers, to be the true foundation of success in trade. And I have often heard women say, while Mr. Stewart was alive, they were always sure that they got at Stewart's the thing as it was represented to them. Precisely the same is true of the other great houses in the city. They are governed by men of undoubted integrity, who would apply to their clerks and agent the same rule Mr. Stewart did. And they would not be what they are if they did not. That is something for young men to think of. Let it be a matter of rumour and suspicion that the great dry-goods house of Ketcham & Cheatham is run upon the principal of selling all the goods they can by fair means or foul, that you never can depend upon a word they say, that the "calico will wash," as the clerk said it would, but that the colors will all "run" when washed, and that great house will lose its prestige and its customers; and by and by its doors will be "closed on account of a death in the family," and never opened again.

Perhaps the standard of commercial integrity is not so high as it once was. But it is high enough to sustain the principles which Mr. Stewart professed to me as we paced the deck of a steamer in mid-ocean.—*Irenæus, in New York Observer.*

FROM ALL OVER.

ROBERT ESDAILE, president of the Montreal corn exchange association, died on Wednesday.

CAPT. JOHN T. GRAHAM of St. Catharines who was thrown from a buggy about a week ago, died on Wednesday.

HALL'S Catarrah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

THE Sultan has presented Mr. Wallace, United States Minister, with a painting representing a Turkish girl. Mr. Wallace has not accepted it.

USELESS FRIGHT.—To worry about any Liver, or Kidney or Urinary Trouble, especially Bright's Disease or Diabetes, as Hop Bitters never fails of a cure when a cure is possible. We know this.

LADY MARY CAMPBELL, sister of the Marquis of Lorne, and the Rev. Carr Glyn, were united in matrimony at Kensington in the presence of a distinguished company on Wednesday.

COLONEL CHAMBERS, who presented Garibald's sword to the city of Rome, has been created Commander of the Order of Maurice and Lazaries.

CALLAGHAN, the man who was so brutally stabbed by Gibson at Eastman's Springs, has been removed to Ottawa and placed in the general hospital. He is in a very critical condition, and is not exected to recover.

MESSRS. JOHN RIORDAN and George Barber are in Ottawa to interview the Government relative to the lease of water power for the new writing paper mill at Cornwall which, it is expected, will be in active operation in a couple of months.

SPECIAL DEPUTY SHERIFF, Mr. Michael Shelly residing at No. 28 Oliver Street, New York City, says: "My wife would not be able to walk to-day, but for the benefit she has received from St. Jacobs Oil. It is a most wonderful medicine; an unequalled remedy. My wife was an invalid when she began its use now she is well."

AT Muskegon, Nellie Tuttle, a woman 40 years of age, was found dead in bed, her decease said to have been caused by suffocation from liquor and a severe beating by her paramour.

"Now you may not think it remarkable, but I do, that St. Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks, says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

LIEUT. HARRY FREER, of the South Staffordshire regiment, at present in Malta, has been ordered to Egypt. This young gentleman is a graduate of the Royal Military College, Kingston, and eldest son of Mrs. Harry Abbot of Brockville.

THE WELL KNOWN drug firm of N. C. Polson & Co., of Kingston, writes that Dr. Fowler's Extract of Wild Strawberry has long been considered the best remedy for summer complaints in the market, and adds that their customers speak in the highest terms of its merits. Wild Strawberry is the best known remedy for Cholera Morbus, Dysentry and all bowel complaints.

THOSE affected with weak lungs, sluggish liver or Derangements of the Kidneys, should procure a package of Dr. Carson's Liver and Lung Compound. Each 50 cent package makes three pints of syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by J. D. Tully, druggist.

LIVER COMPLAINT, is rather an indefinite term, as commonly understood it consists of a torpid sluggish state of the liver, a deficiency or superabundance of bile, or any alter ation from its proper character. All disturbed action of the liver and biliary organs giving rise to a pain in the side, or under the shoulder blade, headache, weariness, dizziness, sick stomach, loss of appetite, bad bowels, etc., are promptly cured by Burdock Blood Bitters.

On Wednesday forenoon Wm. Friend, a blacksmith living at No. 39 Lippincott street, Toronto attempted suicide by cutting his throat with a razor. He made a gash about an inch and a half in length by about a quarter of an inch deep, just immediately beneath the jawbone, and close to the jugular vein. From the wound blood was flowing freely. Friend has been drinking freely of late.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation palced upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung disease by Dr. Souvielle's Spirometer and instrument, which conveys medicinal properties direct to the seat of disease Read and judge for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of *Post* and *True Witness*, Montreal. Mr. C. Hill, Montreal, catarrah and bronchitis. Mr. DeBoucherville, of the Indian Deparment, Ottawa, catarrh of many years, now cured; Mr. Geo. Ager, Ottawa, cattarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., Catarrh and Bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrahl deafness. Thomas Telfer, 12 Merinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma, and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitation in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis, John C. Fleming, Editor of *Post* and *True Witness*, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physiciann always in attendance. Every information given. Physicians and sufferers can try the Spirometer free.

For a Perfect-fitting White or Coloured Shirt, with or without Collar, try "Habiliment Hall."

R. W. MUNCASTER.

WELLAND CANAL.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on Tuesday, the Eleventh Day of July next, for certain alterations to be made to, and lengthening of Lock No. 2 on the line of the old Welland Canal.

A map of the locality, together with plan and specifications of the works to be done, can be seen at this office, and at the Resident Engineer's office, Thorold, on and after Tuesday, the Twenty-seventh Day of June next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that an accepted Bank Cheque for the sum of $1,500 must accompany each tender, which sum shall be forfeited if the party tendering declines to enter into contract for the execution of the work at the rates and prices submitted, and subject to the conditions and terms stated in the specifications.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
F. BRAUN,
Secretary.

R. CHAPIN.

Lakefield, March 17th, 1881. 11w

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. d1 1w1y

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

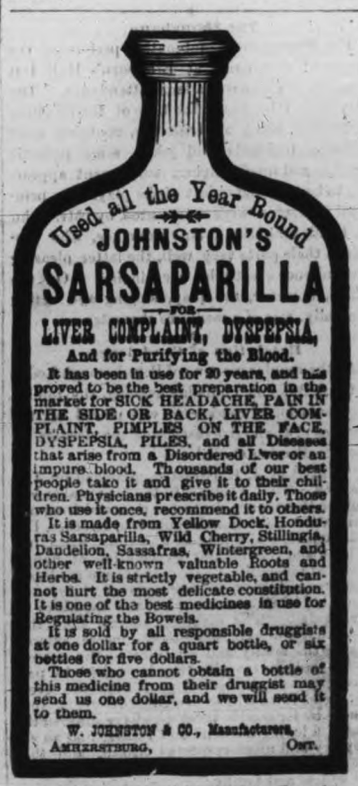
SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.



In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an Impure Blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

FRIDAY, JULY 7, 1882.

LOCAL AND MUNICIPAL.

Another Blank.

There were again no cases before the Police Court this morning, and the cells were empty last night.

Bad Sidewalk.

We would call the attention of the authorities to the sidewalk on McDonnell street, nearly opposite Whyte's Foundry, where a few bad holes renders an accident liable to occur.

Representative to the Grand Lodge.

On Thursday evening, Mr. J. R. Stratton, D. D. G. M., was elected representative of Peterborough Lodge No. 111, to the Grand Lodge of Oddfellows which meet in Toronto in August.

Another Dip.

To-day, about 12.30, a little imigrant boy living on Water Street, fell into the river and was nearly drowned. This is the second time for this lad to have met with a ducking, and had it not been for timely assistance, to-day, it might have been his last.

The Weather.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 10 a. m. to-day, by the Great North-western Telegraph Company, are as follows :—Lakes—Fresh to strong, southerly to south-westerly winds, increasing cloudiness and rain. Warm and clearing on Saturday.

Midland Railway of Canada.

The Traffic of the above Railway for the week ending July 1st, 1882, was as follows :—Passengers and Mails, $8,001.10; Freight, $20,164.54; Total, $28,165.64, as compared with $17,776.78 for the corresponding week of 1881, being an increase of $10,388.86; and the aggregate traffic to date is $479,638.98; being an increase of $129,274.50 over 1881.

Body Recovered.

The boy Gain, who was drowned nearly two months ago, was noticed on Thursday evening by two young men coming up the river. The body was lying on an old tree on the right hand side of the river, below Robinson's Island, and had evidently been in that position for a considerable time. The remains were brought up to the Cemetery at 5 a. m. this morning.

Stop Thief!

Chief Johnston has posted up in his office the description of two men who are wanted by the police. One is supposed to be a tramp, who stole from Mr. E. Rutledge, of Darlington, about $200 in money and papers of considerable value. The other is Benjamin F. Bigelow, a defaulting Washington bank teller, for whose arrest a reward of $1.000 is offered. The Chief has received a photograph of the latter gentleman.

The Shaughaun.

The Shaughaun Combination performed the drama of that name at Bradburn's Hall last evening. There was a large attendance. The play is an Irish one of the time of the rebellion in '98, and, being an Irish one, contains some amusing incidents and jokes, some pathetic touches and much singing, amusement appearing to be the chief object of the play. The principal characters were represented by Mr. John F. Hinds and Miss Ivian Lawrence, who sustained their parts very well, the latter pleasing the audience greatly by her singing. On the whole, however, the play, singing and acting generally, was of a mediocre character.

Resolution of Condolence.

At the regular meeting of Peterborough Lodge of Oddfellows on Thursday evening, the following resolution of condolence was placed on the minutes of the Lodge respecting the decease of the late Brother Carlisle :—

"Moved by J. R. Stratton, seconded by J.J. Hartley,—That whereas, in the inscrutable wisdom of Providence, death has removed from our association and fellowship our late Brother, David Carlisle, and that, too, at a time when full of hope and the highest expectation of happiness and prosperity. He was always moderate in counsel, earnest in discharge of duty, and agreeable in intercourse with the members of our Lodge. The members thereof take this opportunity of expressing their sincere sympathy for the family and relatives in the sorrow and severe dispensation they have had to pass through, and we sincerely pray that the great Father of Love will so overrule the event that it may be for good to those who have suffered the loss of a loving husband and father, and an exemplary and much-respected citizen, and that the Secretary convey a copy of this resolution to his widow and family."

OUR FACTORIES.

Dickson's Race Lively—Enlarged and increased Appliances—More Workmen.

By no slow degrees we are advancing to that position which Peterborough may confidently expect to fill, that of an important manufacturing centre. Our old factories are being enlarged, others are springing up and still others are projected.

A visit to Dickson's dam shows quite a development of the industries in that district, among others

THE MCKEE FURNITURE FACTORY.

The increasing business of the Messrs. McKee Bros., has rendered it necessary for them to secure larger premises in which to carry on their work of manufacturing parlour furniture frames. They have removed into the new and larger shop on Dickson's race, where they have added largely to their machinery and are preparing to do much more work than formerly. The lower story of the building is used for the planing mill, in the second the parlour frames are got out and in the third they are put together and made ready for shipment, while the fourth story or garret is used for a storeroom. Messrs. McKee have added to the number of hands employed by them, and in a few months the number of men engaged by them in the parlour frame manufactory and the planing mill will be doubled. Their cabinet work is widely known throughout the Dominion, and in the enlarged premises and with their increased machinery, they will be enabled to manufacture twice the amount of goods in this line that they formerly did, and expect to be able to do even better work. They have commenced operations in their new premises, and on Monday they will have the machinery all placed in position and in working order. We are pleased to note this evidence of their success, and wish them increased prosperity, which their energy and ability entitles them to, and will no doubt bring to the them.

FORSYTH'S PUMP AND IMPLEMENT FACTORY.

Into the building immediately south of that occupied by McKee Bros., Mr. Forsyth has moved his fanning mill and pump manufactory. This building is three stories high, and in it Mr. Forsyth has placed a large amount of new machinery. He will in these premises be able to do more than double the amount of work that was done by him before, and having procured the newest and best appliances for this kind of of work, his mills and pumps will be of the first order. In addition to the above, Mr. Forsyth does turning work. The number of men employed by him is about doubled. He has commenced work in the new premises, and it will be continued with vigour.

BRODIE'S WOOLLEN MILLS.

The Messrs. McKee having vacated their former premises, Mr. David Brodie is preparing to extend his business by using the whole building for his woollen mills. He has already received large consignments of machinery, which is being placed in position, and in three weeks he expects to be able to recommence operations on a largely increased scale. Of this industry we will say more anon.

DROWNING ACCIDENT.

A Young Man on Hilliard's Drive Drowned Near Buckhorn.

On Wednesday afternoon, between five and six o'clock, a young man named Edward Fitzgibbon, of Ashburnham, was drowned below Buckhorn. He was employed on Hilliard's drive of logs, of which Benj. Cooney is foreman, and left his home in Ashburnham early on Wednesday morning to go back to the drive. He was alone in a canoe, and when a short distance from the drive, he was by some means thrown ont of the canoe into the water. A woman on the shore saw him fall out and heard his screams, but could not render him any assistance. Some men at the camp of the drive also heard the screams of Fitzgibbon and the woman and ran to the scene, but they were too late. Fitzgibbon had sank under the water. The accident occured only a short distance from the shore, and it is thought that it was caused by a strong wind which was blowing at the time. The canoe was found on the shore, right side up, and the young man's coat and the paddle were still in it. He was 27 or 28 years of age. It was rumoured to-day that the body had been found, but the family have received no information to corroborate the rumour. Active search is being made by relatives of the unfortunate young man, and it is hoped that the body will yet be recovered.

Lakefield vs. Peterborough.

A cricket match will be played to-morrow afternoon on the Ashburnham cricket ground, between the Lakefield and Peterborough Cricket Clubs, commencing at 12 o'clock.

Progress.

The progress made in laying down the mains for the waterworks is such that the trench is now dug as far down George street as Edinburgh street, and the work of putting in the pipes has been completed to the corner of Smith and George streets and is being continued down George street.

Annual Sermon.

The True Blues of this town have made arragements with the Rev. Mr. Shaw to preach the annual sermon to that body on Sunday evening, the 9th July. The members of the Lodge will meet at their Hall on Simcoe street at 6 p.m. sharp and march in a body, in full regalia, to the George St. Methodist Church. Orangemen and friends of the Order are respectfully invited to attend.

AMONG THE MOST prevelant fatal and sudden attacks of diseases, are those incident to the Summer and Fall, such as cholera morbus, bilious colic, diarrhœa, dysentry, etc., that often prove fatal in a few hours. That ever reliable remedy Dr. Fowler's Extract of Wild Strawberry, should be at hand for use in emergency.

Our Balbriggan Underwear are the admiration of all who see them. All sizes at "Habiliment Hall."

WATER WORKS.

The following letter appears in the *Examiner* :

DEAR SIR,—In the last issue of your paper there is a communication signed "Ratepayer," in which some statements are made that are incorrect.

1st.—It is stated that the present Company "*are proceeding under a special Act of Parliament.*" This is untrue. The By-law states the Act under which the company are proceeding, and it is a general act. It is true the act was amended at the last session by a general act amending the former one. The amending act was brought in by the Hon. Attorney-General Mowat, and gives the present company no special rights or privileges, and it does not "tax all the ratepayers of the town for the use of their water by but a portion of it." A reference to the statutes will prove this.

2nd.—It is not true that "if the water is required for any other than fire purposes it must be paid for seperately." The By-law provides that the sum to be paid by the town for the use of the fire hydrants shall cover the use of the same for all public purposes.

The number of hydrants required to protect the property of the town against loss by fire, is within the competence of the council to decide but no property can be taxed by the council for the same, unless the parties desiring the protection ask for it and agree to pay for it, as in the case of gas lamps, street watering and other local improvements.

The present company are putting in the works as economically as the town could do under the other act referred to in "Ratepayer's" letter, and they have found that the works will cost in the neighborhood of $70,000. They have to pay a man competent to oversee the work $900 per year, and he will require at least two men under him, and those men if fit to be left in charge of the works during day and night, will have to be paid at least $1.25 per day, as no man can at present be got to do even ordinary labourer's work at a less rate of wages. The works to be of any real benefit must be always ready, and no one man could keep them in such an efficient condition as the by-law requires. The two pumps which have already been ordered, are capable of throwing six hundred gallons per minute each, and provision is being made n the pump house for another pump of an equal or larger capacity. As the town has the right to purchase the works at a valuation at the expiration of ten years, it will be manifest, I think, to all, that the works should be of a permanent and efficient character. The works will be completed without any cost to the town, and it will rest with the Council and ratepayers what amount of return the company will get for the outlay. It can do no good to misrepresent matters, or attribute dishonest motives to men who claim to have the interest of the town at heart as much as "Ratepayer."

Yours, &c.,
D. G. HATTON,

Peterborough, July 4th, 1882.

Swimming Trunks, Lacrosse Belts and shoulder Braces will be found at "Habiliment Hall."

IF Cattarah has destroyed your sense of smell and hearing, Hall's Catarah Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

THERE would be little if any sickness during the hot months of July and August, if every one would take Carson's Stomach and Constipation Bitters, as they prevent and cure all derangements of the Stomach and Bowels. Sold in large bottles at 50 cents by J. D. Tully, druggist.

C. BRITTON, Lindsay, Ont., writes :—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sich Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

THE CONTENTED MAN,

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say $3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

W. J. MASON

Daily Evening Review

SATURDAY, JULY 8, 1882.

FROM WINNIPEG.

Enthusiastic Reception of Ministers Caron and Bowell.

WINNIPEG, Man., July 9.—Word has just reached here of the arrival of Ministers Bowell and Caron at Prince Arthur's landing about midnight, from Winnipeg, by the Canada Pacific Railway. Although it was so late, the town was alive with the double excitement of the Algoma election and arrival of the first through train. The town was illuminated, flags were flying, bonfires were burning, and old and young were gathered at the station. As the train ran into the depot bombs went off, steam whistles were blown and people cheered themselves hoarse. When the Ministers appeared on the platform of the car they cheered again and again. Bonfires made the station grounds as light as day, and the Ministers and their friends had a busy time of it shaking hands and acknowledging the hearty welcome of the people. The Ministers start for Ottawa by the first steamer. Trains started on the return journey to Winnipeg this evening.

FENELON FALLS.

SMITH'S MILLS.—The *Gazette* says that Mr. R. C. Smith's mill south of the river commenced working night and day on Monday last. This was rendered necessary by the removal of a part of the saws and machinery, which were worn out, and will be continued until new ones have been put in, when the night work will be discontinued. The old mill has been idle since the other commenced operations some weeks ago, but it is to be overhauled and set to work again as soon as possible. A sheet iron roof has been placed on the refuse kiln, the brick archway over which collapsed about a month ago, and, so far, the metal has resisted the fervent heat of the fiery furnace below.

RUNAWAY.—Last Saturday a team of spirited horses owned by Mr. Thos. Moynes, of Fenelon, took fright at the noise made by a pig in trouble (whether it was "a pig in a gate" we do not know,) and ran away. The little affair happened on Mr. Moynes farm, and as the horses went over or through two or three fences on their way to the barnyard, the waggon to which they were harnessed was so badly damaged that it had to be brought to Mr. Sandford's shop, in this village, for repairs; but, fortunately, the parts broken were all small, and it did not cost much to replace them.

IRELAND.

THE waterworks for the town of Wicklow are now finished and an abundant supply of pure water available for the inhabitants.

DR. WILLIAM STERLING, of Kilkenny, died on June 14th, of inflammation of the lungs, believed to have been brought about by blood poisoning, contracted during a post-mortem examination. He was in his 34th year.

LISTOWELL was excited on June 13th by the rumor that the daughter of a local land owner had eloped with her father's coachman. This subsequently proved to be well-founded, and the runaway couple have been traced to Queenstown, whence, it is believed, they intend proceeding to America.

JOHN LATDEN, a herdsman, who was forced a short time since by Moonlighters to swear to cease herding a boycotted farm at Knockadalteen, and who continued to herd the farm, attended with his wife, at Drumbon chapel, on June 11th, carrying revolvers and escorted by four policemen, who remained with loaded rifles in the chapel yard during Mass.

THE Dublin *Freeman's Journal* says that for the administration of the Repression Bill the country has been mapped into six districts under magistrates having control of the military.

The Reporter.

The Hon. Mr. Bowell, who has had considerable experience in newspaper work, spoke in his address at Winnipeg of the benefits of the telegraph and newspaper, and paid reporters the following compliment: "Many a man's reputation has been built up by the work of reporters, and many a night have I sat fixing up the speech of some orator, and I thought how surprised they must have been to see how well it read in the papers next morning—the production of the brains of the reporter."

Boys' White Dress Shirts in all sizes just received at "Habiliment Hall."

MIDNIGHT TELEGRAMS

CABLE.

ANTI-GERMAN FEELING.

ST. PETERSBURG, July 7.—The sudden death of General Skobeleff after his recent appointment as military commander of the district of Wilna, containing the largest German population in Russia, is believed by the populace to have been caused by foul means, and the anti-German feeling is fiercely revived.

CAVENDISH MURDER.

DUBLIN, July 7.—Five hundred fresh placards, offering £20,000 for the discovery of the murderers of Lord Cavendish and Mr. Burke, were posted to-day.

IN THE HOUSE OF LORDS.

LONDON, July 7.—In the House of Lords to-night the Repression Bill passed its first reading.

THE DEFEAT.

LONDON, July 7.—The supporters of the Government do not think a Ministerial crisis will result from the vote on Mr. Trevelyan's amendment to-day, as Mr. Gladstone feels that the vote was especially directed against himself. If Mr. Gladstone, however, should go through the form of resigning it is understood his resignation would not be accepted. The Liberals attribute his defeat to the bad management of their whips.

CABINET CHANGES.

CONSTANTINOPLE, July 7. — Abdurrahman Pasha, President of the Council of Ministers, has resigned, and Kadri Pasha has been summoned from Adrianople.

ANOTHER NIHILIST PLOT.

ST. PETERSBURG, July 7.—It is stated that nine thousand copies of a revolutionary proclamation printed by a secret press and signed by Nicholas Constantinovitch, cousin of the Emperor, have been discovered in the Ministry of Marine, and that immediately after the discovery the director of the department committed suicide.

THE CONFERENCE.

CONSTANTINOPLE, July 7.—The first interpreter of the German embassy has gone to Yeldiz-Krosh. It is stated that the object of his visit is to advise the Sultan to co-operate with the Congress. The dragomans of all the embassies yesterday invited the Porte to join the Conference. A Paris despatch says it is semi-officially announced that the Constantinople Conference yesterday agreed upon the terms under which the Porte will be invited to intervene in Egypt.

TURKISH INTERVENTION.

VIENNA, July 7.—It is believed in Ministerial circles that the Porte will indubitably accept the proposal of the Conference for Turkish intervention in Egypt.

THE PLOT THICKENING.

LONDON, July 7.—The *Times* says:—"It must not be imagined that matters in Egypt will remain as they are indefinitely. Admiral Seymour's orders are imperative, and the fleet will have no choice of action if Arabi persists in his menacing conduct. There is no chance of a relaxation of the firm attitude of England."

PEACE-MAKING.

ALEXANDRIA, July 7.—The French agent has been instructed to do his utmost to prevent hostilities. A meeting of the consuls is being held with the object of trying to induce the President of the Council to give a more conciliatory reply to the communication from Admiral Seymour. The English consul declined to attend the meeting or entertain any suggestion to obtain the consent of Admiral Seymour to meditatory proposals.

THE FRENCH ADMIRAL.

ALEXANRIA, July 7.—The French admiral has received orders to conform with the English if the latter opens fire. It is feared the Arab labourers will refuse to coal the steamers.

TORPEDOES.

CONSTANTINOPLE, July 7.—The Sultan has directed a fresh examination of Berden's torpedoes, and asked how long it would take to execute an order for 200.

A BATTLE.

CAIRO, July 7.—Three thousand Egyptians, under Gen. Yussuf attacked the false prophet and were defeated. They lost 2,000 men, 4 guns and 3,000 rifles. The false prophet with 700 men is marching on Sennaar.

THE MINISTRY DEFEATED.

LONDON, July 7.—In the House of Commons to-day, during the debate on the motion to report the Repression bill, Mr. Gladstone said the Government had taken measuers, unknown to Parliament, to operate against secret societies. An amendment offered by Mr. Trevelyan, Chief Secretary for Ireland, limiting the time of search to daytime, except in the case of secret societies, was strongly opposed by the Conservatives and others. Mr. Gladstone declared that if the amendment was rejected he would have to consider his personal position. The amendment was rejected by 207 to 194. When the figures were announced Mr. Gladstone said that under ordinary circumstances he would have asked the House to postpone further proceedings, but in the remarkable state of Ireland he did not feel it was right for to take that course. The report on the Repression bill was finished at 11 p. m. Mr. Trevelyan moved the third reading, which was carried, Messrs. Collins, Cowen, Labouchere, and Story being the only dissentients.

THE KHEDIVE SHOT AT.

ALEXANDRIA, July 7.—A Montenegrin yesterday attempted to shoot the Khedive, not Arabi Pasha. He said he mistook the Khedive for Arabi.

A MEETING OF CONSULS.
